Presidential Commission

Attached is a copy of a proposed Presidential statement regarding a Commission the President is to appoint to make a public report on the Assassination of the President.

Katzenbach told Evans that Congressman Boggs jumped the gun and made a release, therefore, the President has to put this out promptly. Any changes we want we can suggest.

Katzenbach is now visiting with the Chief Justice to ask him for the President if he will head this Commission.

upon our urgent request, has agreed to serve as Chairman.

The Federal Bureau of Investigation is making a complete factual investigation into the identity and associations of the assassin. ~~No stone is being left unturned.~~ Both this country and foreign nations share our confidence that the Bureau will uncover all the facts. Its report, which will be published promptly, will quiet all rumors and speculation about the evidence.

The final word upon this tragic event cannot be solely the work of an investigative agency. The whole government, indeed the whole people, is too intimately concerned. The evidence brought out by the Bureau's investigation, plus any additional evidence that may come to light in the pending trial of Rubenstein, in the Texas Board of Inquiry, or through the efforts of investigative or be uncovered, must be examined and appraised. It is essential that this task be confided, on behalf of the entire government, to a board of the highest standing speaking for the entire Nation.

The Board of Inquiry will have before it all the evidence uncovered by the Federal Bureau of Investigation, and also any new evidence or leads to evidence that may hereafter develop. The Board will conduct any further investigation it finds desirable. All executive officers and agencies

are being directed to furnish the Board such services and cooperation as it may request. In due course the Board will make and publish a full statement of its findings and conclusions.

Thus, we and all the world can be confident that the ultimate responsibility for the assassination will be fairly fixed.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY

Deputy Attorney General Katzenbach made available a draft statement to be issued by the President as soon as possible with reference to the formation of a Presidential Commission to look into the assassination of President Kennedy. This has previously been forwarded to the Director's office.

The following additional information was received from Katzenbach. He wanted to deliver the draft statement to the Director himself but could not because he had to see the Chief Justice immediately at the President's request to determine if the Chief Justice were agreeable to heading up the President's Commission. The President wanted Warren to act in this capacity because of his international reputation in judicial circles.

Katzenbach said that the President came to the conclusion he would have to appoint a Commission in this matter because Senator Eastland was adamant in the Senate Judiciary Committee going forward with its own investigation. It was only a Presidential Commission that could forestall action by the Senate Judiciary Committee.

Katzenbach said that from his contacts at the White House, it was obvious that the appointment of this Commission represented no lack of confidence whatsoever in the FBI; that, in fact, the early publication of the FBI report is still most urgent and most important.

Katzenbach also said that any change the Director desired in the proposed Presidential statement could be made and he would be in touch with us just as soon as he returned from the Supreme Court. Since Representative Boggs jumped the gun and put out a press release about the Presidential Commission, the White House feels it essential to announce this publicly later today.

ADDENDUM: Katzenbach advised the Chief Justice had declined to head the Commission. He does not know who may be selected as a replacement. The White House will clear any revised statement with the Director before it is issued.

Deputy AG Katzenbach handed to me this morning the attached memorandum which he has sent to Bill Moyers, who will be the principal assistant to President Johnson in the White House. Katzenbach said that this memorandum was prepared by him after his discussions with the Director yesterday.

It is Katzenbach's feeling that this matter can best be handled by making public the results of the FBI's investigation. He thought time was of the essence, but that the report, of course, had to be accurate. He said he was thinking in terms of its release by the end of the week if at all possible.

Katzenbach further pointed out that he is having no success in selling the White House on the idea that this report should be released there. He understands that President Johnson has expressed himself as feeling this should be handled on a Department of Justice level. It is Katzenbach's belief that it would be most inappropriate for Robert Kennedy to issue this report. Katzenbach asked that the Director be informed of his feeling that, if the report is not released by the White House, then it should be made available publicly by the Director, pursuant to Presidential instructions.

MEMORANDUM FOR MR. MOYERS

It is important that all of the facts surrounding President Kennedy's Assassination be made public in a way which will satisfy people in the United States and abroad that all the facts have been told and that a statement to this effect be made now.

1. The public must be satisfied that Oswald was the assassin; that he did not have confederates who are still at large; and that the evidence was such that he would have been convicted at trial.

2. Speculation about Oswald's motivation ought to be cut off, and we should have some basis for rebutting thought that this was a Communist conspiracy or (as the Iron Curtain press is saying) a right-wing conspiracy to blame it on the Communists. Unfortunately the facts on Oswald seem about too pat--too obvious (Marxist, Cuba, Russian wife, etc.). The Dallas police have put out statements on the Communist conspiracy theory, and it was they who were in charge when he was shot and thus silenced.

3. The matter has been handled thus far with neither dignity nor conviction. Facts have been mixed with rumour and speculation. We can scarcely let the world see us totally in the image of the Dallas police when our President is murdered.

I think this objective may be satisfied by making public as soon as possible a complete and thorough FBI report on Oswald and the assassination. This may run into the difficulty of pointing to inconsistencies between this report and statements by Dallas police officials. But the reputation of the Bureau is such that it may do the whole job.

62-109090—

ENCLOSURE

ENCLOSURE

The only other step would be the appointment of a Presidential Commission of unimpeachable personnel to review and examine the evidence and announce its conclusions. This has both advantages and disadvantages. I think it can await publication of the FBI report and public reaction to it here and abroad.

I think, however, that a statement that all the facts will be made public property in an orderly and responsible way should be made now. We need something to head off public speculation or Congressional hearings of the wrong sort.

SUBJECT: ASSASSINATION OF THE PRESIDENT

Nicholas Katzenbach, Deputy Attorney General, called me at 12:00 noon, 12/7/63 and asked me to come around to his office.

Upon arrival at Katzenbach's office, he showed me a revised press release (attached) to be issued by the White House concerning captioned case. It proved to be principally the same as the one shown to Mr. Belmont and me last night, with the possible slight difference that last night's first paragraph had been stretched over three paragraphs.

Katzenbach asked my opinion. I told him it was unchanged from last night, that it was our view that only the first paragraph of last night's draft be used, or the first three paragraphs of the current draft. Katzenbach agreed, but stated that we would probably be overruled by the White House.

Katzenbach made two additional points. He advised that he believed that Warren Olney had accidentally been "dumped." He stated that he gave the "go ahead" on Lee Rankin late last night. He added that an approach would be made to Rankin immediately. Katzenbach also told me that our report on captioned matter would be delivered to Chief Justice Warren Monday morning. The Chief Justice apparently does not want it delivered to his home over the week end inasmuch as he does not have a place to safely keep it.

Mr. Belmont telephonically advised the Director of the above matter following my return from Katzenbach's office. We called Katzenbach and advised him of the Director's strong feelings regarding the press release. Katzenbach stated that Sorenson of the White House agreed with us, however Abe Fortas disagreed. Katzenbach is to talk with Fortas this afternoon.

S RELEASE DIRECTED BY Mr. GUTHMAN 12/7/63

On instructions of President Johnson the Department of Justice today transmitted directly to the Presidential Commission the Federal Bureau of Investigation's first report on the assassination of President Kennedy.

The FBI's investigation is continuing and further reports will be made to the Commission. President Johnson has directed the Department of Justice to press the investigation until all avenues of exploration into every facet of the assassination and subsequent related events have been exhausted.

The President's Commission has requested that the report not be made public until the Commission has reviewed it and taken whatever action may be necessary to accomplish its mission.

However, in the public interest, the President, with the concurrence of the Commission, has authorized the Department of Justice to make the following points:

(1) While the Commission will make the final determination, in the opinion of the Department of Justice, the FBI report through scientific examination of evidence and through testimony, establishes beyond a reasonable doubt that Lee Harvey Oswald shot President Kennedy on November 22, 1963. The evidence includes ballistic tests, fingerprints and palm prints, clothing fibers and other technical data which places Oswald at the scene of the crime and establishes that

62-109090-4

ENCLOSURE

he fired the shots which killed President Kennedy and wounded Governor Connally of Texas.

(2) The FBI has made an exhaustive investigation into whether Oswald may have conspired with or been assisted by any person, foreign or domestic, in carrying out this dastardly act. In this regard, the FBI has questioned hundreds of persons and checked out numerous rumors and reports. No stone will be left unturned in probing every possible lead, but to date this aspect of the investigation has been negative. No evidence has been uncovered indicating that any person, including Dallas night club owner, Jack Ruby, was involved with Oswald in the assassination of President Kennedy.

The report transmitted to the Commission contained two volumes of _____ pages, summarizing the FBI's investigation up to December _____, and three volumes containing _____ exhibits.

Reference is made to your request to be advised of any derogatory information available in this Bureau's files concerning J. Lee Rankin, former Solicitor General of the United States.

This Bureau conducted an applicant-type investigation in January, 1953, at which time Mr. Rankin was being considered for the position of Assistant Attorney General. Also, this investigation was brought up to date for the Atomic Energy Commission in 1955 as Mr. Rankin was then being considered as the Department's representative to the President's Committee on Disarmament Problems. Both investigations were entirely favorable and copies of the investigative reports thereof have previously been furnished the Department.

Our files contain no subsequent pertinent information concerning Mr. Rankin. (77-55004; 116-421465)

NOTE: Memorandum 12/6/63 A. Rosen to Mr. Belmont reflected a request by Miller for a name check concerning Rankin, who is being considered for the post of chief counsel for the Warren Commission which is inquiring into the circumstances surrounding the assassination of President Kennedy. Relations between Rankin and the Bureau have been excellent.

DATE: December 6, 1963

FROM : C. D. DeLoach

SUBJECT: ASSASSINATION OF THE PRESIDENT

Deputy Attorney General Katzenbach called me at 10:45 p.m., 12-5-63. He told me that Sandy Smith of the "Chicago Sun-Times" had called Guthman several times relative to the attempted assassination of General Edwin A. Walker by Lee Harvey Oswald. I told Katzenbach that we too had received a number of calls, however, had refused to make any comment whatever in this matter although we knew the story was getting out. Katzenbach told me that Pierre Salinger of the White House had called him and wanted guidance on what to say in the matter. Katzenbach told Salinger inasmuch as the story was apparently already out that Salinger should go ahead and merely confirm the fact that apparently there was evidence that Oswald had made an assassination attempt upon General Walker's life.

Richard Gid D.C.

Katzenbach told me that the Associated Press (AP) had picked up a rumor that the FBI report on the assassination of the President and the murder of Oswald was now over in the Department. He wanted to know if we had received any inquiries in this regard. I told him we were deluged with inquiries during the past several days as to when the FBI would complete the report, however, we had made no comment and intended to stick by this. He stated that Senator Russell at the Presidential Commission meeting yesterday, 12-5-63, had been somewhat sore that information contained in the report was leaked out. Katzenbach stated he told Russell that Director Hoover had assured him that the FBI was not giving any information to the press and that he further stated he would check with the FBI to make certain that this was not being done. I asked Katzenbach if he had any information that facts given to the press were coming from the FBI. He stated he had none and that was not the purpose of his call. He indicated he merely wanted to advise me of Senator Russell's feelings. I told him he should keep in mind that almost every police officer in the Dallas Police Department has been furnishing information to the press. I mentioned that Henry Wade, the prosecutor, the Chief of Police and Captain Will Fritz had had a field day in giving out all available facts. I mentioned there were still a considerable number of reporters in Dallas and that the evidentiary reports which we had furnished the Dallas Police Department were still being quoted on a daily basis. Katzenbach stated he knew all of this but that he had been unable to convince Russell that such was the case. I further told Katzenbach

that before looking at the F as to possible "le " he should carefully examine his own house. I told him I w quite thoroughly fr r with the way Guthman and Rosenthal dealt with the press and that as he w new the wire service people stayed constantly in Guthman's private office. I to n it was quite obvious to me how the AP had learned that the report had been sent over to the Department.

Katzenbach reiterated that he had no complaints against the FBI. He stated again that the purpose of his call was to tell me about Senator Russell's feelings.

He added that he had another reason for calling and that was to determine if we could give him any ideas as to how Warren Olney could be dropped as Chief Counsel of the Presidential Commission. I told Katzenbach of our feelings concerning Olney. He stated that he was presently working through Congressman Hale Boggs and he thought he was going to be successful in getting Olney's name removed from consideration. He told me that Boggs was very sympathetic.

Katzenbach mentioned that Waggoner Carr, the Texas State Attorney General, would like very much to see the Director on Friday, 12-6-63. I asked him what for. He stated that Carr had no particular motive in mind other than to indicate to the press later on that he had discussed matters with the Director. I told him I could see no percentage in the Director's seeing Carr, that we were the investigative agency and that Carr's dealings should be with the Department and the Presidential Commission. Katzenbach indicated that the White House might think otherwise. He stated that the President was most anxious for Carr to be given attention in Washington inasmuch as Carr was running for office next year. I told Katzenbach I knew this, however, I still felt that the Director should not be injected into this matter. Katzenbach stated he would attempt to disuade Carr from seeing the Director, however, Carr was quite persistent.

ACTION:

In view of the close friendship which Carr obviously has with the President, the Director may desire to just shake hands with Carr without sitting down and discussing facts concerning our report.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Belmont DATE: 12-5-63

FROM : C. A. Evans

SUBJECT: ASSASSINATION OF THE PRESIDENT

Deputy Attorney General Katzenbach advised he attended the organizational meeting of the President's Commission to report on the assassination of President Kennedy held today. He noted that the meeting did not get around to the point of discussing the appointment of Chief Counsel or other staff members. The consensus of Commission members was that it would be inadvisable to have a large number of witnesses to testify before the Commission but rather the report submitted by the FBI and other agencies should be fully utilized. In this regard, questions were raised as to the evaluation of information furnished by various witnesses. Katzenbach was asked, for example, whether the Commission would be furnished with background information including a criminal record, if any, on various persons interviewed. He said he told the Commission members that this would be highly impractical as obviously the FBI could not conduct a background investigation on every person they interviewed. On the other hand, he noted that if the testimony of a particular witness, who had been interviewed by the FBI, was inconsistent with other known information or otherwise questioned, then he believed the FBI would honor a Commission request for additional facts on such a witness. It was suggested that once the Commission is organized, it might be desirable to have a liaison arrangement directly between the Commission and the FBI if it related to investigative matters.

With reference to the FBI report, which Katzenbach received today, he said he was having it reviewed by his attorneys and he planned to read it himself tonight. It is Katzenbach's feeling that unless he notes something of a particularly disabling nature, he felt the report should go to the President as prepared by the Bureau without any change. He hopes to do this tomorrow because obviously the Commission cannot begin any activity until they have the report.

Re: Assassination of the President

G. D. C.

At the meeting today, Katzenbach said Senator Richard B. Russell, a Commission member, was most sarcastic in asking whether the Commission would get the report before the FBI had leaked all of its contents to the press. Katzenbach said he immediately spoke up and said that he had talked with the Director and other ranking officials in the FBI and he knew that no leak of information from the FBI to the press would ever be condoned. He said he told Senator Russell that newspaper reporters have their own ways of developing information and just because they get a story it does not mean that it was leaked to them.

The position of Texas State Attorney General Carr, is, according to Katzenbach, most untenable. Carr at the request of President Johnson announced that he was going to have a State Board of Inquiry look into the President's assassination. Now White House officials have told Carr it would be inadvisable for him to proceed. Carr is in Washington and will probably see President Johnson. Katzenbach anticipates Carr will make some kind of statement to the press pointing out that investigation in this case has extended to many areas outside the State of Texas and that action by the Federal Government is the only way the full story can be ascertained. This will be his excuse for not proceeding with the State Inquiry.

ACTION:

Any further information received concerning this matter will be brought to your attention promptly.

Re: Assassination of the President

ADDENDUM (AHB:csh), 12/6/63:

Mr. Katzenbach called me on the night of 12/5/63. He said he had read our report and it was "sensational." He wanted to know whether we thought a public statement should be made, either by the Department or the White House, to the effect that the report was finished, and the status of the matter. I advised him we had no opinion on this; that this was up to the Department; that we had done the investigation, and were continuing to follow out leads, and we had given the report to the Department.

Katzenbach said if we did not object he would go through with his original promise and let high officials of CIA, State and Secret Service look at this report on the morning of 12/6. I told him we had no objection.

Katzenbach asked whether we had any views as to how the report should be transmitted to the White House or the commission. I advised him that, here again, the commission had not asked the FBI for the investigation; that the President had, and that we had done the investigation, prepared the report, given it to the Department, and it was up to the Department to decide what should be done with it.

Mr. Katzenbach said that if Warren Olney is appointed as counsel for the Presidential commission, Katzenbach is going to try to get an attorney from the Criminal Division in with the commission, so that he will know what is going on.

Katzenbach said he would probably like to get together with us on the morning of 12/6 to discuss the report, although he had very few questions. I told him we would come over and discuss it with him at any time he wanted.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY

Deputy Attorney General Katzenbach telephoned on the evening of December 2, 1963. He advised that Chief Justice Warren had taken a very strong position in opposition to the publication of the FBI report in this matter. The Chief Justice is said to feel that the only report which should be published is that of the President's Commission itself. Katzenbach noted that the President had not as yet reached a decision in this regard, but that the Chief Justice's position is so strong that if the President should not agree with him, Katzenbach feels that the Chief Justice would resign from the President's Commission.

Despite this, Katzenbach felt that the FBI report would be most helpful both to the President and to the Commission. It is still felt that some type of statement has to be made to put a stop to the many rumors and this statement would be prepared on the basis of the material in the FBI report.

All we will do is to furnish the report to Katzenbach for any suggested deletions & then if Mr. Evans & will go to the President. We will make no statement & adhere to no comment.

November 22, 1963

At 6:10 P.M. Deputy Attorney General Katzenbach called. He said Chief Justice Warren had called a meeting of the Commission appointed by the President for 10:00 A.M., Thursday morning. Justice Warren wants a high-level liaison man from any interested agency. Katzenbach will attend the meeting but he feels that the FBI should have someone there also to answer any questions the Commission might have regarding the scope of the investigation, etc. Katzenbach thinks the Bureau representative should be the Director or Belmont. I made no commitment to Mr. Katzenbach, but I recommend we advise him that our report in this matter will speak for itself and until the report is ready, there is no real purpose in an FBI representative being present at the Commission meeting. With respect to this, it is noted that Katzenbach felt it was better to show willingness to cooperate with the Commission in every respect.

Katzenbach said that there are problems arising between the Texas Board of Inquiry headed by Texas Attorney General Carr and the Presidential Commission headed by Justice Warren; that Texas wants to go ahead with an inquiry and Warren wants them to hold off. Attorney General Carr and the past president of the Texas Bar Association are to come and see Katzenbach tomorrow, at which time he will try to calm the waters and establish ground rules. Katzenbach wanted to know if we wanted to talk to Attorney General Carr and the others. I told him we did not, that we were busy investigating this matter and trying to get out our report.

Mr. Katzenbach asked whether I could give him a timetable on the report. I told him no I could not, that we were working as hard as we could and that was all I could say.

Mr. Tolson

On the morning of 12/4/63 I called Mr. Katzenbach and advised him that we see no real reason for us to have anyone at the meeting of the commission on Thursday morning; that there is nothing that we can contribute at this time. I pointed out that we were working on the investigation and the report, and will submit it to the Department as soon as possible, and until that time we are not saying anything.

Katzenbach said he felt this puts him in a rather peculiar position and at least he would like to have someone come down before the Thursday morning meeting and brief him as to what we are doing, so that he could be in a position to answer questions. I told him that this was undesirable; that if the question is raised as to what the FBI is doing, there is a very simple answer, namely that we are pressing the investigation and the writing of the report; that this is our major goal and until this is completed there is nothing we can contribute. I pointed out that there is no question of any reluctance on the part of the FBI, as we are bending every effort to produce the information the commission will need.

Relative to the second point, about the Texas board of inquiry, I told Mr. Katzenbach that the Director feels it would be very unwise for this board to conduct an inquiry now; that they would have to use our evidence, and this evidence is being made available first to the President's commission; therefore, the two inquiries would be at cross purposes. Katzenbach was in full agreement and said his problem is one of convincing the commission of this.

Katzenbach said that he had been talking to Chief Justice Warren, and Warren had indicated to him that the chief counsel for the President's commission will be Warren Olney. Katzenbach thought that this would be most undesirable. Katzenbach said that, as we probably know, Chief Justice Warren thinks that Olney can do no wrong, and he (the Chief Justice) had made the point that Olney is conversant with the FBI's procedures and thus would be operating in a familiar field. Katzenbach said if we have any ideas as to how Olney can be blocked as chief counsel, he would like to have them. I told him that, as far as I was concerned, Olney was an undesirable choice, and if we had any thoughts we would get them to him.

FBI REPORTS ON
ASSASSINATION OF PRESIDENT KENNEDY
and
KILLING OF LEE HARVEY OSWALD

On the afternoon of 12/11/63, Mrs. McHugh, in the office of Chief Justice Warren, called to advise that Mr. J. Lee Rankin, Chief Counsel of the Presidential Commission, would like to go over his copies of the above FBI reports; however, Rankin is in New York. She asked if we had someone going up to NY tonight who could deliver these reports to Mr. Rankin. She said they did not want to trust one of their messengers with these reports.

I told Mrs. McHugh we did not have anyone going up to NY tonight; however, if she would send the reports to my office we would see that they got up to NY and were delivered to Mr. Rankin.

The reports were delivered to my office and have been sent up to NY with instructions to have them delivered to Mr. Rankin, at 35 Sutton Place, New York City.

Senator Keating, (R) New York, spoke concerning a bill he was introducing (S. 2358) to authorize the Commission appointed by the President to conduct an investigation of the facts relating to the assassination of the late President John F. Kennedy to compel the attendance of witnesses and the production of books, papers, and documents, and for other purposes. Senator Keating pointed out "This bill is modeled after the statute which granted similar subpena powers to the special Commission appointed by President Franklin D. Roosevelt to investigate the Pearl Harbor disaster. The Commission which President Johnson appointed last week will exercise an identical function—that is, to ascertain and make public the true facts of a tragic event of great national importance—and it is essential to its task that it be authorized to compel the production of live testimony and documentary evidence—as I am sure they will find and will request."

"Such an authority is indispensable to an adequate investigation, which has far-reaching ramifications as we all know. Even our great FBI does not have the power to compel testimony under oath. This is a fact too few are aware of."

With respect to the story in the "Washington Post and Times Herald" today on page A-3 captioned "Rankin Named Counsel for Assassin Probers," the Director has noted, "I just can't understand how some of these details never known before are leaked to the press."

In the above referred to story, there is what appears to be some speculation as well as hard fact. While we, of course, do not believe it advisable to ask Laurence Stern, the writer of the story, his source, it is known that he is close to various persons in the Department. Also, since copies of the report have been made available to members of the Commission, there is every indication leaks are coming from the Commission itself. It is a fact that within a matter of an hour or two after the report was made available to the Commission local radio stations were broadcasting details. We have and will maintain a "no comment" here.

Rankin Named Counsel for Assassin Probers

A-3

By Laurence Stern
Staff Reporter

Former U.S. Solicitor General J. Lee Rankin was named yesterday as chief counsel for the Presidential Commission investigating the assassination of President Kennedy.

Chief Justice Earl Warren, chairman of the special panel, announced Rankin's appointment and said he "is now in the performance of his duties."

Rankin and the Chief Justice are old courtroom acquaintances. As Solicitor General from 1956 to 1961, Rankin was the Government's top lawyer in cases before the Supreme Court.

A slight, soft-spoken man of 56, Rankin is the first staff appointee hired by the presidential panel. The announcement described him as a "distinguished lawyer."

A spokesman for the Commission announced that each of its seven members has received copies of the five-volume FBI report on the Nov. 22 assassination of President Kennedy and the subsequent murder of the suspected assassin, Lee Harvey Oswald.

The FBI report does not flatly assert that Oswald was the President's assassin, according to informed officials. But it does recite a mass of circumstantial evidence that, in the view of investigators, points to Oswald as the fatal sniper beyond reasonable doubt.

Physical evidence in the case—Oswald's Italian carbine rifle, his revolver, three spent cartridges from the assassination scene, a shirt, fingerprints and several documents—are under lock and key in the FBI laboratory here.

This evidence is available to the Commission on request.

Oswald's fingerprints and palm prints have been recovered from the Italian carbine rifle, a 6.5 mm. Mannlicher Carcano, that ballistics tests showed to be the assassination weapon, authorities reported.

Additional prints were found on a box at the sixth-floor sniper post from which the fatal volley was fired and on the wrapping paper in which Oswald carried the murder weapon into the Texas School Book Depository Building.

Another link in the circumstantial chain of evidence were shreds of material found in metal parts of the murder weapon that microscopic examination showed to have come from a brown shirt Oswald was wearing when he was arrested.

The bulky FBI report consists of two volumes of narrative, developed in chronological form, and three separate volumes of supporting evidence, principally photographs and documents.

A Commission spokesman said yesterday that "no further announcement will be made concerning the report until the Commission had an opportunity to review it. A preliminary statement will thereafter be made public."

It was understood from official sources that the FBI refrained explicitly from naming Oswald as President Kennedy's assassin. There is considerable sensitivity on this point because of criticisms surrounding the handling of the case by Dallas police.

The final responsibility for passing verdict on Oswald rests with Chief Justice Warren and his investigating Commission, authorities say.

In another development the House yesterday passed and sent to the White House a measure granting subpoena powers to the Warren Commission. The Senate passed an identical measure Monday.

The resolutions also grant the Commission authority to grant witnesses immunity from future prosecution as a result of their testimony. This step is designed to encourage witnesses to talk who might otherwise decline to testify on grounds of possible self-incrimination.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY

I called Inspector Malley in Dallas and advised him that the Director has appointed him to be liaison with the President's Commission which is considering our reports of the Assassination of President Kennedy and the killing of Lee Harvey Oswald. Mr. J. Lee Rankin, Counsel for the Commission, has been so advised and will communicate any requests or information from the Commission to Mr. Malley unless, of course, he makes direct contact with the Director.

Inspector Malley was instructed to return to Washington, D. C. today in order that he will be immediately available for any contact by Mr. Rankin. Malley will advise us of his plane reservations when he makes them this afternoon.

I called ASAC Schmidt in New York in the absence of Assistant Director Malone and advised him that the Bureau is making available to Mr. Rankin our direct telephone line between our New York Office and the Bureau for any telephone calls he may wish to make from New York to the Bureau or from New York to anyone in Washington, D. C. Schmidt was told to be sure the switchboard in New York receives such requests from Mr. Rankin. I also alerted Mr. Mohr to this here in Washington to be sure the switchboard here will accept such requests.

Inasmuch as Mr. Rankin has expressed the feeling that the Commission may wish to view the television film showing the shooting of Oswald in the police basement and the film showing the shooting of President Kennedy, I checked and ascertained that we have both these films here at the Bureau. We are making a list of such other film on these subject matters that have been turned in to us and we will maintain this film in readiness for any request from the Commission to show it to them.

SUBJECT: INVESTIGATION OF ASSASSINATION OF PRESIDENT JOHN F. KENNEDY, DALLAS, TEXAS NOVEMBER 22, 1963

The captioned report, which was furnished to the Presidential Commission, set forth the positive results of the Bureau's investigation up to December 6, 1963, but it did not include the results of our extensive investigative efforts in the United States and other countries to resolve the numerous false reports and hoaxes.

It is believed that information representative of these false reports and hoaxes, as well as irresponsible reporting, would be of interest to J. Lee Rankin, counsel for the Presidential Commission. Therefore, there are enclosed a letter to Rankin from the Director and a summary of the results of investigations of several hoaxes and false reports, along with an example of irresponsible journalism.

Dear Lee:

The FBI report, "Investigation of Assassination of President John F. Kennedy, November 22, 1963," which has been furnished to the Presidential Commission, was a summary of the evidence and information developed in our continuing investigation of this case.

This report dealt only with the positive results of the investigation up to December 6, 1963, and did not include the results of extensive investigation necessary to resolve numerous false reports and hoaxes in the United States and other countries. For example, many false allegations were received that Lee Harvey Oswald had been seen in widely separated areas of the United States on or about the date of the assassination. Several instances of inaccurate and irresponsible reporting by news media undoubtedly gave rise to rumors and speculation which resulted in additional false reports to the FBI.

Moreover, it has been necessary to investigate several attempts by unscrupulous individuals to exploit the assassination of President Kennedy. These hoaxes and false reports have caused the diversion of thousands of man-hours of investigative effort.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
Presidential

Our reports will probably be disseminated to the Commission. We are presently getting together additional copies for dissemination.

In order to preclude questions being raised as to what else will be submitted, it is suggested that we have a preface in each report which clearly indicates the status.

In this connection, it is, therefore, recommended that The Assassination Report contain the following preface:

This report in Part I briefly relates the assassination of the President and the identification of Oswald as his slayer.

Part II sets forth the evidence conclusively showing that Oswald did assassinate the President.

Part III is in two sections, the first setting forth what the FBI knew about Oswald prior to the assassination; and the second section setting forth the results of our investigation of Oswald's background, activities, associates, et cetera, subsequent to the assassination.

Three sets of exhibits accompany this report. The first sets out evidence tying in Oswald with the assassination of the President; the other two set out documents relative to Oswald's contacts with the Soviets, the Communist Party, et cetera.

We are continuing to receive leads concerning Oswald and consequently at the conclusion of the report it is stated this investigation will continue in order to resolve them.

Memorandum to Mr. Belmont
Re: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

The Report of the Killing of Lee Harvey Oswald should have the following prefatory statement:

This report covers the killing of Oswald by Jack Ruby. The information developed concerns Jack Ruby; the interview of Ruby; Ruby's whereabouts from November 23 to November 24, 1963; and the investigation by the FBI under the Civil Rights Statutes to determine whether there was any conspiracy involved in the killing.

Attached to this report are two exhibits, one a photograph of the actual killing and the other a diagram of the police department building basement where the killing occurred.

No records were kept of the police officers or news media representatives in the basement at the time of the killing. We have not been able to identify, locate and interview all persons who were present when Ruby killed Oswald. The report reflects that persons identified to us have been or are being interviewed. We have interviewed 98 Dallas police officers and are attempting to identify any others who were in the basement and interview them. An estimated 150 news media representatives were in the basement. We have been able to identify and interview 51 so far, and leads are set out throughout the country to identify and locate others who may have been present. We have no facts at this time to indicate that the stories of these people, when they are located, will be at variance with the facts developed so far. Every effort is being made to locate them so that all possible questions can be resolved.

You will note the statement at the end of this report that the investigation will continue until every possible source of pertinent information has been exhausted.

RECOMMENDATION

If approved, the above prefatory statements will be included in each report submitted in order to preclude unnecessary questions from being asked while the report is being reviewed by recipients.

I called Mr. Malley who had just received a call from Mr. Rankin. I instructed Mr. Malley that he is to comply with any requests from Mr. Rankin at once and let me know in each instance; that Mr. Rankin will only call me on matters of major policy.

I told Mr. Malley he should keep in mind the background of the Chief Justice because of the rather hostile attitude he has taken, but at the same time we want to be of any help we can to Lee Rankin.

I also told Mr. Malley that I will try to see him sometime today.

Mr. Lee Rankin called from New York to check in with me on the matter of the Commission. He wanted to work out an arrangement with me which he thought might be satisfactory. He said he understood Mr. Belmont handled the investigation.

I told Mr. Rankin that Mr. Belmont, Mr. Rosen and I handled the preparation of the report and will handle additional leads as they come in.

Mr. Rankin asked how he should handle anything that comes up, things the Commission will want developed further, in regard to the FBI - whether they should be handled directly with me or somebody I would designate.

I replied that I will designate someone. I explained that I sent Mr. Malley down to Dallas to handle all of our angles down there; that he was on the ground there; and that I think he probably would be the man who would be more familiar with things Mr. Rankin should further explore. I stated Mr. Malley is in Dallas at the present time but will be ordered back tomorrow; that he will be available; and that we will be glad to run out any additional matters he may want.

I advised Mr. Rankin of the difficulty I have had about the Department's desire to issue certain conclusions; that they wanted to issue a statement before the report went to the Commission reaching conclusions Oswald was the assassin, no foreign or subversive element involved, and Rubenstein and Oswald had no connection; that I flatly disagreed; they took

it up with the White House and the President agreed with me that we should reach no conclusion; nevertheless the report does reach two conclusions in substance.

I said I personally believe Oswald was the assassin; that the second aspect as to whether he was the only man gives me great concern; that we have several letters, not in the report because we were not able to prove it, written to him from Cuba referring to the job he was going to do, his good marksmanship, and stating when it was all over he would be brought back to Cuba and presented to the chief; that we do not know if the chief was Castro and cannot make an investigation because we have no intelligence operation in Cuba; that I did not put this in the report because we did not have proof of it and didn't want to put speculation in the report; that this was the reason I urged strongly that we not reach conclusion Oswald was the only man.

As to Rubenstein, I said I did not want a statement about Rubenstein and Oswald; that we have no proof they were ever together. I stated Rubenstein is a shady character from the hoodlum element of Chicago, has a poor background, runs a nightclub in Dallas, and is what would be called a police buff; that the police officers in that precinct have been able to get food and liquor from him at any time they drop in; that while I think there was no connection between him and Oswald, I did not want the report to be 100% sure on that.

Fourth, I stated I did not believe any conclusions concerning Rubenstein should be reached at this time because he has not been tried; that was why I suggested to the Attorney General of Texas - and understood the Chief Justice did too - that his court of special inquiry be held in abeyance until after the Commission makes its findings. I said I thought they would go ahead with the Rubenstein trial in February; that was why I felt our report should name merely the facts we have established.

I further stated there may be some aspects Mr. Rankin will want to have run out further; that there may be letters written to members of the Commission; that we have letters from people who claim to have seen Oswald; that up to the time we submitted the report we had cleared up all these angles except the Cuban thing which I discussed generally and explained that the informer recanted and blew that angle out of the window; that sort of thing may be popping up all the time. I advised Mr. Rankin if he wanted any leads followed out or any implementation of what we have already done we will give him 100% cooperation.

Mr. Rankin stated he knew we would; that he just wanted to establish liaison; that he does not want to bother me until properly

establishing it as a matter I should know. I told him not to hesitate to call me; that I will designate Mr. Malley and he will advise me at once of anything. Mr. Rankin then said he would get in touch with me if he thinks there is anything which should be taken up on that level.

I mentioned to him the actions of the Soviet Embassy, the Communist Party in New York, and Job[illegible] in making available to us their information on Oswald.

I also discussed the operations of the Dallas Police Department in the case which led to the murder of Oswald.

I told Mr. Rankin the Department held the report about five days and then began to leak items from the Department on it, items such as the shooting of General Walker, things not known in Dallas; that I kept pressing them to get the report to the Commission; that a debate was going on between the Department and me; that I did not want any conclusion drawn but I thought a conclusion had been made in the letter of transmission to the Commission; that there would have been no purpose in appointing a Presidential Commission except to evaluate the facts; that it was the duty of the FBI to get the facts and let the Commission reach a conclusion.

I told Mr. Rankin we would want to do anything we can here to make his job easier. He said he has always had complete confidence in that and in me.

Mr. Rankin inquired if anything had been done about seeing that the films would be preserved and available for the Commission. I answered that we have them ourselves; that we have films taken by private individuals; that the President was not being covered by a car with television people as they do here in Washington; that there was not a professional photographer where this took place; that the Secret Service car immediately in back had already passed the building, which was at an angle, with the result they couldn't tell where the shots were coming from. I mentioned the comment by former Chief of Secret Service Baughman that he could not understand why the Secret Service men did not open fire with machine guns at the window. I said the Secret Service men did not see where the shots came from and would have killed a lot of innocent people if they had done so.

In connection with stories indicating Oswald could not have done this alone, I stated he was a marksman and it wasn't anything he

could not do; that we have tested it on our rifle range and were able to get shots off even faster than he did; that there is no question in my mind about it; that we also found the fingerprints and the bullets so conclusively fired from the gun; that we have all this and we have all the photographs.

Mr. Rankin inquired if we also have the television film run off of the shooting of Oswald, and I told him we have this.

Mr. Rankin said Mr. Malone delivered to him a copy of the report and also offered to help in any way possible; this was very kind of Malone; but he will not deal with Malone in anything unless it is some emergency and he has to handle it locally. I told Mr. Rankin this was all right and if he should need to call upon Malone, Malone would be available.

I also told Mr. Rankin there is a direct wire between the New York Office and here; that he can always place any calls to here over our wire; and that I will arrange for this.

I told Mr. Rankin to let us know if there is anything we can do.

Very truly yours,

J. E. H.

The Chief Justice
The Supreme Court
Washington, D. C.

Dear Mr. Chief Justice:

At the direction of President Johnson, I am transmitting herewith to you and to the other members of the Commission copies of the report of the Federal Bureau of Investigation on the assassination of President Kennedy and on the subsequent shooting of Lee Harvey Oswald. You will note that in some aspects the investigation is continuing and further information will be made available to the Commission as it develops. The Secret Service and the Department of State have also prepared reports with respect to the preparations made to guard the President and certain background information in the hands of the State Department with respect to Oswald. You will have these promptly.

This report is not a classified document since it does not contain defense information. However, we have been treating it as a highly classified document and I trust that you and the other members of the Commission will do likewise until such time as you determine to release matters contained within it. Within the Government it is being read by a very limited number of people on a "need to know" basis.

You will recall that at the time of announcing the Federal Bureau of Investigation investigation, and prior to the appointment of the Commission, President Johnson announced that the FBI report would be made public. I have

UNRECORDED COPY FILED IN

XEROX
DEC 19 1963

however, informed him of your request that this report not be released until the Commission has had time to review all of the facts and evaluate them. At the same time I am sure you are aware that there is such public speculation and rumor in this connection which would be desirable to allay as quickly as possible. For example, the latest Gallup poll shows that over half the American people believe that Oswald acted as part of a conspiracy in shooting President Kennedy, and there is considerable rumor in this country and abroad to the effect that Ruby acted as part of the same or a related conspiracy.

I think, therefore, the Commission should consider releasing--or allowing the Department of Justice to release--a short press statement which would briefly make the following points:

(1) The FBI report through scientific examination of evidence, testimony and intensive investigation, establishes beyond a reasonable doubt that Lee Harvey Oswald shot President Kennedy on November 22, 1963. The evidence includes ballistic tests, fingerprints and palm prints, clothing fibers and other technical data which places Oswald at the scene of the crime and establishes that he fired the shots which killed President Kennedy and wounded Governor Connally of Texas.

(2) The FBI has made an exhaustive investigation into whether Oswald may have conspired with or been assisted by any organization, group or person, foreign or domestic, in carrying out this dastardly act. In this regard, the FBI has questioned hundreds of persons and checked out numerous rumors and reports. To date this aspect of the investigation has been negative. No evidence has been uncovered indicating that any organization, group or person, including Dallas night club owner, Jack Ruby, was involved with Oswald in the assassination of President Kennedy, or that the subsequent shooting of Oswald was part of a conspiracy.

I would be happy to discuss any of the matters contained in this letter or in the report with you or other members of the Commission at any time you should desire. I am, of course, always at your service.

Sincerely yours,

Nicholas deB. Katzenbach

DATE: 12/9/63

FROM : C. D. DE LOACH

SUBJECT: ASSASSINATION OF THE PRESIDENT

Nick Katzenbach, the Deputy Attorney General, called me at 11:00 A.M., this morning, and asked that I come around to his office.

Upon seeing Katzenbach, he made reference to the proposed press release which the White House had originally planned to issue over the weekend in connection with the captioned matter. (The Director instructed we advise Katzenbach that we strongly felt that only the first paragraph of this release should be issued, or the first three paragraphs of the revised release which Mr. Belmont read to the Director on Saturday.) Katzenbach told me that there was a stalemate at the White House in connection with this release. Abe Fortas strongly felt that the entire release should be given to the press. Ted Sorenson agreed with us that only the first three paragraphs of the revised release prepared Saturday should be given out. Fortas believed that speculation, rumors and gossip should be disspelled right now. He claimed it made no difference that the Presidential Commission would present findings to the President and the general public. He felt rumors concerning collusion between Ruby and Oswald, also those concerning international conspiracy, should be hit hard now.

As a result of the disagreement between Fortas and Sorenson, there will be no press release from the White House. To get his point across, however, Katzenbach has prepared a letter to Chief Justice Warren and each Commission member transmitting a copy of the report. The report will be delivered today. In his letter, Katzenbach states that the report is being delivered at the instructions of the President. He also calls upon the Commission to quickly issue a statement concerning its findings so that rumors, gossip and speculation can be eliminated. He goes on to point out that investigation thus far has nailed down the point that Oswald assassinated the President and had no assistance. He further mentions that Ruby operated strictly as an individual and had no assistance. He points out there is no evidence of collusion or international intrigue.

Katzenbach asked me if the FBI could deliver these reports. I told him we could not, that it was our position that the reports are now out of our hands and delivery

should be handled by the Department. He asked if we could package them for him inasmuch as he had no facilities for doing this. I told him I thought our Mail Room could handle this chore for him. He then stated that he had no way in which to deliver the report to John J. McCloy, the Commission member in New York. He wondered if the FBI could handle this for him. He added that each report would, of course, have his letter transmitting the report as an attachment to the package; therefore, the package actually would be coming from him and not the FBI. I told him I would check on this angle and let him know.

Katzenbach has requested 11 copies of the report from us. Seven of these copies will go to Presidential Commission members, as he promised last Friday, 12/6/63. One copy of the report will go to the Chief Counsel of the Commission, presumably Lee Rankin. The Department desires two copies and Katzenbach wants to give Secret Service one copy, making a total of 11 copies needed.

ACTION:

(1) That we package the copies for Katzenbach and have them delivered to his office. (Mr. Belmont advises there are sufficient copies.)

O.K. 1 Done 12-19

(2) That we turn over to Katzenbach ten copies of the report, it being noted that the Department already has one copy.

O.K. 1 Done 12/19 @ 4:45 P.M.

(3) That we tell Katzenbach that we are charging him with the safety and handling of these reports inasmuch as we have discharged our duties, other than the continuing investigation. It is further suggested we tell him that we have no objections to the Secret Service receiving a copy of the report; however, this, of course, is up to Katzenbach inasmuch as he is charged with the safety of a specific number of reports.

Henry Petersen of the Organized Crime and Racketeering Section of the Department contacted Section Chief Thomas J. McAndrews of the Special Investigative Division on the afternoon of December 17, 1963, in connection with the Presidential Commission inquiring into the circumstances surrounding the assassination of the late President Kennedy.

Petersen, at the outset, indicated he requested his contact to be held in most complete confidence, and then went on to advise that unnamed superiors in the Department had asked him if he was willing to serve on the Presidential Commission concerning the assassination of President Kennedy. Petersen stated that he was not provided any details, did not know in what capacity he would serve if he accepted the position, nor did he know to whom he would be responsible. Petersen presumed that, if he accepted this assignment, he would be on leave of absence from the Department but would obviously be on the Commission as a representative of the Department.

Petersen was formerly employed in the Identification Division of the Bureau and for the last several years has been assigned as Deputy Section Chief of the Organized Crime and Racketeering Section of the Department. In his latter capacity, Petersen has always been most cooperative with the Bureau and consistently has exhibited an attitude of helpfulness in mutual problems relating to organized crime matters.

Petersen did not appear to be too eager to accept the assignment on the Presidential Commission but stated that he had not definitely made up his mind as to whether or not he would accept the position. According to Petersen, prior to accepting such an assignment, he would require much more specific information concerning his duties and responsibilities than has as yet been explained to him. No comment was made in any way recommending a course of action that he should follow in this connection.

SUBJECT: ASSASSINATION OF THE PRESIDENT

For record purposes, at 11:12 AM this morning, Deputy Attorney General Katzenbach called and stated he would like for me to come over to his office. Upon arriving there, I joined Messrs. Evans and Guthman who were already conferring with Katzenbach.

Katzenbach stated that Texas State Attorney General Wagoner Carr [illegible] immediate past President of the Texas Bar Association, Leon Jaworski, [illegible] his reception room. He stated he had things almost worked out with the President's Commission, in so far as Carr is concerned, and that he would appreciate [illegible] much if the Director would briefly shake hands with Carr at the Director's [illegible]ience. I told him I did not know whether the Director was in or not but [illegible] check right away.

Katzenbach also handed to me a press release, which he admitted the Department had prepared, and which Attorney General Carr would release following his meeting with the Director. Katzenbach asked that we clear this press release for his usage. I told him I would first show it to the Director and then be back in touch with him. It was arranged that if the Director could see Carr, I would come back down to Katzenbach's office and pick up Carr and Jaworski.

The Director saw Texas State Attorney General Carr and Jaworski at approximately 11:55 AM. This was a "standup" meeting which lasted approximately 15 minutes. Carr expressed appreciation for the Director seeing him and Jaworski. The Director indicated he was very glad to see them and that frankly he had a very keen softness in his heart for Texas and the West Coast. The Director told of his many friendships with Texans and of his trip with the then Majority Leader Johnson to Texas where he made three speeches in one day.

ENCLOSURE Carr spoke of Inspector Suttler being in Texas at a youth rally which the State Attorney General's Office had sponsored. He stated Suttler had made the most outstanding speech at the rally. The Director commended Carr for his activity in youth movements and spoke briefly concerning juvenile criminality and the fact that parents should be held responsible for the crimes of their offsprings. The Director gave as an example of bad environment the case of Lee Harvey Oswald. Carr agreed.

Mr. Jaworski issued an invitation to the Director to speak at some time in the future before the Texas Bar Association. The Director indicated his appreciation for the invitation but stated it was most difficult for him to leave Washington, particularly while Congress was in session.

The Director told Carr that he would be very glad to be of assistance to him should the situation arise. Carr expressed his appreciation and stated that the Director would always be welcomed should any assistance be required from the Texas State Attorney General's Office.

Following the meeting with the Director, and pursuant to instructions, I told Carr that the Director, of course, had no objections, in so far as the FBI was concerned, to the proposed press release. He expressed his appreciation and stated that we should keep the original. He indicated that he had copies.

Following the departure from the Director's Office, I had Inspector Suttler come up and shake hands with Carr and Jaworski.

Carr and Jaworski were obviously most impressed with the Director. They indicated they deeply appreciated the appointment, that being with the Director helped them tremendously, and it was obvious that he is a man of great integrity and energy.

ACTION:

For record purposes.

ERREI

For the past three days Mr. Jaworski and I have been in Washington conferring with Mr. Katzenbach, Deputy Attorney General, with Mr. J. Edgar Hoover, Director of the Federal Bureau of Investigation, and with Chief Justice Warren, Chairman of the Special Presidential Commission, concerning the investigation of the facts surrounding the assassination of President Kennedy, the attempted assassination of Governor Connally, and subsequent events.

We are convinced that the investigative authority of the federal government is being used to the fullest extent. The files and the evidence which have been accumulated by Texas local and State authorities are in the hands of the F.B.I. for its use. The investigation is being conducted vigorously, reaching across the boundaries of many States and several nations to date. Consistent with the purpose of our State to cooperate closely in this investigation, it is our considered judgment that the Texas Court of Inquiry, if held at this time or in the immediate future, might bring about an interruption in the continuity of the Nation-wide investigation.

For these reasons, it is my conclusion and decision that the convening of a Court of Inquiry at the present time should be withheld. In the meantime, the Presidential Special Commission has asked the Attorney General of Texas and the Special Counsel selected for the Texas Court of Inquiry to work with the Commission, attend its hearings and assist with

Warren Group Probing Beyond Slaying Report

By MIRIAM OTTENBERG
Star Staff Writer

The presidential commission's investigation of President Kennedy's assassination is going behind a summary of the evidence to dig into the raw files amassed by Federal agents.

Chief Justice Warren, commission chairman, told newsmen after a two-and-a-half-hour closed session late yesterday that the commission has decided "it is essential to our work to have the materials on which the reports are based."

So far, the commission has received reports from the FBI and the State Department.

Treasury Report

A Treasury Department report prepared primarily by the Secret Service also is being completed with the back-up evidence requested by the commission and may go to the commission this week.

The report is expected to review all the advance planning made by the Secret Service for the President's trip to Texas, the specific precautions taken and the exact role of each agent during the fatal minutes in Dallas.

The report is the product of the Secret Service's own self-examination, which began on the day of the assassination and has been going on ever since.

The State Department report was delivered to the commission at noon yesterday, and Chief Justice Warren said none of the members had a chance to read it.

"In Skeleton Form"

Of the five-part report from the FBI received earlier, the commission chairman said it was a summary report in "skeleton form."

"In order to evaluate it," he said, "we have to see the materials on which the report was based."

He said he was referring to documents and statements from individuals. Interviews conducted by FBI agents come under the heading of "raw files" and are rarely viewed outside the Justice Department.

It was indicated, however, that the FBI will turn over to the commission anything it requests.

Indefinite Wait Due

The public is in for an indefinite wait to learn the details behind the apparent conclusion that Lee Harvey Oswald, accused assassin of President Kennedy, and Jack Ruby, charged with the slaying of Oswald two days after the assassination, each acted alone and were not a part of a conspiracy.

Although the Chief Justice had announced earlier that a preliminary statement would be made by the commission, he said yesterday that a commission summary of the FBI report "would serve no purpose at this particular moment."

In answer to questions, he said that such physical evidence as the fatal bullet and the gun involved in the two violent deaths will not be requested at this time, partially because of the fact that they should not be handled too much.

State Department Report

He gave no indications of the nature of the State Department report but it was assumed that it would cover the State Department's dealings with Oswald; a Soviet consular file on Oswald and an investigation conducted by the Mexican government.

Oswald lived in Russia from October, 1959 until June, 1962.

The Mexican government investigated Oswald's visit to Mexico from September 26 to October 3, 1963.

The State Department's own activities in connection with Oswald relate to granting him documents to return to this country from Russia and lending him the money for the trip.

Setting Up Headquarters

The commission spent most of its meeting yesterday approving arrangements dealing with a permanent headquarters and staff. Chief Justice Warren announced that the headquarters for the commission will be on the fourth floor of the Veterans of Foreign Wars building at 200 Maryland avenue N.E., directly across from the Supreme Court building.

Former Solicitor General J. Lee Rankin, the commission's general counsel, will have his office there.

Chief Justice Warren said the commission has acquired an office manager from the General Services Administration and a files expert assigned by Wayne C. Grover, national archivist.

SUBJECT: WARREN COMMISSION

ASSASSINATION OF THE PRESIDENT

Mr. J. Lee Rankin telephonically advised that as a result of the meeting of the Commission on Monday afternoon there would be a formal request in writing for the raw reports of the Bureau which would back up the material that the Bureau has furnished to the Commission. Mr. Rankin was advised that based on the publicity given to the Commission's meeting yesterday this material is being gotten together and would be forthcoming as soon as possible. Mr. Rankin advised that there had been some difficulty on the part of the Commission members in understanding some of the handwriting specimens and would like to get a clarification on this. Malley has an appointment with Mr. Rankin today at 4:00 p.m., at which time sufficient details will be obtained in order to clarify this.

Mr. Rankin stated the Commission was interested in obtaining data concerning the income tax returns of Jack Rubenstein, also known as Jack Ruby, and Oswald as well as Mrs. Ruth Paine of Irving, Texas, and that these returns should cover a number of years. This will be further clarified with Rankin today.

Mr. Rankin advised that the Commission was very much interested in the medical reports relative to the shooting of the President, both the results of the examination at Parkland Hospital, Dallas, Texas, as well as the medical reports from the U. S. Naval Hospital, Bethesda, Maryland. Rankin was advised that the reports from the Parkland Hospital were readily available and had been included in one of our reports; however, the medical report from the U. S. Naval Hospital at Bethesda was not in the possession of the Bureau and had not been included inasmuch as the President's family had indicated a desire that the report be kept confidential. The medical report from the Bethesda Hospital is in the possession of Secret Service and can be obtained upon asking. This will be further discussed with Rankin today.

RE: WARREN COMMISSION

Mr. Rankin mentioned that the Commission was also interested in any postal money orders that had been sent or received by either Ruby or Oswald. It is known that the Bureau has already developed a good deal of information concerning the non-existence of money orders in the Dallas, Texas, area and the Commission's request for money orders will be further clarified today.

With reference to the report prepared by the Bureau, copies of which were delivered to the various members of the Commission, Mr. Rankin indicated that he would like to obtain an additional twenty copies of this report along with the exhibits that were sent with the reports. Mr. Rankin was advised that Malley was not aware of the exact number of copies that were in existence, and Rankin immediately replied that if half this number of copies could be made available it would be very helpful. There are in existence and readily available at the present time twenty-one copies of the report and the exhibits.

ACTION:

If approved, ten copies of report previously furnished the members of the Commission as well as the exhibits will be made available to Mr. Rankin.

ADDENDUM (AHB:hmm) 12/17/63: Supervisor Papich, through [redacted] of CIA, picked up comments by Allen Dulles to the effect that Rankin is considering an investigative staff to conduct additional investigation. Also, the Commission will consider relations between various Federal agencies to see if there are defects and whether these should be corrected by legislation. Also, the Commission will be in business for a long time and will cover a broad field and may even talk to some of our Agents who conducted investigation of the assassination and Ruby cases.

Frankly, I think Rankin should be discouraged from having an investigative staff and that Mr. Malley should make it clear to him

we stand ready to run out any additional investigative leads the Commission wants covered. In this light, it may be well to give Rankin only ten additional copies of the report at this time.

The Bureau report on the assassination of President John F. Lee Rankin, General Counsel for the Commission, Mr. Rankin observed that the members of the Commission had encountered some difficulty in reading Oswald's handwriting and it would be most helpful if typewritten copies of the handwriting could be prepared.

Typewritten copies of the exhibits containing Oswald's handwriting were prepared and on 12/24/63, 14 copies of this material were delivered in person by Inspector Malley to the Commission. This number represents the number of copies of the report which have been previously delivered to the Commission.

ASSASSINATION OF PRESIDENT KENNEDY

ReBulet 12/20/63, instructing that the enclosures to referenced letter be delivered to Mr. ALBERT JENNER, Chicago lawyer, presently confined to Room 4126, Evanston Hospital, Evanston, Illinois.

At 10:15 a.m., 12/23/63, I personally delivered to Mr. JENNER, at Room 4126, Evanston Hospital, Evanston, Illinois, one copy of the report on the "Investigation of Assassination of President John F. Kennedy, November 22, 1963" report covering the "Investigation of Killing of Lee Harvey Oswald, Dallas, Texas, November 24, 1963", along with 3 volumes of exhibits.

Mr. JENNER appeared most appreciative and indicated that he is serving on this Commission upon the direct request of Chief Justice EARL WARREN. He expressed his very high regard for the Director and the FBI and stated that he became acquainted firsthand with the reports of the FBI when serving on a loyalty commission in Washington several years ago. He stated that he always noted that the FBI reports were completely impartial and factual. He advised that he hopes to be sufficiently recovered to proceed to Washington in approximately a week for a conference with J. LEE RANKIN, Counsel for the President's Commission. He advised that should he have any questions for referral to the Bureau, he will contact me personally. He was furnished with both his office phone number and my residence phone number.

TO : Mr. Belmont DATE: 12/20/63

FROM : A. Rosen

SUBJECT: ASSASSINATION OF THE PRESIDENT

Reference is made to the memorandum from DeLoach to Mohr dated 12/19/63, referring to pressure by the "New York Times" on the Department relative to interviewing Mrs. Marina Oswald. The addendum to this memorandum pointed out that Mr. James Martin, at whose residence Mrs. Marina Oswald was residing was also pushing to make arrangements for Mrs. Oswald to be interviewed.

Mr. James Lee Rankin was contacted on 12/20/63 and this matter was discussed with him in detail. Mr. Rankin advised that James Martin, along with Attorney John M. Thorne, had been in to see him on 12/19/63, at which time Martin stated that Mrs. Oswald had received an offer of $25,000 for her story. Martin and Thorne requested to know what position the Commission would take relative to making Mrs. Oswald available for interview. Mr. Rankin stated that he had discussed the matter with Chief Justice Warren who had commented that whether she was interviewed or not interviewed was not up to the Commission and that the Commission had no control of any kind over this particular matter. The Chief Justice suggested to Mr. Rankin that in handling this matter with Martin and Thorne an effort be made to obtain any story which might be written, as furnished by Marina Oswald, in order that it could be reviewed prior to actual publication.

Mr. Rankin inquired if the Bureau could see any objection to any interviews being handled with Mrs. Oswald in this matter. Mr. Rankin was advised that the manner in which Mrs. Oswald was handled was not one for the Bureau to decide but that in the event she did give a story for publication and such was obtained, the Bureau would be very happy to check the story against information available. Mr. Rankin stated he did not know at this time what action would be taken concerning making Mrs. Oswald available for interview.

Mr. Rankin was advised that the Bureau has conducted a number of interviews with Mrs. Oswald in trying to obtain complete information in her possession from her and that while the original material was obtained sometime ago, we are continuing to interview her whenever additional information is received from our investigation which needs clarification.

Chief of the Secret Service James Rowley called and advised me that Inspector Kelly had delivered the Secret Service report to the Commission to Mr. Leo Rankin and had come back with an itinerary for Chief Justice Warren who is going to the West Coast. He believed a copy of the itinerary would be sent to me. Mr. Rankin had asked who would take care of the Chief Justice while he is on the West Coast.

I told Mr. Rowley I thought the Secret Service should do this. Mr. Rowley agreed and stated Secret Service has experienced men on the West Coast who can handle this. He said he would advise Mr. Rankin of the decision we had reached.

I inquired if Mr. Rowley had seen David Lawrence's column in the New York Herald Tribune this morning. He had not seen the column and I told him it was a very fine article about the Secret Service and fine and denied all the lies that have been printed. I further advised him that it may be in the Washington Star this evening. He indicated that he would get both papers and thanked me for this information.

Very truly yours,

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF PRESIDENT KENNEDY

Mr. J. Lee Rankin telephonically advised that one of the attorneys to be utilized by the Commission is Albert Jenner, a Chicago lawyer who resides at Evanston, Illinois, and is presently confined to the Evanston Hospital in Room 4126. It is noted previous information concerning this attorney indicated his name to be Robert Jenner.

Mr. Rankin stated that Jenner would be confined to the hospital for at least a week to a week and a half and requested the Bureau to make arrangements to have a complete set of the reports that had been furnished to members of the Commission made available to Mr. Jenner in order that he might review this material while confined to the hospital. Mr. Rankin stated that Jenner had indicated that security at the hospital would not be a problem.

A check of the files concerning Albert Jenner is being made at the present time.

RECOMMENDATION:

If approved, arrangements will be made with the Chicago Office to deliver one full set of the Bureau reports and exhibits to Mr. Jenner at the hospital in Evanston, Illinois.

PRESIDENT's COMMISSION
ASSASSINATION OF PRESIDENT KENNEDY

Mr. J. Lee Rankin, Counsel for the President's Commission, has advised that the Commission will utilize the services of Albert Jenner, a Chicago lawyer who resides at Evanston, Illinois, and is presently confined to the Evanston Hospital in Room 4126. Mr. Rankin advised that Mr. Jenner would be confined for at least a week or more and that the Commission was most desirous that a copy of the report on the "Investigation of Assassination of President John F. Kennedy, November 22, 1963," as well as the report covering the "Investigation of Killing of Lee Harvey Oswald, Dallas, Texas, November 24, 1963," along with three volumes of exhibits, be made available to Mr. Jenner for his review while he is confined in the hospital. Enclosed are the two reports referred to above, along with three volumes of exhibits, for transmittal to Mr. Jenner at the Evanston Hospital, Evanston, Illinois.

In discussing this matter with a representative of the Bureau, Mr. Rankin stated that the security of these reports would be no problem. It is requested that when these reports are delivered to Mr. Jenner, it be pointed out to him the necessity that these reports be maintained in a confidential basis.

You should advise the Bureau when these reports are delivered to Mr. Jenner. For your information, a complete tabulation of the individuals to whom the above-mentioned reports are furnished is being kept at the Bureau in order that they can be accounted for at any given time.

FROM : C. A. EVANS

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R

In memorandum Evans to Belmont, December 17, 1963, information was set forth that Henry Petersen, Deputy Chief of the Organized Crime and Racketeering Section of the Department, had been approached by unnamed superiors in the Department to work on the Presidential Commission inquiring into the assassination of President Kennedy.

Petersen confidentially advised Section Chief T. J. McAndrews on the afternoon of December 18, 1963, that he had obtained additional information concerning this proposed assignment and had decided that, unless ordered to work for the Commission, he intended to decline the offer. Petersen stated that he had learned that Howard Willens of the Criminal Division of the Department was to be designated as the Department's representative to the Commission and that he, Petersen, would merely be in the role of assisting Willens. Petersen indicated that he did not care to work with Willens and consequently, would not voluntarily accept this assignment.

ACTION:

In accordance with the Director's instructions, Petersen was advised that in the event he does take the position with the Commission, that James R. Malley is the Bureau's liaison with the Commission and he should feel free to take up with Mr. Malley any questions of mutual interest.

SUBJECT: HOWARD PENNEY WILLENS
DEPARTMENTAL ATTORNEY
CRIMINAL DIVISION

In a memorandum dated December 18, 1963, from Mr. Evans to Mr. Belmont, entitled "Lee Harvey Oswald, Internal Security - R," it was indicated that Howard Willens of the Criminal Division of the Department was to be designated as the Department's representative to the Presidential Commission's inquiry into the assassination of former President Kennedy. The Director has asked for information concerning Willens.

Willens was the subject of a Departmental Applicant Investigation in 1955 for the position of Law Clerk in the Anti-trust Division. He was investigated again during 1961, when he was being considered for the position of Attorney, Criminal Division. These investigations did not reveal any derogatory information concerning him; however, certain derogatory information was developed concerning his father, Joseph Robert Willens.

Howard Penney Willens was born May 27, 1931, in Chicago, Illinois. He attended both Stanford University, Palo Alto, California, and the University of Michigan, Ann Arbor, Michigan, receiving his A. B. degree in 1953. He attended Yale Law School, New Haven, Connecticut, receiving his LL.B degree in 1956.

During the investigation of Howard Penney Willens, all individuals contacted reported favorably as to Willen's character, loyalty and associates. The 1961 investigation developed information that he had attended the Vienna Youth Festival in 1959. The Vienna Youth Festival, in 1959, was supported by the World Federation of Democratic Youth, cited as a communist organization in the House Committee on Un-American Activities Guide to Subversive Organizations and Publications, January 2, 1957. Prior to going abroad, Willens advised the State Department and the Bureau of his intentions to attend the Festival and stated his purpose was to minimize propaganda and defend the policies of the United States.

Additionally, the 1961 investigation of Willens resulted in information being received that Joseph Robert Willens and his wife, Helen, were granted visas to travel in Hungary, prior to February 28, 1961. In 1956, information was received by the

Chicago Division that the name of J. R. Willens appeared on the mailing list of the Chicago Council of American-Soviet Friendship, an affiliate of the National Council of American-Soviet Friendship, which has been designated pursuant to Executive Order 10450. It was also developed during the 1961 investigation that Joseph Robert Willens had, since 1958, resided next door to Tony Accardo, prominent Chicago hoodlum.

Joseph Robert Willens was interviewed by Bureau Agents on May 19, 1961, and advised that he had visited Russia in 1956 with five other individuals from Chicago, who were interested in home building and construction. He also advised that he has visited Hungary, Bulgaria and Rumania on sight-seeing tours, as well as to see types of construction utilized in home building. He stated that he is opposed to communism and the types of government existing behind the iron curtain. He denied any affiliation with the Chicago Council of American-Soviet Friendship, and stated most emphatically that he has never been a member or in any way associated with the Chicago Council of American-Soviet Friendship or any similar organization.

Joseph Robert Willens admitted that Tony Accardo's residence is immediately south of his home in River Forest, Illinois, and that they had been neighbors since 1958. He stated that he does not associate with Accardo, or any of his friends. He also advised that he and his family are law-abiding citizens and believe themselves to be good Americans, and he hopes that the proximity of his residence with that of Accardo would not cause anyone to believe that he approves of Accardo or any of his associates.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Belmont

DATE: December 18, 1963

FROM : A. Rosen

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

Mr. J. Lee Rankin was contacted yesterday at his office at 4:00 p.m., at which time he was furnished five complete sets of reports and exhibits prepared by the Bureau. Mr. Rankin was most appreciative of receiving these copies and stated that for the time being this would be a sufficient number and if he desired more, he would so advise.

During the contact with Rankin he advised that the Commission had met the previous day and that a number of items had come to light wherein clarification was needed. These items are set forth hereinafter.

Rankin requested information as to whether or not the Bureau had obtained the medical reports concerning the shooting of the President from Parkland Hospital in Dallas as well as the report from U. S. Naval Hospital, Bethesda. This is one of the items which Rankin mentioned on the telephone on 12/17/63 when he contacted the Bureau. It was again pointed out to Mr. Rankin that our investigative report would cover in detail the results of the medical examination at the Parkland Hospital. Rankin was advised that the family of the President had requested the report from the U. S. Naval Hospital at Bethesda be kept as confidential as possible and for this reason the Bureau did not obtain the medical report for inclusion in the investigative report prepared by the Bureau. He was also told that this report was in the possession of the Secret Service. Rankin stated that it would not be necessary to do anything on this and that in the event Secret Service did not supply the medical report with material to be furnished by Secret Service, the Commission would request the medical report from Secret Service.

Mr. Rankin indicated the Commission desired that income tax returns dating back to 1955 be obtained relative to Lee Harvey Oswald, Jack Ruby, his brother Earl Ruby, Mr. Michael Paine and Mrs. Ruth Paine (the Paine residence is the one in Irving, Texas, where Mrs. Oswald and her children were residing.) Rankin indicated the Commission was interested in the tax returns so that determination could be made of any collaboration of any kind between Oswald and Ruby as well as the Paine family and that they were desirous of having all negative information as well as positive.

Mr. Rankin was advised that the Bureau was making a complete financial check of both Oswald and Ruby and that full details concerning income tax returns as well as the financial check would be included in the investigative report.

The Commission was also desirous that Western Union and Post Office money orders be checked, all localities where Oswald had resided, and also be checked concerning Jack Ruby. Mr. Rankin was advised that this was being done and would be included in the investigative report.

Mr. Rankin asked whether of not all other Govem ment agencies have been contacted for information that they might possess in their files concerning Lee Harvey Oswald and Jack Ruby. Mr. Rankin was advised that considerable information had been obtained from the files of other Government agencies and that our investigative report would definitely show the information obtained from all agencies of the Govem - ment. In this connection, a canvass of the other Government agencies is being made to make certain that we have received any information available on Oswald and Ruby.

Rankin is interested in knowing whether any of the intelligence organizations of the military had taken any action relative to Lee Harvey Oswald before he went to Russia or since his return. Rankin was advised that the U. S. Marine Corps' file on Oswald had been obtained, had been reviewed and summarized in our investigative report. He was told that a check would be made, if it had not already been completed, to ascertain whether any action had been taken by any of the military intelligence services. A check has been instituted to obtain this information if any such action was ever taken.

Mr. Rankin stated the Commission was very desirous of obtaining typewritten copies of information that had been included in our exhibits as handwriting of Oswald. He stated the Commission had experienced difficulty in reading his writing and would therefore appreciate typewritten copies. These copies have been prepared and will be made available to Mr. Rankin.

Mr. Rankin stated that for purposes of handling this investigation, the Commission had decided to handle it all on a top secret basis and that probably within the next few days they would have the names of some individuals concerning whom they would desire a check made. Mr. Rankin was advised that in the event he desired a name check on these individuals it could be handled in very short order but that if he had in mind a full investigation it would take considerable time. Rankin advised that no definite decision had been made on this at the present and he would be in touch with the Bureau later concerning this matter.

RREL

Mr. Rankin inquired whether information would be available covering investigation that had been conducted in Mexico concerning Oswald's activities and whether or not there was any necessity for the Commission attempting to obtain any information from the Mexican Government. Mr. Rankin was advised that this matter would be checked into and he would be advised as soon as possible.

Concerning films, Mr. Rankin mentioned that Mr. Larson of Life-Time Corporation had offered to make available to the President's Commission the film in possession of Life relative to the shooting of the President. Mr. Rankin desired to know whether the Bureau had copies of this film, and if it could be made available to the Presidents Commission. Mr. Rankin was advised that the Bureau did have this particular film along with other film relating to the assassination of the President and that he would be advised later as to what film was actually available.

Mr. Rankin stated that he did not know if it would be possible for the Bureau to arrange for a type of re-enactment of the assassination of the President but that he felt that it would be of invaluable aid to the Commission if, through photographs, diagrams or other arrangements, the Commission would be able to sit down and be briefed as to what actually occurred in a more or less chronological story of the events which took place and then to have made available the more important items of evidence that had been discovered. Mr. Rankin was advised that his request was thoroughly understood and that this matter would be looked into and he would be advised later as to what action could be taken. In this connection aerial photographs have been made depicting the scene where the President was assassinated as well as other important points of activity in Dallas. It is also noted that the Bureau's Exhibits Section is at the present time in the process of making three-dimensional exhibits which would completely portray the activities which occurred in Dallas. It is believed that when these exhibits are completed that they would be most helpful in assisting the Commission to see exactly the events that transpired in Dallas relative to the assassination of the President. Mr. Rankin indicated that he presumed it would be better for members of the Commission to come to the Bureau for such a briefing if this could be arranged and that he would not hesitate to ask the members of the Commission to come to the Bureau for this briefing rather than have Bureau personnel come up to headquarters of the Commission.

During the interview, Mr. Rankin was asked whether or not the Commission intended to hire investigators. It was pointed out to Mr. Rankin that the Bureau was desirous of being of any assistance that it could possibly render and that it would be glad to conduct further inquiries concerning any matters that the Commission desired. Mr. Rankin stated that he was most appreciative of this offer on the part of the Bureau and that he personally felt that the Bureau would be only too glad to cooperate on any request the Commission might have.

Rankin advised that while he did not share the views of some members of the Commission, there were some who had the feeling that it might be best to have investigators assigned to the Commission inasmuch as it might develop that the Commission would desire some checks on one or more of the Government agencies involved in the over-all matter. Mr. Rankin stated that he personally felt that the responsible Government agencies involved would be able to handle their own phases of this matter and that he sincerely hoped that it would not be necessary to hire investigators for the Commission.

RECOMMENDATIONS:

(1) It is recommended that Mr. Rankin be advised that the results of the investigation conducted in Mexico relative to Oswald are being received and that this information will be submitted to the Commission at an early date. (Our material from Legat, Mexico, is ready. We are clearing CIA material with CIA). Rankin advised CIA will furnish their info when requested. OK H 12/20 JHH

(2) Concerning films that are available, it is recommended that Mr. Rankin be advised that the Bureau has a copy of the film which Life-Time Corporation has as well as other film relating to the assassination of the President and that all of these films can be viewed by the President's Commission whenever it desires.

OK. Rankin advised of films available JHH 12/20.

(3) If approved, Mr. Rankin will be advised that the Bureau is in the process at the present time of preparing three-dimensional exhibits which will accurately portray the locations covering the assassination of the President along with other material which would be of considerable benefit to the Commission. He will be advised that when these exhibits are completed, arrangements will be made with him so that the Commission may view these exhibits at their convenience. Mr. Gauthier has assured that the exhibits will be ready by 1/2/64.

Personnel Commission

My memo 12-17-63 advised that we were assembling reports in the Oswald, Ruby and Assassination cases to be sent to the Commission today. These reports are dated prior to 12-5-63 or are the ones on which the summary which previously went to the Commission was based.

Attached is a list of the reports which are being furnished to the Commission. The reports are being forwarded to Inspector Malley separately. A copy of this list for delivery to the Commission will be attached to the reports.

Attention is directed to the fact that 3 of these reports are classified. This classification is based upon information obtained from an anonymous source and important security informants both of which could be jeopardized if this information is made public, therefore, they have been classified. Other reports which were classified by the field have been reviewed and declassified where it appeared that our informants could not reasonably be identified and also where investigation subsequent to the assassination has secured correspondence of Oswald with the Communist Party and Fair Play for Cuba Committee from representatives of those organizations. It was felt that although we previously had obtained such data from anonymous sources and informants classification at this time is not warranted.

Attention is also directed to the fact that at some places in these reports persons interviewed have requested that their names be maintained in confidence. It is believed that the attention of Mr. Rankin should be directed to these requests and that he should be informed that their names were included because of the importance of this matter but he should honor their request wherever possible.

It is also suggested that Mr. Rankin's attention be directed to the fact that Jack Leon Ruby is presently held on the charge of murder by the State of Texas and data contained in these reports could conceivably have a bearing on the legal action.

RECOMMENDATION:

It is recommended that Inspector Malley deliver the reports referred to in the attached list to Mr. Rankin of the Commission.

This memo discusses the question of dissemination of reports in the captioned case.

Four reports have been received from the Dallas Office since the assassination which totaled approximately 2500 pages. In addition, we have already received approximately 145 reports from auxiliary offices and, of course, many more will be received. These reports contain pertinent information pertaining to the captioned individual and the investigation of him after the assassination but in addition contain the results of coverage of dozens and dozens of false leads, hoaxes and allegations. Some of the material contained in the reports includes nonspecific-type data concerning statements made by persons who were opposed to President Kennedy and his Administration, data alleging that persons or groups are in possession of firearms and may be a threat to the security of President Johnson or other public figures and data pertaining to mental cases who might possibly be considered dangerous. Such material was previously forwarded to the Bureau by teletype and/or letterhead memo and disseminated locally as well as at the Bureau to the Secret Service.

In view of the fact that we are making reports to the Commission which was created to investigate the assassination it is not believed necessary or desirable that we automatically disseminate all of these investigative reports in the captioned case to the Secret Service. Unless advised to the contrary we will take the following action:

1. Screen each report for specific information re any person or group who might be considered dangerous and a possible threat to Government officials and establish that this information has previously been disseminated to the Secret Service. (If any instances are noted where no prior dissemination has been made, it will be disseminated promptly. If the report consists entirely of such data, the entire report

2. These reports will be screened for additional pertinent data to be included in any subsequent supplementary report which is furnished to the Commission.

3. They will be screened for any additional pertinent material to be added to the brief prepared for the Director's use.

SUBJECT: PRESIDENT'S COMMISSION

A group of reports was delivered to Mr. J. Lee Rankin today at 12:30 p. m. During the discussion which followed with Mr. Rankin it was pointed out that the reports that had been delivered to him were the work reports which backed up the material to a large extent that had been made available in the report and exhibits that had been delivered to the members of the Commission.

Mr. Rankin was advised that additional reports would be forthcoming as quickly as possible and that the individuals reviewing these reports should bear in mind that in any instance where it did not appear that the investigation had been completed, in all likelihood a supplemental report would be forthcoming running out this investigation to a logical finish.

The nature of the Bureau's investigative reports was explained in detail so that he would have a full understanding of Bureau procedures with regard to our reports. Rankin advised that he thoroughly understood and was appreciative of the fact that he had been reminded that each individual report could not carry every aspect through to a completely logical conclusion and would necessarily have to be followed up on in a subsequent report.

Mr. Rankin was also advised that the individuals reviewing the reports might run across the names of some persons who had requested their names be kept confidential and that in some instances an individual may have furnished his name but stated that he did not wish to testify. Mr. Rankin was advised that in such an instance, if the Commission had further use for the information that such an individual had furnished, the Bureau would be glad to recontact the individual to determine his feelings relative to the disclosure of his name or to furnishing testimony if it was the Commission's desire.

Mr. Rankin commented that he thoroughly understood the Bureau's desire in connection with the foregoing and that he also was well aware of the fact that the reports delivered to him were investigative work reports, and that

Memorandum

TO : Mr. Belmont

DATE: December 20, 1963

FROM : A. Rosen

SUBJECT: LEE HARVEY OSWALD, AKA
INTERNAL SECURITY - RUSSIA - CUBA

In reference to the memorandum dated 12-18-63, regarding the assembling of reports in the Oswald, Ruby and assassination cases for delivery to the Presidential Commission, the following information is submitted.

By letter dated 12-17-63, J. Lee Rankin, General Counsel, The President's Commission, advised a meeting of the Commission was held on 12-16-63. At this meeting, a resolution was adopted that the Commission would request all investigative agencies and departments of the Government to furnish promptly to the Commission the raw materials on which any reports furnished the Commission are based. Based on this resolution, Mr. Rankin requested the Commission be furnished such materials as promptly as possible.

The initial delivery to the Commission will consist of four reports comprising ~~2675~~ 2960 pages. These reports have been reviewed by the Supervisors, Malley and Belmont. We are currently assembling 68 other investigative reports comprising an additional ~~1912~~ 1627 pages. As additional reports are received, they will be made available to the Commission as rapidly as possible. All reports furnished to the Commission will be appropriately reviewed by Bureau Supervisory personnel, Malley and Belmont. As ready reference, a list of the reports which will be made available to the Commission is attached.

ACTION

1. If you approve, the attached letter and the initial four reports will be personally hand carried to Mr. Rankin by J. R. Malley.

REC-34

2. When the 68 other reports are appropriately assembled they will likewise be personally delivered to Mr. Rankin by Malley.

SUBJECT: LEE HARVEY OSWALD, AKA
INTERNAL SECURITY - RUSSIA - CUBA

Reference is made to my earlier memorandum dated 12-20-63 wherein you approved the delivery of four investigative reports to the Presidential Commission by J. R. Malley. This has been done.

Based on the request of the Commission on 12-17-63, 68 additional copies of reports in duplicate prepared by this Bureau are available for delivery to the Commission. We are also furnishing an additional copy of each of the four reports previously furnished for the Commission's assistance. All reports furnished to the Commission of course are appropriately reviewed by Bureau Supervisors, Belmont and Malley. As additional reports are received they will be made available to the Commission after appropriate review.

* per MR. RANKINS REQUEST

ACTION

(1) If you approve the attached letter and enclosure with an additional 68 reports, as well as duplicates of the reports previously furnished the Commission, will be personally hand carried to the office of Mr. Rankin by J. R. Malley.

Handled 12/24/63, 10:20 am. Given to Mrs. Heidt.

Memorandum

TO : MR. TOLSON DATE: December 9, 1963

FROM : J. H. GALE

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R

BACKGROUND:

The Director instructed that a complete analysis be made of our investigative deficiencies (handled separately) in the Lee Harvey Oswald case and analysis made concerning our dissemination procedures.

CURRENT DISSEMINATION PROCEDURES:

At the present time we disseminate to Secret Service any information coming to our attention wherein an individual threatens the life of the President or any member of his family or Vice President. We furnish Secret Service any information regarding picketing of White House and when President or Vice President travels abroad or in the United States any information re demonstrations planned in areas he will visit. Since the abortive assassination attempt on the life of former President Harry S. Truman we furnish Secret Service copies of reports on the Nationalist Party of Puerto Rico. Secret Service is also furnished reports on the Nation of Islam. Dallas furnished Secret Service information on the President's November 22 trip concerning several individuals who had made suspect statements concerning instant trip or who had printed up critical leaflets. Prior to President Kennedy's visit to Dallas all racial and security informants contacted by Dallas FBI Office negatively. Local head of Secret Service contacted day before assassination and complete cooperation of FBI offered. Dallas advised that the Secret Service was not furnished any information relative to subject Oswald inasmuch as they had no information indicating Oswald had violent tendencies or made any threats against the President. In past Presidential visits around the country ordinarily local Secret Service did not contact local FBI office. However, on several occasions in New York and once in Miami local Secret Service office had names checked through our indices and James J. Rowley, Secret Service Head, commended our Miami Office by letter dated April 23, 1963, for their cooperation in checking 400 names through the files in connection with the Costa Rica visit.

NOT RECORDED

We did not furnish information concerning Oswald to the Dallas Police. Departmental regulations specify that classified security information is not disseminated outside the Executive Branch. We do upon approval, on a highly confidential basis, disseminate certain information to selected law enforcement contacts. Under a "common sense rule" we disseminate vital and important information to state and local law enforcement agencies on such matters as picketing, violations of local or state ordinances, threats against life or property, proposed acts of civil disobedience, bombing threats and purchases or shipments of firearms or ammunition by subversives. The information we had developed on Oswald prior to the assassination would not come within these criteria. It is believed these criteria are essentially sound. We tried disseminating

subversive information with the approval of the Attorney General in 1951 to State Governors and local authorities including police. The program was discontinued in 1955 because in a number of instances the recipients failed to properly handle the subversive information given them by the Bureau on a confidential basis. It is felt that if we were to disseminate information concerning subversives to local police at this time it would be leaked to the papers and others not entitled to it. Extreme right-wing elements in places like Dallas would possibly even hold hearings and attempt to prosecute these individuals with resultant embarrassment to the Bureau.

However, it is felt that we should change some of our procedures concerning the dissemination of subversive information to Secret Service in order to put the Bureau in the best possible position to withstand any criticism in the event of the development of another situation like the Kennedy assassination. Consideration has been given to disseminating the entire list of our Security Index subjects to Secret Service together with a list of extreme racists and other individuals who might be violence prone. However, it was concluded that the dissemination of a list of some 10,000 Security Index subjects would bog Secret Service down administratively and be of little practical value. There are over 2000 individuals on the Security Index in New York City. On a Presidential visit to this city, the combined efforts of the entire New York FBI Office, local police and Secret Service could not possibly keep them all under surveillance. Even if Secret Service did not ask us to help surveil some of these individuals, undoubtedly we would be constantly requested by Secret Service to verify addresses, etc., which would overtax our manpower. Secret Service of necessity would have to furnish our Security Index to local police and the papers would undoubtedly pick this up and possibly refer to it as "FBI assassins list."

It is felt that appropriate instructions could be issued to each field office to immediately compile a "Secret Service List" of individuals in their area. These lists would be sent to the Bureau for approval. It is envisioned that our local Secret Service lists would contain the names of certain Security and Reserve Index subjects, particularly any individual who shows evidence of emotional instability or irrational behavior, extreme racists with violent tendencies, bombers, individuals who had threatened local or state officials, and any others who may be considered dangerous to the physical security of the President. The key to placing a person on this list will be emotional instability or irrational behavior coupled with subversion.

After the initial information on these individuals was turned over to Secret Service we would, of course, furnish them supplemental information as it came to the attention of our various field offices who in turn would advise the Bureau. It is expected that in the future Secret Service would check the indices in our various offices prior to a Presidential visit much more fully than they have in the past.

It must be kept in mind at all times that the Secret Service has only a small number of men, relies heavily on local police for manpower, and certain local police agencies have been known to go so far as to jail individuals, on the charge of investigation, whose names were given by Secret Service until after the President left the area. Secret Service would be given to understand that any names given them should not be attributed to the FBI if furnished to local authorities by Secret Service and that we would accept no responsibility for poor judgment on the part of local authorities such as false arrest.

The above selective procedures would save disseminating literally thousands of security and criminal reports and names of subjects; would protect the basic security of our Security Index; would prevent embarrassment to the Bureau through corrupt police agencies, and politically minded individuals, and would serve the purpose of taking positive, direct and helpful action in assisting the Secret Service in discharging its responsibilities.

It is also felt that the Security Index criteria should be revised to include all defectors to a Sino-Russian bloc country who return to our country with the permission of those countries on the grounds they may be under long-range development as foreign agents and, therefore, pose a threat to our security in time of national emergency. It will be noted there are 17 civilians in this category including 12 ex-servicemen.

Domestic Intelligence and General Investigative Divisions concur with the above suggestions.

OBSERVATIONS AND CONCLUSIONS:

Shortly after the assassination it is understood one Presidential Aide said, "You cannot mix politics and security and we chose politics." It is felt that anytime a President exposes his person along a parade route a sniper will be able to assassinate him in spite of any names furnished to Secret Service. The above system is certainly not foolproof as any psychological maladjusted person can still assassinate a President who is not properly utilizing physical protection. Nevertheless, it is felt we would place ourselves in a much more tenable position under the proposed dissemination revision. The contention can be made that any change in our procedure be held in abeyance until such time as the Presidential Commission concludes its findings on the theory that to change our dissemination procedures at this time could possibly be interpreted as a confession of culpability in the Oswald case. However, we are already being criticized in some quarters for not disseminating the Oswald information. If the Presidential Commission

adopts this view and we are not in a position to tell them that we have made a re-evaluation of our procedures and established closer liaison with Secret Service they will probably be even more critical of our position for not having made a re-evaluation in the light of the assassination. It is, therefore, felt that these new procedures should be effectuated at this time.

RECOMMENDATIONS:

1. That the field immediately be instructed to compile a list of subversive individuals who are emotionally unstable or demonstrated irrational behavior and any others who may be considered dangerous to the physical security of the President, and that this material be furnished to the Secret Service. If approved, Domestic Intelligence Division will handle and issue appropriate instructions to the field.

2. That the Security Index be revised to specifically include defectors to any Sino-Russian bloc countries who have subsequently returned to the U. S. If later their loyalty and cooperation are proven the person can be removed from the Index. If approved, Domestic Intelligence Division will prepare appropriate guidelines and instructions.

On December 5, 1963, at the request of Mr. J. Lee Rankin, General Counsel for the President's Commission, typewritten copies of the handwriting of Lee Harvey Oswald, which was contained in exhibits of the Bureau's report in this case, were furnished to the Commission. These typewritten copies were requested in order that the material could be read more easily by the Commission members.

Copies of the material furnished to the Commission are being attached for Bureau officials who have previously received one or more copies of the Bureau's report in this matter. It is suggested that the material be included in the exhibits section of the report for ready reference. The numbers appearing on the material represent the exhibit number to which the particular material relates.

The second copy of the attached material designated for Assistant Director Sullivan is to be furnished through liaison to Secret Service which has previously received a copy of the FBI report in this matter.

SUBJECT: ASSASSINATION OF THE PRESIDENT

I had a long talk this morning with Congressman Gerald R. (Gerry) Ford (R. - Michigan) in his office. He asked that I come up to see him. Upon arriving he told me he wanted to talk in the strictest of confidence. This was agreed to.

Ford told me he was somewhat disturbed about the manner in which Chief Justice Warren was carrying on his Chairmanship of the Presidential Commission. He explained that the first mistake that Warren made was his attempt to establish a "one man commission" by appointing a Chief Counsel, Warren Olney, that was his own protege. Ford stated that after the mention of Olney's name by the Chief Justice, at their first meeting, Allen Dulles, former Director of CIA, protested quite violently. Because of Dulles' protest, the other members told Warren that they would like to know more about Olney prior to giving their consent.

On the occasion of their second meeting, Ford and Hale Boggs joined with Dulles. Hale Boggs told Warren flatly that Olney would not be acceptable and that he (Boggs) would not work on the Commission with Olney. Warren put up a stiff argument but a compromise was made when the name of Lee Rankin was mentioned. Warren stated he knew Rankin and could work with him.

Ford told me that he was currently having problems inasmuch as the majority of the members of the Commission desired to go along with the recommendation made in Deputy Attorney General Katzenbach's letter to the Commission dated 12-9-63. In this letter, Katzenbach recommended that the Commission make an immediate press release pointing out that the FBI report clearly showed there was no international conspiracy or collusion and that Oswald was a loner. Ford stated he was a minority of one that did not want to give out any press release until the Commission had had a thorough opportunity to review and discuss the FBI report. (I noted that the report was on his desk at the time of our meeting.)

I told Ford in strict confidence that the Director concurred with his viewpoint. I mentioned that our investigation thus far had conclusively shown that Oswald operated by himself and that Ruby additionally was a loner. However, FBI investigation was still pending on a large number of rumors, speculation and gossip and it, therefore, would be quite unfair for the Commission to take a stand prior to all the evidence being turned in. Ford stated this was his point entirely and that although he was a minority of one he intended to stick to his point.

Ford told me that John McCone, Director of CIA, had, approximately one week ago, gone up to his office and told him that CIA had uncovered some "startling information" in the Oswald case. McCone proceeded to tell Ford that a source of CIA's in Mexico had seen money exchange hands between Oswald and an unknown Cuban Negro. Ford stated this excited him greatly inasmuch as it definitely tended to show there was an international connection involved in the assassination of the President.

I told Ford that apparently McCone had failed to follow up on this matter. I mentioned that CIA's source had recanted his story and had indicated that it was a figment of his imagination. However, to prove the unstable tendencies of this source, the source had later claimed that he was actually telling the truth. I pointed out that we were still checking some angles of this, however, the CIA source was obviously either unstable or somewhat of a psychopathic liar. Ford stated he could certainly see this.

Ford indicated he would keep me thoroughly advised as to the activities of the Commission. He stated this would have to be on a confidential basis, however, he thought it should be done. He also asked if he could call me from time to time and straighten out questions in his mind concerning our investigation. I told him by all means he should do this. He reiterated that our relationship would, of course, remain confidential.

We have had excellent relations with Congressman Ford for many years. He has been given an autographed copy of the Director's book "A Study of Communism" and has been in touch with my office on numerous occasions in the past.

ACTION:

Contact will be maintained with Congressman Ford.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

While talking to Mr. J. Lee Rankin on 12-17-63, Mr. Rankin indicated that he was somewhat concerned over the security aspects relative to Earl Warren, Chief Justice of the Supreme Court. Mr. Rankin mentioned that the Chief Justice seems to have no regard whatsoever for his own security and [illegible] afternoon of the 17th, the Chief Justice walked from the Supreme Court [illegible] the Veterans of Foreign Wars building where the President's Commission is now located. The office that is to be occupied by Warren is on the fourth floor of the building in the front and Mr. Rankin commented that he personally was quite concerned over the safety of the Chief Justice. Mr. Rankin commented that there were probably as many people in the country that would like to see physical harm come to the Chief Justice as there were that had unfriendly feelings towards the President and possibly more such individuals.

Mr. Rankin stated that he was desirous of knowing whether or not it would be possible for any kind of a check to be made in the general area of the Veterans of Foreign Wars building to determine what individuals were in the area that might be emotionally disturbed or have any feeling of animosity towards the Chief Justice.

Mr. Rankin was advised that making such a check of an area would be an extremely difficult task and would not be practical and it would certainly be well for the Chief Justice to take necessary precautio relative to his own safety. Rankin stated that he fully agreed with the suggestion but for the present time he had been unsuccessful in getting this thought across to the Chief Justice. Mr. Rankin was advised that the Bureau would, as we had in the past, pass on any information that came to our attention relative to any individuals that expressed animosity towards the Chief Justice.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R
THE PRESIDENTIAL COMMISSION

I talked with Congressman Gerald Ford (R-Michigan) at his office at 1:45 PM this afternoon. The facts concerning the allegations of [redacted] that he saw Oswald receive $6,500 in the Cuban Consulate, Mexico City, on September 18, 1963, and the recanting of such false facts were made very clear to Congressman Ford. He told me he was glad to get the further facts concerning the matter, particularly in view of the story that John McCone of CIA had told him originally.

With respect to the meeting of the Presidential Commission on December 16, 1963, Congressman Ford told me that the members of the Commission, including the Chief Justice, agreed unanimously that no preliminary release should be made to the press regarding the facts as outlined in the FBI report.

Chief Justice Warren told the Commission that they should strive to have their hearings completed and the findings made public prior to July, 1964, when the Presidential campaigns will begin to get hot. He stated it would be unfair to present the findings after July, 1964.

Several members of the Commission indicated that Oswald's handwritten statements in the exhibits section of the report should be typed out for clearer perusal. Rankin was instructed to contact our liaison man, Inspector Malley, in this regard. Malley is being given typed copies today - DeL.

There was no criticism of the FBI at yesterday's meeting. There were no allegations made by any one, including the Chief Justice, that the FBI had leaked portions of this report. I again went over very carefully with Congressman Ford the fact the FBI had not had any "leaks" whatsoever. I told him we were well aware that the Department had done considerable talking; furthermore, it now appeared somewhat obvious that members of the Commission were beginning to leak the report. I referred to this week's issue of "Newsweek" magazine which contains a rather clear analysis of the report. I told Congressman Ford that "Newsweek" was owned by the "Washington Post" and that apparently some one was trying to curry favor. I told him we, of course, did not get along very well with either the "Washington Post" or "Newsweek." He replied that he was in the same boat, that he liked neither one of these publications.

I told Congressman Ford in strict confidence that apparently Chief Justice Warren was quite close to Drew Pearson and obviously used Pearson from time to time to get his thoughts across to the general public. I mentioned Pearson's articles of December 14-16, 1963. I told Congressman Ford as he well knew 98% of the facts in these articles were absolutely false.

Congressman Ford told me that several members had been somewhat surprised, however, pleased that the FBI's report had been in narrative form rather than written in a straightforward factual manner. I told him this, of course, was for the convenience of the Commission. He then mentioned Chief Justice Warren had expressed the desirability of seeing the actual reports which back up those in narrative form. I told him the Director had issued very specific instructions that these reports be made ready for the Commission. I told him they were quite lengthy and would be considerable material to wade through.

Two members of the Commission brought up the fact that they still were not convinced that the President had been shot from the sixth floor window of the Texas Book Depository. These members failed to understand the trajectory of the slugs that killed the President. He stated he felt this point would be discussed further but, of course, would represent no problem.

Three members of the Commission expressed disappointment that U. E. Baughman, former Chief of Secret Service, had seen fit to make a number of ill-advised remarks concerning the operations of the Secret Service in the press. The Commission does not agree with Baughman and criticized him quite thoroughly. They nevertheless plan to call him before the Commission and take testimony.

At the Commission meeting yesterday, Lee Rankin, the Chief Counsel, was authorized to hire two so-called "technicians" who will assist him in research and development of the Commission's findings. The Commission was told by Rankin that these men were skilled attorneys. One of these individuals is named _____ Adams, a former Police Commissioner in New York. Another individual is a person by the name of _____ Jenner, an attorney from Chicago. The Commission was advised that both of these men are available for immediate employment. Congressman Ford stated he raised the question as to checking the backgrounds of these individuals. He was told by Rankin that both of them had very satisfactory backgrounds and belonged to no organizations inimical to the best interest of the U. S. Government.

Upon leaving Congressman Ford advised me that he will be in Michigan on a skiing vacation with his wife and children between December 22, 1963 and January 1, 1964. He stated I should call him at any time his assistance was needed.

He stated he had one problem. He wanted to take the FBI report with him yet he had no way of transporting it in complete safety. I told him I felt the Director would want him to borrow from us one of our Agent briefcases that contains a lock. He stated this would be ideal and he would appreciate loan of a briefcase very much.

ACTION:

This matter will be followed very closely. If there are no objections, I will deliver an Agent briefcase containing a lock to Congressman Ford tomorrow, December 18, 1963.

SUBJECT: ASSASSINATION OF THE PRESIDENT

Pursuant to the Director's instructions, I met with Senator Richard B. Russell (D-Ga.) at 3:45 p. m. Inspector Jim Malley accompanied me.

I told the Senator that the Director probably had the greatest respect for him than any other man on the Presidential Commission; consequently, the Director was most anxious that any misimpression which the Senator might have gotten, regarding leaks concerning the captioned matter, be straightened out immediately. I mentioned that the Director had maintained throughout that there should be no press release unless it emanated from either the President or either the Presidential Commission. I told Senator Russell that the Director had issued specific instructions that no information be given from the FBI and that we had religiously adhered to these instructions. I told him also that there had been others who thought that a press release, based upon the FBI report, should be issued immediately. I reiterated that under no circumstances had we "leaked" any information; however, we certainly knew that it had been coming from other sources.

The Senator inquired as to the identity of the sources who had been "leaking" information. I told him it appeared quite obvious that considerable of the information came from the Dallas Police who had received the results of our Laboratory and Identification examinations. He stated he recognized this fact. I told him also that the Department undoubtedly had "leaked" considerable information as it was quite apparent that a number of their "favorites" had carried rather lengthy articles concerning information contained in the FBI report.

Senator Russell told Mr. Malley and me that he was glad to hear an FBI denial in this matter. He stated that Deputy Attorney General Katzenbach had directly implied that the "leaks" had come from the FBI. He quoted Katzenbach as telling the members of the Presidential Commission, "J. Edgar Hoover has chewed his men out for leaking information and they won't be doing any more of this." I told the Senator that Katzenbach was obviously lying in implying such action on the part of FBI representatives. The point was made that sometimes a person tries to cover up his own guilt by blaming others.

Re: Assassination of the President

Senator Russell was told that we would, of course, be glad to be of assistance to him on an informal basis in connection with the inquiry by the Presidential Commission. He was advised that Inspector Malley had been appointed by the Director to serve as liaison man with Lee Rankin, the Chief Counsel, and that Malley also would be at his disposal any time service was needed. The Senator confided that he had argued with the President about being appointed to the Presidential Commission. He stated the President had called him early one afternoon to advise that he was being appointed to this Commission. Senator Russell told the President that he could not take the appointment, that he considered this to be somewhat of a nasty job. The President then asked Senator Russell if he would recommend any member of the Supreme Court. Senator Russell stated that he didn't know a single member of the Supreme Court he would recommend for anything. The President called Senator Russell back early in the evening of the same day and named the members of the Presidential Commission. When he came to the Senator's name, the Senator stopped him and told him again that he couldn't be on the Commission. The President told Senator Russell that he had already issued a press release reflecting that he was a member. The Senator stated his hands were, therefore, tied and there was nothing he could do about the matter. He added it was very distasteful to him, however, to serve on the same Commission as Chief Justice Warren inasmuch as he had no respect for Warren.

We discussed a number of mutual interests in the State of Georgia before leaving. The Senator is driving home tonight and plans to take the FBI report with him. He has not yet had a chance to read it. He stated that upon his return, he would call if any questions whatsoever arose regarding the problems of the Presidential Commission.

ASSASSINATION OF PRESIDENT KENNEDY

Reference is made to the memorandum from D. J. Brennan to Mr. Sullivan, 12/19/63, captioned "Warren Commission" in which CIA advised Liaison Agent Papich that Francis Adams, Albert Jenner and Mrs. Julia Dixe have been appointed to serve on the Commission.

Bureau files reveal the following concerning these individuals:

FRANCIS W. H. ADAMS

62-100635-15

There is attached for your information a complete summary prepared for the Director concerning Francis W. H. Adams dated 9/18/58. In addition, our files reveal that in 1961 the Department requested an investigation be instituted concerning Adams, who was then being considered as a U. S. District Judge in New York. Prior to the completion of the investigation, the Attorney General asked that we discontinue the investigation as Adams' name had been withdrawn. The Attorney General did not elaborate in this connection. Only one report was submitted which was by the Chicago Division which revealed no derogatory information. Our files contain no additional pertinent information identifiable with Adams.

ALBERT E. JENNER, JR.

Albert E. Jenner, Jr., was born in Chicago, Illinois, in 1907, educated at the University of Illinois and admitted to the Illinois Bar in 1939.

No investigation has been conducted by the Bureau concerning Jenner; however, our files reveal that during 1952-1953 he was a member of the U. S. Loyalty Review Board and has since 1956 served as a Special Assistant Attorney General of the State of Illinois. He is a member of the U. S. Supreme Court Advisory Committee on Federal Civil Rules.

Bureau files also reveal that information was received in March, 1951, that the Illinois Senate sitting as a committee of the whole conducted hearings on Senate Bill 102. This bill provided that persons affiliated with organizations advocating the overthrow of the Government be barred from public office and from teaching positions. At this hearing a statement prepared by Jenner was read to the Senate. This statement set forth that the views expressed were the personal views of Jenner and not of any organization. Jenner in the statement indicated that the proposed legislation would actually defeat the purposes of the sponsors and would create the machinery for the persecution of good citizens. According to the statement, Jenner believed the bill to be unconstitutional and the then present laws to be sufficient. The statement indicated that the bill provices for guilt by accusation and would violate due process of law. Jenner in the statement objected to the fact that there was no guide provided for determining whether or not an organization is subversive.

An informant, who has furnished reliable information in the past, advised that Albert E. Jenner, Jr., 11 South LaSalle Street, Chicago, was in 1940 a member of the National Lawyers Guild, which has been cited as a communist front by the Special Committee on Un-American Activities in its report issued 3/29/44.

Bureau files reveal no other pertinent data concerning Jenner.

JULIA T. BIDE

Mrs. Bide was born 3/20/93 at Franklin, Minnesota. She is the mother-in-law of Special Agent Jesse L. Orr, who is presently assigned to the Denver Office.

Mrs. Bide was the subject of a Departmental Applicant investigation in 1953 and the investigation developed that she had been employed by the Department of Justice since 1941. No derogatory data was developed during that investigation. (77-56728)

Mrs. Bide was the subject of an Atomic Energy Commission Act-Applicant investigation in 1955 in connection with her employment in a secretarial capacity at the Department of Justice. No derogatory information was developed concerning her during this investigation and she was highly recommended concerning her character, loyalty and associates. It it possible for you to tell me if the FBI did in fact leak some information about the murder to the press?

I have a hunch that all of this is a lie by the press to place the American peopleb back to sleep for now all FBI information is in the Warren Commissions hands and we(the people)will receive only what the Warren Committee wants to tell us.

SUBJECT: WARREN COMMISSION
ASSASSINATION OF THE PRESIDENT

Bill Eaton, who is covering the Justice Department for United Press International, called Kemper at 5:20 p.m. today. He said that he had just come from covering the Commission's meeting, and following the meeting, Chief Justice Warren made the statement that he was going to ask the FBI and other government agencies to submit to the Commission all of the background reports that went into the summary which the Commission now has.

Eaton wanted to know how bulky this material would be. Kemper told him he could not comment on that matter.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF PRESIDENT KENNEDY

There is attached a letter received from the President's Commission dated December 24, 1963, in which Mr. Rankin expresses his thanks for the reports which have been delivered thus far. He also refers to the possibility of securing additional copies of the reports which were delivered on December 20, 1963.

Additional copies of the reports mentioned by Mr. Rankin were delivered to the President's Commission on the morning of December 24, 1963.

Mr. Rankin also refers to receipt of the Bureau's letter of December 13, 1963, enclosing the report entitled "Hoaxes, False Reports, and Irresponsible Reporting." Seven additional copies of this report will be delivered to the Commission on December 26, 1963, in accordance with Mr. Rankin's request.

December 24, 1963

The Honorable J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D.C. 20530

Dear Edgar:

On behalf of the Commission I would like to thank you for the prompt delivery last Friday, December 20, 1962, of the following reports prepared by your Bureau:

Report of Special Agent Robert P. Gemberling at Dallas, Texas, dated November 30, 1963.

Report of Special Agent Manning C. Clements at Dallas, Texas, dated November 30, 1963 (three volumes).

Report of Special Agent Warren C. DeBrueys at Dallas, Texas, dated December 2, 1963.

Report of Special Agent Robert P. Gemberling at Dallas, Texas, dated December 10, 1963.

I have discussed with Mr. Malley the prospects of securing additional copies of these reports for the use of the Commission and its staff. I recognize that this request is complicated by the bulk of these materials and those still to come, but any special efforts you can make in this regard would be of great assistance to the Commission.

I also wish to acknowledge receipt of your letter of December 13, 1963, enclosing your report of that date entitled "Hoaxes, False Reports, and Irresponsible Reporting". I would appreciate your making this report available to the members of the Presidential Commission.

Mr. J. Lee Rankin advised on 12/20/63 that he would be out of the city on the coming week end and would return to Washington on Monday, 12/23/63. He said he would probably leave Washington sometime on Tuesday, 12/24/63, and would more than likely remain in New York until Monday, 12/30/63. He stated he could be reached at his office, phone Murray Hill 7-2924, 36 West 44th Street, New York City; or his home, phone Plaza 3-5922, 35 Sutton Place, New York City.

Mr. Rankin requested that if the Bureau had any items which it was felt necessary to discuss with him he would appreciate receiving a call at any time. He requested that in the event he was not in his office and the Bureau had any additional material concerning the assassination matter to deliver to him, he would like for it to be given to his secretary, Mrs. Julie Eide.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

We are now in receipt of communications from the Dallas Office requesting minor changes be made in investigative reports previously submitted by Dallas which already have been disseminated to the Commission. Dallas requests are as follows:

1. Report of SA Warren C. Debrueys, 12-2-63, Dallas. That an additional page number be shown opposite a name in the index of the report. This can be done by ink notation in Bureau copies of the report. In view of the minor nature of the change, no action is necessary to correct the reports forwarded to the Commission.

2. Report of SA Warren C. Debrueys, 12-8-63, Dallas. The name Bissle and Bissel on page 246 should be changed to Biffle. Biffle was a reporter for the "Ft. Worth Press" and wrote three stories in 1959 and 1960 when he was in contact with Mrs. Marguerite Oswald while her son was in Russia. The information is nonsubstantive in character and does not materially add to the case. The name should be corrected in the copies of the report maintained at the Bureau. It is not necessary to change the reports forwarded to the Commission.

Dallas has submitted an amended page 211. The amended page shows the proper person to subpoena in the event Western Union records from Del Rio, Texas, are needed. It is highly unlikely that the particular record would be needed by the Commission since it has no direct pertinence to the Oswald case. Amended pages should be

WAB:hrt
(9)

NOT RECORDED
199 JAN 8 1964

22 JAN 8 1964

inserted in Bureau copies of the report. No action with the Commission is necessary.

Dallas also has submitted an amended Cover Page H. The amended page shows that the records of Western Union, Del Rio, Texas, were made available by Madlyne Hodge. The amended cover page can be inserted in the Bureau copies of the report. Since the cover pages were not transmitted to the Commission, no action is necessary.

3. Report of SA Robert P. Gemberling, 12-10-63, Dallas. Dallas requests that on page 172 the date 10-24-59 should correctly be shown as 10-24-56. This relates to a selective service record prepared on information furnished by Oswald 9-14-59. Reportedly, Oswald served in the U.S. Marine Corps from 10-24-59 (Dallas says should be 1956) to 11-7-59, when he was honorably discharged. Based on the fact that the information was supplied 9-14-59, both dates 10-24-59 and 11-7-59 are patently incorrect. Oswald actually served in the Marine Corps from 10-24-56 to 9-11-59. The incorrect date indicated by Dallas can be corrected in the Bureau's copies of the report. No action is necessary with respect to the Commission since they have our report which contains the accurate record of his service in the Marine Corps.

Dallas requests that amended page 737 be inserted in report. The amended page shows the identity of the person to be subpoenaed if records of the General Telephone Company, Del Rio, Texas, are needed. The information from the records was negative in character and there appears to be no reason why a subpoena would be necessary.

MEMORANDUM FOR MR. SULLIVAN
RE: LEE HARVEY OSWALD

Dallas also requested that we insert amended Cover Page E for this report. The amended page shows the identity of the person who made available records of the General Telephone Company, Del Rio, Texas.

Amended page 737 and Cover Page E can be inserted in Bureau copies of the report. No action is necessary with respect to the reports furnished to the Commission.

ACTION:

This should be referred to the Consolidation Unit of the Files and Communications Division for handling in accordance with the above.

It is obvious that the Agents who dictated the FD-302's reporting results of interviews and investigation are detecting these minor errors such as above. We can expect to have additional amended pages and corrections submitted. Since it has been explained to the Commission that the reports are raw material, we should not take any affirmative action to correct these reports unless it is something of major significance. In the future, we will handle these corrections in line with the above. Any major changes will be the subject of separate memoranda.

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA
Bufile 105-82555

While discussing other matters with J. Lee Rankin of the President's Commission today, it was mentioned that newspapers had carried a story to the effect that Marina Oswald would be interviewed by members of the Commission in Dallas in the near future. Mr. Rankin advised that the Commission definitely intended to interview Mrs. Oswald sometime in the near future. Mr. Rankin was asked whether or not the Commission intended to provide its own Russian interpreter or whether they desired the Bureau's Russian interpreter to be present on such an interview.

Mr. Rankin was extremely appreciative of the offer of the Bureau's interpreter but stated consideration was being given to using a U. S. State Department interpreter. He commented that Mr. James Martin, the individual at whose home Marina Oswald is presently living, and her business agent, as well as her attorney, Mr. Thorne, had indicated when they talked to the Commission that there was a feeling of animosity on the part of Mrs. Oswald toward Bureau Agents in that she felt Bureau Agents were responsible for her husband losing his job wherever he went to work.

The attention of Mr. Rankin was called to the employment checks where Oswald had been employed and before the full facts could be discussed with him, Mr. Rankin commented that from what he had been told of the investigation conducted it was clearly set forth that Oswald was not much of an employee and he could readily understand Oswald wanting to blame someone for his loss of employment and apparently had seized upon the FBI rather than admit his own shortcomings as an employee.

Memo to Mr. Belmont from A. Rosen
re: President's Commission

Mr. Rankin stated some consideration was being given to asking the interpreter who handled the interviews for the FBI with Mrs. Oswald, as well as the interpreter of the Secret Service who had been interviewing her to be present at the interview to be conducted by the President's Commission so that any discrepancies could be straightened out during the time of the interview. Mr. Rankin advised that no definite arrangements had been made but he would advise the Bureau in the event it was decided to have the Bureau's Russian interpreter present during the interview.

Mr. Rankin indicated that when he talked with Messrs. Martin and Thorne, Mrs. Oswald's business agent and attorney, he requested they endeavor to have her prepare a statement in her own handwriting which would cover every detail that she could remember of her association with Lee Harvey Oswald, to include all actions, statements, and any details of conversations she could recall, beginning with the first time she met Oswald in Russia and continuing up to the time of his death on 11/24/63. Mr. Rankin commented he did not know how successful the results of this request would be but he hoped it might serve as the basis for a rather short interview with Mrs. Oswald rather than a long, drawn out interview with her.

Mr. Rankin advised on a confidential basis that there was a possibility the interview with Mrs. Oswald would now be handled in Washington, D. C., rather than in Dallas, Texas, as has been quoted in the newspapers and that there was also a strong possibility that Chief Justice Earl Warren would be in on the interview.

Assassination Probe Report Months Away

By LESLIE H. WHITTEN

WASHINGTON, Dec. 24—The commission investigating the death of oJhn F. Kennedy has received "thousands" of pages of raw data from the FBI, sources close to the commission disclosed today.

The mass of investigatory material has led the seven-man presidential commission to the conclusion that it probably will be months before a final report can be issued.

Some of the commission members—four Congressman, two distinguished private citi- Warren as chairman—plan to dig through the data themselves. Some work will be done during the holidays, one source said.

FORMED NOV. 29

Former Solicitor General J. Lee Rankin, counsel for the committee, is organizing a legal staff to help the commission in the gigantic task of studying the data. The commission was named by President Johnson Nov. 29.

An FBI-Justice Dept. summary of the data was turned weeks ago. It was made up of five volumes, each one half inch thick.

But the summaries have not proved enough.

SEEK DATA

Chief Justice Warren said a week ago that the commission was asking for the raw data on which the summaries were based.

He earlier had said the commission might have a preliminary report for the nation, but he has no sue plans now.

The commission plans no meeting before January, it was learned, and has no present plans for public hearings.

Warren Group Probing Beyond Slaying

By MIRIAM OTTENBERG
Star Staff Writer

The presidential commission's investigation of President Kennedy's assassination is going behind a summary of the evidence to dig into the raw files amassed by Federal agents.

Chief Justice Warren, commission chairman, told newsmen after a two-and-a-half-hour closed session late yesterday that the commission has decided "it is essential to our work to have the materials on which the reports are based."

So far, the commission has received reports from the FBI and the State Department.

Treasury Report

A Treasury Department report prepared primarily by the Secret Service also is being completed with the back-up evidence requested by the commission and may go to the commission this week.

The report is expected to review all the advance planning made by the Secret Service for the President's trip to Texas, the specific precautions taken and the exact role of each agent during the fatal minutes in Dallas.

The report is the product of the Secret Service's own self-examination, which began on the day of the assassination and has been going on ever since.

The State Department report was delivered to the commission at noon yesterday, and Chief Justice Warren said none of the members had a chance to read it.

"In Skeleton Form"

Of the five-part report from the FBI received earlier, the commission chairman said it was a summary report in "skeleton form."

"In order to evaluate it," he said, "we have to see the materials on which the report was based."

He said he was referring to documents and statements from individuals. Interviews conducted by FBI agents come under the heading of "raw files" and are rarely viewed outside the Justice Department.

It was indicated, however, that the FBI will turn over to the commission anything it requests.

Indefinite Wait Due

The public is in for an indefinite wait to learn the details behind the apparent conclusion that Lee Harvey Oswald, accused assassin of President Kennedy, and Jack Ruby, charged with the slaying of Oswald two days after the assassination, each acted alone and were not a part of a conspiracy.

certainly a needless dirty dig by the Chief Justice.

Although the Chief Justice had announced earlier that a preliminary statement would be made by the commission, he said yesterday that a commission summary of the FBI report "would serve no purpose at this particular moment."

In answer to questions, he said that such physical evidence [illegible] the fatal bullet and the gun [illegible] violent death [illegible] quested at this time, partially because of the fact that they should not be handled too much.

State Department Report

He gave no indications of the nature of the State Department report but it was assumed that it would cover the State Department's dealings with Oswald; a Soviet consular file on Oswald and an investigation conducted by the Mexican government.

Oswald lived in Russia from October, 1959 until June, 1962.

The Mexican government investigated Oswald's visit to Mexico from September 26 to October 3, 1963.

The State Department's own activities in connection with Oswald relate to granting him documents to return to this country from Russia and lending him the money for the trip.

Setting Up Headquarters

The commission spent most of its meeting yesterday approving arrangements dealing with a permanent headquarters and staff. Chief Justice Warren announced that the headquarters for the commission will be on the fourth floor of the Veterans of Foreign Wars building at 200 Maryland avenue N.E., directly across from the Supreme Court building.

Former Solicitor General J. Lee Rankin, the commission's general counsel, will have his office there.

Chief Justice Warren said the commission has acquired an office manager from the General Services Administration and a files expert assigned by Wayne C. Grover, national archivist.

Professor Norman Redlich

On December 22, 1963 a confidential source advised that Professor Norman Redlich, New York University expert on Constitutional Law, was working with the committee headed by Chief Justice Earl Warren to investigate the assassination of President John F. Kennedy.

In August, 1953, another confidential source advised that Norman Redlich was a subscriber to the "National Guardian" at that time.

The "National Guardian" of April 25, 1955, contains an item reflecting that Norman Redlich took part in a forum sponsored by the Emergency Civil Liberties Committee on April 16, 1955. Professor Redlich spoke on the Fifth Amendment, tracing its historical development and describing the official distortion of it, which automatically made an inference of guilt from its use.

In December, 1961, a third confidential source related that Norman Redlich was one of the speakers at a rally at Manhattan Center, New York City, on December 6, 1961, sponsored by the New York Council to Abolish the House Committee on Un-American Activities.

In October, 1963, a fourth confidential source advised that the name of Norman Redlich appeared on a list of sponsors of the National Committee to Abolish the House Un-American Activities Committee.

"Emergency Civil Liberties Committee

"1. 'The Emergency Civil Liberties Committee is an organization with headquarters in New York, whose avowed purpose is to abolish the House Committee on Un-American Activities and discredit the FBI. * * * The committee finds that the Emergency Civil Liberties Committee, established in 1951, although representing itself as a non-Communist group, actually operates as a front for the Communist Party. It has repeatedly assisted, by means of funds and legal aid, Communists involved in Smith Act violations and similar legal proceedings. One of its chief activities has been and still is the dissemination of voluminous Communist propaganda material.'

'FRANK WILKINSON was called as a witness when he appeared in Atlanta as a representative of the Emergency Civil Liberties Committee to propagandize against the Committee on Un-American Activities and to protest its hearings. In 1956 WILKINSON was identified as a Communist Party member by a former FBI undercover agent within the party. Summoned at that time to answer the allegation, his reply to all questions was, "I am answering no questions of this committee." This also became his stock reply to questions when he appeared during the Atlanta hearings. * * * WILKINSON has since been convicted of contempt of Congress and sentenced to one year in jail.'

COMMITTEE

On March 9, 1961, a source advised that the New York Council To Abolish the Un-American Activities Committee (NYCAUAC), 150 West 34th Street, New York City, New York, was formed at a meeting held in New York City on November 17, 1960. This organization was founded principally through the efforts of FRANK WILKINSON, Field Representative of the National Committee To Abolish the Un-American Activities Committee (NCAUAC).

A second source advised on September 17, 1952, that FRANK WILKINSON was a Communist Party member as of September, 1952.

A third source furnished on September 14, 1961, a copy of resolutions of the New York Council to Abolish the House Un-American Activities Committee (NYCAHUAC) which were adopted by the NYCAHUAC. One such resolution affirmed the intention to continue to work for the abolition of the House Committee on Un-American Activities (HCUA) and to continue its efforts to broaden the participation in this fight. Another resolution accepted as a modus vivendi the suggestion of the Field Representative of the "National Committee to Abolish the HCUA" (NCAHUAC) namely that local abolition committees may identify and co-ordinate their efforts as closely as they desire with NCAHUAC, still maintaining their autonomy for as flexible and independent a program as possible.

Various sources have advised during March, 1962, that Communist Party (CP) members in the New York City area have been solicited to support activities of the NYCAHUAC during attendance at CP club meetings.

On May 6, 1963, the first source advised that the NYCAHUAC continues to function from its office at 150 West 34th Street, New York City, New York.

MEMORANDUM FOR MR. TOLSON

On December 17, 1963, I saw Inspector James R. Malley, together with Assistant to the Director Belmont. Mr. Malley had recently returned from Dallas, Texas, where he had been coordinating the investigation into the assassination of President Kennedy.

I commended Mr. Malley for the work which he had done at Dallas and told him I had now selected him to be the liaison representative between the Bureau and the Presidential Commission looking into the assassination of President Kennedy. I told him I had already advised Mr. Lee Rankin, General Counsel for the Presidential Commission, Mr. Malley was being so designated and would serve as the contact of the Bureau with him, Mr. Rankin.

I told Mr. Malley that I wanted him to establish the closest and most amicable working relationship with Mr. Rankin. I told him that I had personally known Mr. Rankin quite well since he had served as Solicitor General under Attorneys General Brownell and Rogers.

I also alerted Mr. Malley that there were indications that the Chief Justice, who headed the Presidential Commission, was endeavoring to find fault with the FBI and certain information had been leaked by the Chief Justice to Drew Pearson which was critical of the FBI's functioning in Dallas prior to the assassination.

I told Mr. Malley and Mr. Belmont that the Chief Justice has now demanded all of the so-called "raw" reports upon which the FBI report of the assassination was predicated, and in doing so the Chief Justice had characterized the FBI report as being in "skeleton form." I stated the Chief Justice had further added in his statement to the press: "In order to evaluate it we have to see the material on which the report was prepared." I stated that this statement by the Chief Justice I felt was entirely unwarranted and could certainly have been phrased better so as not to leave the impression, at least by innuendo, that the FBI had not done a thorough job.

PERS. REC. UNIT

I stated that, therefore, I wanted all reports pertaining to the assassination to be transmitted to Mr. Rankin. I stated the first reports which should be sent to him were those from which we drew material included in our report to the President. I stated following that I wanted all reports whether of substantial nature or so-called "nut" reports to be sent to Mr. Rankin. In other words I wanted nothing to be withheld irrespective of what the volume might amount to as I realized it would run into the thousands of reports but, since the Chief Justice had asked for it, we should give it to him.

I stated I wanted Mr. Malley to personally review any material that he transmitted to Mr. Rankin and, after he had reviewed it, for Mr. Belmont to personally review such material. I said this was imperative since Mr. Tolson was now unable to be at the office in view of illness and I would have to count upon Mr. Belmont and Mr. Malley to see that the proper material was sent to Mr. Rankin and that it was thoroughly reviewed before being transmitted by both Mr. Belmont and Mr. Malley.

Very truly yours,

J. E. H.

SUBJECT: WARREN COMMISSION

I want to bring to your attention that I have learned that Congressman GERALD R. FORD, Republican, Michigan, is a member of the Warren Commission.

Mr. Ford was my football coach and law professor when I was in college. I have known him well as personal friend for over 20 years. He is from Grand Rapids, Michigan. I have not been in contact with him since my return to SOG as Inspector, but while here previously as a Supervisor we were in fairly frequent contact as he was always interested in my career in the Bureau.

For information.

A Weekly Size-up by Members of the Washington Staff of Scripps-Howard Newspapers

SECRET SERVICE UNDER STUDY

Warren Commission will investigate both Secret Service and FBI—their procedures and performances—in the Kennedy assassination.

President Johnson's directive gave it power to do so—and the commission intends to use it.

THIS WAS DECIDED IN SECRET PRELIMINARY DISCUSSIONS.

Commission will look into every angle of the case, including the protection given the late President by the Secret Service, and FBI investigation of the shooting—altho it was not a Federal crime.

It may recommend changes in present practices for guarding Presidents. This, also, comes within the directive.

Members expect the work to take several months—perhaps six months. Commission's subpena power and staff will be used to make whatever independent investigations it feels are necessary. Hearings may be held.

Some members are irked over apparent "leaks" from the FBI report submitted to President Johnson and sent by him to the commission; feel these were offensively premature. (FBI is said to have concluded that both Lee Harvey Oswald and Jack Ruby, his slayer, were "loners," not part of a conspiracy.)

Commission expects to withhold all findings until its inquiry is concluded.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
AND THE KILLING OF LEE HARVEY OSWALD
VISUAL AIDS

Re memo Mr. Rosen to Mr. Belmont 12-18-63.

Pursuant to a request made by Mr. J. Lee Rankin concerning the possibility of the FBI to arrange a type of re-enactment of the assassination of the President through the use of diagrams, photos and other arrangements, the Director instructed that the Warren Commission be advised of the preparation of three-dimensional scale models, aerial photos, maps and charts and upon completion arrangements will be made for the Commission to view these visual aids at their convenience.

Full attention is being concentrated on this project at all times. Several more days of work lie ahead before the assignment is completed. A briefing room is starting to take shape in Class Room #2 (5240) and the exhibits displayed can be utilized to assist members of the Commission to clearly understand statements of witnesses as to what happened at the Assassination and the Oswald Killing Sites.

A brochure is in the process of being prepared which will technically describe exhibits including statements of eye witness accounts made by motorcade security personnel relating personal reaction to gun fire directed into the Presidential car. The name, title, official duty post and recollections possessed by each concerning the assassination will be set forth. This treatment will be similar to the Bureau's methods of setting out in prosecutive reports the name of witness and what each will testify to. Statements obtained by the FBI from news media witnesses to the killing of Lee Harvey Oswald are also being set forth in the same manner.

Thursday, January 9, 1964, appears to be the earliest date this project can be completed to insure that the FBI's reputation for getting its assignments handled accurately and to the fullest extent can be again realized. Everything is personally being done to advance the target date.

Dear Lee:

In accordance with your request, I am forwarding to you the income tax returns of Jack L. Ruby and his associates as listed on the attached pages.

The income tax returns were furnished to the FBI by the Internal Revenue Service through liaison arrangements and it is suggested that you contact the Internal Revenue Service prior to any public disclosure of their contents.

It is noted that the 1959 and 1962 returns filed by Jack L. Ruby have not yet been located by the Internal Revenue Service. They will be forwarded as soon as they are obtained.

You can be assured of my continued cooperation.

Sincerely,

J. Edgar Hoover

TRANSLATION FROM PORTUGUESE

Lisbon, December 26, 1963
"Registered"

To Justice Earl Warren
Chairman of the President's Commission
on the Assassination of President Kennedy

Dear Sir:

I am a former communist leader, at present in Portugal under the protection of the authorities.

Upon learning of the successful attempt on the life of President Kennedy, I resolved to disclose in a book, which I have just finished writing, the many things which I know and which may lead to the exposure of the whole conspiracy. In addition to certain sensational revelations, the book points to the individual who knows the killer of President Kennedy and bears the following title:

"Oswald Did Not Kill President Kennedy, or Did He..,???"
"The Yellow Danger" -- by General Protero

The original book is written in Portuguese, to be later translated into English. I would need a publisher in the United States to print and distribute the book.

If the Commission over which you preside is interested in knowing the facts, which would greatly help the mission with which it is entrusted, and accepts my cooperation, I would appreciate a reply indicating the name of a publisher who would like to take over the publishing of the book in the United States.

Looking forward to your airmail reply, I remain

Sincerely yours,

Signed: General Protero

By letter dated 1/6/64, J. Lee Rankin, General Counsel, President's Commission on the Assassination of President Kennedy, referred a letter he thought was in Spanish to the Director, which the Commission requested be translated so that the contents could be evaluated.

It was determined that the letter was in the Portuguese language. The letter is from a General Protero, P. O. Box 20, Amadora, Portugal. He claims he has written a book disclosing a conspiracy behind the assassination of President Kennedy. He is willing to make the information available if the Commission helps him to find a publisher in the United States.

Memorandum

TO : MR. I. W. CONRAD

FROM : MR. R. H. JEVONS

SUBJECT: LEE HARVEY OSWALD, AKA.
IS - R - CUBA

As you were advised by my memorandum of 12/19/63, necessary arrangements have been made with the Atomic Energy Commission (AEC) to process (by neutron activation analysis) the paraffin casts from Lee Harvey Oswald for powder residues, and preliminary work is already in progress at Oak Ridge, Tennessee.

Under the arrangements made, Dr. Glenn T. Seaborg, Chairman, AEC, agreed to fully cooperate in this matter and also agreed that the FBI should have complete control of the examinations and the results therefrom. Dr. Spofford G. English, Assistant General Manager for Research and Development, AEC, was designated to coordinate the matter for AEC.

Dr. English called SA John F. Gallagher today to advise that Dr. Seaborg now has a letter from Chief Justice Earl Warren requesting any information AEC might have or will develop in the near future on the Oswald case. To be responsive to the inquiry, Dr. Seaborg feels that he will have to report that AEC and the FBI are conducting tests on the paraffin casts from Oswald. Furthermore, Dr. Seaborg would like to advise that any data obtained from these tests would be reported by the FBI.

Pursuant to coordination of this matter with you, Dr. English was advised that the Bureau has no objection to an AEC response along the lines indicated.

Dr. English advised that he would furnish the Bureau a copy of Dr. Seaborg's letter to Chief Justice Warren.

Dear Lee:

In accordance with your request of Inspector J. R. Malley on December 17, 1963, we have obtained copies of income tax returns filed by Lee Harvey Oswald; his mother, Marguerite C. Oswald; and his brother, Robert L. Oswald, for the period 1956 through 1962.

Enclosed are Photostats of returns filed by Lee Harvey Oswald for the years 1956, 1958 and 1962. It should be noted that attached to the latest return are a letter by Oswald and a copy of a statement of earnings from the Leslie Welding Company, Inc. The Internal Revenue Service has advised that Lee Harvey Oswald also filed an income tax return for 1955 which has been destroyed but records indicate that he received a refund of $41.80.

Also enclosed are Photostats of income tax returns filed by Marguerite C. Oswald for the years 1956 through 1962 and Photostats of tax returns filed by Robert L. Oswald for the same period together with Photostats of pertinent communications and attachments to the returns.

The enclosed material was obtained through liaison arrangements with the Internal Revenue Service and it is suggested that you contact the Internal Revenue Service in the event it is desired to publicize this material in the future.

Dear Mr. Rankin:

Reference is made to a letter from Joe H. Tonahill, attorney for Jack Ruby, dated January 9, 1964. Since the letter was also addressed to you, a copy is not enclosed. There is enclosed a copy of my reply to Mr. Tonahill.

For your information, the allegation Mr. Tonahill attributes to the press concerning the possibility that Oswald may have been an FBI informant is absolutely false and no attempt was ever made to develop him as an informant.

Mr. Tonahill's letter also incorrectly indicates that we have conducted investigation for the prosecution and furnished the results to the District Attorney on a daily basis. Although we have made technical examinations of physical evidence submitted by the Dallas Police Department and informed the Dallas Police of the results of such examinations, we have not furnished local authorities with the results of our investigations.

The attached memorandum was prepared in response to the Director's instructions: "Give to Rankin summary on Mark Lane, N. Y. lawyer who has been retained by Mrs. Oswald to represent Oswald before Warren Commission. H"

Lane's name is included in the Reserve Index of the New York Office. From 1953 to 1961 he was a member of, held positions in, attended functions of, or otherwise associated with the National Lawyers Guild, cited by the House Committee on Un-American Activities (HCUA) as a communist front.

Lane has spoken at affairs of Burning Issues, a youth organization now affiliated with Advance, a similar organization which follows the line of the national Communist Party (CP) leadership. Burning Issues was also active in backing Lane's political campaign for congress, in which he was unsuccessful.

His public utterances have praised Cuba and condemned the United States. He has also been active in organizations whose aims are the abolition of the HCUA and many of his speeches have urged such abolition.

He received CP support in 1962 in his effort to become elected to congress. In November, 1961, Lane and Benjamin J. Davis CP National Secretary, were principal speakers at a meeting at Columbia University protesting the school's ban against campus speaking engagements by communists. He was arrested and convicted as a "Freedom Rider" in Jackson, Mississippi, on June 8, 1961, and on April 2, 1962, he was fined $415 in New York City as a "scofflaw" for having ignored numerous traffic tickets he had received. MARK LANE

Summary

News broadcasts on January 15, 1964, stated that Mark Lane, New York attorney, has been retained by Lee Harvey Oswald's mother to represent Oswald before the committee appointed by President Lyndon B. Johnson to investigate the assassination of President John F. Kennedy.

The "Daily Worker" for May 27, 1958, stated that the National Lawyers Guild (NLG) held an election of officers on May 23, 1958, and that Mark Lane was elected an ex officio member of the Board of Directors of the NLG.

The "Daily Worker" was an east coast communist newspaper which is no longer being published.

In June, 1958, a source whose reliability was unknown but who was in a position to furnish such information advised that Lane's name appeared on the membership list of the New York Chapter of the NLG and that he was a subscriber to the "Lawyers Guild Review," the official publication of the NLG. On May 17, 1961, Lane spoke at a membership meeting of the organization, according to another source.

A report of the House Committee on Un-American Activities (HCUA) has described the NLG as the foremost legal bulwark of the Communist Party (CP).

A source has also advised that Lane participated in a debate at a forum sponsored by Durning Issues on September 29, 1961.

During March and April, 1963, Durning Issues circulated petitions and otherwise endeavored to have Mark Lane charted as a candidate for Congress. According to a source on October 12, 1963, Lane was the principal speaker at a forum on mobilization for youth which was held by Durning Issues.

Mark Lane

Confidential sources have advised that Advance, an Organization of Progressive Youth, was founded in New York City, February 13 and 14, 1960, and that its declaration of principles followed the line of the national CP leadership. In January, 1963, the name of the organization was changed to Advance and Burning Issues Youth Organizations, since Burning Issues, a separate youth organization, had affiliated with Advance.

A source reported that Mark Lane was the principal speaker at the annual ceremonies of the Emma Lazarus Federation of Jewish Women's Clubs (ELF) at the Statue of Liberty on July 25, 1961.

The ELF is recognized by the Communist Party, USA, as an important progressive organization of women. It grew out of the Jewish Peoples Fraternal Order of the International Workers Order (IWO), both of which have been designated pursuant to Executive Order 10450.

Lane spoke at a meeting of the Emergency Civil Liberties Committee (ECLC) on October 21, 1962, in New York City, according to several sources. He strongly supported Cuba and condemned United States policy with regard to Cuba.

The ECLC has been described by the HCUA as operating as a communist front.

Several sources reported that Lane was one of the main speakers at a meeting sponsored by the Chicago Committee to Defend the Bill of Rights (CCDBR) in Chicago, Illinois, on October 21, 1962, and he called for the abolition of the HCUA.

A source has reported that the CCDBR was organized in Chicago, Illinois, on October 20, 1960, through the efforts and with the encouragement of CP officials, one of whom became the executive secretary of the CCDBR. Its avowed purpose is to seek the abolition of the HCUA.

It was also reported that Mark Lane was a speaker at rallies held on April 21, 1961, and December 8, 1961, sponsored by the New York Council to Abolish the House Un-American Activities Committee (NYCAHUAAC).

Mark Lane

"The Militant" for December 18, 1961, carried an article concerning the rally on December 6, 1961, and stated that Lane said his first official action during the coming session of the New York State Legislature would be to introduce a resolution to persuade Congress to abolish the HCUA.

"The Militant" is a weekly newspaper of the Socialist Workers Party which has been designated pursuant to Executive Order 10450.

Lane was reported by several sources to have attended numerous meetings of the NYCAHUAAC between October, 1960, and January, 1963. At a number of them he made speeches in which he strongly urged the abolition of the HCUA. The NYCAHUAAC is an affiliate of the National Council to Abolish the House Un-American Activities Committee and both were formed principally by an individual who was a CP member in 1952. Various sources have advised that CP members in the New York City area have been solicited on various occasions to support the NYCAHUAAC. Three sources have reported that during the Spring of 1962 discussions were held at various closed CP club and committee meetings concerning the support of Mark Lane as a candidate for Congress.

Several sources have also advised that Isidore Gibby Needleman was in frequent touch with Lane and was interested in assisting him in his political campaign in 1960 to become elected to the New York State Legislature.

According to several sources Needleman, an attorney, was formerly employed by Amtorg Trading Corporation, the registered Russian trade agency in the United States. He has also represented current and former CP members in court and before various Congressional committees. He has had custody of CP funds and has described himself as a strict adherent of Marxist-Leninist doctrines. He has also acted as a Soviet espionage agent.

It was reported that a rally was held November 6, 1961, at the Macmillan Theater, Columbia University, New York City, to protest the ban by the University against the

Mark Lane

appearance of several previously scheduled communist speakers. According to the source, Benjamin J. Davis, National Secretary of the CP, and Mark Lane were principal speakers at the rally.

"The New York Times" for June 9, 1961, late city edition, on page 31 carried an article concerning the arrest and conviction of Mark Lane on June 8, 1961, at Jackson, Mississippi, as a member of one of two groups of "Freedom Riders" who had been apprehended in that city.

The same newspaper in its edition for April 3, 1962, carried an article on page 4 concerning Mark Lane's having been fined $415 on April 2, 1962, in New York City as a "scofflaw," for ignoring numerous traffic tickets.

Mark Lane's defense brief for Lee Harvey Oswald appeared on pages 5, 8 and 9 of the December 10, 1963, issue of the "National Guardian," which has been cited by the HCUA as having manifested itself as a virtual official propaganda arm of Soviet Russia.

During an applicant investigation conducted by the Federal Bureau of Investigation (FBI) in connection with the possible employment of an individual by an agency of the Federal Government, it was determined that the Office of the District Attorney, Queens County, New York, had conducted an investigation of Mark Lane in 1962 for alleged [redacted]. The results of this investigation were made available to the FBI. They included signed statements by [redacted] an [redacted] photograph of Lane and handwritten [redacted] by Lane relating to alleged [redacted]

Unless otherwise indicated, all of the above information was furnished to the FBI by sources who have furnished reliable information in the past.

Santa Fe, Argentina, December 9, 1963

To the Congress of the United States of America
Washington, U. S. A.

Gentlemen:

Since it is my intention and purpose to help in the investigation that the Congress of the United States of America has instituted in order to establish what really happened in the assassination of President Kennedy, and having heard references to the effect that the weapon used in the assassination was a Model-1891 Mauser rifle, I would be interested in knowing, in a dependable manner, whether this is the weapon which was actually employed. If this is the case, it is of German origin and was manufactured by the Krupp steel works. Once the serial number is known, one could establish how it reached the alleged killer. I am telling you this in confidence and on the basis of the knowledge I have of these weapons. It is my understanding that these arms were never marketed through private concerns and that the particular model in question was replaced by the 1908 model.

If it were known with certainty that this was the murder weapon, the mystery would be at least partially lifted.

Without further ado, I remain at your disposal and express my best wishes that light may be shed on this unfortunate event.

Sincerely yours,

(Signed) Manuel D. T. Munoz

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

The Chicago Office, by letterhead memorandum dated 12/19/63, received in the Bureau on 12/21/63, furnished information concerning one Lloyd John Wilson, aged 18, who two days previously had been discharged from the Air Force after less than two months' service as a "schizoid personality with strong paranoid trends."

On 12/19/63, Wilson, after calling a Chicago newspaper, appeared at the Chicago Office and reported that he met Oswald at a wrestling match at the Cow Palace in San Francisco during the last week of August or first few days of September, 1963, and that he gave Oswald $1000 in cash to assassinate President Kennedy. This letterhead memorandum covers six pages of miscellaneous information concerning Wilson's background and sets forth his activities and interest in the American Nazi Party while he was in California.

On 12/19/63 Wilson was taken into custody by Chicago authorities on a disorderly conduct complaint filed by the Chicago Secret Service and on that date he was held for psychiatric examination by the Psychiatric Institute of Chicago Municipal Court.

After this material was reviewed at the Seat of Government it was disseminated to the Civil Rights Division of the Department inasmuch as it contained information showing Wilson was engaged in neo-Nazi group activities as well as racial activities. The Department subsequently made available this letterhead memorandum to the President's Commission and J. Lee Rankin, on 1/17/64, indicated an interest in Wilson's activities and inquired as to whether the Bureau had more specific information.

Previous Inquiries Made by Bureau concerning Wilson:

On September 9, 1963, San Francisco received an anonymous telephone call alleging that Wilson was forming a White Resistance Organization, that he was in favor of Nazi-type activities, and had written a letter to President Kennedy

which was probably not sent but which contained a threat to the President. This information was immediately furnished to the Secret Service by the San Francisco Office and investigation was instituted into the allegation concerning Wilson's organization of a White Resistance group. Inquiry into the latter allegation was completed and the case closed by San Francisco 10/4/63 by letter. Investigation did not verify that Wilson had actually established any such group as claimed.

Based on an inquiry from the Air Force in response to a name check, information available in Bureau files concerning Wilson was made available to the Air Force on 12/4/63.

After Wilson appeared at the Chicago Office on 12/19/63, in view of his statement that he had paid Oswald $1000 to assassinate the President, immediate additional investigation was conducted to determine whether there was any basis for his statement.

Inquiry has shown that the only two wrestling matches at the Cow Palace in August and September, 1963, were matches held on August 10 and September 14, 1963. On August 10, 1963, Oswald was in custody of local authorities in New Orleans, Louisiana (he was arrested 8/9/63) and he was interviewed by Bureau Agents at his request on 8/10/63 in New Orleans. We cannot place Oswald definitely on 9/14/63 as he was out of work from late July, 1963 until he obtained the job at the Texas Schoolbook Depository in Dallas, Texas. We do know, however, that he was seen by his landlord in New Orleans on 9/16/63, that he obtained his Mexican tourist card in New Orleans on 9/17/63, and that he filed claims at the New Orleans Division of Employment Security on September 3, 10, and 17, 1963. In addition, books were charged out against his New Orleans Public Library card on September 9, 1963. Our inquiry of Oswald's activities in the New Orleans area between early May and September 25, 1963, when he departed on his trip to Mexico, has developed no evidence to show that he left the New Orleans area except for an overnight trip with his wife in the Summer of 1963 to the Jesuit House of Studies in Mobile.

From the findings in San Francisco concerning the wrestling matches, it is apparent that Wilson could not have met with Oswald as he alleges during the last week of August or the first few days of September.

TE

Memo to Mr. Belmont from A. Rosen
Re: Lee Harvey Oswald

On January 3, 1964, local charges in Chicago were dropped against Wilson in favor of Federal charges filed there by the Secret Service. Wilson was arraigned before the U. S. Commissioner in Chicago on January 3, and held in default of $25,000 bond. The Psychiatric Institute of the Chicago Municipal Court diagnosed Wilson as "delusional, hostile and potentially homicidal" and said that he was possessed of a "paranoid condition, maybe true paranoid." On January 17, the Federal Court in Chicago remanded Wilson to the U. S. Federal Hospital at Springfield, Missouri, for fifteen days or such additional time as is necessary to complete a psychiatric examination. This aspect is being followed by Chicago.

ACTION:

There is attached a letter to Mr. Rankin furnishing him reports covering investigation conducted by the Bureau relative to Lloyd John Wilson and furnishing him current information relative to Wilson's status relative to his arrest and commitment for psychiatric examination in Chicago, Illinois.

SUBJECT: GENERAL SERVICES ADMINISTRATION NAME CHECK REQUESTS ON BEHALF OF PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT KENNEDY

By letter dated 1-15-64, received 1-20-64, General Services Administration (GSA) advised that the Administrator of GSA had been requested by the Chairman of the President's Commission on the Assassination of President Kennedy (PCAK) to initiate security investigations with respect to professional staff employees of the Commission and would pursuant thereto submit to the Bureau name checks on individuals employed or being considered for employment by the Commission. GSA requested permission to make available to the Commission copies of reports furnished by us to GSA. The reports will be made available only to officials whose duties require access to the information and upon completion of review would be returned by the Commission to GSA for filing and storage.

The arrangement proposed by GSA is similar to previous arrangements between GSA and various other small agencies established by Executive Order, with which arrangement the Bureau has concurred. It is believed the volume of the suggested procedure will be small and is believed we should grant permission to GSA in accordance with its request, provided such information is furnished to the General Counsel of the Commission. Information concerning Mr. J. Lee Rankin, General Counsel, should be furnished to the Chairman of the Commission.

In connection with GSA's request, we have received through name check channels from GSA requests for name checks of four individuals associated with the Commission; James Lee Rankin, Julia T. Eide, Beverly Ann Heckman, and Norman Redlich.

Bureau files reveal Rankin was the subject of an applicant-type investigation during January, 1953, and the subject of an Atomic Energy Act investigation in 1955, which developed no derogatory data. A summary of the applicant-type investigation is available for dissemination as well as copies of the investigative reports in the Atomic Energy Act investigation. Bureau files contain no derogatory data concerning Julia T. Eide, who was the subject of a Departmental Applicant

Investigation in 1953, and an Atomic Energy investigation in 1955. Copies of the reports in these investigations are available for dissemination to GSA. Beverly Ann Keckman was the subject of an Atomic Energy Act investigation in 1949 and 1955, which developed no derogatory data. Copies of these reports are available for dissemination to GSA.

With regard to Norman Redlich, Bureau files reveal he was a subscriber to the "National Guardian," active in the Emergency Civil Liberties Committee and active in efforts to eliminate the House Committee on Un-American Activities and in 1961 acted as attorney for a suspected espionage agent. Under date of 12-31-63, a memorandum summarizing information concerning Redlich was prepared and furnished to Mr. Rankin of the President's Commission with the Director's approval. A copy of this summary is available for dissemination to GSA.

RECOMMENDATION:

1. That the attached letter be sent to GSA granting permission to GSA to furnish information received from the FBI to the General Counsel of President's Commission concerning employees and prospective employees of the Commission, except information concerning Rankin should be furnished to the Chairman of the Commission.

2. That information concerning Rankin, Eide, Keckman, and Redlich be furnished GSA through name check channels in response to its requests.

Request of Henry Wade, District Attorney, Dallas, Texas

Dallas has advised that Henry Wade, District Attorney, Dallas County, Texas, has expressed a desire to have copies of a number of the reports of interviews, particularly those reflecting interviews with Ruby, background information furnished concerning Ruby and those reflecting Ruby's activities during the pertinent period (11/21-24/63). Wade pointed out that he would keep the information confidential but would find it most helpful in possible connection with cross-examination of witnesses. He also indicated he might subpoena some of our Agents should a witness tell a different story on the stand from the story related to the Agents.

The Dallas Office reviewed interviews in connection with the phases mentioned by Wade and set forth three interviews of Ruby and 141 interviews of relatives, associates and other persons covering the desired information. It was requested that Bureau permission be granted to make the reports of these interviews available to Wade.

Request of Defense Attorney for Agent Testimony

It is noted that the defense attorneys for Ruby have already made a request for two Agents to testify at a bond hearing 1/24/63 as to statements made by Ruby in their presence immediately subsequent to his arrest on 11/24/63. District Attorney Wade did not feel that the Agents' testimonies would be detrimental to the State's case and did not object to their testifying. Assistant Attorney General Miller asked that the Bureau consider allowing the Agents to testify as to refuse might create the impression that the Federal Government had something to hide. With the Director's approval Miller was advised 1/8/64 that the Bureau would defer to his views as to whether or not the Agents would be allowed to testify. Miller said that he desired the Agents to testify for the defense and that he would insure that the U. S. Attorney was present in State court if the Agents testified.

Request of Attorney General, Texas:

Mr. J. Lee Rankin of the President's Commission, by letter dated January 7, 1964, forwarded a letter to the Commission from Mr. Waggoner Carr, Attorney General of Texas, in which Carr indicated that the District Attorney of Dallas County, Henry Wade, is presently handicapped in the preparation of the case against Jack L. Ruby by the fact that certain records, including written statements, are in possession of the FBI. Mr. Carr also states that Mr. Wade is concerned about repeated statements made in the press to the effect that there is no connection between Oswald and Ruby. Carr states Wade's point is that such press reports should say that no connection has thus far been established. He advises Wade is aware that such press statements are not based on any statements or activities of the Commission or anyone connected with the Commission.

Mr. Rankin requested advice concerning the nature of the records in possession of the FBI, if any, which Mr. Wade does not have and which he feels are necessary to the preparation of his case. He requested that he be advised of any arrangements which can be made to assist Wade without impairing the investigative responsibilities of the FBI or the assignment of the President's Commission.

Facts to be Considered

The Federal Government has no direct interest in or responsibility for the State murder prosecution of Ruby but any direct statements or admissions made by Ruby to Agents would be pertinent. Since we have already agreed, as Miller desires, to furnish Agents to testify for the defense as to statements made by Ruby in the presence of Agents, there is no objection to furnishing the State reports of Agents' interviews with Ruby.

It will be noted that Mr. Rankin points out the Commission is anxious to cooperate with the Texas authorities. From the Bureau's standpoint, we see no objection to advising the District Attorney of the names of the police officers and others to whom Ruby made statements after his arrest and who we subsequently interviewed. We could orally furnish the essence of the information so state authorities could conduct their own interviews. We could

do the same as to persons who furnished us information about Ruby's movements during the pertinent period, 11/21 through 11/24/63.

We think it would be undesirable to furnish the full results of our investigation to the State reflecting interviews of approximately 3,000 persons contained in investigative reports totaling approximately 3,307 pages. Our investigation covers all facets of Ruby's life, including the running out of numerous rumors and false allegations. We should not be in a position that the Bureau has selected from this mass of interviews that which should be turned over to the District Attorney bearing in mind that the defense may also request such information.

It should be noted that the Dallas Police have conducted an investigation of the murder and furnished copies of their report to Wade and the President's Commission and the trial should be based on the Dallas Police investigation.

Possible Request for FBI Reports by Defense

In connection with a possible request from the defense for our investigative reports, a United Press International release of 1/7/64 quoted J. H. Tonahill of Jasper, Texas, one of Ruby's defense attorneys, as stating that he would go to Federal court if necessary to make the FBI and the President's Commission turn over to him reports of their investigations of the Oswald killing. He said the reports no doubt would contain fine defensive material and "we are entitled to it under several Supreme Court decisions." The Bureau has not as yet had a specific request from Ruby's defense attorneys for our investigative reports.

Thinking of Assistant District Attorney Dallas re Conspiracy

In addition to the above, Dallas advised that Assistant District Attorney William Alexander has stated that the State prosecution would "make no effort to correct impressions" a jury may receive that Oswald and Ruby were part of a communist conspiracy and inferred that he felt a jury would be most likely to convict and give Ruby a substantial sentence with the belief that there was an Oswald-Ruby connection. Dallas requested that they be

allowed to advise District Attorney Wade that Ruby has denied any connection with Oswald and that no reliable information has been developed in our investigation to indicate that Ruby and Oswald had ever known each other or had any association whatever. While this is true, we do not think the FBI should make such a statement to state authorities as this is a function of the President's Commission.

ACTION:

Basically, we feel that the decision as to what should be turned over to the State rests with the Department and the President's Commission. We recommend:

1. That Mr. Malley see Mr. Rankin and discuss with him the request made by Attorney General Carr of Texas, that it be suggested to Rankin that it would be desirable to obtain the Department's views relative to what information should be given to Mr. Carr in view of the fact the Department requested the Bureau to conduct a civil rights investigation relative to Ruby's shooting of Oswald. Mr. Rankin will also be advised that the Bureau has not up to this point furnished any reports concerning the Ruby investigation to the Department inasmuch as the President also requested the Bureau to conduct investigation relative to the shooting of Oswald by Ruby and in view of the President's request all reports thus far have been made available only to the President's Commission. Mr. Rankin will be advised that the Commission has all of the reports prepared by the Bureau in the Ruby matter and that they are, therefore, aware of what information we have. Mr. Rankin will also be advised that the Bureau defers to the Commission as to what information is to be furnished to the District Attorney. For Rankin's assistance, we can point out the feasibility of furnishing interviews with Ruby and orally identifying for the District Attorney those people whom we have interviewed who talked to Ruby after his arrest and those people whom we interviewed who furnished information regarding Ruby's movements during the pertinent period. In addition to identifying these persons, we can orally advise the District Attorney as to the nature of information he can expect from them.

RY

THE

2. After discussing this matter with Mr. Rankin, if Rankin agrees, the request of Waggoner Carr will then be discussed with Assistant Attorney General Miller of the Department and his opinion solicited as to what if any information should be furnished to the Dallas District Attorney. We can point out the logical cut-off line of furnishing the District Attorney specific reports (there are three) reflecting results of Agents' interviews with Ruby, the names of police officers and persons whom we interviewed who talked to Ruby subsequent to the arrest, and names of persons we interviewed who can furnish information as to Ruby's movements during the pertinent period.

Today it was announced that ARLEN SPECTER, Assistant District Attorney, would serve on the Legal Staff of the President's Commission which is investigating President KENNEDY's death. It was stated that SPECTER would be in charge of assembling and bringing evidence before the Commission.

SPECTER is 33 years of age, is a native of Kansas where he attended high school in 1946 and 1947, and is a graduate of the University of Pennsylvania. He won many honors at the University including Phi Beta Kappa.

He served as a Special Agent in the Office of Special Investigations of the U. S. Air Force in 1951-53, and while attending Yale Law School was Editor of the Law Journal. He graduated in 1956 from Yale Law School.

He has been with the District Attorney's Office, City of Philadelphia, since 1958. He resides with his wife, the former JOAN LOIS LEVY, and two sons, age six and three, at 3417 Warden Drive, Philadelphia, Pa.

SPECTER received considerable notice after successfully prosecuting RAYMOND COHEN, Teamsters Local 107 secretary-treasurer, and other Teamster leaders in an extremely long criminal trial held in the City of Philadelphia.

Because of this success Attorney General KENNEDY offered SPECTER a job on the Justice Department Staff to assist in the prosecution of JAMES HOFFA and other Teamster officials. SPECTER declined because the local case against COHEN had been appealed to the Pennsylvania Superior Court, and he wished to see it through. That case was argued in September and the court's ruling still is awaited.

It does not appear Zerk has any information of value relating to the assassination of President Kennedy other than his own opinion. However, the general tone of his communication is insulting and prejudicial to us. As of this time no request for investigation of this matter has been received from the President's Commission. No information identifiable with Zerk could be located in Bureau files.

Los Angeles instructed to initiate logical background investigation on Zerk, including indices and regular record checks. The results of this investigation should be promptly submitted to the Bureau. Zerk should not be interviewed concerning this matter, nor should a neighborhood investigation be undertaken.

Letter to SAC, Los Angeles
RE: KARL ZERK

NOTE:

On 1/16/64 U.S. Secret Sevice furnished our liaison representative with a letter dated 12/29/63 from Zerk, of Los Angeles, to the President's Commission. Among items enclosed with Zerk's letter was a copy of the cover from the Director's book, "Masters of Deceit," and newspaper photos relating to the assassination of President Kennedy. It is not known how Secret Service came into possession of this information.

Zerk in his letter claims the Director's book has been for years "the bible of right wing extremists." He claims President Kennedy was assassinated to punish him for "deviating from the precepts of this bible." Zerk also alleges evidence collected during the assassination was "pre-arranged" to "frame" Lee Harvey Oswald, and that Oswald's "pre-trial execution" with an altered "low power .38" bullet constituted a "lynching of an innocent man for an imputed crime." Zerk concluded his letter with other insulting and uncomplimentary remarks concerning the Director's book.

Since we have not received a request as yet from the President's Commission to investigate this [redacted] It is quite apparent the Commission does not attach much significance to Zerk's ramblings and obvious distortions of the true facts concerning the assassination. It would appear Zerk may be experiencing some mental distress and may be in need of psychiatric help. However, since we know nothing about him and in view of his insulting and belligerent attitude, it is felt we should develop some background information on him for possible future action.

The Hon. J. Lee Rankin
Special Counsel to the Special Presidential
Commission
Washington, D. C.

Dear Sir:

Permit me to point out that Mr. Hoover's book " Masters of Deceit " has been, for years, the bible of right wing extremists in Texas. When President Kennedy signed the Nuclear Test Ban Treaty he became the " traitor " and the " enemy " in the eyes of these hate groups.

John F. Kennedy's assassination was plotted with two objectives in mind. To punish the President and his followers for deviating from the precepts of this bible and to, grossly, discredit liberal thought in America. The plot and the " evidence " were pre-arranged in such a way so as to " frame " the leftist personality of Lee Harvey Oswald. His pre-trial execution with an a l t e r e d low power .38 cal. bullet which did not emerge from Oswald's slender body, constituted the traditional lynching of an innocent man for an imputed crime.

Loyalty to the Southern cause, fraternal police solidarity and understanding considerations for national unity have set in motion a nationwide desire to, fraudulently, exploit this incident as justification for the symbolism of the b l o o d- s t a i n on the cover of Mr. Hoover's book. Pressures are being exerted upon the Special Presidential Commission to let a lie triumph over truth.

Yours very truly,

Karl Zerk

Hung In Effigy

Or Assassinated?

SANTA BARBARA, Dec. 27 (AP)—Chief Justice Earl Warren was hanged in effigy Wednesday at a downtown intersection, authorities reported today.

They said they did not know who was responsible.

The life-size dummy and a five-foot sign were hoisted on a flagpole.

Sheriff's deputies said the sign read:

"Earl Warren, ex-American, head of Oswald whitewash committee, is betraying the U.S. to the International anti-Christ. In the Kremlin."

A sheriff's deputy cut the dummy and sign down.

Dist. Atty. Vern B. Thomas and Sheriff James W. Webster said they have launched an investigation of the incident.

The Chief Justice is head of a special committee appointed by President Lyndon B. Johnson to investigate the assassination of President John F. Kennedy and the murder of his accused assassin Lee Harvey Oswald.

Please note the wording of the sign. Streicher's Nazi publication "Der Stürmer" used the identical language when the press expressed doubts as to the guilt of Marinus van der Lubbe.

SUBJECT: COMMUNIST PARTY, USA
INTERNAL SECURITY - COMMUNIST

This is a memorandum recommending that certain information concerning articles appearing in "The Worker," east coast communist newspaper, be orally furnished by Assistant Director DeLoach to Mr. Walter Jenkins, Special Assistant to the President. This information concerns the commission appointed by President Johnson to investigate the assassination of President Kennedy and is being furnished at the request of Mr. Jenkins. Warren Commission

By note of 1/17/64 Mr. Jenkins forwarded to Mr. DeLoach a copy of "Facts For You," prepared by Research and Education, Texas Farm Bureau, Box 489, Waco, Texas, the Director of which is Bill Wedemeyer. This note and publication are attached. (Bufiles contain no identifiable references to the publication or Wedemeyer.) Mr. Jenkins marked a portion of page 341 which is as follows: "The Worker, (the Communist Party Paper) dated December 3, announced three days before the President of the United States did, that they were recommending to the President of the United States that he appoint a committee to investigate the conditions surrounding the assassination of our President and that Earl Warren, Chief Justice of the Supreme Court, be Chairman of the group." Mr. Jenkins's note asked, "Is this statement true--the one I have outlined in pencil?"

"The Worker" 12/3/63 revealed no such statement. However, "The Worker" of 11/26/63 contains an editorial which states that a committee headed by the Chief Justice of the Supreme Court should be formed to investigate the assassination of President Kennedy. A copy of this editorial is attached.

The Party has in the past, as the Director has pointed out on numerous occasions, had programs which closely paralleled those of legitimate organizations. The communists declare themselves for a lasting international peace, for peaceful coexistence and freedom of all people. Basically, communism pretends to offer all things to all men and is currently making demands which parallel those of other individuals in this country. Examples are demands for a shorter workday, end to discrimination of all kinds, aid to farmers, jobs for all, the tax cut, medicare, war on poverty and decent housing for all peoples.

1 ENCLOSURE

When the time comes, yes. (Page 3, "A Study of Communism" by J. Edgar Hoover). Farm Bureaus have said much in county, state and national resolutions regarding Socialism and Communism. Members have known for ten years or more that Socialism is the forerunner of Communism. All Communists work for a Socialist America. When a law is passed that gives economic security, another law giving the administrators the right to determine what economic security is will follow as surely as night follows day. In a booklet, The Intelligent Woman's Guide to Socialism, George Bernard Shaw makes the following statement: "I also make it quite clear that Socialism means equality of income or nothing, and that under Socialism you would not be allowed to be poor. You would be forcefully fed, clothed, lodged, taught and employed, whether you liked it or not. If it were discovered that you had not character or interest enough to be worth all this trouble, you might possibly be executed in a kindly manner. But while you were permitted to live, you would have to live well." This statement should be clear enough for anybody to understand. The answer is simply this: When people are no longer morally responsible, there must be some person to rule them and see that they perform the necessary functions required in a civilization. All freedoms stand or fall on one freedom--the right to buy and sell in a free market. If a person loses his right to earn a living because he prays, there will be few prayers offered. You may be free to speak as you choose, but if what you say takes away your right to a job and food, words will be chosen with great care.

This department has reviewed four Communist Publications for the past five years. They are available in the Waco Office for anyone to review, if he so chooses. After a casual review of these publications, there is no doubt but that our government today is following the American Communist Party line. The Worker, (the Communist Party Paper) dated December 3, announced three days before the President of the United States did, that they were recommending to the President of the United States that he appoint a committee to investigate the conditions surrounding the assassination of our President and that Earl Warren, Chief Justice of the Supreme Court, be Chairman of the group. Senator James O. Eastland of Mississippi, reviewed the Supreme Court's decision in the Congressional Records on May 2, 1962, and this review revealed that out of 65 decisions, Earl Warren voted in favor of the Communist's position 62 times.

Listen to what Gus Hall said in a Communist publication, "Political Affairs", December, 1963: "For all sections of the American people, the unavoidable question is: 'Are you willing to continue sacrificing profits, jobs and sales on the altar of the cold war?' As to profits, the businessmen have said 'No'. As to sales, the Farmers have said 'No'. And as to jobs, the longshore leaders and a growing army of workers are saying 'No'.

The breakdown of economic barriers can be a very important landmark in the struggle for peaceful competition". Read the daily news and think. A selected group of businessmen were used by government in negotiating the wheat deal with Russia. The government promised wheat sales to Russia for cash. Then later, the government announced that the import-export bank would guarantee the payment. Is there a businessman in the U.S. that would sell wheat to Russia on credit? Does anyone believe that Russia will ever pay for American wheat if the deal is completed? The longshoremen did not want to handle wheat for Russia, but again, government influence has used the

Dear Mr. Rankin:

We have been advised that authorities of the State of Texas, including District Attorney Henry Wade and his assistant, William Alexander, appeared before the Commission concerning the article which appeared in "The Nation" magazine in which it is alleged that Lee Harvey Oswald was an informant of the FBI.

We have previously made available to the Commission full information concerning our contacts with Oswald. So that there may be no doubt as to our relations, here are the facts:

Our first interview of Lee Harvey Oswald took place June 26, 1962, at Fort Worth, Texas, shortly after Oswald returned from Russia. This interview was conducted by Special Agents B. Tom Carter and John W. Fain and was for the purpose of ascertaining whether Oswald had been given any Soviet intelligence assignments in this country. Oswald was requested to advise this Bureau in the event he was contacted in this country by an individual under suspicious circumstances suggesting that it was a Soviet intelligence approach. Oswald agreed to do so. Results of this interview are set out in the report of Special Agent John W. Fain dated July 10, 1962, at Dallas, Texas, captioned "Lee Harvey Oswald, Internal Security - R," copies of which have been furnished to the Commission.

Oswald stated he could see no reason why the Soviets would desire to contact him; however, he promised his cooperation in reporting to the FBI any information coming to his attention in this regard. Results of this interview are set out in the report of Special Agent John W. Fain dated August 30, 1962, at Dallas, Texas, captioned "Lee Harvey Oswald, Internal Security - R," copies of which have been furnished to the Commission.

Our next interview of Oswald took place on August 10, 1963, at the First District Station, New Orleans Police Department, New Orleans, Louisiana, at his request. During such interview Oswald furnished details concerning his arrest by the New Orleans Police Department on August 9, 1963, on a charge of disturbing the peace by creating a scene. He also furnished data concerning his background and activities in regard to the Fair Play for Cuba Committee. Results of this interview are set out in the report of Special Agent Milton R. Kaack dated October 31, 1963, at New Orleans, Louisiana, captioned "Lee Harvey Oswald, Internal Security - R - Cuba," copies of which have been furnished to the Commission.

The above interviews are the extent of our contacts with Lee Harvey Oswald prior to the assassination of President John F. Kennedy. We did not interview Oswald in Dallas, Texas, or in Irving, Texas, prior to the assassination of President Kennedy.

In regard to the data in "The Nation" article which alleges that Oswald had Agent Hosty's home phone and office phone numbers and car license number in his possession, you are advised that Special Agent James P. Hosty's name, office telephone number and automobile

Honorable J. Lee Rankin

license number, one digit off, appeared in Oswald's address book. For your information, Special Agent Hosty furnished his name and office telephone number to Mrs. Ruth Paine when Agent Hosty interviewed her concerning the whereabouts of Lee Harvey Oswald on November 1 and 5, 1963. Agent Hosty did not give Mrs. Paine the license number of his automobile and presumably Mrs. Paine may have jotted such number down on her own initiative unknown to Agent Hosty.

Following the arrest of Lee Harvey Oswald in connection with the assassination of President John F. Kennedy, Agents of this Bureau interviewed Oswald at the Dallas Police Department, Dallas, Texas. The purpose of these interviews was to obtain from Oswald any admissions he might make concerning the killing of the President or other data pertinent to the assassination, as well as to obtain any information Oswald might furnish of a security nature. Results of these interviews of Oswald were set out in the report of Special Agent Robert P. Gemberling dated November 30, 1963, at Dallas, Texas, captioned "Lee Harvey Oswald, also known as L. H. Oswald, Lee Oswald, Lee H. Oswald, Leslie Oswald, A. Hidell, A. J. Hidell, Alek J. Hidell, Alek James Hidell, O. H. Lee; Assassination of President John Fitzgerald Kennedy, 11/22/63, Dallas, Texas, AFO," copies of which have been furnished to the Commission.

Lee Harvey Oswald was never used by this Bureau in an informant capacity. He was never paid any sums of money for furnishing information and he most certainly never was an informant of the FBI. In the event you have any further questions concerning the activities of the FBI in this case, we would appreciate being contacted directly.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Rankin:

Transmitted herewith are two copies of the report of Special Agent Robert P. Gemberling dated December 13, 1963, at Dallas, captioned, "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas." This report contains the results of investigation relative to allegations against persons other than Lee Harvey Oswald following the assassination of the President and sets forth remarks allegedly made by various persons relative to their feelings concerning President Kennedy, other officials, and for the policies of the administration.

In a number of instances the investigation in this report is incomplete in that the particular allegation has not been fully resolved. In each instance additional investigation has been instituted to fully resolve the matter. An example of such an instance occurs on page three of this report wherein one Bill Baker alleged that an acquaintance of his, Joseph Noble Adams, had made various statements indicating the White Citizens Council was responsible for the assassination of President Kennedy and they were also going to take care of the Attorney General. He further stated this group was composed of mistreated servicemen of which he and Oswald were also members.

62-109090-

Adams was subsequently located at the city jail in Austin, Texas, and upon interview admitted he was a chronic alcoholic, had been addicted since 1953, and was a current member of Alcoholics Anonymous. Adams was questioned concerning the statements attributed to him. He indicated that due to his extremely intoxicated condition, it is quite possible he made the statements attributed to him but he had very little recollection of what did occur. The full results of the additional investigation will be incorporated in a subsequent report.

Dear Mr. Rankin:

In accordance with the request of Assistant Attorney General Herbert J. Miller, Jr., we are making available to United States Attorney Barefoot Sanders at Dallas one copy of each of the 13 investigative reports which have been furnished to the Department of Justice and the President's Commission. It is understood that you received a copy of Assistant Attorney General Miller's memorandum dated January 20, 1964, which set forth the items that are to be deleted from the reports before they are furnished to Mr. Sanders.

We have been advised by the Criminal Division of the Department of Justice that as additional investigative reports are received by them in the future they will also be reviewed to determine what information should be made available to local authorities.

We have also been advised that the matter was discussed with the Commission by the Criminal Division of the Department of Justice and the Commission is cognizant of the manner in which the information is being made available to Mr. Wade.

Reference is made to the attached memorandum of 1/9/64 from Mr. Rosen to me, dealing with the request of Texas authorities for reports of our interviews, et cetera, in the Ruby case, and the letter from Mr. Rankin of the President's Commission, requesting advice as to the records in our possession and what arrangements can be made to assist District Attorney Wade. The Director further discussed this with me this morning.

The point was made that we do not want to get into a position of being charged with lack of cooperation with Texas authorities in connection with the trial of Ruby. We can well be put in this position if we suggest to Mr. Rankin or Mr. Miller of the Department any limitation in what is turned over to District Attorney Wade. Therefore, we should advise Mr. Rankin, in reply to his letter, that we stand ready to turn over to District Attorney Wade the full results of our investigation in the Ruby case, and this is a decision, of course, that Mr. Rankin will have to make, inasmuch as we performed this investigation at the request of the President and have turned the results over to the Commission.

Likewise, we should furnish Miller copies of our investigative reports in the Ruby case and advise him of the request of Texas authorities and what we have advised Mr. Rankin. We should seek Mr. Miller's opinion as to what should be turned over to the Texas authorities.

We should advise both Mr. Rankin and Mr. Miller that we would like to have their decision promptly, and in the event it will take time for them to determine what should be turned over to District Attorney Wade, we will advise the Texas State Attorney General, and District Attorney Wade, that we are awaiting a decision from the President's Commission and the Department in this matter.

This will, of course, place us in the position that we are not delaying the turning over of material to the Texas authorities, and thus we cannot be charged with lack of cooperation with these authorities. This should be handled at once.

Dear Lee:

Reference is made to your letter of January 7, 1964, wherein you enclosed a copy of a letter dated December 30, 1963, from Mr. Waggoner Carr, Attorney General of Texas.

In addition to the request of Mr. Carr in his letter to the Commission, you were advised today by J. R. Malley of this Bureau of the request made by District Attorney Henry Wade, Dallas County, Texas, wherein he requests any reports available covering interviews of Jack Ruby by FBI Agents. Mr. Wade also requested that he be furnished with background information concerning Ruby and any information reflecting Ruby's activities during the pertinent period of November 21 through 24, 1963.

The FBI is ready to furnish to State authorities whatever information the Commission and the Department of Justice agree would be proper under the circumstances.

As you are aware, the President's Commission has been furnished a number of reports concerning the Ruby phase of the investigation and these reports have also been furnished to the Department of Justice. Inasmuch as this Bureau conducted the investigation at the request of the President and the Department of Justice, we would appreciate being advised what information should be made available to the State authorities of Texas.

You were also advised that in view of the requests of Attorney General Carr and District Attorney Wade, the FBI is advising them that their requests had been made known to the

During this discussion you indicated you were in full agreement with this proposed action, that you would appreciate the Department being advised that the Commission would like to have its views with regard to information that could be disseminated to District Attorney Wade of Dallas County, Texas, and that the Department should also be advised that this matter should be handled as expeditiously as possible in order to forestall any criticism on the part of State authorities.

Your request has been made known to Assistant Attorney General Herbert J. Miller of the Criminal Division of the Department.

At 5:20 PM, 1-20-64, I telephonically contacted ASAC Clark, Dallas, with regard to the three metal boxes of personal correspondence obtained from Mrs. Paine.

I told ASAC Clark that we contemplated furnishing the material to the President's Commission and wanted to be sure of the two following facts:

(1) That Dallas had reviewed this material and that there was nothing pertinent in it and

(2) That Mrs. Paine was aware that we were furnishing the material to the Commission.

I advised ASAC Clark that unless informed to the contrary on the morning of 1-21-64 we would assume the above statements are correct. I told Clark that, of course, in furnishing the material to the Commission we would advise them of Mrs. Paine's request that the material not be made public and that it be returned to her as soon as possible.

ASAC Clark stated that he was quite sure that the material had been reviewed and that there was nothing pertinent in it and also that Mrs. Paine was aware that the material was going to the Commission - that he would check and in the event it was not correct we would be advised early on the morning of 1-21.

Dear Mr. Rankin:

In accordance with your conversation with J. R. Malley of this Bureau on January 17, 1964, the scale models prepared by this Bureau relating to the site of the assassination of President John F. Kennedy, and the Dallas, Texas, police department garage were delivered to the Veterans of Foreign Wars Building and have been set up in the Assembly Room on the first floor.

The scale models show in minute detail pertinent physical features of each site, including miniature reproductions of vehicles. It is believed these three-dimensional exhibits will assist eyewitnesses in clearly demonstrating their recollections of events occurring at the time of the shooting, thus making it possible for those who have not visited those sites to gain a full and clear understanding of the happenings surrounding each event.

Mr. Wade Holland, Superintendent of the Veterans of Foreign Wars Building, has advised that the Assembly Room will be kept locked and, in accordance with your request, he has been requested to make available to your office a key for this room. He has also been advised that you do not desire anyone to have access to the room without written authorization from your office. While these arrangements have been made with Mr. Holland in accordance with your request, it is suggested that it would be well for you also to discuss this matter with Mr. Holland in order that there can be no possible misunderstanding on his part relative to your desires for the safekeeping of these exhibits.

JACK RUBY
Lee Harvey Oswald - Victim
CIVIL RIGHTS

Both the prosecution and the defense in the forthcoming trial of Jack Ruby for the murder of Lee Harvey Oswald have asked for FBI reports relative to the investigation of Ruby and Oswald. Properly, we have left the decision to the President's Commission, which is studying the assassination of President Kennedy, and to the Department, as to what material should be furnished the prosecution and the defense.

Assistant AG Miller has indicated no material will be given to either the prosecution or the defense relative to the investigation of Oswald. The Department is reviewing the investigative reports relative to Jack Ruby for the purpose of removing any confidential material and thereafter making these reports available to District Attorney Wade in Dallas, through US Attorney Barefoot Sanders. Wade will select material he thinks is pertinent to the ~~defense~~ prosecution and thereafter the Department will pass on whether this material should be made available to him for that purpose.

The Department also contemplates furnishing Ruby's defense counsel with a list of names and addresses of persons who have furnished information bearing on Ruby's mental condition. It appears that Mr. Rankin of the President's Commission is awaiting a Departmental decision before expressing the Commission's views as to what should be furnished the prosecution and the defense.

62-109090 -

NOT RECORDED

Necessarily, we have to take the position that it is a decision for the President's Commission and the Department to make as to what information we have developed goes to the prosecution and the defense. However, we have in mind that any material which is to be furnished will be from FBI reports and, consequently, the FBI will be involved in any criticism of the material itself. Bearing in mind that we have interviewed anybody and everybody who had information concerning

AHB:CSH (5)

22 JAN 24 1964

Mr. Tolson

the assassination of the President, concerning Oswald, and concerning Ruby, our reports contain a great deal of information that can be classified as rumor and gossip, and character-assassination type of information. Considerable information is from persons who are mentally disturbed. We ran out the information wherever possible to substantiate or disprove it. Nevertheless, in a great many instances the allegation will appear in one report and the investigation to prove or disprove it will appear in a later report.

If the information in these reports is misused, or comes into the hands of unauthorized persons, there is a strong possibility that there will be complaints, both on the part of persons who gave the information and persons against whom allegations were made. For example, we conducted investigation into the background of Ruth Paine and her husband, Michael Paine, in view of the close association between the Paines and the Oswalds, and reports of this investigation were furnished to the Commission. We are sending over today a 354-page report on allegations received concerning persons who made alleged threats, or had knowledge of the assassination of President Kennedy, aside and apart from any association with Oswald or Ruby. We talked to a great many "crackpots" and emotional people who made wild allegations, and the results of the interviews are in these reports.

ACTION:

We do not know whether the courts will abide by any decision the Presidential Commission or the Department makes as to restrictions on furnishing information to the prosecution and defense. In order to alert the Department and the President's Commission, we prepared letters under date of 1/13/64 to Assistant AG Miller of the Department, and to Lee Rankin of the President's Commission, in which we pointed out that if information in these reports is misused, or becomes a matter of public knowledge, it would reflect most unfavorably upon the Department of Justice and the President's Commission.

By letter dated January 6, 1964, Mr. O. N. HUMPHREYS, JR., Agent in Charge, Intelligence Section, Texas Department of Public Safety, Austin, Texas, forwarded a carbon copy of an eight-page letter dated December 29, 1963, from A. GEORGE SCHINDLER. It had no addressee. It was received January 2, 1964, by the Department of Public Safety. The envelope bore the return address "From Special Investigator A. GEO. SCHINDLER, Home Address 93 N. Meridith Ave, Pasadena, Calif., Enroute thru Tuscon, Arizona to Wash. D. C. thru El Paso, Austin. 29/Dec.763." It was addressed to"Colonel HOMER P. GARRISON, Dept. of Public Safety, For Governer CONALLY of Texas, Austin, Texas." The envelope also bore the words "Most Urgent Classification" and "Air Mail, Urgent, Collect Balance Postage at other End." It indicated that twenty-four cents postage due had been paid.

The first page of the letter was on the reverse side of a calendar for July 1964. The second page was on the reverse side of a calendar for October 1963. Page 5 was on the reverse side of an envelope from Los Angeles County Bar Association, 625 Security Building, 510 South Spring Street, Los Angeles, California, to Mr. ALBERT G.

SCHINDLER, 93 North Meridith Avenue, Pasadena, California, postmarked July 9, 1963. Page 7 was on the reverse side of an envelope from American Civil Liberties Union for Southern California, 2323 West Fifth Street, Room 202, Los Angeles, California, to A. SCHINDLER, 93 North Meridith Avenue, Pasadena, California, postmarked October 10, 1963.

The letter was partly handwritten, partly hand-printed, and is illegible in places. It is reproduced as follows:

"29 December 1963

"Signed by
A GEORGE SCHINDLER
Mrs. A. G. SCHINDLER

"Mailed from Tuscon, Arizona. While enroute to Wash. D. C. to appear before Chief Justice WARREN's commission investigating the death of President KENNEDY. Mailed by A. G. SCHINDLER of 93 N. Meridith Ave, Pasadena, California.

"This communication is committed in quadriplicate form. This original copy is being sent directly to the Presidents Office as it involves statements pertaining to information belonging to that office and relative to facts concerning the late President KENNEDY and his demise. This Information, which in fact is a criminal investigation and in accordance with the legal Statutes, must when signed be treated as such, and the contents diligently investigated and the legal demand under the law for the arrest and holding without bail, pending Grand Jury Action, and stated charges that cannot be by passed but in accordance with the law, be the basis for trial and that all accessory before and after the fact to the heinious crimes alleged, be also held for trial and Grand Jury Action in accordance with Procedure established by Law. This includes,

"Private Citizens, Public Servants and Non Citizens involved in these allegations by a Citizen and Registered Voter of the City of Pasadena, County of Los Angeles, State of California, United States of America.

"It is demanded under the law that immeadiate protection be furnished Mr and Mrs A. G. SCHINDLER and daughter who have been threatened with death, and whom have been subjected to go through the ordeal of some Fourteen Attempts on their lives and who have had to flee their home at 93 N. Meridith Ave to avoid a second kidnapping of their young daughter. The husband, an independent (illegible) had appealed to the Local Office of the Los Angeles Federal Bureau of Investigation for protection after revealing information of a coming attempt on the Life of President KENNEDY and a Chief Executive of a Southern State, this a very short time before the assassination. The essence was that a well organized plan to assassinate the President, Vice President, the two following sucessors. The accidental way it was found out, and the way it was found out that Mr SCHINDLER found out, is fantastic in itself. Appealing to Police, Federal authorities and trying to break through the red tape was to no avail, So Mr SCHINDLER set out with his family to try to reach the President before the attempt. He had had to make someone listen and to save his family's lives. He got as far as Phoenix in the mad dash to Dallas, there a car bearing tag 300 Ariz, a Newsman's car shouted to him as he came into Phoenix. He shouted 'Did you hear about KENNEDY. I said No, He said, He's shot, I said Where, He said in Dallas, then pulled away, I told my wife to get his tag no. He had a gray car license No 300 Arizona. A radio box on the rear seat. Must have been a Newsman. it was around noon or a little later. We turned the radio on, rode around several hours trying to decide what to do, we knew we could not return, it would be sure death, as soon as it was know we were back in Pasadena, We had made a

"complaint to the California Bureau of Investigation six months ago, they sent it to the Pasadena Police Dept. My daughter came over and said the Police would be over to scare us, for writing the letter as it was late according to the Police, however I always blvd Policemen and the Detective who came over shook hands and asked who was the Policeman named in the letter. We told him and he said that if my daughter PATRICIA ANN came over again to call the City Police right away. We could not because she had threatened to kill her sister if we talked, as she had gone to the Child's School we could not take a chance, so she was free to involve Policemen so they could not act, like the ex-Chief of Police of Pasadena and some of his men and some of the Arcadia and Monrovia men. We had complained about her husband sabotageing 8 of our cars in such a way as to cause accidents in dangerous places, Our luck held, the saboture was revealed in time, We then complained of the kidnapping of our youngest daughter, our Eldest daughter our Daughter in Law, two were assaulted and raped the little one we recovered in time. Over a period of 5 years One Girl held Captive, one for five years one for six months, yet when the Pasadena Police Chief was appealed to, He said, don't send me any more letters, I got a nice term. This man complained about laughed and continued to burglarize, run stuff in the Community, the FBI was to busy during Bank Robbers (100 in Los Angeles County in 63) to protect the City, I tried every agency I knew, When I saw it was no avail I wrote three letters telling exactly what I had found out One was to GEORGE C. WALLACE, Montgomery, Alabama, it told of the plot to kill KENNEDY, the other two to two Senators, in Case I didn't make it. This can be verified. I demand the arrest of LUMEN J. GRACIOLETT, JR. and PATRICIA ANN GRACIOLETT, JR. of 125 S Mayflower Ave Monrovia, Calif. on our charge of fourteen attempts jointly to murder us, a separate charge of attempt to murder their

On November 3, 1954, Mr. N. K. GEORGE SCHINDLER, Special Investigator, 18 Haigh Avenue, Schnectady, New York, October 29, 1954, which contained a letter addressed to Mr. HERBERT BROWNELL (U. S. Attorney General). Mr. DIXON advised that he had a record on one A. GEORGE SCHINDLER and that he had received considerable "crank-type letters" from him. Mr. DIXON stated that, in his first correspondence with SCHINDLER, SCHINDLER represented himself as a Captain of the Mississippi Highway Patrol and inquiry revealed that SCHINDLER was not a Captain in the Mississippi Highway Patrol. Mr. DIXON also advised that he received a letter from the New York State Troopers, Executive Division of State Police, Albany, New York, April 27, 1953, that the Governor of New York and the Superintendent of State Police have received "crank" letters from SCHINDLER and that SCHINDLER is a mental case.

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY 11/22/63
DALLAS, TEXAS
Buffile 62-109060 (1 - 62-109090)

J. Lee Rankin, General Counsel, Presidential Commission, requested that the alleged statement of Reverend William H. Dickerson, Jr., that he overheard a young couple state two days prior to President Kennedy's assassination that "they hated the President of the United States and that they did not care one bit if someone did take a potshot at him", be resolved.

DETAILS:

By letter dated January 15, 1964, J. Lee Rankin, General Counsel, Presidential Commission, requested that we interview Rev. William H. Dickerson, Jr., apparently of Dallas, Texas. Enclosed with Mr. Rankin's letter was a letter from one Marshall W. Malone dated December 10, 1963, directed to the President's Commission, wherein he brought to the attention of the Commission the alleged statement of the Rev. Dickerson concerning a young unidentified couple who stated they hated the President of the United States and that they would not care one bit if somebody did take a potshot at him. This allegedly occurred two days prior to the President's visit to Dallas.

Mr. Rankin requested that this Bureau locate and interview Rev. Dickerson, ascertain the identity of the unidentified young couple, and thereafter conduct an appropriate investigation into their alleged statements.

Bureau files fail to indicate any information identifiable with Marshall W. Malone or the Rev. William H. Dickerson, Jr.

Dear Mr. Rankin:

Enclosed for your information is a communication prepared by our San Antonio Office dated January 14, 1964, concerning A. George Schindler.

As you will note, the information furnished by Schindler is non-specific in nature. He has been characterized by two state agencies as a "crank"; and by one of them as a "mental case." In view of the indication in his letter he considered appearing before the President's Commission, I am furnishing this communication.

For your additional information, this Bureau has had prior dealings with one Albert George Schindler who is probably identical with the Schindler referred to in the enclosed communication. Albert George Schindler is known as an originator of unfounded complaints.

Copies of this communication have been disseminated to the Headquarters of the U. S. Secret Service in Washington as well as to its local San Antonio office.

NOTE:

San Antonio by airtel dated 1/14/64 enclosed a seven-page letterhead memorandum relating to information furnished by Schindler which had been furnished to San Antonio by the Texas Department of Public Safety. The Bureau has previously received communications from Schindler and he was characterized as a chronic originator of unfounded complaints. He has described himself on various occasions as being one of our confidential informants and has contacted several of our field offices stating he was doing special work for FBI officials. Of course these allegations are completely unfounded. In view of the reported statement in this letter that Schindler was, during the latter part of December, 1963, en route to Washington, D. C., to appear before the President's Commission, it is felt Mr. Rankin should be advised of this individual.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. DeLoach

DATE: January 17, 1964

FROM : A. Rosen

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

J. Lee Rankin, General Counsel, the President's Commission, requested allegations of G. P. Wyllie of Cleveland, Tennessee, be resolved. Wyllie is known to Bureau as insulting rabble rouser. Field instructed to be circumspect in dealings with him and to immediately handle Commission's request.

DETAILS

J. Lee Rankin, General Counsel, the President's Commission, by letter dated 1-15-64 furnished us a copy of a letter from G. P. Wyllie of Cleveland, Tennessee. In Wyllie's letter he makes several "profound" observations about "the gamblers of Texas" being involved in the assassination of President Kennedy and wounding of Texas Governor Connally. Wyllie further states that Jack Ruby, who shot and killed Lee Harvey Oswald, was acquainted with a Cleveland, Tennessee, gambler. Further, that his brother, Major John S. Wyllie, had told him in December, 1963, that Oswald was after Connally.

Rankin requested we interview both Wyllies to resolve the allegations.

BACKGROUND

Wyllie initiated communicating to the Director in February, 1959, at which time he inquired if the Director was related to former President Hoover. The letter implied that if they were related the Director received favoritism because of this relationship. His communication at this time was answered over Miss Gandy's signature and Wyllie was advised there was no relationship.

By letter dated 6-18-62 Wyllie commented that the Director had been head of the FBI one and one-half years longer than the age of Attorney General Kennedy. He stated "Too damn long in my opinion." He felt that people no longer think of the Director in regard to the FBI, but rather think of the FBI in regard to the Director. He felt there should be a sixteen-year limit imposed on tenure in office by Federal executive officials. This letter was not acknowledged.

Wyllie also contacted the Bureau on 5-3-63, at which time he asked for the Director's residence address so he could write to the Director. He wanted to know the Director's views regarding a national police agency among other items. It was recommended and approved no acknowledgment be sent.

There is no information identifiable with Major John S. Wyllie in Bureau files.

OBSERVATIONS

It is quite apparent this individual is a troublemaker and rabble rouser and may be in need of psychiatric help; however, in view of the request from the President's Commission, it is felt we have no other alternative but to interview him.

ACTION

1. Our liaison representative with the Pentagon ascertained Major Wyllie is currently stationed at the U. S. Army Reserve Center, Reading, Pennsylvania.

2. The field has been furnished full particulars on Rankin's request and have been instructed to immediately handle and furnish the Bureau the results without delay.

3. The Bureau will follow developments and insure Rankin is promptly advised of the results of his inquiry.

Dear Mr. Hoover:

Re: Request for Interview of
Reverend William H. Dickerson

As you will note, the writer of the enclosed letter calls to the Commission's attention the alleged statement made in the presence of Reverend William H. Dickerson, Jr. -- apparently of Dallas -- by an unidentified couple that they hated President Kennedy and would not care if an assassination attempt were executed.

It would be helpful to the work of this Commission if the Bureau would interview the Reverend Dickerson for the purpose of identifying the couple to whom the above-described statements have been attributed and thereafter conduct an appropriate investigation.

For your information, I wish to advise that I have supplied a copy of this letter to James J. Rowley, Chief, United States Secret Service, for whatever action the Protective Research Branch of the Secret Service deems appropriate.

Thank you for your cooperation in this matter.

Gentlemen:

"At a nice respectable dinner party only two nights before the President's visit to our city, a bright young couple with a fine education, with a promising professional future, said that they hated the President of the United States - and that they would not care one bit if someobody did take a potshot at him."

Datelined Dallas November 25, the above is an excerpt from John Herbers's "special" to the New York Times. It appeared in the western edition of that paper on November 26th. The Reverend William A. Dickerson Jr. is being quoted.

If nothing had happened to the President at Dallas this remark could have passed for idle though vicious chatter. Since the implied wish of the young couple came true the country is entitled to know if these persons were merely prophetic or if they had foreknowledge of the murder attempt.

Reverend Dickerson should identify this couple and they should be questioned under oath. In the days after Lincoln's assassination anyone who had made such a remark would have been arrested.

Yours very truly,

Marshall W. Malone

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

The following observations and recommendations are submitted for your consideration in connection with the proposal of the President's Commission to furnish all reports in the Ruby and Oswald cases to the prosecution and defense attorneys for the Ruby murder trial in Dallas:

1. We believe that the FBI has done a good job of investigation in this matter both before and after the assassination. We have nothing to hide and if all of the facts were to be made public and reviewed by the public, it is felt that the Bureau would not be criticized by reasonable people and legitimate organizations. However, in this instance, we are caught in the crosscurrents between the left and the right and each is trying to make a big conspiracy out of the assassination. They as well as others who have political or personal axes to grind will seize upon every opportunity to criticize the investigation as illustrated by some of the publicity since the assassination.

2. The issue in the murder trial is very narrow - whether Ruby was sane - and unless the attorneys intend to make a spectacle of it, the contents of our reports should not be disclosed. However, there is the definite danger that attempts will be made to persuade the jury that Ruby's action was justified because subject was directed by the Russians or the Cubans. Parts of our reports may be lifted out of context and by omission or innuendo the impression left that there was in fact such a conspiracy and that our investigation which failed to uncover it was incomplete.

The manner in which the reports were written add to this danger. The allegations were reported as received and then run out. The results of investigation may be hundreds of pages from the raw allegation and spread among several Dallas reports or those of other field offices. Time and the volume of information did not permit reporting the results of investigation along with the allegation.

RECOMMENDATION

It is recommended that the above facts be pointed out to the Commission; that we suggest that there be stringent conditions against publicizing our reports if they are given to the attorneys; and that we tell the Commission that we will set the record straight in any instance where only part of the facts are lifted from our reports and publicized.

3. Before disseminating our raw reports to the Commission we were careful to classify only those which included classified information from another agency or where it was necessary to protect a Bureau source. In some instances only a small portion of the report was of this nature but in accordance with classification rules, the whole report was classified.

RECOMMENDATION

It is recommended that we inform the Commission concerning the specific portions of the classified reports which cannot be declassified and which should, therefore, not be furnished to the attorneys in the Ruby prosecution.

4. There is a danger that the Bureau will be criticized for reporting rumor, gossip or other information which might be embarrassing to various individuals. Because of the nature of this case, the field was instructed to report everything. The reports, therefore, contain every allegation about Oswald, his acquaintances and associates; critical statements made by various individuals about President Kennedy and his family; allegations by mental cases; other persons trying to be helpful, et cetera. To assist in evaluating the information, we included in the reports data from our files

Memo for Mr. Sullivan
Re: LEE HARVEY OSWALD
105-82555

regarding many of the persons who furnished information particularly those who had a history of mental instability. We also included in the reports such things as the report of the autopsy of President Kennedy which the family did not want publicized; a statement of the captain of police in Dallas that he could not rely upon what General Walker said, et cetera. Some gossip could be regarded as libelous.

RECOMMENDATION

It is recommended that we specifically point out to the Commission that the reports contain information of this kind which in some instances could cause embarrassment to some citizens and in others could be considered by the persons named as unwarranted publication.

[redacted]

Although we can answer inquiries concerning Western Union or bank sources by advising that a subpoena should be issued to obtain the information, it is recommended that we point out to the Commission that we cannot disclose the other sources without compromising our informants, damaging our relations with other agencies or breaching confidences, all of which would be detrimental to our future investigative operations.

It is believed that the above recommended action will serve to alert the Commission as to the dangers of releasing our reports and put us in a better position in the event such release later results in criticism of the Bureau.

Dear [redacted]:

Incoming notes from our 11/23/ Dallas report in Oswald case that Mrs. Paine admitted corresponding with Marina Oswald in Russian. It notes that according to our 11/30 report in Ruby case the Dallas Police were in possession of three metal boxes containing personal correspondence of Mrs. Paine. Apparently, in the belief that copies of Paine's letter to Mrs. Oswald would be among the documents in the metal boxes (such is not the case), the Commission asked that we obtain the original Paine documents. Dallas has obtained them and is sending them. Memo assigned to Sullivan 1/15/64 in Oswald case stated that when received we would re-review the documents, photograph them for record purposes and forward the originals to the Commission. We do have our filed translations of five letters sent by Mrs. Paine to Mrs. Oswald and as these are undoubtedly the documents Commission interested in, we are enclosing copies of full translations.

Enclosed you will find a copy of a letter sent to the Commission by G. P. Wyllie. As you will note, the writer of the enclosed letter makes several assertions about Oswald's motive in shooting at the late President Kennedy's limousine and implies that there was a connection between Jack Ruby and Oswald's conduct.

I would appreciate the Bureau conducting interviews of the Wyllies to determine if there is any evidence to support the claims made in the enclosed letter, particularly the assertion that Oswald was intending to kill Governor Connally rather than the late President.

Dear Sirs:

On Friday, 18 June 1954, Albert L. Patterson, Alabama Attorney General designate, was slain in Phenix City, Alabama.

Patterson was investigating illegal gambling operations in the southeast Alabama town which fattened on soldiers from nearby Fort Benning, Georgia.

Governor Gordon Persons immediately declared martial law in Phenix City, ordering the state National Guard to control the corrupt city government.

The gamblers of Texas who were being investigated by Edwin A. Walker and Governor Connally knew that to openly and obviously murder John B. Connally would spell the doom of their booming enterprises, as had been the case in Phenix City a decade ago.

First they tried to kill Walker in order to scare Connally, and failed. Then they tried to kill Connally when he was with Kennedy and make it look like a mistake; the mistake happened in reverse.

Jack Ruby, the Dallas night club operator who shot and killed Lee Oswald, was an acquainted with a Cleveland, Tennessee gambler, the late(and unlamented)"Cue" Hooper. They had met in Chicago. My brother Major John S. Wyllie, who was stationed at Fort Hood, Texas in recent years, said while on leave last month that Oswald was after Connally. Major Wyllie helped guard President Kennedy in Central America in 1963.

Major Wyllie while stationed at Fort Hood probably learned of gambling operations behind fronts, like Ruby's night club, from rank-and-file soldiers and forwarded the information to officers like Major General Walker.

You are, therefore, cautioned to be extremely circumspect in your contact with this individual.

NOTE:

In the letter to the Presidential Commission, G. P. Wyllie suggests that there is some connection between Jack Ruby and Lee Oswald occasioned by gambling operators. His letter does not contain much logic; however, he indicates his brother, Major John Wyllie, had told him that Oswald was after Governor Connally of Texas and he indicates his brother, while stationed at Fort Hood, Texas, probably learned of gambling operations and furnished this information to General Walker. Mr. Rankin desired that the Bureau conduct interviews to determine if there is any evidence to support the claims made by Wyllie, particularly the assertion that Oswald was intending to kill Governor Connally rather than the late President.

Bureau file 63-7705 on G. P. Wyllie shows that he initially wrote to the Bureau in February, 1959, and inquired if the Director was related to former President Herbert Hoover. The letter implied that if they were related the Director received favoritism because of the relationship. This communication was answered over Miss Gandy's signature and he was advised there was no relationship. In a letter dated 6-18-62, Wyllie commented that the Director had been head of the FBI 1½ years longer than the age of the Attorney General, Robert Kennedy, and stated "Too damn long in my opinion."

(Continued on page 3.)

ARY

(Note continued from page 2.)

He stated he felt that people no longer think of the Director in regard to the FBI, but rather think of the FBI in regard to the Director and felt there should be a 10-year-limit imposed on the tenure in office by Federal executive officials. This letter was not acknowledged. He last wrote on 5-3-63 and wanted to know the Director's resident address so he could write as a private citizen. He desired to know the Director's views regarding a national police agency among other subjects. This was not acknowledged.

It is quite apparent this individual is a trouble-maker and rabble rouser and may even be suffering from a mental illness; however, in view of the request from the Presidential Commission we have no alternative but to interview him.

NOTE: The Commission by letter 1-6-64 enclosed letters to the Commission from Martha Shanton Chadwell and Oscar Knutzen and requested that they be interviewed. The Chadwell letter indicated she had heard a broadcast immediately prior to the shooting of Oswald in which the announcer anticipated Ruby's presence at the scene of the shooting. She was interviewed and gave indication of mental instability. The announcer, Bob Kaiser, was

Dear Mr. Hoover:

Enclosed you will find a letter dated January 7, 1964, which was forwarded to the Chief Justice who in turn has referred it to the Commission.

Inasmuch as in the letter the writer claims to possess special information with respect to the assassination of President Kennedy, I am forwarding the letter to you for appropriate investigation including--if you agree--Bureau interview.

While the letter is unsigned, the heading contains what appears to be the name "Montgomery" and the address appears plainly both on the letter and on the envelope in which it was mailed to the Chief Justice.

Thank you for your continued cooperation.

The field furnished full details and instructed to handle Commission's request immediately.

DETAILS

By letter dated 1-17-64, J. Lee Rankin, General Counsel, President's Commission, furnished us a copy of an anonymous letter dated 1-7-64 bearing the address 603 Moore Street, Marshall, Texas. The letter was addressed to Chief Justice Earl Warren and alleges the correspondent has been making repeated efforts to contact "someone" about the assassination and he does not want to give this information to the local police. Rankin referred this letter to us with the request for "appropriate investigation including--if you agree--Bureau interview."

OBSERVATION

From general appearance of communication, it would appear that the correspondent has little if any information of interest to us and might also be a mental case. However, in view of Commission's request, it is not felt we have any alternative but to handle request.

Re: Request for Bureau interviews of Martha Stanton Chadwell and Oscar Krutzner

Dear Mr. Hoover:

I would like the writers of the enclosed letters interviewed by representatives of your Bureau. The interviews should be conducted along the lines prompted by statements made in the respective letters.

However, with respect to the Chadwell letter, it seems that collateral investigation would tend to prove or disprove Mrs. Chadwell's statements as to what she heard Bob Walker say about Ruby indicating an enticipated arrival by the latter prior to the shooting of Oswald. In this connection, we are enclosing a third letter to the Commission--anonymously written--apparently dealing with the same subject matter.

A letter dated 1/9/64 has been received from Joe H. Tonahill, one of Ruby's attorneys. It is addressed to the Director and J. Lee Rankin with copies designated for the President, the Chief Justice and the Attorney General.

Tonahill requests that the President's Commission make available for inspection and copying all information in possession of the Commission relating to Oswald and Ruby including the Bureau's investigative reports. Tonahill makes no direct request of the Bureau.

In support of his request Tonahill alleges that, for the most part, the FBI is the only investigative agency doing work for the prosecution and that the Bureau submits material daily to the local District Attorney. We, of course, have not conducted investigation for the prosecution and the District Attorney's request for the results of our investigations has been referred to the President's Commission and the Department for a determination as to what information should be furnished. The FBI Laboratory and the Identification Division have examined physical evidence submitted by the Dallas Police Department and the police department has been furnished the results of such examinations.

Tonahill attempts to justify his request with the following allegations:

1. The State of Texas yielded to President's Commission by halting the convening of a special court of inquiry thus depriving Ruby of much evidence which would have been available to him under Texas process.

2. The prosecution is seeking a death sentence for murder with malice but Ruby is guilty of no offense greater than murder without malice which is not a capital offense.

3. It is necessary for the defense to prove that Oswald assassinated President Kennedy and the defense is entitled to prove Oswald was a dangerous man of bad character and reputation as well as a professed communist.

4. Among other things, Ruby's defense will be that he is not legally responsible for the alleged offense because of mental disease and defect.

5. The facts in possession of the Commission will indubitably prove Ruby's defensive elements and it would violate Ruby's civil rights to withhold the Commission's information from Ruby.

Tonahill makes reference to a newspaper story, which he indicates he does not believe, alleging that Oswald was a Bureau informant. This allegation has previously come to our attention and it is completely false. Oswald was interviewed on three occasions (6/26/62, 8/16/62 and 8/10/63) but no attempt was made to develop him as an informant during any of these interviews.

ACTION:

1. Attached is a letter to Tonahill advising him this is a matter within the discretion of the President's Commission.

2. Attached are letters to Rankin and the Attorney General enclosing a copy of the letter to Tonahill and advising them that Oswald was not a Bureau informant and that we have not conducted investigation for the prosecution or furnished information to local authorities except the results of examinations of physical evidence submitted by the Dallas Police Department.

The request of Waggoner Carr, Attorney General of Texas, which he directed to J. Lee Rankin of the President's Commission by letter dated 12/30/63, as well as the request of District Attorney Henry Wade, Dallas County, Texas, for information from Bureau reports relative to the prosecution of Jack Ruby, were discussed in detail today with Mr. Rankin.

Mr. Rankin was advised that the Bureau is ready to furnish to State authorities whatever information the Commission and the Department of Justice agree would be proper under the circumstances. Mr. Rankin was advised that the President's Commission had been furnished a large volume of reports with regard to Oswald being killed by Ruby and that these same reports had been furnished to the Department of Justice. He was told inasmuch as the investigation was conducted at the request of the President and the Department of Justice, we would appreciate being advised what information should be made available to the State authorities of Texas.

Mr. Rankin was also advised that in view of the requests of Attorney General Carr and District Attorney Wade, the Bureau is advising them that their requests had been made known to the President's Commission and to the Department of Justice and that the FBI was ready to furnish them whatever information the President's Commission and the Department would release.

Subsequent to the discussion with Mr. Rankin, the Dallas Office so advised District Attorney Wade and the San Antonio Office advised Mr. Stanton Stone, Executive Assistant to Attorney General Waggoner Carr in Carr's absence, that their requests had been made known to the President's Commission and the Department of Justice and that the FBI was ready to furnish to State authorities whatever information the Commission and Department agree would be proper.

Dear Mr. Rankin:

Reference is made to your inquiry concerning the status of our investigation of Lloyd John Wilson, the 18-year-old youth who on December 19, 1963, at Chicago, Illinois, alleged that during the last week of August, 1963, or the first day or two in September, 1963, he met Lee Harvey Oswald at a wrestling match at the Cow Palace in San Francisco, on which occasion he gave Oswald $1,000 to assassinate the President.

In response to your request, there is enclosed one copy each of reports concerning Wilson dated December 27, 1963, at Seattle, Washington, January 7, 1964, at Chicago, Illinois, and January 18, 1964, at San Francisco, California. There is also enclosed a copy of a memorandum dated December 26, 1963, prepared at El Paso, Texas.

Lloyd John Wilson first came to our attention as the result of an anonymous telephone call to our San Francisco Office on September 9, 1963, as set forth in the enclosed San Francisco report. The allegation concerning Wilson's threatening letter to President John F. Kennedy was furnished to the United States Secret Service, San Francisco, California, on September 9, 1963. Subsequently, we received a name check request from the United States Air Force and all information in our possession concerning Wilson as of December 4, 1963, was furnished to the Air Force on that date.

While Wilson alleged that he met Oswald during a wrestling match held at the San Francisco Cow Palace during the last week of August or the first two days of September, 1963, inquiry in San Francisco has revealed that the only wrestling matches at the Cow Palace during August and September, 1963, were held on August 10, and September 14, 1963. On August 10, 1963, Oswald was in the custody of the New Orleans Police Department and on that date he was interviewed in New Orleans at his request by Agents of this Bureau.

While we are unable to definitely place Oswald on September 14, 1963, our investigation of his activities in the New Orleans area has established that he filed claims with the New Orleans Division of Employment Security on September 3, 10 and 17, 1963. In addition, we have learned that books of the New Orleans Public Library were charged against Oswald's library card on September 9, 1963. Our inquiry has further shown that Oswald was seen in New Orleans by his landlord, Mr. Jesse James Garner, on September 16, 1963. Oswald obtained his Mexican tourist card in New Orleans on September 17, 1963. No information has been developed in our investigation of Oswald to indicate that he left the New Orleans area between late April, 1963, and late September, 1963, except for one overnight trip with his wife to the Jesuit House of Studies at Mobile, Alabama. From our findings concerning the schedule of wrestling matches at the Cow Palace at San Francisco during August and September, 1963, it would not have been possible for Wilson to have met with Oswald on the date he alleged.

On January 3, 1964, the local charge filed against Wilson at Chicago, Illinois, was dismissed in favor of Federal charges filed by the United States Secret Service, and on January 3, 1964, Wilson was held by United States Commissioner C. S. Bentley Pike in default of $25,000 bond. We have been advised that in a report of the Psychiatric Institute of the Municipal Court of Chicago, Wilson was diagnosed as "delusional, hostile, and potentially homicidal." In addition, Wilson was diagnosed as possessing a "paranoid condition, maybe true paranoid."

On January 17, 1964, Wilson appeared in United States District Court, Chicago, Illinois, before Judge Abraham L. Marovitz, on which occasion Judge Marovitz ordered Wilson to be hospitalized at the United

Re: No. E-4010-J, The State of Texas vs. Jack Ruby
(Criminal District Court No. 3, Dallas County, Texas)

Sirs:

The defendant, Jack Ruby, in the above captioned action will likely go on trial either February 3 or February 10 unless the Court transfers the case to another county in Texas.

Mr. Ruby is represented by chief defense counsel Melvin M. Belli, Belli Building, San Francisco, California, Sam Brody, Suite 204, 6505 Wilshire Boulevard, Los Angeles 48, California, his associate, and myself as local Texas counsel, having been brought into the case by Mr. Belli.

The purpose of this letter is to request of you and through you the reports, minutes and all evidence of the Commission created by Executive Order 11130 dated November 29, 1963 created by President Lyndon B. Johnson to report upon the assassination of President John F. Kennedy and the shooting of his assailant, Lee Harvey Oswald.

According to press reports, the Attorney General of Texas was in the process of convening an examining court to conduct in Texas an investigation into the assassination of President Kennedy and the shooting by Jack Ruby of his assailant, Lee Harvey Oswald, but this investigation, at the request of the Commission, was halted. This yielding to the request of the Commission by the Attorney General of Texas has deprived the defendant Ruby of much defensive evidence, which otherwise, would have been available to him under Texas process.

As you know, the defendant, Jack Ruby, is presently under indictment for the November 24, 1963 shooting of Lee Harvey Oswald, who assassinated the late John F. Kennedy on November 22, 1963 when Mr. Kennedy was President of the United States. Following the assassination of President Kennedy and the worldwide catastrophe that it produced, President Lyndon B. Johnson appointed the Commission composed of the most distinguished men in the United States for the purpose of ascertaining, evaluating and reporting upon the truth and the true facts relating to the assassination of the late President, The Honorable John F. Kennedy, and the subsequent death of the man (Lee Harvey Oswald) charged with the assassination.

We lawyers who are constituting the trial attorneys for Mr. Ruby understand that such Commission immediately entered upon the discharge of its duties and is now in possession of such truth and true facts.

We are advised from the news media that the FBI has turned its investigative report of the Oswald shootings and the shooting of Oswald over to the Commission and is currently submitting further investigative reports to the Commission, along with the joint investigative efforts of Commission personnel and interested Government agencies.

We assume that the finding of the Commission is intended to be relied upon by the whole world as being true and correct. Further, the Commission was directed to examine the evidence developed by the Federal Bureau of Investigation and any additional evidence that may come to light or be uncovered by any Federal or State authorities and to report its findings and conclusions to President Johnson.

As Mr. Ruby's counsel, we desire to observe that while he is charged by the State of Texas with the offense of "murder with malice" of Lee Harvey Oswald, the assailant of the late President Kennedy, yet if Ruby is guilty of any offense under Texas law according to the defense we contemplate urging in his behalf, it could at the very most, for reasons we will discuss, be classed as "murder without malice," which is punishable only by a term of years in the penitentiary, but not by his death, which the Dallas District Attorney's office is seeking, demanding, and attempting to wreak.

The evidence will show that the offense that Ruby is charged with was committed by a person who felt great and deep devotion to President Kennedy and his family and was done under overwhelming provocation, uncontrollable impulse, and mental disease and mental defect of a nature that precluded Ruby from knowing right from wrong at the time of the shooting of Oswald.

Under such circumstances a jury could either find that Mr. Ruby's mental state requires commitment and mental care, or find that the shooting of Oswald was committed under such extreme provocation, uncontrollable impulses and feelings and circumstances as to be "murder without malice."

It will be contended at the trial, and this contention will be buttressed by world renowned psychiatrists and clinical psychologists in the area of dynamic psychiatry, that under Texas law that Ruby was legally insane, and that, among other things, his defense will be that he is not legally responsible for the offense alleged against him because of such mental disease and defect.

In order to prove and show that Ruby can not be guilty of any offense higher than that of "murder without malice" it is necessary for his defense team to prove and be able to prove that the assassin Oswald actually did, in fact, murder and assassinate the late President John F. Kennedy.

Further, the defense is entitled to offer and prove under Texas law that the assailant Oswald was a dangerous man of bad character and reputation and a professed Communist.

The investigative reports which have been and are being delivered to the Commission contain an abundance of evidence that will tend to establish the defenses of the defendant Ruby to the charge against him.

Indeed, much of such proof and facts in possession of the said Commission will be denied the defendant Ruby at his trial unless the Commission releases it forthwith to the defendant Ruby and his counsel for inspection and copying.

The proof and facts in possession of the Commission will indubitably show and prove the defensive elements of Mr. Ruby's defense.

In the interest of American law, truth and justice, and under due process of law under the Texas and United States Constitution, the Commission should, and we so respectfully request of it, make the facts of its investigation producibly available forthwith to the Ruby defense at the earliest possible date for adequate review and evaluation.

Under all the facts and circumstances, particularly in view of the fact that the trial of Ruby's case will attract worldwide attention, Riby's rights, and American due process of law, will be forever prejudiced and denied if such true facts and findings are not made available to Ruby's defense counsel.

Too, if we are not readily provided the privilege of inspecting and copying the pertinent material contained in the Commission's investigative product prior to the trial of his case, Ruby will simply be denied due process in an American court for the alleged shooting of Lee Harvey Oswald, who assassinated the late President John F. Kennedy, Officer J. D. Tippett of Dallas, Texas, and for the near fatal wounds of Governor John Connally of Texas.

In this connection, allow us to further observe that a hostile press of much power and influence in Dallas has at all times attempted to influence and inflame the public against Ruby to the extent that it is almost impossible for him to receive a fair trial and be accorded his legal rights there.

Allow us to illustrate the bewildering power of that powerfully slanted press. We do not at all accept or dignify with any shred of credibility whatsoever press releases that Lee Harvey Oswald could have been in the pay of the Federal Bureau of Investigation. This was indicated in a press release originating in Dallas and contained in the Houston Post January 1, 1964. The lead line of that release read: "Oswald rumored as informant for U. S." That story had a Dallas date line and was written by Houston Post Staff Correspondent Lonnie Hudkins.

From the release it seems that some reporter interviewed Dallas Chief of Police Jessie Curry on November 22, 1963 and stated that the FBI knew that Oswald was in Dallas but had not given his name to check to the police or other law enforcement agencies involved in President Kennedy's protection. That January 1, 1964 Houston Post story says that Chief Curry later retracted the statement.

In the press report writer Hud[illegible]ins says there is speculation by Police and Sheriff's Deputies in Dallas that Oswald might have been an informant because (as stated in the release), as one put it, "You just wouldn't think to check out one of your own stoolies." The story points out that Dallas District Attorney, a former FBI agent himself and "therefore a man who would know how such an agency would operate, does not discount the possibility that Oswald may have been an informant." "It may be true," he said, "but I don't think it will ever be made public if he is.", the article said.

The article points out that Oswald knew of Joe Hosty, the FBI agent who had handled subversive matters in the Dallas FBI office. The article said, "He had Hosty's home phone, office phone, and car license number.", said Bill Alexander, "Assistant District Attorney to Henry Wade, one of the State's most able prosecutors."

"Alexander was one of the men who got a chance to listen in on the grilling of Oswald on November 22nd, the day the President was killed, and November 23rd, the day before Oswald's life came to an end." This bit of incredible news reporting is just simply too fantastic to be accepted by rational minds.

It points up, however, the extreme lengths to which the District Attorney and some of the press situated at Dallas will go in their effort to whip the Dallas people into a prejudiced mind against Mr. Ruby in the hope of wreaking a death sentence jury verdict there as well as elsewhere.

A portion of the Dallas press, particularly the Dallas Morning News, is now seeking to create an image in Dallas through a death sentence jury verdict of Mr. Ruby that will restore the respect that was lost there by Dallas because of the ignominious assault which occurred in Dallas in 1960 by some of its citizens upon President and Mrs. Lyndon B. Johnson and the assault upon Ambassador to the United Nations Adlai Stephenson shortly before the assassination of President Kennedy, and the assassination as w[illegible]

Indeed, such powerfully influential press reporting has been, and is geared to persuade their advertisers and readers and prospective jurors trying Jack Ruby everywhere in and out of the jury box that Jack Ruby and not Oswald is the guilty party that has put Dallas on trial for the assaults upon the Johnsons, Mr. Stephenson, and the worldwide tragedy of the assassination of President Kennedy.

We must therefore be provided all the material evidence that is being gathered by the Commission in behalf of our effort to place before the jury the truth and the true facts in opposition to the indelible effect of the warped and prejudicial press upon the public mind which, otherwise, is bound to follow the members of the panel into the jury room that tries Mr. Ruby. You can readily envision that such warping of the facts by the press and news media have constituted, not merely a clear and present danger to the administration of justice, but an actual obstruction of the administration of justice, in that they are depriving the defendant Jack Ruby of his constitutional right to have an impartial jury trial unless you provide us with the facts of your investigation. Otherwise, a trial of Jack Ruby without those pertinent facts would violate freedom of speech and of the press under the Fourteenth Amendment of the United States Constitution.

Only you can release Dallas from its bondage of grave and prejudicial error visited upon American law and due process.

Much of the evidentiary material contained in the Commission's investigation will surely be relevant, competent, and undoubtedly of impeachment value, outside of any exclusionary rule for the protection of vital national secrets, diplomatic relations, national security, and otherwise confidential in character.

Actually, in this, a state criminal proceeding, our request is most reasonable as none of the problems of foreign relations, espionage, sabotage, subversive activities, counterfeiting, internal security, national defense, and the like exist except as to a showing of the dangerous character, background, motives, and nature of the professed Marxist Lee Harvey Oswald in the assassination of President Kennedy. But we must prove those facts and the Commission surely has those facts available and we must assume they exist.

We address you, not only in the realization and hope that you will surely accept our proposal in the interest of a due and proper administration of justice to the American tradition of due process of law, but in the certain knowledge that every experienced trial judge, trial lawyer, and experienced investigator of facts, knows the value of relevant, competent, and impeaching evidence of statements of the witnesses -- "* * * recording the events before time dulls treacherous memories."

It has always been the paramount interest of American jurisprudence in criminal prosecutions that justice shall be done--not alone that a case should be won.

The only way that we can know and decide the problems confronting us is to be able to inspect the investigative reports of the Commission and then decide whether to use them in Mr. Ruby's defense.

Only after inspection of the report by Ruby's counsel, "* * * must the trial judge determine admissibility--e.g., evidentiary questions of inconsistency, materiality and relevancy--of the contents and the method to be employed by the elimination of parts immaterial or irrelevant." See Gordon v. U. S., 344 U. S. 418.", Jencks v. U. S., 353 U. S. 657, U. S. v. Reynolds, 345 U. S. 1, 32 A. L. R. 2d 382.

The letter and spirit of the rationale of American law is to the effect that our government must see that justice is done, because "* * * it is unconscionable to allow it to undertake prosecution and then invoke its governmental privileges to deprive the accused of anything which might be material to his defense. * * *" 345 U. S. 12.

The mere fact that this is a State prosecution rather than Federal does not develop a conflict with this tenet, for in Jencks (353 U. S. 657) we find: "In United States v. Andolschek (C. A. 2d N. Y.) 142 F. 2d 503, 506," Judge Learned Hand said:

> "***While we must accept it as lawful for a department of the Government to suppress documents, even when they will help determine controversies between third persons, we cannot agree that this should include their suppression in a criminal prosecution, founded upon those very dealings to which the documents relate, and whose criminality they will, or may, tend to exculpate. So far as they directly touch the criminal dealings, the prosecution necessarily ends any confidential character the documents may possess, it must be conducted in the open, and will they bear their subject matter."

The Dallas Morning News for January 4, 1964, in a column by Victor Riesel, refers to Lee Harvey Oswald as "the alleged assassin," and reads:

"There appears to be no doubt that they will talk at great length with Ruby, the cocky killer of the alleged assassin. That will come after the trial, it is presumed. Some insiders expect a swift court session for Ruby. Then, Ruby will be placed under oath by the Commission and will testify as a regular witness."

Further, in the Dallas Morning News for January 7, 1964, the Dallas District Attorney is quoted as saying the Commission would make two reports of its findings: "I anticipate there will be one report on the deaths of President Kennedy and Officer J. D. Tippett and the wounding of Governor John Connally, and a second report on the shooting of Oswald," Wade said.

"If this second report is ready before Ruby's trial, I expect the Commission to withhold it until the trial is over."

Please be assured that Mr. Jack Ruby, the defendant, Mr. Belli, Mr. Brody, and I are all agreeable to the Commission conducting interviews now or at any time you prefer with the defendant, Jack Ruby. In addition, you may have such scientific tests on Mr. Ruby of your choosing, including, but not limited to, truth tests by sodium pentothal and polygraph and otherwise.

Finally, we urge you to consider this request for the investigative products of the Commission with the view of making same available to us at the earliest possible date for inspection and copying in order that the Ruby defense will be able to give Ruby, Texas, and America the defense in this trial that will add vitality and strength to the path and growth of due process.

By this means we petition and formally move you and through you the President's Commission which proceeds under Executive Order 11130, of November 29, 1963 and Public Law 88-202, 88th Congress, S. J. Resolution 137 of December 13, 1963, to provide instanter the defendant Jack Ruby's defense team the right and privilege of inspecting and copying the investigative effects and products in the Commission's possession growing out of its duty and function of ascertaining, evaluating, and reporting to President Lyndon B. Johnson upon the facts relating to the assassination of the late President John F. Kennedy and the subsequent shooting of Lee Harvey Oswald.

We shall be pleased to appear before the Commission personally in this behalf if the Commission so decides.

Very respectfully submitted,

THE CONGRESSIONAL RECORD

The Congressional Record for Friday, January 10, 1964, has been reviewed and the following items contained therein have been noted for your attention.

HOUSE

The House was not in session. Its next meeting was scheduled for Monday, January 13, 1964, at 12 noon.

SENATE

Pages 257-258. Senator Mundt, (D) South Dakota, spoke concerning the rumors and reports which continue to add to the confusion and uncertainty regarding the assassination of President Kennedy and the background, motives, etc., of Oswald. He included a column written by Lyle C. Wilson entitled "Leave It to the Commission" and published in the Washington Daily News. Mr. Mundt stated "I believe the Warren Commission would render a great public service by expediting its work and by making its findings available to the public as quickly as possible. Each passing week of delay, adds to the rumors and to the unsubstantiated reports. - - - If there are reasons not apparent to me why a substantial delay is to occur before the Warren report is completed and released, I would respectfully suggest to this Commission that it would now render a public service by at least releasing the unexpurgated and complete text of the FBI report which it has had before it for several weeks and which in itself should put to rest many of the rumors still circulating throughout the country."

Adjournment: Until Tuesday, January 14, 1964, at 12 noon.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
AND THE KILLING OF LEE HARVEY OSWALD
EXHIBITS

While reviewing the visual aids depicting the assassination and Oswald killing sites, the Director on 1-11-64 requested my views regarding the possibility of using these exhibits as permanent displays for the FBI. He realized that this is not the time to firm up this matter and instructed me to give his views close attention and at the proper time make recommendations as to how, when and where we could with dignity and good taste make available to the public a three-dimensional view of the assassination site and the events that happened there. Although he was not concerned with the Oswald shooting he did not rule out the public interest in this event. He mentioned firearms used by the assassin as being in the custody of the FBI. I advised that these items would be considered in the event they were permanently available for our exclusive use.

The Director remarked that it will be several months before the Commission releases its findings to the public and from reports reaching him this date could very well be just before the convening of the "party conventions" this summer. He instructed that I take the realistic position that the exhibits furnished to the Commission would not be returned to the FBI and therefore thought should be given to duplicating the scale models in a "proper setting" for possible use in the Bureau sometime this fall.

COMMENTS: The Director's instructions will be given continued attention and suggestions accompanied by sketches will be submitted for his study and approval.

RECOMMENDATION: That this memo be referred to the Director.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

For your information, I am enclosing copies of three articles which purport to be exposes of the assassination of President Kennedy.

"The Thunderbolt" is disseminated by the National States Rights Party, and its contents are usually violently anti-Semitic and anti-Negro. Frequently, this publication refers to FBI Agents as "frame artists," "slimy race mixers" and "mangey dogs." The January, 1964, issue maintains this level, and the material concerning the assassination is a contrived mixture designed to point an accusing finger at their favorite target, the so-called "Jewish-communist conspiracy" which is supposedly seeking to subvert the United States.

The article appearing in the March, 1964, issue of "Saga" was written by William W. Turner, a disgruntled former employee who entered on duty as a Special Agent on February 5, 1951. The FBI found it necessary to dismiss him effective July 19, 1961, on the grounds that he lacked truthfulness, accuracy and the responsibility required of a Special Agent and that he had shown a poor attitude toward the FBI and its Director.

JAN 27 1964 COMM-FBI

ORIGINAL FILED IN

Turner has used his former Bureau experience to give his account of the assassination a spurious aura of authenticity, and it is filled with provocative adjectives and specious reasoning in an attempt to support his conclusion that the FBI is solely responsible for the death of the President.

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D. C.

Attention: Liaison Staff

Dear Sir:

The Administrator of General Services has been requested by the Chairman, President's Commission on the Assassination of President Kennedy, to initiate the necessary security investigations with respect to the professional staff employees of the Commission.

Under arrangements now being made, this office from time to time will submit to the Federal Bureau of Investigation name checks or other requests for investigative information on persons employed, or being considered for employment, by the Commission.

Accordingly, we request permission to make available to the President's Commission on the Assassination of President Kennedy, as appropriate, copies of your investigative reports furnished to us directly, or through the Civil Service Commission. Your reports will be made available only to officials whose duties require access to the investigative information. Upon completion of their review, the reports will be returned to this office for filing and security storage.

SUBJECT: JACK L. RUBY, AKA.
LEE HARVEY OSWALD, AKA. - VICTIM
CIVIL RIGHTS

On January 7, 1964, a confidential informant of the Atlanta Office furnished a copy of a 33 1/3 rpm phonograph record which was issued by the Defense Legion of Registered Americans (DLRA), Incorporated, which is also known as the Christian Voters and Buyers League. The DLRA was organized in Atlanta in 1962 for the purpose of opposing Communism, Marxism, Mongrelism, Nihilism, etc. The Christian Voters and Buyers League was established within the DLRA to distribute anti-Jewish and anti-Negro phonograph records and literature.

The record, which was received on January 7, 1964, was narrated by Herbert Wallace Butterworth, a former radio announcer who is executive secretary of the DLRA. The DLRA has been explained by Butterworth, who was in 1962 public relations director of the United Klans of America, Incorporated, Knights of the Ku Klux Klan, as being a front organization of the United Klans. James Venable, Legal Counsel for United Klans, is President of the DLRA.

The record as narrated by Butterworth is a long, rambling, incoherent dissertation on the assassination of President Kennedy and surrounding events. It is, of course, extremely anti-Jewish and anti-Negro and through distortion and speculation with complete disregard for true facts, it attempts to show that the "Communist-Jewish conspiracy" was responsible for the assassination and subsequent events.

In the narration Butterworth makes several references to the FBI: (1) that Oswald was caught by the FBI only a few days before President Kennedy's arrival (in Dallas) distributing Castro literature in New Orleans; (2) that the FBI knew he (Oswald) was in Dallas yet never put a single man to trail him as a source of danger; (3) that in spite of what traitor editors across the country write--like Ralph McGill and Eugene Patterson of the Atlanta papers--or the FBI, Lee Oswald did not assassinate President Kennedy and whoever believes he did is a fool.....

(4) that Italians are unanimous in their belief that no expert can fire three shots with a telescopic sight in anywhere near five seconds as claimed by the Dallas Police and the FBI; and (5) that there are too many circumstances between Oswald and Ruby for it to be pure coincidence and nobody knows that better than the Dallas Police and the FBI.

The above statements concerning the FBI with the possible exception of number 2 are completely without foundation in fact as established by the investigation and are typical of the highly critical and vitriolic remarks made by Butterworth concerning the President's Commission, Congress, the Supreme Court, the U. S. Government and every other decent organization and public official mentioned by him in an effort to distort the facts to propagandize his extreme rightist's views.

Statement number 2 is partially true in that the FBI did know that Oswald was in Dallas, however, use of this statement in the DLRA context with their allegation of our not putting a single man to trail Oswald as a source of danger distorts the truth to create a warped impression as there was no information available to the Bureau which would indicate that Oswald was a source of danger as an assassin.

ACTION

In view of the fact that the record deals with the assassination of President Kennedy, a transcript of the record is being forwarded to the President's Commission along with a brief description of the DLRA and Butterworth's connection with the organization. Mr. Rankin is being advised that the "Partusian" as mentioned on page 9 of the transcript, probably refers to Abraham Zapruder, the amateur photographer who took 8 mm. color motion pictures of the assassination.

MISCELLANEOUS - INFORMATION CONCERNING

Rerep of SA Robert P. Gemberling dated 12-18-63 at Dallas.

As you are aware, rerep contained various allegations not specifically relating to Lee Harvey Oswald which were developed during the course of our investigation of captioned matter. The information contained in rerep has been disseminated to interested agencies, and it is pointed out some of the information contained therein is not particularly clear in that there are some apparent loose ends as well as investigation initiated without any apparent reason. While it is recognized many of these loose ends have been handled through subsequent investigation and the submission of letterhead memoranda for dissemination, it is, nevertheless, imperative the outside agencies receiving copies of rerep be furnished additional clarifying data to enable an intelligent evaluation of our report.

Dallas is instructed to thoroughly review rerep and insure all unresolved investigation is suitably clarified, including the following specific matters:

(21) Page 283. It would appear Ernest Allen Smith should be interviewed.

All of the above indicated investigation should be promptly handled and submitted in a report to the Bureau in suitable quantity for dissemination. Advise the Bureau when this report can be expected. In addition, all similar-type information received and not incorporated in rerep should also be assembled and submitted in the new report if completely resolved. It will be your responsibility to insure all logical investigation has been conducted. Any observations or problems which you anticipate which could conceivably delay the submission of the new report and subsequent reports, if necessary, in this matter should be brought to the attention of the Bureau.

NOTE: Rerep contains the results of investigation based on allegations made against and by numerous persons during our investigation of this matter. It is pointed out many of the complaints are by alcoholics, mental incompetents, trouble makers, and the like. Normally, many of these situations would not be fully investigated in view of the source of the original information. However, due to the importance of this particular investigation, all matters are being thoroughly run out. Copies of this report have been disseminated to the U. S. Secret Service and the President's Commission.

Memorandum Brennan to Sullivan, 1/9/64, advised that Liaison is following with Internal Revenue Service (IRS) for the 1959 and 1962 returns filed by Jack L. Ruby and also for any additional available returns on Earl R. Ruby. Request for these returns was originally made of Inspector Malley of the General Investigative Division by Leo Rankin, Counsel for the President's Commission.

Mr. William Kolar, Director of the Inspection Service [illegible] on 1/10/64 furnished the 1962 income tax return on Jack L. [illegible]. This return has been furnished to the Civil Rights Section. In addition, Mr. Kolar advised that the 1959 income tax return of L[illegible] Oswald had been located and that this return was filed by Oswald's mother. The 1959 return for Oswald has been furnished to the Soviet Section.

Kolar advised that to date IRS has been unable to locate the 1959 return for Jack Ruby or any additional returns for Earl R. Ruby, Jack Ruby's brother (the 1960, 1961 and 1962 returns for Earl R. Ruby were previously furnished by IRS).

ACTION:

Liaison is following with IRS for the 1959 return filed by Jack L. Ruby and also for any additional returns that may have been filed by Earl R. Ruby.

Dear Mr. Rankin:

Our letter of January 6, 1964, enclosed Photostats of income tax returns filed by Lee Harvey Oswald for the years 1960, 1958, and 1962.

The Internal Revenue Service has located the 1959 income tax return of Lee Harvey Oswald. Two Photostats of this return are enclosed for the use of the Commission. You will note that the 1959 income tax return of Lee Harvey Oswald was filed by his mother, Mrs. Marguerite C. Oswald.

The enclosed material was obtained through liaison arrangements with the Internal Revenue Service and it is suggested that you contact the Internal Revenue Service in the event it is desired to publicize this material in the future.

Sincerely yours,

NOTE FOR SAC, DALLAS:

ReBuairtel 1/6/64 enclosing income tax returns filed by Lee Harvey Oswald for the years 1956, 1958, and 1962.

Enclosed is a Photostat of the 1959 income tax return of Oswald filed by his mother. This return should be reviewed for lead purposes only and the contents thereof should not be included in any investigative report.

NOTE:

The Commission originally requested Inspector J. R. Malley on 12/17/63 to obtain income tax returns filed by Lee Harvey Oswald; his mother, Marguerite C. Oswald; and his brother, Robert L. Oswald. This was done where tax returns available at Internal Revenue Service. Internal Revenue Service was not able to locate the 1959 tax return of Oswald until now. As a result, we are now furnishing the 1959 return to the Commission.

Dear Mr. Rankin:

This is to advise you that Attorney Joe H. Tonahill, one of Jack Ruby's attorneys, telephonically contacted Mr. J. Gordon Shanklin, the Special Agent in Charge of our Dallas, Texas, Office and advised that he was making available Jack Ruby for all types of scientific tests, including a polygraph examination and administering of truth serum and that he desired this be handled today.

Mr. Shanklin advised Mr. Tonahill that as he was undoubtedly aware the FBI was not handling the murder case involving Jack Ruby, that this was a state case.

Mr. Tonahill immediately stated that he was advising the FBI so the FBI would make this information available to The President's Commission as he desired The President's Commission to be aware of the fact that he was making Ruby available for such scientific tests.

Mr. Shanklin advised Mr. Tonahill that it might be well for him to personally advise The President's Commission of his desire to make Mr. Ruby available for scientific tests.

Dear Mr. Rankin:

Assistant Attorney General Herbert J. Miller, Jr., has advised that the Department of Justice contemplates giving out no information concerning Lee Harvey Oswald but that after the reports concerning Jack Ruby have been reviewed by the Department for the purpose of removing any confidential information, they will be shown to Dallas County District Attorney Henry Wade by United States Attorney Barefoot Sanders in order that Mr. Wade may indicate the material that would be useful to him and that Mr. Wade will probably be given the material he requests. It is also understood that the Department contemplates furnishing Ruby's attorneys only with a list of the names and addresses of persons who have furnished information having a bearing on Ruby's mental condition.

From your review of these reports, you are undoubtedly aware that in many instances they contain information which may be in the nature of gossip and rumor and which has not been substantiated. Nevertheless, such information represents the views of the persons interviewed and has been reported as it was received by us. This is being called to your attention in view of the fact that if this type of information should be misused or become a matter of public knowledge, it would reflect most unfavorably upon the Department of Justice and the President's Commission.

Although the reports are self-explanatory, I thought you should be alerted to the foregoing observations and I have also alerted Assistant Attorney General Miller.

NOTE: The furnishing of these additional reports and the memo is necessary to round out investigation which has been summarized in reports sent to the Commission at the Seat of Government.

Michael and Ruth Paine have been described as probably the closest friends of the Oswalds in the Dallas area. Separate investigations have been instituted on the Paines and we have learned that the Commission has expressed considerable interest in the relationship between the Paines and the Oswalds.

The reports captioned "Assassination of President John F. Kennedy" are being forwarded since this caption was used to report some investigation or allegations which have subsequently been reported under the Oswald caption. There is no data in the reports being transmitted separately with this letter which would require the preparation of any further Supplemental Report at the Bureau.

Dear Mr. Rankin:

"The Dallas Times Herald" on January 14, 1964, carried a story which quoted from a speech of the Attorney General of the State of Texas, Waggoner Carr, delivered on the night of January 13, 1964, to the Brotherhood of the Highland Baptist Church in Dallas.

Mr. Carr reportedly stated that Federal Bureau of Investigation reports on Jack Ruby would be turned over to the Dallas District Attorney, Henry Wade, by the President's Commission investigating the assassination of President Kennedy. He said that you have agreed to turn over the data at the request of the Attorney General of the State of Texas who on Saturday, January 11, 1964, gave the President's Commission all of the results of the Texas investigation into the assassination and the killing of Lee Harvey Oswald. He said that the District Attorney will be free to use the Federal Bureau of Investigation data in the prosecution of the accused slayer of Oswald.

Attorney General Carr also stated that he had not read all of the reports of the Texas investigation but from what he had read, he had come to these conclusions: "Oswald was a lone ranger and worked alone.

Dear Mr. Rankin:

Reference is made to my letter dated December 13, 1963, enclosing a summary of the results of the investigations of several hoaxes and false reports which had arisen in connection with the Oswald case. The following information supplements the data previously furnished to you in this regard.

The FBI has been furnished four letters written from Cuba indicating or alleging that the assassination of President Kennedy was undertaken by Oswald under the direction of a Cuban agent, one Pedro Charles, who reportedly gave Oswald $7,000 for this mission. Specifically, these letters are as follows:

(1) A letter dated November 10, 1963, but postmarked November 23, 1963, at Havana, Cuba (six days after the assassination), signed by Pedro Charles and addressed to Oswald, c/o "Mail Office," Dallas, Texas. This letter was intercepted by the Secret Service and was referred to the FBI.

(2) A letter addressed to the Attorney General postmarked November 23, 1963, at Havana and signed by Emilio del Rosario Molina. This letter was referred to the FBI by the Department of Justice.

(3) A letter postmarked December 3, 1963, at Havana, addressed to the Voice of America and signed by Miguel Galban Lopez. This communication was referred to us by the United States Information Agency.

NOTE: Oswald was in Dallas, Texas, on November 23, 1963.

(4) A letter postmarked December 3, 1963, at Havana signed by Ligia Calle Lopez and addressed to the editor of the Diario de la [illegible] a Spanish-language newspaper published in New York City [illegible] forwarded to the FBI by an official of the newspaper.

One copy each of the above-described letters is enclosed herewith.

As noted above, the first letter received was purportedly written by Pedro Charles, was dated only two weeks prior to the President's assassination, and was designed to give the impression Charles was furnishing instructions to Oswald relative to the assassination. The other three letters purport to be from individuals who have knowledge that Charles conspired with Oswald to kill the President. However, examinations by the FBI Laboratory have shown that all of these communications were actually prepared on the same typewriter and what several of the envelopes used came from the same source. It is, therefore, clear that this represents some type of hoax, possibly on the part of some anti-Castro group seeking to discredit the Cuban Government.

President's Commission

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington 25, D. C.

Dear Mr. Hoover:

Enclosed is a copy of a letter, dated December 30, 1963, which I have received from Mr. Waggoner Carr, Attorney General of Texas. As you will note, Attorney General Carr indicates that the District Attorney of Dallas County, Henry M. Wade, is presently handicapped in his preparation of the case against Jack L. Ruby by the fact that certain records are in the possession of the Federal Bureau of Investigation.

I would appreciate your advice concerning the nature of the records in the possession of the Federal Bureau of Investigation, if any, which Mr. Wade does not have and which he feels are necessary to the preparation of his case. As you know, this Commission is anxious to cooperate to the fullest extent possible with the Dallas and Texas law enforcement agencies. I am confident that your Bureau is no less eager to assist the Texas authorities. I would like to be advised, therefore, of any arrangements which can be made to assist Mr. Wade without impairing the investigative responsibilities of the FBI or the assignment of this Commission.

Dear General:

Pursuant to our telephone conversation I will appreciate your making known to the Commission the following information with the hope that the Commission may see fit to help the District Attorney of Dallas County, Mr. Henry Wade.

1. In preparing the State's case against Jack Ruby the District Attorney is presently handicapped by the fact that all records, including written statements are in the possession of the FBI. Would you please see what can be done to get these statements, etc., in the hands of the District Attorney? The case is presently set for trial in early February.

2. Mr. Wade is concerned about repeated statements made in the press to the effect that there is no connection between Oswald and Ruby. His point is that such press reports should say that no connection has thus far been established. He is aware that such press statements are not based on any statements or activities of yours, Chief Justice Warren's, or anyone connected with the Commission.

Again let me assure you that Texas stands ready to be of all possible assistance to you and the Commission in its search for the truth. We

INTERNAL SECURITY ACT OF 1950
Warren Commission

Kevin Maroney, Chief of the Appeals Section, Internal Security Division of the Department, telephoned on the afternoon of 12/30/63 regarding the Government's proposed petition to the District of Columbia Court of Appeals requesting the entire court to review the 12/17/63 decision which reversed the conviction of the Communist Party, USA, as an organization for failure to register with the Attorney General under the Internal Security Act of 1950.

Maroney indicated that he is considering attaching as exhibits or appendices to the Government's petition certain documentary material including copies of the recent communication which, according to a newspaper article, had allegedly been directed to the Warren Commission by Arnold Johnson, Communist Party, USA, Public Relations Director, and with which Johnson enclosed the correspondence between the Communist Party, USA, and Lee Harvey Oswald. The purpose of attaching this letter to the Government's petition would be to clearly establish that Johnson publicly identified himself as an officer of the Communist Party, USA, and would not, therefore, incriminate himself under the 5th Amendment if he stepped forward and registered the Communist Party as required by the Internal Security Act of 1950.

Maroney requested that if such a letter exists, the Bureau obtain it from the Warren Commission and transmit 10 copies to the Department.

OBSERVATIONS:

NOT RECORDED
JAN 15 1964

Since there is a Department attorney assigned to the Warren Commission, it would appear that the Department should handle this matter directly with the Commission rather than have the Bureau act as a "go-between." It is also felt, however, that Inspector Malley, who handles liaison for the Bureau with the Commission should check into this matter to determine if there is such a letter and, if so, whether it or the material transmitted

is of interest to the Bureau. It will be recalled that Communist Party Attorney John Abt has previously made available to the Bureau the originals of the correspondence between several Communist Party officials and Oswald. This material, with one exception, was included as an Exhibit to our report submitted to the Warren Commission. It may be that this is the material referred to by Arnold Johnson in the newspaper article seen by Maroney.

RECOMMENDATIONS:

1. That Maroney be advised that the Department should make the necessary arrangements to obtain and copy the letter allegedly sent by Arnold Johnson to the Warren Commission.

2. That Inspector Malley check with the Warren Commission to ascertain if Arnold Johnson sent a letter to the Commission and, if so, whether the letter or the attached material contains any information of interest to the Bureau.

SUBJECT: UNITED STATES v. COMMUNIST PARTY, USA
INTERNAL SECURITY - CUBA
INTERNAL SECURITY ACT OF 1950

Reference is made to the memorandum dated January 2, 1964, from Mr. F. J. Baumgardner to Mr. Sullivan which made reference to a newspaper article which stated that a communication had allegedly been directed to the Warren Commission by Arnold Johnson, Communist Party, USA, Public Relations Director, and with which Johnson enclosed the correspondence between the Communist Party, USA, and Lee Harvey Oswald.

Inquiry was immediately made of Mr. Rankin concerning the receipt of such correspondence and Mr. Rankin advised that he would check this matter and make the correspondence available if it had been received.

Today, Mr. Rankin advised that he had checked on this matter and that as of January 9, 1964, no such correspondence had been received from Arnold Johnson of the Communist Party, USA, or anyone else of the Communist Party.

Mr. Rankin commented that perhaps the Party felt that they could put out such publicity and then forget the matter. He indicated the Commission would take action to follow up on this in order to try and obtain the correspondence referred to in the newspaper article.

ACTION:

This matter will be followed with Mr. Rankin to determine if such correspondence is received.

Dear Mr. Rankin:

This is in response to your inquiry as to how Dallas Police broadcasted a description of Lee Harvey Oswald which enabled Officer J. D. Tippit to stop Oswald soon after President Kennedy's assassination.

A review of transcripts of the Dallas Police Department radio logs for November 22, 1963, indicates President Kennedy was assassinated at approximately 12:30 P. M. Commencing at 12:43 P. M. and periodically thereafter until the apprehension of Oswald the police dispatcher put out a suspect broadcast on an unidentified individual whose description approximated that of Oswald.

The Dallas Police Department has advised the above broadcast was initiated on the basis of a description furnished by an unidentified citizen who had observed an individual approximating Oswald's description running from the Texas School Book Depository Building immediately after the assassination. Although this citizen was requested by Dallas authorities to proceed to the Sheriff's Office for further questioning he apparently never appeared as the Dallas Sheriff's Office can locate no record on this citizen.

For your additional information immediately after the assassination, [illegible] they [illegible] Truly, Warehouse Superintendent of the Texas School Book Depository Building, was requested by the Dallas Police to check on his employees at which time he determined Oswald was missing. Based on our investigation it would appear within fifteen to twenty minutes after the President was shot, Dallas Police were also in possession of this information.

If I can be of any further assistance please feel free to call on me.

Dear Mr. Rankin:

At the request of Assistant Attorney General Herbert J. Miller, Jr., Dallas County District Attorney Henry Wade was interviewed on January 14, 1964. He was asked to state specifically and categorically therein the preparation of his case is in any way handicapped by lack of access to material in the possession of the Federal Government.

Mr. Wade when interviewed indicated he cannot state how he is handicapped as he does not know what information has been collected by the Federal Government but he believes the investigation has developed information concerning Ruby's background and associates. He said that without reviewing the oral and written statements taken by the Federal Government, he has no way of knowing what they contain.

Insofar as Texas Attorney General Waggoner Carr is concerned, Wade said Mr. Carr has no authority to speak for him and Mr. Wade has never stated to the press handicapped by not having statements that are in the possession of the FBI. He said that he has made it known that he wants all available information concerning the background and associations of Jack Ruby and the circumstances surrounding the shooting of Lee Harvey Oswald. The Dallas Police Department conducted very little investigation concerning Ruby as it spent most of its time submitting a report defending itself with regard to the shooting of Oswald.

62-109071-

Mr. Wade wants the results of FBI investigation for use in cross-examining Ruby and any character witnesses who testify.

Honorable J. Lee Rankin

Mr. Wade submitted the following letter to the FBI office in Dallas on January 14, 1964.

"As you are aware, we have a bond hearing on Jack Ruby set on January 20 and the trial for the murder of Lee Oswald set for February 3 in Criminal District Court No. 3 of Dallas County, Texas. In that trial all of the information we can gather with reference to the background of Jack Ruby from the time he was born up to the present, the names of all his business or social associates together with what they might have said concerning him or his mental capacity will be very important. I feel that you have some of this information or all of it in your present files. I would appreciate your obtaining the following:

"1. Copies of all interviews had by your Agents concerning Jack Ruby or any of his associates.

"2. The names of any persons in any way connected with Ruby together with their statements made concerning him.

"3. Any physical evidence that you might have in the Ruby case.

"4. Any summary you might have of the whole activities of Ruby during and at the time of this murder.

"5. Any statements that you might have tending to show any connection between Oswald and Ruby.

"6. Any statements that you might have dealing with whether or not Ruby belonged or had belonged to any subversive groups.

"7. Copies of the interviews had by your Agents at the City Hall and also the Dallas County Jail and what Ruby told them.

Honorable J. Lee Rankin

"None of this information will be released to the press, radio or television, nor to anyone else outside of this office, and will be used exclusively in the trial of this case for the purposes of cross-examining the defendant should he testify and also cross-examining the character witnesses, and should any of those witnesses wherein you have a statement from them testify, if they vary from the statements made to your agent, they will be used for the purpose of cross-examining this witness. I hope that this can be arranged as soon as possible since we will have to read and digest these prior to the trial on February 3."

This information has been furnished to Assistant Attorney General Miller.

Please advise us as to the action the Commission plans to take regarding Mr. Wade's request.

By letter dated 1/15/64, J. Lee Rankin, General Counsel, President's Commission on the Assassination of President Kennedy, referred a letter in a foreign language, which the Commission requested be translated so that it might be properly evaluated.

The letter was determined to be in the Spanish language and was written by Manuel D. T. Munoz, 1469 San Jeronimo, Santa Fe, Argentina. The writer understands that a Model-1891 Mauser rifle was utilized to kill President Kennedy. He suggests that if the serial number were available it would be easy to find out how it got into the hands of the alleged assassin inasmuch as these guns were not privately marketed, but were replaced by the Model 1908 in Germany.

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

J. Lee Rankin of the President's Commission stated that since the Commission has reviewed a large number of Bureau reports relative to the investigation of Oswald, the Commission was quite interested in the actual evidence which had been accumulated in the Oswald case as well as in the voluminous miscellaneous material that had been obtained by the Dallas Police Department from the room occupied by Oswald, as well as from the Paine residence where Mrs. Oswald maintained her residence and was visited by Oswald on weekends in Irving, Texas.

Mr. Rankin stated he wanted to make it extremely clear that the Commission did not desire to disturb any evidence in any way and that if any evidence was in the possession of the Bureau which should not be handled by a Commission representative, this should be made very clear so that there would be no interference with the Bureau's operation. It was pointed out to Mr. Rankin that the material obtained which belonged to Oswald was quite extensive and it would take considerable time for a representative of the Commission to actually physically examine all of the various items.

We should not indicate any Reluctance to making anything available at any time at any place.

Mr. Rankin was advised that a check would be made in order that suitable arrangements for displaying the various items could be made. Assistant Director Conrad advised that the material referred to is very carefully arranged in a large number of boxes and that this material could be displayed to a representative of the President's Commission at any time they desired.

I wouldn't care if it filled a whole building. H.

RECOMMENDATION:

It is recommended Mr. Rankin be advised the material is available at the Bureau for examination by representatives of the President's Commission at any time they desire to look over this material.

J. Lee Rankin, Counsel to the President's Commission on the Assassination, has asked that we obtain for the Commission's perusal 3 metal filing boxes of personal correspondence of Mrs. Ruth Paine. Reference was made to this material in Dallas 11-30-63 report in the Jack Ruby case. Dallas has reviewed this material and has reported that there was nothing contained therein of pertinence to the Oswald or Ruby cases.

Mr. Branigan to Mr. Sullivan 1-15-64 memo pointed out that we were obtaining this material from Dallas and upon receipt here it would be photographed for record purposes, rereviewed and the originals furnished to the Commission. The Commission also asked that they be furnished with translations of anything among the papers in a foreign language.

This material has been received from Dallas. We find it to be voluminous, made up of approximately 10,000 pages. Mrs. Paine who loaned this material over to the Dallas office after the Dallas police returned it to her states that there are many personal items in this material and she asked that none of it be made public unless the Commission feels some of the documents may have a bearing on the Oswald case. She asks that all of the material not thought pertinent be returned to her at the earliest opportunity. She points out that the material in question was in her bedroom closet and not in the room occupied by Marina Oswald and that while she gave consent to the Dallas police to remove material from her home belonging to the Oswalds, she did not consent to removal of her personal property.

We have reviewed this material checking for foreign language material and find there is nothing of substance contained among these papers requiring translation. There are one or two poems and songs in a foreign language in a folder entitled "List of Songs." We, because of the voluminous nature of this material, do not intend to photograph it and as Dallas has reviewed the material without finding anything pertinent to the Oswald or Ruby cases, we do not intend to re-examine it now.

62-109090-

NOT RECORDED

From a quick perusal of this material it appears to consist of correspondence of Mrs. Paine to and from her parents, her in-laws, other relatives and friends; material dealing with her activity in various organizations; educational material and personal notes of a diary type. There is considerable material dealing with the marital discord of her parents.

Dear Mr. Tonahill:

I have your letter of January 9th requesting "the reports, minutes and all evidence of the Commission created by Executive Order 11130 dated November 29, 1963, created by President Lyndon B. Johnson to report upon the assassination of President John F. Kennedy, and the shooting of his assailant, Lee Harvey Oswald," and stating your reasons for desiring the same.

This is to advise you that the President's Commission is not a prosecuting agency, and up to the present time has before it for consideration, evaluation and eventually a report to the President, only summaries and copies of working papers of other federal, state and local agencies. These documents, because of lack of time, have not been evaluated, and no conclusions have been reached concerning them. The originals are in the agencies from which they were received, and any relationship between them and the case of your client must be established with those agencies.

This Commission in no way changes or limits the powers and responsibilities of any law enforcement agency in performing its duties incident to the prosecution or defense of criminal cases.

After discussion of your request with the Commission, I am authorized to advise you that it is not within the province of the Commission to respond favorably to your request.

I have your letters of January 10th, 14th and 15th concerning the request of District Attorney Wade of Dallas County, Texas, and Mr. Joe Tonahill and his associates in the defense of Jack L. Ruby for release to them for their respective uses of information concerning the assassination of President Kennedy and the subsequent killing of Lee H. Oswald, his alleged assassin. The same request has been made to the Commission through me by Mr. Tonahill. For your information, I am enclosing a copy of my letter to him.

President's Commission

The Commission is utilizing the FBI's visual aids to considerable extent. On 1-23-64, I met with members of the Commission's legal staff, Messrs. Joseph Ball, David Belin, Melvin Eisenberg and Norman Redlich, for a three-hour session re-enacting on the scale model the Secret Service views concerning the approximate points where the shooting occurred. Inspector Thomas Kelly, Secret Service, was present and stated that the versions of the FBI and the Secret Service were good approximations. The staff is hoping to eventually be in a position to say exactly where the shots occurred on the Parkway with a plus or minus factor of several feet. They realize that many variables exist that will make this determination a most difficult one to resolve.

They requested that the FBI show the color movies (Zapruder and Nix) to them at 10:00 a.m. on 1-27-64 at which time an effort will be made by the staff, the FBI and Secret Service to re-enact on the scale model visual interpretations of the shooting sequence appearing in the movies. Secret Service Agent Kelly will be present along with the Secret Service Agent who originally viewed the Zapruder movie and who is responsible for fixing the shooting sequence on the Parkway in Dallas.

Attorney Norman Redlich advised that he will also seek the help of the FBI's Laboratory where Zapruder's camera was examined to determine if it would be possible for the Laboratory, by counting frames, to assist in defining the location where shots one, two and three were fired ENCLOSURE

present used the scale model extensively advising they will continue to do so in the future. The meeting of 1-27-64 will take place in the same room where the models are maintained, in order that the versions of those visually examining the movies can be re-enacted on the model without loss of time.

COMMENTS:

1. Arrangements will be made to show the Zapruder and Nix movies to the Commission on 1-27-64. A Bureau employee will be utilized to operate the projector.

2. The points on the Parkway as defined by the FBI are considered to be the best approximations possible and in line with the Secret Service version. Inspector Kelly shares the same views. The FBI has the first shot occurring just before the President's head emerges from behind the sign while the Secret Service approximates the location moments after the President emerges. Approximately one second is involved between the two versions. The Commission realizes that there is no material difference between the FBI's and Secret Service's approximations; however, they wish to attempt to fix shooting sequence with a great degree of accuracy with a plus or minus factor of a few feet.

RECOMMENDATION:

None; for information only.

ADDENDUM BY I. W. CONRAD 1/24/64:
The FBI Laboratory previously has thoroughly examined the film in question. Laboratory has been in touch with representatives of the Commission and arrangements have been made for the Laboratory representative to be present when the film is shown.

SHOOTING SEQUENCE AS LOCATED ON THE SCALE MODEL

The approximate location of the shooting sequence was determined from an interpretation of the ZAPRUDER movie and from observations made at the site regarding the location of the Stemmons highway sign which was obscuring ZAPRUDER'S line of view while he was photographing the approaching motorcade. The movie also includes details of the surrounding area.

SHOT ONE:

It occurred when the Presidential car was unobserved by ZAPRUDER for approximately twenty feet while moving behind a road sign. Shot one was approximately fixed on the model at a point directly behind the center of this sign. The movie reveals that prior to reaching this sign the President was seen waving and moments later after emerging from behind the sign he was slumped forward. The position on the Parkway where shot one occurred as approximated by the FBI and the Secret Service varies about one car length (13 feet) or about one-half second at 15 mph. The FBI's estimate places the President approximately one-half second nearer to the assassin when shot one was fired.

SHOT TWO:

It occurred approximately at the time Governor Connally was turning his head to the right rear. This point was established through the interpretation of the relative location of trees, shrubs, street lights, curbing, etc. appearing in the movie. The position on the Parkway approximated by the FBI and the Secret Service varies about 1.5 car lengths (22 feet) or about one second at 15 mph. The FBI's estimate places the Governor approximately one second further away from the assassin when shot two was fired.

SHOT THREE:

It occurred approximately at the time a circle of light resembling an explosive blast encircles the President's head. The position on the Parkway approximated by the FBI and the Secret Service varies about 2/3 car length (14 feet) or about 2/3 second at 15 mph. The FBI's estimate places the President approximately 2/3 second nearer to the assassin when shot three was fired.

COMMENTS:

The FBI's analysis of the shooting sequence was determined independently of a similar study made of the movie by the Secret Service. "WHERE ON THE PARKWAY WAS THE PRESIDENTIAL CAR EXPOSED TO GUN FIRE?" The answer to this question is subject to varying factors such as the speed of the vehicle, the firing position of the assassin and the position of ZAPRUDER. It is a matter of accepting the fact that there will be as many versions as there are analysis made of the shooting sequence. The FBI bases its approximations on an interpretation of the ZAPRUDER movie re-enacted on a scale model. The Secret Service has also used the movie to approximate the shooting sequence; eye-witnesses may vary in locating the car at the time of the shooting; members of the Commission may also have differing opinions regarding this matter.

The ZAPRUDER movie was utilized by the FBI as the best medium for approximating the points on the Parkway where the shooting occurred.

Dear Mr. Rankin:

A confidential source of this Bureau on January 7, 1964, furnished a 33 1/3-rpm phonograph record which was issued and distributed by the Defensive Legion of Registered Americans, Incorporated (DLRA). The record is narrated by Herbert R. (Walley) Butterworth, Executive Secretary of that organization.

In view of the fact that one side of this record deals with the assassination of President Kennedy, a brief description of DLRA and a transcript of the record are being furnished to you for your information. "Partucian," as mentioned on page 9 of the transcript, probably refers to Abraham Zapruder, the amateur photographer who took 8 mm. color motion pictures of the assassination.

Sincerely yours,

Reference is made to my memorandum of January 23, 1964, which advised that in accordance with a request of the Department of Justice copies of investigative reports were being made available to the United States Attorney at Dallas in order that they could be shown to the Dallas County District Attorney.

"The Dallas Times Herald" on January 23, 1964, reported, "Two Assistant State District Attorneys are today examining behind closed doors FBI reports on the slaying of Oswald by Ruby." The article identified the Assistant District Attorneys as A. D. Jim Bowie and Frank Watts. It was stated that Dallas County District Attorney Henry Wade was expected to join his assistants later in the day and that a stenographer had accompanied the assistants when they entered the United States Attorney's office at 10:00 a.m. January 28, 1964.

Mr. Wade was quoted in the article as having announced on January 23, 1964, that the FBI was opening the Ruby file for the inspection of his staff but was stopping short of actually turning the file over to him. He was also quoted as saying that he was primarily interested in the FBI's evidence on the slaying of Oswald and he has not asked for FBI information regarding the

Dear Mr. Hoover:

I have been revieving several Bureau reports in connection with our investigation of Ruth and Michael Paine and their possible connection with either the assassination of the late President, John F. Kennedy, or the subsequent killing of Lee Harvey Oswald, or both. In this connection, I have particularly reviewed the report of Special Agent Gemberling, dated November 30, 1963, the report of Special Agent Clements, dated November 30, 1963, the report of Special Agent DeBrueys dated December 2, 1963, the report of Special Agent DeBrueys, dated December 8, 1963, and the report of Special Agent Gemberling, dated December 10, 1963.

To the extent not covered in the above-listed material, I would appreciate your initiating a full scale background, intelligence type report of the Paines if you have not already done so. If you are in accord with this request, I would suggest that the proposed investigation include the background data on the Paines' education, employment, relatives, associates, travel, and financial activity.

Thank you for your continued assistance in this matter.

Honorable J. Lee Rankin

Dear Mr. Rankin:

For your information, on January 4, 1964, I received a telegram from Attorney Clyde J. Watts of [redacted] Beech Drive, Oklahoma City, Oklahoma, in which Mr. Watts stated as attorney for retired General Edwin A. Walker, he was requesting the FBI to officially confirm or deny news reports that Lee Harvey Oswald confessed to his wife that he attempted to murder Walker on April 10, 1963. He also desired the FBI to furnish a transcript of all evidence and information pertinent to the alleged attempt by Oswald so that appropriate action could be taken to protect the general.

Mr. Watts and Attorney A. V. Grant of [redacted], Texas, initially contacted our Dallas Office on December 7, 1963, and indicated they were representing General Walker. Watts stated that aside from being Walker's legal representative he was also a very close personal friend. Watts was of the opinion that there had been an official leak somewhere concerning the disclosure that Marina Oswald had stated her husband was responsible for the attempt on General Walker's life. At this time, the attorneys were advised the FBI had made no such disclosure.

Watts stated he was not looking for information but asked that any information developed relating to Walker's safety be furnished to Walker or the Dallas Police Department. Watts was, of course, advised any such information received would be handled in the same manner as a threat against any individual in that the FBI would promptly advise not only the individual but appropriate local authorities.

Honorable J. Lee Rankin

Watts concluded by stating he was considering an interview with Marina Oswald as it might aid him in his efforts to protect Walker. He was told whatever decision he made in this matter was entirely up to him and we would not suggest or recommend any course of action.

Of possible interest, immediately following the attempted murder of Walker in April, 1963, our Dallas Office discussed the case with the Dallas Police Department and volunteered to forward the bullet recovered from Walker's home to the FBI Laboratory for examination; however, no such request was ever made. During the course of our current investigation into the assassination of President Kennedy and prior to the interview of Mrs. Oswald on December 3, 1963, wherein she indicated her husband may have been responsible for the shooting at Walker, the possibility that Oswald may have fired at Walker was considered. Our Dallas Office, therefore, on the weekend of November 30, 1963, requested the Dallas Police Department to make available the recovered bullet for examination by the Laboratory. On December 2, 1963, the bullet was forwarded to our Laboratory where it was examined. This examination revealed that the distorted and mutilated bullet had the same general characteristics of bullets from the rifle used by Oswald in the assassination of President Kennedy. However, it was not possible to definitely establish whether or not the recovered bullet was fired from Oswald's gun.

The files of the Dallas Police Department relating to the investigation of the Walker shooting disclose that General Walker reported that at approximately 9:00 p.m., on April 10, 1963, while sitting at his desk in his Dallas residence, a shot was fired above his head into his home. The only suspect developed by the Dallas Police Department in this matter was one William MacEwan Duff who had been employed in some capacity by General Walker or his staff. He was selected primarily because he was considered to be a "con man." After a polygraph examination was given to him by the Dallas Police Department and after they conducted other investigation, Duff was absolved by the Dallas Police Department of involvement in this crime.

Honorable J. Lee Rankin

Immigration and Naturalization Service records disclose that Duff was born on November 6, 1931, in Scotland and entered the United States in 1957. He has been characterized as a "con man" and "no good." So far in our investigation of the assassination, only one individual, a Dallas luncheon proprietor, has linked Oswald with Duff in approximately April or May, 1963, as having frequented this luncheon on one occasion. It should be pointed out that six other individuals who had intimate knowledge of Duff were unable to connect Oswald with Duff. Further, our investigation discloses that during the above period Oswald is known to have been in Dallas, Texas, until April, 1963; however, from late April, 1963, to September, 1963, he was in New Orleans, Louisiana.

On January 6, 1964, Attorney Watts was personally contacted by an Agent from our Oklahoma City Office at which time his January 4, 1964, telegram to me was acknowledged. He was told the results of the FBI investigation into Oswald's activities have been furnished to the President's Commission and we are not in a position to divulge such information to him. It was again reiterated that should any information be received relative to the safety of General Walker it would be promptly furnished to the General and to appropriate law enforcement authorities.

Watts at this time indicated he might possibly communicate with the President's Commission in an effort to obtain the information requested from the FBI.

In addition, Watts advised that shortly after the attempt on General Walker's life he hired two private investigators to look into the incident and they developed one Bill Duff of Dallas as a suspect. Duff, according to Watts, had been employed in some capacity by Walker or his staff. The private investigators were unable to develop any information linking Duff with the Walker shooting and turned over the results of their investigation to the Dallas Police Department. Watts stated he was furnishing this information as a possible link between Duff and Oswald.

Honorable J. Lee Rankin

We have been endeavoring to locate William McEwan Duff, the suspect sought by the Dallas Police Department, for interview. Information developed to date on this individual indicates he remained in Dallas, Texas, until October, 1963, when he was last reported to be en route to Oklahoma City, Oklahoma, by bus.

We will continue our efforts to locate Duff, an alien, for interview, and when this is accomplished you will be advised.

Sincerely yours,

J. Edgar Hoover

The Cleveland Office has forwarded to the Bureau a copy of the attached poster captioned "World Freedom, The Real Target" which clearly depicts and associates Lee Harvey Oswald, the alleged assassin of President Kennedy, with Marxism. This poster was prepared and copyrighted by [redacted], Lakewood, Ohio, who volunteered to make additional copies available to our Cleveland Office at a discount printing price of $4 per 100.

In furnishing the poster to the Cleveland Office on 12/24/63 for possible referral to the Director, [redacted] stated he had read and reread "Masters of Deceit." He commented in regard to the Director, "It is great that in our modern governmental and political world of the U.S.A....there is one patriotic solid rock of a man on whom we can depend, and who we can believe, namely J.E.H. For this, all patriotic U.S. citizens are thankful."

We believe this poster, if placed in the hands of the communists and their sympathizers, would have a tremendous disrupting and disillusioning effect on their ideology. At the very least, it would cause them to have second thoughts regarding their alien philosophy.

The poster quotes Oswald as stating "I am a Marxist!" in a United Press International (UPI) interview in Moscow in 1959. Oswald did make this statement to a reporter and to the United States Embassy in Moscow in 1959, but we have been unable to establish that such a statement was made by him during a UPI interview. This does not detract from the punch of the poster, however, because it is public knowledge that Oswald made the statement.

ENCLOSURE

Because the poster is a factual graphic illustration of public information and because its distribution under the Counterintelligence Program will not be traceable to the Government, it should in no manner affect the deliberations of the Warren Commission

presently considering the facts surrounding the assassination. The poster has already received some public circulation through the efforts of the individual responsible for its preparation.

We propose the Cleveland Office purchase 500 copies of the poster at a cost of $20 providing the posters may be obtained without associating the Bureau with the purchase. In the event the posters are available, in accordance with the request of the Cleveland Office we would like to distribute 50 to Communist Party (CP) members in the Cleveland area through an anonymous mailing.

We will carefully follow the anonymous mailing of the poster in Cleveland to analyze its effectiveness and to determine means and situations by which it may be circulated as an effective counterintelligence operation in other areas in the future. In this regard the CP may be expected to sponsor "Kennedy Memorial" meetings in the future as a vehicle to propagate the communist line and to raise funds for the Party. On 1/12/64 such a communist-sponsored meeting is scheduled to be held in Hamtramck, Michigan, under the title "John F. Kennedy Memorial Tribute Committee" meeting. Although it is too late to take action in regard to this meeting, we will be alert to consider the possibility to arrange for the distribution of the poster at the site of future similar communist-sponsored meetings.

The remaining 450 copies of the poster will be maintained in the Cleveland Office until such time as a situation arises where they may be distributed in other areas of the country in connection with the Counterintelligence Program. No additional circulation of the poster will be made without specific authority.

RECOMMENDATIONS:

(1) That the attached letter be sent to Cleveland authorizing the purchase of 500 copies of the poster captioned "World Freedom, The Real Target" providing such purchase will not be associated with the FBI.

(2) That Cleveland be authorized in the attached letter to anonymously mail up to 50 copies of the poster to CP members locally.

"POLITICAL MURDER IS ITS BUSINESS"

Russia's School for Assassins — and the Oswald Case

By GUY RICHARDS

The Soviet Union's own school for assassins, headed by Gen. Nikolay B. Rodin, is getting prime attention from several Western intelligence agencies as a result of the Oswald case.

The school and its far-flung operatives are "Department 13" in the KGB, the Soviet Secret Police.

It was learned yesterday that the Central Intelligence Agency, the German security police and the Warren Commission are pooling resources to find out more about this Russian organization already described in great detail by a former Soviet agent now in German custody.

He is Bogdan N. Stashinsky, 31. A confessed double-murderer with the limpid eyes of a gigolo, he is a former "Department 13" man.

'CLUELESS MURDER' EXPERT

After the assassination of President Kennedy it was recalled by the CIA and West German intelligence that Stashinsky—just before he turned himself in to the West in the Summer of 1961—was being readied by his Russian superiors for a new assignment in the Anglo-American field of KGB's "clueless murder" operations.

His department, he testified, was preparing operations against "high level leaders in the United States and England."

Most of the 2½ years Lee Harvey Oswald, accused murderer of President Kennedy, spent in the Soviet Union immediately preceded Stashinsky's surrender.

Though there is still no evidence connecting Oswald with either Department 13 or Stashinsky, the American investigators are determined to explore all such possibilities.

They are mindful that it took years to establish a link between the intelligence chief of the Serbian general staff and the 19-year-old gunman who killed Austrian Archduke Franz Ferdinand and his wife at Sarajevo, on June 28, 1914.

Many historians believe those murders triggered World War I.

B. N. STASHINSKY
Accomplished Killer

"DEPARTMENT 13" . . . That's the name the Soviet Secret Police gives to its school for assassins. The area of its past and planned operations are reported to include Western Europe, England and the U. S.

The American probers are spurred by the realization that in the weeks following the Dallas crime the public, as well as some of the investigating agencies, seem to have lost sight of the following points:

- That Borgan Stashinsky had presented a graphic account of the methods, plans and policies of the KGB's assassination unit.
- That KGB's advanced studies, weapons and techniques in the field have undoubtedly been passed on to affiliated agencies in Cuba, Poland, Czechoslovakia and other satellite nations.
- That Department 13 has a strong preference for the use of the relatively clueless cyanide spray (twice used by Stashinsky) on victims who can be found in a moment of solitude, but has a host of other devices ready for heads of state and high officials who are closely guarded.
- That the whole sordid technology makes a mockery of the U. S. Communist party statement issued after the Kennedy assassination. It claimed that "nobody who teaches or practices acts of terror and violence is allowed to be a member of the Communist party."

The cyanide spray route to sudden death was the one used with astonishing success by Stashinsky. It is a six-inch long aluminum cylinder containing cyanide poison which, when squirted into the victim's face, brings death in minutes. Shortly thereafter almost all traces of the cause of death vanishes.

WRONG CONCLUSIONS

This was the way Stashinsky killed two leaders of Ukrainian emigres in West Germany, Lev Rebet in 1957 and Stephan Bandera in 1959. Both murders took place in Munich, West Germany.

So traceless and elusive did the method prove that Rebet was thought to have died of a heart attack and the truth of what happened to both victims remained unknown until Stashinsky gave himself up to the American Intelligence Center in Berlin, in August, 1961. He was passed on to the West Germans.

His motive for surrendering, he said, was fear that he would soon be liquidated by the KGB.

The Germans took weeks to check out his story. They found his defection brought a wholesale shake-up of the KGB in which 17 officials were fired.

He was put on trial before a German Supreme Court for the murders, and convicted. On Oct. 19, 1963, he was sentenced to eight years in prison. Before he passed out of the limelight he had left a memorable impression of how his seniors applauded a stealthy homicide which left Western police completely up in the air.

A week or two after the Rebet murder he was banqueted in the KGB's Karlshorts "safehouse." He was formally congratulated by his superiors and an unidentified Soviet general and presented with a Contax camera.

After the Bandera murder he was ordered back to Moscow. On the recommendation of the Presidium of the Supreme Soviet he was given the Order of the Red Banner. The citation mentioned his "extraordinarily difficult mission" in killing by poison gas gun two enemies of the state.

BACKING UP A MYTH

His debriefing in West Germany also gave officials a look at the thoroughness with which the Russians prepare fraudulent documents to sustain any kind of a myth.

On one occasion he was given a complete set of credentials, birth certificate, working papers, passport, letters, etc., proving he was a man who never existed. On another occasion he was similarly outfitted with documents to prove he was another man who did exist.

This highly-developed flair of the Russians for manufacturing phony papers will not be forgotten by the Warren Commission as some of its members study "the full documentary record of Oswald's stay in the Soviet Union" which the Russians handed over to our State Department.

The CIA, and probably its former director, Allen Dulles, are to be credited with turning the new beam of inquiry on the Russians' murder laboratory.

Mr. Dulles is now a member of the Warren Commission. He devoted several pages to Stashinsky and the Russian assassin bureau in his recently-published book, "The Craft of Intelligence." He identified the leader of the bureau as Gen. Rodin who, as counselor of the Soviet Embassy in London from 1953 to 1961, and under the alias of "General Korovin," was in charge of two key Soviet spies in Britain, George Blake and William John Vassall.

After the latter were apprehended "things get too hot" for the Red general, Mr. Dulles wrote, and he was "recalled and re-assigned to the 'Murder Inc.' branch of the KGB."

Mr. Dulles declined to comment on the matter yesterday because of his status with the Warren Commission. But it would be hard to improve on the observations made by the West German Third Court of Criminal Appeal, after Stashinsky had been tried in Karlsruhe.

"The Soviet Secret Service," said the court, "no longer commits murder arbitrarily and out of its own accord. Murder is now only carried out at the explicit orders of the government. Political murder has now, as it were, become an institution."

Dear Mr. Hoover:

This will acknowledge your letter of January 6, 1964, accompanying copies of various income tax returns filed by Lee Harvey Oswald, Marguerite C. Oswald and Robert L. Oswald during the period 1956 through 1962.

As you suggest, I intend to discuss the matter with the Internal Revenue Service prior to any public disclosure of this matter.

Sincerely,

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
AND THE KILLING OF LEE HARVEY OSWALD
VISUAL AIDS

The Director on 1-11-64 spent one hour going over the visual aids prepared in connection with captioned matter. He sought the answers to many questions concerning the movement of the motorcade, the shooting scenes, location of eyewitnesses, position of assassin and assailant, etc. The Director firmly believes that the FBI should turn over full custody of these visual aids to the Commission as soon as possible in order that inquiries concerning these exhibits can be referred directly to Chairman Warren, particularly requests from news media to publicize the "new development" and the possible interest of the State of Texas and/or the defense in the scale model of the "Oswald shooting site" as a demonstrative courtroom aid.

In accordance with the Director's instructions, the following action was taken on 1-13-64:

1. Messrs. James R. Malley and Leo J. Gauthier visited Mr. Rankin at his office, 200 Maryland Avenue, N.E., Washington, D. C. Although the exhibits would fit in the Commission's conference room, Mr. Rankin felt the room would be too crowded for conference use and asked that Mr. Wade Holland, Superintendent of the building, be contacted concerning the possible use of the "Assembly Room." This room is large enough to accommodate all of the exhibits and can be made available by Mr. Holland for the Commission's use. Mr. Rankin stated he would discuss this matter further with Chief Justice Warren and that he would be in touch with the Bureau concerning the disposition of the exhibits.

2. Mr. Rankin viewed a copy of the attached brochure. He was advised that the Director would provide sufficient copies for distribution to Commission members and its legal staff. He appreciated this offer and requested 28 copies which will be made available by 1-22-64.

It has been announced that the President's Commission on the Assassination of President KENNEDY has recently appointed WILLIAM THADDEUS COLEMAN, Jr. of Philadelphia as senior member of its legal staff.

He is a native Philadelphian, having been born here 7/7/20. He is a former clerk to Justice FELIX FRANKFURTER of the Supreme Court, and is associated with the firm of Dilworth, Paxson, Kalish, Kohn and Dilks. He was the first Negro to serve as law clerk to a Supreme Court Justice. He was graduated summa cum laude from the University of Pennsylvania in 1941, and magna cum laude from Harvard Law School in 1943. He is a registered Republican who has served the Federal and local governments in several capacities. During the Eisenhower administration he was on the President's Committee on Government Employment Policy. For the past year he has been a consultant to the U. S. Arms Control and Disarmament Agency. COLEMAN has always made the advancement of his race a major personal goal. He prepared briefs that led to the Supreme Court's anti-segregation decision in 1954, and last year he wrote appeals to the Supreme Court for "sit-in" convictions in Southern states. He is on the Board of Directors of the NAACP Legal and Educational Defense Fund. He is married and lives at 617 West Hortter Street, West Mount Airey, Philadelphia. He has three children.

Back in 1959 a Special Inquiry investigation was conducted concerning COLEMAN, Bufile 77-80913.

The above is for the Bureau's information.

NORMAN REDLICH
[redacted]

Memorandum dated 12/31/63 from J. F. Bland to Mr. Sullivan set forth information received that Norman Redlich, a professor of Constitutional Law at New York University, might be working with the President's Commission.

Today, while discussing other matters with Mr. J. Lee Rankin of the President's Commission, it was mentioned it was understood Mr. Redlich was either working or might be going to work for the Commission. Mr. Rankin advised that Redlich was actually working with the Commission at the present time. The memorandum prepared by the Bureau detailing the [redacted] of Redlich was made available to Mr. Rankin for his information. When he had finished reading this memorandum, Mr. Rankin was asked whether he was aware of the background information that had been supplied to him. He stated he was not and that he appreciated the information which had been furnished to him. He gave no indication of what action he would take relative to Redlich and no further questions were asked of him concerning Redlich.

During discussions with Inspector Malley, J. Lee Rankin, General Counsel for the President's Commission, expressed considerable interest in the official autopsy reports prepared by doctors at the National Naval Medical Center concerning the death of President Kennedy. Mr. Rankin was advised that because of the strong desire on the part of the President's family to keep the autopsy report as confidential as possible the Bureau had not requested a copy of the report.

In view of the interest displayed by Mr. Rankin, arrangements were made to obtain a copy of the autopsy report from the Secret Service for the Bureau's use and a request was also made that Secret Service furnish a copy of the report to Mr. Rankin. Secret Service advised that this would be done. In discussions with Mr. Rankin on 12-23-63 he was advised of the action taken by the Bureau. Mr. Rankin stated he has now received a copy of the autopsy report from the Secret Service and he expressed sincere appreciation for the Bureau making this possible.

It is noted that the six-page autopsy report discloses no new information of significance in addition to that already obtained through investigation. One of the reasons expressed by Mr. Rankin for his keen interest in the report was the fact that newspaper accounts and other unverified sources have advanced the theory that one bullet entered the President's throat from the front. The autopsy report discredits this speculation, in fact, the report unequivocally states that it is the opinion of the examining physicians that the President died as the result of two gunshot wounds and the projectiles were fired from a point "behind and somewhat above the level of the deceased." As previously reported, one bullet entered the back below the neck while the other entered the skull.

ACTION

CLOSURE RE ATTACHED The attached copy of the autopsy report will be maintained in the Bureau files, but no further dissemination of it is being made at this time.

SOVIET SECTION

SUPV. CONTROL

ROENTGENOGRAMS: Roentgenograms are made of the entire body and of the separately submitted three fragments of skull bone. These are developed and were placed in the custody of Agent Robert A. Kellerman of the U. S. Secret Service, who executed a receipt therefor (attached).

Based on the above observations it is our opinion that the deceased died as a result of two perforating gunshot wounds inflicted by high velocity projectiles fired by a person or persons unknown. The projectiles were fired from a point behind and somewhat above the level of the deceased. The observations and available information do not permit a satisfactory estimate as to the sequence of the two wounds.

The fatal missile entered the skull above and to the right of the external occipital protuberance. A portion of the projectile traversed the cranial cavity in a posterior-anterior direction (see lateral skull roentgenograms) depositing minute particles along its path. A portion of the projectile made its exit through the parietal bone on the right carrying with it portions of cerebrum, skull and scalp. The two wounds of the skull combined with the force of the missile produced extensive fragmentation of the skull, laceration of the superior saggital sinus, and of the right cerebral hemisphere.

The other missile entered the right superior posterior thorax above the scapula and traversed the soft tissues of the supra-scapular and the supra-clavicular portions of the base of the right side of the neck. This missile produced contusions of the right apical parietal pleura and of the apical portion of the right upper lobe of the lung. The missile contused the strap muscles of the right side of the neck, damaged the trachea and made its exit through the anterior surface of the neck. As far as can be ascertained this missile struck no bony structures in its path through the body.

In addition, it is our opinion that the wound of the skull produced such extensive damage to the brain as to preclude the possibility of the deceased surviving this injury.

A supplementary report will be submitted following more detailed examination of the brain and of microscopic sections. However, it is not anticipated that these examinations will materially alter the findings.

these two wounds is in the apex (supra-clavicular portion) of the right pleural cavity. In this region there is contusion of the parietal pleura and of the extreme apical portion of the right upper lobe of the lung. In both instances the diameter of contusion and ecchymosis at the point of maximal involvement measures 5 cm. Both the visceral and parietal pleura are intact overlying these areas of trauma.

SCALP AND SKULL: The scalp wounds are extended in the coronal plane to examine the cranial content and the customary (Y) shaped incision is used to examine the body cavities.

THORACIC CAVITY: The bony cage is unremarkable. The thoracic organs are in their normal positions and relationships and there is no increase in free pleural fluid. The above described area of contusion in the apical portion of the right pleural cavity is noted.

LUNGS: The lungs are of essentially similar appearance the right weighing 320 Gm., the left 350 Gm. The lungs are well aerated with smooth glistening pleural surfaces and gray-pink color. A 5 cm. diameter area of purplish red discoloration and increased firmness to palpation is situated in the apical portion of the right upper lobe. This corresponds to the similar area described in the overlying parietal pleura. Incision in this region reveals recent hemorrhage into pulmonary parenchyma.

HEART: The pericardial cavity is smooth walled and contains approximately 10 cc. of straw-colored fluid. The heart is of essentially normal external contour and weighs 350 Gm. The pulmonary artery is opened in situ and no abnormalities are noted. The cardiac chambers contain moderate amounts of postmortem clotted blood. There are no gross abnormalities of the leaflets of any of the cardiac valves. The following are the circumferences of the cardiac valves: aortic 7.5 cm., pulmonic 7 cm., tricuspid 12 cm. mitral 11 cm. The myocardium is firm and reddish brown. The left ventricular myocardium averages 1.2 cm. in thickness, the right ventricular myocardium 0.4 cm. The coronary arteries are dissected and are of normal distribution and smooth walled and elastic throughout.

ABDOMINAL CAVITY: The abdominal organs are in their normal positions and relationships and there is no increase in free peritoneal fluid. The vermiform appendix is surgically absent and there are a few adhesions joining the region of the cecum to the ventral abdominal wall at the above described old abdominal incisional scar.

SKELETAL SYSTEM: Aside from the above described skull wounds there are no significant gross skeletal abnormalities.

PHOTOGRAPHY: Black and white and color photographs depicting significant findings are exposed but not developed. These photographs were placed in the custody of Agent Roy H. Kellerman of the U. S. Secret Service, who executed a receipt therefore (attached).

Situated in the posterior scalp approximately 2.5 cm. laterally to the right and slightly above the external occipital protuberance is a lacerated wound measuring 1.5 x 1 cm. In the underlying bone is a corresponding wound through the skull which exhibits beveling of the margins of the bone when viewed from the inner aspect of the cranium.

Clearly visible in the above described large skull defect and exuding from it is lacerated brain tissue which on close inspection proves to represent the major portion of the right cerebral hemisphere. At this point it is noted that the falx cerebri is extensively lacerated with disruption of the superior saggital sinus.

Upon reflecting the scalp multiple complete fracture lines are seen to radiate from both the large defect at the vertex and the smaller wound at the occiput. These vary greatly in length and direction, the longest measuring approximately 19 cm. These result in the production of numerous fragments which vary in size from a few millimeters to 10 cm. in greatest diameter.

The complexity of these fractures and the fragments thus produced tax satisfactory verbal description and are better appreciated in photographs and roentgenograms which are prepared.

The brain is removed and preserved for further study following formalin fixation.

Received as separate specimens from Dallas, Texas are three fragments of skull bone which in aggregate roughly approximate the dimensions of the large defect described above. At one angle of the largest of these fragments is a portion of the perimeter of a roughly circular wound presumably of exit which exhibits beveling of the outer aspect of the bone and is estimated to measure approximately 2.5 to 3.0 cm. in diameter. Roentgenograms of this fragment reveal minute particles of metal in the bone at this margin. Roentgenograms of the skull reveal multiple minute metallic fragments along a line corresponding with a line joining the above described small occipital wound and the right supra-orbital ridge. From the surface of the disrupted right cerebral cortex two small irregularly shaped fragments of metal are recovered. These measure 7 x 2 mm. and 3 x 1 mm. These are placed in the custody of Agents Francis X. O'Neill, Jr. and James W. Sibert, of the Federal Bureau of Investigation, who executed a receipt therefor (attached).

2. The second wound presumably of entry is that described above in the upper right posterior thorax. Beneath the skin there is ecchymosis of subcutaneous tissue and musculature. The missle path through the fascia and musculature cannot be easily probed. The wound presumably of exit was that described by Dr. Malcolm Perry of Dallas in the low anterior cervical region. When observed by Dr. Perry the wound measured "a few millimeters in diameter", however it was extended as a tracheostomy incision and thus its character is distorted at the time of autopsy. However, there is considerable ecchymosis of the strap muscles of the right side of the neck and of the fascia about the trachea adjecent to the line of the tracheostomy wound. The third point of reference in connecting

There is clotted blood on the external ears but otherwise the ears, nares, and mouth are essentially unremarkable. The teeth are in excellent repair and there is some pallor of the oral mucous membrane.

Situated on the upper right posterior [illegible] above the upper border of the scapula there is a 7 x 4 millimeter oval [illegible] This wound is measured to be 14 cm. from the tip of the right acromion process and [illegible] cm. below the tip of the right mastoid process.

Situated in the low anterior neck at approximately the level of the third and fourth tracheal rings is a 6.5 cm. long transverse wound with widely gaping irregular edges. (The depth and character of these wounds will be further described below.)

Situated on the anterior chest wall in the nipple line are bilateral 2 cm. long recent transverse surgical incisions into the subcutaneous tissue. The one on the left is situated 11 cm. cephalad to the nipple and the one on the right 8 cm. cephalad to the nipple. There is no hemorrhage or ecchymosis associated with these wounds. A similar clean wound measuring 2 cm. in length is situated on the antero-lateral aspect of the left mid arm. Situated on the antero-lateral aspect of each ankle is a recent 2 cm. transverse incision into the subcutaneous tissue.

There is an old well healed 8 cm. McBurney abdominal incision. Over the lumbar spine in the midline is an old, well healed 15 cm. scar. Situated on the upper antero-lateral aspect of the right thigh is an old, well healed 8 cm. scar.

MISSILE WOUNDS:

1. There is a large irregular defect of the scalp and skull on the right involving chiefly the parietal bone but extending somewhat into the temporal and occipital regions. In this region there is an actual absence of scalp and bone producing a defect which measures approximately 13 cm. in greatest diameter.

From the irregular margins of the above scalp defect tears extend in stellate fashion into the more or less intact scalp as follows:

a. From the right inferior temporo-parietal margin anterior to the right ear to a point slightly above the tragus.

b. From the anterior parietal margin anteriorly on the forehead to approximately 4 cm. above the right orbital ridge.

c. From the left margin of the main defect across the midline antero-laterally for a distance of approximately 8 cm.

d. From the same starting point as c. 10 cm. postero-laterally.

CIRCUMSTANCES SURROUNDING DEATH: According to available information the deceased, President John F. Kennedy, was riding in an open car in a motorcade during an official visit to Dallas, Texas on 22 November 1963. The President was sitting in the right rear seat with Mrs. Kennedy seated on the same seat to his left. Sitting directly in front of the President was Governor John B. Connolly of Texas and directly in front of Mrs. Kennedy sat Mrs. Connolly. The vehicle was moving at a slow rate of speed down an incline into an underpass that leads to a freeway route to the Dallas Trade Mart where the President was to deliver an address.

Three shots were heard and the President fell forward bleeding from the head. (Governor Connolly was seriously wounded by the same gunfire.) According to newspaper reports ("Washington Post" November 23, 1963) Bob Jackson, a Dallas "Times Herald" Photographer, said he looked around as he heard the shots and saw a rifle barrel disappearing into a window on an upper floor of the nearby Texas School Book Depository Building.

Shortly following the wounding of the two men the car was driven to Parkland Hospital in Dallas. In the emergency room of that hospital the President was attended by Dr. Malcolm Perry. Telephone communication with Dr. Perry on November 23, 1963 develops the following information relative to the observations made by Dr. Perry and procedures performed there prior to death.

Dr. Perry noted the massive wound of the head and a second much smaller wound of the low anterior neck in approximately the midline. A tracheostomy was performed by extending the latter wound. At this point bloody air was noted bubbling from the wound and an injury to the right lateral wall of the trachea was observed. Incisions were made in the upper anterior chest wall bilaterally to combat possible subcutaneous emphysema. Intravenous infusions of blood and saline were begun and oxygen was administered. Despite these measures cardiac arrest occurred and closed chest cardiac massage failed to re-establish cardiac action. The President was pronounced dead approximately thirty to forty minutes after receiving his wounds.

The remains were transported via the Presidential plane to Washington, D.C. and subsequently to the Naval Medical School, National Naval Medical Center, Bethesda, Maryland for postmortem examination.

GENERAL DESCRIPTION OF BODY: The body is that of a muscular, well-developed and well nourished adult Caucasian male measuring 72½ inches and weighing approximately 170 pounds. There is beginning rigor mortis, minimal dependent livor mortis of the dorsum, and early algor mortis. The hair is reddish brown and abundant, the eyes are blue, the right pupil measuring 8 mm. in diameter, the left 4 mm. There is edema and ecchymosis of the inner canthus region of the left eyelid measuring approximately 1.5 cm. in greatest diameter. There is edema and ecchymosis directly over the right supra-orbital ridge with abnormal mobility of the underlying bone. (The remainder of the scalp will be described with the skull.)

J. Lee Rankin, Counsel to the President's Commission on the Assassination, by 1-10-64 letter pointed to a passage in Dallas' 11-30-63 report in the Jack Ruby case in which it was recorded that the Dallas Police had in their possession three metal boxes containing personal correspondence of Mrs. Ruth Paine to relatives and friends and her personal diary. The report showed that this material was reviewed by Dallas and that no correspondence was contained therein to or from the Oswalds and Jack Ruby. As this material did not appear pertinent to our investigation and was purely personal in nature, it was not reported in detail.

Mr. Rankin's letter noted that in the Dallas 12-2-63 report in the Oswald case a reference is made to a letter written by Mrs. Paine in the Russian language to Marina Oswald. Rankin asked that we obtain for the Commission the original documents in the three metal boxes described in the Ruby report which material will be returned if and when it is found the documents have no further pertinence to the work of the Commission.

The Commission's request has been relayed to Dallas which office advises that the desired documents are still in the possession of the Dallas Police and that our Dallas Office is obtaining same which will be forwarded to the Bureau 1-15-64. We do have in our files four letters handwritten in the Russian language from Mrs. Paine to Mrs. Oswald. They are dated 5-16; 7-14; 7-21; and 8-24-63. They were afforded summary translations and nothing of pertinence was noted therein. As the Commission is apparently interested in seeing any and all correspondence from Mrs. Paine to Mrs. Oswald, the four above-mentioned

Dear Mr. Rankin:

Reference is made to your letter dated January 10, 1964, requesting the original documents contained in three metal boxes which were referred to on page 828 of the report in the Jack Ruby case of Special Agent Manning C. Clements dated November 30, 1963, at Dallas.

The material you sought has been received and is being furnished herewith. This material was returned to Mrs. Ruth Hyde Paine by the Dallas Police Department on the afternoon of January 15, 1964, on which date Mrs. Paine made it available to our Dallas office. Mrs. Paine explained that missing from the material she made available were color slides taken by herself in Europe in 1952 and color slides taken by her husband, Michael Paine, in Korea and Japan during the Korean War. In addition, various photographic equipment which was returned to her by the Dallas police was retained by her.

Mrs. Paine stated that among the material made available to us were many personal items. She requested that none of the material be made public unless it appears that such material has a bearing on the Oswald investigation. She requested that all material not found to have a bearing on the Oswald matter be returned to her at the earliest opportunity. Mrs. Paine stated that the material in question was located in her bedroom closet at her Irving, Texas, residence and was not in the bedroom closet of the room occupied by Marina Oswald. She related

that while she gave consent to the Dallas Police Department to remove material from her home which belonged to the Oswalds, she did not consent to the removal of her personal property.

Due to the voluminous nature of this material which was previously reviewed by our Dallas office as reported in the afore-mentioned report of Special Agent Manning C. Clements, we do not intend to make copies of it. In view of the request of Mrs. Paine, it would be appreciated if the material would be returned to this Bureau at the earliest possible date so that we may comply with Mrs. Paine's request.

Dear Mr. Hoover:

Special Agent Warren C. DeBrueys' report dated December 2, 1963, (Field Office File No. Dallas 100-10461 -- Bureau File No. 105-82555) at page 190 sets forth a letter from Ruth Paine to Mrs. Paul Blanchard dated July 18, 1963, in which the writer stated she corresponded with Marina Oswald in Russian. In Special Agent Manning C. Clements' report dated November 30, 1963, (Field Office File No. Dallas 44-1639) at page 828 it is further reported that Dallas Police Lieutenant Wells has in his possession three metal boxes containing Mrs. Paine's correspondence files, including letters to and from friends, which she voluntarily turned over to the Dallas Police Department.

I would appreciate obtaining through the Bureau the original documents contained in these files, with the understanding that they will be returned if and when they have no further pertinence to the work of this Commission. Should any of these documents be in Russian or another foreign language, I would further appreciate your Bureau furnishing a translation thereof.

Thank you for your cooperation in this matter.

I returned an earlier call from Honorable J. Lee Rankin, who is with the Presidential Commission on the Assassination of President John F. Kennedy. Mr. Rankin stated he wanted to thank me for all the cooperation and assistance that the Bureau has been giving them and he wanted to tell me how sorry he was about the Louisiana situation; that they were trying to get the basic records or copies and not trying to cover anything the Bureau had done for them.

I told Mr. Rankin that I thought he should know about it because of the reaction of some of the people being interviewed, which was critical as it indicated the Government was in the position of the right hand not knowing what the left hand was doing. I stated I thought the letter was misinterpreted and that we have since been furnished with the contents of the letter and no specific interviews were requested. Mr. Rankin stated they were going to get it straightened out.

Dear Rep. Alec Olson

We deeply resent the appointment by Chief Justice Earl Warren as head of the Commission to "study" our late President John F. Kennedy's assassination, that Mr. Warren, in sixty-two out of sixty-three decision involving dangerous communists, voted in favor of sixty-two.

In Victory the Earl Warren Supreme Court's long-standing tenderness toward Communists, any report this Commission may at long last give birth to will be open to suspicion of pro-communist and anti-Conservative bias.

The object of any investigation into this vicious crime should be to get the whole truth and it, and nothing but the truth, and let the American people have that truth as fast as it is confirmed by competent investigators.

There seems to be little likelihood that the Warren Commission can come up with an unbiased verdict. And the Commission's actions to date indicate strongly that it won't come up with any

This memorandum is to advise you that the captioned individuals, both employed by the Department of Justice, are being considered for employment by the President's Commission on the Assassination of President Kennedy.

On 1-24-64, name checks were received from General Services Administration (GSA), (which is handling security checks of staff members of the President's Commission), at which time GSA advised Rowcotsky and Lippard were being considered for employment by the President's Commission.

Bureau files reveal Rowcotsky was the subject of a Departmental Applicant investigation in 1963, which developed no derogatory information concerning her. Bureau files contain no other information regarding her. (77-92808)

Lippard was the subject of Departmental Applicant investigations in 1954 and 1962, which investigations developed no derogatory data. Our files contain no additional information concerning her. As a matter of interest, Mrs. Lippard has been employed, for a number of years, primarily in the Criminal Division of the Department. However, from 2-5-58 to 7-8-62 she was a secretary in the Administrative Office of the United State Courts. First, as secretary to Warren Olney, Director of the Division of Business Administration and subsequently by the Chief of that Division. Mrs. Lippard returned to Departmental employment 7-9-62. (77-64755)

Copies of the reports of the investigations of both Rowcotsky and Lippard have been furnished GSA.

Chief Inspector Henry Montague of the Post Office Department called on the afternoon of 1/13 to say that the Post Office had received a letter from the President's Commission studying the assassination of President Kennedy. This letter asked for any information or investigation on the part of the Post Office Department relative to the assassination. (This is the same letter the President's Commission sent to various departments in the government in connection with its current study.)

Mr. Montague said a reply would be sent to Mr. Rankin showing the inquiries the Post Office inspectors made relative to the post office boxes Oswald had rented, and also Oswald's nasty reply to the Post Office Department when it inquired whether he still wanted to receive certain Russian papers and magazines being directed to his post office box. Mr. Montague had previously informed us of Oswald's reply.

I told Mr. Montague that we had included information regarding Oswald's reply to the Post Office Department, and regarding his post office boxes, in our investigative reports which we had furnished to the President's Commission. In order that we would be sure we had all the information which the Post Office Department will report to the Commission, I arranged with Mr. Montague for our liaison to take a look at their proposed report to the Commission, prior to the time it is sent.

Liaison will handle this with the Post Office Department.

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

On 12-11-63 the Office of the Attorney General forwarded to the Bureau a memorandum to the Attorney General from Arthur Schlesinger, Jr., Special Assistant to the President, which enclosed a 12-page typewritten document entitled "Seeds of Doubt: Some Questions About the President's Assassination," prepared by Jack Minnis, described as a "political scientist," and Staughton Lynd, described as a "historian."

A review of this paper disclosed that the authors have taken the newspaper versions of the assassination and have noted a number of contradictions as reported in the newspapers and, therefore, are asking a number of questions to which they say the American people have a right to know the answers. The questions include such things as: 1. How Oswald, from a position behind and slightly to the right of President Kennedy fired a shot which entered the President's neck below the Adam's Apple. 2. How Oswald fired three shots with a bolt-action rifle with such accuracy in such a short time at a moving target. 3. How the three shots could have produced "four bullets." 4. How Oswald did all the things he reportedly did between the assassination and his arrest. 5. How was Ruby permitted to shoot Oswald. 6. Did the FBI interview Oswald a few days before the assassination. 7. Did the FBI show Oswald's mother a picture of Ruby the night before he killed Oswald. 8. Did the FBI seize a movie-film showing silhouettes of two men in the "sniper window."

The paper ends with the following: "It seems hardly too much to suggest that the Dallas Police and the FBI need to account for their own activities, during and after the assassination. Until such an accounting is made, no version of the tragedy produced by the police or the FBI can be accepted with confidence."

All of the questions referred to above have been raised in the press and have been based upon erroneous information or speculation.

DATE: January 22, 1964

FROM : C. D. DeLoach

SUBJECT: DON REYNOLDS
INFORMATION REGARDING CASE INVOLVING
ASSASSINATION OF PRESIDENT KENNEDY

Don Reynolds is the [redacted] owner of an insurance company in Silver Spring, Maryland. Walter Jenkins called me from the White House at approximately 5:30 p.m. today. He asked that I come over and see him immediately.

Upon seeing Jenkins, he told me that Pierre Salinger had just advised him and the President that an insurance executive by the name of Megill, who has offices at 1612 K Street, Northwest, and who operates the company known as Megill and Son, that Reynolds had given him information concerning the assassination of the President approximately two weeks ago.

Reynolds told Megill that President Johnson was soon to be impeached. He stated that, "J. Edgar Hoover of the FBI had collected sufficient data to prove that President Johnson was involved in the assassination of the late President Kennedy." Reynolds stated that Governor Connally of Texas had been an accomplice of President Johnson's in the assassination of the late President Kennedy. Reynolds also told Megill that Clint Murchison had kept Oswald in a hotel in Dallas for several days prior to the assassination.

Salinger told the President that Megill is a very reputable individual and a person that would not give inaccurate information.

62-109090

While I was in Jenkins' Office obtaining the above information, the President walked in and stated that he would appreciate the FBI interviewing Reynolds and pinning this information down as expeditiously as possible. I told the President I knew the Director would instruct that we get on this matter immediately. After the President left, Jenkins requested that we not interview Megill inasmuch as the President does not want Salinger to know this information was given to anyone else.

ACTION: It is suggested this memorandum be forwarded to the General Investigative Division and that Reynolds be interviewed as expeditiously as possible in connection with the above allegation.

Dear Mr. Hoover:

In connection with a piece of the proposed activity, the Commission is interested in knowing more about the residence of Lee Harvey Oswald during the 13-day period occurring between October 19, 1963, the date upon which he moved out of the YMCA at Dallas, Texas, and November 2, 1963, the date upon which he took up residence at 602 Elsbeth Street, Dallas, Texas.

We have reviewed all the information available to the Commission and have found that during the above-mentioned period, Oswald's residence is not known. Memorandum

TO : Mr. Conrad DATE: 1/24/64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11/22/63
REQUEST BY INVESTIGATING COMMISSION
Commission

Yesterday afternoon Inspector J. R. Malley relayed to the Laboratory an inquiry from Mr. Howard P. Willens from the Commission investigating the President's assassination concerning the Laboratory's examination of one of the movie films showing the shooting sequence. Mr. Willens had stated that he and some of the attorneys working for the Commission will be viewing the "Zapruder" film Monday and would like to ask some questions of a technical nature concerning the manner in which the film was made originally and concerning our findings as a result of the Laboratory examination. I returned Mr. Willens's call promptly yesterday afternoon and arranged to make a Laboratory expert available Monday morning as requested. Mr. Willens was most appreciative.

The Zapruder film is the 8 mm home movie color film shot by Abraham Zapruder showing the whole sequence of events up to and including the shooting of the President. Inspector Gauthier's memorandum of 1/23/64 advises that arrangements will be made to show the Zapruder film and another movie of the same nature to the Commission on 1/27/64. When I talked with Mr. Willens yesterday he at first stated he would like to talk to the expert who originally examined this film and who prepared the Laboratory report concerning it. (This was SA Frederick E. Webb and his Laboratory report is dated 12/20/63.) I told him that the expert, SA Webb, is in St. Joseph, Missouri, handling testimony at a trial out there and is not expected to return until sometime next week but if the Commission desired, I would certainly explore the possibility of having him released by the court to handle the Commission's inquiry. Mr. Willens stated this was not necessary since their operations are "substantially more flexible than that of the courts" and they would prefer to wait until SA Webb returned.

I suggested to him we have other experts who possibly could handle any general technical inquiry and I wanted him to know we would be able to make an alternate expert available if he so desired. He stated actually this might solve the problem since at this time the questions they have in mind are rather general.

I then arranged with Mr. Willens for SA Lyndal L. Shaneyfelt to be present in Room 401, VFW Building, 200 Maryland Avenue, at 9:30 a.m., Monday, 1/27/64. Mr. Willens indicated that this would afford the attorneys who will be viewing the Zapruder film later Monday morning an opportunity to consult with the Laboratory expert prior to viewing the film.

RESUTEL CALL JAN. TWENTYFOUR LAST REFERRING TO ARTICLE APPEARING IN THE NATION OF JAN. TWENTYSEVEN LAST AND A PORTION THEREOF QUOTING DIST. ATTY HENRY WADE OF DALLAS AND HIS ASSISTANT WILLIAM ALEXANDER. WITH RESPECT TO THE QUOTE FROM WADE, HE ADVISES THAT REPORTER HUDKINS WAS FORMERLY A POLICE REPORTER FOR BOTH THE DALLAS TIMES HERALD AND DALLAS MORNING NEWS, THAT HE WAS A RATHER WILD TYPE OF REPORTER AND THAT HE WAS HERE AFTER THE ASSASSINATION OF PRES. KENNEDY REPRESENTING THE HOUSTON POST. HE REMEMBERS THAT SOMETIME IN LATE DEC., HUDKINS POSED SOME LEADING QUESTIONS TO HIM ABOUT WHETHER OSWALD WAS AN INFORMANT OF THE FBI, CIA OR SOME GOVERNMENTAL AGENCY. HE STATED THAT HE TOLD HUDKINS QUOTE I DON'T KNOW ANYTHING ABOUT IT UNQUOTE, AND THAT HE POSSIBLY MIGHT HAVE SAID QUOTE EVEN IF HE WERE , I DON'T THINK IT OUGHT TO BE PUBLICIZED. HE DEFINITELY DENIES THE STATEMENT ATTRIBUTED TO HIM.

THAT HE HAD RECEIVED INFO THAT OSWALD'S NOTEBOOK WHICH HAD BEEN SEIZED BY THE POLICE HAD AGENT HOSTY OR HASTY'S NAME AND THE TELEPHONE NUMBER OF THE LOCAL FBI OFFICE, AND POSSIBLY A LICENSE NUMBER OF A CAR, AND HE ASKED ALEXANDER IF THAT DIDN'T MEAN OSWALD WAS AN INFORMANT OF THE FBI. ALEXANDER CLAIMS THAT HE TOLD HIM THAT HE DIDN'T KNOW ANYTHING ABOUT HIS BEING AN INFORMANT. WHEN QUESTIONED ABOUT THE NOTEBOOK, ALEXANDER STATES HE SAID, QUOTE IT LOOKS LIKE YOU HAVE THE STORY THERE UNQUOTE. HE DENIES MAKING ANY FURTHER STATEMENTS TO HUDKINS.

IN ADDITION , BOTH WADE AND ALEXANDER WERE INTERVIEWED THIS DATE RE THEIR APPEARANCE BEFORE THE PRESIDENT'S COMMISSION IN WASH., D. C. ON JAN. TWENTYFOUR. MR. WADE ADVISED THAT HE DID APPEAR BEFORE THE COMMISSION ON JAN. TWENTYFOUR AND FURNISHED THE FOLLOWING INFO. ON JANUARY TWENTYTWO AT ABOUT TEN P. M., WAGGONER CARR, DIST. ATTY. FOR THE STATE OF TEXAS, CALLED WADE AND MENTIONED SOMETHING ABOUT AN ARTICLE APPEARING IN A NATIONAL MAGAZINE RE THE POSSIBILITY THAT OSWALD HAD BEEN AN INFORMANT OF THE FBI, CIA OR SOME OTHER GOVERNMENTAL AGENCY AND THAT SUPPOSEDLY WADE AND ALEXANDER HAD BEEN QUOTED IN THIS ARTICLE. CARR ADVISED HIM THAT THE COMMISSION WANTED HIM TO APPEAR. HE THEN STATED THAT HE TALKED TO THE COMMISSION AND TOLD THEM THAT HE DIDN'T KNOW ANYTHING, BUT THAT CARR LATER CALLED HIM AND SAID THAT THEY WANTED HIM TO APPEAR ANYWAY, AND THAT ARRANGEMENTS WERE FIRST MADE TO SEND AN AIR FORCE PLANE DOWN TO TAKE THEM UP, BUT LATER THIS WAS CANCELED

AND HE AND HIS ASST. , ALONG WITH WAGGONER CARR, ROBERT STOREY, FORMER DEAN OF SMU, AND LEON JAWORSKI, HOUSTON ATTY, EMPLOYED BY CARR IN CONNECTION WITH THIS MATTER, ALL WENT TO WASH., D. C. ON JAN. TWENTYTHREE. THEY ALL APPEARED AT THE COMMISSION HDQTRS. AND HAD AN INFORMAL TYPE DISCUSSION WITH CHIEF JUSTICE WARREN AND CHIEF COUNSEL LEE RANKIN. THEY WERE QUESTIONED RE THE INFO IN THE NATION ARTICLE, AT WHICH TIME, WADE ADVISED THE COMMISSION THAT HE HAD BEEN MISQUOTED BY THIS REPORTER, THAT HE HAD NO INFO TO THE EFFECT THAT OSWALD WAS AN INFORMANT OF THE FBI OR ANY GOVERNMENTAL AGENCY, AND HE ALSO AT THAT TIME EXPRESSED THE OPINION THAT EVEN IF HE WERE, HE DIDN'T THINK IT OUGHT TO BE PUBLICIZED.

WADE'S ASSISTANT, ALEXANDER, WAS ALSO QUESTIONED AND HE ADVISED THAT HE HAD NO INFO AS TO OSWALD BEING AN INFORMANT OF THE FBI, CIA OR ANY GOVERNMENTAL AGENCY. HE DID POINT OUT THAT IN A NOTEBOOK OF OSWALDS, SEIZED BY THE POLICE, THAT AGENT HOSTY'S NAME WAS IN THE NOTEBOOK, ALONG WITH MANY OTHERS, IN ADDITION THE TELEPHONE NUMBER OF THE DALLAS OFFICE OF THE FBI, AND THE LICENSE NUMBER OF A CAR.

ALEXANDER STATED THAT IN ADDITION HE TOLD CHIEF JUSTICE WARREN AND RANKIN THAT ON THE AFTERNOON OF JAN. TWENTYONE, AFTER CONCLUSION OF THE BOND HEARING FOR RUBY AND WHILE THE REPORTERS WERE WAITING FOR SOME STATEMENT FROM THE JUDGE, THERE WERE A NUMBER OF REPORTERS IN THE JUDGE'S COURTROOM AND HE HEARD SOME

REPORTER HE BELIEVED TO BE FROM THE NORTH AND OTHER REPORTERS DISCUSSING THE POSSIBILITY THAT OSWALD WAS A COUNTER SPY FOR THE FBI, CIA OR SOME GOVERNMENTAL AGENCY. HE REMEMBERS HEARING THE WORDS SPECIAL SERVICES MENTIONED. HE ALSO REMEMBERS HEARING SOME REPORTER MAKE THE STATEMENT THAT OSWALD WAS SUPPOSEDLY ON THE PAY ROLL OF THE GOVT. AT TWO HUNDRED DOLLARS A MONTH, BEGINNING SEPT. NINETEEN SIXTYTWO AND THAT HE HEARD PAY ROLL NUMBER ONE SEVEN NINE OR VOUCHER ONE SEVEN NINE MENTIONED. ALEXANDER PURPORTEDLY ALLEGES THAT HE DOES NOT KNOW THE NAME S OF THESE REPORTERS.

MR. WADE ADVISED THAT HE ALSO DISCUSSED WITH RANKIN AND CHIEF JUSTICE WARREN THE FACT THAT HE WAS GOING TO HAVE TO EXAMINE THE REPORTS AT THE USA'S OFFICE AND THAT HE DEFINITELY PREFERRED TO HAVE THE REPORTS MADE AVAILABLE TO HIM. HE WAS ADVISED THAT THIS WAS A MATTER THAT HAD TO BE DETERMINED BY THE PARTICULAR DEPARTMENT, AND HE RECALLS THAT AT THIS TIME SOME MENTION WAS MADE OF THE FACT THAT THE COMMISSION HAD STILL NOT RECEIVED ANY REPORT FROM THE STATE DEPARTMENT OR CIA. HE SAID HE ALSO TOOK UP WITH THEM THE FACT THAT IT HAD BEEN INDICATED TO HIM BY MR. MILLER OF THE DEPT OF JUSTICE THAT CERTAIN INFO FROM THE FBI REPORTS MIGHT BE MADE AVAILABLE TO THE DEFENSE IN THE RUBY CASE AND HE VOICED HIS DISAPPROVAL OF THIS AND HE WAS ADVISED THAT THIS WOULD BE UP TO THE DEPARTMENT. CHIEF JUSTICE WARREN THEN TOLD HIM THAT THEY HAD WRITTEN A LETTER TO MR. BELLI WHEREIN THEY HAD TOLD HIM THAT THEY WERE NOT AN INVESTIGATIVE AGENCY, ETC. AND THAT HIS REQUEST FOR REPORTS WOULD HAVE TO BE TAKEN UP WITH THE

DEPT. WADE STATED CHIEF JUSTICE WARREN ALSO READ A LETTER THAT HE HAD DIRECTED TO MR. HOOVER, STATING THE POSITION OF THE COMMISSION WITH REGARD TO THE FILES. HE STATED THAT DURING THE COURSE OF THE CONVERSATION, HE BROUGHT UP THE FACT THAT HE HOPED THERE WOULD NOT BE ANY ADDITIONAL PUBLICITY RE THE LACK OF ANY ASSOCIATION BETWEEN RUBY AND OSWALD FOR FEAR IT WOULD HURT HIS CASE.

WADE ADVISED HE WAS FURNISHING ME THIS INFO IN STRICTEST CONFIDENCE AS HE HAD BEEN INSTRUCED THAT UNDER NO CIRCUMSTANCES WAS ANY INFO RE THIS INTERVIEW OR INTERVIEWS TO BE GIVEN OUT, AND HE DESIRES TO BE PROTECTED. WADE ALSO STATED THAT HE CONFIDENTIALLY ADVISED LEE RANKIN THAT ANYTHING THAT ALEXANDER SAID CONCERNING THE FBI OR THE DEPARTMENT HAD TO BE TAKEN WITH A GRAIN OF SALT. HE SAID THAT ALEXANDER AND AUSA B. W. The letter in its first paragraph dealt briefly with the jurisdiction of the Commission and the Directives given to it by President LYNDON B. JOHNSON.

The second paragraph of the letter pointed out that in connection with their inquiry into the President's Assassination they requested investigation be conducted through the Orleans and St. Tammany Parish School Boards at New Orleans and Covington, Louisiana respectively by the Governor's Office. They specified that they were interested in securing wherever possible the original documents reflecting all school attendance for LEE HARVEY OSWALD in each of these locals and also

The investigation the President's Commission requested of the Governor of Louisiana was previously conducted by the FBI and the results furnished to the Commission. It seems apparent that the Commission is reviewing our reports and setting out requests to have the investigations we have conducted re-done. If the Commission intends to continue this duplication of effort, this matter will stretch out over an extremely lengthy period of time.

It is recommended that Inspector Malley advise Mr. Rankin that we have received this information, without revealing the source. Mr. Malley will point out to Rankin that we have conducted extensive investigation re Oswald's school attendance in Louisiana and elsewhere, including interviews with teachers and associates of Oswald, and have reported the results in detail to the Commission. Mr. Malley should ask Rankin flatly as to the purpose of the Commission's request of state authorities for duplicate investigation.

It is suggested that Mr. Malley further advise Rankin that if this is a procedure the Commission is following generally, we will be glad to stop all further investigation on the part of the FBI to avoid duplication.

If we get no satisfaction, it is suggested we go in writing to the Commission and also that Mr. DeLoach advise Mr. Jenkins of the White House.

indicated an interest in the results of interviews conducted with those people who had been familiar with OSWALD while in attendance at the appropriate institutions.

The letter requested that any documents obtained be forwarded to the Commission in Washington, D. C.

[redacted] stated that this particular inquiry which had been directed to him by the Governor's Office seemed to be "ridiculous" because he had found from his inquiries that in each instance the FBI, the Secret Service, and in one or two other cases, other Governmental Agencies had already made an identical inquiry. He stated that it was obvious and very apparent that this investigation requested of him by the Governor's Office was a complete duplication and in fact created a problem, particularly in Orleans Parish where the Orleans Parish School Board seemed indignant at additional requests to make records available after they had already been perused so thoroughly prior to this time by Governmental Agencies.

The above is for the Bureau's information because New Orleans feels that the Bureau should be made aware of inquiry.

Date 1/26/64

1/27/64 ...tion article refers to article of Lonnie Hudkins' in 1/1/64 Houston "Post", "Oswald Rumored as Informant for U. S." wherein Hudkins indicated he received information on authority of William Alexander, Assistant District Attorney, Dallas, that Agent Hosty's home and office phone and car license numbers in Oswald's possession. Hudkins quotes Henry Wade, Dallas District Attorney, saying, "It may be true but I don't think it will ever be made public as it is." We interviewed Wade and Alexander re remarks attributed them, results set forth in separate memorandum analysing Nation article. Attached teletype reflects data received from Wade and Alexander regarding appearance before President's Commission Washington, D. C., 1/24/64. Wade states told Commission was misquoted by reporter and had no info Oswald was informant FBI or any Government agency. Alexander stated told Commission had no information Oswald being Informant FBI, CIA or other Government agency. He pointed out in Oswald's notebook seized by Police, Agent Hosty's name appeared along with many others also telephone number of Dallas Office and license number of a car. Wade told Commission he overheard reports and some reporter said Oswald was on payroll of Government at $200 a month.

Wade discussed with Chief Justice Warren undesirability making FBI reports available to defense in Ruby case. Wade said Warren told him he had written letter to Belli, Ruby's attorney, informing him Commission not an investigative agency and requests for reports would have to be taken up with Department; Warren also referred to letter directed to Mr. Hoover stating position of Commission re files. Reurairtel 1/22/64. Information set forth in referenced airtel was taken up with J. Lee Rankin, General Counsel for President's Commission, today and Rankin made it very clear there was no desire on part of President's Commission to ask for any duplication of work previously performed by the FBI. Rankin stated that the letter which had been sent to the Governor of Louisiana did not request any interviews; however, it did request that certain documents relating to school attendance be obtained.

Mr. Rankin stated the documents had been requested so that the Commission would have on permanent file either the original or a true copy of the documents requested and that was the only purpose for the request.

As a result of the discussion had with Mr. Rankin, it was indicated the President's Commission would direct a communication to the Governor again outlining their request and making it clear that it was not desired that a number of interviews be conducted but rather they were only desirous of obtaining the documents named in the original communication. Rankin was not advised the source of the information furnished your office but was merely advised complaints relative to duplication of effort had been received by the New Orleans Office.

The "Washington Post and Times Herald" 1/22/64 carried an article indicating that the Presidential Commission investigating the assassination of President Kennedy would hear testimony of Marina Oswald, widow of the suspected assassin. Chief Justice Warren indicated the Commission members had been appointed and the procedures under which it would operate have been settled. The names of the various members are in the caption. The Director inquired what our files showed on these individuals.

J. Lee Rankin, chief counsel of the Commission has been investigated twice by the Bureau. An applicant-type investigation was conducted in 1953 prior to his employment with the Department. He was again investigated in 1955 when he was being considered as the Department's representative to the President's Committee on Disarmament Problems. Both investigations were favorable and our relations with him while he was with the Department were cordial.

enc. 62-109090-39

There is enclosed for the Director's information, a memorandum prepared 12/20/63 which contains information in our files concerning Francis W. H. Adams and Albert E. Jenner.

Our files contain no information concerning the two junior staff members, Wesley J. Liebeler and Melvin A. Eisenberg.

LEON D. HUBERT, JR.

Hubert was investigated in 1937 as a departmental applicant. He was under consideration for appointment as Assistant U. S. Attorney in New Orleans, Louisiana. This investigation was entirely favorable. He was considered brilliant, above average in ability, excellent personal character, habits and reputation. (77-8959)

JOSEPH A. BALL - [illegible] Calif.

We have not investigated Ball. However, our files show that in 1955 at the District Attorneys' Association of California annual convention, Ball addressed the group on "the way the District Attorney looks from the defense side of the table." This talk stirred up considerable resentment and bitter feeling on the part of members of the association. Ball was reportedly entirely out of line. He prefaced his talk by saying he would discuss the things he did not like about District Attorneys and indicated that they should conduct themselves with dignity instead of running around playing cops and robbers. He generally expressed a dislike for local law enforcement. No mention was made of the FBI.

The Los Angeles Office advised at that time that Ball had represented George E. Shibley, another attorney, on a charge of conspiracy to steal Government documents (Marine Corps files). Shibley was a member of the Long Beach Communist Party club in 1950. The communist press in 1950 reported that Ball headed the local committee for Robert W. Kenny for the State of California Senate. [redacted]

In July, 1957, an article was reviewed at the Bureau, which was written by Ball as president of the State Bar of California, entitled "Fair Trial." Briefly, the article traced the controversy between a free press and fair trial for defendants. It discussed such categories as publicity before trial, during trial, after conviction and pending appeals. Ball in this article indicated that he abhorred the trial by newspapers and pointed out that Canon 20 of the American Bar Association which purports to prohibit such trial by newspapers is "more honored in the breach than observance." Canon 20, above referred to, had previously come to the Bureau's attention and was extensively reviewed. In general it was concluded by the Bureau that it contained sweeping generalities and ignored public interest. (94-1-8325-30)

In October, 1963, Assistant Director Evans discussed the situation involving the advisory committee currently considering recommendations to be made to the Supreme Court on changes in Federal rules of criminal procedure with Assistant Attorney General Miller. Miller advised that the Department representatives were encountering great difficulty in getting the Department's position adopted by the advisory committee [redacted]

WILLIAM T. COLEMAN, JR.

Coleman was the subject of an applicant investigation in 1959 requested by the White House. He is a Negro lawyer from Philadelphia and was then being considered as an alternate member of the President's Committee on Government Employment Policy. The investigation generally developed no derogatory information. Coleman was described as a bright and astute individual. He graduated magna cum laude from the University of Pennsylvania in 1941 and with the same distinction from Harvard Law School in 1946, being first in a class of 75 law students. He was editor of the "Harvard Law Review" in his senior year. Coleman has been a vigorous champion of the rights of the colored people; however, he has always sought to accomplish the removal of all legal barriers with regard to racial discrimination by means of legal process. He has been active on the legal staff of the National Association for the Advancement of Colored People and one attorney described Coleman as very conservative in his political outlook.

Memorandum

TO : Mr. Belmont

DATE: January 24, 1964

FROM : A. Rosen

SUBJECT: JACK L. RUBY, AKA;
LEE HARVEY OSWALD, AKA - VICTIM
CIVIL RIGHTS

In preparing to testify at Ruby's bond hearing on 1-20-63, SA C. Ray Hall, Dallas, noted that a typographical error had occurred in connection with interviews with Ruby previously reported to have taken place on 11-24-63 and 11-25-63. This did not cause any difficulty in connection with Agent Hall's testimony as he made the correction before he testified and the interview report forms were not produced at the hearing.

EXPLANATION SUBMITTED BY DALLAS

Oswald was killed at approximately 11:24 a.m. 11-24-63, and Ruby was immediately taken into custody by the Dallas Police who removed him from the scene of the shooting to the jail on the upper floors of the police building. SA Hall was the first Agent to arrive and found that Ruby was being interviewed by the Police Department; however, through his liaison contacts with the police, he was able to gain access to Ruby to obtain the information that was needed.

Ruby was interviewed at the Police Department on 11-24-63 from 12:40 p.m. until 1:58 p.m. when the interview was interrupted to permit Ruby to consult with his attorney. The Agent continued his interview with Ruby at 2:02 p.m. and at 2:06 p.m. Ruby was afforded a brief physical examination by a doctor. The interview continued after the brief physical examination but was again interrupted at 3:15 p.m. due to Ruby's arraignment before the Justice of the Peace but the Agent again continued his interview from 4:30 p.m. until 5:30 p.m. 11-24-63. The interruptions were undesirable but if the Agent was to get the facts under circumstances such as existed in the Dallas Police Department on the day Oswald was shot by Ruby there was no other choice than to talk with Ruby when he was available.

SA Hall incorporated the information submitted by Ruby into two interview report forms in order that prior background information given by Ruby could be placed in a different and more logical part of the report than information dealing with the actual shooting of Oswald and Ruby's movements immediately prior to the shooting.

The two interview report forms were typed in rough-draft form by SA Hall on the night of 11-24-63 and in the early morning hours of 11-25-63. The roughdrafts were transcribed by a stenographer in the early morning hours of 11-25-63. One of the interview report forms in its final version showed that the interview had taken place 11-25-63. The roughdraft was destroyed after transcription and neither the Agent nor the stenographer can recall specifically what date appeared on the roughdraft. SA Hall reviewed the final transcription of the interview report form on 11-25-63 and initialed it as being correct.

Dallas states SA Hall worked a normal tour of duty on 11-22-63 and continued to work until 3:35 a.m. 11-23-63. He returned to duty at 7:40 a.m. 11-23-63 and worked until 7:07 p.m. 11-23-63. On 11-24-63 he entered on duty at 9:20 a.m. and worked straight through until 8:40 a.m. 11-25-63. Stenographer N. Jeanette Tanksley, who transcribed the interview report form, worked a regular tour of duty 11-22-63. On 11-23-63 she worked from 12:01 a.m. until 3:15 a.m. returning to duty at 2:45 p.m. 11-24-63 and working straight through until 10:00 a.m. 11-25-63.

The two interview report forms prepared by Agent Hall were incorporated into a Dallas report dated 11-30-63. Based upon a review of the interview report forms submitted by the Dallas Office, the summary which was prepared in connection with this matter states that Ruby was interviewed on 11-24-63 and 11-25-63. This summary was reviewed by the Dallas Office prior to dissemination.

ACTION

Upon approval J. Lee Rankin of the President's Commission and Assistant Attorney General Miller will be advised that in connection with the Ruby investigation, which concerns the killing of Oswald, one date reflecting an interview with Ruby on 11-25-63 is a typographical error and should be corrected to 11-24-63 in the investigative report and summary.

UNITED STATES GOVERNMENT

Memorandum

Mr. Tolson

DATE: 1-25-64

FROM: A. H. Belmont

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R

S.C. Shanklin called from Dallas at 12:15 p.m. today. He had interviewed District Attorney Wade and his assistant Alexander regarding their alleged statements in the Nation article. Wade said he had never made the statements attributed to him in the article; that he did talk to the reporter, Lonnies Hudkins, and when asked whether Oswald was an FBI informant replied that he did not know, but if he was he did not think such information should be made public.

Alexander said Hudkins talked to him and told him he was going to get a good story because he thought Oswald was an informant of CIA or the FBI because Oswald had the name of Agent Hosty and the telephone number of the Dallas office in his address book. Alexander said he told Hudkins that he did not know anything about Oswald being an informant, but it was true that Oswald's address book contained the name of Hosty and the telephone number.

District Attorney Wade told Shanklin, in confidence, that he and Alexander were called to testify before the President's Commission, but were sworn to secrecy. Wade said he thinks this came about because Attorney General Carr got a copy of the Nation article and brought it to the attention of Chief Justice Warren. Carr called Wade late Wednesday night and told him they were going up to Washington and they took a private plane Thursday night.

Present at the hearing were Chief Justice Warren and Lee Rankin, Attorney General Carr, Robert Storey (former Dean of SMU), Leon Jaworski (Houston attorney), Wade and Alexander. Storey and Jaworski are working for the State of Texas.

Belmont to Tolson Memorandum
Re: LEE HARVEY OSWALD

Wade said they were questioned as to whether they had any information regarding Oswald being an informant of the FBI, CIA or other government agency. Wade told them he had no information to that effect. Alexander says he also told them he had no knowledge of Oswald being a government informant. He did testify police recovered an address book at Oswald's residence that contained the name of Hasty, the telephone number of the FBI in Dallas and the license number of a car (we have this address book. Agent Hosty is the Agent who interviewed Mrs. Payne and gave her the office telephone number so she could advise him further concerning Oswald. The license number of the car is the same as Hosty's car, but is one letter off).

Alexander said he told the Commission that after the bond hearing on Jack Ruby last Tuesday, he heard news reporters speculating as to whether Oswald was a counterspy for the FBI, CIA or other government agency. One reporter (Alexander does not know who) said he thought Oswald was on the government payroll since September, 1962, at $200 a month, payroll or voucher number 179.

Wade said they were before the Commission for about 2 hours and also talked about FBI reports being made available to Wade and what information should go to the defence. The Commission told him this was the problem of the Department of Justice.

RECOMMENDATIONS:

It is recommended that we send a letter to Rankin telling him we have been advised that Texas authorities, including the District Attorney of Dallas and his assistant, were questioned by the Commission relative to the allegation appearing in the Nation article that Oswald was an FBI informant; that we have previously fully advised the Commission concerning our investigation and interviews of Oswald and here are the facts again concerning our contacts with Oswald and that he was never in any sense an informant of the FBI. Further, this letter will advise Rankin that if the Commission has any further questions concerning this or any other phase of FBI activities, we would appreciate a direct contact from the Commission relative thereto.

Warren Commission To Hear Oswald Widow

The Presidential Commission investigating the assassination of President Kennedy confirmed yesterday that it will hear testimony from Marina Oswald, widow of the suspected assassin.

Chief Justice Earl Warren, chairman of the seven-man body, made the announcement after a three-hour meeting of the Commission. He did not indicate when or where Mrs. Oswald will be examined but the indications were that the Commission will hear her soon.

The Chief Justice said the Commission has now completed the appointment of its senior staff members and settled upon the procedures under which it will operate. He said the Commission will meet again early next week.

The five senior staff men who will work with chief counsel J. Lee Rankin are: Leon D. Hubert Jr., 52, of New Orleans, a former assistant United States Attorney; Francis W. H. Adams, 59, former police commissioner of New York City; Joseph A. Ball, 61, of Los Angeles, a nationally known criminal lawyer; Albert E. Jenner, 56, of Chicago, a former president of the American Judicature Society, and William T. Coleman Jr., 43, of Philadelphia, a law clerk to Justice Felix Frankfurter in 1948-49.

The Chief Justice also announced the appointment of two junior staff members. They are Wesley J. Liebeler and Melvin A. Eisenberg.

The Chief Justice said at least one of the seven members will be present at any session when a witness is heard. He said that all witnesses will be entitled to have counsel accompany them when they testify. Counsel, he said, will be allowed to question their clients if they wish, and each witness will be furnished with a copy of his testimony.

Memorandum Brennan to Sullivan, January 21, 1964, advised that Internal Revenue Service (IRS) at the request of Justice Department, had assigned Edward A. Conroy and John J. O'Brien, IRS employees, to correlate information received by the Warren Commission and write the final report on the assassination of President Kennedy. Above memorandum advised that our files were being examined to determine if we had any contact with Conroy or O'Brien.

A review of our files disclosed no information identifiable with Conroy or O'Brien. William Kolar, Director of IRS Inspection Service, advised Liaison Agent that Conroy and O'Brien are GS-14 employees who work for him as Inspectors. Kolar said that Conroy and O'Brien were chosen by him to work for the Warren Commission principally because they have excellent writing ability and Justice, in making its request, had asked for two employees who were good report writers.

I called SAC Shanklin, Dallas, and advised him that we have been informed that District Attorney Wade, in his recent appearance before representatives of the President's Commission to investigate the assassination of President Kennedy, had made the statement that Dallas reporter Hudkins claims Oswald was known as Informant #179 in the FBI, and was paid $200 a month. The Commission asked Wade what he knew about informants in the FBI and he said that when he was in South America as a Bureau representative he was given money and never had to get receipts; that the Bureau depended on his integrity to spend the money properly and there was no accounting for the money. The inference, of course, is that under these circumstances the Bureau would not know at headquarters whether Oswald had been an informant and had been paid, as there was no accounting for the money. The Commission asked Wade whether he left the Bureau under a shadow, and he replied that he did not; that he was asked to stay, but that he wanted to practice law.

Mr. Shanklin was advised that the Commission was desirous of knowing how they could run this down and present a convincing picture to the effect that Oswald was not a Bureau informant, and it was suggested to them that they call Hudkins and put him under oath, regardless of the fact that he might go back and write a story that the FBI was being investigated by the Commission. Shanklin was advised that, in addition, we are preparing appropriate information here at the seat of government relative to the handling of informants and the accountability of funds.

Shanklin was informed that we want him to be very circumspect in his dealings with Wade, inasmuch as, by inference at least, Wade indicated that the Bureau was not in a position to state whether Oswald was or was not an informant. I told Shanklin this, of course, is not true, as we account for all funds paid to informants or for information of any kind, and we have a strict accountability for the designation and handling of informants.

I told Shanklin that he is to hold Wade at arm's length; that he is not to give any advice or counsel and that, while we want to cooperate to the extent it is legally desirable, so that we cannot be charged with lack of cooperation in connection with the Ruby matter, the Dallas office should be very circumspect in its dealings with Wade. I further pointed out to Shanklin that this information does not parallel the information which Wade furnished him (Shanklin) the other night about his appearance before the Commission.

Shanklin stated the Dallas office will follow Bureau instructions closely in this matter.

Mr. Joe H. Tonahill
Tonahill Building
Jasper, Texas

Dear Mr. Tonahill:

I am in receipt of your letter of January 9, 1964, addressed to the Director of the Federal Bureau of Investigation and to the Chief Counsel of the President's Commission to report upon the assassination of President Kennedy. The letter has been referred to me by them for response.

Your letter requests, on behalf of the counsel representing your client, Jack Ruby, in the prosecution instituted by the State of Texas for the killing of Lee Oswald that you be furnished with "the reports, minutes and all evidence" in the possession of the President's Commission. There is excluded from the request, however, material of a recognized confidential character.

At the outset, it should be emphasized that discovery and disclosure of all of the facts surrounding the assassination of President Kennedy are of the greatest importance to the nation. As was stated by a spokesman for the White House on November 29, 1963, in announcing the appointment of the Special Commission,

> The President is instructing the Special Commission to satisfy itself that the truth is known as far as it can be discovered, and to report its findings and conclusions to him, to the American people, and to the world.

The Commission established by Executive Order No. 11130 is, of course, intended to effectuate this purpose. It is directed,

> . . . to examine the evidence developed by the Federal Bureau of Investigation and any additional evidence that may hereafter come to light or be uncovered by federal or state authorities; to make such further investigation as the Commission finds desirable; to evaluate all the facts and circumstances surrounding such assassination, including the killing of the alleged assassin; and to report to me its findings and conclusions.

Obviously, the work of the Commission may be seriously hampered by any premature disclosure of FBI reports or other information turned over to it. It would also be quite unusual, if not altogether unprecedented, for a federal agency which has conducted an investigation into the subject matter of a state prosecution to supply directly to the defendant materials gathered during the course of a federal investigation. Moreover, in such circumstances the federal agency is not under any legal obligation to turn over materials either to the state or the defense. Any information in the hands of the prosecution will be available to you under the provisions of the law of the State of Texas. Consequently, any request for information which the prosecution may have should be directed to the District Attorney.

Due to the special circumstances of this case neither the Department of Justice nor the Commission has any wish to stand upon legal technicalities, and, at the same time we recognize the importance of insuring that Mr. Ruby receives a full and fair defense in his forthcoming trial. Moreover, we believe that subject to the limitations you have recognized in your request it will in fact be possible to make information available in the possession of the Government which may be helpful to the defense without impairing the effectiveness of the Commission's own investigation.

COPY FERREL

The information you request is stated in your letter to be essential to establish the defense of insanity, that your client's offense was at most "murder without malice," and that Mr. Oswald "was a dangerous man of bad character and reputation and a professed Communist." The point is also made that the information is necessary to counteract an impression assertedly created by the press to the effect that your client and not Oswald "is the guilty party that has put 'Dallas on trial'."

We recognize, of course, that as counsel for Mr. Ruby his defense is entirely a matter for your judgment. Since you have deemed that his state of mind at the time is material to his defense, we will be glad to furnish you with such information as we can on that issue. Information concerning Oswald's assassination of the President will not be made available as it does not appear to be relevant. It would seem that the issue in your case is not whether Oswald assassinated the President but whether Ruby thought he did.

In view of the defenses you are asserting, you are no doubt also attempting to familiarize yourself with the background of your client's life and state of mind at the time of the killing. Locating all those persons who are familiar with one or another aspect of his past is a large task. Since the Federal Bureau of Investigation has conducted an extensive investigation among Jack Ruby's prior acquaintances, you may wish access to the fruit of its labors in this respect. Should you feel this might be helpful, we will prepare for you a list of those persons who have been contacted by the Federal Bureau of Investigation during the course of its investigation and who have known or met Jack Ruby some time during the course of his life. Consistent with our other obligations, we could provide you the names and present addresses of these persons--thus enabling you to locate them quickly. We would also be willing to indicate to you the extent of each person's relationship with Ruby, those persons who expressed to us opinions as to Ruby's character or personality, and those persons familiar with particular incidents in Ruby's life which might be of importance in evaluating Ruby's

state of mind at the time of the killing. We would supply you with this information with the understanding that it may be incomplete, that it may contain inaccuracies, and that it often reflects personal opinions.

The Federal Bureau of Investigation has also investigated other related matters which may be relevant to the preparation of your case, as, for example, persons known to the Department who contacted Ruby after the assassination and prior to the killing of Oswald, and persons known to have been present at the Dallas City Jail at the time Oswald was shot. We will also make this information available to you, if you so request.

Sincerely yours,

Herbert J. Miller, Jr.
Assistant Attorney General

Honorable J. Lee Rankin

Dear Mr. Rankin:

This is in response to your letter dated January 15, 1964, requesting this Bureau interview G. P. Wyllie of Cleveland, Tennessee, and his brother, Major John S. Wyllie, regarding assertions made relating to the assassination of President John F. Kennedy.

Enclosed for your assistance are two copies each of two communications incorporating the results of our investigation. One communication is dated January 20, 1964, at Philadelphia, Pennsylvania, relating to the interview of Major Wyllie and the second communication is dated January 24, 1964, at Knoxville, Tennessee, relating to the interview of G. P. Wyllie and related investigation.

This concludes our inquiries into this particular matter.

NOTE:

President's Commission referred to us letter from G. P. Wyllie making some rather nonspecific allegations concerning a possible connection between Jack Ruby and Lee Oswald. He also indicated "gamblers" had something to do with this. While his letter did not contain much logic, we had no alternative but to check this matter out in view of the request of the Commission. Results of investigation by Philadelphia and Knoxville substantiate that allegations are completely unfounded and that the letter writer is probably in need of psychiatric help.

As you will recall the Bureau has had prior unsatisfactory dealings with G. P. Wyllie who made some very insulting and critical statements relating to the Director and the FBI. One of the letters suggested the Director was related to former President Herbert Hoover. In another letter Wyllie made the statement that the Director had been head of the FBI 1½ years longer than the age of the Attorney General. Our current investigation merely establishes that what we knew before concerning the troublemaker continues to be accurate. It might be pointed out that during interview, our Agents noted that Wyllie appeared mentally disturbed and quite concerned. It is possible this may curtail further correspondence from him.

GENERAL INVESTIGATIVE DIVISION

Tonahill, one of Ruby's attorneys, requested complete results of our investigations concerning the assassination of the President and the killing of Oswald by Ruby. The FBI and the President's Commission both deferred to the judgment of the Department.

AAG Miller is now advising Tonahill that upon his specific request he will be furnished only with the names and addresses of persons who furnished background information concerning Ruby including the extent of each persons relationship with Ruby and identifying those who furnished opinions or related incidents of importance in determining Ruby's state of mind. AAG Miller offers to furnish upon request, in addition to above, identity of persons contacting Ruby after assassination but before killing of Oswald and identities of those known to have been present when Oswald was shot.

Memorandum

TO : Mr. Conrad

DATE: 1/28/64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11/22/63
REQUEST BY INVESTIGATING COMMISSION

On 1/27 and 28/64, SA Lyndal L. Shaneyfelt met with attorneys at the Commission investigating the President's assassination, as set out in my memorandum to you on 1/24/64. SA Shaneyfelt participated in a conference that included Inspector Gauthier and three of his aids, two Secret Service men and attorneys for the Commission. A thorough review was made of the 8 mm motion picture films taken of the assassination by a Mr. Zapruder and a Mr. Nix in an effort to establish as accurately as possible the location and time intervals between the assassin's three shots. Laboratory examination of the film and camera of Zapruder had established the average camera film speed at 18.3 frames per second and the elapsed time between the first and third shot at approximately 5 to 6 seconds. This interval could not be accurately established because the first shot occurred while the camera view of the President was blocked for about one second by a road sign. SA Shaneyfelt was able to assist members of the Commission in establishing time intervals between frames of the film by use of the known camera speeds. President's Commission

As a result of this conference, the attorneys for the Commission inquired of SA Shaneyfelt whether or not it would be possible to establish the speed of the car from reference points in the film, as well as distances that the car traveled during these intervals. In addition, they asked whether or not an examination of the Nix camera and film could establish similar distances and car speeds, as well as the location of the Nix camera during the filming which has not been determined. It is not clear just what the accurate determination of the speed of the car will contribute to the case, since it is known that the car was traveling relatively slowly; however, Commission representatives have requested that this be established as accurately as possible. SA Shaneyfelt stated that

this could be done based on an examination of the films and cameras involved, accompanied by a survey of the actual site in Dallas. They requested that the FBI obtain the Nix camera and make the study of the Nix and Zapruder films as set out above.

The Commission's legal staff, Messrs. Joseph Ball, David Belin, Melvin Eisenberg and Norman Redlich visually examined the Zapruder and Nix movies from 10:00 A.M. to 6:30 P.M. on 1/27/64. Present were Secret Service Agent John J. Howlett, who visually fixed the position of the shots in Dallas, and Secret Service Inspector Thomas Kelley. Special Agent Shaneyfelt of the FBI Laboratory was available to answer questions concerning the frame count appearing in the Zapruder film. The results of the first day's examination by the staff is as follows:

1. SHOT ONE

The FBI's and Secret Service's approximations were accepted tentatively as being within several feet of each other behind the road sign moments before the President's head emerged at the right edge of the sign as viewed by Zapruder. Staff members agree that this position appears to be "firm" subject to a minus or plus of 6 feet either direction.

62-109090

NOT RECORDED
193 FEB 7 1964

2. SHOT TWO

Approximately 3/4 seconds separates the FBI's and Secret Service's estimated positions. This represents a difference of about 13 frames. The staff has individual views concerning where Connally was shot. They are not sure where the Governor was hit feeling this may have occurred between frames 56 thru 73. They desire to narrow this approximation down to a minus or plus factor of about 6 feet in either direction. The staff is arranging to obtain a layman's report of the medical account describing the Governor's wounds in order that the turning action of the Governor as viewed in the movie can be used to more nearly fix the position he was in at the time the bullet struck him in the back. Fixing the Governor's position at the time the bullet struck, according to the staff, may make it possible to determine the frame wherein shot two occurred.

One staff member, according to Inspector Kelley, quietly spoke about the "outside" possibility of shot one going through the President with sufficient velocity remaining to penetrate Connally's body, wrist and leg. Inspector Kelley mentioned this to me confidentially. He was of the opinion that this was a personal remark made on the spur of the moment. Shot two under those ridiculous facts would have gone completely "wild" according to Kelley.

3. SHOT THREE

The FBI's and Secret Service's approximations differ between one second (18 frames) and 1.5 seconds (29 frames). Staff members are endeavoring to pinpoint the third shot (frame 89) on the Parkway. The Nix film of the third shot clearly locates Zapruder across the roadway. An approximation which occurs 1.2 seconds before the FBI's approximation is being considered as a tentative location for shot three as re-enacted on the scale model again with a minus or plus factor of 1/3 second (6 feet) either direction.

Attorney Norman Redlich asked Secret Service to determine from Orville Nix the exact position at the time he made the movies especially whether he was moving at the time he photographed the Presidential car. Redlich also inquired of me at the time we adjourned at 6:30 P.M. whether the FBI's Laboratory had determined the true speed of the Nix camera and if not, whether the FBI would obtain the camera and conduct necessary examinations. This information was discussed with Mr. Conrad who will be in touch with Redlich.

The Staff members are using the model extensively in the visual examination of the movies mentioned. The model is considered by them to be as accurate as a visual aide could possibly be constructed to a scale of 1/4" to the foot which is 48 times smaller than actual measurements. The staff realizing the many variables that exist in a model re-enactment is considering eventually having a surveyor plot "on-site" the data now being obtained from scale model re-enactments. This they feel will more nearly approximate the shooting sequence from which the speed of the Presidential car may be fixed insofar as accel eration if any between shots and the range of gun fire.

Staff members are continuing their visual examinations of the movies. The Secret Service has a 16 mm movie "on-site" re-enactment of the shooting sequence which will be re-enacted on the scale model. I will be present to assist in the visual examination of the Zapruder and Nix movies and the further re-enactment of the views of the staff on the model. Exhibit Specialists Hughes, Rose and Arey who assisted in the preparation of the visual aids will be with me. FBI photographer Hudgins will operate the projector.

PRESIDENT'S COMMISSION
ASSASSINATION OF PRESIDENT

On January 29, 1964, individuals connected with the President's Commission, including Melvin Eisenberg, again reviewed the Zapruder film as well as the Nix film. Numerous questions were asked by staff members of the President's Commission. Bureau representatives, including Messrs. Cauthier and Malley, were present during the review of the films.

Mr. Eisenberg, who appears to be the principal member of the staff interested in the exact locations of where the shots were fired, indicated that the staff of the President's Commission were all in agreement concerning the locations that had now been established based on the viewing of the Zapruder film. However, he stated that when comparing the Zapruder film with the film taken by Nix, there were certain objects which could not be reconciled, particularly at the point where it was believed the third shot was fired. Mr. Eisenberg pointed out that it was not a matter of questioning the measurements taken by either the Bureau or the Secret Service of the models that had been made, but rather to try and resolve the exact circumstances under which the Nix film was taken so that there would be no possibility of allegations being made at a later date that the facts concerning the shooting were different than the President's Commission arrives at as being the correct situation.

At the present time the Dallas Office is obtaining the Nix camera for complete examination by the Bureau Laboratory so that shutter speed and other necessary items can be completely taken into consideration. After this is done Mr. Eisenberg desired that the Laboratory technician who makes this examination discuss the matter with him in order that a determination can be made as to whether any additional work will be necessary. At the present time Mr. Eisenberg is of the opinion that it will be necessary to make further examinations on site in Dallas in an attempt to determine the exact location from which Nix took his pictures.

Mr. Eisenberg indicated that if it becomes necessary to conduct further on-site inspections in Dallas, he would appreciate it if Secret Service Agent John J. Howlett and the Bureau representative would handle this matter together inasmuch as both agencies have been most helpful in their discussions with the Commission and both are thoroughly familiar with the item now to be resolved - namely, the ascertaining of the spot on which Nix took his film.

Mr. Eisenberg commented that the models prepared by the Bureau had been extremely helpful and that without them it would have been impossible for the Commission to have made any conclusions of any kind concerning the locations where the shots were fired.

ACTION:

As soon as the laboratory examination of the Nix camera is completed, Mr. Eisenberg will be contacted to determine what further assistance is required on the part of the Bureau.

TO : MR. CONRAD

DATE: 1-29-64

FROM : B. J. WHITE

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

At 10:15 AM, 1-29-64, Mr. Howard P. Willens, Criminal Division, of the Department called in regard to the possibility of two members of the President's Commission and a representative from the Department looking at the evidence presently being held in the Laboratory in this case. He stated that the reason for this request was that they would like to pick out a few items of the evidence which might be pertinent to an interview of Mrs. Oswald which the Commission intends to hold on February 3, 1964. He stated that he did not desire to take the material immediately to the Commission but would probably like to have some of the items prior to the interview.

I told him that we would be glad to show the evidence at any time to members of the Commission and he indicated that 3:00 PM, this date, would be satisfactory.

Mr. Willens advised that a Mr. Charles N. Shaffer of the Criminal Division of the Department will be with the two members of the Commission, Professor Norman Redlich and Mr. Melvin A. Eisenberg. It was suggested that they come to the office of Assistant Director Conrad.

Memorandum

TO : Mr. Evans

DATE: 1-28-64

FROM : W. V. Cleveland

SUBJECT: ALBERT E. JENNER, JR.
PRESIDENT'S COMMISSION ON THE
ASSASSINATION OF PRESIDENT KENNEDY

The purpose of this memorandum is to advise that Standard Form 86 (Security Investigation Data for Sensitive Position) has been received from the Civil Service Commission (CSC) for processing under Executive Order 10450 (Federal Employee Security Program) on Jenner. Pertinent subversive derogatory information in Bureau files is being furnished to CSC with advice that no investigation is being conducted.

Jenner has been listed in the press as a senior staff member of the President's Commission. He is described as 56 years of age, a Chicago attorney and former President of the American Judicature Society. Our files disclose one Albert E. Jenner, Jr., Chicago, was a member of the National Lawyers Guild (NLG) in 1940. NLG has been cited by the House Committee on Un-American Activities (HCUA). (77-63552)

In addition, Jenner appears identical with a person of similar name who in 1951 prepared a statement read before a Committee of the Whole, Illinois State Senate, convened to consider a bill which provided that persons affiliated with organizations advocating the overthrow of the Government be barred from public office and teaching positions. Jenner was opposed to the adoption of the bill because he felt it was unconstitutional and the fact there was no guide provided for determining whether or not an organization is subversive.

OBSERVATION:

This is one of the first forms received from CSC on members of the President's Commission on the Assassination of President Kennedy. Normally, a preliminary inquiry would be instituted under the Federal Employee Security

Program. In view of Jenner's position as a senior staff member with the Commission, it is felt pertinent information in Bureau files should be furnished to CSC with advice that no investigation is being instituted. CSC will in turn furnish the information to General Services Administration (GSA) who originally sent the form to CSC, since GSA is acting as the "housekeeping" unit for the President's Commission.

ACTION:

Standard Form 86 will be returned to CSC with a summary of information in Bureau files regarding Jenner. They will be advised that no investigation is being instituted by the Bureau regarding Jenner.

Dear Mr. Rankin:

On February 4, 1964, Mr. Howard Willens telephonically requested that color photographs be made available to the President's Commission of the items of clothing worn by Lee Harvey Oswald at the time he was shot in the garage of the Dallas Police Department by Jack Ruby.

There are enclosed two sets of photographs of the clothing that was being worn by Oswald. These sets of clothing are described as follows:

1. One pair of black shoes
2. One pair of black trousers
3. One gray flannel shirt
4. One T-shirt
5. One black sweater
6. One pair of black socks

Items 3, 4 and 5 have been cut, this being done by the individuals who were apparently attempting to remove the clothing in an effort to treat Oswald's wounds.

In addition to the clothing there was found in the right-hand pocket of the trousers a small slip of white paper bearing four telephone numbers, two of the numbers being written on each side of the paper. Two sets of photographs showing each side of the paper are also enclosed for your assistance. These telephone numbers have been checked and full details concerning these numbers were furnished to the President's Commission in my letters dated February 3 and 4, 1964.

The above photographs are being made available in accordance with Mr. Willens' request.

Civil Service Commission number (2) 23.64.2719

In connection with the submission of the Standard Form 86 regarding the captioned person for processing under the provisions of Executive Order 10450, be advised that no investigation has been conducted by this Bureau regarding Mr. Jenner.

Files of this Bureau reveal that in March, 1951, the Illinois Senate, sitting as a Committee of the Whole, convened to conduct a hearing on Senate Bill 102. This Bill provided that persons affiliated with organizations advocating the overthrow of the Government be barred from public office and from teaching positions. During this hearing it has been reported a statement prepared by one Albert E. Jenner, attorney, Chicago, Illinois, was read to the Senate. This statement set forth that the views expressed were the personal views of Jenner and not of any organization. The statement continued that the proposed legislation would actually defeat the purposes of its sponsors and that it would create the machinery for persecution of good citizens. According to the statement, Jenner believed the Bill was unconstitutional and the then present laws to be sufficient. Jenner reportedly objected to the fact there was no guide provided for determining whether or not an organization is subversive.

An informant who has furnished reliable information in the past advised that one Albert E. Jenner, Jr., 11 South La Salle Street, Chicago, was in 1940 a member of the National Lawyers Guild. The National Lawyers Guild was cited as a Communist front by the Special Committee on Un-American Activities, United States House of Representatives, in its report of March 29, 1944.

The foregoing is furnished in response to your request for a check of Federal Bureau of Investigation files. It is furnished for your information and does not represent a clearance or disapproval of Mr. Jenner by the Federal Bureau of Investigation for Federal employment. No action is contemplated by this Bureau under the provisions of Executive Order 10450 in the absence of a request from the employing agency.

NOTE: SF 86 received from CSC on Jenner indicating interested agency is GSA. News reports identify Jenner as staff member of Warren Commission. Memorandum mentioned above also indicates this. GSA appears to be acting in capacity of "housekeeping agency" for the Commission.

SUBJECT: PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT KENNEDY

Pursuant to our Liaison Agent's request, we are in receipt of a communication from the Central Intelligence Agency (CIA) with respect to the means by which information, which has been or may be acquired by CIA, should be made known to the Presidential Commission.

In this communication, which is attached, CIA reviewed in general terms their investigative interest in the assassination investigation. CIA advised that they would arrange directly with the Commission for the protection of information developed by them and they anticipated that certain of their personnel would appear before the Commission. CIA requested:

1. That the Bureau not disseminate information received from CIA without prior concurrence of that Agency.

2. In those instances in which CIA provided information which we considered pertinent to the Commission's interests and/or complementary to information developed or received by the Bureau, we should refer the Commission to CIA. In such cases CIA asked to be advised of such referrals in order that they could initiate action preparatory to meeting a request which could be anticipated directly from the Commission.

3. CIA requested that in any instance in which the above procedure does not meet the needs of the Bureau that we inform them through our liaison in order that the matter can be resolved.

Dear Mr. Rankin:

This refers to a treatise by Dr. Jose I. Lasaga entitled "Possible Psychological Motivations in the Assassination of President Kennedy," a copy of which has been furnished to the Commission by the Department of Justice.

In his treatise Dr. Lasaga stated that through very reliable sources it had been ascertained that Lee Harvey Oswald held an extended interview with the Cuban Ambassador in Mexico, whom he met in a restaurant on the outskirts of the city, from where they both later departed in the Ambassador's automobile for a private conversation. We have been informed that Dr. Lasaga, in presenting his paper to a member of the White House Staff, said he received the aforementioned allegation from Angel Fernandez Varela, an employee of The Voice of Cuba in Miami, who in turn received it from Salvador Diaz Verson, who was in Mexico City after the assassination doing investigative work on behalf of an unnamed principal.

Dear Mr. Rankin:

At the request of representatives of the Commission, the Laboratory has reviewed the cameras recovered that are reported to be Lee Harvey Oswald's, as well as an Ansco flash attachment and an empty leather case. Representatives of the Commission asked whether or not the empty leather case could be used on either of the cameras and whether or not the Ansco flash attachment could fit either camera.

These items were reviewed and the empty leather case was found to be a case for a small pair of binoculars and could not have been used for either of Oswald's cameras. It is noted that both of the cameras are presently in cases. The flash attachment was found to contain a camera connection that is different from that used on Oswald's cameras and, therefore, it could not be used without some intermediate adapter. A Minox camera, which has just been received from Dallas and is reported to be the property of Mrs. Ruth Paine's husband, was also checked and found to have no flash connector for use with a flash adapter.

The above information was telephonically conveyed to Mr. Howard P. Willens.

FROM : A. Rosen

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

While at the office of the President's Commission today, Inspector Tom Kelly of the Secret Service advised that Mrs. Marguerite Oswald, mother of Lee Harvey Oswald, had spent the greater part of February 10, 1964, ridiculing the activities of the Secret Service in Dallas during her appearance before the Commission. Kelly stated that to the best of his knowledge, the FBI was not mentioned by Mrs. Marguerite Oswald during her appearance on February 10.

Inspector Kelly stated that Mrs. Marina Oswald, who is now on her own insofar as the Secret Service is concerned, had returned to Dallas, Texas, having departed Washington Friday evening, Feb. 7, 1964, one day after she completed her testimony before the President's Commission.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your conversation with Inspector James R. Malley of this Bureau on February 7, 1964, regarding Lonnie Hudkins, the Houston "Post" reporter who wrote an article in the January 1, 1964, issue of the Houston "Post" entitled "Oswald Rumored as Informant for U.S."

For your information, Mr. Alonzo F. Hudkins, III, also known as Lonnie Hudkins, was interviewed by Agents of this Bureau on February 8, 1964, in this matter. Mr. Hudkins stated he arrived in Dallas, Texas, in late December, 1963, to check out rumors that Oswald might have been an informant of the FBI. He stated such rumors were based on information he had received from Assistant District Attorney William Alexander to the effect that Oswald's address book contained the name of Agent Hosty, his office and home telephone numbers and his automobile license number. Mr. Hudkins also stated he had interviewed Mrs. Marguerite Oswald, mother of Lee Harvey Oswald, who said that Oswald was doing important subversive work for the Government.

Mr. Hudkins further stated he had contacted a Government official, not a Federal official in Dallas, who had told him that Oswald was on the payroll of either the FBI or the Central Intelligence Agency (CIA) with voucher number 179 and that he had received no less than $150 a month and no more than $225 a month. Mr. Hudkins claimed that the official who furnished him this information had furnished him reliable information in the past which he had been able to print. Mr. Hudkins stated he did not print anything stating Oswald was

an informant of the FBI or CIA but merely raised this question in his article in the Houston "Post" of January 1, 1964, since he had only this official's word and did not have any supporting documents of any kind to substantiate this allegation. He further stated he had made inquiries of some of his friends in Houston, Texas, whose names he would not divulge and had also requested his Washington, D. C., headquarters to attempt to check out this allegation. According to Mr. Hudkins this allegation could not be verified through any of his sources and, therefore, was not printed in the Houston "Post."

Mr. Hudkins was questioned at length in an attempt to ascertain his source that Oswald was an FBI or CIA informant, but Mr. Hudkins refused to divulge his source or to furnish a signed statement. He stated that when he received this information from his source he was alone and no other reporters were present.

According to Mr. Hudkins, the only other information he had heard that Oswald might be a symbol number informant was from Joe Golden, a reporter of the "Philadelphia Inquirer," who was in Dallas in late December, 1963. According to Hudkins, Mr. Golden mentioned to him a number different from 179, that might have been a voucher number. Mr. Hudkins stated he could not recall the number.

At the conclusion of our interview with Mr. Hudkins he stated that even if he were called to appear before the President's Commission, he would decline to furnish the source of his information.

In connection with Mr. Hudkins' reference to Joe Golden, please be advised that we have interviewed Mr. Joseph Goulden, a reporter for the "Philadelphia Inquirer," in connection with an article Mr. Goulden reported in the December 8, 1963, issue of the "Philadelphia Inquirer," wherein he alleged that Lee Harvey Oswald at one time had been contacted by the FBI to become an informant. He said he had obtained this information from a law enforcement officer in Dallas whom he declined to identify. We reinterviewed Joseph Goulden on December 16, 1963, in an attempt to pin down the source of his allegation, but Mr. Goulden declined to identify the law enforcement officer after allegedly having talked to him on the telephone. He did say, however, that the officer told him that the matter was being "handled through proper channels."

Honorable J. Lee Rankin

For your added information, we have contacted the Dallas Police Department, Dallas, Texas, to determine if an allegation had been made a matter of record to the effect that Lee Harvey Oswald at one time had been contacted by the FBI to become an informant. No such record was found in the files of the Dallas Police Department, Dallas, Texas.

The foregoing is furnished for your information in this matter.

Sincerely yours,

J. Edgar Hoover

SUBJECT: LEE HARVEY OSWALD, AKA

By letter dated 2/4/64, J. Lee Rankin, General Counsel, President's Commission on the Assassination of President Kennedy, referred two letters in a foreign language which were previously received by the Commission and requested translations thereof.

One letter in English, with interspersed German, contains enclosures in German. This letter is written by Joseph Greil-Creil, 8520 Erlangen, West Germany, is addressed to Mr. Earl Warren, and lacks coherency. Enclosed to this letter is a newspaper clipping entitled "Work Begins," which alludes to the Commission, the identity of its members, its task, and its responsibility. Another enclosure to this letter is a leaflet in German which also lacks coherency; and makes reference to the settlement of debts to the German Government. The remaining enclosure to this letter is a "Return Receipt."

The second letter was determined to be written in the Norwegian language, by A. Gulbrandsen, Frognervn. 49, Oslo, Norway, sent from Hamburg on 1/25/64 addressed to Earl Warren. The writer alleges that the cause for the assassination of President Kennedy might be within the "religious sphere" and further comments on the gold standard, world religio and "Ruby" and his religious affiliation.

Hamburg, January 25, 1964

Dear Mr. Chief Justice Earl Warren:

I am taking the liberty of writing to you in Norwegian, because I assume that you or a member of your family knows this language.

I have noticed in the press that you have been appointed chairman of the commission investigating Kennedy's assassination. Personally, I suspect that the cause of this assassination lies within the religious sphere. The observed religions mentioned in the "Great World Religions" (1938) by Bishop Berggrav, Norway, have, in my opinion, gold as their fatherland. If President Kennedy was about to raise the gold standard, there was, of course, a danger for this world religion and, therefore, perhaps for his life. I do not know, but it could be a theory for the possible solution. Therefore, also in any court Ruby must be kept away from attorneys and jurors who belong to this religion. I am also astonished that silver shall be stopped at its price value by the U. S. A., in spite of the lack of this commodity, but that gold shall be maintained at any price. Furthermore, it is ridiculous to set bail for actual murder.

Furthermore, I wish to express my sympathy to the U. S. A. and the rest of the world on the loss of your President.

Respectfully,

Work Begins

Chief Justice Earl Warren prepared during the weekend the work of the Special Commission consisting of seven members which, upon the instructions of President Johnson, shall investigate the assassination of John F. Kennedy and the motives for the crime. In Dallas, where Kennedy was shot to death, the course of the assassination has been reconstructed for the second time.

Earl Warren, the President of the highest American court, himself, is the chairman of the Special Commission appointed by Lyndon Johnson, to which also the former chief of the Secret Service (sic), Allen Dulles, the former disarmament deputy and High Commissioner in Germany, John Mc Cloy, and two Democratic as well as Republican members of Congress belong. According to the White House, it is the task of this body to investigate all "facts and circumstances in connection with the assassination of the former President John F. Kennedy and the subsequent violent death of the man accused of the assassination and to report about the same." The commission has been asked to present the results of the investigation "to the President, to the American people, and to the world."

Dear Mr. Hoover:

Thank you for your letter of February 3, 1964, regarding our request for the items of clothing worn by Lee Harvey Oswald at the time he was arrested in Dallas by the Dallas Police Department. As you know, we completed our interrogation of Marina Oswald Thursday, February 6, 1964, and presented certain of these items of clothing to her for identification. At all times these items were retained in the custody of Special Agent Vincent Drain, as arranged with the Texas authorities.

I appreciate your making these arrangements, which were of great assistance to the Commission.

Sincerely,

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11/22/63
REQUEST BY INVESTIGATING COMMISSION

At the request of representatives of the Commission investigating the President's assassination, the Laboratory has reviewed the cameras recovered in this case that are reportedly Oswald's, also an Ansco flash attachment and an empty leather case. Based on the list of evidence furnished to the Commission, they have asked whether or not the empty case could be a camera case for one of the cameras recovered or an unknown camera, and whether or not the Ansco flash attachment could be used with the two cameras recovered.

These items were reviewed and the empty leather case was found to be a case for a small pair of binoculars and could not have been used for either of Oswald's cameras. It is noted that both of the cameras are presently in cases. The flash attachment was found to contain a camera connection that is different from that used on Oswald's cameras and, therefore, it could not be used without some intermediate adapter. The Minox camera, which has just been received from Dallas and is reported to be the property of Mrs. Ruth Paine's husband, was also checked and found to have no connection for use with a flash adapter. This adapter given to Dallas Police by Mrs. Paine. Dallas Office instructed to find out who owns it.

The above information has been telephonically furnished to Mr. Howard P. Willens at the Commission.

RECOMMENDATION:

Attached for approval is a letter to the Commission confirming telephonic information.

Dear Mr. Rankin:

Reference is made to your letter of February 1, 1964, wherein you requested to be advised what further items are currently in possession of the Dallas Police Department which are relevant to this investigation.

Enclosed herewith are copies of two letters, each with envelopes, which were made available to this Bureau by Captain Will Fritz of the Dallas Police Department, Dallas, Texas, February 4, 1964. Captain Fritz informed us that these letters were obtained by the Dallas Police Department during its search of the residence of Lee Harvey Oswald at 1026 North Beckley Street, Dallas, Texas, and its search of the residence of Michael and Ruth Paine in Irving, Texas.

For your additional information, Captain Fritz informed this Bureau that there is no additional evidence concerning Lee Harvey Oswald being retained by the Dallas Police Department, Dallas, Texas.

Dear Mr. Hoover:

Thank you for your letter of February 6, inclosing your affidavit of that date.

I would like to take this occasion to clarify several points in connection with the matter covered by your letter. District Attorney Wade did not testify before the Commission. He and other Texas officials held discussions with members of the Commission in Washington. In the course of these discussions, Mr. Wade mentioned having heard the rumor that Oswald had been an informant of the Federal Bureau of Investigation. Mr. Wade did not suggest that he gave credence to this rumor, but felt obliged to report it to the Commission.

Your affidavit refers to affidavits that were obtained from all FBI Special Agents who were in contact with Oswald, as well as affidavits from the Special Agents in charge of their respective field offices. I should like to confirm my verbal request to Mr. Malley that these affidavits be made available to the Commission.

After the Commission has reviewed these additional affidavits, I will undoubtedly be writing to you again to request information supplemental to your affidavit and the affidavits of the agents, to make certain, by any standard, that the historical record on this matter will be complete and unassailable.

Dear Mr. Rankin:

The news media today indicate that Mrs. Marina Oswald has disclosed new evidence with reference to the matter of the assassination of the President.

As you are aware from the extensive reports that have been submitted to the President's Commission, Mrs. Marina Oswald has been interviewed on many occasions and has been questioned in great detail concerning her knowledge of Lee Harvey Oswald's activities.

Inasmuch as Mrs. Oswald is not being questioned by the President's Commission under oath, this Bureau would be very much interested in any information disclosed by Mrs. Oswald which would indicate a variance with information she previously furnished to Bureau representatives during their interviews with her. In the event Mrs. Oswald discloses any information that has not been previously covered during interviews with her that would warrant further investigation, I would appreciate being advised in order that any necessary investigation can be immediately undertaken.

Sincerely yours,

Dear Mr. Rankin:

At the request of members of your staff the FBI Laboratory has made a further study of the film speed of the camera used by Mr. Abraham Zapruder in filming the eight millimeter motion picture of the President's assassination. You have previously been furnished the results of the Laboratory examination of this camera which places the film speed at 18 1/3 frames per second. The Laboratory was requested to establish, if possible, the variation between the film speed of the camera when the drive spring is fully wound and when the spring is almost run down.

This study has been made by checking the film speed of the Zapruder camera at ten second intervals throughout the full running time of a fully wound camera. Several checks were made on a full roll of film and it was found that the film speed of the camera when fully wound runs at an average speed of from 18.0 to 18.1 frames per second (fps) for the first ten seconds. It gradually increases to 18.3 to 18.5 fps for the next twenty seconds, then gradually decreases slightly to 18.1 fps for ten seconds before the final twenty seconds of that run at an average speed of 17.6 to 17.9 frames per second. Mr. Zapruder has stated that the camera was fully wound when he started filming the President's motorcade. Since all of Mr. Zapruder's assassination film was exposed well within the first half of time the camera will run on one winding, the run-down film speed should not be considered in the calculations. Therefore, the above figures result in our previous average of 18.3 frames per second.

Sincerely yours,

J. Edgar Hoover

DALLAS, TEXAS

SAC Gordon Shanklin, Dallas, called at 7:00 p.m., and requested a description of the slip of paper which the Laboratory had found in the personal clothing of Lee Harvey Oswald. SAC Shanklin indicated he had talked with Mr. Malley concerning this.

Shanklin was told that the writer had not seen the slip nor did he have a description of it other than a write-up of the numbers contained thereon. Shanklin indicated that it was not urgent and that he would proceed without requested description. He said that a jailer had made a statement concerning ripping a piece of paper from a telephone pad and Shanklin was trying to resolve whether this might have been the slip of paper in question.

The "National Guardian," ~~an unreliable national publication often~~ ENQUIRER referred to as a "scandal sheet," contains an article in its 12/29/63 issue reporting that Navy Intelligence reported that Lee Oswald was planning his get away route after the assassination of President Kennedy when Oswald made his visits to Mexico. Further, that Navy Intelligence had uncovered information that Oswald planned to escape to Cuba via Mexico after he assassinated President Kennedy. This article further reported that it was believed Oswald panicked when the city bus he was riding was held up in traffic on its way to the out-of-town bus station. Instead of continuing to the Dallas bus station where he could catch a bus to Mexico, he jumped out and tried to hide in a theatre. ENQUIRER

Dear Mr. Rankin:

Reference is made to your letter of February 1, 1964, wherein you requested items of clothing worn by Lee Harvey Oswald at the time he was arrested in Dallas by the Dallas Police Department.

Appropriate arrangements were made with District Attorney Henry Wade and the Dallas Police Department to obtain the items of clothing desired. In order to obtain these items of clothing it was necessary to provide the Dallas authorities that these items of clothing would be returned to Dallas by the end of this week in order that they would be available for a hearing on the Jack Ruby case to be held on February 10, 1964. In addition, it was necessary to sign a receipt showing that these items of clothing would be retained in the custody of Special Agent Vincent Drain until returned to the Dallas, Texas, authorities.

This was discussed with you telephonically on February 1, 1964, and you agreed that these items would be made available in sufficient time to return them to the Texas authorities or, if for some reason this could not be done, you would work out the necessary arrangements with the Texas authorities.

Prior to showing the items of clothing to Messrs. Melvin Eisenberg and Norman Redlich of your staff on February 2, the clothing was examined to see if any extraneous material was located in the pockets. A small slip of paper bearing four telephone numbers was located, which are as follows: CR 9-9450, RI 8-9711, AC 2-4611, and CO 7-3110. Appropriate inquiry by our New York and Dallas offices has resulted in these numbers being identified as follows:

RI 8-9711 is the general telephone number for the City of Dallas, Texas.

OR 9-9450 is the telephone number for "The Worker," 23 West 26th Street, New York City. (This is the East Coast Communist newspaper.)

CO 7-3110 is the telephone number for the law firm of David Freedman and Abraham Unger, 320 Broadway, New York City. (The firm of Freedman and Unger has represented the Communist Party and various members on numerous occasions for a number of years.)

AC 2-4011 is listed to John J. Abt, 444 Central Park West, New York City, and Jessica Smith, the wife of Abt who uses her maiden name as a practicing attorney. (Both Abt and Smith have represented members of the Communist Party for a number of years.)

I would appreciate your advising when these articles of clothing have served their purpose in order that they may be returned to the Dallas authorities.

As you know, the Commission is planning to take the testimony of Marina Oswald beginning Monday morning, February 3, at ten o'clock.

It would greatly assist the Commission in this endeavor if, through the facilities of the FBI, the following items of physical evidence could be obtained from the Dallas Police Department:

1. The trousers worn by Lee Harvey Oswald at the time he was arrested;

2. The shoes worn by Lee Harvey Oswald at the time he was arrested.

In addition, we would like to be advised as to what further items are currently in the possession of the Dallas Police Department which are relevant to this investigation.

Any effort you can make to expedite this request would be appreciated.

The purpose of this memorandum is to record a request made to Mr. Melvin Eisenberg of the President's Commission with respect to items of clothing worn by Oswald at the time of his arrest.

On 2-1-64 Mr. Melvin Eisenberg, in answer to his previous request, was telephonically advised that the trousers and shoes worn by Oswald at the time of his arrest were held by the Dallas Police Department Laboratory in connection with the State of Texas' investigation of Jack Ruby. At that time, Mr. Eisenberg requested the Bureau to obtain these items from the Dallas Police Department.

After consulting with Mr. Belmont, I called Mr. Eisenberg and pointed out that in view of the fact that these items were being held in connection with the Texas prosecution of Ruby, there was a question as to the chain of evidence and we were, therefore, reluctant to make this request of the Dallas Police Department in the absence of a letter from the Commission making this request. Mr. Eisenberg advised that he would see that a letter was sent to the Bureau. This letter was received on the afternoon of 2-1-64 and the matter has since been handled.

SUBJECT: LES WHITTEN
NEW YORK JOURNAL AMERICAN

At 11:55 a.m., 2/3/64, above-captioned individual telephoned and asked for any background we might give him why Marina Oswald, wife of President Kennedy's assassin, had been called to testify that day before the Warren Commission.

Wick told Whitten we could not help him, whereupon Whitten stated he had read all the material attributed to the Dallas police, to District Attorney Wade, and to sources he has in the Department, as well as some of the television interviews Marina Oswald has had with CBS recently, and from these he thinks he can write a plausible story. Wick told him we could not be of help.

Dear Mr. Rankin:

At the request of members of your staff, the FBI Laboratory has made a study of the film speed of the camera used by Mr. Orville O. Nix in filming an eight millimeter motion picture of the President's assassination.

The Nix camera was found to have an average normal running speed of 18.5 frames per second (fps). This examination was made by checking the film speed at ten second intervals throughout the full running time of a fully wound camera. Several checks were made on a full roll of film and it was found that the film speed of the camera when fully wound runs at an average speed of 18.4 fps for the first ten seconds. It gradually increases to an average of 18.6 fps for the next ten seconds before gradually decreasing to an 18.425 fps average for the next ten seconds. The final five seconds run at an average speed of 15.75 fps. This results in an over-all average of 17.875 fps; however, the normal average running film speed, exclusive of the last five seconds, is 18.5 fps. Since the pertinent portions of Mr. Nix's assassination film were exposed prior to the last five seconds of running time, the 18.5 fps average film speed is the most realistic figure to use in relation to the assassination portion of his film.

Sincerely yours,

J. Edgar Hoover

TO : Mr. Belmont

DATE: 2/4/64

FROM : A. Rosen

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
11/22/63
DALLAS, TEXAS

The President's Commission by letter 1/31/64 requested FBI investigation of allegations made by Dana Pronieirez, Winnipeg, Manitoba, Canada, concerning the assassination of President Kennedy. The field has been furnished full details and instructed to handle the Commission's request without delay.

DETAILS:

By letter dated 1/31/64 Mr. J. Lee Rankin, General Counsel, President's Commission, furnished us a copy of a letter dated 12/15/63 from Dana Pronieirez of Winnipeg, Manitoba, Canada. Pronieirez's letter originally was directed to the Attorney General and was referred to the Commission by the Department. Pronieirez in his letter states President Kennedy was not "killed by one man" and that there is "money" behind the assassination. Pronieirez states he wishes his identity protected, that he feels his life may be in jeopardy, possibly because of the information he feels he possesses and that he is very eager to help us.

Mr. Rankin requested an appropriate investigation be conducted to enable the President's Commission to evaluate this situation. No record identifiable with Pronieirez in Bureau files.

OBSERVATIONS:

It is not possible to assess the reliability of this information as there appears to be some sincerity in Pronieirez's letter. However, it is still possible this information could be another "crank-type" communication. In view of the Commission's request, it appears we have no alternative but to run this matter out.

Dear Mr. Rankin:

This is in response to your letter dated January 15, 1964, requesting this Bureau interview the Reverend William H. Dickinson, Jr., concerning an alleged statement reportedly made in his presence prior to the assassination of President John F. Kennedy.

Enclosed for your assistance are two copies of a communication prepared by our Dallas Office dated February 2, 1964, incorporating the interview of Reverend Dickinson as well as the results of our investigation. Since a copy of your original request was furnished to the Honorable James J. Rowley, Chief, United States Secret Service, I have also sent a copy of the enclosed communication to him.

NOTE:

This matter previously on Director's "Special List" and has been receiving close attention at the Bureau. Marshall W. Malone, San Diego, California, directed a letter to the President's Commission dated 12-10-63 in which he quoted part of an article appearing in the western edition of the "New York Times," datelined Dallas, Texas, 11-25-63. In the article the writer quotes the Reverend H. Dickerson, Jr., as having stated "a bright young" couple had made a statement two days prior to President Kennedy's visit to Dallas that "they hated the President of the United States and that they would not care one bit if someone did take a pot shot at him." Mr. Rankin requested interview of the Reverend Dickinson for the purpose of identifying the couple responsible for this statement and thereafter conduct appropriate investigation.

Dallas by airtel 2-1-64 enclosed an eight-page letterhead memorandum incorporating the results of investigation in this matter. It would appear the statement referred to above was taken out of context when made by Mr. Frank Caldwell during a dinner in Dallas on 8-9-63. Only two other couples were present at this time, during which a discussion relating to racial matters was gone into.

The wife of another member of the dinner party has acknowledged she probably perpetuated this rumor by repeating it shortly after the President's assassination, which in turn was picked up by still another party and hence used by the Reverend Dickinson in a sermon without further documentation. All parties involved have acknowledged regret over this unfortunate statement. It does not appear the statement as quoted in the newspaper was ever actually said.

It is interesting to note that one of the individuals interviewed knew Jack Ruby in 1956 in connection with the individual's business as a tax consultant. There appears to be no further connection between this individual and Jack Ruby.

THE PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

With reference to the Director's comments concerning the telephone numbers which were written on a slip of paper found in Oswald's trousers, there is set forth information which explains the manner in which this slip of paper came into Oswald's possession.

The Dallas Office has advised that Oswald, when arrested by the Dallas Police Department on November 22, 1963, was brought to police headquarters and was thoroughly searched, including all of his pockets, and everything, including all papers, was removed from his clothing. The only article of clothing worn by Oswald which was removed from his person following his arrest was the sport shirt that he was wearing. Subsequent to his arrest another shirt, as well as a sweater, had been brought to the police department for Oswald to make use of. He continued to wear the pants which he had on when arrested and he was wearing the same pants at the time he was shot by Jack Ruby. The Dallas Police Department retained possession of all articles of clothing worn by Oswald at the time he was shot by Ruby as evidence and, consequently, the Dallas Office did not examine this clothing following the killing of Oswald.

Concerning the telephone numbers, the Dallas Office advised that on Friday evening, November 22, 1963, Oswald requested permission to call Attorney John Abt in New York City but did not have his telephone number. Captain J. W. Fritz, Homicide and Robbery Bureau, Dallas Police Department, told Oswald he could call collect and that he would have to give the operatory the name of the person he wanted without the number and it being an attorney in New York, the operator would locate Abt and furnish the telephone number to him.

Re: Lee Harvey Oswald

Captain Fritz also told Oswald that the operator would want to know the number he was calling from. In this connection the telephone number RI 8-9711 appears on the dial of the telephone in the jail and this was one of the four numbers on the piece of paper found in Oswald's pants pocket.

Captain Fritz advised that when Oswald was permitted to use the telephone, one of the jail officers, Jim Poppelwell, took Oswald from his cell to the phone and Oswald tried to call his attorney collect. He obtained the telephone number from the operator and Oswald then commented he could not recall the number and asked Poppelwell to get him paper and pencil in order to write the number down. Fritz stated that the calling of an attorney and the furnishing the prisoner with pencil and paper to write were all within the regulations of the city jail.

Officer Poppelwell advised that he tore off a small piece of paper from the corner of what is called a Telephone Contact Slip and that after receiving permission from his superior officer, he furnished the piece of paper and pencil to Oswald so that Oswald could write down the telephone number. Poppelwell advised that Oswald again attempted to call Abt and was unable to get the call through. He states he later took Oswald to the phone again and Oswald made two or three attempts to call. He states he did not know if the calls were completed or the identity of the person Oswald was trying to call. The police department kept no records of the numbers Oswald tried to call. Captain Fritz advised that the following morning, November 23, he talked with Oswald and inquired if Oswald had made his call. Oswald told Captain Fritz he had been allowed to make the call but had been unable to contact Attorney Abt. With reference to the piece of paper furnished by Officer Poppelwell to Oswald, it is noted this paper was two and one-fourth inches long by one and a quarter inches wide and that two telephone numbers were written down on each side. An effort has been made by the Laboratory to determine if these numbers were written in Oswald's handwriting. Because of the limited amount of questioned writing it was not possible to make a determination as to the identity of the writing.

With reference to the three New York telephone numbers, it is to be noted that CO 7-3110 is the number for the law firm of David Freedman and Abraham Unger, 320 Broadway, New York City. John J. Abt, the attorney, is listed in the New York telephone directory at this address and the same telephone number, namely, CO 7-3110, is listed as the number for his law office.

Memo to Belmont from Rosen
Re: Lee Harvey Oswald

AC 2-4611 is the number listed to John Abt at his home address, 444 Central Park West, New York City.

ON 9-8450 is the telephone number for "The Worker" and is not readily explainable for being written down on this piece of paper; however, based on the fact that Oswald was trying to reach Attorney Abt through the telephone operator, it would appear the operator, either at the request of Oswald or based on the fact that he is known as representing individuals associated with the Communist Party, may have tried to reach Abt at the telephone number of "The Worker."

ACTION:

There is attached a letter to Mr. Rankin setting forth the additional information concerning the telephone numbers located in the trousers worn by Oswald at the time he was killed by Jack Ruby.

Dear Mr. Rankin:

Dr. Walter Bromberg has been widely reported in the newspapers as a New York psychiatrist upon whose testimony Jack Ruby's defense lawyers have relied heavily in connection with the hearings in the Ruby case at Dallas, Texas.

I am enclosing herewith a letterhead memorandum setting forth certain information from the files of this Bureau pertaining to Dr. Bromberg which may be of interest to you.

Sincerely yours,

J. Edgar Hoover

General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter of January 31, 1964, in which you advised that the Commission had information that a Roland Spigale, an employee of the Southern Bell Telephone Company at New Orleans prior to December 3, 1963, had informed Shirley Lamprecht, his fiancee, that he had learned the telephone records of his company showed Jack Ruby and Lee Harvey Oswald living at one time in the same apartment house in New Orleans.

For your information, this Bureau has determined that Roland Spigale is apparently Roland Spedale, 903 Dante Street, New Orleans, an employee in the Customers Accounting Department of the New Orleans Public Service Company, Incorporated. Spedale, according to Shirley Lamprecht, 1040 Farragut Street, New Orleans, told her soon after the assassination of President Kennedy that the FBI had checked the records for gas and electric service for Oswald's apartment in New Orleans with the New Orleans Public Service Company, Incorporated. Lamprecht stated that Spedale had not mentioned Jack Ruby. She and Spedale were later at a party in the home of Mrs. Vincent T. Lococo, 3713 Dumaine Street, New Orleans, at which she told several individuals present the information given her previously by Spedale. Lamprecht advised that while the name of Ruby entered the discussion as a result of interest in the newspaper stories about Oswald and Ruby, she made no statement to the effect that Ruby and Oswald lived in the same apartment house in New Orleans, and she had no knowledge that such could be true.

Spodale has advised this Bureau that he knew the FBI had checked on the electric and gas service for Oswald's apartment at 4905 Magazine Street shortly after Oswald's death. Spodale stated that he told Lamprecht he was impressed at the speed with which the FBI had checked the electric and gas records. Spodale also advised that he never had any information concerning Ruby and had made no statement to Lamprecht or anyone else that Oswald and Ruby had resided in the same apartment house.

Efforts are being made by this Bureau to locate and to interview Mrs. Vincent T. Lococo, and you will immediately be advised of the results of this interview.

Sincerely yours,

J. Edgar Hoover

NOTE: Info for reply received in New Orleans teletype 2-4-64 re "Lee Harvey Oswald; IS-R." Bufiles negative re Spedale, Lamprecht and Mrs. Lococo. The Commission will be advised of results of interview of Mrs. Lococo when reported by New Orleans.

Dear Mr. Hoover:

It has recently come to the attention of the Commission that Roland Spigale, employee of the Southern Bell Telephone Company at New Orleans prior to December 3, 1963, informed Shirley Lamprecht, his fiancee, that he had learned that telephone records in possession of his company showed that Jack Ruby and Lee Harvey Oswald at one time lived in the same apartment house in New Orleans.

Accordingly, the Commission has asked me to request that your Bureau conduct appropriate interviews to determine whether or not Spigale made the statement attributed to him and if so, his basis therefor.

Dear Mr. Rankin:

Reference is made to my letter dated January 17, 1964, relating to a contact with this Bureau by attorneys for General Edwin A. Walker. In this letter I also advised you efforts were being made to locate William McEwan Duff, who had been linked to Lee Harvey Oswald during April or May, 1963, by a Dallas lunchroom proprietor.

We have located Duff and I am enclosing two copies of the report of Special Agent J. A. Grimes dated January 23, 1964, at Oklahoma City, Oklahoma, containing the results of interview with Duff.

NOTE:

By letter to Rankin dated 1-17-64, we advised him attorneys Clyde J. Watts and A. V. Grant had requested the FBI to confirm or deny reports that Oswald attempted to murder Walker on 4-10-63. One of the attorneys also wanted us to furnish a transcript of all evidence and information relating to this alleged attempt on Walker's life so that they could take appropriate action to protect the General. Attorney Watts indicated he might contact the President's Commission or endeavor to interview Oswald's widow. In view of the above, we furnished the Commission background on this contact as well as what action we had done in the Walker shooting, which was primarily a ballistics examination. Duff was the only suspect in the Walker shooting developed by the Dallas Police Department and he was subsequently absolved by that department. A lunchroom proprietor was the only individual who linked Duff with Oswald, therefore, efforts were made to locate Duff for interview to iron this matter out. The enclosed copies of a report from Oklahoma City disclose that Duff never knew Oswald or any other of the principals in this matter. At the time of our letter to Rankin on 1-17-64, we advised when Duff was located and interviewed he would be furnished the results thereof. This now concludes our inquiry.

Memorandum

TO : Mr. Conrad

DATE: 2-5-64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11-22-63
REQUEST BY INVESTIGATING COMMISSION

At the request of representatives of the Commission investigating the President's assassination, the Laboratory made a study of motion picture cameras used by Mr. Abraham Zapruder and Mr. Orville Nix in filming a portion of the assassination. The examination of these cameras was requested to assist the Commission in establishing the sequence of events. By memorandum from W. D. Griffith to Mr. Conrad dated 1-28-64, a Commission request for a study to be made in Dallas of the cameras, films and assassination site was approved.

The results of the examination of the two cameras has been furnished to Mr. Melvin Eisenberg, Commission Attorney, and he advised that the survey in Dallas should be withheld pending another review of the pertinent films and facts developed from examination of the cameras. The primary reason for withholding their survey is to review material at hand along with a viewing of the original film made by Mr. Abraham Zapruder which the Commission is taking steps to obtain from Life Magazine.

Mr. Eisenberg stated that when the original film is received, he will advise the Bureau and arrange for a conference between representatives of the Bureau, Secret Service and the Commission.

Dear Governor Davis:

Thank you for your letter of January 16, 1964, expressing your readiness to assist the Commission in obtaining the documents requested in our letter of January 13, 1964.

We have been informed by the Federal Bureau of Investigation that our letter has resulted in certain duplication of investigative effort which we did not anticipate. It is not our desire to have any state or local officials conduct interviews relating to Lee Harvey Oswald designed to elicit new information. We recognize that such interviews have already been taken by agents of the FBI and we have no desire to duplicate the exhaustive job which that agency has already done.

Our letter of January 13, 1964, was aimed only at securing copies of the documents specified in the letter. The Commission believes that its files should maintain a complete set of educational, police or other documents related to Lee Harvey Oswald in the possession of states and localities where Oswald lived. For that reason we have sought your assistance, as well as that of other state officials.

I am glad to have this opportunity to clarify our request so as to cause as little difficulty as possible. If you believe that the FBI might be of assistance to you in complying with our request, I am confident that the New Orleans office is ready to assist you in any way.

Thank you very much for your cooperation.

(MRS. OSWALD)

FORT WORTH--MRS. MARGUERITE OSWALD FLEW TO WASHINGTON UNDER SECRET SERVICE PROTECTION TODAY TO LAY WHAT SHE CALLED "TRUMP CARDS" BEFORE THE WARREN COMMISSION AND TELL THE INVESTIGATORS ABOUT A MYSTERIOUS "THIRD LIFE" INVOLVING HER SON, THE ACCUSED ASSASSIN.

PROTESTING HIS INNOCENCE, THE 56-YEAR-OLD MOTHER OF LEE HARVEY OSWALD SAID SHE WOULD PRESENT INFORMATION "THE COMMISSION HAS NOT HAD ACCESS TO BEFORE." SHE INDICATED SHE WOULD ACCEPT THE FINDINGS OF THE COMMISSION.

THE COMMISSION HEADED BY CHIEF JUSTICE EARL WARREN APPOINTED WASHINGTON ATTORNEY JOHN DOYLE TO REPRESENT MRS. OSWALD AT THE HEARINGS DESIGNED TO SIFT THE EVIDENCE AGAINST OSWALD AS THE SLAYER OF PRESIDENT KENNEDY IN DALLAS LAST NOV. 22.

ALTHOUGH MARINA OSWALD, WIDOW OF THE SLAIN MAN, TOLD THE COMMISSION SHE BELIEVED HER HUSBAND GUILTY, HIS MOTHER HAS ARGUED THAT THE EVIDENCE IS "CIRCUMSTANTIAL," AND THAT HER SLAIN SON WAS INNOCENT.

A SECRET SERVICE AGENT AND AN FBI MAN ACCOMPANIED HER ON THE TRIP TO WASHINGTON. SHE SAID SHE DID NOT ASK FOR THE PROTECTION.

MRS. OSWALD SSAID IT WAS A "REAL FIGHT" TO WIN AN APPEARANCE BEFORE THE WARREN COMMISSION.

"I WILL TELL THE COMMISSION ABOUT LEE'S LIFE, MY LIFE AND A THIRD LIFE," SHE SAID.

THERE WAS NO FURTHER REFERENCE TO A THIRD LIFE. MRS. OSWALD HAS TWO OTHER SONS. OSWALD'S FATHER, A SALESMAN, DIED SHORTLY BEFORE HE WAS BORN.

Mrs. Lynda Goodier Lococo, 3713 Dumaine Street, New Orleans, advised this Bureau on February 4, 1964, of the following information given to her by a friend, Shirley Lamprecht, during a telephone conversation in early December, 1963:

Lamprecht stated that Spedale, an employee of the telephone company, told her the FBI was inquiring about Oswald in New Orleans. Lamprecht also mentioned that Spedale had learned that his company records showed that Oswald had lived in the same apartment building in New Orleans with a private detective as well as Jack Ruby. information concerning the Oswald case that he had was the fact the FBI had checked the records of the New Orleans Public Service Company, Incorporated, regarding gas and electric service for Oswald's apartment. According to Spedale, the only information he furnished to Lamprecht concerned the FBI checking of the gas and electric records.

As the Commission is undoubtedly aware, no information has been developed by this Bureau to indicate that Jack Ruby resided in New Orleans during the period of April through September, 1963, while Oswald lived there.

This concludes our inquiry into this particular matter.

J. Edgar Hoover

NOTE:

Information in this matter obtained from New Orleans teletype 2/4/64 captioned "Lee Harvey Oswald, aka, IS - R." Referenced teletype also advised that Mrs. Lococo said she told her husband, Vincent T. Lococo, the information she alleges she received from Lamprecht. Mrs. Lococo said her husband is an attorney in the New Orleans law firm of Hubert, Baldwin and Zibilich. She stated that Leon D. Hubert, Jr., a member of the law firm, had been appointed an investigator on the President's Commission and is presently in Washington for the hearing. No identifiable derogatory information found in Bufiles regarding Mr. and Mrs. Lococo. No further action being taken in view of denials by Lamprecht and Spedale regarding the allegation.

Dear Mr. Rankin:

"The Nation" magazine has printed an article in its January 27, 1964, issue entitled "Oswald and the FBI" by Harold Feldman. Our letter of January 27, 1964, transmitted to the Commission a copy of this article.

Your attention is directed to pages 88 and 89 of the article in "The Nation," wherein the author is quoted as follows:

> "Equally puzzling, his mother, Mrs. Marguerite Oswald, has insisted that an agent of the FBI showed her a photograph of Jack Ruby just about seventeen hours before Ruby shot her son.
>
> 'It was understood, however, that Federal agencies had acknowledged that she had been shown a photograph that night for identification, but spokesmen would not disclose whether it was that of Ruby. (The New York Times, 12/2/63.)'

'The next day the FBI denied that the photograph was that of Jack Ruby but they would not comment further. Mrs. Oswald repeated her statement and has demanded that the pictures be produced again."

Dallas identified, located and interviewed Montgomery, whose "information" was based on "visions from God." The information developed is of absolutely no value and the correspondent and her daughter have been characterized as being "mentally ill." During the investigation it was learned Secret Service had interviewed Mrs. Montgomery on 1-10-64. In view of apparent interest of this agency, two copies of the Dallas letterhead memorandum have been disseminated to them. This concludes our inquiry.

Dear Mr. Rankin:

Enclosed are two copies of a self-explanatory communication prepared by our Dallas Office dated January 28, 1964. Copies of this communication have also been furnished to the following: Assistant Chief of Staff for Intelligence, Department of the Army; Director of Naval Intelligence, Department of the Navy; Director of Special Investigations, The Inspector General, Department of the Air Force; Assistant Attorney General, Internal Security Division, Department of Justice; Chief, United States Secret Service, Department of the Treasury; and Chief Postal Inspector, Post Office Department.

For your assistance, "American Opinion," was incorporated January 19, 1958, under the laws of the State of Massachusetts, and is edited and published by Robert Welch, Belmont, Massachusetts. On December 9, 1958, Welch founded the John Birch Society in Indianapolis, Indiana. The John Birch Society was incorporated on December 23, 1958, as a nonprofit business organization under the laws of the State of Massachusetts. Welch has summarized the long-range objectives of the Society as "less government, more responsibility and a better world." "American Opinion," the John Birch Society and Welch have not been investigated by this Bureau.

The above is being furnished for your information.

Sincerely yours,

NOTE:

Letterhead memorandum sent as enclosure with Dallas airtel dated 1/28/64 captioned, "Assassination of President John Fitzgerald Kennedy, 11/22/63, Dallas, Texas, Miscellaneous - Information Concerning." Copies to other Governmental agencies sent by Domestic Intelligence Division. Letterhead memorandum relates to anonymous communication received by our Dallas Office and postmarked at Dallas, Texas, both on 1/23/64 enclosing 16 stickers containing the statement "Communism Killed Kennedy." It was indicated these stickers are available at a price of $1.00 for 12 sheets (912) stickers) and can be obtained from "American Opinion," Belmont, Massachusetts. It is possible these stickers might come to the attention of the President's Commission resulting in a request for Bureau investigation. Therefore, it is felt we should take the initiative and advise the Commission of the above prior to receipt of a request.

LEE HARVEY OSWALD
INTERNAL SECURITY - R

The Director's affidavit relative to the fact that Lee Harvey Oswald was never an informant of the FBI and the administrative procedures for the handling and payment of confidential informants was delivered to Mr. J. Lee Rankin of the President's Commission today.

Mr. Rankin read the cover letter and the affidavit very carefully, after which he commented that he wanted to make it clear that Henry Wade did not actually testify before the President's Commission. Rather than testifying, Mr. Wade appeared at the offices of the Commission and was interviewed relative to his knowledge concerning the allegation that Oswald had been an informant of the FBI and was then questioned concerning his recollection of procedures for handling informants while Wade was a Bureau employee. Rankin stated that he wanted to make it extremely clear to the Director that Mr. Wade was furnishing information to the best of his recollection concerning Bureau procedures and was not vouching for the correctness of his statements. Mr. Rankin also advised that Wade was not in any way critical of the Bureau or any of its procedures.

Mr. Rankin commented that Chief Justice Warren and he, Mr. Rankin, were extremely appreciative of the Director's attitude concerning this matter, that he had seen fit to furnish an affidavit covering this situation, and that he had expressed a willingness to testify before the Commission if such should be necessary. He also commented that the Commission was most certainly not questioning the word of the Bureau and that they certainly accepted the Director's statement as being true, but they were considering this problem from two angles: (1) The necessity for satisfying the Commission of the truthfulness of the situation, which had already been done; and (2) having the records sufficiently complete so that at such time as the public would have an opportunity to see the work of the Commission there would be sufficient facts to show that the matter was fully explored and that the record would completely reflect the true situation.

With regard to Mr. Hudkins, the reporter from a Houston, Texas, newspaper, Mr. Rankin stated that the matter of calling Hudkins before the Commission had been considered and that prior to calling Hudkins the Chief

Justice desired to see the Director's affidavit. He advised that now that the affidavit has been received consideration will be given to calling Hudkins before the Commission. He advised that there was no objection to the Bureau going right ahead with an interview with Hudkins or anyone else that the Bureau desired to interview to nail this situation down. He stated that if Hudkins were interviewed he would appreciate it if a signed statement could be obtained from him. He also stated that in the event Hudkins attempted to rely on some source of his for this story and would not disclose the source he had in mind calling his employer and Hudkins before the Commission in order to obtain the true facts.

Concerning Henry Wade and the material which was shown to Mr. Rankin portraying the actual handling of expense money and payments to informants and receipts and full accounting of Wade's expenditures in South America, Mr. Rankin stated he would like very much to have a copy of this material and he was told it would be prepared and made available to him as soon as possible. He also advised that there was no objection to talking to Mr. Wade concerning his expenditures while he was in South America in order that Wade would be fully apprised of what his activities were at that time and how he accounted for his expenditures.

RUMORS THAT OSWALD WAS FBI INFORMANT

Mr. Rankin was advised that the allegation that Oswald was an FBI informant is spreading rapidly; that the Bureau had had a number of press inquiries and that we were answering such inquiries with "No comment." He was told that if this story breaks and the allegation is made in the press, the Director would necessarily have to make a statement that it is an absolute lie. Rankin was told that Senator James O. Eastland (D.-Mississippi) of the Senate Internal Security Subcommittee had advised this rumor had come to his attention and that it had also been brought to the attention of Senators Roman L. Hruska (R.-Nebraska) and Everett McKinley Dirksen (R.-Illinois). He was told that consideration was being given to calling a meeting of the committee to air this matter fully and the committee was considering calling the Director to furnish testimony on the matter. Rankin was told that the Director was instructing that Senator Eastland be contacted to let him see in confidence the affidavit that the Director had prepared concerning this matter. He was also advised that if Senator Eastland desired, the affidavit would also be shown to Senators Hruska and Dirksen. Rankin was advised that any hearing by the Internal Security Subcommittee would be a duplication of the work of the President's Commission and that the purpose of contacting Senator Eastland and the other Senators was to keep the matter in the hands of the President's Commission to avoid publicity. He was advised that the Bureau was being placed in a bad position and that the best way to handle this situation was to show the affidavit to Senator Eastland in confidence.

MR. RANKIN DESIRES THE BUREAU TO PROTECT ITSELF

Mr. Rankin commented that this situation was extremely bad and that the Bureau's reputation was involved; that the President's Commission did not desire to interfere in any way with the Bureau's handling of this situation. He stated the Bureau should proceed in this matter in the same manner that it would handle any situation arising and disregard the existence of the President's Commission. He also commented that, in addition to this being a problem for the FBI, the Commission considered it a problem involving all of the intelligence agencies. He stated that rumors were beginning to circulate involving other intelligence agencies and that for this reason the Commission intended to go into this matter thoroughly and would explore it to whatever extent necessary to clarify the record. He stated that when the Bureau completed its inquiries into this matter he would appreciate being furnished the results and he was assured that this would be done at the earliest possible time.

Mr. Rankin again repeated his statement that he wanted the Director to know that the Commission was not questioning the Bureau's statement concerning the fact that Oswald was not an informant but they were desirous of clarifying the record.

Mr. Rankin also asked if we could furnish him with the affidavits which we have taken from our agents who interviewed Oswald and our files in the field where these interviews were conducted. He was told that these would be made available to him promptly.

Action (DeLoach):

1. Mr. DeLoach was advised that the Bureau's affidavit should be shown to Senator Eastland at once, and if Eastland agreed it should be shown to Senators Dirksen and Kuchel; further, Mr. DeLoach should press vigorously for his source in the State Department and CIA who allegedly confirmed the story that Oswald was an informant of the FBI.

2. Following Mr. DeLoach's discussion with Rowley, our Liaison will contact State Department and CIA, refer to these allegations, and pin them down.

(continued, next page)

Mr. Foley

3. We have notarized affidavits from our field agents and files, with the exception of the Orleans which does not have a notary public. Joe Coleman has been instructed to get these affidavits notarized through the nearest field office and send them immediately to the bureau. They will be given to Landis this coming Monday or Tuesday, 5/18 or 19/64.

4. Our Houston office has been instructed to interview reporter Seale Harris regarding the allegation that Oswald was an informant of the FBI, and get a signed statement from him and send it to the bureau. This will be furnished to Rankin.

5. Our Dallas office has been instructed to interview District Attorney Wade. A set of the vouchers and receipts pertaining to Ruby's expenditures is being sent to Dallas tonight so that he can be interviewed over the weekend.

6. A copy of Ruby's vouchers and receipts pertaining to his organization and handling of fundraising in South America is being reproduced and will be furnished to Rankin immediately upon his return from New York.

FROM : A. Rosen

SUBJECT: JACK L. RUBY, AKA;
LEE HARVEY OSWALD, AKA - VICTIM
CIVIL RIGHTS

Memorandum from Rosen to Belmont dated January 24, 1964, set forth full details concerning a typographical error which had been discovered by SA C. Ray Hall of the Dallas Office while he was preparing to testify at Ruby's bond hearing on January 20, 1964. This error consisted of having set forth in one of the Dallas reports two interviews with subject Jack Ruby and the dates of the two interviews were reflected November 24, and 25, 1963, when in fact both interviews actually occurred on November 24, 1963. This error was corrected in sufficient time that there was no difficulty; however, it was pointed out the necessity of correcting the record both in the Department's and the President's Commission's files.

This matter was discussed with Mr. William Foley, in the absence of Assistant Attorney General Miller of the Criminal Division, and Mr. Foley advised there was no problem involved and the necessary corrections would be made.

Mr. J. Lee Rankin of the President's Commission was advised of the typographical error and stated that he certainly understood an error of this type occurring, but in view of the attitude of the Commission of having everything in writing, he would appreciate a letter advising the Commission of the facts concerning the correction.

ACTION:

There is attached a letter to Mr. Rankin setting forth the error that occurred along with the circumstances under which the error was discovered.

Dear Mr. Rankin:

Pursuant to your request, I am enclosing herewith the income tax return of Jack L. Ruby for the year 1959. I am also enclosing the income tax returns of Earl R. Ruby for the years 1956 through 1960. The Internal Revenue Service has advised that the return of Earl R. Ruby for the year 1955 has been destroyed.

The income tax returns were furnished to the FBI through liaison arrangements with the Internal Revenue Service, and it is suggested that you contact the Internal Revenue Service prior to any public disclosure of their contents.

All income tax returns requested by you concerning Jack L. Ruby, his relatives and associates have now been furnished to you. No effort will be made to obtain additional returns relating to Jack L. Ruby unless specifically requested.

Dear Mr. Rankin:

Reference is made to your letter of February 4, 1964, inquiring as to the basis for the conclusions with respect to the identification of the bullets and cartridge cases in this matter and concerning the metal fragments from the President's head.

Firearms identifications such as those made on the bullet and cartridge case evidence in the Oswald matter are based upon a microscopic study of the individual characteristic markings impressed in the surfaces of the bullets and cartridge cases by the mechanism of the weapon and upon a microscopic comparison of these markings with those produced on test specimens fired from the suspected weapon. Since the markings left by a weapon on a bullet or cartridge case are characteristic of that weapon, a suspected bullet or cartridge case bearing such markings, in general, can definitely be identified as having been fired from a particular weapon. These identifications are thus based on sound scientific principles which have been accepted in court for many years.

The metal fragments from the President's head are very small pieces of lead which bear no markings that could be used for identification purposes and, therefore, there is no basis on which they could definitely be associated with any weapon. It is noted in this regard that the rifle bullets involved in this matter consisted of a lead core surrounded by a copper alloy jacket; the identifying marks left by a gun barrel in such a situation appear only on the metal jacket and not on the lead core or fragments of the lead core.

In the list of specimens on page one of your letter, it was noted that specimen Q8 was described as a cartridge case. Actually, this specimen was described in Special Agent Gemberling's report dated November 30, 1963, as a cartridge and is in fact an unfired cartridge.

Sincerely yours,

J. Edgar Hoover

Honorable J. Lee Rankin

NOTE: The bullet found on the stretcher at the hospital, specimen Q1, and the large bullet fragments, Q2 and Q3, found in the President's automobile were identified in the Laboratory as having been fired from the Mannlicher-Carcano rifle submitted in this case and which was identified as belonging to Oswald. The three cartridge cases found in the Texas School Book Depository Building were definitely identified in the Laboratory as having been fired in the submitted rifle. Several cartridge cases recovered in connection with the shooting of Officer Tippett were identified as having been fired in the .38 Special Smith and Wesson revolver, SN V510210.

The tiny lead fragments removed from the President's head bore no markings suitable for identification purposes. To further our study in respect to these small fragments, a spectrographic examination was made of them and they were found to be composed of a bullet alloy comparable in composition to the core of the fragments from the President's automobile; however, this is not sufficient to definitely establish that they are from a bullet fired from Oswald's gun.

FEB 4 1964

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D. C. 20530

Dear Mr. Hoover:

With respect to ballistic identification of a bullet cartridge case fitting the rifle found on the sixth floor of the Texas School Book Depository Building on November 22, 1963, Special Agent Robert P. Gemberling's report dated November 30, 1963, at pages 162-154 sets forth in part the following information:

"Specimens:

"Q1 Bullet from stretcher ...
"Q2 Bullet fragment from front seat cushion
"Q3 Bullet fragment from beside front seat ...
"Q4 Metal fragment from the President's head
"Q5 Metal fragment from the President's head
"Q6 6.5 millimeter Mannlicher-Carcano cartridge case from building
"Q7 6.5 millimeter Mannlicher-Carcano cartridge case from building
"Q8 6.5 millimeter Mannlicher-Carcano cartridge case from rifle ...
"K1 6.5 millimeter Mannlicher-Carcano rifle, with telescope sight No. C 2 766 ...

""Results of Examinations:

"The bullet, Q1, is a 6.5 millimeter Mannlicher-Carcano rifle bullet . . . It consists of a copper alloy jacket with a lead core.

"Specimen Q2 is a portion of a core of a rifle bullet . . . Specimen Q3 is a portion of the base section of a copper alloy core bullet . . .

"The rifle K1 is a 6.5 millimeter Mannlicher-Carcano Italian military rifle model 91/38. Test bullets were fired from this rifle for comparison with Q1, Q2 and Q3. As a result, Q1, Q2 and Q3 were identified as having been fired from the submitted rifle.

"Specimen Q6 and Q7 are 6.5 millimeter Mannlicher-Carcano cartridge cases. . . .

"Test cartridge cases obtained from the submitted rifle were compared with specimen Q6 and Q7. As a result, specimen Q6 and Q7 were identified as having been fired in this rifle."

With respect to the same rifle the report of Special Agent Robert P. Gemberling dated December 10, 1963, at pages 333-334 in part states:

"Q48 6.5 millimeter Mannlicher-Carcano cartridge case from building.

"Results of Examination: . . .

"Q48 is a 6.5 millimeter Mannlicher-Carcano cartridge case . . . The cartridge case Q48 was compared with test cartridge cases fired in the K1 6.5 millimeter Mannlicher-Carcano rifle, serial No. C2 766. As a result Q48 was identified as having been fired in this rifle."

With respect to the revolver taken from Lee Harvey Oswald at the time of his arrest on November 22, 1963, Special Agent Robert P. Gemberling's report dated November 30, 1963, at page 162 states in part:

"K3 .38 Special Smith and Wesson revolver, serial # V510210, assembly # 65248."

In addition, Special Agent Robert P. Gemberling's report dated December 10, 1963, at page 351, in part, states:

"Specimens received:

"Q74 - Q77 four .38 special cartridge cases . . .

"Results of Examination:

"The four cartridge cases Q74 - Q77 were compared with test cartridge cases obtained from the previously submitted revolver K3. As a result, Q74 - Q77 were all identified as having been fired in K3."

It would be greatly appreciated if your laboratory would describe in some detail the evidentiary facts upon which the above-quoted ultimate conclusions are based with respect to the respective connection between the bullet, the cartridge and the cartridge cases and the corresponding weapon. I assume -- but would like to be advised if the contrary be the fact -- that no conclusion can be drawn relating Q4 and Q5, the metal fragments from the President's head, with either weapon.

I appreciate your continuing cooperation in the work of this Commission.

Sincerely,

J. Lee Rankin

UPI-117
(ASSASSINATION REPORT)
WASHINGTON--A GOP MICHIGAN CONGRESSMAN, IN A SPEECH ON THE HOUSE FLOOR, TODAY ATTACKED THE POSSIBILITY OF ANY INFORMATION BEING KEPT FROM THE PUBLIC BY THE COMMISSION INVESTIGATING PRESIDENT KENNEDY'S ASSASSINATION.

REP. AUGUST E. JOHANSEN, R-MICH., SAID SUCH A MOVE WOULD "STRIKE AT THE VERY HEART OF PUBLIC CONFIDENCE" IN THE HIGH-LEVEL GROUP APPOINTED BY PRESIDENT JOHNSON.

JOHANSEN REFERRED SPECIFICALLY TO COMMENTS BY CHIEF JUSTICE EARL WARREN THAT SOME EVIDENCE COLLECTED BY THE COMMISSION MIGHT NOT BE INCLUDED IN ITS FINAL REPORT BY SEALED FOR USE OF FUTURE HISTORIANS.

WARREN LATER SAID HE HAD NO PARTICULAR TESTIMONY IN MIND AS YET, BUT THERE MIGHT BE "SECURITY ASPECTS" INVOLVED AND SUCH AGENCIES AS THE FBI OR STATE DEPARTMENT WOULD MAKE THE DECISION.

JOHANSEN CALLED SUCH REMARKS "THOUGHTLESS, CARELESS OR INADVERTENT." HE SAID THE COMMISSION MUST HAVE THE FULLEST CONFIDENCE OF THE AMERICAN PEOPLE OR ITS WORK WILL BE "IN VAIN."

"THE COMMISSION MUST DEMONSTRATE THAT IT DESERVES TO BE BELIEVED," JOHANSEN SAID.

JOHANSEN WON UNANIMOUS CONSENT FROM THE HOUSE TO INTERRUPT ITS DEBATE ON THE CIVIL RIGHTS BILL TO DELIVER HIS FIVE-MINUTE SPEECH. THERE WAS SCATTERED APPLAUSE WHEN HE FINISHED.

In connection with a brief which was prepared for the Director concerning this case, field offices where Oswald was interviewed were instructed to have any Agent who ever contacted Oswald submit an affidavit stating whether he had developed Oswald as an informant. In addition, the Special Agents in Charge (SAC) of the offices were also instructed to submit affidavits in this matter.

The affidavits from the Dallas, New Orleans, and San Francisco Offices were not notarized. Inasmuch as these affidavits may be furnished to the President's Commission investigating the assassination of the President, it was felt that if the affidavits are to be furnished to the Commission, they must be notarized and not be sworn affidavits witnessed by other employees in the field office.

In view of this, on 2-5-64 I talked to SAC Shanklin of our Dallas Office and instructed him to reprepare the affidavits and have them sworn to before a notary public. Mr. Shanklin said they do have a notary public in the office and that the affidavits would be reprepared and submitted to the Bureau today.

I also talked with Assistant Special Agent in Charge (ASAC) Joseph Sylvester of our New Orleans Office. Mr. Sylvester said that they do not have a notary public in the New Orleans Office. He asked whether they should have an outside notary take the sworn statements from the Agents. I told him not to go outside the office; that he could have one of the employees of his office made a notary public in order to handle this matter. I told him that if this could not be done to let us know. ASAC Sylvester subsequently advised that in New Orleans the number of notary publics are limited; that they must take examinations which are given only twice a year and the New Orleans Office could not have one of its employees made a notary public at this time. In view of this, I told him not to take any further action.

In addition, I called ASAC Paul O'Connell of our San Francisco Office concerning this matter and he said they do not have a notary public in the San Francisco Office. I told him if it is feasible to arrange to have one of his employees made a notary public and to resubmit

For record purposes, it is to be noted that on 2/1/64, the President's Commission requested that numerous items of evidence be delivered to them on the morning of 2/5/64, in connection with their questioning of Marina Oswald. This material was delivered as requested and later in the day the Commission requested that these items should be returned to the FBI Laboratory for safekeeping until the morning of 2/6/64, at which time they would want back many of the same items. They stated that they did not want us to check the items since they had arranged them in the order in which they would be needed the next morning and that they would assume full responsibility of the accuracy of the listing.

Boxes reportedly containing items designated as B4, C15, C137, C138, D20, C8, C10, C12, C14, D1, D27, C60, C139 through C147, A3, A4, A5, A14, A15, A16, C11, C226, 375, 378, 379, C37 and D53, were tied with string by the Commission and brought back to the Laboratory by Laboratory representatives and locked in a cabinet for safekeeping. These same boxes were returned to the Commission on the morning of 2/6/64, at their request in the same condition as they were received never having been opened in the Laboratory during this time.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter of January 31, 1964, requesting this Bureau conduct time tests on bus travel between specified locations in the Dallas, Texas, area.

On February 3, 1964, Special Agent Ivan D. Lee of our Dallas Office conducted the requested tests with the following results:

At 6:12 p.m. Special Agent Lee boarded a Dallas Transit Company Beckley Avenue bus at the corner of Bryan and Crockett Streets, adjacent to Crozier Technical High School, 2218 Bryan Street. He took this bus to the corner of Beckley Avenue and Neeley Street, which is the nearest bus stop to Oswald's former residence, 214 West Neeley Street, arriving at 6:33 p.m., elapsed travel time being 21 minutes.

This same route was again traveled commencing at 7:19 p.m. and terminating at 7:33 p.m., elapsed travel time being 17 minutes. Special Agent Lee pointed out the above two buses taken by him at 6:12 p.m. and 7:19 p.m. are the first buses scheduled to depart after the hour.

Special Agent Lee walked at an average pace from the bus stop at the corner of Beckley Avenue and Neeley Street to Oswald's former residence, elapsed walking time being two minutes and fifty seconds.

SEE NOTE PAGE TWO.

Honorable J. Lee Rankin

The nearest bus stop to General Edwin A. Walker's residence, 4011 Turtle Creek Boulevard, Dallas, is located at the corner of Avondale and Oak Lawn Avenues, approximately one block west of the residence. The first bus scheduled to leave from this bus stop after 9:00 p.m. is a Preston Hollow Express which Special Agent Lee boarded at 9:26 p.m. He arrived at a bus transfer point in the 1600 block of Elm Street at 9:38 p.m. and alighted. At 9:53 p.m. Special Agent Lee boarded a Beckley Avenue bus and alighted from same at the corner of Beckley Avenue and Neeley Street at 10:05 p.m., elapsed travel time being 39 minutes.

The Dallas Transit Company advised Special Agent Lee the bus schedules in effect on February 3, 1964, have been in effect for over a year. This concludes our inquiry into this particular matter.

Sincerely yours,

This item is on the Director's "Special List."

NOTE: By letter dated 1/31/64 the President's Commission requested appropriate tests be made to determine bus travel time from Crozier Technical High School to the former Oswald residence on Neeley Street in Dallas around 6:00 and 7:15 p.m. The Commission also desired to know the time it would take to go by bus from General Walker's residence to Oswald's former residence after 9:00 p.m.

Dallas Office immediately instructed to conduct these tests, results of which furnished to Bureau on 2/4/64 and are set out in the above letter.

While we have not been apprised of the purpose of these tests by the President's Commission, the following is set out as a possible explanation for same.

(notg continued)

Dallas Police Department records disclose General Walker reported a shot was fired into his residence about 9:00 p.m. on 4/10/63.

Dallas report of SA Warren C. DeBrueys dated 12/8/63 on pages 284 and 285 set out interviews of Marina Oswald on 12/3 and 12/4/63. She advised during the Spring of 1963 they resided on Neeley Street. One evening in the Spring of 1963 her husband indicated he was going to typing class at the Dallas evening school (Crozier Technical High School where Oswald last attended on 4/8/63) where he normally attended two or three times a week. On this particular evening he was very late and arrived home about midnight, very pale, agitated and excited at which time he admitted trying to kill General Walker by shooting at Walker with a rifle. Marina Oswald stated her husband normally would depart the Neeley Street address sometime between 6:00 p.m. and 7:00 p.m. returning home about 9:00 p.m.

From the above it would appear the Commission is endeavoring to determine the truthfulness of statements and feasibility of information previously furnished by Marina Oswald as it relates to the other known activities of Oswald. It is possible this information may be necessary in connection with the current questioning of Marina Oswald by the Commission.

Dear Mr. Hoover:

It would facilitate the work of this Commission if your Bureau would conduct appropriate tests to determine the amount of time required to travel by bus from the stop located nearest Crozier Technical High School, 2218 Bryan, to the stop nearest to the erstwhile Oswald residence on Neeley Street in Dallas. These tests should be conducted on any weekday at approximately 6 p.m. and 7:15 p.m.

It would also be helpful if the Bureau could determine the time required to ride a bus from the stop nearest General Walker's home at 4011 Turtle Creek Boulevard to the stop located nearest Oswald's erstwhile home on Neeley Street in Dallas. This latter test should be conducted at any time after 9 p.m. on a weekday evening.

Thank you for your continued cooperation in the work of this Commission.

Sincerely,

J. Lee Rankin

Dear Mr. Rankin:

Reference is made to page 217 of the report in the Lee Harvey Oswald case of Special Agent Robert P. Gemberling dated January 22, 1964, at Dallas, Texas, wherein are recorded the results of the interview of Colonel J. D. Wilmeth, U. S. Army (Retired).

Colonel Wilmeth was reported to have stated that he was a member of the U. S. military forces in Mexico for two years during World War II. We have been advised that the report of Colonel Wilmeth's interview should have recorded him as stating that he served as a member of the U. S. military forces in Moscow for two years during World War II. It would be appreciated if you would note the foregoing in connection with your review of the aforementioned report.

Sincerely yours,

100-82555

62-109090

NOTE: Dallas 2/1/64 airtel notes this necessary change. Believed advisable to inform Commission of this as they may question Wilmeth's reported claim to have been with the military in Mexico. Wilmeth is a Russian language teacher who heard of Mrs. Oswald and visited with her on 11/19/63 to discuss modern Russian language. He does not know Lee Oswald and has no intention of making further contact with Mrs. Oswald. The report shows that Wilmeth claimed he learned a great deal about the Russian language during his service in Mexico. We have had numerous allegations concerning Oswald's trip to Mexico and it is possible the Commission may read something into Wilmeth's claim to have served there. Explanations being obtained from DL by separate communication.

Special Agent Vincent Drain of the Dallas Office was called before the President's Commission today to exhibit the clothing worn by Oswald on 11-24-63, when Ruby shot him. This clothing had been in the custody of the Dallas Police Department (DLPD) and is to be used in Ruby's forthcoming trial. The Commission had requested we obtain this clothing, which we did, after assuring local Texas authorities we would maintain the chain of evidence so as not to prejudice the prosecution of Ruby.

The items which SA Drain brought with him included Oswald's shoes, sweater, khaki shirt, and black pants. These items were grouped on the top of a desk with other items of his clothing being examined by the Commission. Due to the necessity for SA Drain to maintain the chain of evidence, he was present during part of the questioning of Mrs. Marina Oswald.

Mrs. Oswald identified all of the above items presented by SA Drain as belonging to her deceased husband. She also identified a brown shirt worn by Oswald at the time of his apprehension by the DLPD on 11-22-63.

During this phase of questioning SA Drain was requested to remain so as to preclude any possible distraction. The questioning was done by Chief Justice Warren, Senator John Sherman Cooper, and Congressmen Hale Boggs and Gerald Ford.

SA Drain furnished the following account of the Commission's questions and Mrs. Oswald's answers during the approximately 25 minutes he was present in the hearing room:

Question: Did you ever hear your husband make any remarks of any kind against President Kennedy?

Answer: No.

Question: Do you think he disliked President Kennedy?

Answer: No.

Question: Why do you think he killed President Kennedy?

Answer: I think he wanted a place in history or wanted to be a big shot or something.

Question: Do you think he was of sound mind?

Answer: Yes, I do, but I think he used it in the wrong way.

Question: Did you ever hear him say he was a Communist?

Answer: Yes, I did; one time when we were in New Orleans, I asked him if he really knew what a Communist was; I don't think he did.

Question: Do you think that he thought the economic conditions were better in Russia than in the United States?

Answer: No, I think he was dissatisfied with Russia, too.

Question: Do you think he killed the President?

Answer: Yes, I do.

Memorandum to Mr. Belmont
RE: LEE HARVEY OSWALD

Question:	Do you have any reason to believe that he was antagonistic toward the President?
Answer:	I never heard him express any words like that.
Question:	Do you think he conspired with anyone else to kill the President?
Answer:	No, I think he was alone.
Question:	Do you think he did it by himself.
Answer:	Yes, I do.
Question:	Do you think he told anyone what he was going to do?
Answer:	No, I don't think he told anyone.

SA Drain advised he took as many notes as possible under the circumstances and has attempted to fill in the questions and answers as he remembers them.

Dear Lee:

I have received your letter of January 7, 1964, in which you inquire as to the feasibility of applying nuclear analytical techniques to items relating to the assassination of President Kennedy.

The FBI Laboratory is well acquainted with the analytical technique of neutron activation analysis. Through arrangements worked out with Dr. Glenn T. Seaborg, Chairman of the Atomic Energy Commission, work is already in progress applying this technique to certain phases of the current investigation.

We were advised that Dr. Seaborg also has reported the existence of this joint effort to Honorable Earl Warren, Chairman of your Commission, by letter dated January 7, 1964.

Your office will be further advised of the results of these analyses when they have been completed.

Director, Federal Bureau
of Investigation
Department of Justice
Washington, D. C.

Dear Mr. Hoover:

Enclosed is a copy of a letter from the Atomic Energy Commission referred to me by Assistant Attorney General Miller.

As you will note, the letter suggests that the application of nuclear analytical techniques might supply some useful information relative to the investigation conducted by your Bureau. I would appreciate your advice regarding the feasibility and desirability of taking advantage of this offer by Mr. Asbersold, Director, Division of Isotopes Development.

Thank you for your assistance in this matter.

Sincerely,

J. Lee Rankin
General Counsel

Mr. Herbert J. Miller
Assistant Attorney General
Criminal Division
U. S. Department of Justice
Washington 25, D. C.

Dear Mr. Miller:

Discussions have been held with various persons in your agency during the past few weeks regarding what additional light nuclear activation analysis might be able to shed upon the case of Mr. Kennedy's assassination. Within less than 24 hours of the assassination, we had offered verbally our assistance, and that of our laboratories experienced in obtaining criminalistics evidence by means of nuclear analytical techniques, to responsible officials in the FBI, Secret Service and Dallas police force. We believe it is not too late to outline what may yet be done.

First, had it been possible to examine by nuclear methods the paraffin casts from Oswald's hands and face before chemical tests were run on them, we feel sure that more useful information may have been obtained. It has been conceded for some time that present chemical tests are not entirely reliable and conclusive. However, that is beside the point now, in this particular case. It may be, nonetheless, that the chemical tests made on the paraffin casts, for gunpowder residues, did not ruin them for possible later examination by activation analysis for positive traces of antimony and barium (from the bullet primer), and possibly of lead and copper.

Earlier activation analysis work by our contractor, General Atomic, with revolvers and automatic pistols is now being extended to work with rifles. We would hope soon to have more details on whether the method will give useful information to distinguish between smoke deposits from revolvers and those from rifles -- by means of their distributions on the body of the person firing them, and by the levels of antimony and barium (and perhaps other elements) deposited. In the current study, we will also ascertain whether the usual chemical tests on paraffin casts preclude later meaningful examination by nuclear activation analysis. If the results are promising, we would then be happy to work with the appropriate agencies in examining the actual casts obtained on Oswald. The method will destroy that part of the sample analyzed, but does not require use of the entire cast -- just a portion of it.

Second, should it be of value, it may be possible to determine by trace-element measurements whether the fatal bullets were of composition identical to that of the purportedly unfired shell found with the Italian rifle. If the same batch of ammunition was used in the sniper bullet fired at General Walker, the method might show a correlation in that case.

Third, there may be other pieces of physical evidence in the case, such as clothing or hair, that might lend themselves to characterization by means of their trace-element levels.

Naturally, we do not wish to appear to be intruding in the investigation and we are not certain that our techniques can now give added useful information. On the other hand, we wish to indicate our eagerness to be of any possible help. Our work leads one to expect that the tremendous sensitivity of the activation analysis method is capable of providing useful information that may not be otherwise attainable. Should you wish us to be of assistance, our research contractor in the criminalistics work, General Atomic in San Diego, would carry out the measurements -- working directly with the appropriate government investigators and with proper safeguards regarding the physical evidence and information. The scientist in charge of this work at General Atomic is Dr. Vincent P. Guinn.

If you prefer, we can also provide experienced activation analysis services at a number of locations, including Oak Ridge, Tennessee and Texas A&M University.

We look forward to hearing from you in this matter.

Sincerely yours,

SUBJECT: THE PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

During a discussion on January 17, 1964, with Mr. J. Lee Rankin of the President's Commission and Mr. Howard P. Willens, Mr. Malley suggested to Rankin and Willens that in the event any questions arose concerning material in any of the Bureau reports, it might be possible to save considerable time if a telephone call were made in an effort to obtain clarification. Mr. Rankin stated he sincerely appreciated this suggestion and where the question dealt only with material in one of the Bureau's reports, he definitely wanted to make use of this offer.

However, he stated that with regard to any new items, such as material being received from individual citizens by the President's Commission, they would be handled by formal correspondence. Mr. Rankin commented that in this particular instance it was not J. Lee Rankin dealing with the Bureau but rather it was Rankin acting as spokesman for the 7-man Commission dealing with the Bureau. He further advised that the President's Commission had agreed to furnish the National Archives with copies of all correspondence with all Government agencies and individuals at some subsequent date and, consequently, the Commission had to be extremely careful to see that a proper written record was maintained on all items of interest.

62-109090-82

During this discussion Mr. Rankin, and particularly Mr. Willens, mentioned the fact that the Bureau had certainly produced a large volume of investigative effort, that the reports had been well prepared considering the volume of material which had been accumulated, and that thus far practically all questions that had been raised in reviewing the reports submitted by the Bureau had been covered when subsequent reports had been reviewed. Both indicated that if any question arose as to whether or not a matter had been followed through completely, they would be in touch with the Bureau in order to ascertain the status of any such item.

REC-53

Mr. Rankin advised that the Commission would hold a full meeting at 2:00 p.m. on Tuesday, 1/21/64, and there were quite a large number of items they hoped to cover during this meeting.

MR. DE LOACH

On January 28, 1964, Mr. J. Lee Rankin, General Counsel of the Presidential Commission headed by Chief Justice Earl Warren, called to see me. He stated that the Commission had asked him to personally see me relative to a matter in which the Commission members were extremely interested.

He stated that there had appeared before the Commission, Mr. Henry Wade, a former Special Agent of the Bureau and who is now State District Attorney at Dallas, Texas. He stated Wade advised the Commission that he had left the Bureau with a good record and that, in fact, the Bureau had endeavored to dissuade him from leaving. (The summary on Wade, dated January 28, 1964, which is attached, does not substantiate this last statement of Wade as it will be noted that a few months after leaving the Bureau, he sought reinstatement, stating he had made a mistake in resigning, but his request for reinstatement was refused since the Bureau's request for his deferment under the Selective Service Act had already been withdrawn.)

Mr. Rankin stated that Mr. Wade indicated he had left the Bureau with an excellent record and there was no indication of any differences which he might have had with the Bureau.

Mr. Rankin stated that Mr. Wade had advised the Commission that a reporter by the name of Lonnie Hudkins of the Houston Post, Houston, Texas, had printed an article to the effect that Lee Harvey Oswald was a confidential informant or undercover agent for the FBI.

Memorandum for Messrs. Tolson, Belmont, Mohr, Sullivan, Rosen, Malley, DeLoach

allegation that 1963 dead

Mr. Wade further advised the Commission that Lee Harvey Oswald bore the designation of "179" as an informant of the FBI and was paid $200 a month. Apparently the Commission questioned Mr. Wade at some length about this and Mr. Wade further advised the Commission that he, Mr. Wade, while in the Bureau worked in South America for the FBI. I note from the summary attached on Wade that he had an FBI assignment at Quito, Ecuador, during 1941 and 1942. I note further that he was placed on leave without pay on June 1, 1942, and departed from Washington for Quito, Ecuador, on July 23, 1942, arriving in Quito in August, 1942. Effective September 1, 1942, he was placed on the confidential rolls. On May 20, 1943, he submitted his resignation with active duty ceasing at the close of business May 30, 1943.

Mr. Rankin stated that Wade informed the Commission that he was supplied from time to time with various sums of money by the FBI for which he did not have to account nor obtain any receipt from the person or persons to whom he disbursed the money. Mr. Wade stated to the Commission that there was no record of how such funds were spent nor for what purposes they were used by the employee of the FBI to whom the money was given. The Commission, according to Mr. Rankin, concluded that there would be no record of expenditures at Washington, D. C., or any other place in the FBI showing who were employed as confidential informants or the amount paid to them.

LONNIE,

Mr. Rankin stated that the Commission was concerned as to how this matter could be resolved, and it was for this reason that they had asked him to see me. He stated the Commission did not desire to initiate an investigation on the outside, such as the calling of Mr. Hudkins, who was the originator of the story and from whom apparently Wade gained his first information as it might appear the Commission was investigating the FBI. Reporter Houston, Texas Houston Post

I told Mr. Rankin that I thought the Commission should immediately call Mr. Hudkins before it, place him under oath, and demand of him the source of his information. I stated that I doubted he would give it to them and would either take the position he could not recall from where he obtained it or resort to the claim that a newspaper reporter's sources are privileged.

I told Mr. Rankin further that inasfar as Mr. Wade's statements were concerned as to how monies were disbursed within the Bureau, off hand I could not speak authoritatively upon the disbursement of funds during the

January 31, 1964

Memorandum for Messrs. Tolson, Belmont, Mohr, Sullivan, Rosen, Malley, DeLoach

disbursement of SIS FUNDS

operation of our SIS, but I did not believe that there was any such loose administration of our funds as had been indicated. I told Mr. Rankin that I most certainly could state that at least for the last twenty years I knew Mr. Wade's statements would not hold water.

I then outlined to Mr. Rankin generally the procedures that are followed, namely, that every cent is strictly accounted for and the identity of every informant is known to and a record maintained of at the Washington headquarters of the Bureau with indications of the amount of money that is paid to him.

Mr. Rankin inquired of me as to how I would suggest this aspect be developed. I told Mr. Rankin I would be very willing to make an affidavit covering these matters or to appear in person and testify under oath as to what the facts were.

I told Mr. Rankin that Lee Harvey Oswald was never at any time a confidential informant, an undercover agent, or even a source of information for the FBI, and I would like to see that clearly stated on the record of the Commission and I would be willing to go state under oath.

I asked for and received from Mr. Belmont a memorandum as to the handling of funds within the Bureau and it does show that there has been strict accounting of our monies disbursed by the Bureau under SIS as well as subsequent to our withdrawal from SIS operations.

Confidential FUNDS

I would like to now have a further analysis of exactly how Wade operated and how monies were paid to him as well as a listing of the funds supplied him and what disposition he made of them. Wade has certainly grossly misinterpreted to the Presidential Commission the manner in which the Bureau operates its informants and it is the desire of the Commission and most certainly that of myself to have this clarified and the record set straight.

Mr. Rankin took occasion while he was here to express appreciation of the cooperation which has been extended by the Bureau to the Presidential Commission and how helpful the Bureau has been to it. I commented to him

- 3 -

Memorandum for Messrs. Tolson, Belmont, Mohr, Sullivan, Rosen, Bailey, DeLoach Earl Warren D.C.

that I had not appreciated the what I interpreted as carping criticism of the Chief Justice when he referred to the Bureau's report originally submitted to the Commission as being a "skeleton" report and his more recent comment that the Commission was engaged in filling in the "gaps" in the investigation. I stated that the report as originally prepared at the direction of the President was intended to be released as promptly as finished by the White House in order to put an end to the many rumors already in circulation which had no basis in fact and that, therefore, the report was in a narrative form unlike the usual reports which are prepared for use in prosecutions. I stated that as he well know, we had now supplied to the Commission the so-called "raw material" which was the language of the Chief Justice and that these reports totaled over 10,000 pages and that he no doubt would receive some thousand more as the investigation was still continuing.

As soon as I receive the memorandum which I have requested above, I will want them to have the first memorandum which Mr. Belmont has submitted to me combined with such pertinent material as the memorandum which I have now requested into an affidavit which I may sign and have with me when I am called before the Presidential Commission and which I will ask the Commission to make a part of the record in addition to any statement which they request me to make or any answers to questions which they may propound.

Very truly yours,

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
AND THE KILLING OF LEE HARVEY OSWALD
VISUAL AIDS

Secret Service Agent John J. Howlett utilized the scale model of the assassination site on 1/28/64 to re-enact the shooting sequence from surveying data plotted for the Secret Service by a Dallas surveyor. The physical make-up of the model compares favorably with the surveying data; however, the distance separating Zapruder's position and the road sign which obscured the camera view of shot one as measured on the model was at variance with the surveyor's measurements. A check by the Secret Service revealed that the surveyor had made an error which will require new re-enactments to position shot one.

Attorney Melvin Eisenberg was the only staff member present for about 5 minutes during late afternoon. Commission conferences kept other members from continuing the visual examination of the movies. Mr. Eisenberg was very complimentary about the visual aids. The scale model is considered by the staff as a most valuable media for re-enacting various views of the staff. The staff realizes that a 1/4" scale model (48 times reduction) cannot be used to "precisely" locate shots one, two and three on the parkway. The staff wishes to go beyond "approximations" if possible and is considering the need to use the data compiled from the scale model as the basis for locating as accurately as possible shots one, two and three on the parkway in Dallas. The goal of the staff is to "pinpoint" each shot with a minus and plus factor of 1/3 second. Further "on-site" data may be required by the Commission.

The results of the second days examination of the assassination movies are as follows:

1. Attorney Eisenberg requested that the visual examination of the movies and re-enactments on the model be continued at 10:00 A. M. 1/29/64.

2. He requested Secret Service Agent Howlett to determine whether Orville Nix was standing or moving when he photographed the third shot which struck the President.

3. He mentioned that Mr. Willens, Administrative Assistant to Mr. Rankin had discussed with Special Agent Shaneyfelt of the FBI Laboratory about an examination of the Nix camera.

4. He stated that Mr. Rankin would make arrangements to obtain the original Zapruder film of the "shooting sequence" from Life Magazine for the use of the staff in further examining a clear image of the action.

5. He indicated that if an understandable medical report of Governor Connally's wounds is not available the Commission would be in touch with Mr. Malley of the FBI to obtain a suitable report from Parkland Hospital. The staff feels that more information in everyday language will assist them in determining the seating position of the Governor at the time he was struck by shot two.

Pursuant to the request of Mr. Rankin the members of the Commission's secretarial staff were shown the movies of the shooting and briefed concerning the visual aids. These exhibits are maintained under strict security in the first floor Assembly Room. Admittance to the room is controlled by Mr. Rankin's personal secretary who requires the name, organization, time in and out to be posted in a log book.

I will be present on 1/29/64 to further assist the staff in the use of the model to re-enact views of the shooting sequence. Exhibits Specialists Hughes, Rose and Arey who worked on the construction of the scale model will be present. FBI photographer Hudgins will operate the projector. Mr. Malley will accompany these employees on any visits to the Commission.

On January 29 and 30, 1964, members of the staff of the President's Commission met with representatives of the Laboratory and the Domestic Intelligence Division to go over each item of evidence being retained by the FBI Laboratory in this case. During these meetings, the Commission's staff indicated the Commission planned to interview Marina Oswald February 3, 4 and 5, 1964. The Commission members stated it would be very much appreciated by the Commission if the Bureau would identify for the Commission the location in Bureau reports previously furnished the Commission specific information pertaining to certain items of evidence. It was requested that such data be orally furnished Mr. Willens by Inspector Malley of this Bureau for relaying to Professor Eisenberg of the Commission.

In accordance with the Commission's request, this data has been assembled and is set out below by FBI Laboratory item number and location in Bureau reports, for furnishing to Mr. Willens by Mr. Malley. (These item numbers are arbitrary numbers assigned by the Laboratory to the evidence for control purposes. As set forth in Mr. Jevons' memorandum to Mr. Conrad 1/30/64, the Commission representatives have indicated on an appropriate listing those item numbers in which they are currently interested.)

1. In addition to all outer garments and shoes of Oswald requested by the Commission 1-29-64, the Commission on 1-30-64 requested to be furnished all outer garments and shoes which were worn by subject at time of his arrest.

If Dallas has previously furnished these latter items to Bureau, identify by Dallas item number and identify page number in Dallas report which sets out results of Laboratory examination. If these items are in custody of Dallas Police Department being held for Ruby trial, advise Bureau and take no steps to obtain them at this time.

2. See page 292 of Dallas report 12-10-63. The Commission requested it be furnished the replica sack which was made to appear similar to the original sack found on the sixth floor of the Texas School Book building.

3. The Commission noted that Dallas Item 107 was a "No Admittance" sign. The Commission requested to be furnished further information about the sign in order that they could determine the significance of the sign. Memorandum of 1/23/64 from Branigan to Sullivan set forth information concerning a letter directed to the Attorney General from one General Protero, Apartado, Number 20, Amadora, Portugal.

This matter was discussed with Mr. Howard P. Willens of the President's Commission staff in the absence of Mr. Rankin. Mr. Willens advised that a more recent letter had been received from General Protero wherein he made a request of the Commission to take certain action in connection with the United Nations. He advised that the Commission had taken no action to have any further check made on this matter and that the Commission did not intend to initiate any investigation in this matter. Mr. Willens advised the Commission would leave it to the judgment of the Bureau as to whether or not any further action should be taken.

ACTION:

Inasmuch as there is some investigation which can be done concerning this matter, appropriate inquiry should be made in order that it can be completely resolved. Appropriate inquiry should therefore be made through Legat in Paris to handle this matter.

DATE: 1/31/64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
DALLAS, TEXAS, 11/22/63
REQUEST BY INVESTIGATIVE COMMISSION

On 1/27 and 28/64 SA Lyndal L. Shaneyfelt met with attorneys at the Commission investigating the President's assassination at which the amateur film of one Mr. Zapruder was reviewed. Attorneys for the Commission requested a further study of the speed of the film in the camera used in making the film to determine the variation in film speed between a camera with the spring drive fully wound and the speed of the film as the spring runs down. This was approved as a result of a memorandum from W. D. Griffith to Mr. Conrad dated 1/28/64 which set out the Commission's request for further examination of the assassination films and cameras.

This study has been made by checking the film speed of the Zapruder camera at ten second intervals throughout the full running time of a fully wound camera. Several checks were made on a full roll of film and it was found that the film speed of the camera when fully wound runs at an average speed of from 18.0 to 18.1 frames per second (fps) for the first ten seconds. It gradually increases to 18.3 to 18.5 fps for the next 20 seconds, then gradually decreases slightly to 18.1 fps for ten seconds before the final 20 seconds that run at an average speed of 17.6 to 17.9 frames per second. Mr. Zapruder has stated that the camera was fully wound when he started filming the President's motorcade. Since all of Zapruder's assassination film was exposed well within the first half of time the camera will run on one winding, the run-down film speed should not be considered in the calculations. Therefore, the above figures result in our previous average frames per second speed for the assassination film of 18 1/3, or 18.3 frames per second.

RECOMMENDATION: That the attached letter be sent to Mr. J. Lee Rankin furnishing him with the results of the examination requested by the Commission.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

The President's Commission is bringing Mrs. Marina Oswald in from Texas to take her testimony before the Commission on February 3, 4, and possibly the 5th. The Bureau has a large number of pieces of evidence which are now up in the Laboratory and Mr. Melvin Eisenberg is the staff representative of the Commission who is handling the material for questioning of Mrs. Oswald. Mr. Eisenberg has requested that in the event he desires certain pieces of material for use in questioning Mrs. Oswald, that arrangements be made to get it to him over the weekend.

Mr. Eisenberg has been advised that if J. R. Malley is not here he should talk to the supervisor on duty, to make it clear exactly what he wants, and we will comply with his request.

Mr. Eisenberg has advised that there may be difficulty encountered in getting into the premises where the Commission's office is located, namely, the Veterans of Foreign Wars Building at Second and Maryland Avenue, N. E. In the event he calls, he should be requested to give the telephone number at which he can be reached so that when the material is located and ready to be delivered to him, he may be called and advised that the material is on the way so he can meet the courier or whoever is delivering the material at the entrance of the building.

REC-34 62-109090-80

The Laboratory will have a man on duty both Saturday and Sunday during normal working hours. After normal working hours, the switchboard is advised of the identity of the individuals who should be called for matters relating to the Laboratory.

Enclosed is one copy each of a letter from J. Lee Rankin of the President's Commission on the Assassination of President Kennedy and its enclosure, both of which are self-explanatory.

For your information, Bufiles disclose a letter dated 7-23-42 from Mrs. Lou Rylie Hill Sheldon, 725½ St. Peter Street, New Orleans, Louisiana, who appears to be identical with Mrs. Lou Rylie Hayes, wherein she related several unrelated incidents concerning individuals who reportedly made pro-Japanese statements. She indicated she was a former newspaper woman having worked in New York for some 12 years and only recently returned to the South. She stated she would do anything in her power to be of assistance.

With regard to Walter Cowan, city editor, "New Orleans States" newspaper, referred to in the enclosed communication, Bufiles contain no information identifiable with him.

New Orleans immediately check indices to determine whether Mrs. Hayes contacted the New Orleans Office as alleged and definitely resolve this matter. In the absence of information in your files dictating to the contrary, Mrs. Hayes should be contacted for any additional specific information she may be able to furnish concerning this matter, following which Walter Cowan, city editor "New Orleans States" newspaper, should also be contacted for any corroborating information.

Dear Mr. Hoover:

Enclosed you will find a carbon copy of a letter addressed to the Attorney General which was sent to Congressman Hale Boggs, a member of this Commission, who in turn referred it to me. With respect to Mrs. Lou Wylie Hayes, the writer of the enclosed, Congressman Boggs in his referral letter to me stated in part:

> "Mrs. Hayes is a thoroughly responsible person and information contained in her letter of December 11, 1963, should be checked out thoroughly by the Commission."

The letter is being forwarded to you for informational purposes and also with the request that you conduct an appropriate investigation to determine whether there is any additional evidence to support Oswald's statement to Mrs. Hayes that he had been recently in Cuba -- if, in fact, it was Oswald who was seated on the bus next to Mrs. Hayes. In this regard, I would respectfully suggest that the latter's identification of the former be made more certain through Bureau interview and evaluation.

I appreciate your continuing cooperation in the work of this Commission.

Dear Mr. Kennedy:

I am hesitant about writing you this letter as I do not know if the information it contains will be of any value, and at the same time unless-I do, I shall always wonder if I might not have helped in some small way in the investigation of your wonderful brother's death.

Let me introduce myself first. I am a 70 year old retired newspaper woman who worked here on the Times Picayune, until 1928 when I went to New York and served variously as associate editor of Our Navy Magazine, a reporter for several years on the old Brooklyn Eagle, and for a brief time, when Stanley Walker was an editor on the New Yorker magazine I did leg work on assignments which the big brass wrote up. At other times I handled publicity for hotels, and as a volunteer for the Catholic Big Sisters, and Brotherhood Week. Mr. Harold Klein (I believe he now spells it Kline) who holds an executive office with the Manufacturers Hanover Trust Co., in Manhattan, and Mrs. Sarah DeForeest, executive Secretary of the Nations Layman's Committee which stages Bible Week each year and which has offices 156 Fifth Ave., will remember me, as also Mr. Thomas Deegan of Thomas Deegan Co. Inc., now publicizing the New York World's Fair

I returned to New Orleans in 1941, serving as publicist for Pan American Airways at a time when no reporters were allowed at the airport because of war time restrictions, also as an air raid warder instructor, during which time I worked with the F.B.I. on several cases.

With the above information I hope that you will realize I am not a crank, trying to get my name in the papers. What I have to tell you is this. I am a volunteer worker for our Notre Dame Seminary Library, which is located on Carrollton Ave., and particularly during the warm weather I ride a Carrollton-Poydras Street bus to get back to town. This bus leaves at the junction of South Claiborne Ave., and Carrollton. On one particular day in September, the exact date of which I cannot recall, I boarded one of these buses, probably at 2:30 pm on a week day. I know that it was after school opened, and probably around the middle of the month. I took my favorite seat on the right hand, next the window, of the first cross-wise seat in the bus, going back to the city. Either when I got on or shortly after I group of high school boys boarded the bus and took the front side seats on each side. A little later, at a stop I cannot recall, a slim young man in a rather rumpled but clean sport shirt, khaky trousers and carrying a small overnight bag of soft canvas such as one can buy at the chain drug stores boarded the bus and sat in the [illegible] seat. He seemed to be in quite a state of elation and was looking eagerly at people's faces in a

ENCLOSURE

way which indicated he wanted to start up a conversation. Evidently he felt the school boys had noticed him and he launched into a breathless and highly elated account of his visit to Cuba, which had just culminated at his arrival at the New Orleans Airport.

"I saw Castro" he told them, "He is a fine guy. A Great person. From now on no prisoners are going to be returned to the United States unless I say so."

This of course startled me and I turned to look at him in the belief he was a hop head of some sort, but he simply appeared to be a highly pleased and excited young man. I asked him how he happened to be in Cuba.

"I flew there" he said, "The State Department is using me because of my contacts with Cuba. I spoke to the people and I told them Castro was a great man."

I then asked him how he got back.

"In an army plane" he said. "A U.S.Army plane. They flew me here, and the F.B.I met me and brought me to the corner of Canal Street (he gave the name of the other street but I don't remember it) and..."

I asked why they didn't take him all the way home.

"They don't want to know where I live. They don't want anybody to know where I live" he said.

The school boys were giggling and this seemed to anger him.

"At the airport they shoved a mike in my hand" he said, doubling his fist like a mike and holding it in front of his face. "I said hello to everybody. I told them Castro was a great guy and that we should all be friends."

At the time I thought he was referring to our own airport. But now I believe he meant the airport in Cuba.

I questioned him further about Castro and he said "I never got to talk to him at all. He just shook hands with me and they rushed me right on out to the airport. From now on, I am going to Cuba and arrange every time the prisoners who are going to be sent back."

He then got off the bus, at a cross street, possibly Napoleon for he had a transfer in his hand. We all had a laugh, but I was disturbed and so when I got to town I went to a friend's apartment and called the City Desk of the New Orleans States, whose editor, Walter Cowan, told me no celebrity had arrived at our airport, and I then called the F.B.I and told them of the incident, saying that the man was probably a nut but that perhaps there might be something in their files on him and they would like to know he was back in town. I recognized this man as Oswald as soon as I saw a clear picture of

For the benfit of the A.P writer in New York who wrote that Oswald could not be a Marxist without being a Communist, I would like to point out that at the time I was keeping a couple of people under surveillance for the F.B.I here I was told that one of them, a lad named Bancroft, who now has a United Nations job, was one of the high ranking Communists and did not carry a card, as they removed from their files all information on their top flight operatives so they could not be identified as party members.

My own unalterable belief is that Oswald was a Communist, that he bungled his job and went haywire and that Ruole was assigned to remove him. The indignation over the murder of our president would be the logical out he would use in his defense.

Dorothy Thompson, speaking before the New York Women's Press Club, of which I was a member, told us soon after the fall of France that all Communist take-overs followed a pattern. First, the people by a constant barrage of propaganda were caused to distrust their leaders. Then, when some controversial issue came up, both sides were infiltrated and a revolution started, during which time those of our people who were Communists and were in high places would engineer a take over of the government. That pattern is pretty plain here. The only thing is that this country didn't react according to those in Europe--and Africa.

From my own personal experience with the F.B.I it is easy for me to believe what Oswald told about them meeting him at the plane, and we could well have been using him through the State Department which has a pro-Castro record, without anyone being the wiser.

I am sorry that I cannot remember the date, or the streets where the man boarded and left the bus, but after I called the paper and the FIB.I I put this out of my mind until I saw Oswald's face on TV.

sincerely,

Mrs. Lou Wylie Hayes

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to my letter of February 3, 1964, setting forth information concerning a slip of paper bearing four telephone numbers which was found in one of the pockets of the trousers worn by Oswald at the time he was shot by Jack Ruby. Inquiry concerning this matter has been made by our Dallas Office and the following information is submitted:

Captain J. W. Fritz, Homicide and Robbery Bureau, Dallas, Texas, Police Department, advised that Oswald requested permission to call Attorney John Abt in New York City but did not have his telephone number. Captain Fritz told Oswald he could call collect and that he would have to give the operator the name of the person he wanted without the number and it being an attorney in New York, the operator would locate Abt and furnish the telephone number to him. Captain Fritz also told Oswald the operator would want to know the number he was calling from. In this connection, it is noted the telephone number RI 9-7711 appears on the dial of the telephone in the jail and this was one of the four numbers on the piece of paper found in Oswald's trousers.

Captain Fritz advised that when Oswald was permitted to use the telephone, one of the jail officers, Jim Poppelwell, took Oswald from his cell to the phone and Oswald tried to call his attorney collect. He obtained the telephone number from the operator and Oswald then commented he could not recall the number and asked Poppelwell to get him paper and a pencil in order to write the number down. Captain Fritz stated that the calling of an attorney and the furnishing of a pencil and paper to the prisoner to write were all within the regulations of the city jail.

Officer Poppelwell advised he tore off a small piece of paper from the corner of what is called a Telephone Contact Slip and, after receiving permission from his superior officer, furnished the piece of paper and pencil to Oswald so Oswald could write down the telephone number. Poppelwell advised that Oswald again attempted to call Abt but was unable to get the call through. He states he later took Oswald to the phone again and Oswald made two or three attempts to call. He states he does not know if the calls were completed or the identity of the person Oswald was trying to call. The police department kept no records of the numbers Oswald tried to call. Captain Fritz advised that the following morning, November 23, 1963, he talked with Oswald and inquired if Oswald had made his call. Oswald told Captain Fritz he had been allowed to make the call but had been unable to contact Attorney Abt. With reference to the piece of paper furnished by Officer Poppelwell to Oswald, it is noted this paper was two and one-fourth inches long by one and a quarter inches wide and that two telephone numbers were written down each side.

Our New York Office has advised that the office address for Attorney John J. Abt is 320 Broadway, New York City, the same address as the law firm of David Freedman and Abraham Unger. The telephone number for the law firm of Freedman and Unger is CO 7-3110 and this same telephone number is listed in the New York telephone directory for John J. Abt.

It is noted that the telephone number AC 2-4611, which appeared on the slip of paper in Oswald's trousers, is listed to Attorney John J. Abt, 444 Central Park West, New York City.

Telephone number RI 8-9711 is the general telephone number for the City of Dallas, Texas, and it is noted Captain Fritz states that this number appears on the dial of the telephone which was utilized by Oswald in making his calls.

The reason why the telephone number OR 9-9450, the number for "The Worker," 23 West 26th Street, New York City (East Coast Communist Party newspaper), appears on this slip of paper is not known. The possibility exists that the operator, at Oswald's request or on her own initiative, may have attempted to reach Attorney Abt at this number.

INTERNAL SECURITY - RUSSIA

PRESIDENT's COMMISSION
ASSASSINATION OF THE PRESIDENT

On January 30 and 31, 1964, Mr. Melvin Eisenberg, Norman Redlich, and Charles N. Shaffer of the President's Commission staff came to the Bureau and examined certain items of an evidentiary nature which were in the possession of the Bureau. During their examination an official request was made through Charles N. Shaffer to have made available to the President's Commission the items of clothing worn by Lee Harvey Oswald at the time of his arrest in Dallas on November 22, 1963, by the Dallas Police Department.

After checking into this matter it was determined the only item of clothing in the Bureau's possession was a brown sport shirt which had been obtained for examination purposes from the Dallas Police Department and was still in our possession. The other items of clothing worn by Oswald at the time of his arrest were retained by the Dallas Police Department for evidence in connection with the trial of Jack Ruby who shot Oswald.

The request was then made that the items of clothing available in the Dallas Police Department be made available to the President's Commission and to have such material available during the questioning of Marina Oswald, which was to commence at 10:00 a.m. on February 2, 1964. This request was confirmed in writing on February 1, 1964, in a letter signed by Honorable J. Lee Rankin. After appropriate contact with District Attorney Wade and officials of the Dallas Police Department, arrangements were made for all items of clothing worn by Oswald to be brought to the Bureau on Sunday, February 2, 1964, by an Agent of the Dallas Office. In order to obtain these items of clothing, it was necessary to guarantee to the Texas authorities that these items would be returned to Dallas not later than the end of this week, inasmuch as a local hearing in the Ruby case was scheduled in Dallas on February 10. It was also necessary to agree with the Dallas authorities that these items of clothing would remain in the custody of Special Agent Vincent Drain until returned to the Dallas Police Department in order to maintain the chain of evidence.

Prior to making these articles of clothing available to the Commission, Mr. Rankin was located in New York and telephonically advised of the circumstances under which the clothing was obtained and it would therefore be necessary that these items of clothing be returned to Dallas by the end of this week. Mr. Rankin stated that the request would be complied with and if any difficulty arose he would personally contact the local authorities in Texas in order to try and work out appropriate arrangements; otherwise, it would be returned as requested.

Upon receipt of the clothing and prior to making it available to the President's Commission, it was checked by Laboratory personnel only for the purpose of seeing if any extraneous items might be in the pockets of the clothing. A slip of paper bearing four telephone numbers was located in the right-hand side pocket of the trousers. These telephone numbers are as follows: OR 9-9450; RI 8-9711; AC 2-4611; and CO 7-3110. Inquiry by our Dallas and New York Offices has resulted in these numbers being identified as follows:

RI 8-9711 is the general telephone number for the City of Dallas, Texas;

OR 9-9450 is the telephone number for "The Worker", 23 West 26th Street, New York City;

CO 7-3110 is the telephone number for the law firm of David Freedman and Abraham Unger, 320 Broadway, New York City. (The firm of Freedman and Unger has represented the Communist Party and various members on numerous occasions for a period of years.)

AC 2-4611 is listed to John J. Abt, residence 444 Central Park West, New York City. (Abt is an attorney and has represented individuals in the Communist Party for a number of years.) This number is also listed to Jessica Smith, who is the wife of John J. Abt and uses her maiden name as a practising attorney. (Both Abt and Smith have represented members of the Communist Party for a number of years.)

The clothing was taken to the President's Commission offices 2/3/64 at which time Norman Redlich and Melvin Eisenberg advised they did not know when these items of clothing would be needed in connection with the questioning of Mrs. Oswald. They were advised of the circumstances under which the clothing was

In conversation today with Mr. Howard Willens, Willens advised the questioning of Marina Oswald relative to the clothing would be handled at the earliest possible time in order that it could be returned to the Dallas authorities.

ACTION:

There is attached a letter to Mr. Rankin in response to his letter of February 1, 1964, relative to these items of clothing and information regarding the telephone numbers.

It is significant that the last three numbers were in Oswald's pants at time of arrest. It raises question as to his possibly anticipating trouble from some act of his. Also I don't know why our Dallas office didn't go over these articles at time of Oswald's arrest.

Harold Willens connected with the captioned Commission, called Weekend Supervisor, Henry S. Ursic at 3:30 p.m. and requested that arrangements be made to have the original documents and letters pertaining to the translations delivered to the Commission earlier today.

Mr. Willens furnished a list of the numbers pertaining to the identity of the specific documents desired by the Commission. He stated that if there was any difficulty in having these documents delivered that he be telephonically advised and in his absence that the information be furnished to Mr. Rankin.

The identities for the documents and the request of Mr. Willens was furnished to Roy Jevons of the Laboratory who advised that the documents will be delivered as requested. Mr. Jevons is aware of Willens' request that he be promptly notified in the event there is any difficulty in obtaining the original documents.

Dear Mr. Rankin:

For possible use by the Commission in this matter, there is being submitted a set of photographs of the items recently reviewed by Mr. Melvin Eisenberg of your staff.

Mr. Eisenberg has requested the results of the chemical analysis of items A33, described as "Squibbs" tablets; A57, described as two small unlabeled brown bottles with liquids and A58, bottle of clear liquid bearing labels with Cyrillic printing. The tablets in item A33 are composed of a Penicillin compound with the trade name "Pentids." One bottle in item A57 contains hair tonic and the other one contains shampoo. The bottle in item A58 contains a forty per cent ethyl alcohol solution. Labels appearing on this bottle have been translated as follows: "Moscow Liquor Distillery Factory (Brand name unintelligible) Strength 40% 2R liq. - 1/60."

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

I have just recently received unconfirmed information alleging Don B. Reynolds, a Silver Spring, Maryland, insurance agent, had made various statements relating to the assassination of the late President Kennedy. One of the statements attributed to him alleges that President Lyndon B. Johnson, as well as Governor Connally of Texas, was implicated in the assassination. Another statement is that I have gathered sufficient evidence to substantiate this charge. Immediately upon receipt of this information, I instructed Reynolds be located and interviewed to straighten this matter out.

Enclosed are two copies of the interview of Reynolds conducted on 1-24-64, by Agents of this Bureau. You will note Reynolds in essence denies the statements attributed to him. You can also be assured that I have not received any information to implicate President Johnson or Governor Connally in the assassination.

In Reynolds' interview, he furnished an additional allegation indicating that while Governor Connally was in Washington, D. C., and Lee Harvey Oswald was staying at the Young Men's Christian Association in Dallas, Texas, Oswald received several long-distance calls. Reynolds states he was not told these long-distance calls were from Governor Connally or Washington, D. C., but the implication left with him was that Oswald might have had calls from Connally. Our Dallas, Texas, Office has checked this

matter out, and I have been advised the room in which Lee Harvey Oswald stayed at the Young Men's Christian Association on the night of October 3-4, 1963, did not have a telephone available. Further, no records are maintained by the Young Men's Christian Association on long-distance calls received and guests are not permitted to make outgoing long-distance calls.

Inasmuch as Reynolds' interview specifies he does not know who told him and he has no facts whatsoever to support the above allegation, this Bureau has made no effort to ascertain the whereabouts of Governor Connally on October 3 and 4, 1963.

The above is being furnished for your information.

SUBJECT: DON B. REYNOLDS
INFORMATION REGARDING CASE
INVOLVING ASSASSINATION OF
PRESIDENT JOHN F. KENNEDY

On 1-22-64, Mr. Walter Jenkins at the White House furnished information that Don Reynolds, an [redacted] insurance agent in Silver Spring, Maryland, is alleged to have made the following statements: That President Johnson was soon to be impeached and that the Director had collected sufficient data to prove Johnson was involved in the assassination of President Kennedy. That Governor Connally of Texas had been an accomplice of President Johnson in the assassination and that Clint Murchison had kept Oswald in a Dallas hotel for several days prior to the assassination. The Director instructed that Reynolds be interviewed at once and "make him put up or shut up."

On 1-24-64, Reynolds was finally located and interviewed by Agents of the Washington Field Office in the presence of his attorney in Silver Spring, Maryland. He admitted knowing the FBI had been seeking to interview him the previous day but wanted to wait until his attorney was present. Reynolds was confronted with the allegations attributed to him and he gave the following answers:

He denied having told anyone that President Johnson was going to be impeached. He stated he may have said a hundred years ago we had a President Johnson who missed impeachment by one vote. Reynolds stated, to the best of his knowledge and recollection, he has never made the statement to anyone that the FBI has information, evidence or data in its possession which would prove President Johnson was implicated in the assassination of President Kennedy.

which he drew from conversations and hearsay and that he had nothing further to add concerning the assassination.

During this interview, Reynolds said he has no substantiation whatsoever but he had been told while Governor Connally of Texas was in Washington, D. C., and Lee Harvey Oswald was residing in the YMCA in Dallas, Texas, Oswald was supposed to have received long-distance calls. Reynolds stated he was not told these long-distance calls were from Connally or from Washington, D. C., but the implication left with him was that Oswald might have had calls from Connally.

This information was immediately furnished to our Dallas Office so it could be checked out. Dallas advises that investigation at the YMCA where Oswald is known to have stayed on the night of October 3-4, 1963, reveals no telephones in the rooms and no records were kept of long-distance calls made to the YMCA, and further, guests were not permitted to make long-distance calls out.

On 1/27/64, Mr. Jenkins at the White House was furnished a copy of the results of Reynolds' interview.

Inasmuch as Reynolds, on interview, stated he does not know who furnished the information to him relating to Governor Connally calling Oswald and he is in possession of no facts whatsoever to support this, no effort has been made to determine the whereabouts of Governor Connally during the period of October 3-4, 1963.

Mr. Melvin Eisenberg of the President's Commission called today and made inquiry as to the availability of certain items described in Agent Gamberling's report dated 12/23/63. He described these items as: (1) "Marina" bracelet (2) Paperback Spanish-English and English-Spanish Dictionary (3) Folder entitled "Rules Governing" (4) Merriam-Webster Dictionary (5) Cookbook.

Mr. Eisenberg also requested that he be supplied with the chemical analyses of one item described as "Squibbs" tablets (Item not on list) and an item identified as two small brown unlabeled bottles with liquid (Item A57 on list). He was told that these results would be submitted to him.

During the telephone conversation, he also suggested that we should arrange to have all of the evidence pertaining to this case that is presently in the field sent to the Bureau where it would be available to the Commission when the need arises.

It has been ascertained that the Dallas Office has just sent the "Marina" bracelet and the cookbook to the Bureau and that Dallas is making arrangements to submit the other three items.

The Domestic Intelligence Division is making arrangements to have the field submit all items of evidence pertaining to this matter and not currently being used in connection with leads.

Mr. Eisenberg was advised that two of the items that he had inquired about are presently on the way to the Bureau and that arrangements were being made for the other three items to be submitted.

Dear Mr. Rankin:

Reference is made to your oral request of this Bureau on January 22, 1964, that appropriate officials of the Communist Party, USA, the Socialist Workers Party and the Fair Play for Cuba Committee be contacted officially by this Bureau and be requested, on behalf of the President's Commission, to make available copies of all correspondence and any other material that they might have relative to Lee Harvey Oswald.

On January 27, 1964, we contacted Mr. Vincent T. Lee, National Director, Fair Play for Cuba Committee, New York, New York, in this matter. Mr. Lee advised that his organization has no data concerning Oswald which has not already been furnished to this Bureau for forwarding to the President's Commission. The material furnished by Mr. Lee was described in report of Special Agent John James O'Flaherty dated December 11, 1963, at New York, New York, in the Lee Harvey Oswald investigation.

We also contacted Mr. Farrell Dobbs, National Secretary, Socialist Workers Party, New York, New York, on January 27, 1964, in the presence of his attorney, Mr. Rowland Watts. Mr. Dobbs declined to furnish information to the Federal Bureau of Investigation but stated that the Socialist Workers Party does have certain data concerning Oswald which had been turned over to Mr. Watts who would make this material available directly to the President's Commission.

Mr. Watts requested that he be sent a letter from Mr. J. Lee Rankin requesting material concerning Oswald in the possession of the Socialist Workers Party and he would then forward such material directly to the President's Commission. Mr. Watts stated this letter should be directed to Rowland Watts, President, Workers Defense League, 112 East 19th Street, New York, New York.

Mr. Watts and Mr. Dobbs described the material in the possession of the Socialist Workers Party concerning Oswald as follows:

1. A record of Oswald's subscription to the "Militant," the official Socialist Workers Party publication.

2. A letter from Oswald indicating his desire to join the Socialist Workers Party.

3. A letter from Oswald setting forth a change of address.

Mr. Watts stated that Oswald's request for membership in the Socialist Workers Party was answered routinely to the effect that since there was no Socialist Workers Party branch in Oswald's area, Oswald might desire to distribute the "Militant" in his home area.

Mr. Dobbs was informed by this Bureau that his request to deal directly with the President's Commission would be furnished to the Commission.

Mr. Arnold Johnson, Legislative Director of the Communist Party, USA, was interviewed on January 29, 1964, at the office of attorney John Abt and stated that the statement he made to the press to the effect he forwarded correspondence with Oswald to your Commission was made on the basis of his assumption that such correspondence, which he turned over to this Bureau, had in turn been forwarded to the Commission. Mr. Johnson stated he has no documents dealing with Lee Harvey Oswald in addition to the material previously furnished to this Bureau. The material referred to by Mr. Johnson is described in Special Agent O'Flaherty's reports dated December 6 and December 9, 1963, at New York, New York.

Honorable J. Lee Rankin

John Abt, on the occasion of our January 29, 1964, interview of Mr. Johnson, said that he was to be in contact with Gus Hall, General Secretary of the Communist Party, USA, and would arrange an interview of Hall as soon as possible. The results of our interview of Mr. Hall will be immediately brought to your attention upon receipt.

Sincerely yours,

J. Edgar Hoover

NOTE:

Hall and Johnson were supposed to be available for interview on 1-28-64. They stalled us until the morning of the 29th and it is possible there may be further delay; hence, we are not specifically advising the Commission when we expect to complete the interviews.

The memorandum dated 1/29/64, to you from Mr. White regarding this matter advised of the arrangements for representatives of the President's Commission and the Department to view the evidence presently in the Laboratory and to select certain items pertinent to the pending interview of Mrs. Oswald by the Commission.

Yesterday afternoon, 1/29/64, Messrs. Norman Redlich and Melvin Eisenberg of the Commission, along with Mr. Charles Shaffer of the Department, began screening the numerous items and designating those believed to be pertinent to the interview. This screening which was carried out in the presence of representatives of the Domestic Intelligence Division and the Laboratory was continued today by Messrs. Eisenberg and Shaffer and was completed this afternoon.

Those items selected by the Commission representatives are indicated on the attached list with a plus sign before the item number. This designation was placed there by Mr. Eisenberg. (For your information, the "0" designation before the item means they do not want the one so designated at this time. The "B" designation stands for "Book" which they may want at a later time.) The Domestic Intelligence Division has been furnished a copy of this list with the designations.

Mr. Eisenberg stated he would prefer that these items be delivered to the Commission a few at a time as the need arises. He will advise which ones are desired the day before they are needed.

They also selected at this time, certain foreign language items for which they desired the translation. These are being furnished to them under appropriate cover letter.

Memorandum

TO : Mr. Evans

DATE: January 30, 1964

FROM : W. V. Cleveland

SUBJECT: LEON DAYRIES HUBERT, JR.
PRESIDENT'S COMMISSION ON THE
ASSASSINATION OF PRESIDENT KENNEDY

PURPOSE

This is to advise that a Standard Form 86 (Security Investigation Data for Sensitive Position) has been received from Civil Service Commission (CSC) for processing under Executive Order 10450 (Federal Employee Security Program) on Hubert. Pertinent subversive derogatory information in Bureau files is being furnished to CSC with advice no investigation is being contemplated in the absence of a specific request. While the form lists the General Services Administration (GSA) as the employing agency, we know Hubert is with the President's Commission and the GSA is acting solely as the "housekeeping" unit for the Commission.

BACKGROUND

Hubert was born July 1, 1911, at New Orleans, was an Assistant United States Attorney from 1935 until 1942 and again from 1945 until 1946; was District Attorney of New Orleans from 1954 until 1958. He also has served as a professor of law at Tulane University.

Hubert was the subject of an applicant investigation in 1937 at the request of the Department of Justice. He was then serving as Assistant United States Attorney in New Orleans. Investigation was favorable and he was described as an honor student both as an undergraduate and graduate student at Tulane. (77-8959)

Bureau files also indicate that Leon D. Hubert, Jr., 2302 American Bank Building, New Orleans, was a member-at-large of the National Lawyers Guild (NLG) and that he resigned therefrom on May 11, 1940. (100-7321-6)

The NLG has been cited by the House Committee on Un-American Activities. (We will furnish copies of the above-mentioned applicant reports plus a statement as to his reported membership in the NLG to the CSC.)

Dear Mr. Rankin:

This will confirm delivery to the Commission by Inspector J. R. A copy of our memorandum dated February 1, 1964, at Dallas, Texas, entitled "Lee Harvey Oswald" setting forth data furnished by Marina Oswald concerning each photograph exhibited to her, was also furnished to the Commission, February 2, 1964.

This will also confirm oral information furnished to Commission by Inspector J. R. Malley, February 2, 1964, that Marina Oswald, in commenting on certain of the photographs, indicated that item one, photograph five; item seven, photograph five; item fourteen, photograph one; and item three hundred sixty-nine may be photographs of the residence of General Edwin Walker. She stated she had never seen General Walker's residence and could not recognize it from photographs. She added that Lee Harvey Oswald had told her he had taken a photograph of the Walker residence and since she could not recognize the houses depicted in the photographs exhibited to her by the interviewing Agents, she felt such photographs might be those taken of the residence of General Walker by Lee Harvey Oswald. 62-109090-

Washington, D. C. 20530

Dear Mr. Hoover:

Your Memorandum of December 23, 1963, regarding Lee Harvey Oswald states that on November 28, 1963, a confidential source abroad made available to a representative of the Bureau a copy of a bus manifest from a company called "Transportes Frontera".

According to the Memorandum, this manifest covered a trip departing Mexico City at 1 p.m. on October 2, 1963 for Nuevo Laredo, with a scheduled arrival time at Nuevo Laredo of 6 a.m. on October 3, 1963. The manifest was reported to show that a passenger named "Oswald" was to occupy seat No. 4 and that his destination was Laredo. The confidential source also gave the names of the chauffeurs who drove this bus from Mexico City to Nuevo Laredo. However, it does not appear to us that the confidential source has furnished us with the names, destinations and other available information on other passengers on this same bus. We would appreciate your obtaining this additional information for the Commission if it is possible to do so.

If you are able to obtain this additional information, we would like you to contact as many of Lee Harvey Oswald's fellow passengers as possible for whatever relevant information they may have and to conduct any further investigation you consider appropriate.

Sincerely,

J. Lee Renkin
General Counsel

UNITED STATES GOVERNMENT

Memorandum

TO: MR. BELMONT

DATE: February 7, 1964

FROM: MR. W. C. SULLIVAN

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

The Director's affidavit prepared for submission to the President's Commission to refute the allegation that Oswald was an FBI informant states, in part:

"The emergency conditions that prevailed during World War II when the FBI conducted its SIS program did not permit the tight supervision that prevails currently in the FBI's informant operations. But this is true only in regard to the fact that SIS men necessarily were given the latitude to develop and pay informants on the spot without prior approval from FBI headquarters. Nevertheless, SIS men operated under a control system and adhered to it by advising FBI headquarters of payments made and the identity of the individuals paid. Such payments were supported by receipts in nearly every instance."

This statement is supported by the following details which have been developed:

Eight Bureau Officials and Agents who were actively engaged in the SIS Program have been specifically interviewed on this point and are unanimous in declaring that every cent expended in our foreign operations was meticulously accounted for in official vouchers which were subjected to thorough review and supported in nearly all instances by actual receipts. These men state that so far as the accountability of funds was concerned, the same rules applied in the foreign field as were enforced in the domestic field. In this regard, the Manual of Rules and Regulations then in force in Section 130, captioned "Vouchers," required that "receipts should be secured for confidential expenditures wherever it is possible and practical to do so."

It is my personal recollection from my SIS experience that this rule was strictly adhered to and that never was there any question of operating in any other manner. This is borne out by the record.

George Hall (now ASAC, Baltimore) was responsible for reviewing all vouchers submitted by SIS Agents from mid-1942 until 1946. In addition, he lectured to each class of new SIS Agents during this period. He states he instructed the Agents to secure receipts for every expenditure, including those to informants, to the fullest extent possible and in any event to fully account for each and every expenditure. That this was done is attested by the research conducted by the Administrative Division in locating the vouchers submitted by Wade. Mr. Jackson of that division personally examined all of the vouchers and receipts submitted by fifty other SIS Agents and noted that the expenditures of funds by these Agents were properly accounted for in each instance.

Heber Clegg (now ASAC, Salt Lake City) was Number One Man to C. H. Carson (now deceased) in the SIS Division and also recalled that payments to informants were handled in accordance with regulations in force in the domestic field. Clegg not only supervised operations at headquarters but also made actual inspection trips throughout Latin America and states that he and the other Inspectors made a point of looking into the expenditures made in connection with the informant program. He recalls that the Inspectors talkedwith each Agent whether undercover or on open assignment and discussed their informants and the payments they received making sure that the Bureau was receiving full value for the money that was being spent.

Assistant Director Tavel recalls that Agents were required to submit regular expense accounts, that these were subjected to rigid examination and inspection and that it was necessary to account for every single expenditure that was made.

SAs Nathan L. Ferris, Sam Papich, Sheldon Parks, and Wade Knapp, all of whom saw extensive SIS duty, fully support the foregoing statements.

Wade's own file contains a memorandum from C. H. Carson to Mr. Ladd, July 30, 1942, which states that Wade was given definite instructions in regard to the preparation of his expense vouchers. While Wade was still in training, an audit and inspection of SIS accounting methods was performed and they were found to be in order and correct, and a system of 90-day audits was established.

OBSERVATION:

It is abundantly clear from the foregoing that we had controls in effect and that those controls were followed, even by Wade. While we cannot prevent future irresponsible and unjustified statements, we believe we can refute them, too, by the detailed records which we have available.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

-- In accordance with the Director's request, we have prepared the enclosed affidavit incorporating facts which clearly refute the allegation that Lee Harvey Oswald was an FBI informant and which also refute testimony given to the President's Commission by Mr. Henry M. Wade that (1) the FBI does not account for money paid to informants and (2) Wade, while serving in the FBI's Special Intelligence Service (SIS), was provided with funds to pay informants and was not held accountable for the money.

The affidavit is sound and constitutes an unequivocal refutation of the false allegations. The Director may desire to use this affidavit in connection with an appearance before the President's Commission.

RECOMMENDATION:

That the enclosed affidavit be forwarded to the Director. This affidavit should be dated when executed.

ADDENDUM, 2/5/64 (AHB:csh) -
Please note this affidavit goes into detail as to Wade's activities in SIS. The purpose is to show that our records, even 20 years ago, show accountability for monies expended. I wonder, however, if we don't labor this too much, as it fills two pages of a 4-page affidavit. Also, we mention the country where Wade was assigned undercover, namely Ecuador. Possibly this will raise a fuss in Ecuador and South America. I suggest we eliminate the name of the country.

Re: Lee Harvey Oswald, IS-R-Cuba

Addendum, continued:

In addition, this affidavit goes into detail, i.e., that headquarters must authorize the field to develop an informant; he is given a permanent symbol and code name; headquarters must authorize payments; and receipts and vouchers are submitted by the field to headquarters. In Federal Court trials against the Communist Party and individual communists, the defense has repeatedly made every possible attempt to explore our handling of informants and get its hands on our records, under the Jencks decision, etc. This public affidavit may provide the basis for the defense to demand further records, such as our vouchers or blue slips and all correspondence between the Bureau and our field offices dealing with the development and handling of an informant who is used as a witness.

I suggest we show this proposed affidavit to Assistant AG Yeagley to see whether it would provide a basis for the defense to demand and secure such Bureau records at a trial. If he thinks it will result in such action, it is suggested we rewrite this affidavit to make it as strong as possible and yet eliminate such particulars.

A. H. Belmont

I think affidavit is adequate. I don't want to quibble with Commission re it. Prepare it for notarizing & date it & Gurley sign it. It should then be transmitted to Rankin advising of his conference with me.

I, J. Edgar Hoover, Director of the Federal Bureau of Investigation, do hereby swear and depose that Lee Harvey Oswald was never an informant of the FBI, was never assigned a symbol number in that capacity, and was never paid any amount of money by the FBI in any regard.

Such a statement can be made authoritatively and without equivocation because of the close supervision FBI headquarters affords its security informant program and because of the safeguards established to insure against any abuse or misuse of the program.

FBI field offices cannot proceed to develop anyone as a security informant without authorization from FBI headquarters. An informant is assigned a permanent symbol number and code name to afford him security. The informant never knows the symbol number assigned to him. It is a number permanently assigned to him, and the same number cannot be used again by the field office under any circumstances for any other individual. The individual also is given a fictitious or cover name by the field office which he, of course, is made aware of, and he affixes it to his communications with the office. Every symbol number and code name is indexed here at FBI headquarters.

If the services of an informant warrant payment on a regular basis, the field offices must also obtain authorization from FBI headquarters to make such payments.

Special Agents in Charge (SACs) of our field offices are authorized to make payments to individuals not utilized on a regular basis as informants, but here too FBI headquarters controls this by limiting the amount an SAC can pay to any one individual in this category. FBI headquarters maintains control of such payments as they must be accounted for by the field offices at the end of each month through the submission of a detailed accounting to headquarters.

Had any of our offices made payments to Lee Harvey Oswald under the SAC's authority, these would have been shown in the receipts and vouchers submitted by each office. Those records have been checked and no such payment was ever made.

ENCLOSURE

Had Oswald been assigned a symbol number, this would be a matter of record not only by number but also by name. As a matter of fact, we can identify every symbol number used, past or present. Oswald could not have been assigned such a symbol number without approval by FBI headquarters. There is no record of any such request by any field office and no record of any such approval.

The only contacts FBI Agents had with Oswald prior to the assassination of President Kennedy involved three interviews FBI Agents had with him. The first was on June 26, 1962, at Fort Worth, Texas, shortly after his return home from the Soviet Union. The purpose was to assess the possibility of his having been given intelligence assignments by the Soviets. The second, on August 16, 1962, was in the same connection. The third was at his specific request on August 10, 1963, following his arrest in New Orleans the preceding day on a charge of disturbing the peace and creating a scene. At that time, he described some of his activities in connection with the Fair Play for Cuba Committee, the pro-Castro organization.

Oswald was again interviewed by FBI Agents at the Dallas Police Department following his arrest after the assassination of the President. This interview was aimed at eliciting any admissions he might make in connection with the assassination, as well as to obtain any information he might have been able to furnish of a security nature.

We have obtained affidavits from every Agent who was in contact with Oswald. In addition, we also have secured affidavits from their respective SACs. These affidavits show that none of these FBI Agents developed Oswald as an informant.

I have been advised that Mr. Henry M. Wade, a former Special Agent of the FBI and currently the District Attorney of Dallas County, Texas, previously testified to the Commission that he had heard that Lee Harvey Oswald was an FBI informant with the symbol number "179" and was being paid $200 monthly. As the facts clearly show, this is not true.

Furthermore, the facts refute Mr. Wade's reported statement to the Commission that there is no record maintained in the FBI of informant funds expended or the purposes for which used by the FBI employee to whom they are furnished.

Mr. Wade reportedly stated that he had worked in the FBI's Special Intelligence Service (SIS) and that he was supplied from time to time with various sums of money for which he did not have to account and for which he did not have to obtain any receipts from the persons to whom he disbursed the money.

The emergency conditions that prevailed during World War II when the FBI conducted its SIS program did not permit the tight supervision that prevails currently in our informant operations. But this is true only in regard to the fact that SIS men necessarily were given the latitude to develop and pay informants on the spot without prior approval from FBI headquarters. Nevertheless, SIS men operated under a control system and adhered to it by advising FBI headquarters of payments made and the identity of the individuals paid. Such payments were supported by receipts in nearly every instance.

Wade, for example, entered on duty with the FBI on December 4, 1939. On July 6, 1942, Wade was advanced the sum of $1,075 in connection with an SIS assignment. This was for subsistence and travel in connection with his assignment in Ecuador as well as to provide him with some money to finance his operations. His passage from New Orleans to Guayaquil, Ecuador, cost over $500 alone. In addition, he was required to make full restitution of the total amount which had been advanced him and subsequently did so. All of his expenditures of the total amount furnished him were substantiated by vouchers he submitted.

Wade arrived in Ecuador on August 16, 1942. He operated in an undercover capacity with a symbol number, specifically Number 345, and used the code name "James" in signing communications. Within Ecuador, he was referred to as Confidential Informant Number 6.

Although in an undercover capacity, Wade was required to submit vouchers twice monthly through the Legal Attache's Office in Quito, Ecuador. They were reviewed there and forwarded to FBI headquarters where they were checked prior to approval and the transmittal of funds to Wade's account.

In his operations, Wade handled a total of 11 informants. His vouchers clearly identify each expenditure

made by him in connection with payments to any one of these informants. In all, Wade expended a total of $1,438.21 in payments to informants. In addition to identifying each informant paid and indicating the amount paid to each, he complied with the regulations to furnish separately summary data on all informants he was using and an evaluation of their services.

Five of the informants Wade was operating were the most productive. These five received a total of $1,284.94 in 52 separate payments made by Wade. Each of these payments was supported by a receipt. Six other payments unsupported by receipts were accounted for by Wade in vouchers submitted by him.

Wade left Ecuador on May 2, 1943, and in a letter dated May 25, 1943, submitted his resignation from the FBI. By letter dated June 13, 1943, Wade sought reinstatement, stating that he had made a mistake in resigning. However, this request for reinstatement was refused since the FBI's request for his deferment under the Selective Service Act already had been withdrawn.

Dear Mr. Rankin:

Reference is made to your letter dated January 31, 1964, wherein you itemized communications prepared by the FBI which should be furnished to the Central Intelligence Agency (CIA). Separately, CIA is being furnished with a copy of all the communications mentioned in your letter, in addition to all reports under the Oswald caption prepared in our Dallas Office.

With regard to a communication captioned "Oswald Trip to Mexico," dated December 23, 1963, we are forwarding to CIA a memorandum captioned "Lee Harvey Oswald," dated December 23, 1963, which contained information relative to Oswald's trip to Mexico. It is believed that this is the pertinent document.

With regard to correspondence carried on by Lee Harvey Oswald with persons in the Soviet Union, as you know, some of this correspondence is currently being fully translated at your request and upon completion of this translation, copies of the pertinent letters will be furnished to CIA.

ENCLOSURE

As you requested, this Bureau will furnish CIA communications on a current basis which fall into the general areas outlined in your letter.

Dear Mr. Hoover:

We understand you already have furnished the Central Intelligence Agency with the Summary Report entitled "Investigation of Assassination of President John F. Kennedy, November 22, 1963," and accompanying exhibits; the Summary Report entitled "Investigation of Killing of Lee Harvey Oswald, Dallas, Texas, 24 November 1963;" and the two Supplemental Reports to these summaries. At a conference on January 28, 1964, attended by Mr. Malley and representatives of the Secret Service and the Central Intelligence Agency, we discussed the possibility of supplying additional reports of the Federal Bureau of Investigation to the Central Intelligence Agency in order to enable that agency to be of further assistance to the Commission. It was agreed that F.B.I. reports would be made available to C.I.A. and that representatives of the two agencies would consult regarding the precautions to be taken in the use of these materials.

Accordingly, the Commission would appreciate your furnishing the C.I.A. (Attention: Mr. Richard Helms) copies of the following reports:

Dear Mr. Hoover:

I would like to acknowledge your three letters dated February 1, 1964 received by Courier Service and transmitting photographs of items of physical evidence in the possession of the Federal Bureau of Investigation, the results of the handwriting examinations made of certain exhibits and translations of various items requested by members of my staff. We also received on February 1, 1964 numerous exhibits requested by members of my staff for use in the interrogation of Marina Oswald.

On behalf of the Commission I would like to thank you for the special effort made by agents in the FBI Laboratory to prepare these materials and deliver them to the Commission on short notice. As usual, the work of your agents was of the highest caliber and I know that these materials will be of great value during the next several days.

Sincerely,

ENCLOSURE

Item #268

It was concluded that the body of this item was written by MARINA OSWALD. No conclusion could be reached whether the Lee H. Oswald signature was written by LEE HARVEY OSWALD, due to the lack of known signatures of LEE HARVEY OSWALD written in Cyrillic script.

Item #269

It was concluded that this item was not written by either LEE or MARINA OSWALD.

Items #271 through 273

It was concluded that MARINA OSWALD wrote item #273. Items 271 and 272 were not written by either LEE or MARINA OSWALD.

Item #275

It was concluded that this item was not written by either LEE or MARINA OSWALD.

Item #279

It was concluded that this item was not written by either LEE or MARINA OSWALD.

Item #323

It was concluded that the signature on the outside of the cover was not written by either LEE or MARINA OSWALD. It was further concluded that the signature on the inside page was not written by MARINA OSWALD, but no conclusion could be reached with respect to LEE HARVEY OSWALD, due to the lack of known signatures written in Cyrillic script.

Item #338

It was concluded that the signature on the inside of the front cover was not written by MARINA OSWALD, but no conclusion could be reached with respect to LEE HARVEY OSWALD, due to the lack of known signatures written in Cyrillic script.

Item #340

It was concluded that this item was not written by either LEE or MARINA OSWALD.

Item #350

It was concluded that MARINA OSWALD wrote item #350.

Item #453 — It was concluded that this item was not written by either LEE or MARINA OSWALD.

Item #450 — It was concluded that the hand printing on this item was written by LEE HARVEY OSWALD.

Item #D-6 — The Russian writing and most of the Spanish writing in this item were written by MARINA OSWALD. No conclusion could be reached with respect to the figures 1 through 27 and the Spanish equivalents of these figures due to the limited nature of the writing and the presence of unexplained handwriting variations.

Item #D 24 — The Spanish writing in this item was not written by [illegible]. But to the lack of known writings of [illegible] in English script, no conclusion could be reached whether she prepared the English handwriting in item D 24.

There is enclosed an editorial from the "Charlotte News," Charlotte, N. C., of 2/10/64 as written by Mr. BRODIE S. GRIFFITH, Editor. The enclosed editorial sets forth the editor's thinking concerning Chief Justice EARL WARREN's statements made in regard to the LEE HARVEY OSWALD case.

Just The Facts, Judge

Chief Justice Earl Warren may have been a bit rusty earlier this week when he declared that Marina Oswald's testimony "may be suppressed for decades" in the interests of national security. At the time he said this, there seemed little reason to believe her testimony would be anything but a pedestrian account of life with accused assassin Lee Harvey Oswald. The statement by Justice Warren, chairman of the presidential commission investigating the Kennedy assassination, merely made reporters suspicious.

The day after he made this statement, Justice Warren said that he "was being a little facetious." Then he added: "This man (Oswald) was over in Russia. He went down to Mexico. We don't yet know what it will involve; there may be security aspects."

What this adds up to is a bit of clumsy tightrope walking by Justice Warren. In one swoop, he has laced the public imagination with the possibility of conspiracy and he has violated the injunction laid on the investigating committee by the President. Mr. Johnson wanted the group to find out the truth about the assassination of John F. Kennedy and relate it to the American people and the world. When the evidence is in, Justice Warren is supposed to tell the public what it means — not "suppress it for decades."

LEE HARVEY OSWALD

And until it is in, the chief justice should refrain from putting out titillating hints or assuming an authority that is rightly the President's.

Dear Mr. Rankin:

A confidential source who is a prominent attorney and member of the Grievance Committee of the Dallas Bar Association, Dallas, Texas, confidentially informed this Bureau on February 16, 1964, that he had learned from William A. McKenzie, another attorney in Dallas, that McKenzie had been in contact with Robert Oswald, brother of Lee Harvey Oswald, on February 15, 1964. McKenzie told our source that Robert Oswald is to appear before the President's Commission on February 20, 1964.

Mr. McKenzie also told our source that during his contact with Robert Oswald he learned that sometime during the week during which Marina Oswald, wife of Lee Harvey Oswald, testified before the President's Commission, Marina Oswald was [redacted] with James Herbert Martin, her business manager. McKenzie also learned from Robert Oswald that Martin and Marina Oswald's attorney, John M. Thorne, had an adjoining room to Marina Oswald's room in Washington, D. C.

Our source got the impression from Mr. McKenzie that Marina Oswald had dismissed Martin as her business manager and Thorne as her attorney.

For your information, we contacted John M. Thorne on February 16, 1964, to confirm previous arrangements for an interview of Marina Oswald by this Bureau on February 17, 1964, in matters of interest in the Lee Harvey Oswald investigation. At this time Mr. Thorne advised us that he had received

registered letter from Marina Oswald dismissing him as her attorney. He also stated that Mr. Martin had also received a letter from Marina Oswald dismissing Martin as her business manager. Mr. Thorne volunteered that the dismissal of himself and Martin probably came as a result of "some interplay" between Martin and Marina Oswald.

Mr. Thorne also told us that Marina Oswald is currently residing with Mr. and Mrs. Declan P. Ford, 14057 Brookcrest, Dallas, Texas.

For your added information, we have previously determined that Marina Oswald stayed at the Ford home from November 11, 1962, to November 17, 1962, when she was then separated from her husband Lee Harvey Oswald. Mrs. Ford was born in Russia and became acquainted with Marina Oswald and her husband Lee Harvey Oswald through Russian emigre groups in the Dallas - Fort Worth, Texas, area.

Results of our interviews with Mr. and Mrs. Declan P. Ford are set out on pages 258 through 261 of the report of Special Agent Robert P. Gemberling dated November 30, 1963, at Dallas, Texas, in the Lee Harvey Oswald matter. Two copies of this report have previously been furnished to the Commission.

Sincerely yours,

J. Edgar Hoover

PRESIDENT's COMMISSION
ASSASSINATION OF THE PRESIDENT

During a discussion with Mr. J. Lee Rankin of the President's Commission on February 11, 1964, it was mentioned that according to news media, Marina Oswald, when testifying before the Commission, had furnished information that she had been aware of her husband's trip to Mexico and that she had furnished information concerning her husband engaging in target practise.

It was suggested to Mr. Rankin that if any information was available relative to the time and place where Oswald was supposed to have engaged in target practise, the Bureau would be most desirous of fully exploring this matter in order that it could be proven or disproven. Mr. Rankin was advised that every allegation made concerning Oswald's target practise was fully run out but in each instance the allegation had proven to be unfounded.

Mr. Rankin advised he was fully aware of the efforts made by the Bureau on this matter, that Mrs. Oswald did furnish some information which was susceptible of further investigation, and that no one would have considered the place where Mrs. Oswald says her husband had practised. Mr. Rankin furnished no further comments concerning this but stated that in the near future a specific request would be directed to the Bureau based on Mrs. Oswald's testimony in this regard.

Concerning the trip to Mexico, Mr. Rankin advised that his staff was working on the testimony of Mrs. Oswald and that as soon as they were able to get all the facts together a request would be made for further checking relative to the trip to Mexico.

Dear Mr. Rankin:

Reference is made to my letter of February 6, 1964, enclosing an affidavit executed by me, wherein I categorically state that Lee Harvey Oswald was never an informant of the FBI.

Pursuant to your request, there are enclosed nine additional affidavits, executed by personnel of this Bureau who, because of their assignments, would have been responsible for or cognizant of any attempt to develop Lee Harvey Oswald as an informant of the FBI. In addition, there is enclosed an affidavit, executed by John W. Fain, retired Special Agent of the FBI. Mr. Fain took part in interviews of Lee Harvey Oswald on June 26, 1962, and August 16, 1962, at Fort Worth, Texas.

You will note that each of the individuals concerned denies any knowledge that Lee Harvey Oswald ever was an informant of the FBI.

Reference is made to my memorandum dated 2-5-64 captioned as above in which we forwarded for the Director's approval a proposed affidavit to be furnished to the President's Commission to refute the allegation that Lee Harvey Oswald was an FBI informant. In accordance with the Director's approval of same and his instructions, the affidavit has been properly dated, notarized, and prepared for the Director's signature for transmittal to Mr. J. Lee Rankin with the attached transmittal letter.

RECOMMENDATIONS:

1. That the enclosed affidavit be forwarded to the Director for execution.

2. That the affidavit be delivered to Mr. Rankin, with the attached letter of transmittal, by Mr. Malley.

AFFIDAVIT

CITY OF WASHINGTON)

DISTRICT OF COLUMBIA)

J. Edgar Hoover, Director, Federal Bureau of Investigation, Department of Justice, being first duly sworn, deposes and says:

That he has caused a search to be made of the records of the Federal Bureau of Investigation, United States Department of Justice, by employees of the said Federal Bureau of Investigation acting under his direction, and that said search discloses that Lee Harvey Oswald was never an informant of the FBI, was never assigned a symbol number in that capacity, and was never paid any amount of money by the FBI in any regard.

Such a statement can be made authoritatively and without equivocation because of the close supervision FBI headquarters affords its security informant program and because of the safeguards established to insure against any abuse or misuse of the program.

FBI field offices cannot proceed to develop anyone as a security informant without authorization from FBI headquarters. An informant is assigned a permanent symbol number and code name to afford him security. The informant never knows the symbol number assigned to him. It is a number permanently assigned to him, and the same number cannot be used again by the field office under any circumstances for any other individual. The individual also is given a fictitious or cover name by the field office which he, of course, is made aware of, and he affixes it to his communications with the office. Every symbol number and code name is indexed at FBI headquarters.

If the services of an informant warrant payment on a regular basis, the field offices must also obtain authorization from FBI headquarters to make such payments.

Special Agents in Charge (SACs) of FBI field offices are authorized to make payments to individuals not utilized on

a regular basis as informants, but here too FBI headquarters controls this by limiting the amount an SAC can pay to any one individual in this category. FBI headquarters maintains control of such payments since they must be accounted for by the field offices at the end of each month through the submission of a detailed accounting to headquarters.

Had any of the FBI field offices made payments to Lee Harvey Oswald under the SAC's authority, these would have been shown in the receipts and vouchers submitted by each office. These records have been checked and no such payment was ever made. Had Oswald been assigned a symbol number, this would be a matter of record not only by number but also by name. As a matter of fact, the FBI can identify every symbol number used, past or present. Oswald could not have been assigned such a symbol number without approval by FBI headquarters. There is no record of any such request by any field office and no record of any such approval.

The only contacts FBI Agents had with Oswald prior to the assassination of President Kennedy involved three interviews FBI Agents had with him. The first was on June 26, 1962, at Fort Worth, Texas, shortly after his return home from the Soviet Union. The purpose was to assess the possibility of his having been given intelligence assignments by the Soviets. The second, on August 16, 1962, was in the same connection. The third was at his specific request on August 10, 1963, following his arrest in New Orleans the preceding day on a charge of disturbing the peace and creating a scene. At that time, he described some of his activities in connection with the Fair Play for Cuba Committee, the pro-Castro organization.

Oswald was again interviewed by FBI Agents at the Dallas Police Department following his arrest after the assassination of the President. This interview was aimed at eliciting any admissions he might make in connection with the assassination, as well as to obtain any information he might have been able to furnish of a security nature.

FBI headquarters has obtained affidavits from every Special Agent who was in contact with Oswald, as well as affidavits from their respective SACs. These affidavits show that none of these FBI Agents developed Oswald as an informant.

Mr. Henry M. Wade, a former Special Agent of the FBI and currently the District Attorney of Dallas County, Texas, reportedly testified previously to the Commission that he had

heard that Lee Harvey Oswald was an FBI informant with the symbol number "179" and was being paid $200 monthly. As the facts clearly show, this is not true.

Furthermore, the facts refute Mr. Wade's reported statement to the Commission that there is no record maintained in the FBI of informant funds expended or the purposes for which used by the FBI employee to whom they were furnished.

Mr. Wade reportedly stated that he had worked in the FBI's Special Intelligence Service (SIS) and that he was supplied from time to time with various sums of money for which he did not have to account and for which he did not have to obtain any receipts from the persons to whom he disbursed the money.

The emergency conditions that prevailed during World War II when the FBI conducted its SIS program did not permit the tight supervision that prevails currently in the FBI's informant operations. But this is true only in regard to the fact that SIS men necessarily were given the latitude to develop and pay informants on the spot without prior approval from FBI headquarters. Nevertheless, SIS men operated under a control system and adhered to it by advising FBI headquarters of payments made and the identity of the individuals paid. Such payments were supported by receipts in nearly every instance.

Mr. Wade, for example, entered on duty with the FBI on December 4, 1939. On July 6, 1942, he was advanced the sum of $1,075 in connection with an SIS assignment. This was for subsistence and travel in connection with his assignment in Ecuador as well as to provide him with some money with which to establish himself. His passage from New Orleans to Guayaquil, Ecuador, cost over $500 alone. In addition, he was required to make full restitution of the total amount which had been advanced him and subsequently did so. All of his expenditures of the total amount furnished him were substantiated by vouchers he submitted.

Mr. Wade arrived in Ecuador on August 16, 1942. He operated in an undercover capacity with a symbol number, specifically Number 345, and used the code name "James" in signing communications. Within Ecuador, he was referred to as Confidential Informant Number 6.

Although in an undercover capacity, Mr. Wade was required to submit vouchers twice monthly through the Legal Attache's Office in Quito, Ecuador. They were revieved there and forwarded to FBI headquarters where they were checked prior to approval and the transmittal of funds to Mr. Wade's account.

In his operations, Mr. Wade handled a total of 11 informants. His vouchers clearly identify each expenditure made by him in connection with payments to any one of these informants. In all, Mr. Wade expended a total of $1,438.21 in payments to informants. In addition to identifying each informant paid and indicating the amount paid to each, he complied with the regulations to furnish separately summary data on all informants he was using and an evaluation of their services.

Five of the informants Mr. Wade was operating were the most productive. These five received a total of $1,284.94 in 52 separate payments made by Mr. Wade. Each of these payments was supported by a receipt. Six other payments unsupported by receipts were accounted for by Mr. Wade in vouchers submitted by him.

Mr. Wade left Ecuador on May 2, 1943, and in a letter dated May 25, 1943, submitted his resignation from the FBI. By letter dated June 13, 1943, Mr. Wade sought reinstatement, stating that he had made a mistake in resigning. However, this request for reinstatement was refused since the FBI's request for his deferment under the Selective Service Act already had been withdrawn.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

Reference is made to our conversation of January 23, 1964, concerning testimony furnished the Commission by Mr. Henry M. Wade, the District Attorney of Dallas County, Texas. You advised that Mr. Wade testified he had heard that Lee Harvey Oswald had been an informant of the FBI, had been assigned symbol number "179" and had been paid $200 monthly in this capacity. You further advised that Mr. Wade also indicated that FBI headquarters was not in a position to know in all instances whether an individual was an informant of this Bureau.

At the time, I advised you that Lee Harvey Oswald had never been an informant of the FBI and that this Bureau's procedure in regard to handling informants is such as to insure that FBI headquarters would have all necessary facts concerning the development and control of any and every informant.

Enclosed for your information and use in this regard is an affidavit in which I have categorically stated that Lee Harvey Oswald was never an informant of the FBI and have outlined our administrative procedures for the handling and the payment of confidential informants.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

James Angleton, CIA, furnished the following information to the Liaison Agent on 2/7/64.

He made reference to recent newspaper publicity given to Chief Justice Warren's statement to the effect that Mrs. Oswald's testimony before the Commission might not be revealed to the public for years. Warren's statement left the impression that information presented before the Commission would be held secret. Angleton emphasized that Warren's statement obviously has set off a flurry of speculation in the foreign press which could be most prejudicial to U. S. interests and specifically to the FBI and CIA.

Angleton stated that the Italian newspaper "Il Messagero" (middle-of-the-road publication of the Christian Democratic Party) carried an article datelined 2/3/64, New York City, written by Lucio Manisco, the publication's New York correspondent. This article stated, "The declarations of Chief Justice Warren to the effect that the testimony of Mrs. Oswald would not be released in our generation could be related to rumors circulating in Washington, D. C., for the past month; namely, that Oswald worked for CIA in the Soviet Union and that he reportedly was used by FBI to infiltrate pro-Castro organizations after he returned from Russia." This particular article apparently gave rise to other articles which have appeared in Italian newspapers in the last two or three days; these newspapers were "Avanti," a Socialist publication; "Paese Cera," a crypto-communist newspaper, and "Unita," a Communist Party publication. The headlines on these newspapers read, "CIA Sent Oswald to U.S.S.R."; "FBI Used Oswald as Provocateur"; "Lee Oswald Employed by FBI"; and "Oswald In Service of FBI."

OBSERVATIONS:

Obviously, the above-described stories are developing some momentum. Although it appears the stories have been restricted to Italy, there is every reason to believe that the press in other

countries will follow the same line. We also can't discount the fact that the Soviets and communists may be behind this entire maneuver.

RECOMMENDATION:

(1) It is recommended that consideration be given by Mr. Malley of sowing the idea with Mr. Rankin that the Commission should issue a public statement making reference to these ridiculous rumors as described above and clearing the public air once and for all relative thereto. Rankin knows there is no foundation in fact to such absurd rumors.

suggest we do not do this

(2) If approved, there is enclosed herewith a cable to Legat, Rome, requesting him to follow Rome newspapers and cable summarized analyses, together with any information which he can obtain through available sources regarding purpose and background of this propaganda. He is also being asked for available information concerning Manisco.

Bureau files are being searched concerning Manisco.

President's Commission

"The Nation" article for 1-27-64 reports that Houston "Post" reporter Lonnies Hudkins prepared an article entitled "Oswald Rumored as Informant for U.S." On 2-7-64 Inspector J. R. Malley, during a discussion with Mr. Rankin, brought up the allegation of Hudkins. Mr. Rankin stated that the Commission had no objection to the Bureau going right ahead with the contemplated interview with Hudkins in order to nail this situation down. Mr. Rankin requested that if Hudkins were interviewed, he would appreciate it if a signed statement could be obtained from him. He also stated in the event Hudkins attempted to rely on some source of his for the story and would not disclose the source, he had in mind calling Hudkins' employer and Hudkins before the Commission in order to obtain the true facts.

Dallas Office interviewed Hudkins 2-8-64 concerning the article he reported. Hudkins stated he came to Dallas in late December, 1963, to check out rumors Oswald may have been FBI informant. He stated this was based on information he had received from Assistant District Attorney William Alexander to the effect that Oswald's address book contained the name of Agent Hosty of the Dallas Office with home and office telephone numbers and automobile license number. Hudkins added he also interviewed Marguerite Oswald, mother of Lee Harvey Oswald, who said that Oswald was doing subversive work for the Government.

Hudkins further stated he contacted a Government official not a Federal official in Dallas who told him that Oswald was on the payroll of either the FBI or CIA with voucher number 179 and that Oswald received no less than $150 per month nor more than $225 a month. Hudkins related that this official had furnished him reliable information in the past which he had been able to print; however, he did not print anything stating Oswald was an FBI or CIA informant but merely raised this question in his article. He stated he had only this official's word and did not see any supporting documents of any kind to substantiate same.

Hudkins further stated he made inquiries of friends in Houston whose names he would not divulge and also asked his Washington headquarters to attempt to check this story out. Hudkins related it could not be verified and, therefore, was not printed. Hudkins was questioned at length in an attempt to ascertain his source that Oswald was an FBI or CIA informant but Hudkins refused to divulge his source or to furnish signed statements. He stated when his source furnished him the alleged information that Oswald was an FBI or CIA informant, he was alone and no other reporters were present.

Hudkins further stated only other information he received that Oswald might be a symbol informant was from Joe Golden, a reporter with the "Philadelphia Inquirer." Hudkins stated Golden mentioned to him a number, different from 179, that might have been a voucher number but Hudkins could not recall the number.

At conclusion of interview of Hudkins he said that even if he were called to appear before the President's Commission, he would decline to furnish the source of the information alleging Oswald was an FBI or CIA informant.

We have interviewed Joseph Goulden, reporter for the "Philadelphia Inquirer," concerning a news article he prepared in the 12-8-63 issue of the "Philadelphia Inquirer," wherein he pointed out Lee Harvey Oswald had at one time been contacted by the FBI to become an informant. Goulden stated he obtained this information from a law enforcement officer in Dallas whom he declined to identify. Philadelphia Office reinterviewed Goulden on 12-16-63 in effort to pin down his allegation and determine identity of his source but Goulden declined to identify the law enforcement officer. Goulden claimed that his local enforcement officer source in Dallas told him the matter was being "handled through proper channels." Extensive inquiries by Dallas at Dallas Police Department failed to disclose any information that such allegation made a matter of record.

We have previously interviewed William Alexander concerning the allegation that Oswald was an FBI informant and Alexander has claimed that he overheard a group of reporters talking at the conclusion of the bond hearing for Jack Ruby in Dallas. He stated he heard one of these reporters whom he believed to be from the north and other reporters discussing the possibility Oswald was a counterspy for the FBI, CIA or some governmental agency. He remembered hearing the words special service mentioned and also remembered hearing some reporter make the statement Oswald was supposedly on the payroll of the Government at $200 a month beginning

MEMORANDUM FOR MR. SULLIVAN
RE: LEE HARVEY OSWALD

in September, 1962, and that he had heard payroll number 179 or voucher 179 mentioned. Alexander stated he did not know the names of these reporters.

We have interviewed Joseph Goulden on two occasions and he refused to give the name of his source wherein he alleged that Oswald had at one time been contacted by the FBI to become an informant. However, inasmuch as the information from Hudkins which he attributes to Goulden is a little different and alleges Goulden aware that Oswald had symbol number, we are instructing Philadelphia recontact Goulden in this matter. Also, inasmuch as it appears William Alexander may well have been the source of the allegations that Oswald was an FBI informant with symbol number 179 and was on the Government payroll at $200 a month, we are having Dallas confront Alexander and ask him point blank if his statements are true that he obtained such information from unnamed informant as he previously has alleged. *Reporters

ACTION:

1. Attached is letter to J. Lee Rankin setting forth results of our interview with Lonnie Hudkins.

2. Attached is teletype to Dallas instructing Dallas to immediately contact William Alexander and confront him as to the truthfulness of his previous statements that he heard from unnamed group of reporters that Oswald was symbol number informant and was on the payroll of the Government at $200 a month.

3. Attached is a teletype to SAC Philadelphia instructing that Joseph Goulden be recontacted in an effort to determine if he possesses information to the effect Oswald was a symbol number informant or any other information he might possess in this matter.

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

CR

Pursuant to your instructions we have worked out a new procedure to insure the President's Commission has been furnished photographs of every piece of physical evidence received in any of the three captioned cases and/or to furnish photographs of new evidence that we receive. I have coordinated this procedure with Inspector Malley, SAC Shanklin in Dallas and Supervisor Lenihan in the Domestic Intelligence Division.

Henceforth as any new evidence is received in the Laboratory, subjected to examination and Laboratory report submitted, the Laboratory report will be directed to Dallas. Four 8 x 10 photographs will be furnished to Dallas along with Laboratory report. The photographs will have been assigned a listing number in the Laboratory and this number will appear on the photographs so that our master list of photographs furnished to the Commission will be complete. Dallas will be instructed to incorporate results of the Laboratory examination in an investigative report and attach three photographs to three copies of each investigative report. One photograph will be attached to the copy of the report that bears the SAC's initials and will eventually be the Bureau file copy. Dallas will flag the other two reports to which photographs are attached as "Commission" copies and in this manner the Commission will receive the photographs along with the report that sets forth the investigation to which the photographs pertain. The fourth photograph furnished to Dallas will serve as Dallas's file copy. Domestic Intelligence Division and the Investigative Division will be furnished copies of our outgoing Laboratory report along with duplicate photographs of those being transmitted to Dallas.

Memorandum to Mr. Conrad
Re: Lee Harvey Oswald

With respect to physical evidence currently being sent to the Bureau pursuant to field-wide instructions, it would be undesirable if photographs were transmitted to the Commission before the Commission had received results of investigation which pertained to such photographs. In furnishing photographs to the Commission in the future we will be alert to insure no photographs are sent from the Laboratory if the investigation pertaining to such photographs has not already been incorporated in an investigative report. If such investigation has been previously reported, we will transmit the photographs to the Commission under cover of letter as we have done in the past.

If we are unable to determine readily whether investigation which relates to a particular photograph has been incorporated in an investigative report, we will send four copies of the photograph to Dallas with a request that Dallas determine whether the investigation has been reported. If no investigative report has been submitted, Dallas will submit one and attach photographs as exhibits as indicated above. If the report has been previously submitted, Dallas will prepare a letterhead memorandum suitable for dissemination identifying the report in which the pertinent information is set forth and will attach three of the photographs as exhibits. The Seat of Government Supervisor will then disseminate the letterhead memorandum with exhibits attached.

There will be a number of instances when the Laboratory, as repository only of the physical evidence, has not conducted any examination of such evidence. In those instances, if the evidence has been referred to and described in an investigative report, the Laboratory will furnish the photograph to the Commission by letter. If it has not or we cannot determine readily, we will send photographs to Dallas and Dallas will resolve the problem in accordance with the above-described arrangements.

Dear Mr. Hoover:

The report of Special Agent, Manning Clements, dated November 30, 1963, from Dallas, Texas, indicates on page 212, that the psychiatric and medical records of Fannie Rubenstein (mother of Jack Ruby) are available at the Medical Records Section, Elgin State Hospital, Elgin, Illinois, under file number 46 464.

This Commission would appreciate your obtaining and forwarding to us complete copies of these records. The hospital authorities have not indicated that a subpoena is necessary.

Dear Mr. Hoover:

This will acknowledge receipt of your letter of February 7, 1964, sent in response to my letter of February 4, 1964, requesting a detailed description of the so-called evidentiary facts upon which the Bureau based its ultimate conclusions that (a) Q1, Q2, and Q3, a bullet and bullet fragments, were fired from K1, the rifle, (See Special Agent Gemberling's report dated November 30, 1963, at pages 162-164); (b) Q6 and Q7, two cartridge cases, were fired in K1 (See Special Agent Gemberling's report dated November 30, 1963, at pages 162-164); (c) Q48, a cartridge case, was fired in K1 (See Special Agent Gemberling's report dated December 10, 1963 at pages 333-334); and (d) Q74-77, four .38 Special cartridge cases, were fired in K3, the revolver (See Special Agent Gemberling's report dated December 10, 1963, at page 351).

The Commission, myself and the staff are faced with the problem of eventually making a public explanation which can be readily understood in concrete evidentiary terms rather than by expert conclusion, much in the same manner as ballistic evidence and testimony of experts is demonstrated to a lay jury. We would therefore appreciate it if you could set forth, in detail, a comparison of the markings on the fired bullet and cartridges with the test bullets and cartridges.

Dear Mr. Rankin:

Reference is made to our letter dated February 11, 1964, setting forth results of our interview with Lonnie Hudkins, reporter for the Houston "Post" on February 8, 1964.

You will note that on page two of our February 11, 1964, letter to you we reported that Mr. Hudkins was questioned at length in an attempt to ascertain his source that Oswald was the FBI informant, but that Mr. Hudkins refused to divulge his source or to furnish a signed statement. We also reported that according to Mr. Hudkins, the only other information he had heard that Oswald might be a symbol number informant was from "Joe Goldon," a reporter for the "Philadelphia Inquirer," who was in Dallas in late December, 1963.

We further advised that we had previously interviewed Mr. Joseph Goulden, a reporter for the "Philadelphia Inquirer," in connection with an article Mr. Goulden reported in the December 8, 1963, issue of the "Philadelphia Inquirer," wherein he alleged that Lee Harvey Oswald at one time had been contacted by the FBI to become an informant. Mr. Goulden claimed he obtained this information from a law enforcement officer in Dallas whom he declined to identify. 62-109090

We reinterviewed Mr. Joseph Goulden on February 11, 1964, at which time he told Mr. Goulden that Lonnie Hudkins allegedly had received information from Mr. Goulden to the effect that Oswald might be a symbol number informant.

Mr. Goulden admitted knowing Mr. Hudkins and stated that he had been visited by Hudkins in Philadelphia, December 1, 1963. Mr. Goulden stated that at the time of this visit with Hudkins he had not yet been to Dallas to write the assassination story. He added that any discussion he had with Hudkins regarding the Oswald case would have concerned Hudkins' on-the-scene account of the assassination and what Goulden had heard and read in Philadelphia.

Mr. Goulden stated he did not recall any conversation with Hudkins regarding the possibility that Lee Harvey Oswald was an FBI informant.

The above is for your additional information in this matter.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Department of Justice
Washington, D. C. 20530

Dear Mr. Hoover:

The reports furnished the Commission by the Federal Bureau of Investigation reveal the following information regarding Oswald's trip to Mexico:

1. The report of Special Agent John M. Kenny dated December 4, 1963 at San Antonio, Texas, at pages 10-18, indicates that 90 persons entered Mexico at Nuevo Laredo on September 26, 1963;

2. The same report, at pages 18-21, reveals that 24 persons departed Mexico at Nuevo Laredo on October 3, 1963;

3. Mexican tourist card No. 24085 was issued to "Lee, Harvey Oswald", showing that he entered Mexico at Nuevo Laredo on September 26, 1963, and departed Mexico at Nuevo Laredo on October 3, 1963 (Federal Bureau of Investigation Memorandum dated December 23, 1963, regarding Lee Harvey Oswald);

4. The report of Special Agent Warren C. DeBrueys dated December 8, 1963, at Dallas, Texas, at page 316, reflects Mexican Immigration Service records which show that on October 3, 1963, Lee Harvey Oswald departed Mexico at Nuevo Laredo, "Method of Travel: automobile, Destination: New Orleans, Louisiana".

We would like to bring to your attention the fact that although the tourist card issued to Oswald and the Mexico Immigration Service records both show that he entered Mexico at Nuevo Laredo on September 26th and left Mexico at Nuevo Laredo on October 3rd, neither the list of persons entering Mexico on September 26th nor the list of persons

40 FEB 13 1964

62-109090

8 FEB 18 1964

departing Mexico on October 3rd shows Oswald's name. Yet both lists are purportedly complete.

We would appreciate further investigation in connection with the foregoing reports, and, in particular, an effort by the Federal Bureau of Investigation to resolve the following questions:

(1) Why does Oswald's name not appear on either the September 26 list of persons entering Mexico or the October 3 list of persons departing Mexico at Nuevo Laredo?

(2) Are these lists in fact complete except for the absence of Oswald's name?

(3) If both lists are complete except for Oswald's name, how can the disparity in number of persons on the two lists be explained?

(4) What is the explanation for the reference to Oswald's method of travel as being by automobile in the Mexican Immigration Service records? Does this mean that Oswald was actually in an automobile when he crossed the border, or does it mean simply that he stated his intention to travel to New Orleans by automobile after he had crossed the border?

(5) Is there any way from the information available that we can determine who might have been in any automobile with Oswald at the time he crossed the border or thereafter?

Thank you for your assistance.

Sincerely,

J. Lee Rankin

SUBJECT: PRESIDENT'S COMMISSION

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, 11-22-63
DALLAS, TEXAS

Mr. J. Lee Rankin advised that he was aware of the information that had been set forth in Bureau reports relative to correspondence had by Lee Harvey Oswald with the Communist Party, USA, the Socialist Workers Party and the Fair Play for Cuba Committee. Mr. Rankin stated that even though considerable information had been developed through the Bureau's sources and through interviews conducted by the Bureau he desired that each of these organizations be contacted officially by the Bureau at the request of the President's Commission and that each group be requested to make available copies of all correspondence, and any other material that they might have available relative to Oswald.

Mr. Rankin was advised that his request would be complied with and results furnished to him as soon as possible. Appropriate instructions have been issued to the field to have this request handled immediately.

During the conversation with Mr. Rankin, he mentioned that the Commission had met on the afternoon of January 21, 1964, and that the members of the Commission had quite a number of questions and were desirous of seeing a great deal of material. At this point, Mr. Rankin was asked if there was anything that the Bureau might do to render assistance in answering any questions that had been raised by the Commissioners. Mr. Rankin replied that he could not reveal what went on at the Commissioners' meeting,

He did state that there would be some correspondence as a result of the Commissioners' meeting and this would be sent forward as soon as possible to prepare the same. He volunteered no information as to whether or not the communications would be directed to the Bureau or elsewhere.

Mr. Rankin advised that the members of the Commission were aware of the large volume of work that had been handled by the Bureau and that he personally desired to express his appreciation for the help given by the Bureau.

The foregoing is submitted for information.

SUBJECT: PRESIDENT"S COMMISSION
ASSASSINATION OF THE PRESIDENT

Airtel from New Orleans 1/22/64, advised the Governor of the State of Louisiana had received a letter from the President's Commission signed by J. Lee Rankin requesting original documents reflecting all school attendance for Lee Harvey Oswald in two parishes be obtained, and indicated interest in results of interviews conducted with those people who had been familiar with Oswald while in attendance at the appropriate institutions.

This matter was taken up with Mr. Rankin today and he advised that apparently there had been a definite misunderstanding of the letter that had been sent to the Governor of Louisiana. He advised a similar letter had been sent to authorities in New York inasmuch as original documents were not available because of certain regulations.

Mr. Rankin called to his office Howard P. Willens who had handled this correspondence and requested that Willens be briefed on the difficulty that had arisen. He then requested Willens to advise of the exact wording of the letter that had gone to the Governor of Louisiana. Mr. Willens stated that he did not recall anything in the letter that would have caused any interviews to be conducted but stated he would obtain the original letter and furnish the exact wording as soon as he could locate it. Both Mr. Willens and Mr. Rankin were advised that the letter certainly must have requested a number of interviews inasmuch as individuals in the State of Louisiana were indignant of the fact that duplication of effort was being made in that a number of those individuals contacted stated that they had previously been interviewed by Bureau representatives.

Mr. Rankin stated emphatically that he certainly did not want anyone duplicating any work that the Bureau had handled. He advised that the Commission did feel it advisable to obtain original records wherever it was possible to do so as a permanent record for the Commission, and that he was of the impression that this was all that had been asked for in the letter to the Governor of Louisiana. He stated he was most appreciative that this matter had been called to his attention and that as soon as the correct facts could be

obtained from the Commission he thought it would be well for the FBI to contact whatever agency in the State of Louisiana was handling the President's Commission request and straightenthe matter out so that they would be thoroughly aware that the Commission had no intention of asking a state agency to recheck on any matter that had been handled by the FBI.

During this discussion Mr. Rankin and Mr. Willens were advised that the FBI's investigation had been conducted for the purpose of obtaining full facts relative to all aspects of the assassination of the President and that we had not asked for original documents, such as school records or employment records. They were told that if the Commission desired original records in any instance and would make it known, the Bureau would attempt to obtain such original documents. Mr. Rankin advised that he felt this should be done to avoid any further misunderstanding and that if any situation arose where the Bureau report reflected that a particular organization had refused access to its original records, the Bureau should be advised of what action the Commission was taking before proceeding so that the Bureau would be on notice of the Commission's actions.

Mr. Rankin reiterated several times during this conversation that he certainly did not want anyone to get the impression that the Commission was attempting to have someone double check on the Bureau's work, and that he was very happy this matter had been called to his attention immediately. This interview was terminated prior to 3:00 p.m., inasmuch as Mr. Rankin was to attend a meeting of the Commission today at 3:00 p.m. No information was volunteered by Mr. Rankin as to the purpose of the meeting.

ACTION:

As soon as the details of the letter which was written to state authorities in Louisiana are made available, appropriate instructions will be issued to the New Orleans Office.

ADDENDUM: Subsequent to the dictation of the foregoing memorandum, Willens called and read the letter that had been sent to the Governor of Louisiana. The letter did ask for documents covering the school attendance of Lee Harvey Oswald but did not specifically request any interviews.

Memorandum to Mr. Belmont
Re: PRESIDENT"S COMMISSION
ASSASSINATION OF THE PRESIDENT

In view of this, Willens was advised that it appeared more appropriate that his office communicate with the office of the Governor of Louisiana to straighten out the request rather than to have the FBI handle this matter. Willens stated that inasmuch as there did definitely appear to be a misunderstanding, he felt this was the best procedure and that an immediate letter would be prepared to be sent to the Governor. An appropriate communication is being sent to the New Orleans Office advising them of the discussion with Mr. Rankins office.

While talking with J. Lee Rankin of the President's Commission today, Mr. Rankin advised that John F. Doyle, an attorney in Washington, D. C., had been designated by the President of the Washington, D. C., Bar Association to represent Mrs. Marguerite Oswald (the mother of Lee Harvey Oswald) when she appears before the President's Commission on Monday, February 10, 1964.

Mr. Rankin advised that Doyle is considered a very capable attorney; that he was formerly Assistant Corporation Counsel under Oliver Gasch from 1948 to 1951 and was Assistant United States Attorney in the District of Columbia from 1953 to 1955 and 1957 to 1961.

Mr. Rankin stated Mark Lane, the New York attorney who is representing Mrs. Oswald, stated that he was too busy obtaining affidavits and other material to show Oswald was not guilty of shooting the President to appear before the Commission with Mrs. Marguerite Oswald on February 10. Rankin commented he was very thankful for this development so they would not have Lane to deal with.

Indices are being checked concerning Mr. Doyle and you will be advised of any significant information in the Bureau files concerning him.

Mr. Rankin stated he did not know the exact schedule of the Commission for the immediate future but mentioned that following the obtaining of testimony from Mrs. Oswald they planned on calling Mrs. Ruth Paine (the woman with whom Mrs. Marina Oswald was living at the time the President was shot) before the Commission and that it would probably be next week or the following week.

With regard to John Francis Doyle, District of Columbia attorney, who is representing Mrs. Marguerite Oswald while she is appearing before the President's Commission for testimony, Bureau files have been reviewed and the following information concerning him set forth.

Doyle was the subject of an applicant-type investigation at the request of the Department of Justice in 1948 when he was under consideration as Assistant U. S. Attorney (AUSA) for the District of Columbia. At the request of the Department, investigation was discontinued prior to completion. The investigation which was conducted developed no derogatory data.

Doyle was again investigated in 1953 as a departmental applicant when under consideration as AUSA for the District of Columbia. This investigation developed no derogatory information with the exception of four traffic violations.

Doyle was again investigated as a departmental applicant when under consideration as AUSA for the District of Columbia in 1957. This investigation likewise developed no derogatory data.

During the 1953 investigation it was ascertained that Doyle entered on duty as an assistant corporation counsel of the District of Columbia on 11/8/48 serving until 8/25/50 when he went on military furlough, being restored to duty on 11/19/50 and then resigning on 8/30/52 to accept another position.

The 1957 investigation indicated that Doyle was AUSA for the District of Columbia from 7/2/53 to 5/20/55, at which time he resigned. (77-41537)

Martindale-Hubbell Law Directory indicates that Doyle served as assistant corporation counsel for the District of Columbia from 1948 to 1951 and as AUSA for the District of Columbia from 1953 to 1955 and again from 1957 to 1961.

March 7, 1964

THE PRESIDENT'S COMMISSION

Since the tragic assassination of our late President John Fitzgerald Kennedy on November 22, 1963, at Dallas, Texas, this Bureau has forwarded to the President's Commission in excess of 12,800 pages of investigative results broken down as follows:

Topic	Pages
Investigation of Lee Harvey Oswald and related matters	8650
Jack L. Ruby, Civil Rights investigation	4200

In addition, our Laboratory has furnished the Commission with over 2400 photographs.

GENERAL INVESTIGATIVE DIVISION

1. At the present time the General Investigative Division has a total of nine pending requests from the President's Commission, the oldest dated February 21, 1964, and the most recent dated March 4, 1964. The status of each of these in chronological order is set out below.

By letter dated February 21, 1964, the President's Commission requested investigation to establish how the photograph of Lee Harvey Oswald carrying a rifle and pistol came into the possession of various news media. This photograph received considerable nationwide publicity as a cover for "Life" magazine. Dallas was immediately requested to run this matter down and by communication dated March 3, 1964, this material was furnished to the Bureau and is in the process of being assembled for transmission to the Commission.

62-109090-11

MAR 13 1964

2. By letter dated February 21, 1964, the Commission submitted a three-page request for technical and other related information concerning the rifle used in the assassination. This request is very extensive and requires the obtaining of original documents of numerous items such as shipping documents, invoices, bills of lading, etc. This was immediately relayed to the field for expeditious attention. This request requires technical examination by our Laboratory as well as extensive work by our Dallas Office. The technical data has now been assembled and the numerous documents are being obtained, some of which are already in the possession of the Bureau. This matter is being closely followed and when all items are obtained they will be promptly furnished to the Commission.

3. By letter dated February 24, 1964, the Commission referred to us two matters which necessitated leads being covered in Milwaukee, Wisconsin, to interview a reporter for the "Milwaukee Journal" concerning the alleged signature of Oswald on a register at the "Fox and Hounds" restaurant, and research work by our Dallas Office concerning a photograph which appeared in "The Saturday Evening Post" in which an individual was observed who resembled Lee Harvey Oswald. Both of these matters have been handled and a current letter to the Commission under the date of March 9, 1964, has been prepared.

4. By letter dated February 28, 1964, the Commission requested still additional information relating to the rifle used in the assassination. This particular request necessitates leads be covered by our Legal Attache in Rome with the Italian Munitions Industry. Prior to referring this matter to the Legal Attache considerable research was necessary at the Bureau in order to facilitate the Legal Attache's handling of this request. By communication dated March 6, 1964, this matter was referred to the Legal Attache in Rome requesting expeditious handling.

5. By letter dated March 2, 1964, the Commission requested we obtain copies of Immigration and Naturalization Service records of Jack L. Ruby's parents, Joseph and Fannie Rubenstein. It also requested we obtain all available records of toll calls made by Ruby, his three brothers and four sisters and twelve persons known to have been in contact with Ruby between September 26, 1963, and November 22, 1963. This is currently being afforded expeditious handling by the field.

6. By letter dated March 3, 1964, the Commission asked for copies of all records of interviews with Jack L. Ruby or other persons who referred to Ruby prior to November 23, 1963, in all FBI files. This is currently receiving expeditious handling by the field.

7. By letter dated March 3, 1964, the Commission requested a transcript of all radio transmissions from local and state police capable of being received in Dallas, Texas, from 12:20 p.m., November 22, 1963, until 6:00 p.m., November 24, 1963, as related to the assassination of President Kennedy and related matters. This matter has been referred to the field for expeditious handling.

8. By letter dated March 3, 1964, the Commission referred to us an allegation made by Marina Oswald's former business manager, Mr. James Herbert Martin during his testimony before the President's Commission on February 27, 1964, relating to an alleged telephone call made from Atlanta, Georgia, to Lee Harvey Oswald and Jack L. Ruby. This matter has been resolved by the field and the letter to the Commission under date of March 9, 1964, has been prepared.

9. The Commission by letter dated March 4, 1964, requested the production of numerous items of evidence as well as various diagrams and sketches in connection with the contemplated testimony of Buell Wesley Frazier and Linnie Mae Randle before the Commission on March 11, 1964. This request has necessitated the sending of a crew from our Exhibits Section to Dallas to prepare detailed sketches to comply with this request. This matter is being followed closely and afforded expeditious attention.

DOMESTIC INTELLIGENCE DIVISION

This Division has seven pending special requests of the President's Commission for investigation in this matter. The earliest of these requests is January 13, 1964 and the latest request is March 3, 1964. Set out below is a chronological summary of each of the seven pending requests furnishing the status of each:

1. By letter dated January 13, 1964, the Commission requested this Bureau to initiate a full scale background, intelligence investigation of Michael Paine and his wife, Ruth Paine. Marina Oswald was residing at the Paine residence at the time of the assassination. We have initiated such investigation and have furnished the Commission reports setting out results of such investigation to date. Our investigation of the Paines is continuing.

2. By letter dated February 12, 1964, the Commission requested this Bureau initiate a full scale background investigation of George and Jeanne De Mohrenschildt, acquaintances of Marina and Lee Harvey Oswald. Such investigation was instituted and we are reviewing summary reports just received on these individuals and will furnish them to the Commission in the immediate future.

3. By letter dated February 12, 1964, the Commission made inquiry into certain facets of our investigation relating to Oswald's trip to Mexico between September 26, 1963 and October 3, 1963. The Commission was particularly interested in the manifest of the Transportes Frontera Company and identities of passengers of this bus during the above period. This necessitated extensive investigation in Mexico and at the border. Our letter of February 25, 1964 furnished the Commission results of our inquiries to that date and informed the Commission that further details would be furnished as developed. We are affording this phase of our investigation close and continual attention on a priority basis.

4. On February 24, 1964, Mr. J. Lee Rankin, during a meeting with the Director, orally requested that this Bureau conduct appropriate investigation of

Marina Oswald to determine her contacts and activities. Appropriate instructions were issued to the Field and results of our coverage are being immediately sent to the Commission on a day-to-day basis.

5. On February 25, 1964, Mr. Rankin orally requested of Inspector J. R. Malley that this Bureau make arrangements to have talks or meetings at which Mark Lane appears recorded by any means. We have issued appropriate instructions to the Field and transcripts and tapes where available relating to Lane's speeches and meetings are being furnished to the Commission as received from the Field.

6. On February 26, 1964, Mr. Howard Willens of the Commission orally requested Inspector Malley to obtain recordings of all of Marguerite Oswald's appearances. The Field has been so instructed and recordings and transcripts of her appearances are being furnished the Commission as obtained.

7. By letter dated March 3, 1964, the Commission requested investigation of six different items resulting from Marina Oswald's testimony before the Commission. The six items included:

    1. Locate two thick books on history of the United States carefully read by Oswald

    2. Determine whether the rifle of Oswald's did or did not have a mounted scope when shipped to him by the seller

    3. Conduct investigation in vicinity of Love Field in Dallas in attempt to find practice range where Oswald may have fired his rifle

    4. Make handwriting examination of a note that may have been used by Marina Oswald and a friend, Mr. George Bouhe. The note was not enclosed from the Commission and we so informed the Commission by letter dated March 6, 1964.

MARY FERRELL

5. Conduct handwriting examination to definitely determine if Oswald was right or left handed. We answered this request in our letter to the Commission dated March 6, 1964.

6. Ascertain whether the 15 power telescope and hunting knife furnished to the Commission belonged to the Paines, and if not, attempt to trace their origin.

We have issued appropriate instructions to the Field in connection with the above-listed items and as soon as the investigation is received at the Bureau it will be forwarded to the Commission.

FROM : A. Rosen

SUBJECT: THE PRESIDENT'S COMMISSION
ASSASSINATION OF PRESIDENT KENNEDY

PURPOSE

To recommend the attached letter be sent to the President's Commission refuting the allegation that Marina Oswald's new attorney, William A. McKenzie, had indicated to Rankin that animosity existed between the Secret Service and our Dallas Office.

BACKGROUND

In my memorandum of 2-27-64, I advised you that Malley, while at the Commission on 2-26-64, had a conversation with Inspector Kelley of the Secret Service. According to Kelley, Mr. Rankin discussed with him information allegedly obtained from attorney McKenzie to the effect there was considerable animosity existing between the Secret Service and the office of the FBI in Dallas, Texas.

In the absence of Mr. Rankin, this matter was discussed with Mr. Howard P. Willens, his assistant. Willens subsequently advised he had discussed this matter with Rankin and the Commission had no objection to our checking this allegation out.

DETAILS

McKenzie was interviewed on 2-27-64, and apprised of the above allegation. He stated there was absolutely no basis whatsoever for such an allegation and advised he was going to direct a letter to the FBI clearly setting out his views in this matter.

On 2-28-64, our Dallas Office received a letter directed to it from McKenzie in which he in clear, unmistakable terms categorically denies

the allegation, and in fact states he believes that this Bureau and the Secret Service have done a "magnificent" job in investigating the assassination and appear to be "cooperating fully" in a "harmonious manner."

ACTION:

That the attached letter be sent to the President's Commission furnishing it with the results of our interview with McKenzie which categorically refutes the allegation, and we are setting out the letter of McKenzie in its entirety.

Dear Mr. Rankin:

Reference is made to a telephone conversation between Mr. Howard P. Willens of your staff and Mr. James R. Bailey of this Bureau on February 26, 1964. This conversation related to an alleged statement made by attorney William A. McKenzie to the effect that animosity existed between the U. S. Secret Service and the office of the Federal Bureau of Investigation in Dallas, Texas.

Enclosed for your information are two copies of a communication from our Dallas, Texas, Office dated February 28, 1964, relating to an interview with Mr. McKenzie on February 27, 1964, and the text of a letter received by our Dallas, Texas, Office from him on February 28, 1964. In this letter, Mr. McKenzie categorically denies ever having made such a statement or inferring same. Mr. McKenzie also points out he feels this Bureau and the U. S. Secret Service have done a "magnificent" job in handling their investigative responsibilities, and it has been his experience since becoming associated with this investigation that both agencies are "cooperating fully in a "harmonious manner."

SUBJECT: LEE HARVEY OSWALD, aka

By letter of 2/25/64, J. Lee Rankin, General Counsel, The President's Commission, forwarded an address book, Item B-29 (Commission Exhibit 18), found at the residence of Oswald. It was suggested that it would be of interest to know which entries were made with the same inks for the purpose of establishing relationships between entries. Special reference was made to a page in the booklet reserved for entries under the Russian equivalent for our letter "K" and to Oswald's signature in the register of a Mexico City hotel.

It is not scientifically possible to identify one ink with another one due to the absence of individual identifying characteristics although it is possible to detect differences. From an identification standpoint, similarity of dye compositions can be determined but this is not sufficient to establish identity. We are so advising the Commission.

The Laboratory has found that certain entries on the address book page specifically referred to by the Commission have been made with different inks and that certain hand printing concerning which the Commission has expressed interest was prepared by Oswald. A photocopy of the Mexican hotel registration, referred to by the Commission has been previously examined in the Laboratory and we were able to identify this signature as having been written by Oswald. In view of this positive identification it would not appear that an analysis of the ink of which the signature is composed would serve any apparent purpose; however, we are offering to explore the possibility of obtaining this original registration from Mexico City for examination if the Commission desires.

A letter setting forth the Laboratory's findings and enclosing the booklet, Item B-29, is being forwarded to the Commission.

SUBJECT: PRESIDENT'S COMMISSION

The President's Commission by letter dated 3-26-64, requested we determine, if possible without taking new fingerprints, if certain identifiable fingerprints and palm prints which appeared on cartons near where the assassin stood in the Texas School Book Depository (TSBD) building can be identified with persons employed in the TSBD building on 11-22-63. The Commission desires this information by 3-31-64.

A check was made with SA R. D. Rogge and other personnel in the General Investigative Division familiar with this case, as well as Sebastian Latona and other personnel in the Identification Division, as to whether elimination prints had been taken and/or received on these TSBD building employees with negative results.

SA Kenneth Howe, Dallas Office, was telephonically contacted at 10:15 p.m., this date, by Extra-Duty Supervisor E. J. McDonough and advised of the Commission's request. SA Howe advised that he did not believe such elimination prints had been taken by the Dallas Office but appropriate check would be made with the Dallas Police Department and any other agency which may have taken such prints. If such prints are not available, SA Howe was instructed to furnish adequate identifying data on the appropriate TSBD building employees in order that the Identification Division could make a check of its files on the basis of this descriptive data in order to possibly locate prior fingerprint cards on these individuals for comparison purposes.

SA Howe was advised that the Bureau is already in possession of 70 signed statements taken from such employees, and in the event necessary identifying data on these persons is contained in their respective statements, it would not be necessary to reiterate this information but the Bureau should

be advised of those on whom this data has already been submitted.

It was impressed upon SA Howe that no investigation should be conducted to develop further background data on these persons and absolutely no efforts should be made to independently obtain new fingerprint impressions from them.

ACTION:

Upon receipt of the necessary material, the Identification Division will handle the Commission's request in this matter.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Conrad

DATE: 3/31/64

FROM : Mr. Jevons

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY,
NOVEMBER 22, 1963,
DALLAS, TEXAS

On 3/30/64, Mr. Melvin Eisenberg, staff member of the President's Commission, asked the Laboratory to conduct paraffin tests with the C14 assassination rifle as set forth in my memorandum of 3/30/64. The paraffin test consists of pouring warm paraffin over the hand or cheek, peeling it off and testing the inner surface of the paraffin for the presence of any gunpowder residues. The reagents used in this test, however, are not specific for only gunpowder residues and will react positively with most oxidizing agents. Some people have used this technique to determine if a person had recently fired a gun. The Laboratory experimented with the procedure many years ago and found it to be extremely unreliable as to whether a person had recently fired a gun, since in some instances casts taken of a person who had not recently fired a gun gave positive reaction. Further, even the presence of gunpowder residues on a person's hand did not positively determine if he had in fact fired the weapon, since the residues could be on his hands from the mere handling of the weapon. It is to be noted that oxidizing agents that will react positively to this are also present in such common substances as urine, fertilizer, tobacco and others. Although Mr. Eisenberg recognizes the unreliability of such tests, he requested the testing for record purposes in view of the publicity concerning use of this technique by the Dallas Police Department in the assassination case.

The tests requested by Mr. Eisenberg have been conducted and the results are set forth below.

Control paraffin tests of the right cheek and both hands were conducted on a Laboratory examiner who had thoroughly washed his face and hands and who had not recently fired a weapon. The paraffin casts were then treated with diphenylbenzidine, a sensitive reagent for the detection of most oxidizing agents. Numerous positive reactions were noted on the casts of both hands although no reactions were noted on

the cheek cast. It is pointed out that warm paraffin can remove the foreign matter that is present on the skin or in the pores.

The C14 assassination rifle was then rapid fired three times. Paraffin tests of the examiner's right cheek and both hands were then conducted. These casts were also treated with diphenylbenzidine with negative results.

The results of these tests once again confirm the unreliability of the paraffin test as a means of determining whether or not a person had fired a gun, since the above tests gave a positive reaction on a cast prior to the firing of a weapon and no reaction when in fact a weapon had been fired.

The results of the above tests are being furnished to the President's Commission by letter.

The President's Commission by letter dated March 3, 1964, has requested copies of all records of interviews with Jack L. Ruby contained in all FBI records and also all copies of records of interviews of other persons at all places at any time prior to November 23, 1963, wherein Ruby is mentioned.

Immediately upon receipt thoroughly check your files to identify any possible records in your office of interviews with Ruby or other persons who mentioned Ruby prior to November 23, 1963. If any such interviews whatever are identified and the results of the interviews are available in report form, advise the Bureau of the title, character, page where Ruby mentioned, and name of reporting Agent so that it may be located at the Bureau. If the interviews are contained in memo form, furnish two copies to the Bureau. Those copies must be reproduced by Xerox or similar process which will produce white legible copies.

Submit no later than close of business 3/17/64. If your files are negative, advise the Bureau by return airtel.

Dallas make certain that material included in the report of Manning C. Clements at Dallas dated 11/30/63, pages 155 through 159 and identified cover pages GG and HH, is included in your reply with the exception of that material contained in Dallas file 137-681 which is in possession of the Bureau.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
SPECIAL COMMISSION

As previously understood, the visual aids displayed in the first floor assembly room, Veterans of Foreign Wars Building, will have to be moved temporarily to another place inside the building. The assembly room is being dedicated on 3-10-64 and Mr. Holland, Superintendent, has requested that the room be made available from 3-7-64 to 3-11-64. Mrs. Heckman, secretary to Mr. Rankin, called and said Mr. Rankin would like to comply with Mr. Holland's request. She was advised that the exhibits would be removed and reassembled in accordance with Mr. Rankin's wishes.

I will personally follow this matter and have the exhibits removed on 3-6-64 and reassembled on 3-11-64. It will require approximately two hours for four employees to complete this work.

Dear Mr. Hoover:

Reference is made to our previous letter dated February 21, 1964, requesting investigation of the publication by Life Magazine and various newspapers of a picture of Lee Harvey Oswald shown with a rifle and revolver.

During his appearance before the Commission on Thursday, February 27, 1964, Mr. James H. Martin was questioned regarding this matter. Among other things, Mr. Martin stated as follows:

"Mr. Martin. Life Magazine purchased the rights, North American rights on a photograph of Lee Harvey Oswald with a rifle and pistol, primarily for their use on a cover issue.

"Mr. Dulles. That is what appeared on the recent cover issue, I guess, it was two weeks ago.

"Mr. Martin. Yes, sir.

"Now, that $5,000 has been paid. We have the $5,000 in an escrow account.

"Mr. Redlich. Did you actually have in your possession the photograph, a copy of which appeared on the cover of Life Magazine?

"Mr. Martin. No.

"Mr. Redlich. Could you tell why this contract was consummated, in view of the fact that Life Magazine apparently printed on its cover a photograph which you never possessed?

GGARM MAR 9 1964

"Mr. Martin. They knew the photographs belonged to Marina. They have a common law copyright, and the only way they could legally use the film is to purchase the rights from Marina.

"Mr. Redlich. Did Life Magazine indicate to you where they obtained the photograph?

"Mr. Martin. No.

"Mr. Redlich. Have you had conversations with other publications concerning that photograph?

"Mr. Martin. Yes. I made the contact with the London Daily Mirror for the purchase of the British Commonwealth rights on that same photograph, and they guaranteed $2200 plus 50-50 split on what they sold in the Commonwealth. It was restricted to the Commonwealth only.

"However, the London Daily Mail came out with the photograph prior to the Mirror, and I was informed by Mr. Weggand of the London Daily Express that the Detroit Free Press had sold this photograph to the London Daily Mail for $500.

"Mr. Redlich. Do you have any idea how the Detroit Free Press obtained this photograph?

"Mr. Martin. No. I talked to Ken Murray, who I was informed was the attorney for the Detroit Free Press.

"Mr. Redlich. Where did you talk to him?

"Mr. Martin. At his home in Detroit.

"Mr. Redlich. By phone?

"Mr. Martin. By telephone. And he stated that the photograph was public property, and not covered under common law copyright. I asked him where he got the photo, and he said he got it at the same place as Life did, through a leak in the Commission. I talked to Life Magazine attorney -- I can't remember his name. It is a very odd name. It begins with an 'S'. Now, Murray said that Life had informed him that they had gotten it from a leak through the Commission, and I contacted Life and he denied saying anything of the sort to Murray.

"However, Murray insisted that that is where he got that and he figured it was public domain."

I would appreciate your interviewing Mr. Murray regarding this matter and conducting any further investigation you consider appropriate.

Sincerely,

Dear Mr. Hoover:

It has been brought to the attention of the Commission that certain discrepancies exist between the photograph of Lee Harvey Oswald holding a rifle and the rifle which is now FBI Exhibit C 14. The photograph to which I have reference appears on Commission Exhibit 133 and is the photograph which is enlarged as Commission Exhibit 134. The particular discrepancy which has been called to our attention is in the stock. You will note that the photograph shows a straight stock whereas the rifle itself has a curve at the point of the hand grip. It is possible, of course, that the angle of the photograph could account for this difference. I would suggest that the FBI Laboratory attempt to photograph the rifle at the exact angle as it appears in the above-mentioned photograph, so that we may more accurately compare the two photographs to determine whether they are photographs of the same rifle.

In addition, it has been brought to our attention that in certain newspaper reproductions of this photograph, the rifle appears to be without a scope. We have written to the newspaper concerned in order to obtain copies of the photograph and upon receiving them we will submit them to you for analysis.

Sincerely,

J. Lee Rankin

During the morning of March 8, 1964, while his clerks were checking the proceeds of the nights' betting, one turned over the above-described note since it contained pencilled notations which ALLORE and the clerk thought might refer to the plans to assassinate President KENNEDY in Dallas, Texas.

ALLORE stated it would be impossible to tell which betting window had received the bill, pointing out there are twenty-four such windows and that the crowd of patrons for the nights of March 6 and March 7, 1964 totaled over 2600 persons.

ALLORE furnished the above note in the event examination was desired by the FBI. He stated he would like to have said bill returned when its use was no longer required.

Dear Mr. Rankin:

Reference is made to your letter of March 11, 1964, concerning possible discrepancies between the photograph of Lee Harvey Oswald holding a rifle and the rifle which is designated as FBI Exhibit C14. The photograph appears as Commission Exhibit 133 and is the photograph which is enlarged as Commission Exhibit 134.

Pursuant to your request, the FBI Laboratory has made photographs of the rifle at the same angle as it appears in Commission Exhibit 133. Transmitted herewith is a copy of a photograph made by the FBI Laboratory of the Oswald rifle, FBI Exhibit C14, being held in a similar pose to that shown in Commission Exhibit 133 photograph; the photograph made by the FBI Laboratory was taken with a [illegible]-co-lens Imperial reflex camera furnished to the FBI by Robert Oswald on February 24, 1964, and identified by Marina Oswald as the camera with which she took the photographs of Lee Oswald holding a rifle and wearing a pistol. Also transmitted is a copy of the photograph in Commission Exhibit 133, of approximately the same size. In addition, there is transmitted herewith an enlarged copy of the photograph in Commission Exhibit 133, together with an enlarged photograph made by the FBI Laboratory using a four-inch by five-inch camera of the Oswald rifle being held in a pose similar to the picture in Commission Exhibit 133.

With respect to the suggestion that the rifle stock shown in Commission Exhibit 133 is straight, attention is invited to a bright spot or "high light" in the rifle stock photographs taken by the FBI. This high light is observed to coincide with a sharp change in the stock contour at the point of the hand grip. A similar high light in a corresponding position is likewise present in the photographic copies of Commission Exhibit 133.

Dear Mr. Rankin:

Recent information in the press indicates Mr. James Richard Worrell will testify before the President's Commission at an early date.

As a result of this publicity, our Dallas Office received a telephone call on the evening of March 6, 1964, from Mr. James Albert Romack. Mr. Romack stated on November 22, 1963, at the time President Kennedy was assassinated, he was in the immediate area to the rear of the Texas School Book Depository Building and saw no one leave the building. He therefore feels the story attributed to Mr. Worrell regarding his observing a man running from the rear of the above building is not factual.

On March 7, 1964, Mr. Romack was interviewed in detail concerning the above and he furnished substantially the same information. In addition, Mr. Romack stated he was with Sam Pate and "Pop" Hackley who allegedly can substantiate his statements. They are being interviewed by our Dallas Office. The results of these interviews, when available, will be promptly furnished to you.

In view of the contemplated appearance of Mr. Worrell before the Commission, it is felt you should be aware of the above information.

Sincerely yours,

He states he observed the rifle and at the third shot he commenced running from the area at which time he distinctly heard a "fourth shot." Worrell stated as he turned the corner where the Texas School Book Depository Building stands, he saw a man "dart" out the back door. Our investigation indicates three such shots were fired. We have not been previously advised of the appearance of Worrell before the President's Commission. When the necessary information is obtained, it will be furnished to the Commission.

Honorable J. Lee Rankin

NOTE: We are conducting a full investigation concerning Ruth and Michael Paine at the request of the President's Commission based on the fact Marina Oswald was residing at Ruth Paine's residence at time of assassination. The enclosed reports have been reviewed by the supervisors and by Mr. Malley and Mr. Belmont. Carol Dudley Hyde was investigated by the Bureau in 1953 as a Conscientious Objector (CO). He based his objections on religious convictions and persons interviewed during the investigation advised he was a Quaker and that they are convinced of his sincerity in claiming to be a CO. Sylvia Ludlow Hyde Hoke was subject of SGE investigation in 1956-57 predicated on information that a phone call had been made to her residence from telephone listed to known CP member and that her mother, Carol E. Hyde, had admitted to neighbors she was a communist That investigation developed no substantial subversive information concerning Sylvia and investigation disclosed that Sylvia's mother-in-law was associated in the publishing business with the CP member. Sylvia's mother, Carol E. Hyde, was characterized by persons interviewed as suffering from mental disorder. The Commission is referred to OSI since Bufiles show Sylvia was interviewed by OSI concerning the allegations. Classified confidential as some of the reports concerning Sylvia are so classified, as they contain information from security informants of continuing value to the Bureau. Unauthorized disclosure could adversely affect defense interests. Enclosed reports total 78 pages.

Dear Mr. Hoover:

Reference is made to our prior letters dated February 21 and March 6, 1964, requesting investigation of the publication by Life Magazine and various newspapers of a picture of Lee Harvey Oswald shown with a rifle and revolver. As part of your investigation of this matter, we would like the Bureau to contact representatives of the Detroit Free Press and Life Magazine and secure for the Commission a copy of the actual photograph used by each of these publications in the preparation of the published photograph.

The foregoing confirms the request made of Mr. Malley of your office on March 11, 1964.

Memorandum

TO : Mr. Conrad

DATE: 3/13/64

FROM : R. H. Jevons

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY; 11/22/63
DALLAS, TEXAS

With prior arrangement, Mr. Melvin Eisenberg of the President's Commission visited the Laboratory on the afternoon of 3/12/64, and made certain oral requests preparatory to the presentation of the Laboratory aspects of this case before the Commission sometime in the very near future. My previous memorandum advised that the Commission contemplated requesting testimony of our Laboratory experts possibly during the week of 3/23/64, or alternately 3/30/64.

Mr. Eisenberg requested that we prepare detailed photographs of the bullet and cartridge case evidence involved in the assassination and also in the murder of Officer J. D. Tippit suitable for illustrating this material before the Commission. He also requested a sketch be made showing the ejection patterns of the assassination weapon (The ejection pattern would show the area in which the cartridge cases would land when ejected from the weapon.) and a sketch showing the angle of fire from the building to the approximate location of the President at the time the third shot was fired (It is understood that the reason for this sketch is for the purpose of explaining to the Commission the relative movement of the target as it moved away from the building from which the shot was fired.). Mr. Eisenberg is to supply the details concerning the measurements to be used in the preparation of the latter sketch.

Mr. Eisenberg also requested that the assassination weapon (the rifle designated as C14) be test fired at a distance from the target equivalent to the distance the President was from the building at the time the third shot was fired to determine the reasonable accuracy of the weapon under rapid fire conditions over a distance experienced in the assassination of the President. It was explained to him that, of course, the accuracy would depend upon the quality of the ammunition used, the condition of the weapon and the expertness of the shooter, none of which can be determined for the time of the assassination.

Dear Mr. Rankin:

When Mr. Melvin Eisenberg visited the FBI Laboratory on March 12, 1964, he made certain oral requests preparatory to the presentation of the Laboratory testimony before the Commission.

Mr. Eisenberg requested that we prepare detailed photographs of the bullet and cartridge case evidence so that the Laboratory examiner would have this material available at the time he testified. The necessary photographs and charts will be completed prior to the appearance of the Laboratory examiner before the Commission on March 31, 1964.

Mr. Eisenberg also requested a sketch showing the ejection patterns of the assassination weapon. Photographs of these ejection patterns are enclosed.

It was also requested that the assassination weapon, C2766, be test fired at a distance of 200 feet to determine the reasonable accuracy of the weapon under rapid fire conditions. Four photographs of the actual targets fired are enclosed. A scale is included in each photograph. In connection with these tests, it should be noted that the accuracy of the rifle would depend upon the quality of ammunition used, the condition of the weapon at the time of firing and the expertness of the shooter; however, none of these conditions can be determined for the time of the assassination.

It is pointed out that the grouping of the shots in the targets shows an inherent capability of great accuracy under rapid fire conditions. No other significance whatever can be attached to these tests since there is no way of determining whether the present condition of the telescopic sight is the same as at the time of the assassination.

It is to be noted that at the time of firing these tests, the telescopic sight could not be properly aligned with the target since the sight reached the limit of its adjustment before reaching accurate alignment. The present error in alignment, if it did exist at the time of the assassination, would be in favor of the shooter since the weapon is presently grouping slightly high and to the right with respect to the point of aim, and would have tended to reduce the need for "leading" a moving target in aiming the rifle.

With respect to the ejection patterns, it is further noted that these patterns show only the distribution of the point of impact of the ejected cartridge cases on the floor under the stated conditions, and do not at all represent the ultimate location at which ejected cartridge cases may eventually come to rest, since the cases ricochet in an unpredictable manner upon impact with the floor and may roll for many feet before eventually coming to rest.

Sincerely yours,

J. Edgar Hoover

ASSASSINATION OF
PRESIDENT JOHN F. KENNEDY,
NOVEMBER 22, 1963,
DALLAS, TEXAS

GORDON M. JACKSON, JR., 3065 Union Street, San Diego, California, advised on February 17, 1964, that an article appeared in the November 1, 1963, issue of Neues Europa, which he described as a West German paper. Mr. JACKSON furnished the following translation of the article, which was written in the German language:

'Coexistence With Deadly Result?

'Assassination Plans Against Khrushchev and Kennedy

'Warning to the American and Soviet Secret Services -- 1964: the opponents of coexistence are getting active in the West and in the East

'Not only Peking is opposing the Moscow Nuclear Test Ban Treaty; in American and Soviet military circles there are also opponents of the Nuclear Test Ban and of East-West coexistence policies. Influential military personalities in the United States have criticized the Moscow Treaty and have altogether rejected coexistence with Communism. From Moscow, Western observers report that in the Soviet Union there also exists a group of high military men who reject peaceful coexistence of Communism and Capitalism and who completely agree with the concepts of Mao Tse Tung.

'1964/65 may bring in the USSR a regular conspiracy against Khrushchev. In Moscow it is expected that Peking will try to activate the conspirators. 'Activate' can, in this case, mean nothing but 'do away with Khrushchev'. Khrushchev, who has very strong backing by the Soviet people, will not resign voluntarily.

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, NOVEMBER 22,
1963, DALLAS, TEXAS

In the USA overtures have been made between dissatisfied military men and financial and economic circles who aspire to a furthering of gigantic defence industry. Certain defence producers finance the propaganda against all efforts of coexistence. Washington is sure that in 1964/65 increased activity from this source must be expected. Any further steps toward coexistence may bring about in the USA coalitions similar to those created by the CIA. Bombings and assassinations may indeed hamper coexistence policies. Reports went to President Kennedy, according to which, in southern states traces have been found of a secret organization of dissatisfied Southerners and opponents of East-West coexistence who have allied themselves and are plotting to assassinate President Kennedy.

In the coming year the American Secret Service will have more than enough to do just to keep the growing number of Kennedy opponents under control. Also, in 1964 Khrushchev will intensify his security program if it is not to be 'efforts of coexistence with deadly result'.

UNITED STATES GOVERNMENT

Memorandum

TO : MR. CONRAD

DATE: 3/16/64

FROM : W. D. GRIFFITH

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
REQUEST OF THE PRESIDENT'S COMMISSION

By letter dated 3/11/64, The President's Commission advised they had noted certain discrepancies between the photograph of Lee Harvey Oswald holding a rifle and the rifle used to kill the President; that the discrepancy appears in the stock of the rifle, in that the stock appears straight in the photograph whereas the rifle itself has a curve at the point of the hand grip. The Commission requested that the Laboratory attempt to photograph the rifle at the exact angle it appears in the Commission photograph, Exhibit 133, so that they could compare the two photographs to determine if they are photographs of the same rifle.

In accordance with the Commission's request, photographs have been made of the rifle at the same angle shown in Commission Exhibit 133 and are attached to a proposed letter to The President's Commission.

For your information, the photograph referred to as Commission Exhibit 133, containing apparent discrepancies in the stock, was previously examined in the Laboratory but because of the lack of clarity and detail in the photograph, as previously reported in a Laboratory report to Dallas dated 11/26/63, it is not possible to determine definitely whether the photograph shows the murder rifle. In those areas where detail can be observed, no differences were noted between the rifle in the photograph of the Commission and the murder rifle itself to suggest that they are different rifles.

RECOMMENDATION:

That the attached letter to The President's Commission be forwarded.

As you know, the Commission has been investigating fully the incident involving Marina Oswald and James Martin which occurred after the Secret Service removed its surveillance on Friday, February 7, 1964. It was decided that the Commission would request sworn statements of every person having knowledge of this incident.

Mr. Martin was asked whether he would prepare such a statement and he indicated a willingness to do so. The question of his testifying before the Commission on this matter was never discussed in view of his willingness to submit a statement.

Dear Mr. Rankin:

During the course of discussion of neutron activation analyses between Mr. Melvin Eisenberg of your staff and Special Agent John F. Gallagher of this Bureau on March 16, 1964, Mr. Eisenberg requested the following information:

1. What are some items in common usage which contain barium? Some items that may include barium are: grease, ceramics, glass, paint, printing ink, paper, rubber, plastics, leather, cloth, pyrotechnics, oilcloth and linoleum, storage batteries, matches and cosmetics.

62-109090 - V

2. What are some items in common usage which contain antimony? Some items that may include antimony are: matches, type metal, lead alloys, paints and lacquers, pigments for oil and water colors, flameproof textiles, storage batteries, pyrotechnics, rubber, pharmaceutical preparations and calico.

3. What are some items in common usage which contain both barium and antimony? Barium and antimony may be found in the following items: printed paper and cloth, paint, storage batteries, rubber and matches, pyrotechnics and possibly other items.

4. Would neutron activation analyses show if a bullet passed through the hole in the front of President Kennedy's shirt near the collar button area and also if a bullet passed through the material of his tie? Neutron activation is a sensitive analytical technique to determine elements present in a substance. During the course of the spectrographic examinations previously conducted of the fabric surrounding the hole in the front of the shirt, including the tie, no copper was found in excess of that present elsewhere in undamaged areas of the shirt and tie. Therefore, no copper was found which could be attributed to projectile fragments.

It is not felt that the increased sensitivity of neutron activation analyses would contribute substantially to the understanding of the origin of this hole and frayed area.

Dear Mr. Hoover:

During the week of April 6, the Commission will hear the testimony of several witnesses regarding the shooting of Officer J. D. Tippit. Commencing March 23 or shortly thereafter, it is currently planned that several other witnesses of the Tippit shooting will have depositions taken in Dallas. In connection with these matters, we would like to receive by April 1, if possible, the following exhibits:

1. A photograph, preferably taken from a helicopter, of the scene of the Tippit shooting and the immediate vicinity. At the time this photograph is taken, a police car should be parked in the same place and position as the police car of Officer Tippit at the time of the shooting. In addition, we would like to have another automobile, preferably a taxicab, parked at the intersection of Patton Street and East Tenth Street as nearly as possible in the same position as the taxicab of W. W. Scoggins. This photograph should not only be of the entire intersection of East Tenth and Patton Street but it should also show the house and lot at 400 East Tenth Street and the used car lot at 501 East Jefferson.

2. We would also like a plat of this entire area which would have superimposed on it the location of the car of Officer J. D. Tippit at the time of the shooting. The plat should show not only lot lines but also to the best extent

possible the location of the houses and with particular reference to the Davis residence at 400 East Tenth Street the location of the front door.

3. We would also like to have a photograph (not taken from a helicopter) from the relative position of witness Scoggins who states that he was in the front seat of his taxicab eating his lunch when he saw the shooting of Officer Tippit. The camera should be aimed from this point toward the direction where the police car is standing at the same spot where the vehicle of Officer Tippit was located. Also, we would like a photograph taken from the position of witness Helen Louise Markham who said that she was standing on the corner of East Tenth Street and Patton waiting for traffic to go by when she saw a squad car stop in front of 404 East Tenth Street (which she says was about 50 feet from where she was standing). She was walking south on Patton Street toward the Eat-Well Restaurant at 1404 Main Street in Dallas.

In connection with the location of the taxicab of witness W. W. Scoggins, we call to your attention that in the November 30 report of SA Robert Gemberling, pages 74-76, Scoggins stated that he was parked on the east side of Patton at Tenth Street heading north on the right side of the street where a stop sign had been, but which had been removed.

It is also our understanding that there are photographs that have been taken of the police car which Officer Tippit was driving. We would like to know if these photographs accurately depict the condition of the car, including the windows of the car, in the same position and condition as existed at the time of the shooting.

Dear Mr. Rankin:

Reference is made to my letter dated February 7, 1964, concerning the results of this Bureau's investigation of Mrs. Verdella Montgomery and her daughter Florine, both of Marshall, Texas.

Mrs. Montgomery and her daughter appeared at our Washington, D. C., field office on March 10, 1964. They indicated they had information regarding the assassination of President Kennedy. Although encouraged to furnish this information to the Federal Bureau of Investigation, they conferred and both decided they would rather furnish this information to the U. S. Secret Service.

Inspector Thomas J. Kelley of the U. S. Secret Service was immediately contacted and he arranged for a representative of that Service to escort these ladies to the U. S. Secret Service office in Washington, D. C.

The above is being furnished to you inasmuch as Mrs. Montgomery has previously corresponded with the Chief Justice of the United States and it is possible these ladies may endeavor to contact the President's Commission while in Washington, D. C.

NOTE:

The President's Commission by letter 1/17/64 requested investigation to locate and interview an anonymous letter-writer from Marshall, Texas, who alleged she had information relating to the assassination. Dallas identified, located and interviewed Mrs. Montgomery whose "information" was based on "visions from God." The information developed was of absolutely no value and the correspondent and her daughter have been characterized as being "mentally ill." Bureau letter 2/7/64 furnished the results of our inquiry to the President's Commission at which time we advised Secret Service would also be advised in view of their prior interest in these individuals. In view of their presence in Washington, D. C., it is felt we should alert the Commission to the possibility these individuals may endeavor to contact the Commission. Secret Service has background on these individuals.

Memorandum

TO : Mr. Mohr

DATE: March 12, 1964

FROM : C. D. DeLoach

SUBJECT: THOMAS GETTINGS BUCHANAN, JR.
INTERNAL SECURITY - C

Reference is made to the attached copy of my memorandum to you dated March 4 in captioned matter. In that memorandum, it was pointed out that Buchanan had recently written stories in a Paris newspaper, "L'Express," relative to Lee Harvey Oswald being an informant or employee of the FBI. Buchanan is a former member of the Communist Party now in Paris. It was on the basis of this repeated attack against the FBI the Director approved our giving to wire services and Jerry O'Leary of the "Star" on March 7, 1964, the statement which was publicized throughout the news media world last Saturday that Mr. Hoover had issued a public denial that Lee Harvey Oswald or Ruby had ever served as confidential informants of the FBI.

DEVELOPMENT:

[redacted] one of the Washington correspondents for "Newsweek" magazine who is friendly, advised Wick at 5:21 pm., 3-11-64, that he, last week, talked with Thomas Gettings Buchanan, Jr., here in Washington. [redacted] volunteered to Wick he believed that Buchanan might be a communist because of the manner of his talk and also, said [redacted] he had picked up from someone around the office that Buchanan had once worked in Washington and had been a member of the Communist Party in Baltimore. [redacted] said he knew that Buchanan had been writing stories in Paris about Oswald, Ruby and the FBI. [redacted] told Wick that he told Buchanan he ought to get his facts straight. [redacted] said he told him, "Why don't you go to the FBI or Katzenbach" (Deputy Attorney General) in the Department to see what they have to say.

[redacted] said he later talked with Buchanan who told him he had seen Katzenbach but did not get too much information. [redacted] told Wick that apparently Katzenbach told Buchanan to tell his story to the Warren Commission. [redacted] said he did not know what "Buchanan's story" consisted of but at any rate Buchanan did see someone at the Warren Commission last week. Buchanan then told [redacted] that

his (Buchanan's) reception at the Warren Commission "was a lot more cordial and warmer than at the Department when he saw Katzenbach." [redacted] told Wick he had no further information on this matter and did not know whether Buchanan was still in town nor how long he stayed here in Washington. He merely thought we would be interested in the above.

My memorandum to you dated March 4 pointed out that FBI Agents have interviewed subject Buchanan on several occasions between 1952 and 1957; he admitted Communist Party membership to us; he was fired from the "Star" for that reason in 1948 and on one occasion he publicly admitted in Detroit having been a member of the Communist Party.

The attached cablegram from Paris dated 3-10-64 to the Director in captioned matter reflects that Ralph Smith of the U. S. Information Agency (USIA) in Paris is concerned about Buchanan's articles. It was stated Smith may have his headquarters in Washington contact the Bureau for information on Buchanan which could be released to discredit him.

RECOMMENDATION:

That this memorandum be referred to the Domestic Intelligence Division and the General Investigative Division for their information and any action deemed necessary in disseminating information on Buchanan to USIA or taking the matter up with the Warren Commission. It is quite possible the Warren Commission is not aware of Buchanan's communist background.

FROM : A. Rosen

SUBJECT: JACK L. RUBY, aka

On March 17, 1964, Mr. Howard Willens, President's Commission, by telephone referred to the letter from the Commission dated March 12, 1964, wherein requests were made for detailed photographs, a plat of the area where Officer Tippit was killed and other items. It is noted Mr. Gauthier and additional personnel went to Dallas on March 16 to prepare the requested material. Mr. Willens stated that the Commission had requested that this material be available by April 1, 1964. He stated that in view of a rescheduling of Commission hearings, he desired to know whether it would be possible to have the requested material prior to April 1. As alternate dates for the hearings he mentioned March 26 and March 30.

The work being handled with reference to the Commission's request was discussed with Mr. Gauthier in Dallas and he advised that in view of the progress which has now been made on this project, it would be completed and could be delivered to the Commission for use on March 30, 1964. Mr. Gauthier understands that the Commission desires to use the material on March 30 and it will therefore have to be delivered prior to that date.

After checking with Mr. Gauthier, Mr. Willens was advised that the material would be available to the Commission in sufficient time for the Commission to make use of it on March 30.

JOSEPH ANTHONY BALL
President's Commission on the

SECURITY OF GOVERNMENT EMPLOYEES

Memorandum from Cleveland to Evans dated 3/3/64 recommended a letter be delivered to Mr. J. Lee Rankin at the President's Commission, advising Mr. Rankin the Bureau did not contemplate an investigation of Ball under Executive Order 10450 (Federal Employees Security Program) in the absence of a request from the President's Commission.

The above mentioned letter was delivered to Mr. Rankin and in conversation with him on March 6, he was advised that the Bureau had told the Civil Service Commission that no investigation would be conducted by the FBI in the absence of a request from Mr. Rankin. Mr. Rankin was also advised that the Bureau had been told by the Civil Service Commission that it would furnish him the results of its partial investigation of Ball.

Mr. Rankin stated he did not quite follow the situation wherein the Bureau was not conducting this investigation, inasmuch as it was his understanding that in those instances where there was an allegation of a subversive nature, such investigations were handled by the FBI. Mr. Rankin said there was a question in his mind as to whether or not we did not desire to conduct this investigation because we felt there might be a connection between Mr. Ball and Chief Justice Warren. (Joseph Ball has been a resident of California since he completed his education at the University of Southern California Law School in 1927.)

Mr. Rankin was advised that the Bureau knew nothing concerning any association of Mr. Ball with the Chief Justice and that if the President's Commission desired the Bureau to conduct the investigation we would be more than glad to proceed immediately. He was told that the only reason we did not go ahead with this investigation was because we felt the President's Commission should be aware that the Civil Service Commission had requested this type of investigation concerning one of its employees and that because of the type of inquiry being handled by

Mr. Rankin then commented that he sincerely appreciated the Bureau calling this matter to his attention by letter and the additional information furnished to him orally. ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

PURPOSE

That the attached letter with enclosed copy of a letter addressed to the Attorney General from L. M. McAllen, Jr., be furnished to the President's Commission indicating no further action is being taken by the Bureau in regard to the letter due to McAllen's mental condition. In addition, the attached letter of acknowledgement be furnished to the Attorney General which contains substantially the same information concerning McAllen's mental condition.

BACKGROUND

By communication dated March 6, 1964, Assistant Attorney General Herbert J. Miller, Jr., Criminal Division, forwarded a copy of a letter dated February 20, 1964, from L. M. McAllen, Jr., 406 West 46th Street, New York, New York, which was addressed to the Attorney General. McAllen's letter revealed comments regarding the Attorney General's brother's death and also referred to "J. E. Hoover Personal Files" which McAllen states "You will see I told you that Lee Harvey Oswald was going to kill President Kennedy." He makes other comments concerning an alleged sound machine that talks indirectly to him and is kept in his apartment.

A review of Bureau files revealed the Bureau has received voluminous and nonsensical communications from McAllen since September, 1951. On many occasions letters came with no return address and some from hotels on hotel stationery in the vicinity of his residence. He was a mental patient at Kings Park State Hospital, Long Island, New York, and has complained of the Mafia, communists and other people harassing him. He apparently gets "messages" predicting future tragedies for prominent people.

Dear Sir:

In the event the Warren Commission attempts to bury and hide the truth about the assassination of John F. Kennedy, what will you do?

You know that Warren's appointment was suggested by the Communist Party in the U. S. A. You know that Warren is the least qualified of anyone in the United States for this appointment. He does not have the confidence of the American people.

In the event the Warren Commission attempts to hide or bury the truth, will you sit silent on the side lines?

You know the truth. Will you reveal it regardless of what our communist-infiltrated Attorney General's office and State Department might do to you?

The truth is in your hands. Will you, in the name of God, reveal it to the American people?

Dear Sir:

The biggest mistake you have made so far was to appoint Earl Warren to head a Commission for investigating the assassination of John F. Kennedy.

You may have unwittingly been influenced to do so by the communist traitors and termites in our state department who are collaborating with and directing the weakling Warren so that he will end up burying the truth instead of revealing it.

You promised the American people, right after the assassination, that the truth WOULD be determined and WOULD be revealed. Now Warren is trying to make you break your promise because he has already said some facts may not be revealed in our lifetime.

Does Warren consider himself omnipotent? Warren lacks the confidence of the American people. He is unqualified for the job. He is incompetent.

And, by indicating that some facts may be withheld from the American people, he has aroused more suspicions that there was a plot. If he is attempting to white-wash a plot, that is traitorous and should be dealt with accordingly.

You are urged to remove him from the Commission at once, in accordance with recommendations made on Sunday evening television, March 1, by Dean Clarence Manion and Congressman John M. Ashbrook of Ohio.

Millions of Americans think it is a disgrace that Warren, of all people, should have this job. Please get him out of there - fast.

Respectfully yours,

The Supreme Court
Washington, D. C.

Sir:

You are urged to resign from the Commission investigating the assassination of John F. Kennedy.

Of all the people in the United States to head such a Commission, you are the least qualified. Your appointment was suggested by the Communist Party in the U. S. A. You do not have the confidence of the people of the United States.

You have already said some facts may never be revealed in our lifetime but you forget the reason the Commission was formed. President Johnson formed it because he had promised the American people, immediately after the assassination, that the truth would be determined and would be revealed. You are now disregarding his wishes. You have failed the American people in many ways and now you are attempting to deceive them and bury the truth. Any conclusions you announce cannot be trusted.

Dean Clarence Manion and Congressman John M. Ashbrook of Ohio, on Sunday evening television, March 1, recommended that the President remove you from the Commission.

I recommend you resign the appointment immediately and save face for the President.

Sincerely yours,

Norman L. Cotton

Memorandum

TO : Mr. DeLoach DATE: 3-12-64

FROM : D. C. Morrell

SUBJECT: MR. NORMAN L. COTTON
1155 HARRISON STREET
SAN FRANCISCO, CALIFORNIA 94119

On March 3, 1964, captioned individual sent a mimeographed letter addressed to the Director. This letter stated that the appointment of Chief Justice Earl Warren as head of the Commission to investigate the assassination of the late President John F. Kennedy, was suggested by the Communist Party in the USA and further that Warren was the least qualified of anyone in the United States for this appointment and he does not have the confidence of the American people. This letter continued and implied that the Warren Commission would attempt to hide or bury the truth and demanded to know if the Director would "sit silent on the sidelines?"

As enclosures to the above described letter Cotton sent copies of mimeographed letters addressed to President Johnson and also to Chief Justice Earl Warren. These letters contain the same type of sentiments and in the letter to President Johnson demanded that Johnson remove Warren from the Commission in accordance with recommendations made by Dean Clarence Manion and Congressman John M. Ashbrook of Ohio, in a television broadcast March 1st. The letter to Warren recommended that he "resign the appointment immediately and save face for the President." Copies of these letters are attached.

Bufile (100-262300-1 p. 3) reflects one Norman Cotton, age 37 (as of 11-10-43), legal residence Alburn, California, profession doctor; Captain in the United States Army Medical Corps; is the brother of one Charmion Cotton, 206 Slater Street, Garden Island, Alaska [redacted] Bufiles contain no other reference to a Norman Cotton.

Dear Mr. Rankin:

Enclosed are two copies of a memorandum received from our Phoenix, Arizona, Office. This memorandum contains results of interviews with Mr. A. H. Bothke and Mr. Delbert Neel, owner of Gem of the Desert Trailer Court, Tucson, Arizona, where Mr. Bothke temporarily resides. Mr. Bothke admitted he was the author of "Chapter 13. Manuscript 18. The Murder of President Kennedy. The Assassination of President Kennedy," a transcript of which is included.

In view of the nature of the information contained in this communication, no further action is anticipated by the FBI unless specifically requested by you.

NOTE:

On 2/27/64, Minneapolis Office obtained "Manuscript 18" from Mr. Bob Williams, Regional Editor of the "New Ulm Daily Journal," New Ulm, Minnesota. The manuscript was written by A. H. Bethke, 1031 Benson Highway, Tucson, Arizona. This is a trailer court and Bethke's permanent residence is Fairfax, Minnesota. The manuscript, which is captioned, "The Murder of President Kennedy, The Assassination of President Kennedy," contains phraseology such as "The murder was planned by Barabbas, Chief Justice Warren, and Vice President Lyndon B. Johnson." Bethke was interviewed and admitted being the author of the manuscript and he claimed the world was governed by a mathematical equation and by the use of a deck of playing cards in connection with the Bible, he can arrive at formulas which keep the world in balance. The incongruity of "Manuscript 18" which makes comparison to numerous Bibical phraseologies, leads one to question the author's mental stability. In view of the material contained in this manuscript concerning President Lyndon B. Johnson, one copy will also be disseminated to Secret Service.

TO: Mr. Mohr

DATE: March 13, 1964

FROM: C. D. DeLoach

SUBJECT: THOMAS GETTINGS BUCHANAN, JR.
INTERNAL SECURITY - C

Reference my memorandum to you in captioned matter dated yesterday pointing out that [redacted] of "Newsweek" had furnished Wick information on Buchanan's visiting Deputy Attorney General Katzenbach in the Department and seeing some member of the Warren Commission. Buchanan, of course, is the man who is writing articles in the Paris newspaper, "L'Express," stating Oswald and Ruby were informants of the FBI.

DEVELOPMENT:

[redacted] called Wick late last evening stating that Buchanan was to come back to Washington Thursday, 3-12-64, to see "New Republic" representatives for the purpose of writing an article in that magazine on the involvement of Oswald and Ruby with the FBI. [redacted] said he did not know whether Buchanan had, in fact, returned to Washington. [redacted] said it was Monday, 3-9-64, that he had talked with Buchanan. It was Tuesday, 3-10-64, said [redacted] that Buchanan had talked with Deputy Attorney General Katzenbach. During the discussion with Katzenbach, the latter arranged for Buchanan to see Howard Willens of the Warren Commission. [redacted] said he believed that Mr. Katzenbach phoned Willens asking him to see Buchanan.

[redacted] said that shortly thereafter, perhaps Tuesday evening, 3-10-64, or early 3-11-64, Buchanan went to New York to see his agent.

In the event [redacted] obtains any more information about the activities of Buchanan in this area, he will advise Wick.

ASSASSINATION OF PRESIDENT KENNEDY
11/22/63, DALLAS, TEXAS President's Commission

Dallas teletype of March 10, 1964, contained information indicating the possibility of duplication on the part of the FBI and the Secret Service in connection with a request made by the Commission to the Bureau to obtain certain material in Dallas.

This matter was taken up with Mr. J. Lee Rankin today who had been in New York and unavailable for interview. Mr. Rankin commented that he certainly wanted to eliminate any possibility of duplication of effort and advised that in this instance it appeared the letters which had been sent out by the Commission contained statements which confused the witnesses, causing the witnesses to feel they were obligated to bring in certain material to the Commission for testimony when actually the Commission had requested the FBI to obtain this information. Mr. Rankin said he would see that the letters emanating from the Commission to the witnesses were sufficiently clear so there would be no possibility of misinterpretation in the future.

The Secret Service did not receive any request from the Commission. However, the Secret Service in Dallas did attempt to advise the witnesses what material was desired based on the letters they had received from the Commission when the Secret Service was contacted by the witnesses relative to arrangements for transportation from Dallas to Washington, D. C.

DETAILS:

By letter dated March 6, 1964, the Commission requested we obtain certain maps, manifests and other items pertinent to the bus and cab rides taken by Oswald after the assassination. The Secret Service in Washington, D. C. was contacted and advised that they had received no request of any kind from the Commission relative to the above items. They advised they were handling the transportation problems of the witnesses who the Commission desired be brought to Washington and that Inspector Joseph Kelley of Secret Service had seen the Commission's letters to witnesses Whaley and McWatters. It was Kelley's

recollection that the letters did ask the witnesses to bring certain material with them to Washington.

Mr. Forrest Sorrels, Secret Service, Dallas, Texas, was contacted and advised that no request had been made of him to do anything with reference to picking up any items to be made available to the President's Commission. He stated that witnesses McWatters and Whaley contacted the Secret Service relative to transportation to Washington, D. C., and at that time indicated they were confused as to just what they should bring with them as instructed from the letters from the Commission. Mr. Sorrels stated he looked at the letters to the witnesses, presumed the Commission would like to have original documents of the material referred to in their letters, and suggested they go to their respective employers and ask for this material. Sorrels stated that a short time later cab driver Whaley called him by telephone and stated the FBI had been to the City Transportation Company, by whom he was employed, and had obtained the information he was trying to get from his employer and he therefore did not know what to do. Sorrels stated on learning this he told Whaley to forget the request in the letter and merely proceed to Washington as instructed in the letter, inasmuch as the FBI was apparently handling the desired material.

In discussing this situation with Mr. Rankin he was advised that the Bureau had run into a situation where the City Transportation Company had made comments to the effect that there had been a duplication of effort on the part of the FBI and possibly the Secret Service in Dallas. Mr. Rankin was advised the Bureau felt he should know of the possibility of the duplication of effort.

After obtaining the full facts on this matter, Mr. Rankin stated that this situation, wherein it appeared there had been a duplication, was undoubtedly caused by the wording in the letters sent to the prospective witnesses and that instructions would be issued immediately in order to eliminate any repetition of this type of situation.

Dear Mr. Rankin:

Reference is made to your letter dated March 3, 1964, wherein you requested additional investigation be conducted by this Bureau based upon a review of Marina Oswald's testimony and our letter dated March 6, 1964, relating to this same matter.

Your attention is specifically invited to item number two of your letter relating to a request to confirm or negate the apparent fact that the scope was attached to the rifle when it was shipped to Dallas, Texas.

In an effort to comply with your request our Chicago Office initiated additional investigation the results of which have been incorporated in the enclosed communication dated March 12, 1964, two copies of which are being furnished for your assistance.

NOTE: The original request from the President's Commission dated 3/3/64 is being coordinated by the Domestic Intelligence Division.

Inasmuch as one of the items in this letter related to the assassination rifle, the General Investigative Division is handling this specific item only.

The Commission requested that we endeavor to make additional efforts to establish whether the scope was attached to the assassination rifle when it was shipped from Klein's in Chicago to Dallas. The Bureau immediately furnished Chicago with several items of suggested investigation. Chicago in the attached communication verifys the scope must have been attached when shipped. The Commission's request is apparently based on a statement made by Marina Oswald during her testimony wherein she initially stated the rifle did not have a scope and later changed this to indicate the scope was on the rifle. Division Six's responsibility in this particular matter is now complete.

Domestic Intelligence Division is expediting other investigation requested by the Commission and it will be furnished to the Commission when completed.

A copy of this letter is also enclosed for Dallas for information.

Los Angeles will contact Mr. Rocco, 1350 North Laurel Avenue, Hollywood, California, and obtain copies of any photographs other than the one previously furnished to the Bureau which he may have taken during his visits to Ruby's Carousel Club and a photograph of himself. For information of Los Angeles, Edward Rocco was interviewed while visiting his father-in-law in Dallas, Texas, on 12/26/63 at which time he advised that he was acquainted with Ruby and that during the week following the fifth or the sixth of November, 1963, he visited Ruby's Carousel Club for six or seven consecutive nights in connection with his efforts to do a profile story on the club. He took pictures in the Carousel Club and it was subsequently alleged that an individual appearing in one of the pictures looked like Oswald. Rocco furnished a copy of this particular picture.

Dear Mr. Hoover:

During the course of his public testimony before this Commission, Mr. Mark Lane advised that he had information to the effect that approximately one week before the assassination, a meeting occurred in the Carousel Club. Present at this meeting were Bernard Weissman, Officer Tippit, and Jack Ruby. As you know, Mr. Weissman is the individual who placed a full-page advertisement in a Dallas newspaper on November 27, 1963, which was very critical of President Kennedy.

Although Mr. Lane named Weissman and Tippit in the public portion of his testimony, he declined to name Ruby until the Commission went back into executive session. Mr. Lane advised the Commission he would attempt to obtain from his source of information permission to reveal the name of the source to the Commission. Mr. Lane has thus far not communicated with the Commission.

On page 719 of SA Gemberling's report of December 10, Mr. Weissman stated in an interview that he had never known Jack Ruby. In the investigation into Mr. Weissman appearing in the aforementioned report, there appeared to be no reference to any possible knowledge of Weissman by Officer Tippit.

The Commission is communicating with Mr. Lane to determine whether he is in a position to reveal the name of his source. We will advise you as soon as we have received any relevant information from Mr. Lane. In the meantime, we would like your Bureau to advise us if you have any other corrobative information concerning this alleged meeting.

Dear Mr. Hoover:

On Tuesday, March 10, 1964, Mr. Arnold Louis Rowland appeared before the Commission and testified concerning an individual who, according to Rowland, was standing behind the southwest window on the sixth floor of the Texas School Book Depository building. This information had previously been set forth in SA Gemberling's report of November 30 on pages 20-22 and SA Gemberling's report of December 23, page 14.

In addition to this information, however, Mr. Rowland advised the Commission that approximately 5 minutes before the Presidential motorcade reached the corner of Elm and Houston, Rowland observed "an elderly Negro" at the southeast corner window, sixth floor, which is the window from which the shots were supposed to have been fired. Mr. Rowland further advised that on November 23 and November 24 he had advised agents of the FBI that he had seen such a person at the southeast corner window. As you know, the aforementioned reports of SA Gemberling do not mention this fact. Mr. Rowland stated that he might be able to identify the Negro person whom he saw, although he did not definitely say that he would do so. As a further description, Rowland states that the person "was very thin, an elderly gentleman, bald or practically bald, thin hair if he was not bald, had on a plaid shirt. I think it was red and green, very bright color, that is why I remember it." He estimates the individual's age at "50, possibly 55 or 60." As to his complexion it was "very dark or fairly dark, not real dark compared to some Negroes, but fairly dark. Seemed like his face was either--I can't recall detail but it was either very wrinkled or marked in some way."

During the course of his testimony, Mr. Rowland also provided the Commission with certain information about himself. He stotes that he has an IQ of 147 and that through his junior year in high school he had a straight-A average but he received "a couple of B's" in his senior year and claims that he received his IQ test in May of 1963. For your information, Rowland has attended W. H. Adamson High School and that his eyes were examined several months ago by a "firm of doctors" named Finn and Finn and that he had "much better than" 20-20 eye sight. Moreover, Rowland advised the Commission that he had been accepted at Texas A & M, Rice, and SMU. Finally, Rowland testified that he has taken special courses in sound and study of echo effects at Crozier Tech, which is a school in Dallas. His instructor was Sam Foster.

The Commission requests that your Bureau investigate all aspects of Mr. Rowland's testimony concerning the person alleged to have been at the southeast corner window.

Moreover, the Commission would like the FBI to report on the accuracy of the aforementioned personal facts concerning Mr. Rowland. Finally the Commission would like a name check of your records and indexes for any information which they may contain on Arnold Louis Rowland.

Sincerely,

J. Lee Rankin

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

Enclosed are two Xerox copies of a letter dated 3/16/64 which was received from the President's Commission. The letter refers to the testimony of Mr. Arnold Louis Rowland on 3/10/64 before the President's Commission.

In paragraph two of this communication reference is made to an elderly Negro observed by Rowland at the southeast corner window, sixth floor, of the Texas School Book Depository Building. According to the letter, Rowland stated in his testimony he had observed this person and had advised the FBI on November 23 and November 24, 1963. However, a review of Bureau files does not reveal this information.

On page two of this communication Commission requests certain investigation which is self-explanatory. Dallas is instructed to comply with the request of the Commission in this matter and further review your files to ascertain if Rowland did furnish information relating to the elderly Negro.

Dallas instructed to conduct appropriate background inquiries concerning Rowland and, if necessary, reinterview Rowland thoroughly. You will also attempt to identify the elderly Negro claimed to have been observed by Rowland for any information pertaining to the investigation.

Dallas is instructed to handle these inquiries expeditiously and furnish the results to the Bureau in appropriate letterhead memoranda, retaining sufficient copies in appropriate insert form for enclosure in your report.

NOTE:

Letter was received from the Commission dated 3/10/64 which referred to the testimony of Mr. Arnold Louis Rowland before the Commission on 3/10/64. It is noted Bureau files reveal Rowland has previously been interviewed and has furnished a signed statement concerning his observations on the date of the assassination. The Commission letter indicates Rowland testified observing an elderly Negro in the southwest window, 6th floor, of the Texas School Book Depository Building and that he allegedly furnished this information to the Bureau on 11/23 and 11/24/63. However, Bureau files do not reveal this information. Rowland furnished the Commission certain background data concerning his IQ and educational background and the Commission requested the Bureau to investigate all aspects of Mr. Rowland's testimony concerning the person alleged to have been seen in the corner window on the 6th floor. Commission also desired the Bureau to report on the accuracy of the personal facts concerning Mr. Rowland.

It is noted in the Commission letter in the first paragraph they refer to an individual standing behind the southwest window on the 6th floor of the Texas School Book Depository Building and on page two, the second to the last paragraph, they request inquiries concerning all aspects of Mr. Rowland's testimony concerning the person observed at the southeast window. Dallas instructed to handle this expeditiously.

J. Edgar Hoover, Director
Federal Bureau of Investigation

Washington, D. C. 20530

Dear Mr. Hoover:

As you can appreciate, after the facts are determined, the major role of the Commission will lie in the accurate reporting thereof. In this connection the staff members have been closely following newspaper material so that the Commission will be in a position to be familiar with various speculations appearing in the press which have been proven false.

Enclosed you will find an article appearing in the Dallas, Texas, "Times Herald" on December 9, 1963, in which it is asserted that "a live round of 6.5 ammunition -- the type used to kill President John F. Kennedy -- was found on the person of Lee Harvey Oswald at the time of his arrest." According to the article this information came to the "Times Herald" from a source which was not identified. As you will see the article goes further and infers that the information relating to the finding of the bullet is in the hands of your Bureau.

Based on evidence presently available to the Commission, it has no reason to believe that the allegations contained in the article are true. However, in order that it may be in a position to deal with the article's contents at some future time, the Commission has asked me to request that your Bureau attempt to determine the "Times Herald's" source and to confirm or negate the supposed fact that the live round was found in Oswald's possession at the time of his arrest.

Thank you for your continued cooperation in the work of this Commission.

Sincerely,

J. Lee Rankin

MAR 19 1964

Dear Mr. Hoover:

Reference is made to the Report of Special Agent Callender of December 12, 1963, pages 14-16, and the Report of Special Agent Kenny of December 12, 1963, pages 24-25. These reports establish that the check from the Texas Unemployment Commission which Lee Harvey Oswald cashed before he departed from New Orleans for Mexico probably was carried on Mail Train No. 2, which was scheduled to arrive in New Orleans at 5:30 p.m. on September 24, 1963. The check was addressed to L. H. Oswald, P. O. Box 30061, New Orleans, Louisiana. These reports also establish that Oswald cashed the check at Winn-Dixie Store No. 1425, 4303 Magazine Street, New Orleans, either before 7:00 p.m. on September 24, when the store closed, or between 8:00 a.m. and 4:00 p.m. on the following day, September 25.

We note that Oswald's address was a post office box and that, in some post offices at least, access to boxes which have combination locks on them is possible outside of the normal post office hours. We would like the Bureau to determine whether under the procedures in force at this particular post office during the period in question, Lee Harvey Oswald could have received his check in time to have cashed it at this particular store before 7:00 p.m. on September 24.

In looking into the question whether Oswald could have cashed this check on September 24, we would also like the Bureau to determine whether the check would certainly have come in on Mail Train No. 2 or whether it possibly could have come on a slightly earlier train, truck or other means of transportation and, if so, whether it could then have been

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
11-22-63
DALLAS, TEXAS

SYNOPSIS:

To advise you of the current exploits of the busybody Mrs. Shirley Martin of Hominy, Oklahoma, who has been characterized as a "bright nut," and who is conducting her own personal investigation of the assassination, and to recommend the attached letter be sent to the President's Commission. Mrs. Martin is the subject of an article in the 3-12-64 issue of "Oklahoma City Times." This article glorified her personal exploits in investigating the assassination and recounts her contacts with numerous persons connected with the assassination, including Mark Lane, [redacted] Oswald's mother and J. Lee Rankin (who has been furnished background on Martin). Mrs. Martin has reached certain conclusions which are based primarily on discrepancies in published accounts of the assassination. These conclusions have been found to be false out-right, fabrications, or distortions. Mrs. Martin has been critical of the Director in the past, argumentative with our personnel as well as offensive and insulting. She has corresponded with the President's Commissio in the past resulting in our furnishing the Commission extensive background on her.

RECOMMENDATIONS:

That the attached letter be sent to the President's Commis furnishing them with a copy of the clipping from the "Oklahoma City Times," recounting her latest exploits, inasmuch as the Commission has exhibited a prior interest in her.

Memorandum to Mr. Bel[illegible]t
RE: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY

DETAILS:

Oklahoma City by airtel 3-13-64 forwarded to the Bureau a newspaper clipping from the "Oklahoma City Times" entitled, "Sooner Digs into Kennedy Mystery." This article relates that Mrs. Martin, the wife of a grain elevator manager and mother of four children has expended a considerable sum of her own money investigating the assassination since 11-22-63. The article relates how Mrs. Martin without "pull" and only "sincere curiosity" has been closer to events then many newsmen. She reportedly has contacted numerous individuals in connection with the assassination, including Mrs. Ruth Paine of Irving, Texas, (who characterized Martin as a "bright nut"), met Oswald's mother, corresponded with Mark Lane [redacted] interviewed unidentified witnesses to the assassination, and telephoned J. Lee Rankin of the President's Commission (Rankin has been furnished background on Martin).

Reportedly, Mrs. Martin has carefully read and kept scrap books on the assassination. It was discrepancies in these accounts that prompted her to begin her personal investigation. Much of the information developed by her reportedly has been turned over to Mark Lane. The observations attributed to Martin in the article have been previously run out by the Bureau and found to have no basis to be false or out-right fabrications or distortions. The article concludes by stating Mrs. Martin's 18 year-old daughter has compiled a 31-page, typewritten report on the investigation which she claims is primarily for her children when they grow up or for the information of anyone so interested.

BACKGROUND:

We have handled numerous communications from Mrs. Martin. The latest being dated 2-10-64, which was not acknowledged. When contacted by an Agent of our Oklahoma City Office during January, 1964, in connection with an official matter, she displayed an antagonistic attitude and gave the appearance of being mentally disturbed. She was not only critical of the Director, but appeared to be deliberately provoking an agrument with our Agent as well as being offensive and insulting. Our most recent experience with her was when the President's Commission by letter 2-18-64, indicated she had sent several communications to the Commission indicating an interest in Mrs. Ruth Paine of Irving, Texas, (Mrs. Marina Oswald resided with Mrs. Paine from 9-24-63 to 11-22-63). The Commission requested we furnish background on Martin

Memorandum to Mr. Belmont
RE: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY

from our files so that they could evaluate her information. The Bureau by letter 2-26-64 furnished the Commission with the requested information including the fact we have had unsatisfactory dealings with her in the past. We have not heard from the Commission since that date on Martin.

Mark Lane is the self-appointed "defense" attorney of Lee Harvey Oswald, who has been retained by Oswald's mother to help her prove that Lee Harvey Oswald is innocent. Lane is known to be closely associated with communist dominated organizations and is currently conducting a nation-wide speech tour endeavoring to show Oswald is innocent, based on his own investigation.

OBSERVATION:

Mrs. Martin's personal investigation has developed no information of value to our investigation. Her opinions and conclusions are admittedly based on erroneous press reports. We have had unsatisfactory dealings with her in the past, and it is not felt we should dignify her inept findings or encourage her obvious efforts to obtain free publicity by recontacting her. The Commission is in possession of sufficient background data to be able to evaluate her reliability, and in the absence of a specific request to the contrary, no further contact in this matter is recommended.

Memorandum

TO : Mr. Conrad

DATE: 3/17/64

FROM : R. H. Jevons

SUBJECT: LEE HARVEY OSWALD
IS - R

In accordance with the verbal request of Mr. Melvin Eisenberg of the President's Commission and with prior approval, SA John F. Gallagher of the Laboratory talked with Mr. Eisenberg on 3/16/64, concerning the neutron activation analyses of the paraffin casts from Lee Harvey Oswald for the purpose of determining if they bore powder residues characteristic of the rifle cartridges.

As you were previously advised, it was not possible to distinguish the powder residues of the rifle cartridges from the powder residues of the revolver cartridges. In view of the fact that the paraffin casts were not made until after the reported firing and handling of the fired revolver, no significance could be attached to the residues found on the casts other than the conclusion that barium and antimony in these residues were present in amounts greater than would be expected to be found on the hands of an individual who has not recently fired a weapon.

Mr. Eisenberg asked that he be furnished the answers to the following questions: (1) What are the items in common usage which contain barium? (2) What are the items in common usage which contain antimony? (3) What are the items in common usage which contain both antimony and barium? (4) Would neutron activation analyses show if a bullet passed through the hole in the front of President Kennedy's shirt near the collar button area and also if a bullet passed through the material of his tie?

These questions have been answered and are present in letter form for transmittal to the President's Commission.

RECOMMENDATION:

It is recommended that the attached letter be forwarded to the President's Commission.

Dear Mr. Rankin:

Reference is made to your letter dated February 12, 1964, wherein you requested that a full-scale intelligence-type investigation be initiated concerning George and Jeanne De Mohrenschildt.

There is enclosed a list identifying twenty-four reports and four memoranda setting forth the results of our investigation of the De Mohrenschildts to date. Two copies of each of these communications were delivered to Mr. Wesley James Liebeler during the afternoon of March 20, 1964.

In view of the present residence of the De Mohrenschildts in Haiti and their previous travels throughout Mexico and Central America, it is suggested that, if not already handled, you may desire to contact the Central Intelligence Agency concerning the De Mohrenschildts. A copy of this letter is being separately furnished to the Central Intelligence Agency alerting them to a possible request from you.

Sincerely yours,

J. Edgar Hoover

I, Vada Oswald, make the following statement to Bardwell D. Odum and R. Neil Quigley--who have identified themselves to me as Special Agents of the Federal Bureau of Investigation.

I have never heard anything from Marina Oswald or Jim Martin, her former business manager, about or from anyone else, except my husband, concerning a threat by Lee Harvey Oswald to shoot Richard Nixon, former Vice-President of the United States. V. O.

The only thing I have heard was from my husband, Robert L. Oswald, who told me that both Jim Martin and Marina Oswald had told him that when Richard Nixon was here in Dallas (and I don't know when this was) Lee Harvey Oswald had told Marina that he intended to shoot Nixon, and that Marina had locked him in the bathroom and kept him there all day. Jim Martin got this from Marina, and later Marina told my husband, Robert, but Marina did not discuss this with me. Robert told me about this incident sometime the latter part of January 1964. V. O.

I have read this handwritten statement consisting of this and one previous page and it is true and correct to the best of my knowledge. I have placed my initial by each collection correction and at the top of each page. V.O. V.O.

Dear Mr. Hoover:

I refer you to SA Gemberling's report of November 30, page 37, in which there appears an interview with Mrs. Mary Ann Moorman concerning two photographs which she took of the Presidential motorcade. According to Mrs. Moorman, the second of the photographs, which we have seen, was given to agents of your Bureau. The first photograph was given to Secret Service Agents John Joe Howlett and Bill Patterson on November 22, 1963. We have received a report from the Secret Service advising us that on November 23 or November 24 this picture was turned over to an agent of your Bureau who is believed by the Secret Service to be SA Brown. The Secret Service further advises us that this photograph has been returned by your Bureau to Mrs. Moorman.

If the Bureau did obtain this photograph from Mrs. Moorman, do you have a copy in your possession? If you do not have a copy and if in fact it has been returned to Mrs. Moorman, we would like you to obtain this photograph from her with the assurance that the photograph will be promptly returned to her after it has been examined by the Commission.

NOTE:

By letter dated 3/18/64, President's Commission referred to an interview with Mrs. Mary Ann Moorman concerning two photographs which she took of the Presidential motorcade on 11/22/63. Bureau files indicate the photographs appear to be those taken by Mrs. Moorman with a Polaroid camera, one just prior to the time the President's car passed her position and the second photograph taken shortly after the President was shot. Bureau file 105-82555, serial 1212, an insert written by SA Charles T. Brown, Jr., 12/12/63, regards photographs, one of which was very poor quality, revealed a motorcycle police officer preceding Presidential car and also reveals the lower corner of the Dallas School Book Depository Building. Although it cannot be verified in Bureau files, it appears this is the particular photograph in which the President's Commission has an interest.

Memorandum

TO : A. H. Belmont

DATE: February 26, 1964

FROM : A. Rosen

SUBJECT: THE PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

While at the offices of the President's Commission on other matters, J. Lee Rankin requested Malley to stop by his office. Mr. Rankin advised that he desired to make it known that the Bureau had been of tremendous help to the President's Commission, that an extremely large volume of work had been produced by the Bureau and that the Bureau had been most cooperative in handling all requests which had been made by the President's Commission.

He commented that recently there had been quite an increase in the number of requests and there was a possibility that there would be many more additional requests. Mr. Rankin stated this was not intended as a criticism of the Bureau's work but instead was the following through of the Commission's desire to complete the Commission's record and leave no unanswered questions.

In this regard, Mr. Rankin went on to say that the Bureau, in conducting its investigation, had an extremely difficult and enormous task to perform and that he as well as other members of the Commission staff had been amazed at the amount of detailed information which had been developed by the Bureau in its investigation. He commented that the Commission in performing its tasks was of necessity making a most minute study of the Bureau's work as well as that of other Government agencies with the idea of picking the investigation to pieces to the extreme degree so that wherever it was possible to clarify any item, this could be handled while the Commission was in existence.

Mr. Rankin advised that in connection with the letter which had just recently been transmitted to the Bureau requesting an explanation concerning information relative to Special Agent James P. Hosty's name being omitted from a report prepared in the Dallas Office (report of Special Agent Robert P. Gemberling dated 12/23/63), he wanted the Bureau to know the following:

Memorandum A. Rosen to A. H. Belmont
Re: THE PRESIDENT'S COMMISSION

The Commission had noted in reviewing the notebook in question that Agent Hosty's name appeared in the book along with the office telephone number and a license number. It had been noted that this information did not appear in the Dallas investigative report and members of the Commission wondered why this item did not appear. Mr. Rankin stated that prior to any question being raised concerning this item, the Bureau in one of its letters to the Commission (dated 1/27/64) set forth full information for the Commission's information explaining the appearance of Agent Hosty's name in the Oswald notebook. As a result of this information being furnished by the Bureau, the members of the Commission were fully aware that there had been no effort on the part of the Bureau not to make this information available. Mr. Rankin stated that after some discussion concerning this item, the members of the Commission directed Mr. Rankin to request the Bureau for an explanation so that the record of the Commission would show the exact circumstances by which this item was omitted from the Dallas report of 12/23/63 by Special Agent Gemberling.

ACTION:

Attached is a letter to J. Lee Rankin setting forth the reasons why Agent Hosty's name was omitted from the Dallas report of 12/23/63. We are enclosing for the Commission affidavits from Special Agent Robert P. Gemberling and John T. Kesler wherein they set forth their explanations in handling the Hosty entry in Oswald's address book. Both affidavits are excellent and should satisfy the Commission that our handling of the Hosty entry was sound.

Wes.
If there had been proper supervision here much of the unfavorable criticism from Commission re- questing clarification & additional investigation would have been avoided. Notwithstanding Rankin's statement the matter is not closed & the Bureau gets the credit & the shortcomings.

Vada Oswald had not furnished statement at time of interview as reported in DL tel 2-20 since she desired her husband, Robert, to be present when she executed such statement. Robert was then testifying in WDC before President's Commission. DL has now included such signed statement in its 3-10-64 report which is currently being analyzed and reviewed for transmittal to the Commission. Inasmuch as there may possibly be error in such statement, desirable we obtain true copy of the actual statement executed by Vada in responding to current Commission request. MEMORANDUM FOR MR. TOLSON
MR. BELMONT
MR. ROSEN
MR. EVANS
MR. DE LOACH

Mr. William Randolph Hearst called from New York City. He stated the new Life Magazine which comes out tomorrow has a black and white picture of Lee Harvey Oswald with a rifle and pistol in his pocket. Mr. Hearst stated the Knight papers, sparked by the Detroit Free Press, and Life are both claiming copyright. Mr. Hearst wanted to know if they have a copyright of something they may have stolen from the Bureau.

I told Mr. Hearst they did not steal it from us; that my recollection is that Oswald's wife had the picture and she may have sold it as she has a business manager and lawyer and whether she sold it or not or whether the Dallas Police Department got it, I did not know. Mr. Hearst stated the Dallas Police Department did have it as Johnny Harris, who is from that neck of the woods and was down there, said he saw it there. I stated they may have gotten it from her either before or after she sold a copy to the magazine. I stated Oswald's mother, who is in New York today I thought to make a speech tonight, claims to have a lot of pictures and evidence that will prove her son's innocence but which she did not give to the Warren Commission. I stated I had heard that the reason she would not present this to the Commission was because she could not get any assurance that they would not make it public as she wants to write a book. Mr. Hearst commented that if she wants to prove his innocence, she better give it to the Commission first. I commented that Oswald's wife admitted that she believes he committed the crime. Mr. Hearst stated that Oswald had shot at General Walker and the picture was supposed to have been taken right after that. I stated I understand the wife or Mrs. Paine, with whom the wife was living, had the photograph of him with his gun and revolver, the gun being the gun he used to shoot at General Walker and later used to shoot the President. Mr. Hearst stated that they better keep hands off then as it is a piece of private property. I stated it at least was; that there have been a lot of leaks come out of the Dallas Police Department before Oswald was killed. I stated after he was killed, the Dallas Police sent to us the gun and bullet which we examined in our

Laboratory here and made certain findings and then we sent the report back to our Dallas Office, who in turn turned it over to the local police, but, and this was for his, Mr. Hearst's, confidential information, the Chief of Police, who was trying to please everybody, was giving interviews on TV most of the time until I sent him word to keep his mouth shut, as he was going to hurt the case with the evidence being given out as we did not know what lawyers were going to be used.

I commented that there is a mess in Dallas now as to whether Ruby can get a fair trial in Dallas in view of the publicity. Mr. Hearst stated the defense will probably confuse the issue so Ruby will get off. I stated that, of course, we merely give findings, but in my own mind I am convinced that Oswald killed the President and that the Commission will ultimately reach that finding. I stated that in the meantime there are all these wild rumors going around such as the story that Oswald was an employee of the FBI, and just the other day his mother claimed he was an employee of CIA and John McCone had to issue a statement denying it. Mr. Hearst stated the European papers are the worst in this. I agreed and mentioned that our man in Rome sent in several wires about four papers which had that story on the front page. I stated I thought it was all a planned smear by the communists and Mr. Hearst stated he would not be surprised.

I stated Oswald was a communist and openly admitted it. I stated at the very beginning the communist press out of Moscow had a statement that the man who shot the President was of the extreme right, and when it was exposed that Oswald was a Marxist and tried to defect to Russia, then they began to swing it around the other way. Mr. Hearst stated the Russians are better at keeping their mouths shut, because if they say what they want and then get embarrassed, they never say another word. I stated they would like to prove Oswald was employed by us or CIA or the Government and then smear that branch and the one branch they hate the worst is the FBI.

Mr. Hearst thanked me.

Very truly yours,

FROM : J. R. Malley

SUBJECT: JACK L. RUBY, aka
LEE HARVEY OSWALD, aka - Victim
CIVIL RIGHTS

Mr. Leon D. Hubert, Jr., member of the President's Commission staff, called today and referred to the following:

On page 496 of the report of Special Agent Robert Gemberling dated 11/30/63, Dallas, Texas, mention is made of a notebook described as a Penway memo book with a spiral binder.

On page 504 in the same report mention is made of a letter written by C. L. Crafard, which letter was on letterhead stationary of Jack Ruby Associates, Dallas, Texas, which letter starts, "Dear Gail."

Concerning the two items mentioned, Mr. Hubert was desirous of knowing whether they were actually in the possession of the Bureau and, if so, whether they were located in the Dallas Office or at Bureau headquarters. He stated he would like to have these two items available for the Commission's hearing which would take place either on April 6 or shortly thereafter.

These items have been located in the Bureau Laboratory and are identified as Items D 53 and D 54. Mr. Hubert was advised the items were at Bureau headquarters and would be available at such time as the Commission desired them. He stated he would make his request for these items in ample time for them to be available for the Commission hearing.

Mr. Hubert also mentioned the previous request to ascertain the current whereabouts of Curtis LaVerne Crafard. This individual is a drifter who appeared as a defense witness in the Ruby trial in Dallas, Texas, on March 12, 1964. He spent the nights of March 10, 11 and 12 at the Dallas City Mission. On the night of the 13th he reappeared to spend the night but was turned away because he had already overstayed his time by one night and also appeared to be drunk on this occasion. Mr. Hubert stated that in the event Crafard was located,

the Commission would like to be advised in order that a subpoena could be issued and served on him so that he would be available in Washington for the Commission's hearing.

He also requested that color photographs of Crafard be made available to the Commission by Friday, 3/20/64, of this week inasmuch as members of the Commission staff would be in Dallas next week taking depositions and they desired to have photographs of Crafard with them in handling their work in Dallas.

It is noted colored photographs are being made at the present time and they will be available in ample time to deliver to the Commission by Friday.

ACTION:

We should follow the field to see that Crafard is located if at all possible. When the color photographs of Crafard are available, arrangements should be made for copies to be delivered to the President's Commission, attention of Mr. Hubert.

Memorandum

TO: Mr. Belmont

DATE: March 19, 1964

FROM: A. Rosen

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

The Dallas Office called today and advised that United States Attorney H. Barefoot Sanders, Dallas, had telephonically advised attorneys from the President's Commission had arrived in Dallas today and were in his office. He advised they intended to interview between 50 and 100 witnesses within the next two to three weeks. Sanders requested the Dallas Office to locate six individuals that the attorneys advised they desire to interview on Friday morning and request these individuals to appear at the Office of United States Attorney Sanders.

In making this request, United States Attorney Sanders stated that if the Bureau would not handle this request, he would have to ask the assistance of the Secret Service in locating these witnesses.

The Dallas Office was advised that inasmuch as the United States Attorney's Office had the names of the individuals and the addresses, this did not appear to be a matter that should be handled by the Bureau; and that Mr. Sanders should be told that the location of witnesses for the President's Commission where the names and addresses were available, was a matter that should be handled either by the United States Attorney's Office or whomever they should designate, but that it was not a matter that the Bureau should handle.

The Dallas Office was further advised that in the event the United States Attorney's Office was unable to locate these witnesses and it became a matter of a fugitive-type investigation to locate the witnesses, then the Dallas Office could accept a request to locate the witnesses and advise the Bureau promptly.

The foregoing is submitted for information.

MISCELLANEOUS - INFORMATION CONCERNING
(President's Commission)

Inspector Leo Gauthier phoned from Dallas at 6:30 P.M., 3/7/64, to advise exposed film of photographs made late today (3/7/64) of the Frazier car in which Oswald rode to work on the day of the assassination were being hand-carried by Captain Wayne Baugh on American Airlines Flight #628, arriving at Washington National Airport at 6:43 A.M., 3/8/64; arrangements were made with Supervisor Elmer Todd of Washington Field Office to pick up the film for delivery to Exhibits Section employee E. P. Arey so that 8 x 10's may be furnished Mr. Malley, Monday, 3/9/64, for delivery to the Commission.

Inspector Gauthier advised Exhibits Section employee Arey is returning by air the evening of 3/7/64 and will have data to complete (1) drawings of first floor of Oswald's place of employment, (2) diagram of parking lot to which Oswald was driven on morning of assassination, and (3) photos of entrance to first floor of Oswald's place of employment. This data will be delivered to Mr. Malley 3/9/64.

Inspector Gauthier is proceeding to Irving, Texas, Monday, 3/9/64, and expects to return to the Seat of Government by Wednesday, 3/11/64, with all necessary technical data to complete the balance of exhibit work for the Commission by 3/16/64. Inspector Gauthier pointed out he is pressing this matter to the fullest to expedite completion at the earliest date.

In compiling the technical data for the charts, Frazier, the owner of the black 1954 Chevrolet in which Oswald was driven to

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
United States Department of Justice
Washington 25, D. C.

Dear Mr. Hoover:

As you are aware, Marina Oswald recently testified before the Commission over a period of four days and members of the Commission staff are currently reviewing her transcript. Thus far, several items suggest that additional investigation be conducted and the Commission has requested me to pass them on to your Bureau for that purpose. After the review mentioned above has been completed, additional items may suggest themselves, however, for the time being we would appreciate the following:

(1) Marina made reference to "two thick books on the history of the United States" which were carefully read by Lee Harvey Oswald while they were residing on Elsbeth Street in Fort Worth, Texas, which do not appear to be part of the inventory of items in the possession of either your Bureau or Texas authorities. The Commission feels the books may have significant value in terms of underlining and marginal notation, and accordingly requests an appropriate investigation of Mrs. Paine and the Dallas Police to determine their identity and location.

(2) At one point in her Commission testimony, Marina flatly states that the rifle she saw at their Neeley Street, Dallas, Texas address, did not have a scope on it. Later in her testimony she stated that she saw the scope on the rifle at a later date and that it had probably been on before, although she had not paid attention initially.

In this connection, we are aware that the report of Special Agent Warren De Brueys dated December 2, 1963, at page 655 contains an interview of Mr. Waldman, an official of the Klein's Sporting Goods, Chicago, Illinois, in which he stated that the Store's records indicated the rifle believed to be used by Oswald in the assassination of President Kennedy was shipped to Dallas

"by parcel post not broken down with bolts and scope intact." We are further aware that another Bureau report, that of Special Agent Shanahan, dated December 10, 1963, includes an interview of Mr. Mitchell Scibor, another Klein Sporting Goods employee, in which the latter stated that the store's records were such as to indicate that if normal procedures were followed, the scope was attached to the rifle when the store shipped it to Dallas. Supplementing paragraph numbered 5 of my letter to you dated February 21, 1964, the Commission desires that an attempt be made to confirm or negate the apparent fact that the scope was attached to the rifle when it was shipped to Dallas would be most helpful because if, in fact, the scope was mounted when shipped, then Marina may have been viewing a different weapon. On the other hand, should your investigation show that the rifle sold by Klein's was shipped without the scope attached, then Oswald would have had to have it mounted if, in fact, Oswald used that gun and scope at the time of the Walker incident, which followed the shipment by approximately two weeks.

(3) Marina testified that Lee Harvey Oswald practiced with the rifle in the vicinity of Love Field while they lived at their Neeley Street, Dallas, Texas, address during the period, March 3, 1963 to April 24, 1963. She further stated that she assumes Oswald fired the weapon during this period because she saw him clean it. The Commission believes that a thorough investigation of the Love Field area together with any rifle ranges in the vicinity is appropriate. It further believes that a check of the route which Oswald would take to get to Love Field might indicate the store where he may have purchased ammunition and obtained scope mounting service if such was required by him.

(4) When testifying before the Commission, Marina identified the enclosed yellow legal cap yellow sheet, on which are written Russian words with an English interlineal translation. She stated that the Russian words were written by George Bouhe, and that she wrote the English words and that this document related to her study of the English language. This document is probably the one referred to in Special Agent Robert Gemberling's report, dated December 10, 1963. The Commission would appreciate a handwriting identification to confirm or refute the alleged fact that the Russian words appearing thereon were written by George Bouhe. In addition, if this document is not the one referred to by Agent Gemberling as indicated above, we would appreciate your so advising.

(5) Marina testified that Lee Harvey Oswald was right-handed. Marguerite Oswald in her testimony, contradicts this and claims he was left-handed. If feasible, an examination of the handwriting of Lee Harvey Oswald should be undertaken to settle this question.

(6) During her testimony, Marina stated she was unable to identify the 15 power telescope and a hunting knife with a 4-5 inch blade submitted by the Bureau. Accordingly, we would appreciate further investigation as to whether these items belong to the Paines and if not, an attempt to trace their origin and ownership.

For your further information, we wish to advise that during her testimony before the Commission, Marina stated that she believes Lee Harvey Oswald did not know how to drive. Inasmuch as different persons interviewed have made statements which leave the question unconclusively determined, we are passing the information so that you may be aware of her sworn statement in this regard.

Thank you for your continuing cooperation in the work of this Commission.

Dear Mr. Rankin:

Reference is made to your letter dated March 3, 1964, wherein you requested that additional investigation be conducted by this Bureau based upon the Commission's review of the testimony of Marina Oswald before the Commission.

Investigation has been initiated with respect to items number one, two, three and six in accordance with your request. With respect to item number four, the "yellow legal cap yellow sheet" referred to as being enclosed in your letter was not received by this Bureau. In order that a handwriting examination can be made concerning that item, it is requested that it be furnished to this Bureau. In connection with item number one, your letter refers to Lee Harvey Oswald's residence on Elsbeth Street, Fort Worth, Texas. Our investigation has disclosed that he resided on Elsbeth Street, Dallas, Texas, and in our handling of your request concerning that item, we are assuming that you mean Elsbeth Street, Dallas, Texas.

With regard to item number five, an examination of the handwriting of Lee Harvey Oswald does not disclose whether he is left-handed or right-handed. It is noted that normally the handwritings of individuals do not contain

characteristics to indicate which hand is used in writing. In the absence of an additional request from you, we are conducting no further investigation concerning Marguerite Oswald's statement that he was left-handed.

You will be advised promptly of the results of our investigation.

NOTE:

This item on Director's Special List. Marina Oswald recently testified before the Commission over a period of four days. Following partial review of her testimony, the Commission requested that additional investigation be conducted concerning the following: (1) Locate two thick books on history of United States carefully read by Oswald while residing on Elsbeth Street, Fort Worth, which do not appear to be part of any inventory items obtained to date. (2) To determine whether rifle in possession of Oswald did or did not have mounted scope when shipped from factory. (Our investigation shows that according to records of company which shipped rifle to Oswald, rifle had "scope intact" at time of shipment.) Investigative Div. is handling Commission's inquiries regarding this item. (3) Conduct additional investigation vicinity of Love Field, Dallas, to determine possible location of site where Oswald may have practiced with rifle, according to Marina. (4) (5) Conduct handwriting examination to definitely determine whether Oswald right or left-handed. Information reported above concerning this item obtained from Supervisor Cadigan.** (6) Ascertain whether 15 power telescope and hunting knife furnished to Commission belonged to the Paines or, if not, trace origin and ownership. By separate communication field given specific instructions concerning investigation desired in order to comply with the Commission's request.

*(4) Make handwriting examination of above-mentioned "yellow sheet".

Dear Mr. Rankin:

On March 3, 1964, Clarence Daniel Smelley, a resident of Birmingham, Alabama, and a member of the International Brotherhood of Teamsters, advised our Birmingham Office that in 1962 he and another member of the Teamsters Union, whom Smelley declined to identify, gave $20,000 to an unnamed juror in the 1962 Nashville, Tennessee, trial of James Riddle Hoffa, President of the Teamsters Union, in order to assure a deadlock or mistrial. Smelley said he received this money from Hoffa and took this action on Hoffa's instructions.

Smelley claimed further that in September, 1963, he and the same unidentified associate met with Hoffa and Lee Harvey Oswald in Washington, D. C., at which time Hoffa gave "contracts" to Oswald to kill President Kennedy and the Attorney General. Smelley would furnish no further specifics at that time but claimed to have tape recordings of his conversations with Hoffa. Smelley declined to make these recordings available until he cleared with his associate and said if he became known as the source of this information he would be a "dead duck." 162-10990-

not be heard. Smelley declined to turn the tapes over to the Special Agents or discuss their contents further. He also declined at that time to disclose the identities of other participants or further details of the alleged meetings, other than to say that he had evidence to "hang Hoffa good." Smelley refused to furnish any evidence to back up that statement but said he would confer with his associates and, if they were willing, he would furnish the evidence he has in his possession by the first part of next week.

The Department of Justice is arranging for the issuance of a subpoena ducos tecum by a Federal grand jury at Nashville, Tennessee, calling for the forthwith appearance of Smelley before that body on March 6, 1964.

Smelley is described as having been born on August 26, 1932, at Talladega, Alabama, presently resides at 214 Eighth Street, Robinwood Station, Birmingham, and has been employed by the Jack Cole Trucking Company, Birmingham, since 1955.

Records of the Birmingham Police Department show that one Clarence Daniel Smelley, same birth date, was arrested on November 19, 1960, by that Department and charged with contributing to the delinquency of a minor. The case was later dismissed upon payment of court costs. Records of the Identification Division of this Bureau show the following additional arrests for Clarence Daniel Smelley, FBI number [redacted] E, who may be identical with the above-mentioned person:

On January 9, 1962, Smelley was arrested by the Sheriff's Office, Birmingham, on a charge of assault with intent to murder. On June 6, 1962, the charge was reduced to assault and battery and Smelley was placed on one year's probation. On July 5, 1963, Smelley was arrested by the Police Department, Tarrant, Alabama, on a charge of [redacted]. A fine of $105 was imposed.

You will be advised of further developments with respect to the foregoing.

All of the above reels are fully identified by a sticker attached to the outside of the box containing the specific reel.

The Bureau is being furnished the six - 7" reels of tape recordings under separate cover.

In connection with the NELSON G. KARL, who appears on instant program, the 1963 Cleveland Telephone Directory reflects a NELSON G. KARL, who is an attorney with offices in the Engineers Building, Cleveland.

The files of the Cleveland Office reflect that [redacted] on May 5, 1954, made available a postal card postmarked April 21, 1954, which announces that on April 24, 1954, a Mr. NELSON KARL, Attorney, Engineers Building (Cleveland), representing the Cleveland Civil Liberties Union, was a speaker at a public meeting held at 6411 St. Clair Avenue, Cleveland. The speakers subjects were listed as "The McCarthy Row" and "McCarthy - Saint or Sinner".

The indices of the Cleveland Office contain no references identifiable with NELSON G. KARL; however, it is believed that NELSON G. KARL is probably identical to the NELSON KARL representing the Cleveland Civil Liberties Union in 1954. However, for the purposes of the letterhead memorandum, he is self-described in such a manner as to provide a sufficient characterization of himself.

The Boston Office will make arrangements with Radio Station WBZ, Boston, Massachusetts, to obtain the tape recordings of BOB KENNEDY's program "Contact", on which MARGUERITE OSWALD was to have appeared Wednesday, February 26, 1964, or possibly March 2, 1964. It is noted that Mrs. OSWALD claims to have knowledge of something wonderful that happened to subject which has never been made public. Arrangements should be made to obtain two recordings of the program, one for the Bureau,

and one for the President's Commission, and a summary should be made thereof as a letterhead memorandum suitable for dissemination UACB.

Mr. PERRY BASCOM, General Manager, Radio Station KYW, Cleveland, Ohio, on February 28, 1964, related that MARGUERITE OSWALD, mother of LEE HARVEY OSWALD, appeared on a KYW Radio program known as HARV MORGAN's "Contact" on February 24, 1964, between 10:00 PM and 12:00 midnight.

He explained that the specific topic of the "Contact" program on February 24, 1964, was entitled "LEE OSWALD - Killer or Victim" and that the special guest, MARGUERITE OSWALD, was on the program via a long-distance telephone line from New York City. He stated the program is moderated by a member of the KYW Staff, HARV MORGAN, and that the radio audience telephones the radio station with questions they put directly to the special guest, and both the radio audience participant as well as the answer of the special guest are heard by the radio audience. In addition, he noted that a Mr. NELSON G. KARL, a Cleveland attorney, appeared on the program as sort of a special moderator and as a quasi legal advisor to MARGUERITE OSWALD solely in connection with her appearance on this program. The radio audience participants telephoning the radio station with their questions are not identified by name.

Mr. BASCOM furnished a tape recording of the broadcast of February 24, 1964, which is summarized as follows:

Mr. HARV MORGAN on February 24, 1964, identified his program as the "Contact" program and stated that the topic of the evening was "LEE OSWALD - Killer or Victim". He announces that the special guest for the evening is Mrs. MARGUERITE OSWALD, mother of LEE HARVEY OSWALD, and that she is participating via a lopg distance telephone line from New York City.

RE: LEE HARVEY OSWALD

In her initial comments Mrs. MARGUERITE OSWALD advises that her son had been exploited and that he should not have received the exceedingly large amount of publicity which occurred following the assassination. She advises that on TV she heard her son say "I didn't do it" and noted that no one can be proven guilty in a few hours time; no one saw him shoot President KENNEDY and she just knows that he is innocent. Mrs. OSWALD advises that she is fighting for our American way of life and that "a man is innocent until proven guilty". She states that it was this factor which motivated her to help represent her son before the Warren Commission.

Mr. MORGAN then interjects a few comments in his opening statement to the effect that an individual is innocent until he is proven guilty and that this is the question of prime importance, and noted that monumental efforts are being taken in this direction.

Mr. MORGAN then introduces NELSON G. KARL, who describes himself as an attorney who is interested in civil liberties and Constitutional rights. Mr. KARL advises that he subscribes to the thought that a man is innocent until he is proven guilty and that his appearance on the program is not in the defense or prosecution of LEE OSWALD and, until all the evidence is accounted for, we must reserve judgment in this matter.

On a pre-recorded statement of Mrs. OSWALD she states that her son was tried, convicted and murdered within a few hours time. She states the case is not closed and that her son is not guilty until proven so. She then advises that I want to retract my story of MARINA OSWALD --- she is a beautiful woman --- I do not see MARINA as a Washington socialite but I recall her as the plain Russian girl with stringy hair. The first few days after LEE was accused of the assassination of the President MARINA did not believe that he was guilty. However, after eight weeks of protection by the Secret Service and FBI, during which period no one could see her, she now believes that OSWALD killed KENNEDY and has stated that even if the Warren Commission says her husband is innocent, she will always believe that LEE killed

KENNEDY. I say she was brainwashed and that she could only know facts that were given to her by the Secret Service as to what was going on as she only reads Russian. She is now a modern American girl and she is not permitted to see me and she has avoided seeing me.

At this point Mr. NELSON G. KARL points out that Mrs. OSWALD has the right to express her opinion in free speech under the Constitution. He states that to date the Warren Commission has not issued a report and we have had only a smattering of information from the newspapers concerning these hearings. My purpose is to afford her legal representation as though I were her attorney.

MARGUERITE OSWALD then states that her purpose is to bring her case before the American people. I feel sorry about this and firmly believe in the American way of life and believe justice should be done. When records are released America will see a different boy than previously pictured. This boy has been exploited and not one good thing has been said about him. His living philosophy will be shown in letters written to me from Russia.

I have known and felt since 1959, but have no proof, that LEE was not a defector but a government agent. I did make a mistake in Washington when I said he was a CIA man. Now I know he could have been with any one of the many U. S. intelligence agencies. Why wasn't LEE under surveillance by the FBI; he was not under FBI surveillance because he was a government agent.

In January, 1961, I went to the State Department and received "red carpet treatment" from high State Department officials, which also led me to believe he, LEE OSWALD, was in the employment of the United States Government, as I don't believe this is the treatment afforded ordinary citizens like myself. Also, LEE implied to a Mrs. BATES, who was helping him write a book about his experiences in Russia, that he was a government agent. I also believe he had Russian language training in the Marine Corps because of a letter I received from the Albert Schweitzer Institute while he was in Russia which

indicated that he had the equivalent of one year's training in the Russian language. LEE was always fond of the Marines and spoke highly of his relationship with the Marine Corps, which also led me to believe that he was a government agent.

Further, OSWALD was not on the "FBI List", and no one could understand this but myself. (inference that OSWALD was a government agent)

I also believe that LEE OSWALD was "set up" to defect to Russia and that when he returned to the United States he attempted to obtain an honorable discharge from the U. S. Marine Corps, and I felt that he was doing this in order to make a living and not to expose his connection with the government.

Following the above remarks the "Contact" program enters the question (Q) and answer (A) phase of the program. It will hereafter be assumed that the questions are by the participants of the radio audience and that the answers are by MARGUERITE OSWALD, unless specifically noted to be otherwise.

Q. After LEE HARVEY OSWALD was arrested, paraffin tests proved he had gunpowder on his fingers. How does Mrs. OSWALD account for this?

A. I am a layman fighting for justice. As such I do not know about guns and paraffin tests and, therefore, I am unable to answer this question for you.

Q. I would like to know about Mrs. OSWALD's personal feelings concerning her son's getting blamed for this accident and all the people thinking he did it.

A. MORGAN: Actually, Mrs. OSWALD has been talking about this for the last 15 to 20 minutes. This has already been answered.

Q. Did LEE OSWALD on the day before the assassination express any hatred toward President KENNEDY?

A. I did not see LEE the day before the assassination. His landlady states that he never expressed any hatred

against KENNEDY, and his landlady's husband said that LEE expressed that President KENNEDY was making much progress in the way of civil rights.

Q. MORGAN: Is it possible that because of LEE OSWALD's letter to Governor CONNALLY of Texas he harbored any antagonism? (This question is relative to letter written by OSWALD to Secretary of the Navy CONNALLY as to righting the type of discharge he received because of his defection to Russia.)

A. No, Governor CONNALLY was not governor at this time but Secretary of the Navy. If he, OSWALD, did harbor a grudge and had killed President KENNEDY, he would have said "Yes, I killed the President." He was of the same nature as I, straightforward. During his arrest LEE kept repeating "I didn't do it", and he also told his brother that he did not kill the President.

Q. How can Mrs. OSWALD in her right conscience say her son was not guilty when it was proven he owned the gun that killed the President and he was seen carrying a long package into the Book Depository building?

A. This doesn't mean he used the gun, and it is only hearsay that he carried a gun in the package. With all the beatings he took, which I saw from his bruised face and eyes on TV, he still said I didn't do it. Why would he be so foolish to have a witness see him take a gun wrapped in paper to the Book Depository building?

A. KARL: The gun evidence is the weakest link we have. This gun was mass produced and easily obtained by anyone. I don't know if the paraffin tests tied it in with the gun that murdered President KENNEDY.

RE: LEE HARVEY OSWALD

Q. Relative to an article appearing in a recent issue of "Time" Magazine", which states that Mrs. OSWALD asked President JOHNSON for legal representation at the trial, she is quoted as saying to a reporter --- You know what I got back --- I got a note to direct any inquiries in the future to the Warren Commission and not to the White House --- Can you imagine, I have as much right as any citizen to petition the President and, let me tell you this President JOHNSON, I am not just anyone and you (Mr. JOHNSON) are only President of the United States by the grace of my son's actions.

A. This quotation is an error. I intend to sue "Life" Magazine and "Time". This is what I said: "Dear Mr. President, I can now address you as such because your good friend was shot 11/22/63. Because of another assassination on 11/24/63, I find myself the mother of the accused assassin. I simply hope you will be so kind as to consider my request."

She states that the article indicates she knew that LEE HARVEY OSWALD killed the President and that she did not quote the article as it reads.

Q. What is Mrs. OSWALD's explanation as to the killing of Officer TIPPIT?

A. I will comment that Mr. MARK LANE does the investigation, but I do not think that LEE killed Officer TIPPIT; this is the key. There has been no autopsy on TIPPIT, relatively little information about the gun that killed TIPPIT, or any news about his burial. She specifically notes that there has been very little said in the news media concerning the TIPPIT aspect of the case.

Q. MORGAN: Is it not a fact that ballistics show that the bullet that killed Officer TIPPIT was from the gun found on OSWALD in the theatre?

RE: LEE HARVEY OSWALD

A. The way I have it figured out although TIPPIT was an exceptionally good police officer, when he was given the suspect's description following the President's assassination, he did not have his gun available when stopping a suspect on the street and LEE was supposed to have shot him three times and TIPPIT did not shoot back.

Q. I understand the FBI is holding a man that actually saw OSWALD kill the President. I wonder if Mrs. OSWALD knows about this.

A. No - has this been in print?

Q. If LEE OSWALD was a government agent, wouldn't the fact that he ran out on his rent bring attention to him?

A. We read this in the newspapers and do not know if it is true or not. Let's speculate that it is; he would do this on purpose to throw reflection from ? himself. He read everything from Communism to (NORMAN) VINCENT PEALE. He had to know this for his work with the government, and he had a wide variety of Communist material.

Q. If OSWALD did not do this, why did he leave his place of employment immediately following the assassination and, secondly, I feel many persons fitted the assassin's description, and I don't feel the officer was justified approaching a suspect with a drawn gun.

A. All I know is what I read. Mr. MARK LANE is of the opinion that LEE was never in the Book Depository building. He could have had the day off to do something -- this is a frame-up and this could have been part of it. We can't believe everything we hear. He was offered the job at the Book Depository building and he did not apply for it. This could have been a part of the frame.

Q. When he, OSWALD, was in the theatre why did he jump up when the police entered and the lights were turned on, and when he jumped up he stated "This is it", then tried to shoot a policeman.

A. This is debatable about LEE getting out a gun. Again, LEE was an agent and he was waiting for somebody in the theatre and, when he got caught, he said "This is it" meaning that his position as an agent had been compromised. He didn't have time to kill the President and then get over to the theatre in 29 minutes; he would have had to have been a modern-day Superman; this is the most ridiculous part to me.

Q. What is your opinion of MARINA OSWALD's statement that OSWALD had fired the shot at General WALKER?

A. All I know is what was written in the papers. MARINA had a note from LEE in which he stated that he may be involved in something which may cause me to be arrested and in that event contact the police station and the Russian Consulate. This was blown up --- he may have been a government agent and may have known about the plot against General WALKER.

Q. MORGAN: When he returned next day, did he in fact advise MARINA that he had shot at General WALKER?

A. This was not the original story. This was fabricated and, after she was brainwashed, believed OSWALD had shot the President. At first she did not identify the gun (that is to say the rifle that shot President KENNEDY), then eight weeks later identified the gun. The case is full of contradictions.

Q. Was LEE when a boy emotionally disturbed?

RE: LEE HARVEY OSWALD

A. I do not know this is a fact. I would think this to be so but it was not told to me. He was picked up for truancy in New York City. One story I have never told was while LEE was in a Lutheran school in New York City one day he said he rode the subway all day and didn't go to school. LEE was telling the truth. The point I want to make is that he had the courage to tell the truth. About two weeks later he was picked up at the Bronx Zoo while playing hookey from school...

At this point the "Contact" program was broken for a regular news broadcast and, at the resumption of the program, Mrs. OSWALD did not continue to answer the above question, although some aspects of the same material were brought out later in the broadcast.

Q. Did you think JACK RUBY killed LEE HARVEY OSWALD because he was in a murder plot with him?

A. I do not have any thoughts on JACK RUBY because I cannot do anything on that particular subject. I do feel the authorities will take care of that.

Q. Is it true that LEE HARVEY OSWALD was dishonorably discharged and could not have been buried in the Arlington National Cemetery?

A. That's controversial. He had his honorable discharge but, because of his defection to Russia, he was later given an undesirable discharge. I think of him as a government agent, and this was done to show that he was not a good citizen.

Q. The January 27th issue of "The Nation" carries an article entitled "Oswald and the FBI", which reflects that small sums of money were sent from an unknown source in the United States to OSWALD in Russia. Can Mrs. OSWALD comment on this?

A. No, I didn't read the article. I did see an article that a Western Union employee had said that money had been sent to OSWALD.

Q. Does Mrs. OSWALD know anything of the circumstances which indicate that LEE OSWALD was picked up by the Dallas Police Department for the attempted shooting of General WALKER and that his release was demanded by the Attorney General?

A. I know nothing about this. I would like to hear more about this.

At this point the participant who asked this question advised that she had heard this information through a Canton, Ohio, radio station which was carrying a radio program of a BOB SECREST originating from Detroit, Michigan.

Mrs. OSWALD then thanked the audience participant for supplying her source of information and made the comment that this is why she comes before the public.

Q. Why did OSWALD resist arrest at the theatre if he were innocent?

A. I don't think he resisted arrest. The police surrounded him. They did not see him with a gun, although one officer claims to have seen the gun.

Q. When you testified at the Warren Commission you said you had information that would change their mind. I would like to know what this information is.

A. The information I referred to was as to the character of this boy. I have his life because I was his mother, and I have all of LEE's documents.

Q. KARL: I would like to pursue this psychiatric bit a little further. OSWALD was examined by Dr. HARTACK (phonetic), appeared before the Children's Court, and was sent to the Children's Home. Wasn't it recommended that LEE OSWALD be committed to an institution not only for his protection but for the protection of the community?

A. Only in this regard - I only knew he was confined for five to six weeks and must have had psychiatric treatment. The judge didn't confine LEE and nothing was said to me about psychiatric treatment. If he needed psychiatric treatment, the judge wouldn't have let me have him.

Q. Did he ever have occasion to be further examined?

A. No, however, a change of environment was suggested in that we leave New York and return home. I don't think that LEE received a complete psychiatric examination and I was never told of Dr. HARTACK's (phonetic) examination.

Q. What are your feelings toward OSWALD's wife as to her opinions?

A. I will always be waiting for MARINA when she is ready. I respect her wishes if she don't want to see me.

Q. 1. If LEE HARVEY OSWALD was a government agent, why didn't the government come forward that he was an agent?

2. Why did LEE HARVEY OSWALD choose to contact the Russian authorities instead of ours in case of trouble?

3. Why did Mrs. OSWALD contact an attorney known for his representation of a known Communist to dig up the facts? (The name of this attorney unknown to participant)

A. 1. I don't have an answer. It is up to our government to come forward with the answer.

2. He is telling his wife for her to contact the Russian Consulate for her own protection.

KARL: This is newspaper speculation.

3. Mrs. OSWALD: Because this attorney represents the underdogs.

Q. I am a juvenile probation officer, does she know if psychiatric examination was given and psychiatric examination is only given when necessary and not to all children?

A. I would have to assume psychiatric examination was given because Dr. HARTACK (phonetic) made it public. However, I was never told that this is the fact.

Q. By whom was he set up and who had the best advantage of the President's death?

A. In my own way, I don't have proof, but I believe he was set up. I believe the leak is in our own government.

Q. Is it true that LEE OSWALD was in JACK RUBY's Cafe?

A. This was in the newspapers. No one can answer this.

Q. KARL: Was LEE OSWALD a "loner" and did not have close friends?

A. I will bring this out in another program. It is too long a story for the present program. I have a wonderful thing to relate that happened to LEE, and it is something that has never been made public. I intend to make this known on Radio Station WBZ, Boston, on BOB KENNEDY's "Contact" program next Wednesday (2/26/64) from 6:30 to 8:00 PM or, if we cannot do the program on this date, it will be on the following Monday (3/2/64). He had normal relations with all people.

Q. If LEE OSWALD was a government agent, why did he shoot the officer (TIPPIT)?

A. We do not believe he did.

Q. What is the basis for Mrs. OSWALD's reasoning that she has conclusive evidence her son did not kill President KENNEDY?

A. Briefly, LEE could not have done this; he would have had to have been a modern-day Superman to have done all the things they claim he did that day.

Q. MORGAN: Actually, it was an hour and ten minutes and not 29 minutes between the time the President was assassinated and the time of OSWALD's arrest in the theatre.

A. My information is from many, many people. I am going by information I have. The only answer I have is that there are many variations.

Q. Wasn't there a witness to the TIPPIT slaying who positively identified LEE OSWALD as the slayer?

A. This witness went to the police car radio to broadcast for help, therefore, could not possibly have seen the man who killed TIPPIT. I believe OSWALD was tried and killed by public opinion because the President was killed, and he was a Marxist and defector. We jumped to the conclusion that he killed the President. If a so-called good man was picked up, would the public readily say that he was the man?

I will answer this question --- They would say that he couldnot have killed the President and he was one of our fine businessmen. My point is this boy was tried by the public --- I am not saying he is not guilty; however, I am saying I believe he was innocent.

Q. Mrs. OSWALD still believes that her son was not in the Book Depository building although evidence indicates he was. She believes

everyone that's seen him are wrong. Why would anyone be carrying window shades to work, and they were never found, and why did he run away?

A. I will have to refer you to Mr. MARK LANE. LEE worked at the Book building and his fingerprints could have been there from another occasion. That box with fingerprints could have been trumped up. We read that witnesses seen LEE in the Book Depository building but the police haven't produced them. A witness stated that LEE advised him that the package contained window shades, but is this the fact?

That is the purpose of cross-examination at the Warren Commission. This way it brings out both sides. There was no cross-examination at the Warren Commission; that's why I object to it. If they had someone do the cross-examination, they would have brought out a lot more.

Q. MORGAN: I've heard it speculated that you want this cleared up as psychiatric reports put the blame on you for the cause of OSWALD being what he was, and supposition is that you want to clear any indirect guilt on yourself.

A. It is not a fact and it is immaterial to me what my neighbors think. I have lived my life alone. It would not mean a thing to me what people think. I have supported my family without help and do not feel guilty in any way. I think I did a good job raising my boys.

Q. KARL: Are you satisfied the way the Warren Commission is conducting these hearings, and do you believe the approach is judicial enough so that a decision can be relied on?

I.C: LEE HARVEY OSWALD

A: No, I do not believe the decision of the Warren Commission can be relied upon as I think it is a one-sided affair. We are just testifying, and you must have cross-examination.

The conclusions of the Warren Commission will be speculation and rumor as all the witnesses sit in their chairs and talk to the Commission, then they, the Commission, analyzes that they hear.

The above was the final question in the "Contact" program, and Mr. NELSON G. KARL made the following comment: that he was very proud of his fellow Clevelanders and that only in America could this be expressed with its precept and concept of a fair discussion. He further stated that he believes it a tragedy that JACK RUBY deprived America, the public and LEE HARVEY OSWALD of trial by jury and the proper judicial inquiry.

Mr. HARV MORGAN concluded the program by thanking MARGUERITE OSWALD for her participation.

Dear Mr. Rankin:

You are referred to my letter of February 26, 1964, to you relating to your request for coverage of the appearances of Marguerite Oswald.

Enclosed for your information are two reels of tape recording which were made by Radio Station KYW, Cleveland, Ohio, of Marguerite Oswald's appearance on that station's program "Contact" on February 24, 1964, via long-distance telephone line from New York City. Also enclosed are two reels of tape recording made by Radio Station KYW prior to the actual program in which arrangements for the program were discussed with Marguerite Oswald. The four reels enclosed for you were furnished to this Bureau by Radio Station KYW.

In addition, I am enclosing two copies of a communication from our Cleveland Office dated March 3, 1964, which summarizes the "Contact" program of February 24, 1964.

Dear Mr. Hoover:

On Thursday, February 27, 1964, the Commission heard the testimony of Mr. James Herbert Martin who has been Mrs. Marina Oswald's business manager. During the course of his testimony, Mr. Martin made the following statement:

"I met a gentleman who is an executive with the Dinkler Hotel chain, and he related the story to me that was told to him by one of their engineers, a maintenance man in the Atlanta, in their Atlanta, hotel. The maintenance man's wife was an or is a long distance telephone operator, and on the night preceding the assassination there was an individual that called, well, they say I heard the story, that he mentioned to her to remember this telephone call because it would go down in history. He made a credit card call to Lee Harvey Oswald, and simply said, 'Proceed as planned.'

"Then he made another telephone call to Jack Ruby and told him that if anything went wrong he knew what to do.

"Now, I questioned this, I guess there are numerous rumors of this type or whatever it is, and he said no, that it was definitely the truth, and the reason she hadn't come out before with it was that it is a violation of Federal law to listen to a long distance telephone call, and that they finally did report it to the FBI.

Upon further questioning, Mr. Martin stated that he did not know whether the long distance operator worked in the Dinkler Hotel or whether she was in the long distance or toll offices in Atlanta. Mr. Martin stated further that in his opinion either the telephone operator or the telephone company has the credit card number and other records concerning the call. Mr. Martin stated that he heard about this story about one week prior to his appearance before the Commission.

Mr. Martin should be questioned further concerning this story and further investigation should be undertaken to determine the accuracy of this report.

Honorable J. Lee Rankin
General Counsel
The President's Commission

Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated March 3, 1964, relating to the testimony of Mr. James Herbert Martin on February 27, 1964. Mr. Martin furnished the President's Commission with information relating to alleged telephone calls on the night preceding President Kennedy's assassination to Lee Harvey Oswald and Jack L. Ruby from Atlanta, Georgia.

On March 6, 1964, Mr. Martin was interviewed in Dallas, Texas, and advised he originally heard the above story about February 13, 1964, from an executive of the Dinkler Hotel Chain who had been introduced to him by Miss Marie Rushing, owner of the Sky-Light Club in Dallas. Miss Rushing was subsequently interviewed and she identified this executive as Mr. C. E. Hornsby, Jr., general manager of the Dinkler Hotel Chain, Atlanta, Georgia. Miss Rushing also corroborated Mr. Martin's assertions concerning the alleged telephone calls.

On March 6, 1964, Mr. Cyrus E. Hornsby, Jr., Atlanta, Georgia, advised that the information he furnished to Miss Rushing was received by him in a hearsay manner from Mr. Ralph Harmon, an engineer at the Dinkler Plaza Hotel, Atlanta. Mr. Hornsby pointed out he has no first-hand knowledge concerning this matter but was just repeating a rumor. Mr. Hornsby stated Mr. Harmon's wife is a long-distance telephone operator in Atlanta.

Honorable J. Lee Rankin

Mr. Carling Dinkler, owner of the Dinkler Plaza Hotel, Atlanta, Georgia, advised on January 28, 1964, that Mrs. Helen Harmon, a local telephone operator, told her husband, Ralph Harmon, an engineer at the Dinkler Plaza Hotel that an unnamed telephone operator had told Mrs. Harmon she had handled long-distance telephone calls from Chamblee, Georgia, to Dallas, Texas, for Lee Harvey Oswald and Jack L. Ruby on the night prior to President Kennedy's assassination.

Mrs. Harmon during interview stated she did not know who the operator was, but there had been a rumor around the telephone company that some unidentified operator had placed calls for Oswald and Ruby on the night before the assassination originating at the Dogwood Hotel in Chamblee, Georgia. Mrs. Harmon stated this operator allegedly had been interviewed by the FBI.

Your attention is invited to the report of Special Agent Charles S. Harding at Atlanta, Georgia, dated December 1, 1963, entitled, "Lee Harvey Oswald, Internal Security - R." Pages 28 and 31 of this report relate to information furnished by Miss Marion Hayes, a long-distance operator for the Southern Bell Telephone and Telegraph Company, Atlanta, Georgia. Miss Hayes indicated that approximately three weeks prior to November 26, 1963, she had handled long-distance calls for Lee Harvey Oswald and Jack Rubenstein, placed from the Dogwood Hotel in Chamblee, Georgia. These calls were placed on a Sunday evening and the individual placing the calls used a credit card ending in 532. At the time of this interview Miss Hayes admitted to being emotionally upset over the assassination of President Kennedy.

In view of Miss Hayes' information the security officer for the Southern Bell Telephone and Telegraph Company was contacted and he stated it was very improbable that the same telephone operator would have received and placed the calls described by Miss Hayes. He made a check of all canceled calls for the dates of November 3, 10, and 17, 1963, all Sundays, and no calls identifiable with those mentioned by Miss Hayes could be located.

Honorable J. Lee Rankin

In addition the telephone records of the Dogwood Motel, Cumming, Georgia, for the month of November, 1963, were made available and no record could be located disclosing that telephone calls were placed to Dallas or New Orleans as indicated by Miss Hayes.

This concludes our inquiry into this particular matter.

Sincerely yours,

NOTE:

Dear Mr. Rankin:

Reference is made to your letter dated February 21, 1964, concerning a request of Congressman Gerald R. Ford for you to ascertain the circumstances under which the photograph of Lee Harvey Oswald carrying the rifle and wearing the pistol was released to the press.

Enclosed for your assistance are two copies of a self-explanatory communication from our Dallas Office dated March 3, 1964. In addition to the information contained in this communication, the following is submitted:

On February 25, 1964, Mrs. Martha Bucknell, Office Manager, Washington Bureau of "Life" magazine, advised her magazine had purchased the above photograph from Mrs. Marina Oswald through her former agent, James Herbert Martin. Mrs. Bucknell advised in confidence her New York headquarters are concerned by the publication of this photograph by other news media and that "Life" is contemplating suit against those publications. She requested this matter not be given publicity outside the President's Commission. Mrs. Bucknell could furnish no information as to how other publications obtained similar photographs.

Mr. Jerry O'Leary, Jr., of the "Washington Evening Star," stated he was in Dallas on the night of November 22, 1963. He believes officers from the Dallas Sheriff's Office and Dallas Police Department, while searching the residence of Mrs. Ruth Paine of Irving, Texas, obtained several photographs, one of

which was the photograph in question. Mr. O'Leary indicated he had seen a copy of the photograph appearing on the cover of the February 21, 1964, issue of "Life" in the hands of a local Dallas police officer either on the night of November 22, 1963, or the morning of November 23, 1963. Mr. O'Leary stated he confidentially learned "Life" paid Marina Oswald, through her agent, $5,000 for the photograph. He also believes a Detroit paper obtained this photograph in the same way, by purchase from James Herbert Martin.

The March 2, 1964, issue of "Newsweek" on page 80 contains an article captioned "A Big Sale," which describes the apparent purchase of this photograph by "Life" and "The Detroit Free Press." The information contained in this article is substantially the same as indicated above with the exception this article indicates that attorneys for "Life" and Marina Oswald were contemplating legal action against "The Detroit Free Press."

From the information available, it would appear numerous unaccounted for copies of this photograph were readily available in Dallas, Texas, shortly after the assassination of President Kennedy. It also would appear this photograph, as well as other photographs relating to Lee Harvey Oswald, was made available for sale through representatives of Mrs. Marina Oswald.

Inasmuch as Mr. Martin has been questioned by you concerning this particular photograph, no reinterview of him concerning this matter is contemplated by this Bureau. Your request to have Mr. Ken Murray of "The Detroit Free Press" interviewed, as contained in your letter dated March 6, 1964, is receiving appropriate attention. When the results of this interview and any other necessary investigation are received, you will be notified.

Sincerely yours,

Enclosures (2)

Honorable J. Lee Rankin

NOTE:

Mr. Rankin, President's Commission, by letter 2/21/64, stated that Representative Gerald R. Ford (R. - Michigan) had requested Rankin to obtain above information. Inquiries by Dallas would indicate the most logical source for the wide dissemination was the Dallas Police Department who admittedly made numerous copies and made no effort to control their dissemination. "Life" magazine has apparently paid $5,000 to Marina Oswald's former manager or attorney; however, Marina Oswald stated as late as 2/27/64 she has seen no money nor did she authorize such a sale. INasmuch as Mr. Martin has been questioned by the Commission concerning this particular photograph, no reinterview of him concerning this matter is contemplated by this Bureau. Rankin's request contained in letter dated 3/6/64 to have Mr. Ken Murray of "The Detroit Free Press" interviewed is receiving appropriate attention. When results of this interview and other investigation necessary is received, Mr. Rankin will be notified.

It is felt the above answers the Commission's request. No further action being taken. The Commission's letter dated 3/6/64 is being handled separately in an expeditious manner.

For further information see C. D. DeLoach to Mr. Mohr memo, dated 2/25/64, captioned, "Assassination of the President, Photograph of Lee Harvey Oswald with Rifle and Revolver, "Life" Magazine 2/21/64," BEW:saj.

ASSASSINATION OF PRESIDENT KENNEDY
AT DALLAS, TEXAS, 11/22/63

The President's Commission sent a letter to the Bureau dated March 6, 1964, requesting certain information, including photographs relating to the cab and bus utilized by Oswald following the assassination of the President, and miscellaneous requests relative to the bus and cab companies. Upon receipt of this communication over the weekend, a letter was directed to the Commission pointing out the desirability of such requests being received in sufficient time to give them proper attention, it being noted that the President's Commission requested the information by March 12, 1964.

The material requested was obtained and a letter identifying the various items requested was prepared for the Commission dated March 12, 1964. It was not possible to have the material in finished form by 9:00 a.m. March 12.

At Mr. Willens' request, copies of a number of photographs and charts were made available to the Commission for its use in questioning witnesses William Wayne Whaley, cab driver, and Cecil J. McWatters, bus driver. The Bureau's letter transmitting this material was delivered to the President's Commission later in the day on March 12.

Reference is made to the letter of Assistant Attorney General Herbert J. Miller, Jr., dated March 6, 1964, concerning a letter dated February 20, 1964, from Mr. L. M. McAllen, Jr., 400 West 46th Street, New York, New York.

The information contained in the letter of Mr. L. M. McAllen, Jr., is being made available to the President's Commission investigating the assassination of President John F. Kennedy.

For your additional information, our files reveal that L. M. McAllen, Jr., has corresponded with this Bureau since 1951. L. M. McAllen, Jr., has previously been institutionalized in the Kings Park State Hospital, Long Island, New York, for a period of two years. In 1954 his condition was described by officials of this hospital as "suffering from delusions of grandeur, persecution complex and dementia praecox, but is not dangerous to the state where solitary confinement is necessary." In his letters, the last of which was received during August, 1963, he complained of the Mafia, communists and other people harassing him and he frequently predicts future tragedies for prominent people.

In view of the nature of the letter you furnished to me and the background concerning L. M. McAllen, Jr., no further action is being initiated by this Bureau.

Dear Mr. Rankin:

During the course of the discussion of the firearms evidence in this matter on March 12, 1964, between Mr. Melvin Eisenberg of your staff and representatives of this Bureau, Mr. Eisenberg indicated that the Commission desired that the firearms evidence be delivered by this Bureau to Mr. Ronald Simmons, Weapons System Division, Fort Meade, Maryland, on a date in the near future to be specified by the Commission, for the purpose of having an independent re-examination made of the evidence by Mr. Simmons. This, of course, raises the question of similar independent technical re-examinations of other evidence in the case, such as the handwriting and fabric evidence.

Inasmuch as the apparent theory behind any such re-examination is to completely divorce the examination from the FBI, it is suggested that in order to achieve this objective, the FBI should deliver the evidence to the Commission and that arrangements for independent examination and delivery to the independent examiner should be handled by the Commission. This course of action will eliminate any possible subsequent allegation that the FBI exerted influence on the independent examiner selected by the Commission.

You may wish to consider this evidence delivery matter in connection with any decision made by the Commission relative to re-examination of the physical evidence.

Sincerely yours,

J. Edgar Hoover

At page 86 of SA Gemberling's report dated February 11, 1964, it is stated that Warren Reynolds was apparently a witness to the flight of the murderer of Officer Tippit. At pages 94-95 of the same report it is stated that on January 23, 1964, Warren Reynolds was shot in the head by a bullet from a .22 caliber rifle, and that the prime suspect in this matter was Darrell Wayne Garner. On February 13 1964, the enclosed article by Mr. Bob Considine appeared in the New York Journal American. This article states, in substance, that Garner had been released, based in part on the testimony of Betty (Mooney) MacDonald, who had allegedly worked as a stripper at the Carousel Club, and that MacDonald subsequently hanged herself.

Could you please furnish us with a full report in connection with these matters.

Sincerely,

J. Lee Rankin

Violent Dallas—

A New Chapter

(Hearst Headline Service)
Special to N. Y. Journal-American

DALLAS, Feb. 22.—One of the men who put the finger on accused assassin Lee Harvey Oswald after President Kennedy was killed also has been shot.

And the girl friend of a local resident who was questioned about this second shooting turned out to have been a stripteaser in the Dallas nightspot owned by Jack Ruby, on trial now for killing Oswald.

Adding to this incredible skein of circumstances that came to light today is the revelation that the stripper has committed suicide.

These facts, pieced together today—exactly three months after President Kennedy was slain—provide a strange epilogue showing that the jinx of violence continues to persist around figures involved in the assassination, one way or another.

Call it a series of coincidences, if you will. But here they are:

Last month a Dallas used-car dealer named Warren Reynolds was shot in the head. A shooting is not necessarily front-page news here, particularly if the victim lives.

There were 113 murders here last year. At one time, not long ago District Attorney Wade had five men in the death

house, awaiting their turn in the chair.

THIS IS DIFFERENT

But the shooting of Warren Reynolds was different.

The Reynolds Motor Co. is close to the spot where Officer J. D. Tippit stopped Oswald as he hurried away from the scene of the assassination. Oswald reportedly shot the officer three times and killed him.

The sound of shooting brought Reynolds out of his office. He told police that he saw Oswald running away, putting new shells into a pistol as he did. He later joined with others in identifying him as the man.

Last month Reynolds was locking up his office for the night and had pushed two of the 30 buttons which doused the lights of the establishment when a man rose from behind a filing cabinet and shot him in the temple with a 22-caliber rifle.

Mr. Reynolds has made a remarkable recovery after doctors had feared permanent loss of speech.

SUSPECT CLEARED

A local desperado named Garner was picked up by the police after the Reynolds shooting but was cleared. His girl, Betty (Rooney) McDonald, took a lie detector test that helped spring Garner. Two weeks ago she was arrested for engaging in a public brawl with her roommate. Last week she hanged herself in her cell.

Betty never won any beauty contests, but she always said she had a claim to fame.

She had worked as a stripper at a place called the Carousel, Jack Ruby's Carousel.

There is pathetically little to mark the spot at which John Fitzgerald Kennedy was assassinated just three months ago today.

The sixth floor window of the ugly Schoolbook Depository, the window from which briefly protruded the barrel and muzzle of the 6.5 mm. Mannlicher-Carcano, is shut now. It alone among the windows on that top floor of the building where Oswald worked, is shuttered—with a Venetian blind.

The bend around which the open car was passing is heavy with traffic, trucks and cars hammering along the one-way street on assorted errands toward the complex of overpasses just down the road. None stops. Few slow down.

There is a little rise of lawn at the place where President Kennedy's head was shattered, while he acknowledged cheers that had caused him to agree with the Governor's lady, riding on the jump seat, that Dallas certainly had turned out fine for him.

The lawn leads gently up to a concrete perula and walking gallery, part of the decor of Dealey Plaza, a bit of park provided by the publisher of the Dallas Evening News to relieve the hard features of the neighborhood.

Against the wall of the gallery huddles a sad patch of wreaths, sprays and potted plants, none of them bearing either his name or the name of the donors.

A little bowl of three bright red full-blooming tulips was a relief, but not enough of one to keep the eyes off a blanket of red roses decorated with a few Christmas tree balls.

The story turns from chapter to chapter, never ending. It resounds in the sometimes thunderclap trial of the man who killed the man who killed the man. It is debated in the solemn councils of the Warren Commission in Washington. It remains "open" on the books of the FBI and the Secret Service.

And the spot where is happ- It is as forlorn as an unkept grave.

NOTE:

Commission by referenced letter refers to a situation wherein one Warren Reynolds, a witness to Lee Harvey Oswald's shooting of Dallas police officer J. D. Tippit, was in turn shot by an intruder in his auto concern. The intruder, Darrell Wayne Garner, was absolved from involvement in the shooting of Reynolds because of the testimony of his girl friend Betty (Mooney) MacDonald, allegedly a stripper at Jack Ruby's Carousel Club in Dallas. Subsequently, MacDonald is reported to have hung herself. The Commission has requested it be furnished "with a full report" in these matters. The purpose for the Commission's request for this investigation is not known; however, Reynolds was a witness to the Tippit shooting and was one of several individuals who identified Oswald as Tippit's murderer. Reynolds is recovering.

Dallas is being instructed to handle this matter expeditiously and when the results are submitted to Bureau the Commission will be promptly notified.

Dear Mr. Hoover:

In reviewing the materials submitted to the Commission by your Bureau we have noted that the report of Special Agent Manning C. Clements, dated December 6, 1963, at page 153, mentions the fact that several colored photographs were taken of Curtis La[illegible] Crafard on November 28, 1963 during the course of an interview. We would appreciate your sending to the Commission a copy of each photograph taken.

We further note that during his interview, Crafard stated that after December 6, 1963 he would be away from the Bellaire, Michigan area but would keep your Traverse City Resident agency advised of his current whereabouts. Inasmuch as the Commission expects to subpoena Crafard sometime after March 23, 1964 we would appreciate your informing us as to whatever your Bureau may know as to his whereabouts.

Thank you for your continuing cooperation in the work of this Commission.

Dear Mr. Rankin:

Reference is made to my letter to you dated February 26, 1964, regarding your request for this Bureau to provide coverage of the public appearances of Mark Lane and Marguerite Oswald.

During the public appearance of Mark Lane at a meeting sponsored by the "National Guardian" at Town Hall in New York City on February 25, 1964, Lane stated that committees of inquiry into the assassination of the late President John F. Kennedy would be organized throughout the country. Lane stated that the national office of the Citizens Committee for Inquiry would be located in New York City.

The "National Guardian" issue of February 27, 1964, contained an article seeking help for the New York Citizens Committee of Inquiry organized by Lane to reveal the facts about the slaying of the late President Kennedy. The address for the New York group are listed as 164 West 79th Street, Apartment 2B, which is the residence of Lane. This Bureau has since learned that the address of the Citizens Committee of Inquiry is now listed as 156 Fifth Avenue, Room 422, New York City. The organization has described itself as a nonprofit group with Mark Lane as Chairman, Robert Scheer as Treasurer, and Thomas Griswold as Secretary.

ENCL: There are enclosed for your information two copies each of two communications dated March 13, 1964, at Washington, D. C., concerning the subversive backgrounds of Scheer and Griswold. You have previously been furnished information regarding the subversive background of Lane.

By letter dated 3/4/64 the President's Commission submitted a three page letter of requests which were very extensive in nature. This necessitated tremendous volume of work in Dallas including photographs, plats of land and houses and complete plats of all floors of the Texas School Book Depository Building. In addition, extensive research was necessary by the Laboratory concerning the rifle, clothing, documents and other items to be furnished to the Commission by 3/11/64. However, due to the extremely short period of time, a letter dated 3/6/64 was sent to the Commission in which we indicated all efforts were being utilized to comply at an early date. The Laboratory coordinated and prepared their particular phase of the operation and made these items available to the Commission on 3/11/64 which was confirmed by letter dated 3/12/64. The only remaining items that were necessary were numerous exhibits which were prepared by Mr. Gauthier of the Exhibits Section and are now available for transmittal. These exhibits were listed as items 5, 6 and 8 in the Commission's letter of 3/4/64 and complete the requirements in this matter.

NOTE: President's Commission by letter dated 3-3-64, requested Mrs. Paine be interviewed and endeavor to identify numerous exhibits belonging to her, her husband, or to Lee Harvey or Marina Oswald. The above concludes our inquiry. - 2 -

Honorable J. Lee Rankin

Mrs. Paine was unable to identify the following exhibits: 71, 72, 74 through 86, 83, 91 through 94, 99 through 106, 193, 201, 202, 303 through 322, 324 through 327, 329, 352, 354, 366, 408 through 411, 453, B 26 and D 41.

This concludes our inquiry in this particular matter.

You will note that Lindsay originally furnished information concerning the assassination of President Kennedy but upon reinterview admitted that the information he had originally furnished was untrue and the result of hallucinations brought on by drinking. Also, Lindsay had stated when originally contacted that he had been a member of the Cosa Nostra organization and that James Buddy Ewes and Sam North had also been members. Upon reinterview Lindsay admitted he had no connection with this organization and stated that Ewes and North were underworld characters and this was all he knew of them.

PURPOSE

This is to advise of action initiated by Bureau based on results of President's Commission received 3/4/64.

DETAILS

Mr. J. Lee Rankin, General Counsel, President's Commission, by letter dated 3/3/64 advised that on Thursday, 2/27/64, Marina Oswald's former business manager, James Herbert Martin, testified before the Commission.

According to Rankin, Martin testified that about one week before his testimony he met an executive of the Dinkler Hotel chain who related a story to Martin which the executive had learned from a maintenance man employee of the Dinkler chain in Atlanta. According to the story the maintenance man's wife was or is presently a long-distance telephone operator and she heard, on night before President Kennedy's assassination, a male individual made a credit card call to Lee Harvey Oswald and say "proceed as planned." After this he placed a second call to Jack Ruby and told Ruby that if "anything went wrong he knew what to do."

Rankin requested appropriate investigation be undertaken to determine the accuracy of this report.

An interview of Martin by Dallas developed this this rumor was overheard by him in Dallas night spot. Continuing investigation

by Atlanta established this rumor passed by Mr. Cyrus E. Hornsby, Jr., General Manager of the Dinkler Hotel chain, Atlanta. Mr. Hornsby states he obtained this information from Mr. Ralph Harmon, an engineer at the Dinkler Hotel in Atlanta. Mr. Harmon's wife is a long-distance telephone operator in Atlanta.

In addition to the above information, Mr. Carling Dinkler, owner of the Dinkler Plaza Hotel, Atlanta, advised on 1/28/64, Helen Harmon local telephone operator, told her husband, an engineer at the Dinkler Plaza Hotel, that an unknown telephone operator had told Mrs. Harmon she handled a long-distance call from Chamblee, Georgia, to Dallas, Texas, for Lee Oswald and then one to Jack Ruby on the night before the assassination.

Mrs. Harmon during interview stated she had not talked to the operator, but there was a rumor at the telephone office that some operator had placed calls for Oswald and Ruby from the Dogwood Motel in Chamblee, Georgia, and this operator had been interviewed by the FBI.

This incident was reported to the Commission in the report of SA Charles S. Harding at Atlanta dated 12/1/63. Marion Hayes is the long-distance telephone operator who made the original allegation and from our investigation it would appear Mrs. Hayes was emotionally upset as a result of the assassination.

Our Atlanta Office made a review of pertinent telephone company records and no record of any such calls as alleged by Mrs. Hayes could be located, although all logical efforts were made to resolve this allegation.

RECOMMENDATION

That the attached letter be sent to the President's Commission advising them of the results of our inquiry and referring them to the report of SA Charles S. Harding.

Memorandum

TO : MR. GALE

DATE: March 12, 1964

FROM : H. L. EDWARDS

SUBJECT: LEWIS POWELL, JR.
PRESIDENT-ELECT, AMERICAN BAR ASSOCIATION (ABA)
WARREN COMMISSION

Last evening President-Elect of the ABA, Lewis Powell, Jr., telephoned me and asked me if I could meet him at his hotel in Washington where he was staying overnight indicating that he had a few things on his mind concerning his plans for strengthening the administration of criminal justice when he assumes the ABA Presidency in August, 1964. However, when I visited with him he seemed to want to talk first about the Warren Commission. He did not ask any questions or seek any information but seemed to want to get a couple of things off his mind.

Powell explained that yesterday was the first day that he had spent sitting in at the Warren Commission where they were taking testimony. He said that when Chief Justice Warren had named ABA President Walter Craig to oversee the proceedings of the Commission from a legal standpoint, Craig was actually named as an individual rather than as representative of the ABA. Powell said he thought this was a fiction on the part of Warren because Warren still seems to be "smarting" over his earlier rift with the ABA and in truth, Warren actually wanted the stature of the ABA in the picture because Warren and the Commission have been getting considerable criticism over the conduct of the inquiries. Powell said that in view of the heavy schedule of Craig, Craig effected an arrangement whereby he could be represented during his unavailability by Powell and past ABA Presidents Whitney North Seymour of New York and Charles Rhyne of Washington, D. C.

Powell said that if he had his way he would prefer the ABA not get involved for he is a bit concerned as to where the Commission is heading.

Speaking of his experience at the Warren Commission yesterday Powell said he felt somewhat helpless to draw any conclusions or make any suggestions because it is so difficult to inject oneself midstream and feel that you have an adequate picture of the whole situation. He likened it to someone trying to second-guess an FBI investigation without having studied all of the findings to date. Powell

at at the time they got into the picture there had already been about 2000 of testimony taken. He said that Craig has been trying during his spare s and on weekends to review this testimony. It has been difficult because tight security, requiring that the testimony not be removed from the mission quarters. Powell said he fully agrees with the security because of pparent leaks which have heretofore occurred. Powell has no idea as to long the inquiries might last but he seemed to make it plain that he hoped they d not be unduly protracted.

UNITED STATES GOVERNMENT

Memorandum

TO : DIRECTOR, FBI DATE: March 16, 1964

FROM : SAC, CLEVELAND (62-0)

SUBJECT: INFORMATION CONCERNING
SENATE JOINT RESOLUTION 137

Enclosed herewith is a copy of an anonymous two page letter addressed to "Gentlemen of the Senate" and signed "Sincerely, a citizen who today is afraid to sign his name when criticizing his Government".

This letter was furnished to the Cleveland Office on March 14, 1964 by Mr. DANIEL WEBB, 154 Yonker Street, Barberton, Ohio, telephone number 753-1089 and who is employed as a mathematician for Babcock and Wilcox in Barberton. WEBB advised that the enclosed letter was drafted by a group of individuals indicating that he, himself, was a member of this group, but would not further disclose the identity of the group or the name of the group. He stated that on January 3, 1964, copies of this letter were mailed from Blackhorse, Ohio, to the Washington Post, the New York Times, the National Observer, President LYNDON B. JOHNSON and Chief Justice EARL WARREN.

He stated that these letters were written with the thought in mind that the text of the letter would be brought to the public's attention and cause a controversy over the establishment of the Warren Commission. He stated the letter is self-explanatory and because of the fact no controversy has arisen over these letters being sent out, he was wondering if any collusion could exist between the Justice Department and the press.

Mr. WEBB was advised that no such collusion exists or could exist between the Justice Department and the press and he was further advised that possibly the reason his letter did not receive any recognition may possibly be due to the fact it is an anonymous letter which the news media may not desire to publish.

ENCLOSURE

ENCLOSURE ATTACHED

58 MAR 25 1964

WEBB seemed reluctant to identify any other members of this group for fear of being subpoenaed before the Warren Commission because of their feelings toward the commission and its constitutionality.

The letter is being enclosed for the information of the Bureau in the event this has not previously been brought to the Bureau's attention.

Cleveland indices negative regarding DANIEL WEBB.

Gentlemen of the Senate:

I question the constitutionality of Senate Joint Resolution 137.

The purpose of my writing is to bring this matter to discussion, debate, and reconsideration.

I find it difficult to read, let alone believe, those words which appear on page 22639 of the Congressional Record of the United States Senate for December 9, 1963: "Authority to compel ..."

I am so profoundly disturbed by the tragic import of this resolution that I call your attention to the following objections which, I believe, must be made to the resolution.

I) S. J. RES. 137 ARBITRARILY ABRIDGES THE CITIZEN'S CONSTITUTIONAL GUARANTEE OF IMMUNITY FROM BEING A WITNESS AGAINST HIMSELF.

(But we, in our greatness, understand. So great and intense is our desire to know the facts and circumstances surrounding the murder of our president, that we, in our thirst for information, willingly abrogate that very privilege which our constitution guarantees. We do understand and even sympathize with that desire.

We understand intolerance too: intolerance of one who would claim the Fifth Amendment on his own behalf. And, you may be assured, we do understand and even sympathize with and condone that intolerance. We, in our greatness, will permit and grant many things.)

II) S. J. RES. 137 CONSTITUTES A TYRANNICAL ENCROACHMENT ON THE CITIZEN'S RIGHT TO SECRECY.

(S. J. Res. 137 constitutes a genuine instrument of the Devil's handiwork: insidious, it not only went undiscussed, much less challenged, but, instead, was unanimously endorsed by the members of the U. S. Senate, that most august body with whom is charged the responsibility of maintaining and protecting those very freedoms which make of the United States a nation of singular greatness.

But all of this is permitted, for we, in our greatness, do understand: the Senate of the U. S. reflected in their unanimity our genuine desire to know the facts regardless. And, we do permit and grant many things.)

III) S. J. RES. 137 ABOLISHES THE TRADITIONAL OBLIGATION OF THE PROSECU-

TION'S RESPONSIBILITY TO CARRY THE BURDEN OF THE PROOF.

(But, we understand: in our overwhelming desire to know the facts surrounding the president's death, we may, just for a moment, exempt what is tradition. Besides, the prosecution will not, it promises, prosecute, except ...

Just for the moment however, we do understand; besides, it's popular. And we do certainly permit and grant all that is popular - even if it might, just possibly happen to be illegal. Besides, all inquisitions have been benevolent and beneficent: they always have been in the public intrest and good.)

IV) S. J. RES. 137 CONSTITUTES A RESOLUTION ONLY, NOT AN AMENDMENT TO THE CONSTITUTION.

(This resolve is illegal and constitutes a crime against the constitution: abridgments and changes or alterations to the constitution must be by amendment; resolutions are ineffectual. And, as a crime, well defined, then by definition, they are criminal who endorse S. J. Res. 137.

Yet, we do understand: let us be criminal just for a day - then we'll forget it and get back to the serious business at hand.)

"Compel ... testimony": dangerous words - words which defame the very principle for which John F. Kennedy fought (and, we hope, not in vain) - civil rights for all. John F. Kennedy, the late first citizen of the United States, and to some, first citizen of the world - would he, the first citizen, have wished the circumstances of his death unconstitutionally investigated by an inquisition called the Warren Commission?

Gentlemen of the Senate: where are your "profiles in courage?!" Could the bullet that killed a president have penetrated so deeply as to have assassinated the constitutional conscience of a Congress also?

Sincerely,

A citizen who, today, is afraid to sign his name, when criticizing his government.

Dear Mr. Hoover:

I have always been interested in the things that help preserve our wonderful country. Events of the past few years, especially since last November denote the need for higher morals in our great country.

Mr. Hoover, I have followed events relative to President Kennedys death and that of Harvey Lee Oswald. While it is reasonable to expect specefic information to be withheld in such events...Recently I learned via radio that the Communist Daily Worker on or about Nov 26, suggested that a secret commitee headed by Chief Justice Earl Warrern be appointed to investigate the Ruby-Oswald case. I was also told that on this committee there is a Mr. NORMAN RODLICK, a University professor and present or past director of the "Emergency Civil Liberties" group....further that the said Mr. Norman Rodlick, has been an avout person in the distribution of Communist materials to our Universities. Is the above true Mr. Hoover?

I consider myself neither a "rightwing or Leftwing" but a devoted American. I follow news of all media very close...I weigh everything I hear and read; however it is difficult not to be concerned what I have learned that has been promoted as well as denounced by the U.S. Supreme Court. I feel men of more dignity and higher personal morals should be selected. It hurts me to say these things relative to the high office.

SUBJECT: NORMAN REDLICH
PRESIDENT'S COMMISSION ON THE
ASSASSINATION OF PRESIDENT KENNEDY

We are in receipt of a Standard Form 86 (Security Investigation Data for Sensitive Position) from the Civil Service Commission (CSC) on Redlich for processing under Executive Order 10450 (Federal Employee Security Program). While the form lists General Services Administration (GSA) as the employing agency, we know Redlich is with the President's Commission and that GSA is acting solely as a "housekeeping" unit for the Commission.

A summary memoranda based on information in our files has previously been furnished to J. Lee Rankin of the Commission and to GSA.

BACKGROUND:

In brief, the review of Bureau files disclosed Redlich was a subscriber to the "National Guardian" in 1953 (Cited by House Committee on Un-American Activities (HCUA)). He has, since 1955, been active as a sponsor and/or speaker of the Emergency Civil Liberties Committee and the National Committee to Abolish the HCUA. Both these groups have been cited by HCUA as communist front groups. He has been associated with Harry Magdoff and represented the latter when he was subpoenaed to appear before the HCUA. Magdoff was uncooperative with the Committee.

SYNOPSIS

Purpose of memorandum is to explore allegation Lee Harvey Oswald was FBI informant and related points covered by President's Commission last week during appearance before Commission of Henry Wade, District Attorney of Dallas County, Texas, and to set forth pursuant to Director's request (1) procedures we use in development and control of FBI informants, (2) the system used in handling informants in Special Intelligence Service (SIS) program, and (3) details concerning Wade's SIS service while in the FBI.

Contrary to testimony, Oswald was never FBI informant, was never paid money for information and was never assigned any symbol number. Procedures we use in informant program preclude the possibility of Oswald's connection with FBI as an informant without knowledge of Seat of Government.

We closely supervise all aspects of informant program. Field offices cannot develop security informants without Bureau authorization, which is based on exhaustive background investigation to determine reliability, trustworthiness and stability.

When we do authorize, we follow informant's development through progress letters which field offices submit at four-month intervals.

NOT RECOR
5 FEB 11 1964

We approve use of symbols and code names, maintain an index of these andnone may be used twice by the same field office.

We authorize payments on regular basis and maintain current records of every expenditure made showing to whom made and why.

SAC has only limited authority to make payments without Bureau authority in certain instances and we control this by limiting amount, and by end-of-month accounting procedure which lists all such payments, to whom made, and for what purpose.

DEPT. DIR. VISIT

CONFIDENTIAL

These procedures enable us to apply a cross check to our operations. Our records show (1) no payments were listed to Oswald, (2) no symbol number was assigned him, and (3) no field office requested authorization to consider Oswald for development as informant--a necessary requisite in our program.

We have already informed Commission purpose of three interviews Bureau Agents had with Oswald prior to assassination and one interview afterward. During none of these were any efforts made to develop Oswald as an informant and we have secured affidavits from every Agent in contact with Oswald at any time which substantiate this fact. We have also secured affidavits from their respective Special Agents in Charge (SAC's). These affidavits will be available in event Director desires to furnish them to the Commission.

In regard to SIS program, we had a control system whereby we have records of payments to informants similar to records maintained under our present domestic informant program.

Henry Wade served in undercover capacity under SIS program from August, 1942, to April, 1943, and did not have unlimited funds for informant development. He was required to account strictly for his expenditures and did so. Copies of the vouchers and receipts he submitted are available.

A brief of Wade's Bureau service record has been prepared separately for the information of the Director.

It would be desirable to furnish President's Commission with facts which clearly and unequivocally refute allegation that Oswald was a paid informant for the FBI operating with a symbol number. We should point out desirability of Commission issuing statement at once refuting allegation because (1) Communist Party has been carrying on propaganda campaign to spread this allegation; (2) allegation has developed enough interest to warrant even Commission's inquiry; and (3) if allegation goes unrefuted it will gain increasing public acceptance and prove damaging not only to FBI but Government as a whole.

Should Commission refuse to act, we should follow accepted policy of meeting such lies head on and issue statement ourselves. We can do so without referring to testimony before Commission since allegation has appeared in public source publications, notably communist press.

RECOMMENDATION:

That this memorandum be referred to Director for information and approval of proposal to have statement issued either by President's Commission or by us if Commission declines.

Memorandum Mr. W. C. Sullivan
to Mr. A. H. Belmont
RE: LEE HARVEY OSWALD

DETAILS

Background

Reference is made to the discussion January 28, 1964, between the Director and Mr. J. Lee Rankin, General Counsel of the President's Commission, concerning appearance before the Commission last week of Henry Wade, former FBI Agent who currently is the District Attorney of Dallas County, Texas.

According to Rankin, the Commission was advised that speculation had been made that Lee Harvey Oswald had been an FBI informant with symbol number 179 and had been receiving payments from the FBI in the amount of $200 monthly.

Wade reportedly told the Commission Oswald could have been active in this capacity without FBI headquarters personnel knowing about it because of the manner in which informants are developed and handled. In support of this contention, Wade is said to have pointed to his own experiences in the FBI, specifically in regard to his service in South America (in the Special Intelligence Service (SIS) program), when, allegedly, records of his activities were not maintained, and he did not have to account for money furnished him to develop and pay informants.

Purpose

The purpose of this memorandum is to explore these specific allegations and to set forth, pursuant to the Director's request, (1) the specific procedures we use in the development and control of our security informant program, (2) the system used in handling informants in SIS program years ago, and (3) details concerning Wade's SIS service while he was employed as a Special Agent of the FBI.

Memorandum Mr. W. C. Sullivan
to Mr. A. H. Belmont
RE: LEE HARVEY OSWALD

I. Development and Control of Security Informants

First, it can be said unequivocally that Lee Harvey Oswald was never an FBI informant, was never paid any money for furnishing information, and was never given a symbol number of any kind much less the specific one allegedly assigned him. Furthermore, we are in a position not only to state this but also to produce records which would prove the impossibility of such being the case. These records cover every aspect of the procedures used in the development and control of informants.

Informant Program Closely Supervised

In order to fulfill our responsibilities in the internal security field, we use security informants to penetrate the Communist Party (CP), USA, and keep us advised of the Party's plans and activities. Recognizing the importance of this phase of our operations, we afford close supervision at the Seat of Government (SOG) to the security informant program and have established safeguards to insure against any misuse or abuse of its operation by our field offices.

Bureau Authority Necessary

Our field offices cannot develop anyone as a security informant without authorization from the SOG. To obtain this authorization, they must conduct an exhaustive background investigation of the prospective informant, the results of which are analyzed at the SOG before approval for development is given. Prior to giving such approval, the SOG automatically eliminates as a prospective informant any individual with questionable factors in his background, such as evidence of mental instability, a dishonorable discharge from the armed forces, narcotic addiction, perversion, unusual credit risks, complicated marital or domestic situations, and the like.

Progress Letters Necessary

When we do authorize a field office to proceed with the development of an individual as an informant, we follow the development through progress letters. At the end of four months, and at four-month intervals thereafter, the field office must submit progress letters containing an informative summary of information furnished and assistance rendered by the individual under development. These include a current certification each time concerning the individual's stability and reliability.

Symbols and Code Names Assigned

As the individual develops, he is assigned a permanent symbol number and code name to afford him security. The informant never knows the symbol number assigned to him. It is a number permanently assigned to him, and the same number cannot be used again by the field office under any circumstances for any other individual. The individual also is given a fictitious or cover name by the field office which he, of course, is made aware of and he affixes it to his communications with the office. Every symbol number and code name is indexed here at the SOG.

SOG Authorizes Regular Payments

If the services of an informant warrant payment on a regular basis, the field offices must also obtain authorization from the SOG to make such payments. In every such case, this too is re-evaluated every four months at the SOG to determine if continued payments are warranted.

UND.

Special Agents in Charge (SACs) Authority Limited

SACs of our field offices are authorized to make payments to individuals not utilized on a regular basis as informants, but here too the SOG controls this by limiting the amount an SAC can pay to any one individual in this category to $200. SACs are under instructions to make such payments only in specific instances in which it is necessary and expedient to do so to obtain information concerning matters or persons under investigation when such information is not otherwise obtainable or when it is necessary to advance expense money to an individual to enable him to secure the information.

Controls in Effect

The SOG maintains additional control of such payments by the SAC in several ways. Such payments can only be made to individuals who have never been paid on a regular basis for services or expenses with Bureau authorization; such payments cannot exceed $200, regardless of the number of payments; and such payments must be accounted for by the field offices at the end of each month through the submission of a detailed accounting to the SOG.

Funds Accounted For

When payments are made to anyone for information or assistance, either on the SAC's authority or on prior Bureau authority, receipts must be obtained in every instance in which it is possible to so obtain them. If a receipt cannot be obtained for a particular payment, complete circumstances concerning the payment must be set forth by the field office on a voucher at the time reimbursement is claimed at the end of the month. Receipts must clearly show: (1) the date on which the payment was made; (2) the period for which made; (3) the total amount paid, broken down into separate amounts for services and expenses; (4) the name of the FBI Agent making the payment; and (5) the signature of the person receiving the money.

Records of Expenditures Maintained

Receipts and vouchers prepared by field offices in this regard are transmitted to the SOG generally on a monthly basis (more frequently in many instances). They are reviewed to insure that all such payments are being made in accordance with Bureau instructions and are recorded in ledgers pertaining to each field office operation.

It is to be noted that the Bureau's precise handling of such matters is demonstrated every time an informant, a former informant, or other persons to whom we have paid sums of money are prospective witnesses. In such cases, we must and do furnish the Department a set of photostats of the original receipts signed by the prospective witnesses.

Control Measures

In regard to control of informants, field offices are under instructions to maintain close contact with them. The informants must be contacted as often as necessary with at least one personal contact every two weeks. The net result of these close contacts, as previously noted, are evaluated at the SOG in the four-month progress letters submitted. When it is necessary for any reason to discontinue the services of an informant, the field office must promptly notify the SOG.

Oswald Precluded as Informant

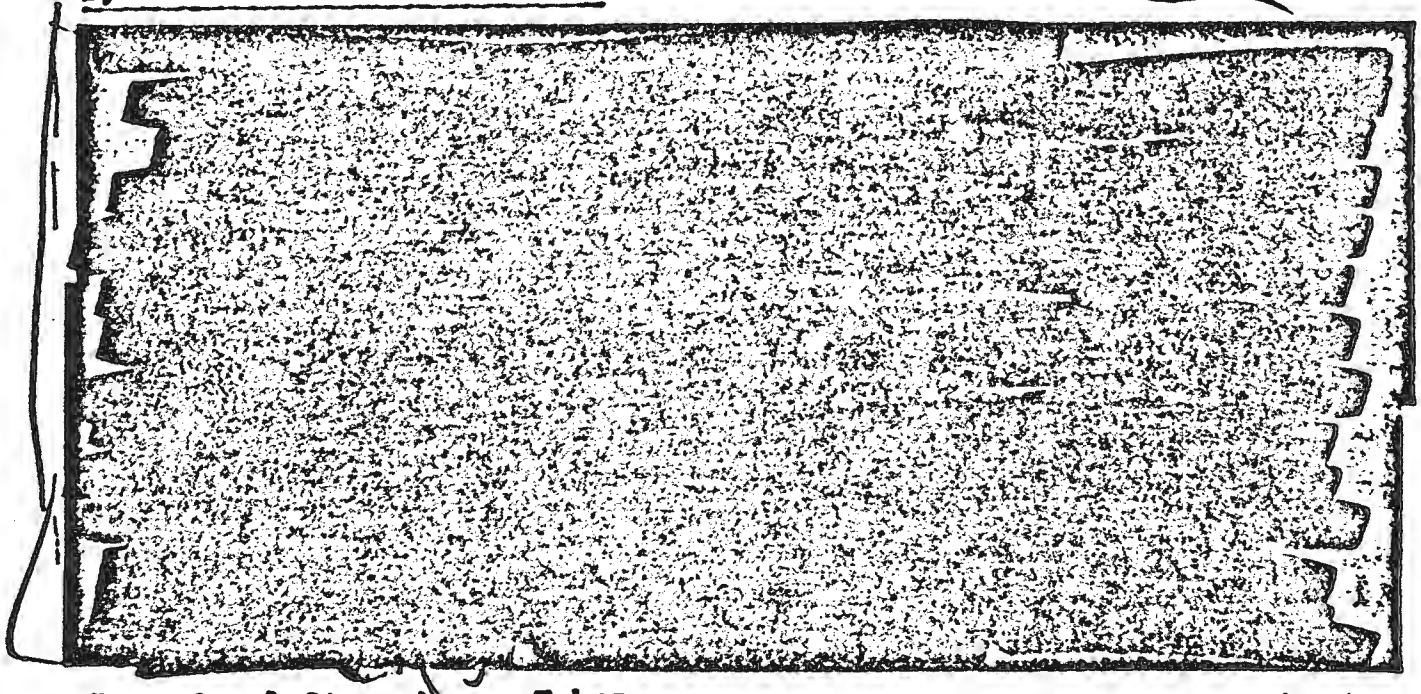
It can readily be seen then how such policies and procedures completely preclude the possibility of Lee Harvey Oswald even being considered as an FBI informant much less having been developed as one by us. The statement that he was is, in fact, ridiculous. The CP, USA, through its press has been spreading this outrageous lie in order to divert attention from the fact that Oswald was a confessed Marxist who was active in support of the Fair Play for Cuba Committee (FPCC) (a pro-Castro organization) and who was in correspondence with the CP, USA.

CONFIDENTIAL

Absence of Payments to Oswald

Had any of our offices even made payments to him under the SAC's authority, these would have been shown in the receipts and vouchers submitted by each office. These records have been checked and double checked and no such payment was ever made.

Symbol Numbers Identifiable



Procedural Steps Never Taken

Furthermore, Oswald could not have been assigned such a symbol number without a prior background investigation by any field office considering him for development. Had any field office considered developing him, it would have had to obtain approval by the SOG. There is no record of any such request by any field office and no record of any such approval.

CONFIDENTIAL

LL

Nature of Contacts with Oswald

As we have already pointed out to the Commission, the only contacts FBI Agents had with Oswald prior to the assassination of President Kennedy involved three interviews Bureau Agents had with him. The first was on June 26, 1962, at Fort Worth, Texas, shortly after his return home from the Soviet Union. The purpose was to assess the possibility of his having been given intelligence assignments by the Soviets. The second, on August 16, 1962, was in the same connection. The third was at his specific request on August 10, 1963, following his arrest in New Orleans the preceding day on a charge of disturbing the peace and creating a scene. At that time, he described some of his activities in connection with the FPCC.

Affidavits Secured

Oswald was again interviewed by FBI Agents at the Dallas Police Department following his arrest after the assassination of the President. This interview was aimed at eliciting any admissions he might make in connection with the assassination, as well as to obtain any information he might have been able to furnish of a security nature.

During none of the interviews with Oswald by Bureau Agents were any efforts made to develop him as an informant. We have obtained affidavits from every Agent who was in contact with Oswald. In addition, we also have secured affidavits from their respective SACs. These affidavits show that none of the FBI Agents ever made any effort to develop Oswald as an informant. These affidavits will be available in the event you desire to furnish them to the Commission.

II. Handling of Informants Under SIS Program

With regard to the handling of informants under the SIS program, file review shows that as a result of a control system then in effect we do have a record of

MAR
FOUNDATION

payments made, the identities of informants and Agents handling them, and receipts for payments. In the few instances where informants refused to sign receipts, Bureau was furnished all other data and record was still made of payment and informant who received same.

III. Henry Wade's SIS Service

Mr. Henry M. Wade entered on duty as a Special Agent on December 4, 1939, and resigned September 1, 1943, to enter the Armed Forces. He was in Ecuador for eight and one-half months (undercover), beginning August 16, 1942. We received from SIS agents a periodic summary on informants in Ecuador. Such a list was furnished by Wade on September 23, 1942, a few weeks after his arrival in Quito. This was supplemented by other letters from Wade on November 5, 1942; February 26, 1943; and April 5, 1943, and a complete list of all informants handled by him, listing the disposition of each, prepared April 30, 1943, before his departure from Ecuador. In these, Wade indicated the amount being paid to each informant and his intentions to continue such payments as justified by services received. Wade had eleven informants, paid ten of them, and his vouchers for this period clearly show amounts paid to each and list receipts obtained.

Funds Handled by Wade in SIS

Concerning funds handled by Wade, he was required to account for his expenditures and reclaim them by voucher, as mentioned above. In July, 1942, he did receive an advance of $1,075. This money was not primarily for operational expenditures but for subsistence and travel in connection with his assignment. His passage from New Orleans to Guayaquil, Ecuador, for example, cost over $500. Wade was required to make full restitution of this advance and completed repayment on June 28, 1943.

UND.
of THE A

Therefore, it can be seen that Wade did not have unlimited funds for the purpose of developing sources, was required to strictly account for expenditures made and did furnish such an account, supported by receipts. Copies of Wade's vouchers and receipts submitted have been prepared and are available for delivery to the Commission if such action is desired.

A brief of Wade's complete Bureau service record has been prepared separately for the Director's information.

OBSERVATIONS

It is definite that we have all the facts to clearly and unequivocally refute the wild and ridiculous allegations that Lee Harvey Oswald was a paid informant for the FBI and operated with a symbol number. It would be desirable to furnish these facts to the President's Commission and point out that in the interest of setting the record straight, the Commission should issue a statement refuting these allegations.

It could be pointed out to the Commission that this is important for several reasons. Less than two weeks after the assassination, the communist press began a campaign to develop the idea that Oswald was an FBI informant and that, as an agent of the Government, he assassinated President Kennedy. The story has developed enough interest to result in calling individuals before the Commission to inquire into it. If the allegations continue unchallenged and unrefuted, there is bound to be increasing acceptance of them on the part of the public — an acceptance that will prove damaging not only to the FBI but to the Government as a whole.

Should the Commission refuse to issue a statement refuting the allegations, we should inform the Commission we intend to issue such a statement. We should point out that the allegations are not confined to testimony before the Commission but have appeared publicly, notably through the campaign of the CP to hammer away on these points. As a result, we are free to deal with the allegations as we see fit.

Memorandum Mr. W. C. Sullivan
to Mr. A. H. Belmont
RE: LEE HARVEY OSWALD

CONFIDENTIAL

We should point out to the Commission that it has always been our policy to face such allegations head on and we intend to follow the same policy in this matter if the Commission will not take prompt and effective action. If we do not do this, remaining silent, attacks against us in the press on this point may increase. Our silence will be taken as an admission of guilt. Six months from now when the Commission issues its report, the falsehood will be so widely distributed that it will be much more difficult to refute it.

SUBJECT: ASSASSINATION OF THE PRESIDENT
ALLEGATIONS THAT OSWALD WAS
AN FBI INFORMANT

Senator Jim Eastland, Chairman of the Senate Judiciary Committee, attempted to telephonically contact me at 4:30 p.m., 2-6-64. I was at the White House at the time in Walter Jenkins' office. Upon being notified, I called Senator Eastland and he asked that I see him at 5 p.m.

I called Senator Eastland off the Senate floor at approximately 5 p.m. and he stated that he wanted to talk in confidence. We then proceeded to his private office in the Senate wing of the Capitol. Jay Sourwine, Chief Counsel of the Senate Internal Security Subcommittee (SISS) was with the Senator. The Senator locked the door of his office and reiterated that the information he was to furnish me was to be kept in complete confidence. He then asked Sourwine to proceed with the discussion.

Sourwine prefaced his remarks by stating that the SISS did not want to do anything whatsoever that would embarrass the FBI and as a result he was tipping me off on information he had received. He stated that an extremely confidential source of his within the Department of State had advised him that Lee Harvey Oswald was a confidential informant of the FBI's. The same source also alleged that Oswald was paid $200 per month by the FBI. Sourwine indicated that his source had alleged that CIA knew this to be a fact. Sourwine told me that he had requested that his source contact CIA and get absolute confirmation of this matter. Sourwine claimed that his source had recontacted him and had advised that a CIA employee had confirmed that Oswald was in fact an FBI informant.

NOT RECORDED
106 MAR 5 1964

Senator Eastland spoke up at this point. He stated that Senator Dick Russell, Chairman of the Senate Armed Forces Committee, and a member of the Presidential Commission investigating the assassination, had told him that an individual had recently testified that Oswald was an FBI informant and had received a salary of $200 per month. Senator Eastland added that Senator Russell had also told him that it appeared that Secret Service representatives were attempting to place the blame on the FBI regarding the assassination. Senator Russell reportedly had stated that the Secret Service had clearly pointed out that the FBI had not informed the Secret Service regarding the presence of Oswald in Dallas, Texas. Senator Eastland added that Senators Dirksen

and Hruska had become somewhat exercised over this matter and that Senator Dirksen had urged that the SISS hold a special meeting to discuss the matter. Senator Eastland quoted Senator Dirksen as stating, "We should give J. Edgar Hoover every opportunity to explain about Oswald." Senator Eastland continued that pressure had also been brought upon him to subpoena the Director for a hearing in this connection. He added he also understood that an FBI Agent by the name of "Stanford" allegedly handled Oswald in his informant capacity with the FBI.

Senator Eastland stated that he wanted me to tell the Director that under no circumstances would he cause the FBI any embarrassment whatsoever. He added, however, that he felt the matter should be clarified before a "storm" broke in the newspapers and on the Hill. He pointed out that several news sources already knew of the above facts and that at least one reporter had contacted him to see what he planned to do about the matter.

Senator Eastland asked that no contacts be made with Senators Dirksen, Russell and Hruska until he had the opportunity to tell these Senators that he, Senator Eastland, had been in contact with the FBI.

I told Senator Eastland and Sourwine that we were well aware of the rumors in question and that the facts as alleged were absolutely false. I told Eastland and Sourwine that we had received the same information from Senator John Tower's office and had put the lie to it at that time. I told them that under no circumstances whatsoever was Oswald ever an informant, an employee, or connected with the FBI in any way whatsoever. I told them that their information undoubtedly came about as the result of Henry Wade, a former Agent, and now a County Prosecutor in Dallas, Texas, testifying before the Warren Commission. I mentioned that Wade had made false statements before the Commission and that we were prepared to prove that those statements were false.

Senator Eastland stated he believed me, however, felt that we should have this information, particularly inasmuch as he was getting considerable pressure, and also because of the fact that he felt that Senator Dirksen might pick up the phone at any moment and call the Director about the matter.

DeLoach to Mohr memo
Re: Assassination of the President
Allegations that Oswald was an FBI Informant

I told Senator Eastland and Sourwine that while their facts were absolutely false, I wanted to advise the Director, and I would be back in touch with them as expeditiously as possible regarding this matter. The Senator reiterated that I check with him prior to contacting Senators Russell, Dirksen and Hruska. I told him I would do this.

After notifying the Director telephonically of the above matter, I read the proposed affidavit that is to be sent to the Warren Commission. Pursuant to the Director's instructions, I will show this affidavit to Senator Eastland, and then Senators Dirksen, Hruska and Russell in that order. This will, of course, be done following delivery of the affidavit to Rankin of the Warren Commission.

I think also it might be a good idea to show this affidavit to Sourwine. At the time of further discussion with Sourwine, I will specifically ask him to identify his source within the State Department so that we may adequately run this rumor down and pin it to the ground. While I doubt that Sourwine will reveal his source, we will at least strongly go on record asking him to do this for our own protection.

I have issued instructions within the Crime Records Division to immediately prepare a public statement, under the Director's signature, in the event that the Director finds it necessary to issue such a statement so that the false rumors concerning Oswald's connections with the FBI can be promptly denied.

ACTION:

1. That I show the attached copy of the affidavit to Senator Eastland and then Senators Russell, Dirksen and Hruska, also to Sourwine, following delivery of the said affidavit to Rankin of the Warren Commission. I will also tell Senator Eastland we have no Special Agent by the name of Stanford, and that this allegation is also false. After Mally has delivered affidavit to Rankin & Eastland approves showing it to the others. H

2. That the Crime Records Division immediately prepare a public statement for the Director's usage in the event it is believed necessary to publicly refute the false claims that Oswald was an informant of ours.

Yes

3. That I press Sourwine to identify his source within the State Department who has given him this information.

SUBJECT: ASSASSINATION OF THE PRESIDENT
ALLEGATIONS THAT OSWALD WAS
AN FBI INFORMANT

Pursuant to instructions, I saw Senator Jim Eastland at his office at 2:15 p.m., 2-7-64. I told him the Director was very concerned about the information received from him (Senator Eastland) and Jay Sourwine on 2-6-64 and that the Director, of course, wanted to set the record straight immediately. I then showed the Senator a copy of the sworn affidavit which had been executed by the Director and delivered earlier that day to Rankin of the Presidential Commission. The Senator read the affidavit and then described it as a document that very obviously ties everything down.

I told Senator Eastland that we respected his confidence, however, would appreciate permission to see other Senators whom he indicated had an interest in this matter. He told me that he thought we should see Senators Russell and Hruska immediately, however, Senator Dirksen was at Sibley Hospital at the present time.

I then went to Senator Dick Russell's Office and upon seeing him mentioned that it was understood that he was cognizant of the false allegation that Oswald had once been an FBI informant. The Senator acknowledged that he knew of Wade's statements to the Commission. I then showed Senator Russell the Director's affidavit whereupon he read it in its entirety. He described it as a good affidavit and one that should forever straighten this rumor out. He added that there are so many rumors about the assassination that almost any individual can pay a quarter and take his pick. He continued that in all honesty Henry Wade had specifically told Commission members that the allegation concerning Oswald's being an FBI informant had been received by him from a newspaperman named Hudkins. The Senator stated that Wade made it plain that he had no personal knowledge that Oswald had been an FBI informant. The Senator added that Wade was told to return to Dallas and recontact Hudkins for further information. Senator Russell stated that Wade had reported back to the Commission that Hudkins had no further information, could not substantiate his allegations and had refused to testify or furnish an affidavit to the Commission.

I next saw Sourwine. After reading the affidavit, he stated he was very positive it should put to rest all rumors. I told Sourwine that I felt certain he realized that the FBI's reputation could be at stake in the event such a vicious rumor was widespread publicity. I told him for this reason I would have to insist that his source in this particular matter be identified. I reminded Sourwine that he had told me in Senator Eastland's presence that his source was an employee of the Department of State who later had reconfirmed the information with CIA. Sourwine interrupted me to state that he had not indicated that his source was with the State Department. He stated his exact words were, "This matter has been motivated, in my opinion, by the State Department." I told Sourwine that my notes, made immediately after the conference with him and Senator Eastland, were very clear on this matter and that I felt certain he had attributed this information to a source within the Department of State. He replied that if he had done this he was in error. He said however that his source had definitely reconfirmed this information with CIA.

I told Sourwine that regardless of the agency with whom his source was employed, I would have to know the identity of such a source so that all strings could be tied down in this matter. Sourwine agreed to call his source in my presence and ask him if he would object to his identity being revealed. At that time Sourwine dialed a number and asked the person answering the phone if he would object to his identity being revealed to the FBI in connection with the Oswald-informant information. After a few moments, Sourwine turned to me and stated that his source would have to think about the matter and he would let me know later on during the evening. Sourwine stated that his source was somewhat reluctant to having his identity revealed inasmuch as the source's identity would immediately lead the FBI to the identity of a second source within CIA. I told Sourwine that if CIA was putting out such scurrilous rumors, that agency should definitely be tied down and made to put up or shut up.

Following the discussion concerning the identity of Sourwine's source, Sourwine told me that he had talked to Senator Russell earlier that afternoon. Senator Russell, according to Sourwine, stated in strict confidence that he was very disturbed about the activities of the Warren Commission. He claimed that he was considering resigning from this Commission. Senator Russell reportedly told Sourwine that five out of six senior lawyers employed by the Commission are extreme liberals and that all of the young lawyers are very liberal-minded. Senator Russell allegedly told Sourwine that each employee of the Commission has a definite area of investigation assigned to him. He mentioned that despite attempts at coordination, the individual employees have haphazardly pooled their investigative information without attempting to centralize or coordinate any facts whatsoever. Senator Russell is also very disturbed about Chief Justice Warren and his inability to handle the assignment as Chairman of this Commission.

After exacting a statement from Sourwine that he would call me later on that evening concerning his source, I went over to the Senate Floor and contacted Senator Hruska. We went up to his private office in the new Senate wing of the Capitol and talked for approximately three minutes when Senator Hruska found it necessary to return to the Floor in order to make remarks concerning tax legislation. Following his return, I showed him the Director's sworn affidavit. Senator Hruska expressed the opinion that it was very thorough and certainly left no doubts whatsoever. He asked if it could be possible that Oswald had an alias and had served the FBI as an informant using an alias or different name. I told him there was no possibility whatsoever of such an incident occurring inasmuch as our investigation had very thoroughly checked out all names used by Oswald. Senator Hruska stated this satisfied him.

Senator Hruska added that Senator Dirksen was most concerned about this matter, chiefly because Senator Dirksen felt that this was an attempted smear at the Director and the FBI. He stated that Senator Dirksen had also feared that this matter could completely discredit the FBI if some disreputable or left-wing Senator made a speech on the Floor of the Senate or issued a press release regarding the matter. He added that Senator Dirksen's friendship for the Director was a very sincere thing and, therefore, the Senator felt very keenly about this matter. He asked if I would accompany him to Sibley Hospital immediately so that we could talk to Senator Dirksen regarding this matter.

At this point I telephonically contacted the Director while Senator Hruska was out of the room and advised the Director of the foregoing details.

Senator Hruska and I arrived at Senator Dirksen's hospital room at approximately 6:15 p.m. Mrs. Dirksen was in the room at the time. She has recently undergone surgery. (The Director has sent a letter to Senator Dirksen regarding the illness of his wife.) I assisted Mrs. Dirksen down the hall and then came back to join Senators Dirksen and Hruska.

Senator Hruska told Senator Dirksen that I had an affidavit signed by the Director which should definitely put Senator Dirksen's mind at ease. Senator Hruska told Senator Dirksen that he felt this affidavit would be of therapeutic value to him inasmuch as it was known that he was very worried about this situation. I then showed Senator Dirksen a copy of the sworn affidavit. He read the letter to Rankin very rapidly and handed both the letter and affidavit back to me. I told him I realized that our visit was somewhat of an imposition, however, I would appreciate it if he would briefly scan the entire affidavit. He did so and afterwards stated that it was a very complete document and that he felt much better about the situation. He added that he had several questions. I told him the Director would want me to answer any questions that he might raise.

DeLoach to Mohr 2-7-64
Re: Assassination of the President
Allegations that Oswald was an FBI Informant

Senator Dirksen inquired if District Attorney Henry Wade had any connections with the Communist Party. I told him Wade had no such connections to our knowledge. I briefed both Senators at this time, however, on the scurrilous article in Saga Magazine by former Agent Turner, also the article in Nation magazine and the offensive by the Communist Party in connection with attempting to discredit the FBI. Senator Hruska inquired as to whether Wade was a publicity seeker. I told him that the answer to this was obvious in view of the many statements made by Wade, even including information which had been furnished by the FBI.

Senator Dirksen asked me if we were satisfied with Rankin. I told him that Rankin had been appointed as an alternative. I then briefed Senators Dirksen and Hruska on the fact that Chief Justice Warren had first wanted his protege Warren Olney to serve as Executive Secretary of the Presidential Commission, however, in view of Olney's [redacted] and [redacted] it had been necessary for a number of sources to confidentially brief members of the Presidential Commission, other than Warren, as to Olney's background. I told Senators Dirksen and Hruska that as a result of this action the Commission members had overridden Warren concerning the appointment of Olney and that Rankin had been elected as an alternative. Dirksen stated he knew Olney and definitely recognized him as an [redacted]

Senator Dirksen stated that he had no further questions but that he would appreciate the Director being advised that his chief interest in this entire matter was to prevent the FBI or the Director from being smeared. He stated that despite his illness if we needed his services we could certainly count upon him to start a backfire against any individual or group which might attempt to discredit the Director or the FBI.

I told both Senators Dirksen and Hruska that we deeply appreciated their interest in this matter and that I would immediately advise the Director whom I felt would be greatly appreciative of their friendship and willingness to assist the FBI.

Upon arriving back at my office, Inspector Kemper advised me that Sourwine had called at approximately 6:10 p.m. to advise that his source did not want to give an absolute "no" to the FBI, that the source was checking further and would give an answer either the first of the week or the middle of next week. We, of course, will not allow this matter to lie idle. Sourwine will be contacted first thing Monday morning and pressed for action.

RECOMMENDATIONS:

(1) That the attached letter for the Director's signature acknowledging the Director's appreciation for Senator Dirksen's assistance and interest be considered.

(2) That I check with Sourwine first thing Monday morning in order to further press the matter of learning the identity of his source of information.

(3) That I show a copy of the Director's affidavit, in strict confidence, to Congressman Hale Boggs and Congressman Jerry Ford, members of the Presidential Commission, on Monday, 2-10-64, and that I show a copy of this affidavit and thoroughly brief Walter Jenkins of the White House on Monday, 2-10-64.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Mohr DATE: February 10, 1964

FROM : C. D. DeLoach

SUBJECT: ALLEGATION THAT OSWALD WAS AN FBI INFORMANT

Reference my memorandum to you February 7, 1964, indicating that Jay Sourwine, Chief Counsel, Senate Internal Security Subcommittee (SISS), had indicated, following pressure being put on him, that he would contact his source of information to see if that source would talk to me relative to the above-captioned allegation. Sourwine had also indicated, and had reiterated several times, that his source had confirmed this allegation with CIA.

Sourwine called at approximately 2:30 PM, February 10, 1964. He advised he had contacted his source and in view of the seriousness of the situation, his source had agreed to be identified. He named his source as Colonel Philip Corso who is currently employed by Senator Strom Thurmond (D-S.C.). Sourwine indicated that Corso had agreed to being interviewed.

I contacted Colonel Corso in Senator Thurmond's office at approximately 3:15 PM, February 10, 1964. Harry Dent and Fred Buzhardt, Senator Thurmond's Administrative and Legislative Assistants, sat in on the interview. Both men have been very cooperative in the past. I had not previously met Colonel Corso, however, understand that he formerly worked for General Trudeau in Army Intelligence and had some contacts with FBI at that time. Colonel Corso, upon meeting him, and throughout the interview, gave me the definite impression of being a rather shifty-eyed individual who fashions himself a great intelligence expert. As a matter of fact, it was quite difficult to pin him down with questions inasmuch as he insisted on expounding his theories rather than sticking to specifics.

I told Colonel Corso of the information received from Sourwine and that he had been named as the source. I told him the allegation was absolutely false. The point was made that Mr. Hoover had submitted a sworn affidavit to the Warren Commission emphatically denying the allegation and that I desired Colonel Corso to read the affidavit at this time. I told him additionally that if his allegation had been made to other people, I would like to know the names of these people so that they could be confronted. He told me the only other person he had discussed the allegation with was Senator Thurmond.

SOVIET SECTION

Colonel Corso stated he did not need to read the affidavit I handed him inasmuch as he would take the FBI's word that Oswald was not an informant. I told him regardless of his confidence he should read the affidavit. He then scanned it quite hurriedly and handed it back to me.

I told Colonel Corso that I would have to insist that he reveal the identity of his source within CIA. He stated he could not do this inasmuch as his source represented "groups" or "individuals" that had been friends of his when he was handling intelligence for the Army. He stated he did not like to violate their confidence. I told him he should realize that this allegation was a very serious one which could do considerable damage to the FBI if it became widely publicized. I mentioned additionally that his refusal might, of course, result in his being subpoenaed or requested to testify before the Warren Commission concerning the withholding of evidence.

Colonel Corso began to backtrack. He stated that his sources had merely told him that they knew the FBI had been in contact with Oswald prior to the assassination of the President. He quickly added that his sources within CIA also felt that Oswald's activity, while in the Soviet Union, represented a State Department operation. Colonel Corso indicated that "if" Oswald had been an informant, while in the Soviet Union, he would have submitted reports to three U. S. employees of the American Embassy in Moscow. He named these individuals as: Angeli, John Vincent Abidian and Hugh Montgomery. Corso stated that Angeli and Montgomery had been declared persona non grata by the Soviet Government and told to leave the Soviet Union. Corso indicated that while he was still with the Army, he received a tip that the three named individuals had received reports from a double agent within the Soviet Union. He stated this double agent could have been Oswald. I asked him if he had any specifics or proof in this regard. He stated he could not prove any of these statements. He then added that this entire matter might be an assumption on the part of CIA inasmuch as his sources had no definite facts whatsoever.

I told Colonel Corso that I wanted to go back over our conversation and to be as specific as possible. I asked him point-blank if his sources within CIA had named Oswald as an FBI informant to him. I asked him for a direct answer. He slowly replied that "groups" or "persons" within CIA, whom he had known for a long time, had told him that Oswald could have been a source of information for the FBI. He stated the same "groups" or "persons" also indicated that Oswald's residence in the Soviet Union represented a State Department operation. Corso added that there was a Communist Party member supposedly in Texas by the name of "Stanford" who knew that Oswald had been an FBI source of information and had related this fact to other parties. I asked

Colonel Corso how he knew this. He stated he could not recall his source of information in this regard, however, apparently "Stanford" had been interviewed by some one and had given them this information. I told Colonel Corso that his ability to be nonspecific was somewhat amazing. He told me he was well-versed in the intelligence game and knew how CIA and the State Departne nt operated. He stated he had no sympathy for CIA inasmuch as that organization had quite often failed to cooperate with him when he was operating with intelligence.

At this stage of the questioning, Colonel Corso again approached the melodramatic by emphatically claiming that he had been concerned only in this matter because he was afraid that the communists were promoting a deliberate smear against the FBI. I asked why he brought in the Communist Party when he had originally claimed that his information had come from CIA. He stated that the information furnished by the communist, "Stanford," apparently represented a deliberate smear attempt on the part of the communists.

I told Colonel Corso that I wanted him to think about this matter and to particularly consider the seriousness of the allegations. I told him he should give me a call by February 11, 1964, and give me a definite answer as to whether he would identify his sources of information. He agreed to do so. I told him also that regardless of whether he identifies his sources or not, we still plan to protest to CIA the falseness and looseness of such allegations. I told Colonel Corso, in the presence of Dent and Buzhardt, that he had seen me carefully making notes during our entire conversation and that I planned to hold him to the substance of those notes.

At this point, Senator Thurmond entered the room and I advised him completely of the falseness of the allegations and exhibited to him the affidavit in question. Senator Thurmond stated he did not need to read the affidavit inasmuch as he had known the allegations were false all along. I told Senator Thurmond that I had requested his assistant, Colonel Corso, to reveal his sources of information so that the FBI could definitely disprove, once and for all, the falseness of the allegations that Oswald was an FBI informant. The Senator replied that he hoped Colonel Corso could comply with our request.

ACTION:

I will follow with Colonel Corso re this on February 11, 1964. There is attached a yellow colored slip of paper which Colonel Corso handed me naming the

ACTION CONTINUED:

three American State Department employees who "might" have had contact with Oswald in the Soviet Union. This should be made a matter of record in our files. It is suggested that no action be taken to contact CIA at this time until we find out whether or not Colonel Corso will identify his sources. Frankly, considering Colonel Corso's personality and evasiveness, there is a distinct possibility that he made up this allegation strictly based upon his own theories. I will, of course, follow him closely until we get an answer as to his alleged sources of information within CIA.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

The Presidential Commission, by 2-12-64 letter, noted that in San Antonio's 12-4-63 report appears lists of 90 people who entered Mexico at Nuevo Laredo 9-26-63, and of 24 people who left Mexico at Nuevo Laredo on 10-3-63 and that Oswald's name does not appear on these lists despite fact that his Mexican tourist card shows he entered and left Mexico on these dates at Nuevo Laredo. They also noted that according to a 12-8-63 Dallas report, Mexican immigration records at Nuevo Laredo showed Oswald left Mexico 10-3-63 by automobile while Oswald's tourist card does not show the method of travel.

Noting this they asked:

(1). Why Oswald's name does not appear on the 9-26 or 10-3-63 list and if these lists are, in fact, complete except for the absence of Oswald's name? It is likely that the Commission has answered its own question here.

(2). How can we account for the disparity in the number of the persons on the two lists? It is assumed that the records speak for themselves in that 90 persons entered on 9-26-63 and 24 departed on 10-3-63.

(3). What is the significance regarding the reference to Oswald's method of travel by automobile in the Mexican immigration records and does this mean that he was in an automobile when leaving or that he stated it was his intention to travel to New Orleans by automobile after he crossed the border? If the former is true, the Commission asks if we can determine who may have been in any automobile with Oswald at the time he crossed the border or thereafter.

On the basis of available information, we cannot be certain as to the answers to these questions and probability exists that the questions concerning Oswald's method of travel while leaving will remain unanswerable due to weak Mexican immigration records.

Re Bureau teletype to Dallas 2/27/64.

Referenced teletype reflected that the Bureau had received information that recently WILLIAM A. McKENZIE, Attorney for MARINA OSWALD, was in touch with Mr. RANKIN of the President's Commission and indicated he had information that animosity existed between the FBI and Secret Service in Dallas.

A Letterhead Memorandum is attached which refutes such impression that may have been gained by conversation with McKENZIE. This was in the form of a letter written by McKENZIE to the Dallas Office and is being set forth verbatim. This letter was dictated in the presence of SAs VINCENT E. DRAIN and JOSEPH J. HANLEY.

In an interview with McKENZIE on 2/28/64, McKENZIE stated he wanted to advise the Bureau on a confidential basis certain information for the Bureau's benefit. He stated he did not wish to become involved in any unpleasantness with the Commission and therefore desired that such information not be disseminated outside the Bureau which is being set forth.

McKENZIE related that while at the President's Commission during 2/20, 21, and 22/64, one of the Assistant Legal Counsel to the Commission, BURT JENNER (phonetic), did a great deal of the questioning of ROBERT OSWALD before the Commission. He related

that some of the questions by JENNER were calculated to get an answer that JENNER desired. McKENZIE stated that specifically he remembered JENNER asking the question two or three times of ROBERT OSWALD "Did the FBI ever harass you during the course of the interview of you or MARINA OSWALD?" He stated he cannot remember the exact terminology but other questions that were asked were such as "Do you think the various agencies such as the FBI and the Secret Service are doing a good job or if not what do you think is the trouble?" McKENZIE stated these were not the exact phraseologies used in the questions but he did not like the vein in which they were asked.

On February 21, 1964, while McKENZIE and ROBERT OSWALD were returning from lunch to resume the afternoon session of questioning of ROBERT OSWALD by the Commission, he was approached by a writer from the New York Times and he told this individual he could not answer any questions and the writer said he was waiting on Mr. JENNER and would talk to him. McKENZIE stated he observed JENNER talking with this writer from the New York Times. On the following Saturday, 2/22/64, an article appeared in the New York Times by the same writer who had approached him the day before and who had talked to JENNER to the effect that ROBERT OSWALD had testified to certain facts. McKENZIE stated the facts of this article were erroneous. At the Saturday session, 2/22/64, only one member of the Commission was present and that was Mr. ALLEN DULLES. At this session, JENNER did most of the questioning. McKENZIE related that after seeing the article in the New York Times he told Mr. DULLES on 2/22/64 while the Commission was in session that there was a leak in the Commission. McKENZIE told Mr. DULLES that if information was to be leaked to the press about what his client testified to then he, McKENZIE, would immediately halt the testimony of ROBERT OSWALD. McKENZIE stated that he told DULLES he was fairly certain but could not prove who the person was who leaked the information and further that that person was on the staff of the Commission and at that very moment was sitting in the Commission room. McKENZIE stated that JENNER's face flushed and it was obvious that JENNER became angry although he did not say anything. Mr. DULLES stated he agreed with McKENZIE that if information was being leaked out of the Commission that further testimony should be halted but that he assured Mr. McKENZIE there would be no further leaks from the Commission to the press.

DL 100-10461

On Monday, 2/24/64, McKENZIE related that Mr. LEE RANKIN, counsel for the Commission, called him by long distance telephone and said, "Bill, I understand that you know who is the person on the Commission staff who is leaking information to the press." McKENZIE related he told RANKIN that in his own mind he was satisfied he knew the person who was responsible for the leak to the New York Times but since he could not prove same he did not want to name that person.

McKENZIE stated that he, at the conclusion of the testimony, read a statement to the press stating that information contained in the New York Times story of 2/22/64 was erroneous and false.

McKENZIE stated on another occasion at the Commission in the beginning of ROBERT OSWALD's appearance before the Commission he, McKENZIE, was called into RANKIN's office with another attorney whose name he does not recall. At this conference with RANKIN and the other attorney, RANKIN said, "Bill, the Chief Justice wants to know all about you," whereupon McKENZIE replied, "Yes, and I would like to know something about the Chief Justice." McKENZIE stated he did not mean this in a facetious manner. McKENZIE stated he was not of the same political philosophy as the Chief Justice and that he made same plain to RANKIN.

The LHM may be disseminated to whomever the Bureau deems advisable however McKENZIE requested that the other information furnished not be disseminated outside the Bureau and if it becomes necessary that such be disseminated that it not be attributed to him; although it is the truth, McKENZIE feels that since he will have to probably appear again before the Commission he does not desire to get into any arguments with them.

On February 27, 1964, Mr. William A. McKenzie, Attorney, with offices in the Fidelity Union Life Building, Dallas, Texas, was contacted by a representative of the Federal Bureau of Investigation. Mr. McKenzie was advised information had been received indicating he had alleged animosity existed between the Federal Bureau of Investigation and the United States Secret Service in Dallas, Texas. Mr. McKenzie was asked to furnish in detail the basis for any remarks along this line.

Mr. McKenzie stated there was absolutely no basis whatsoever to such an allegation and he intended to direct a letter to the Federal Bureau of Investigation, disclosing his complete views in this matter.

On February 28, 1964, Mr. McKenzie directed the following letter to the Federal Bureau of Investigation, Dallas, Texas:

"Federal Bureau of
Investigation
Dallas, Texas

"Gentlemen:

"An inquiry has been made to me with respect to a supposed inference by me to the effect that there was animosity between the FBI and Secret Service while I was at the Warren Commission during the time that testimony was being given to the Commission by Robert Oswald.

"In order that this matter may be crystal clear, I want to categorically state that I have made statements more than once that I felt the FBI and Secret Service have done a magnificent job in the investigation of the assassination of President John F. Kennedy and if anyone gained the impression at the Warren Commission or elsewhere to the contrary, such was erroneous on their part. If anyone has made a statement to the effect that I left the impression that there was any animosity between these two agencies, it is their impression solely and not mine. Since I became involved as counsel in this matter, it has been my distinct impression that the two agencies have and are cooperating fully and, certainly, insofar as Robert Oswald and Marina Oswald are concerned, during the time I have been their counsel, the two agencies have worked together in a most harmonious manner.

THE AAFB

"I would like to further state that when I became counsel for Robert Oswald and Marina Oswald, that I did it with their full understanding and written consent that any information which came into my possession, pertaining to the investigation of the assassination of President John F. Kennedy and the events thereafter, would be turned over to the FBI.

ASSASSINATION OF
PRESIDENT JOHN F. KENNEDY
11-22-63
DALLAS, TEXAS

Howard Willens of the President's Commission and Administrative Assistant to J. Lee Rankin called to advise that the "Life" magazine picture of Lee Harvey Oswald holding a rifle has been the subject of comment by James Martin, former manager of Marina Oswald. Martin was fired by her at the suggestion of Robert Oswald.

Willens stated that Martin yesterday stated to either Rankin or one of the members of the staff that a lawyer named Ed Murray of the "Detroit Free Press" indicated that the picture in "Life" magazine came from a leak in the Commission.

Willens asked whether he could talk to Ed Murray and check into this.

Before initiating any inquiries, I asked Willens whether we could tell Murray that the Commission had requested this interview because he obviously would be interested to know why we approached him on this matter. I also told Willens that we ought to be in a position beforehand to indicate to Murray whether this information came from Martin or someone else.

In addition, it was indicated that inasmuch as Willens was merely relaying information which had been furnished to him by Rankin which in turn had been relayed by a member of the staff, a question is always raised in paraphrasing the original story that it may have been changed in its context.

62-109090-

I told Willens that in a matter of this importance as this it would be well to have the exact text of the conversation which took place between the staff member and Mr. Martin so that it could be examined carefully before we ask any questions. Laughlin to

Willens that perhaps he may wish to discuss this further with Rankin and determine the position which the Commission desires to take and that we would be guided accordingly.

Willens advised me that he would discuss this matter further with Rankin the early part of next week and he would then be in touch with the Bureau. He therefore did not desire any interview at this time and withdrew his request.

ACTION TO BE TAKEN:

We will await further advice from Willens on this matter, and if a request is received to inquire into this matter, we will suggest that such a request be in writing from the Commission.

Dear Mr. Rankin:

While being contacted by this Bureau on another matter, Frank A. Capell, editor of a weekly publication entitled "The Herald of Freedom," 45 Bay Street, Staten Island, New York, voluntarily furnished the following information:

A friend, whom Capell did not identify but did describe as an individual with sources close to the President's Commission, advised him that an attorney for John W. Stanford, an official of the Communist Party of Texas, apparently Maury Maverick, Jr., of San Antonio, Texas, had told Senator Ralph Yarborough of Texas that Stanford had definite information that Lee Harvey Oswald was an agent of the Central Intelligence Agency. According to Capell's source, Senator Yarborough reportedly turned this information over to the President's Commission. Capell furnished no dates for the above information.

The files of this Bureau indicate that in sworn testimony before the Subversive Activities Control Board in 1963 Stanford was identified as Executive Secretary of the Communist Party of Texas and a member of the Communist Party, USA. As a result of hearings before the Subversive Activities Control Board Stanford was ordered on December 20, 1963, to register as a Communist Party member with the Attorney General of the United States under the provisions of the Internal Security Act of 1950.

On December 27, 1963, several cartons of material including pamphlets by Communist Party, USA leaders were seized by Texas authorities in a search of Stanford's home in San Antonio, Texas, under a State of Texas search warrant. A Texas court has denied Stanford a writ seeking release of the items seized. Maverick, who has been publicly identified as attorney for Stanford, is reportedly in the process of appealing this verdict to the United States Supreme Court.

Maverick is reported as representing Stanford as part of his obligation as a member of the American Civil Liberties Union. Stanford requested the American Civil Liberties Union to represent him in attempting to obtain the release of the items seized in his home by Texas authorities.

INFORMATIVE NOTE

Date 2-13-64

Lonnie Hudkins, the reporter who wrote article in Houston "Post" entitled "Oswald Rumored as Informant for U.S.," has advised us his story based on information he received from Dallas Assistant District Attorney William Alexander. Dallas teletype 1-25-64 reported interview of Alexander at which time he stated he told Hudkins he did not know anything about Oswald being an informant. Alexander also told us that during his meeting with the President's Commission 1-24-64 he told Commission representatives that on 1-21-64 following conclusion of bond hearing for Jack Ruby, he overheard a number of reporters discussing possibility Oswald was counterspy for FBI, CIA, or some Government agency. He added he remembered hearing some reporter make statement Oswald on Government payroll at $200 a month and heard payroll number 179 or voucher 179 mentioned. Alexander claimed he did not know names of these reporters. In view of Hudkins' claim on 2-8-64 that his story was based upon information received from Alexander, we instructed Dallas to immediately contact Alexander and pin him down on his allegations and determine identity of his sources. Attached teletype sets forth results of such interview. LETTER TO RANKIN BEING PREPARED.

CARL WARD CHAPPEL, also
known as Carlos Capilla

The subject under the name of Carlos Capilla, 774 Northwest First Street, Miami, Florida, recently sent Congressman Claude Pepper of Florida four taped reels of information which reportedly contained information concerning the assassination of President John F. Kennedy. The tapes were made available to this Bureau by Congressman Pepper's office and, upon review, were found to contain the following information concerning Lee Harvey Oswald:

According to the tapes, an individual who apparently is identical with Capilla, stated that Oswald's naming of "the New York lawyer" and Oswald's statement that he was from New Orleans convinced Capilla that Oswald had direct connections with Castro. The speaker wondered who had hired Oswald but when Ruby appeared and killed him, Capilla knew "he" was the leader. When the bondsman showed up and said he had connections in Los Angeles, California, that cinched the deal that they were communists. The speaker further stated that all of the books that Oswald read were of the communist variety.

The foregoing tapes also contained information concerning a number of other subjects, including a claim by Capilla that plans furnished by him to the Secretary of Defense at the time of the blockade of Cuba were the ones used in carrying out the blockade. In discussing his background, Capilla claimed that during World War II he, as a private in the United States Army, headed a force of 3,000 men which included several commissioned and noncommissioned officers.

In June, 1963, a Chicago businessman who had been in touch with Capilla stated that it was his impression that Capilla was mentally confused and seemed to have an obsession to talk about the liberation of Cuba.

ENCLOSURE 62-109060-1

Capilla's full name is Carl Ward Chappel. He is an American citizen, born January 5, 1915, in Louisville, Kentucky.

SUBJECT:

LEE HARVEY OSWALD
Internal Security - R - Cuba

At 11 a.m. on 2/16/64, SAC Shanklin called from Dallas to advise that Attorney Pete White, former Assistant District Attorney, who is a friend of our Dallas office, advised that his law partner, William A. McKenzie, is going to represent Robert Oswald at his appearance before the President's Commission this coming Thursday, 2/20/64.

After Marina Oswald testified before the Commission, she was turned loose by Secret Service, which had up to that time afforded her protection. She stayed in Washington a day or so and returned to Texas where she stayed for several days with Robert Oswald. She is now living with Mrs. Katherine E. Ford, in Dallas, who is an acquaintance of hers (we have previously talked to Mrs. Ford--see page 258, report of SA Gemberling, Dallas, dated 11/30/63).

According to Attorney White, Marina was accompanied by her attorney, Thorne, and her business manager, James Martin, in Washington, D. C., and they had adjoining rooms in a hotel. One night after Secret Service turned her loose Martin [redacted] at the hotel. SAC Shanklin said that Attorney White was advising us, not as a complainant, but because he thought we should be aware of this.

SAC Shanklin said that we are interviewing Marina Oswald on 2/17, and also Robert Oswald on 2/17, concerning matters involved in the Oswald case. He said Attorney Thorne had been contacted, and Thorne said that Marina Oswald had sent her business manager, Martin, and Attorney Thorne, registered letters discharging them.

ACTION:

I told SAC Shanklin to go ahead with the interviews of Marina Oswald and Robert Oswald on the matters concerning the Oswald investigation, but not to question them concerning this alleged incident between Marina and her manager in Washington, D. C. If either one of them volunteers information, the agent should, of course, accept it.

Attached are letters to the Department and the President's Commission, reporting this incident.

Dear Mr. Rankin:

Reference is made to our letter of February 11, 1964, reporting results of our interview on February 8, 1964, with Mr. Alonzo F. Hudkins III, also known as Lonnie Hudkins. Mr. Hudkins is the reporter who wrote an article in the Houston "Post" entitled "Oswald Rumored as Informant for U.S." During our interview with Mr. Hudkins on February 8, 1964, he refused to identify the source of his information that Oswald was on the payroll of either the Federal Bureau of Investigation or the Central Intelligence Agency. He claimed he was told this by a Government official, not a Federal official, in Dallas, Texas.

18 FEB 18 COMM-FBI

For your information, Assistant District Attorney William Alexander was interviewed by this Bureau January 25, 1964, in this matter. Mr. Alexander told us that he was acquainted with Lonnie Hudkins and that Hudkins had contacted him sometime in December, 1963, and had indicated he was working on a real good story, trying to prove that Oswald was an informant for the Federal Bureau of Investigation, Central Intelligence Agency or some governmental agency. According to Mr. Alexander, Hudkins stated he had received information that Oswald's address book, which had been seized by the police, had Agent Hosty's or Hasty's name and the telephone number of the local Federal Bureau of Investigation office and possibly a license number of an automobile.

Mr. Alexander further advised that Lonnie Hudkins then asked him if this did not mean that Oswald was an informant of the Federal Bureau of Investigation. Mr. Alexander stated he told Mr. Hudkins that he did not know anything about Oswald being an informant. Mr. Alexander stated that when Hudkins questioned him about the entry in Oswald's address book, Alexander told Hudkins "It looks like you have the story there." Mr. Alexander denied making any further statements to Hudkins.

For your information, during our interview with Mr. Alexander on January 25, 1964, he informed us that he had appeared before the President's Commission on January 24, 1964, in Washington, D. C., and that he had told the Commission that he had no information as to Oswald being an informant for the Federal Bureau of Investigation, Central Intelligence Agency or any other governmental agency. He stated he did point out to the Commission that in an address book of Oswald's seized by the police Agent Hosty's name appeared along with many others. Mr. Alexander also told us that during his meeting with the Commission January 24, 1964, he told Chief Justice Warren and you that on the afternoon of January 21, 1964, after conclusion of the bond hearing in Dallas for Jack Ruby and while the reporters were waiting for some statements from the judge, there were a number of reporters talking about the possibility that Oswald was a counterspy for the Federal Bureau of Investigation, Central Intelligence Agency or some governmental agency. He added that he also stated that he recalled hearing the words "special service" and also remembered some reporter making a statement that Oswald was possibly on the payroll of the Government at $200 a month, beginning September, 1962, and that he heard payroll number 179 or voucher 179 mentioned.

For your additional information, we reinterviewed Mr. Alexander February 13, 1964, in a further effort to pin him down on his source of the allegation that Oswald may have been a counterspy for the Federal Bureau of Investigation, Central Intelligence Agency or some governmental agency and was on the payroll of the Government. Mr. Alexander claimed that he overheard a number of reporters discussing the possibility that Oswald was a counterspy for the Federal Bureau of Investigation, Central Intelligence Agency or some governmental agency and that he remembers hearing some reporter make the statement that Oswald

was supposedly on the payroll of the Government at $200 a month, beginning September, 1962, and had payroll number 179 or voucher 179. Mr. Alexander stated that he has no idea as to the source of this information and that he considered it only rumor at the time. He further stated that when he heard this discussion there were present a number of reporters and that he has no idea who originated the remark.

During our interview with Mr. Alexander at this time we asked him if he could supply the name of anyone who might be the originator of these false allegations, and he stated he could not. He further stated that much speculation and rumors of all kinds concerning Oswald have cropped up from time to time and that he had reached the point of not paying any attention to them.

In conclusion Mr. Alexander stated that should he determine the identity of the originator of these false allegations he would immediately notify this Bureau.

Sincerely yours,

Dear Mr. Rankin:

Reference is made to your letter dated January 31, 1964, enclosing a carbon copy of a letter addressed to the Attorney General which was sent to Congressman Hale Boggs, a member of the Commission, by Mrs. Lou Wylie Hayes.

Enclosed for your information are three memoranda setting forth the results of interviews with Mrs. Lou Wylie, Mr. Walter Cowan and Miss Connie T. Kaye by Agents of this Bureau, which are self-explanatory. When interviewed on February 6, 1964, Mrs. Wylie advised that she usually uses the name Mrs. Lou Wylie; however, she signed the letter to the Attorney General as Mrs. Lou Wylie Hayes. Mr. Walter Cowan, managing editor of the "New Orleans States-Item," a daily newspaper at New Orleans, Louisiana, advised when interviewed on February 7, 1964, that Mrs. Lou Wylie was known to him as Mrs. Lou Wylie Van Sicklen, as she was previously married and divorced. It is further noted that Mrs. Wylie would give short answers to questions proposed to her and would then attempt to lapse into long discourses about her former newspaper and related activities of twenty-five years ago.

The records of our New Orleans Office fail to indicate that Mrs. Wylie called the FBI at New Orleans concerning this matter, nor did Agents of the FBI meet her Honorable Gerald at the New Orleans airport upon his return from Cuba as alleged by her. Our New Orleans Office has a record of a number of calls having been received from Mrs. Lou Wylie Van Sicklen during World War II relating to national defense matters.

NOTE: Mrs. ~~Hayes~~ WYLIE alleged that a person whom she now believes to have been Lee Harvey Oswald sat next to her on a bus in New Orleans during 9/63 (exact date not recalled) at which time he appeared very excited and told everyone on the bus he had just returned from a State Department assignment in Cuba on a U. S. Army plane and had been met at airport in New Orleans by the FBI. The FBI had taken him to a bus stop rather than his home for security reasons. Oswald praised Castro and stated he, Oswald, had now been given "say so" concerning the return of prisoners in Cuba to the U. S. She claimed she had furnished data to local FBI and Walter Cowan, city editor of local newspaper at the time. Dufiles and Walter Cowan fail to confirm Mrs. Hayes' story. Cowan further advised he knew Lou Wylie Van Sickbn, who divorced her husband a number of years ago, as newspaper reporter; however, she frequently gives him "long shot" tips on items which cannot be verified and that as a result of many years of contact with her telephonically he places absolutely no reliance in her information, stating she is always dreaming up wild tales and envisions "skulduggery." No further action appears warranted. WFO has been instructed to disregard lead to contact State and Army concerning this matter, noting previous checks have been made with these Departments concerning Oswald. Soparate communication also being furnished Attorney General concerning this matter.

Dear Mr. Hoover:

I have been reviewing several Bureau reports in connection with our investigation of George and Jeanne De Mohrenschildt and their possible connection with either the assassination of the late President, John F. Kennedy, or the subsequent killing of Lee Harvey Oswald, or both. In this connection, I have particularly reviewed the reports of Special Agent Gemberling, dated November 30, 1963, December 10, 1963, December 23, 1963, January 7, 1964, and January 22, 1964; as well as the report of Special Agent DeBrueys dated December 8, 1963.

To the extent not covered in the above listed material, the Commission has asked me to request that your Bureau initiate a full-scale background intelligence type report of the De Mohrenschildts if you have not already done so. If you are agreeable to this request, I would suggest that the proposed investigation include the background data on the De Mohrenschildts' marriages, education, employment, relatives, associates, travel and financial activity.

Your continued assistance in the work of this Commission is greatly appreciated.

SUBJECT: LEE HARVEY OSWALD

Central Intelligence Agency (CIA) is being advised by Liaison that the FBI has no objection to CIA's describing or furnishing to the President's Commission copies of communications which we disseminated to CIA prior to the assassination.

BACKGROUND:

On 2-25-64 [redacted] CIA, advised that the President's Commission had inquired of CIA as to what information CIA had in its files concerning subject prior to the assassination 11-22-63. [redacted] indicated CIA intends to reply to the President's Commission 2-28-64, and will either describe communications from other agencies or furnish the Commission with copies of pertinent communications from other agencies. [redacted] requested permission of the FBI for CIA to furnish copies of seven communications to the President's Commission.

All pertinent communications which we have furnished to CIA captioned, "Lee Harvey Oswald," have been furnished to the Commission by the Bureau. The report of SA John W. Fain, 5-12-60, captioned, "Funds Transmitted to Residents of Russia," and the report of SA Warren C. DeBreuyes dated 10-25-63 captioned, "Fair Play for Cuba Committee, New Orleans Division," were not furnished to the President's Commission since all pertinent information was furnished to the Commission in other communications under the Oswald caption.

These two are summary reports & should be furnished to the Commission

Since the Commission has all of the pertinent data in communications that we have furnished to CIA, there is no objection to CIA handling its reply to the President's Commission by either describing the communications or furnishing a copy of the communications to the Commission. In order not to delay CIA's reply to the Commission, CIA has been advised by liaison that the FBI has no objection to CIA's describing or furnishing

UNITED STATES DEPARTMENT OF JUSTICE

FEDERAL BUREAU OF INVESTIGATION

Refer to File No.

WASHINGTON 25, D.C.

February 26, 1964

LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

On February 25, 1964, [WF T-1,] who has furnished reliable information in the past, furnished the following additional information concerning Mrs. Marina Oswald, wife of accused assassin Lee Harvey Oswald, and her party, who stayed at the Willard Hotel, Pennsylvania Avenue and 14th Street, N. W., Washington, D. C., during the recent period when she testified before the Presidential Commission on the Assassination of President Kennedy.

(WF T-1) advised that he had previously reported on February 19, 1964, that Registration No. 24240, in the name of Tom Kelley, Secret Service, was arranged for Marina Oswald for Rooms 301-302 of the Abraham Lincoln Suite, and that a date stamp disclosed she registered at 9:23 a.m. on February 8, 1964. A date stamp also revealed her departure from the hotel as being 9:41 a.m. on February 9, 1964.

(WF T-1) advised that he had previously reported on February 19, 1964, that Registration No. 24310, in the name of Jim Martin, and Registration No. 24311, in the name of John M. Thorne, revealed their time of departure from the hotel was stamped 2:02 p.m. on February 9, 1964.

On February 25, 1964 (WF T-1) stated that in most cases the departure date stamp is placed on a guest's registration card at the time he settles his account and actually departs from the hotel. He said that the departure stamp is normally interpreted in this respect as an indication of the actual departure time of an individual.

Re: LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

(SF T-1) stated that in some cases when a guest pays his bill prior to checking out, but does not depart the hotel with baggage at that moment, the registration card is not stamped with a departure time and date until he is seen departing or the hotel maids' report reflects the room has been vacated. In these latter cases the date stamp would not reflect the actual date and time a guest departed, but would be a day late and would reflect the same date as the hotel maids' report. He explained that in this particular case the departure date stamp would reflect the time of administrative action by the hotel clerk, rather than the actual departure time of the guests.

(SF T-1) advised that he ascertained from the hotel maids' report submitted February 9, 1964, that Rooms 301-2 and 345 were not occupied on the night of February 8, 1964. This report is based only on the maids' observation that no personal items were left and that the beds in those rooms did not appear to be used, thus requiring no maids' services.

(SF T-1) advised that he recalled that on Saturday, February 8, 1964, about 10:30 a.m., he talked with Mr. Jim Martin, Mrs. Marina Oswald and her child for about twenty minutes in the Willard Hotel lobby. They inquired about ground transportation to Dulles International Airport and he advised them to take a taxicab from the hotel to 12th and K Streets, N. W., where they could get a bus to Dulles Airport.

(SF T-1) said that they did not check out of the hotel after his conversation with them, and he does not know when they actually departed. He said that he contacted the doorman and bellboys who were on duty during the day shift on February 8, 1964, and ascertained from them that although they were all alert concerning the presence of this party in the hotel, none of them actually saw them depart.

(SF T-1) stated that he observed that Jim Martin signed for the hotel bill on the morning of February 8, 1964, but did not check out at that time. (SF T-1) said he told the registration clerk at that time that Martin and Oswald were not leaving the hotel then.

UNDATIC

Re: LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

WF T-1 felt that inasmuch as the Oswald party gave no indication of final departure from the hotel, no departure date was stamped on their registration cards at that time.

WF T-1 noted that registration cards for Rooms 301 and 302 were together in the hotel file, separate from the card for Room 345. He conjectured that the clerk may have pulled the card for Rooms 301-2 at the same time and having just received the maids' report of February 9, 1964, reflecting these rooms vacant, stamped departure date on each as 9:41 a.m. February 9, 1964.

WF T-1 stated that the clerk may have inadvertently failed to pull the registration card for Room 345 at the same time as the cards for Rooms 301-302. He said this may account for the difference in the departure time between the occupants of these rooms in the same suite.

WF T-1 advised that the registration records of the Willard Hotel reflect that no one occupied the Abraham Lincoln Suite on February 9, 1964.

Memorandum

TO: Mr. Belmont DATE: 2/27/64

FROM: A. Rosen

SUBJECT: THE PRESIDENT'S COMMISSION
ASSASSINATION OF PRESIDENT KENNEDY

During a conversation Malley had with Inspector Tom Kelley of the Secret Service while at the President's Commission, Inspector Kelley mentioned that Mr. Rankin had discussed with him information Rankin had received from Attorney William A. McKenzie who now represents Marina Oswald. According to Kelley, McKenzie related to Rankin information he had received to the effect that there was considerable animosity existing between the office of the Secret Service and the office of the FBI in Dallas, Texas. Mr. Rankin inquired of Inspector Kelley whether he had any information concerning such a situation. Kelley states that he told Mr. Rankin that he personally had been in Dallas for several weeks in connection with the assassination of President Kennedy, that Malley of the FBI had also been there, and that during the period they were both in Dallas there was a completely free exchange of information on matters of interest and that they had been in touch with one another on the telephone on numerous occasions. Kelley claims he told Mr. Rankin there was certainly nothing that he observed while he was in Dallas to indicate any hard feelings of any kind between the two agencies and that he had no knowledge of any such situation existing. Kelley stated he told Mr. Rankin that there is always the possibility for some one individual to develop feelings one way or the other but this would certainly not be indicative of an official attitude of resentment of one agency against another. Inspector Kelley advised that he wanted Malley to have this information so that he would be aware of it in the event Mr. Rankin brought up this conversation.

Inspector Kelley was immediately advised that Malley knew of no animosity existing between the two agencies in Dallas and if there had been it would have been called to the attention of the headquarters of both organizations immediately.

Dear Mr. Rankin:

Reference is made to my letter dated February 20, 1964, which reported that Mr. Robert L. Oswald, brother of Lee Harvey Oswald, stated he had telephonically contacted Marina Oswald at the Martin home in Dallas, Texas, on the evening of February 8, 1964. Reference is also made to my letter dated February 20, 1964, which enclosed a copy of a February 17, 1964, memorandum setting forth the results of inquiries conducted at Washington, D. C., concerning the residence at the Willard Hotel of Marina Oswald, James Herbert Martin and John M. Thorne. That memorandum reported that, according to a Willard Hotel date stamp, Marina Oswald departed from this hotel at 9:41 a.m. on February 9, 1964.

Enclosed is a memorandum dated February 26, 1964, which contains additional information concerning the date Marina Oswald departed from the Willard Hotel. You will note that although a date stamp on hotel records indicates Marina Oswald, Martin and Thorne departed on February 9, 1964, the hotel maid's report prepared and submitted on February 9, 1964, shows that the quarters assigned to this group were not occupied during the night of February 8, 1964.

It was subsequently ascertained from the source mentioned in the enclosed memorandum that this source learned on the afternoon of February 26, 1964, that a hotel employee observed Marina Oswald and child, accompanied by Martin and

Dear Mr. Hoover:

I am glad that we had the opportunity to discuss personally on January 28, 1964, the allegations to the effect that Lee Harvey Oswald was an informant of the Federal Bureau of Investigation.

Since our meeting, the Commission has received many helpful materials from your office concerning these allegations. I wish to acknowledge receipt of your letters dated February 6 and 12, 1964, enclosing your own affidavit as well as various affidavits submitted by agents of the Federal Bureau of Investigation who interviewed Lee Harvey Oswald or had responsibility for the supervision of Bureau informants in the areas where Oswald lived. I know that the Commission will consider these submissions, supplemented by your recent interviews of District Attorney Wade and Houston "Post" reporter Hudkins, as important contributions to the Commission's work.

In light of our continuing review of these allegations, I would like to bring to your attention one related matter. Your letter of January 27, 1964, advised the Commission that Special Agent James P. Hosty's name, office telephone number and automobile license number, one digit off, appeared in Oswald's address book. In so informing the Commission, your letter supplied information which appears to have been omitted from an earlier report of the FBI submitted to this Commission.

EXP. PROC.
FEB-24-1964

17 MAR 4 1964

Specifically, the report of Special Agent Gemberling dated December 23, 1963, at Dallas, Texas, beginning at page 672 purports to set forth the names, addresses and/or phone numbers contained in Oswald's address book. At page 696 of this report, certain entries are set forth with an indication that they appear on page 74 of the address book. Examination of the address book reveals that certain information has been omitted at this point in your report, including Special Agent Hosty's name, a telephone number, a license number, the date "Nov 1, 1963," and an address, "1114 Commerce St Dallas."

The Commission would like to be informed of the circumstances surrounding this omission. More particularly, it would assist the Commission in appraising the significance of this matter if we knew the names of the agents, including supervisors, who prepared this portion of the report or made any decision to omit information from the report. Needless to say, we would like a full explanation.

Thank you for your attention to this matter.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Belmont

DATE: February 27, 1964

FROM : A. Rosen

SUBJECT: JACK L. RUBY, AKA.
LEE HARVEY OSWALD, AKA - VICTIM
CIVIL RIGHTS

The President's Commission by letter dated 2-25-64 advised that the report of SA Manning C. Clements dated 11-30-63 set forth at pages 155 through 159 various pieces of intelligence data intermittently dated as early as May, 1961, which suggests the existence of a file containing information about Ruby collected prior to 11-22-63. The Director inquired, "Why didn't we give Commission all in first instance?"

The report of SA Clements, which was furnished to the Commission, at pages 155 through 159 sets forth ten items of information which were obtained through an indices search of all Dallas files. The information set forth comes from ten different Dallas files, and it includes all information available from the Dallas files wherein references were made to Ruby. Prior to 11-24-63, Ruby had never been the subject of a Bureau investigation, and no single file had been maintained by the Bureau or Dallas Office containing all information concerning Ruby. The Commission was not only furnished in the report of SA Clements at pages 155 through 159 the information in the Bureau's possession concerning Ruby but also the original source of this information was clearly identified. The Commission is apparently trying to draw an inference from the information set forth in the report of SA Clements that we have a file on Ruby containing all information collected by this Bureau concerning Ruby prior to the assassination. This is not correct.

The facts are we did contact Ruby to give consideration as to whether he was in a position to furnish information to the Bureau regarding criminal activities and whether he would be willing to do so. This was done because of the type of clubs which he

operated. In this connection, he was contacted by an Agent on 3-11-59 and advised of the Bureau's jurisdiction in criminal matters. He expressed a willingness to cooperate and was subsequently contacted on eight occasions between 3-11-59 and 10-2-59. All contacts were completely negative. Ruby never furnished any information. He never received any money from the Dallas Office. He never was an informant of this Bureau.

In order to record the fact that contacts had been made with him, the specific memorandums of such contacts are maintained in an administrative control file in the Dallas Office. This file was captioned "Jack Ruby, Potential Criminal Informant (PCI)." The file was captioned as such solely for administrative purposes to record the time spent by Agents and the purpose of such contacts with the individual. The file was closed after the contact on 10-2-59, and no further consideration given to Ruby. In the report of SA Manning C. Clements dated 11-30-63 referred to by the Commission in its letter of 2-25-64, there was set forth on pages 157 - 159 information contained in this file, namely Ruby's physical description as obtained through observation and interview, as well as information furnished by one Helen A. Roan, concerning Ruby.

ACTION

There is attached a letter to the President's Commission advising them that the information set forth at pages 155 through 159 of the report of SA Manning C. Clements dated 11-30-63 was obtained from a search of all files of the Dallas Office wherein a prior reference was made to Ruby and that all information available from the files was set forth in the report of 11-30-63 which was furnished to the Commission. Also, that due to Ruby's position as a night club operator, he was contacted on nine specific occasions between March and October, 1959, to determine if he would furnish any information of value relating to criminal matters. He furnished no information whatever, was never paid any money and was not a Bureau informant.

The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter of February 20, 1964, wherein you requested to be advised of the circumstances surrounding the omission of Special Agent James P. Hosty's name and related data as appearing in Lee Harvey Oswald's address book in our report of Special Agent Robert P. Gemberling dated December 23, 1963, at Dallas, Texas, in the Oswald case. You indicated it would assist the Commission in appraising the significance of this matter if it knew the names of the agents, including supervisors, who prepared this portion of the report or made any decision to omit information from the report.

You indicated also that you would like a full explanation.

For your information, I have determined that Special Agent Robert P. Gemberling made the decision as to what information should be included in his report of December 23, 1963. I also determined that Special Agent John T. Kesler had responsibility for reviewing photographic copies of the pages of Lee Harvey Oswald's address book to determine which items needed investigative attention. Such items were set forth as investigative leads to be covered and it was such lead material that was incorporated in Special Agent Gemberling's report of December 23, 1963.

I am enclosing herewith affidavits executed by Special Agents Robert P. Gemberling and John T. Kesler wherein each sets forth his explanation regarding his handling of Lee Harvey Oswald's address book.

Honorable J. Lee Rankin

I want you to know that I feel our reporting procedures in this matter are completely logical and sound. This Bureau never purported that Special Agent Gemberling's report of December 23, 1963, contained the complete listing of Lee Harvey Oswald's address book and, as you know, additional items in Oswald's address book not previously reported were furnished to the Commission in the report of Special Agent Robert P. Gemberling dated February 11, 1964, at Dallas, Texas.

This Bureau from the beginning of this investigation has developed and reported all available and relevant facts and it will continue to do so.

I trust that this letter and the enclosures thereto will satisfy the requirements of the Commission.

Sincerely yours,

J. Edgar Hoover

Re: Assassination of President John F. Kennedy, 11/22/63, Dallas, Texas

On February 14, 1964, Mark Lane, who described himself as a New York Attorney and the attorney for Mrs. Marguerite Oswald, mother of Lee Harvey Oswald, made a speech at the Central Methodist Church, Woodward and Adams Streets, Detroit, Michigan.

During this speech, Lane said that he had prepared a brief concerning the Oswald case and that in about two weeks he was going to seek to obtain an appointment with United States Attorney General Robert Kennedy in order to present this brief, as well as other evidence he had developed in this matter, to the Attorney General.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Dear Mr. Hoover:

This will acknowledge receipt of your letter dated February 17, 1964, advising the Commission regarding the information recently furnished by Robert Oswald through a Bureau confidential source to the effect that Marina Oswald was [redacted] with her business manager, James Herbert Martin, sometime during her recent stay in Washington when she testified before this Commission.

After receiving this information from you, I inquired of the Secret Service as to the period of their protective surveillance, the rooms occupied by Marina Oswald and Mr. Martin during their stay in Washington, and the existence of any notice Secret Service personnel may have had of the situation.

The Secret Service has informed me that during the period of their surveillance James Martin and John Thorne were assigned quarters in the Willard Hotel on a different floor than the one on which Marina Oswald was located, and that its personnel occupied a room which was part of Marina's suite until the early afternoon of Friday, February 7, when at Marina Oswald's request, protective surveillance was discontinued. I am informed also that after the surveillance was discontinued Mr. Thorne transferred from the quarters he had occupied to the bedroom formerly occupied by Secret Service personnel in the suite still occupied by Marina Oswald. It is not yet known with certainty whether Mr. Martin did likewise. If such were the case, however, it is possible that Marina Oswald and Messrs. Thorne and Martin occupied the suite together without surveillance on the night of February 7-8, 1964.

I would appreciate very much if you would have your Bureau undertake an appropriate investigation of the matter in an effort to develop the full circumstances surrounding the referred to incident. In the judgment of the Commission it is important to ascertain: (1) whether the [redacted] between Martin and Marina Oswald occurred at a time when she was under the protective surveillance of the Secret Service; (2) whether she was in fact [redacted] (3) when and with whose assistance she decided to dismiss James Martin and John Thorne from further association with her business interests; and (4) the circumstances surrounding her taking up residence with the Declan P. Fords.

In pursuing your investigation the Commission respectfully suggests that among the persons interviewed regarding the alleged incident, your Bureau obtain, if practicable, signed statements from: Marina Oswald, James Martin, John Thorne, Robert Oswald and the Declan P. Fords. The statements of the latter three will probably be limited to what, if anything, Marina stated to them about the alleged incident.

Thank you for your continued cooperation in the work of this Commission.

Sincerely,

Dear Mr. Rankin:

Enclosed for your information are two copies of a self-explanatory communication from our Detroit Office dated February 17, 1964, concerning attorney Mark Lane. Also enclosed are two copies of "Lane's defense brief for Oswald" which appeared in the December 19, 1963, issue of the "National Guardian."

The Attorney General is being furnished copies of the above Detroit communication, background data on Mark Lane similar to that information previously furnished you by this Bureau as well as the brief appearing in the "National Guardian."

The House Committee on Un-American Activities has stated the "National Guardian" has manifested itself from the beginning as a virtual official propaganda arm of Soviet Russia, although the publication denies having any affiliation with the Communist Party.

Sincerely yours,

11/22/63
DALLAS, TEXAS

PURPOSE:

This is to recommend the attached letters be sent to the Attorney General and the President's Commission advising them of information developed by our Detroit Office concerning Mark Lane as well as furnishing appropriate background on Lane.

DETAILS:

Detroit by airtel 2/17/64 advised Mark Lane, New York attorney who is representing Lee Harvey Oswald's mother, spoke before a Detroit, Michigan, church group and stated he planned to get an appointment with the Attorney General so as to present his brief on the Oswald case.

BACKGROUND:

Lane is the oft-married former New York Assemblyman [redacted] Lane is also reported to be closely associated with communist dominated organizations and has been traveling throughout the country making speeches concerning the brief he prepared. He prepared a "defense" brief for Oswald which appeared in the 12/19/63 issue of the "National Guardian," described by the House Committee on Un-American Activities as a virtual official propaganda arm of the Soviet Union.

Lane, in his brief, analyzes and attempts to rebut public statements issued by Dallas District Attorney Henry Wade (former Agent) and offers "defense" arguments on the possibility of Oswald's innocence. Aside from endeavoring to discredit the FBI and other investigating agencies, Lane bases the brief

Dear Mr. Rankin:

Reference is made to your letter dated February 13, 1964, requesting this Bureau to undertake investigation in an effort to develop full circumstances surrounding the incidents involving Marina Oswald and James Herbert Martin.

Our letter of February 20, 1964, set forth results of our interview with Robert Lee Oswald on February 18 and 19, 1964, in this matter; our letter of February 20, 1964, set forth results of our interview with Marina Oswald on February 19, 1964, in this matter; and our letter of February 21, 1964, forwarded to the Commission a memorandum we received from the U. S. Secret Service dated February 19, 1964, setting forth information concerning Secret Service detail for Mrs. Marina Oswald during her stay in Washington, D. C., when she testified before the Commission.

Enclosed herewith are copies of signed statements we obtained from Marina Oswald, Robert Lee Oswald, Declan P. Ford and Mrs. Declan P. Ford concerning the relationship between Mrs. Marina Oswald and James Herbert Martin.

For your added information, Mrs. Vada Oswald, wife of Robert Lee Oswald, has informed this Bureau that Marina Oswald told her that James Herbert Martin had professed his love for her and that she had consented to [redacted] with Martin at the Willard Hotel, Washington, D. C.

after the U. S. Secret Service had ended its protective custody of Marina. According to Mrs. Vada Oswald, Marina Oswald told her that after the U. S. Secret Service vacated its space adjoining Marina Oswald's room at the Willard Hotel, John Thorne and James Martin moved into the room.

Vada Oswald added that she recalls Marina told her that she consented to [redacted] with Martin after he insisted that he loved her and told her he would divorce his wife.

Vada Oswald further stated that on February 11, 1964, Marina Oswald went to Martin's home and was confronted by Mrs. Martin who asked questions of Marina regarding Marina's relationship with Martin. Marina apparently evaded these questions at best she could but after she returned to the Robert Oswald residence, Marina called Mrs. Martin and, after making sure Mr. Martin was listening on the telephone extension, Marina proceeded to relate to Mrs. Martin the details of her relationship with Martin. After this call, Marina indicated to Vada Oswald that she wanted nothing further to do with Martin because she felt he was just after her money. Mrs. Vada Oswald continued that on the night of February 12, 1964, John Thorne came to the Robert Oswald residence with Kathy Ford and thereafter Marina left the Robert Oswald residence and moved to the Ford residence. Vada Oswald stated Marina took such action because she felt she was inconveniencing Robert and Vada Oswald and because she enjoyed talking in Russian to Kathy Ford who speaks Russian.

Vada Oswald further stated that from what Marina told her, Marina had [redacted] with Martin only at Washington, D.C. after the U. S. Secret Service ceased its protective custody of her.

For your added information, we also contacted Mr. John H. Thorne on February 19, 1964, in this matter. Thorne stated he became attorney for Marina Oswald and her agent, James Herbert Martin, in early December, 1963, and that a contract dated December 5, 1963, was signed shortly thereafter in the presence of Robert Oswald and at the same time a contract was drawn up between Marina and Robert Oswald. Mr. Thorne advised that on February 2, 1964, Marina Oswald, her daughter June, James Herbert Martin, six Secret Service agents and he, Thorne, traveled to Washington, D. C. All members of the party stayed at the Willard Hotel, Washington, D. C. Thorne and

Martin were given separate rooms on the ninth floor and Marina and her child and the Secret Service agents were assigned the "Lincoln Suite" on the third floor.

According to Thorne, the President's Commission discharged the U. S. Secret Service from protecting Marina Oswald on Thursday, February 6, 1964, after Marina completed her testimony before the Commission. Marina, however, requested the Secret Service to remain one additional night and Thorne stated he also requested the U. S. Secret Service to continue to protect Marina. As a result, according to Thorne, the U. S. Secret Service agents stayed through the night of February 6, 1964, and moved out on the afternoon of February 7, 1964. Thorne stated his desire for continued U. S. Secret Service protection for Marina was because he feared interference from newspaper representatives. He stated that Martin had some appointments with newspaper and magazine representatives in Washington, D. C., on Saturday, February 8, 1964, and that Martin, Marina and he returned to Dallas on the afternoon of February 8, 1964.

Mr. Thorne continued that after U. S. Secret Service agents moved out of Marina's suite at the Willard Hotel he and Martin moved into the space that had been occupied by the U. S. Secret Service. When we asked Mr. Thorne if he had any personal knowledge or other information as to the conduct of Marina Oswald and Martin during their visit to Washington, D. C., Mr. Thorne stated he would decline to answer this question on the basis that any information he might have directly or indirectly or personally observed would be privileged. He stated that should Marina herself furnish any information as to the relationship between Marina and Martin the privilege would be removed so far as she was concerned but would still extend to Martin whom he considers his client.

Mr. Thorne further stated he had received a letter from Marina Oswald purporting to terminate his services as an attorney. However, he still considers himself as her attorney as well as the attorney for Martin, and he feels Marina Oswald cannot unilaterally terminate their contract dated December 5, 1963.

During our interview with Mr. Thorne, he also stated he intended to advise Mr. Martin of the probability that Federal Bureau of Investigation agents would attempt to interview him in this matter and that he would advise Mr. Martin not to consent to such interview.

Honorable J. Lee Rankin

We also contacted Mr. James Herbert Martin on February 19, 1964, and he declined an interview with us in this matter on the advice of his attorney.

Any additional data developed by this Bureau bearing on the relationship between Marina Oswald and James H. Martin will be immediately forwarded to the Commission.

Sincerely yours,

J. Edgar Hoover

Enclosures (4)

NOTE: Based upon our dissemination to the Commission that Marina Oswald and James H. Martin had apparently engaged in [redacted] during Marina's stay in Washington, D. C., when she appeared before the Commission, Mr. Rankin by letter dated 2-18-64 requested this Bureau conduct certain investigation concerning this incident. Mr. Rankin was particularly interested in determining whether the incident occurred at a time when Marina was under protective custody of the Secret Service; whether she was in fact [redacted] when and with whose assistance she decided to dismiss Martin and Thorne and circumstances surrounding her taking up residence with the Fords. We have now resolved each of these points and our letters to the Commission setting forth results of interviews with Robert Lee Oswald, Marina Oswald and the Secret Service report which we furnished to the Commission furnished data we developed on such incident. We are now furnishing signed statements from the principals involved and are setting forth results of our contact with Vada Oswald, confidant of Marina in this incident, and our efforts to interview Thorne and Martin regarding the incident. Previous details [illegible] in this matter have been furnished U.S. Secret Service in view of its interest in the incident. A copy of instant letter to Rankin is also being furnished Secret Service by liaison so it will be cognizant of up-to-date developments in our investigation of the incident.

Dear Mr. Rankin:

In reply to your letter of February 25, 1964, please be advised that the information set forth as background information at pages 155 through 159 of the report of Special Agent Manning C. Clements dated November 30, 1963, was obtained through a search of all files in the Dallas Office wherein references to Jack L. Ruby appeared. All available information concerning Jack Ruby contained in the Dallas files is set forth in the report.

For your information, Ruby was contacted by an Agent of the Dallas Office on March 11, 1959, in view of his position as a night club operator who might have knowledge of the criminal element in Dallas. He was advised of the Bureau's jurisdiction in criminal matters, and he expressed a willingness to furnish information along these lines. He was subsequently contacted on eight occasions between March 11, 1959, and October 2, 1959, but he furnished no information whatever and further contacts with him were discontinued. Ruby was never paid any money, and he was never at any time an informant of this Bureau.

Dear Mr. Rankin:

Reference is made to your letter dated February 18, 1964, requesting this Bureau to undertake appropriate investigation in an effort to develop full circumstances surrounding the incident involving Marina Oswald and James Herbert Martin. As you are aware, results of our inquiries in this matter have been furnished to the Commission.

For your information, Special Agent in Charge J. Gordon Shanklin of our Dallas office has advised that the incident involving Marina Oswald and James Herbert Martin is known to Marina Oswald, Mr. and Mrs. James Herbert Martin, John M. Thorne, Mr. and Mrs. Declan Ford, Mr. and Mrs. Robert Oswald, Mr. William McKenzie and Mr. McKenzie's law partner, Mr. Henry Baer.

Mr. Shanklin also advised that the rift between Marina Oswald, James Herbert Martin and John M. Thorne has been noted by the newspapers in Dallas and has been the subject of coverage by the press. The Dallas "Times Herald" contained an article in its February 25, 1964, edition reporting Marina Oswald had switched legal advisers on in-law advice. The article also quoted Thorne as stating that he had spent hundreds of hours representing Marina Oswald, as had Mr. Martin, and "We have a bona fide contract for percent of the money she makes and I intend to enforce it. This action could be opening the door to the courthouse and that door swings both ways."

OSWALD (TOP. 57)

WASHINGTON (AP)-THE PRESIDENT OF THE AMERICAN BAR ASSOCIATION, WALTER E. CRAIG, WAS APPOINTED TODAY TO REPRESENT LEE HARVEY OSWALD, SLAIN BEFORE HE COULD BE BROUGHT TO TRIAL ON THE CHARGE OF ASSASSINATING PRESIDENT JOHN F. KENNEDY.

THE ANNOUNCEMENT BY THE PRESIDENTIAL COMMISSION INVESTIGATING THE ASSASSINATION SAID TWO MONTHS OF "MARSHALING THE FACTS AVAILABLE HAVE NOT CAUSED THE COMMISSION TO DOUBT THE REASONABLENESS OF THE ACTION OF THE AUTHORITIES IN CHARGING OSWALD, BUT HIS GUILT WAS NOT PROVED AT A TRIAL."

THUS, THE GROUP HEADED BY CHIEF JUSTICE EARL WARREN SAID, "HE DID NOT HAVE THE OPPORTUNITY TO MEET THE ACCUSATION ACCORDING TO THE AMERICAN WAY OF JUSTICE."

THE COMMISSION NOTED THAT ALTHOUGH IT IS NOT A PROSECUTING AGENCY, IT MUST EVENTUALLY REPORT ITS CONCLUSIONS AS TO THE FACTS CONCERNING THE PERSON OR PERSONS RESPONSIBLE FOR THE DEATH OF THE PRESIDENT.

CRAIG, THE COMMISSION SAID, WILL EXAMINE EVERY FACET OF THE CASE POINTING TOWARD THE INVOLVEMENT OF OSWALD, "AND IN FAIRNESS TO HIS FAMILY, ADVISE THE COMMISSION IN THAT REGARD SO THAT IT MAY NOT OVERLOOK ANY PROPER CONSIDERATION IN DETERMINING THAT THE TEST OF TRUTH HAS BEEN MET IN ACCORDANCE WITH AMERICAN PRINCIPLES OF JUSTICE."

THE ANNOUNCEMENT SAID CRAIG, A PHOENIX, ARIZ., LAWYER, AGREED TO UNDERTAKE HIS TASK AS A PUBLIC SERVICE, WITH THE ASSISTANCE OF SUCH ASSOCIATES AS HE MAY HIMSELF CHOOSE.

Hon. Earl Warren,

Dear Sir.

As a conclusion to my previous paper I wish to express my private opinion concerning Police responsibility

Respectfully yours,

Nicola Brunori

At this point appears legitinate to ask what are the responsibilities of the local Police and the federal .

At the very first the tendency should be to exclude any responsibility of the F.B.I AND the C.I.A .

Such an assumption is apparently risky and refers both to the precautionary measures that should have being taken in advance of the President's visit to Dallas and to the attitude taken after the murder.Such would be showing satisfaction with the explanations of the local Police and the D.A. ,which made Oswald guilty without the benefit of trial.

The show of satisfaction really did lack of conviction , because the case remained open and cooperation was obtained from other Federal Authorities to keep up investigation without closing the case .

Before the President's visit .-

To protect the President,during the time of his stay in Dallas and especially during the open limousine drive , was the essential task of Local Police .

Federal Agents took measures ahead of time and certainly were acquainted with Lee H.Oswald life and exploits . They felt sure that Oswald was not dangerous , even if he was no part of the secret service , or else they would have recommended to the Local Police that he be kept under special vigilance , altogether apprehended and put away , irrespectively of Oswald extreme political beliefs .

Neither the Local Police entertained suspicion that Oswald was dangerous , otherwise it would have been mentioned to the Federal Agency for action to be taken .

The danger of an attempted assassination of the President was fully surveyed by the two Police Forces , local and federal . There was agreemen

that the precautions were sufficient to insure full protection along the road . There were doubts in the case of sudden assaault, especially from above or further away .

- The speed of Police action , following immediately the assassination , is truly impressive .

In a very short time Oswald was apprenented in a Movie after a quick dr ve and the killing of poor Tippitt, who was perhaps the victim of a plot.

Rapid also were the developments which ensued .

At once Curry identified 3 shots as coming from the Book Depository Building . At once he radioed the description of Oswald . Capture followed almost immediately .

And ,right upon his arrest, Radio and Press have spread the World aroun the last details of Oswald's private life . Oswald was represented as an unstable individual , full of Marxist ideas and perhaps a secret emissary of the Red Party .

But if so many things were so easily known about him , why was he given a job in the Book Depository ? . ? .

May be to keep him at hand in case of emergency ? .....

The rush of action continued after Oswald's apprehension , and without delay the Police and the D.A. voiced certainty of his guilt and inevitable electric chair , without even reckoning that somebody else in far greater hurry and well ahead of ordinary justice would silence Oswald forever , in spite of Police custody .

Haste was in the very air of the City and the Police lost no time to declare the case closed as soon as the cadaver of Oswald was laid in the Morgue .

Even dogs are in a hurry to cover up their own malodorous excrements,

and after they run away .

The oppressive anguish of the threefold tragedy took the upper hand and forced the risky conclusion of the case .

There was a fear of what had been taking place in the City and the need was felt to lock the door to further misfortunes .

After the fatal shooting the President was taken to the Hospital in a hurry . It was not possible to save him . Physicians themselves also in a hurry and were unable to establish with a certainty whether he had been struck by one or two bullets . They were even unable to trace and recover the lethal bullet , that should have been remained inside the sku

They spoke of a bullet lodged in the Governor's tigh : but they had n time to take it out and not even to take an X-ray picture of it , that could describe or identify the striking bullets . This would have permitt the comparison with projectiles fired by the Mannilicher- Carcano rifle discovered in the 6th floor .

Such a silence with such a hurry !

Days elapsed before the news were given that an autopsy was performed a the Naval Hospital .

To this day nothing has been known about the result of the same , if was really performed . It has been only communicated that the autopsy report was delivered to the secret service men .

Why was not made public ? -

Surely with silence and by silence a burning truth may be hidden , - tha would be avoiding to <u>indict</u> those who can <u>not be indicted</u> .

The move of the Secret Service in maintaining the case open was impose by two considerations :

firstly : to convince the higher authorities that the secret service was not at fault for the assassination .

secondly : to allow deep investigations and enabl the investigators to decide or not the facts should be or not divulged . Because the possibility of a plot involving national dignity and having international repercussion could not be excluded .

Evidently the Fderal Police suspected since the very beginning and concluded that there it was unknown plot : at the same time prudence dictated that disclosures should wait for a decision by the Committee , whic the new President had appointed .

Here how the secret service well reckoned on the story of 3 shots ; the quality of wounds inflicted on the victims; the rifle firing from th hight and at distance , while instead the shooting came from below and behind . The killing of Tippitt was also explained in connection with th hidden plot .

Above all the secret service understood that the quick removal of Oswa eliminated the possibility of dangerous revelation .

In spite of inductions and suspicions the secret service has been forced to cover up that which have been the hideous truth .

Though charged with the task of protecting Kennedy's life the secret service found necessary to keep silence before the killers of the Presiden even after understanding that the man had been sacrified was alien to the homicide and a pretended communist .

Upon the representation of Oswald's mother the public at large begins to understand the basic truth .

Nevertheless the secret Police must uphold the fiction concocted and divulged by the Dallas Police , always with a view to avoid disclosing a plot demanding to a national disgrace .

This also explains why the Local and Federal Police , though for a di vergent motives , are trying to save Ruby , who could reveal the existenc of a plot .

The 3 assassinations have served the purpose of venting political hatreds, partisan ganglike interests ,

In the face of this opprobrium what should be sensibly do There is only one way : to keep silence and lay a stone upon this disonor ble fact .

Indeed, even the Warren Commission is inclining to band discussin upon the President's murder and to accept the ex,lanation, given, as true, b the FBI.

This pudic shame and fiction, as the purpose of covering up nation disgrace, saddly reminds of the fig leaves applied upon the neckedness of the biblical progenitors .

****
****

At this point it is well to conclude in reference to Police responsibilit

It appears to weigh upon the Local Police , if not directly at least ir directly.

Yet, on the strength of this logic, no resentment should be enter- tained and no cruel judgement should be passed upon it .

M/ A degree of natural chagrin might be felt for the city of Dallas.

Blame should be directed agaainst the conservative southern polititians

of the extreme right , contrary to the liberal politics of Kennedy .
They poisoned the entire political atmosphere with a hate that not ev
the assassination of a President has succeeded in eliminating .
This fact makes the entire population of Dallas responsible for the
reparation of all damages .

Memorandum

TO : Mr. Conrad

DATE: 2/27/64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
REQUEST OF THE PRESIDENT'S COMMISSION

By letter dated 2/24/64 from Mr. Rankin The Commission has requested a series of photographs of exhibits which will include The Commission's assigned exhibit number in each photograph. The Commission requested that three photographs be made of each exhibit and that any photographs of clothing should be in color. It is indicated that as The Commission makes additional exhibits available they will desire they be similarly photographed. We have commenced work on this matter and are handling on an expedite basis.

We have previously furnished The Commission individual photographs of physical evidence items collected by the FBI during the investigation of the Oswald, Jack Ruby and the assassination of the President cases. The Commission has selected certain of these as being particularly pertinent and has assigned exhibit numbers to them. The Commission in its 2/24/64 letter is now asking that we furnish them with three photographic prints of every item to which they have assigned a Commission exhibit number.

An estimated 2,100, 8" x 10", photographic prints, some in color, will be required to fulfill The Commission's initial request and satisfy our own need for copies of any photographs furnished The Commission. This will take care of The Commission's request with respect to exhibits designated to date; however, as indicated in The Commission's letter this is a continuing project and additional photographic prints are to be made as new exhibit designations are made.

Since this is a substantial undertaking and since the photographic work is to be done by the Administrative Division's Photographic Unit, the project has been coordinated with Assistant Director Callahan and Administrative Division photographic personnel.

Dear Mr. Hoover:

We would like a series of photographs of the Commission exhibits prepared in the same manner as the enclosed photograph, that is, with a title on the bottom showing the Bureau inventory number and the Commission Exhibit Number. We would like three photographs of each exhibit, including photographs of each exhibit which is itself a photograph. Photographs of clothing should be in color, photographs of other items should be in black and white. Except in the case of Commission Exhibit No. 111 (FBI Exhibit No. 324), where an exhibit contains more than one page, a photograph should be taken of each page.

Not all Commission exhibits have been returned to the Bureau. As additional exhibits are returned, photographs should be made in accordance with the above instructions.

Roll "documentary film" for you and film copy for "Leif' (sic)... ("Life") (sic). He had "a little head" and "Jewish tuft of the hair." Texas.

Well, he had "found on the street" 250,000 dollars (in the blood of the President of the U. S. A., John F. Kennedy).

That "someone" knows "everything" about you like all Jews in the world, not only in America. They are a "closely-knit family" despite their "world Diaspora." Is it not so, Rubinstein?

Your death has already become unnecessary, because "that someone" knows much too much. Also the real, your secret name, the real face, also the cause, the cause*, your "coulisses" (political), inspirers, organizers and the executioners of this "Dallas murder." This "someone" had also the great quantity of evidentiary material, documents, original photos, drawings and name lists of persons, together with the "family names, "goal - name change (within the framework of your "artificial assimilation") and also pseudonyms.

(All this for a quite concrete, our goal.) Another thing, all this is a "fruit - already for many years difficult," very toilsome, but consequent genuine work, many, many wealthy, diligent and courageous people who create a big international informative - scientific institution.

But don't be afraid, Rubinstein. We have no intention to help Americans. Besides, we are unusually curious (we investigate "everything" diligently and very much on purpose), until - no matter what limits - the ignorance, stupidity and treason against the people, reach heights in the U. S. A. (for "dollars and silver coins), also the corruption in general. An altogether different matter (and "stupidity of the people") of the "American race haters." They are too stupid to understand the role which is being "played" and for "whom." Therefore, they could not know that they are only your "makers of favorable winds," without knowing it (for instance, in Texas, in Dallas). Yes. This is still another "political masterpiece" by you. Bravo! Such as "communism."

(But so on the side; personally, we pity these people. Poor America! You an "arrogant Yankee" country. This does not fit your "face," with this "sling," which is thrown around and pulled together, by a concrete and not quite so "invisible" enemy number one of your people. In addition, your "guest" who mocks you and derides you and laughs at you like a frog in your own house - America.)

* (sic)

You Jews called world republics "creatures" of the President (one in the "East," the first after many years, will not be). Nikita who made a "purge" of you in his country /Beria and Co. .../ thus he is for you a "foe of the Jews," therefore, also "your new human tool," Mao-Tse, makes "everything" that "at any price," this "condition in the East" be "turned about." In addition, unfortunately, also comes a "political surprise" in the West. Such a "creature" will not be new, young, "too prudent," with "courage and even stimulation," but careless, "disobedient" to you, President of the U. S. A., John F. Kennedy, with "his new foreign policy." ... "It can be very bad." Well, he is murdered as a "traitor."

You Jews also called all Aryan peoples ("gojm"), with their political ringleaders, intellectuals and spiritual leaders "democratic, ignorant, stupid sheep." Well, often it is so, but not always, not with all people. Not with all people and Aryan peoples it is so bad. Rubinstein. Examples? One of these "two statesmen" in East and West also millions of people in the world are with you together; this is the second example.

This was "brief concerning many things," pertaining to this "subject." Do you understand us?

Let's go further because things are as they are in America; for instance, it is not so difficult to guess why the Americans do not "see" you (Jews), and your "deeds" (also behind America).

Well, they do not see you, they help you, hide you and defend you, only the entirely blind people, only the most stupid, most ignorant people (also hypnotized your "eighth" (sic) or such a vermin (like you, Rubinstein) and malicious betrayers of the people. And this is another truth.

The effort of writing this letter to you (is no pleasant matter and you can believe us) jand we have to say that you, Rubinstein, have forced and provoked us. Whom?

Also your "role played" in this "Dallas affair" and, subsequently, your entire, until now protection (together with your "friends"). This also concerns your "typical Jewish" popular manners in your "situation" (shameless, tuft of the hair, this cunning cynicism and this shameless pub trade). In addition, also this shameless - great principle and belief that "your friends" should certainly (and also soon), "give" you freedom.

(This means "to make many, many times idiots and imbeciles out of 3 1/2 billion human beings in the world.")

3

Ha! The entire world sees clearly (only the Americans do not) the truth about "Dallas." Also that which your "friends" are doing, "everything for you," Rubinstein. Also to you and "your role" in this affair. Political "world affair." Also that your "friends" pour out millions of dollars. "Piles of sacrifice" for you, Rubinstein ("for best attorneys in the U. S. A. and best "your" psychiatrists), various bribes. In addition, terrorism, various (also telephonic) - (?), "disappearance" of people, witnesses, pieces of evidence, etc., etc. In addition, your own "American" radio, TV, press and publishers "make" also everything for you, Rubinstein ("good atmosphere," "view," etc).

Also "sympathy, good protection and good camouflage" before the security authorities of the U. S. A. Oh, Rubinstein! You must not complain. You have never been ... like a "Roman emperor." Well, well, well! But there is still a "but." Well (because you do not know it as yet). That this "Dallas murder" had terribly hit not only the family of John F. Kennedy, President of the U. S. A., and the American people, but also many peoples in the world it had shaken. Therefore, this "Dallas murder" is not only an "internal affair" of the American people.

These peoples of the world, very diligent, with great impatience and with an angry flash in their eyes, observe this entire "course and the result" of the investigation of the "Dallas world affair."

Also many Africans of Papua are interested in this affair. They already see the truth, - (?) the velocity "and quickness of mind, also the intelligence of the American "statesmen," "diplomats," "intellectuals" and "spiritual leaders" together with the people. American people.

The Papua people ask themselves: "What a state, for instance, Rubinstein, is the king, because their heads, lives and freedom are worth this 'pile of dollars' (unlimited sum of dollars)?..."

We are aware and we know very well, Rubinstein, that your "friends" can pay this "unlimited sum of dollars" because they hold in their hands the "big world capital." We also know what a way "had been found" in these "hands" ... this capital. But this is quite a different story. You know it too.

Well, Rubinstein, it is not our fault that your "rosy glasses" have changed to another color (gray).

In conclusion, we want to give an important advice to you. Well, you shall keep your saved life, but under one single condition. (Accept this advice, we shall not do anything else for you.) Well, already beginning today, you, Rubinstein, must pray a great deal to your "blood-thirsty god" Moloch that you never get out of prison and gain your freedom.

UNDATION
THE AA

(It would be best for you to get a personal cell in a strong prison and, still better, on an island very far from Texas and Dallas), because many of "our people" have sworn a holy oath that, in the case of your freedom, these people will reach you in "every situation," "at any price," "in any land," Rubinstein. Because they shall get you in their hands, you will die a death as never any man in the history of the nations has suffered (also from your hands...). Because you are such a "big criminal."

This for an example and to satisfy genuine justice. Yes, Rubinstein, these people know you very well and they also say:

"There must not be any other judgment of a genuine court of nations for such a human beast, vermin, more than vermin creature, murderer, sadist, gangster, pimp, procurer, thief, leech, Jewish facist, etc., etc., in one word, a genuine son of hell."

As you see, Rubistein (sic), these people are right.

On the left margin:

Sir:

We send this enclosed letter to the defendant Rubinstein ("Jack Ruby"), hereby "official channel." (For information and possibly official control.)

This letter (to Rubinstein) together with this to High Commission are official secret (up to a certain time ...).

We appreciate the dispatch of the letter (to Rubinstein) as particular and immeasurable for the good American people (also for the benefit of the investigation re: "Dallas murder").

In connection with this letter, we suggest to High Commission A) to place the letter discreetly in the cell of the defendant Rubinstein before delivery, TV camera, or film camera, with microphone, during the "reading time" (and afterwards), by the defendant.

It will be a phantastic "documentary film" for High Commission. The "documentary pictures" for great importance for the investigation altogether.

This "experiment" (point b) shall also be an important and very necessary supplement for the investigation, with the same:

(a) immediate transfer of the defendant Rubinstein from this until now (??!??) (sic) - "Dallas Freedom Boarding House" (Dallas stationary prison) to the genuine, real, one-cell, strong and well-isolated prison with good 24-hour observation of defendant Rubinstein (in the cell by TV cameras).

(b) for the entire time (of the course of the investigation) real, exact (close) isolation from the outside world (radio, TV, press), also complete "cutting-off" of all "contacts" ("joy," family, "attorneys," also "physicians," in particular "psychiatrists."

(Then to this "experiment" point (b) TV observation and - (?); then normal, direct examination.)

Such a "situation" and such a "-" (?) connected with investigation secret give the particular (also "phantastic") successes. Investigative successes.

B. Remark: Before the delivery of this letter to the addressee - it is necessary to make a letter copy or copy, for it is quite possible that the defendant Rubinstein will destroy this letter (before or after the reading).

C. - Immediate arrest (with the same "prison treatment" which Rubinstein has) "well-known" three other "mixed-in" and - (?) in "Dallas murder." Also the ed. "Dallas Mornings News" newspaper; Bernards Weisman. (Both direct, personally "interested" and most responsible (after the "principal inspirers," "principal initiators," and "principal organizers ..."), during this world-famous "necrology".. (of President John F. Kennedy)... with this black "border" IN THIS "NEWSPAPER." What was an apparent, full of impudence, "ready offer" (the murder) and equally shameless mockery. (Americans! How can such a thing be possible?)

Then also the "third" ("ideologically interested"). "Innocents" and "accidental," "film camera operator" at "moment of murder," Abraham Zapruder. (No, this is no "accident," to all this "role," and also that "all four" all the Jews.)

High Commission! "Dallas murder" is indeed a "great, political affair" important for the people and of international significance. Therefore, (as stated above), such a not another look at the matter must be. Therefore, also this and all (every) "means" suitable for the investigative matter must (and will) be justified by the American people and world. This is also a sacred duty of the High Commission toward this nation and the world".

Now - our comments:

1. Particular evaluation of the "facts," the realistic and sober examination in the "name," "race" (nationality) of all this "mixed up" in the case "Dallas murder," will not be "anti-Semitism" (as "often and always" the Jews (CROW), only a natural, perfectly legal act, the self-protection of the people. This "anti-Semitism" and also "anti-fascism" are no unfounded human feelings.

"Dallas murder" shall be for the entire world a great alarm, not only for America; a great alarm for all Aryan peoples.

No crime in the world shall be above the law!

Also no law in the world shall ever justify and at the same time absolve, even if the criminals hide behind wealth (nota bene (sic), descend from fraud and robbery), behind the "wall of riches," "wall of station" and "wall of race."

These world criminals shall neither "eternally benefit" from "untouchability," "protection," the "cover," the "tolerance" and the "escape from punishment," only because they "live and rage" in a "shadow of martyrdom," his "countrymen" from the war years. Also for the reason that "those people desire" complete impunity for him.

Thus the "trial" of Rubinstein (nota bene (sic) "psychic," entirely sane criminal), one of the "organizers of the Dallas murder," only in the case of "Oswald's murder" (an entirely innocent man) will be a big nonsense and a new crime before the American people; in one word "the - (?), real inspirers, initiators and organizers of the Dallas murder." Therefore, "their" new triumph and another (of many, many) "victory."

For special attention (annotation):

As we have stated before, at another place; we know very well the entire truth (genuine truth) about the geopolitical world reality; also about the "U. S. A. reality", "status quo" (sic).

We also know exactly that the "Dallas murder" and also many, many other political murders (throughout the world; for instance, the "Count Bernadotte murder," the Hammarskjoeld murder, Secretary General of the UN, are the work of one secret, nationality world organization which directly and indirectly leads the world politics and world economics.

In connection with this, your High Commission is now unable to do much (with this "enemy number one of the American people") without the aid of the entire people. Without the help of the genuine American patriots and even without the aid of the U. S. A. Government and the highest U. S. A. authorities (but, excuse us, after the thorough "purge" of "people, this enemy number one").

The unloosening or cutting of this Gordian Knot is, nevertheless, possible and quite easy in spite of everything, but only by an over-all (all nations) secret action with the same "state press control" during this time of action (also radio and TV control).

The final goal of this action must be, above all, the "taming" and near liquidation of that enemy number one of the people.

Only this, nothing else, shall (and must) bring a "happy (sic) ending" to this political, shameless and warped "Dallas affair," for the good American people and the entire world.

Such a, not another "monument," shall honor the memory of the intelligent, courageous and great statesman, President John F. Kennedy, President of the U. S. A., from the American people and the entire world.

P.S. No. 1: "Nikita" himself made such a "state-purge" in 1956 of this "criminal scum."

P.S. No. 2: The letter for Rubinstein is sent via three channels; also to two discreet addresses. When ..., then ..., (sic).

Dear Sir:

The preparations which are being made in the trial of J. Ruby are indicative of a desire to put him to death.

I am going to tell you a few words:

1. President Kennedy was very much loved not only in the United States but throughout the world.

2. Many, many of us are potential assassins of Oswald; search your conscience and you will see that you are one of them.

3. As far as we are concerned here, there are no doubts that Oswald was the assassin of Kennedy and Tippit. There is an overabundance of evidence and it is overwhelming. The fact that Oswald denied it does not change anything. The German fellow who killed the Lindbergh baby denied his crime up to the very last moment.

4. Remember that there never were any quarrels between Ruby and Oswald.

THIS IS A MATTER FROM THE INNERMOST OF A MAN'S SOUL.

I extend my regards and remain

Dear Mr. Hoover:

Shortly after the assassination of President Kennedy it was announced that facts on the assassination ani the murder of Lee H. Oswald would be published for the people of the United States. In the fourmonths since the assassination very little has been made known.

In choosinga leader to head the comnitee o this investagation "The Communist Worker" asked President Johnson to appoint Chief Justice Earl Warren as the head of it and he was chos n. Why,then, would the Communists ask the President publicly to put this man in office? The way these things appear to me is that the Communists are behind everyyhing that has happened. I think Jack Ruby was sent to kill Oswald by the Communists so he would not talk. I think there should be more emphasis placed on the investagation to get to the bottom of everything that has happened.

I,for one, would like to know more about this as many others would. If there is any imformation you could send me I would greatly appreciate it.

Dear Mr. Hoover:

In connection with the Commission's inquiry into a possible connection between the assassination of our late President, John F. Kennedy, and Jack L. Ruby, it would be helpful if your Bureau would obtain copies of all available records of the Immigration and Naturalization Service of your Department pertaining to his parents, Fannie Turrek Rutkowski and Joseph Rubenstein.

Again in regard to Ruby's possible connection with the President's assassination, it would also further the efforts of the Commission if your Bureau would review available telephone toll call records for the period beginning September 26, 1963, the date on which our late President's trip to Dallas was made public, and ending November 22, 1963, the date of his assassination, for phones: (1) listed in the name of or (2) known to be used by the members of the Ruby family. In the Commission's view these persons would include: Jack L. Ruby; Hyman Rubenstein, 1044 West Loyola, Chicago, Illinois; Sam (Rubenstein) Ruby, 11616 Jamestown Road, Dallas, Texas; Earl (Rubenstein) Ruby, 29925 Woodland Drive, Southfield, Michigan; Anna or Ann Rubenstein Volpert, 1044 West Loyal, Chicago, Illinois; Eva Rubenstein (Magid) Grant, 3929 Rawlins, Dallas, Texas; Marion or Marian Rubenstein Carroll, 1044 West Loyola, Chicago, Illinois; and Eileen Rubenstein Kaminsky, 6724 North Talman, Chicago, Illinois.

From this review by your agents the Commission would like to know where possible the date, time, duration, telephone number called, and person or entity to whom the called number is listed. In addition, any other pertinent information which may appear on the "mark sense card" indicating the person who was called and the person calling (if collect call) would be appreciated.

The Commission also desires the same information requested above for the period indicated with respect to phones: (1) listed in the names of, or (2) known to be used by the following named persons whom the Commission believes Ruby contacted at one time or another: George Senator; Curtis Laverne Crafford; Andrew Armstrong; Lewis J. In making the above requests, the Commission is aware of the information contained in your letter to Mr. Rankin dated February 24, 1964, in which you describe a similar effort as having been conducted with respect to telephones available to Jack L. Ruby covering the period between the President's assassination and Lee Harvey Oswald's death. Further, with respect to the above information in your letter, the Commission has requested me to advise you that it does desire your Bureau to arrange with the appropriate telephone companies for the preservation of all records relating to all of Ruby's toll calls made from phones listed or known to be used by him.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation

Dear Mr. Hoover:

The reports to the Commission by the Federal Bureau of Investigation show that Mrs. Ruth Paine and Mrs. Marina Oswald stayed in a motel in Texas just across the Louisiana line on or about September 23, 1963. In particular, the Report of Special Agent Gemberling dated November 30, 1963, quotes Mrs. Paine as saying that she and Marina Oswald stayed at such a motel the night of September 23, and her calendar bears a notation that she left New Orleans September 23 and arrived in Irving, Texas, on September 24.

Other information contained in various Federal Bureau of Investigation reports raises a question as to the exactness of Mrs. Paine's memory on this point. The precise date upon which these two women spent the night at this motel might assist the Commission in ascertaining the time of certain actions of Lee Harvey Oswald himself.

We would appreciate an effort by the Federal Bureau of Investigation to establish the aforementioned date with exactness by re-interview of Mrs. Ruth Paine to obtain a description of the motel and then an attempt to secure the registration records of the motel in question, or by any other means deemed appropriate by the Bureau.

Thank you for your assistance.

Sincerely,

J. Lee Rankin

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated February 24, 1964, requesting this Bureau to reinterview Mrs. Ruth Paine and to conduct any additional investigation deemed appropriate to determine the exactness of Mrs. Paine's memory regarding her stay with Marina Oswald at a motel in Texas just across the Louisiana line on the night of September 23, 1963.

On February 5, 1964, Mr. Mike Carrier, Rambler Motel, Waskom, Texas, was contacted by an agent of this Bureau in connection with another matter, at which time he advised that he and his brother, Eugene Carrier, operate this motel assisted by Mrs. Eugene Carrier.

Mike Carrier further volunteered that his brother, Eugene Carrier, had read in the newspaper of Mrs. Paine's and Marina Oswald's trip from New Orleans, Louisiana, to Dallas, Texas. In going through registration records, Eugene Carrier then discovered a card in the name of Mrs. Ruth Paine, 2515 West Fifth Street, Irving, Texas. This card was dated for September 23, 1963, for two persons in Room 10 at the rate of $6 and they were driving a Chevrolet with Texas license NK 4041. The identity of the second person is not recorded on the registration card.

Mike Carrier stated the writing on the registration card is in the handwriting of the motel guest with the exception of the "9-23-63," which is in his handwriting.

Mr. Carrier further stated he is unable to recall Mrs. Ruth Paine or the other guest who occupied Room 10 and that he has discussed this matter with Mr. and Mrs. Eugene Carrier and they also are unable to recall these particular guests. He stated that all of them have seen photographs of Lee Harvey Oswald, Marina Oswald and Jack Ruby but cannot recall any of them as having been a guest of the motel at any time.

Mr. Carrier made available the above-described registration card and requested that it be returned to him when no longer needed. A copy will be furnished to you.

The following description of the Rambler Motel is based on the observations of a representative of this Bureau. The motel is several years old and is located on the south side of U. S. Highway 80 in the east end of the business district of Waskom, Texas, approximately three blocks from the Texas-Louisiana state line. It is a one-story brick construction, "L" shaped, with one section running north and south and the other running east from this section. It contains approximately 20 connected units.

On February 28, 1964, Mrs. Ruth Paine was reinterviewed by a representative of this Bureau at which time she was exhibited a picture of the above-mentioned registration card. Mrs. Paine advised this card is in her handwriting and identified the 1963 Texas license number NK 4041 as being her license number. This license number was also observed by a representative of this Bureau on her 1955 Chevrolet four-door station wagon, two-tone green in color, at the time of this interview.

Mrs. Paine described the motel as being located on the south side of the road shortly after leaving the State of Louisiana coming into Texas; however, she did not remember the name of the town nor the name of the motel. She stated Marina Oswald was with her at the time and she believes Marina stayed in the car while she, Mrs. Paine, registered. Mrs. Paine described this motel as a ten to fifteen unit motel "L" shaped in design with one portion running north and south and the other running from the south end of the first portion directly east. She does not remember the color of the motel, but stated she and Marina occupied a room near the middle section

NI TION

which runs east from the south end of the first portion. She stated the entire motel is one story and did not appear to be new. The only parking available is in front of the entrance to the motel rooms.

The above is being furnished for the information of the Commission.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Rankin:

I am enclosing herewith two copies of the report of Special Agent Manning C. Clements at Dallas dated February 18, 1964, entitled "Jack L. Ruby, Lee Harvey Oswald - Victim, Civil Rights."

You will note that on page 39 of the above report there are set forth the results of a check of the records of the Office of the Secretary of State, State of Illinois, and the State of Illinois Liquor Control Commission with regard to the Liberty Distributing Company pursuant to your request as set forth in your letter of February 12, 1964. Further investigation is being conducted in an effort to identify and locate any available records of the Liberty Distributing Company. You will be advised of the results.

NOTE:

Two copies of report of SA Clements at Dallas dated 2/18/64 are being made available to the Commission per their request. This report has been reviewed by the appropriate supervisor, Civil Rights Section, and by Mr. Malley and Mr. Belmont. A copy is also being furnished to the Criminal Division of the Department.

The Commission by letter 2/12/64 advised that information coming to their attention indicated that in January, 1942, Ruby operated the Liberty Distributing Company in Chicago. They requested that we check and attempt to locate any records of this company's existence. We have checked the Secretary of State's Office and the Liquor Control Commission's Office for the State of Illinois. We are now attempting to trace ownership of property where company was supposedly located in order to identify company and obtain records.

BOMBING MATTER

Re Dallas teletype to the Bureau, 2/21/64.

Enclosed herewith are the original and seven copies of a letterhead memorandum pertaining to an anonymous telephone call regarding a bomb in the Courthouse, Dallas, Texas. Due to the circumstances of the call, it was considered possible that the caller was indicating that there was a bomb in the courtroom of District Judge Joe B. Brown, Sr., who at that time was presiding over the sessions of the court dealing with jury selection prior to the trial of Jack L. Ruby, charged with the murder of Lee Harvey Oswald.

No investigation is being conducted.

UNKNOWN SUBJECT; BOMB THREAT,
COURTROOM OF JUDGE JOE B. BROWN, JR.,
FEBRUARY 21, 1964,
BOMBING MATTER

On February 21, 1964, at approximately 4:40 p.m., Sheriff Bill Decker, Dallas County, Texas, advised Special Agent Bardwell D. Odum that at about 1:30 p.m. on that date, someone at the Oak Cliff Courthouse, a branch courthouse in Dallas, had received a telephone call indicating that there might be a bomb or an explosion in the courtroom of Judge Brown. Sheriff Decker stated he believes that this call was received by a clerical employee of Justice of the Peace W. E. Richburg. Joe B. Brown, Jr., is a Justice of the Peace with offices in the Oak Cliff Courthouse. His father, Joe B. Brown, Sr., is a District Court judge with offices and courtroom in the main courthouse in downtown Dallas. On February 21, 1964, Judge Joe B. Brown, Sr., was presiding over the activities involved with selection of a jury to sit in the trial of Jack L. Ruby, accused of the murder of Lee Harvey Oswald on November 24, 1963. Sheriff Decker stated that in view of these facts he caused a search to be made by his deputies of the courtroom of Judge Joe B. Brown, Sr., and also of the courtroom of Judge Joe B. Brown, Jr., in the Oak Cliff Courthouse. No bomb was found, and he stated there is no indication as to who placed the anonymous call. Sheriff Decker advised that Chief Jesse Curry of the Dallas Police Department was aware of the telephone call and had been in contact with him.

On February 21, 1964, Lieutenant Colonel Roy H. Pate, Regional Commander, Intelligence Corps Group, United States Army, Dallas, Texas, was advised of the facts regarding this telephone call at 5:00 p.m., by Special Agent Kenneth H. Howe.

On February 24, 1964, W. E. Richburg, Justice of the Peace, Dallas, Texas, advised that he had first thought that the call regarding a bomb was received by a clerical employee in his office and that he so advised Sheriff Bill Decker. He stated that he has now ascertained that the call was actually received by a clerical employee of Justice of the Peace Joe B. Brown, Jr.

TION

On February 21, 1964, Mildred Polk, Clerk in the office of Justice of the Peace Joe B. Brown, Jr., Oak Cliff Courthouse, Dallas, Texas, furnished the following information to Special Agent Bardwell D. Odum:

At about 1:30 p.m. on Friday, February 21, 1964. the phone rang in the office of Judge Joe B. Brown, Jr., and no one else was in the office. Polk answered the phone with "Judge Brown, Jr.'s court." The person speaking was at first unintelligible to her because of an accent of some sort and she requested that this caller, a man, repeat what he had said. This time she heard the man say, "I think you should know there is a bomb in the courthouse." She immediately asked the caller if he meant the courthouse in Oak Cliff or the courthouse downtown, some three miles away. The caller did not reply and instead, hung up. She stated that she immediately notified the police dispatcher for the Dallas Police Department of the call.

Mildred Polk described the caller as a man and was sure he was not a juvenile and described the accent used by the caller as probably a Spanish accent but possibly a French accent. She further stated that she feels that the caller may have thought he was connected with the office of Judge Joe B. Brown, Sr., who is scheduled to preside over the trial of Jack L. Ruby, who is charged with the murder of Lee Harvey Oswald. She stated that she based this partly upon the fact that Justice of the Peace Joe B. Brown, Jr., has had very little, if recent, publicity, but that the activities in connection with the selection of a jury for Ruby received daily and hourly attention by the news media. She also noted that the classified telephone directory for the City of Dallas under County Offices has Judge Joe B. Brown, Jr., listed at the top.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency. It and its contents are not to be distributed outside your agency.

Oswald Wife's Agent Here; Still Holds Job, He Says

By MIRIAM OTTENBERG
Star Staff Writer

James Martin, business agent for Mrs. Marina Oswald, testified today before the presidential commission investigating the assassination of President Kennedy.

Chief Justice Earl Warren, commission chairman, said that Mr. Martin was called because of his close association with the Lee Harvey Oswald family immediately after the assassination.

Oswald, suspected killer of President Kennedy, was himself slain less than two days after the assassination and his widow, Marina, moved into the motel where Mr. Martin was assistant manager.

Still Holds Job

There have been reports that Mr. Martin, who has been handling contracts for Marina's memoirs, is no longer her business agent. Mr. Martin, asked about these reports today, told reporters, "I am her business agent as of now."

Chief Justice Warren, who swore in Mr. Martin as a witness and remained at the hearing for an hour before the Supreme Court opened, said the questioning had not reached the point of Mr. Martin's present association with Marina.

Mr. Martin was asked before the hearing to comment on reports from Texas that he claimed to have evidence that Oswald had intended to shoot former Vice President Nixon, who was in Dallas the day before President Kennedy was shot.

Has No Evidence

Mr. Martin said he had only heard about the Nixon story yesterday, had no evidence to support it and had not given any information about it to the commission.

Asked if the source from which he heard the Nixon story was reliable, he replied shortly: "No."

In another development, two Washington attorneys reported to the commission's headquarters today.

They were Charles S. Rhyne, former president of the American Bar Association, and Charles B. Murray, former assistant attorney general in charge of the criminal division, longtime Assistant United States Attorney here and now director of the Legal Aid Agency, which represents indigent defendants in criminal cases here.

Work With Craig

Chief Justice Warren said Mr. Rhyne and Mr. Murray would be associated with Walter E. Craig, president of the American Bar Association, who, in effect, has been named by the commission to represent Oswald.

The commission announced Tuesday that it felt an attorney independent of the commission should examine every facet of the case pointing toward Oswald's involvement and advise the commission "so that it may not overlook any proper consideration in determining that the test of truth has been met in accordance with American principles of justice."

The "Evening Star" of 2-27-64, contained an article indicating that the two captioned individuals have been associated with Walter E. Craig, President of the American Bar Association, who has been named by the Commission to represent Lee Harvey Oswald. Craig was the subject of a memorandum from you to Mr. Belmont dated February 26, 1964, which indicated in substance that Bureau files had no derogatory information concerning him. He was the subject of a Departmental Applicant investigation in 1963.

Charles S. Rhyne was born at Charlotte, North Carolina, June, 1912. He received his LL.B degree from George Washington University in June, 1937, and was awarded an Honorary LL.D degree by Duke University in 1958. Rhyne has conducted a very successful law practice as a senior member of Rhyne and Rhyne, with offices in Washington, D. C. He has been a lecturer in the Graduate School of American University and also at George Washington University. He was President of the District of Columbia Bar Association in 1955 and 1956, and President of the American Bar Association (ABA) in 1957 and 1958. He is the youngest person to have served as President of the ABA.

We conducted an applicant-type investigation of Rhyne in early 1960, at the request of the White House, when he was being considered as a panel member of the President's Science Advisory Committee. This investigation was highly favorable and no information which would reflect on his character, loyalty, or ability as an attorney was disclosed. Rhyne has been described as one of the outstanding lawyers in this country, both professionally and as a leader of the profession. He strongly advocates the principle of "rule of law" as a means for attaining lasting peace and is known internationally as standing for this precept. His moral character and reputation are exemplary.

The Director has had considerable cordial correspondence with Rhyne since 1957, and Rhyne has indicated in his letters to the Director what an outstanding job he believes the Bureau is doing in fighting communism. Mr. Rhyne is on the Special Correspondence List.

Mr. Rosen from Scatterday

Charles Murray was born in Washington, D. C., in 1899. He received his law degree from Georgetown University in 1923. He served as Assistant United States Attorney for the District of Columbia from 1927 to 1952. Thereafter, he was appointed Assistant Attorney General in charge of the Criminal Division until 1953, when he took up private practice in the District. He has been Chairman of the District of Columbia's Legal Aid Agency since 1960.

We conducted a Departmental Applicant investigation of Murray in 1942. No derogatory information was developed concerning him. He was very highly respected by Special Agents of the Bureau who came in contact with him and our relations with him while he was associated with the Department were excellent. We have had a good deal of cordial correspondence with him in the past. He was elected President of the District of Columbia Bar Association in 1954 and has, on many occasions, expressed his high regard for the Bureau and the Director.

Senator Joseph McCarthy (deceased) made allegations before the Senate Appropriations Committee in 1954, charging Murray with involvement in a violation of the espionage laws. Murray had allegedly contacted Drew Pearson and given him a complete file on matters involving his alleged violation of the Espionage Act. Senator McCarthy advised Bureau Agents he had received the information from Roy Cohn, Counsel of the Senate Permanent Subcommittee on Investigations. However, efforts to interview Roy Cohn were not successful and the allegations were never substantiated.

The Director has met Murray on more than one occasion. In 1959, the Director furnished a statement to Murray concerning capital punishment. At that time, Murray was Chairman of the Judicial Conference of Federal Courts. It was noted that Murray is opposed to the abolition of capital punishment. (77-21643-62-42642; 94-52453)

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
REQUEST OF THE PRESIDENT'S COMMISSION

This morning Special Agent (SA) Lyndal L. Shaneyfelt received a telephone request from Secret Service Agent John Hawlett who has been participating in the review of assassination films with Bureau representatives at The Commission. Mr. Hawlett asked whether or not the FBI could furnish him a copy of the Nix film since he had requested a copy of the film from Mr. Nix and found Mr. Nix's copy is very poor and would not render as good a copy as one we could furnish.

Since the Secret Service has been extremely cooperative in connection with other matters in this investigation and did furnish the Bureau with copies of the Zapruder film of the assassination, we will make a copy of the Nix film for Agent Hawlett, if you agree.

RECOMMENDATION: That a copy of the Nix film be prepared and furnished to Secret Service Agent John Hawlett.

Memorandum Branigan to Sullivan 2/26/64 re "Lee Harvey Oswald," indicated that Rankin on 2/25/64 advised Inspector Malley he would like to have recordings of appearances of Lane and that on 2/26/64 Howard Willens of the President's Commission requested similar coverage of Marguerite Oswald. By letter to Rankin 2/26/64 we advised of plans to cover future appearances of Lane and Oswald and enclosed communications from New York and Milwaukee Offices on past appearances of Lane. Letter to Commission classified "Confidential" as enclosures to this letter are so classified. to protect information from [redacted] and other security informants which if disclosed could result in the identification of the sources, jeopardize their future status and do irreparable harm to the national security.

Dear Mr. Rankin:

A confidential source who has furnished reliable information in the past has advised that Marina Oswald was in contact with William A. McKenzie, her attorney, on March 2, 1964. According to our source, Mr. McKenzie informed Marina Oswald that he had been in contact with John M. Thorne and Mr. Thorne's partner, Mr. Leach. Mr. McKenzie told Marina that Thorne and Leach want $40,000 for their work and that James Herbert Martin wants $20,000.

Our source further advised that Mr. McKenzie asked Marina Oswald if she would settle for $7,500 each. Marina Oswald was concerned over such proposition and asked Mr. McKenzie whether the money would come from donations. Mr. McKenzie advised her that it would. Marina Oswald then informed Mr. McKenzie that she would have to think the proposition over.

Memorandum

TO : Mr. Belmont DATE: 3/4/64

FROM : A. Rosen

SUBJECT: JACK L. RUBY, AKA.
LEE HARVEY OSWALD, AKA. - VICTIM
CIVIL RIGHTS

Mr. Rankin of the President's Commission by letter dated March 2, 1964, has requested that we obtain copies of all available records of the Immigration and Naturalization Service (INS) pertaining to Ruby's parents, Fannie and Joseph Rubenstein. It is also requested that we obtain for the Commission all available toll calls for telephones of all members of Ruby's immediate family (Ruby has three brothers and four sisters.) and twelve acquaintances and employees of Ruby, for period 9/26/63 to 11/22/63.

We previously checked INS records, Washington, D. C., on December 3, 1963, and INS records, Chicago, Illinois, on December 2, 1963, which reflected that Ruby's father, Joseph Rubenstein, entered this country at New York in 1903 and reported himself as a former subject of Russia. Ruby's mother, Fannie Rubenstein, entered this country at New York in June, 1905, and reported herself as a former subject of Poland. Ruby's oldest brother, Hyman Rubenstein, who was born at Warsaw, Poland, entered the United States in June, 1904, at New York and he was naturalized in Chicago, Illinois, July 9, 1926. Ruby's oldest sister, Ann Volpert nee Rubenstein who was born in Austria-Hungary in 1904, entered the United States at New York in June, 1905, with her mother. She was naturalized at Chicago on November 5, 1963. Full details of all information from INS were furnished to the President's Commission by report of SA Manning C. Clements dated 12/14/63.

RE: JACK L. RUBY, AKA.

As was noted in Commission's letter of March 2, 1964, we have previously obtained and reported to the Commission available toll call data on telephones available to Jack Ruby for as far back as they were in existence with specific emphasis on the time that the calls were made between the dates of the President's assassination on November 22, 1963, and the shooting of Lee Harvey Oswald on November 24, 1963.

ACTION:

1. Instructions are being issued to the field to obtain copies of the INS records relating to Ruby's parents Joseph and Fannie Rubenstein. Copies of INS records relating to Ruby's older brother and sister who were not born in this country will also be obtained and furnished to the Commission.

2. Instructions are also being issued to the field to immediately obtain the telephone toll call data from telephones of Ruby's brothers and sisters and those associates and acquaintances named and results will be promptly submitted to the Commission.

FROM : A. Rosen

SUBJECT: LEE HARVEY OSWALD, AKA.
IS - R - CUBA

PURPOSE:

To recommend that authority be granted to re-interview Marina Oswald's new attorney, William A. McKenzie to obtain his permission to advise the Commission of statements he made to this Bureau in confidence concerning the actions of one of its staff.

BACKGROUND:

By memorandum dated 3/3/64 I advised you that McKenzie had been interviewed by our Dallas Office concerning an alleged statement he made to the Commission that animosity existed between the Secret Service and our Dallas Office. McKenzie in unmistakable clear terms categorically denied the allegation and in fact praised the Bureau and the Secret Service for the job they were doing in this matter. The Commission was furnished the above information by letter dated 3/3/64.

DETAILS:

While being interviewed on 2/28/64 concerning the above matter, McKenzie stated he wanted to advise the Bureau, on a confidential basis, of certain information which he felt would be of interest to us. McKenzie pointed out he did not want to become involved in any unpleasantness with the Commission since it is possible he may have to appear before the Commission again.

McKenzie related that while representing Robert Lee Oswald at the President's Commission on 2/20, 21, and 22/64 one of the assistant legal counsels, Burt Jenner (Albert E. Jenner, Jr.), did a great deal of questioning of Robert Oswald. McKenzie stated some of Jenner's questions were calculated to obtain the answer that Jenner desired, for example, he recalled Jenner asking the question two or three times "Did the FBI ever harass you during the course of the interview of you or Marina Oswald?" While not recalling the exact terminology of other questions asked by Jenner, he indicated he did not like the vein in which they were asked and were couched such as "Do you think the various agencies such as the FBI and the Secret Service are doing a good job or if not, what do you think is the trouble?"

McKenzie states on 2/21/64 while he and Robert Oswald were returning from lunch he was approached by a writer for the "New York Times" for an interview. McKenzie states he told this writer that he could not answer any questions at which time the writer indicated he was waiting for Mr. Jenner. McKenzie states he subsequently observed Jenner talking with the writer from the "New York Times" and that on the following Saturday, 2/22/64, an article appeared in the "New York Times" by the same writer wherein certain erroneous statements were attributed to the testimony of Robert Oswald.

During the Commission's session on Saturday, 2/22/64, only one member of the Commission was present, namely Mr. Allen Dulles. At this session Jenner did most of the questioning. McKenzie stated after seeing the article in the "New York Times" he told Mr. Dulles one of the staff members was "leaking" information and if this information was to be "leaked" to the press, about what his client testified to, then he, McKenzie, would immediately stop Oswald from testifying. McKenzie continued that he advised Mr. Dulles he was fairly certain who the person was who leaked the information and further that that person was now present. According to McKenzie Jenner's face flushed and it was observed Jenner became angry although he did not say anything. According to McKenzie Mr. Dulles agreed with him that if this information was being leaked from the Commission further testimony should be halted but he assured McKenzie there would be no further leaks to the press.

Memorandum to Mr. Belmont
RE: LEE HARVEY OSWALD

On Monday, 2/24/64, McKenzie related that Mr. Rankin telephonically contacted him in Dallas and stated "Bill, I understand that you know who is the person on the Commission's staff who is leaking to the press." McKenzie stated he informed Rankin that in his own mind he was satisfied he knew who this person was, but since he could not prove it he refrained from naming the individual. McKenzie concluded by indicating on another occasion while at the Commission during the beginning of Robert Oswald's testimony, he, McKenzie, was called into Rankin's Office with another attorney whose name he does not recall. At this conference Mr. Rankin stated "Bill, the Chief Justice wants to know about you," whereupon McKenzie replied, "Yes, I would like to know something about the Chief Justice." McKenzie stated he did not mean this in a facetious manner but stated he was not of the same political philosophy as the Chief Justice and this was made clear to Mr. Rankin.

NEW YORK TIMES ARTICLE:

The United Press International (UPI) under date of 2/22/64 reported that Robert L. Oswald and his attorney William A. McKenzie appeared before the President's Commission on this date and both Oswald and McKenzie charged that a published report of Oswald's purported secret testimony before the Commission was false. According to UPI, a story in the "New York Times" said that Oswald told the Commission he believed his brother Lee Harvey Oswald had been trained as a communist agent during a two year period when the younger Oswald had defected to the Soviet Union.

The UPI continues that Allen Dulles had angrily stated that the above statement was not in the testimony and that he denied the statement was ever made. Mr. Dulles indicated he would discuss this story with Chief Justice Earl Warren and other Commission members.

Attorney McKenzie is reported to have read a lengthy statement to newsmen in which he charged that the "New York Times" article was filled with "irresponsible inaccurancies," and that neither he nor his client revealed any testimony and would not do so. Attorney McKenzie is reported to have charged that one statement in the "New York Times" article in which Robert Oswald was quoted as believing his brother's denial of guilt in President Kennedy's death was "grossly untrue." McKenzie is quoted as stating "misleading, careless and inaccurate printing of the news by any responsible news media violates in my mind every principle of a free press."

Memorandum to Mr. Belmont
RE: LEE HARVEY OSWALD

ALBERT E. JENNER, JR.

Bureau files reveal the following concerning Albert E. Jenner, Jr., a member of the Commission's staff. He was born in Chicago, Illinois, in 1907, educated at the University of Illinois and admitted to the Illinois Bar in 1930. No investigation has been conducted by this Bureau concerning him. He has served as a Special Assistant Attorney General of the State of Illinois since 1956, and is a member of the U. S. Supreme Court Advisory Committee on Federal Civil Rules.

An informant who has furnished reliable information in the past advised that one Albert E. Jenner, Jr., of Chicago, was a member of the National Lawyers Guild in 1940, which guild had been cited as a communist front by the Special Committee on Un-American Activities in its report issued 3/29/44.

It would not appear that permitting us to present this information to Mr. Rankin would result in his being treated any differently by the Commission in the future in view of his comments to Mr. Rankin concerning Chief Justice Warren and his statement concerning the "New York Times" article before the Commission.

RECOMMENDATIONS:

1. That the attached communication be sent to Dallas instructing re-interview of Attorney McKenzie to seek his permission to disseminate the information furnished by him to the Commission.

O.K. H.

2. This matter will be closely followed at the Bureau and if Attorney McKenzie permits us to disseminate the information furnished by him, the Commission will be promptly advised.

O.K.

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY, 11/22/63
DALLAS, TEXAS

PURPOSE:

To advise that a proposed amendment has been made by joint resolution "House Joint Resolution 926" (H. J. Res. 926) to Public Law 88-202, which authorized the President's Commission. The resolution amendment provides that information relating to the late president's assassination shall be made public.

BACKGROUND:

On February 18, 1964, in the House of Representatives, a joint resolution was introduced which was referred to the Committee on the Judiciary. The purpose of the resolution provides that information relating to the assassination of the late President Kennedy shall be made public. The amendment in question is an addition to public law 88-202, approved December 13, 1963, which established the President's Commission.

The amendment which will be known as Section 2 stipulates that a record shall be kept of the proceedings of the commission and in substance assures that all matters under investigation by the commission will be open to public inspection upon completion of work of the commission, together with its findings and conclusions.

February 29, 1964

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY,
11/22/63, DALLAS, TEXAS

On February 28, 1964, Mrs. RUTH PAINE, 2515 W. 5th Street, Irving, Texas, furnished the following information to SAs Bardwell D. Odum and James P. Hosty:

Sometime in the latter part of January or early part of February, 1964, she received a telephone call from Mrs. Shirley Martin. Mrs. Martin stated she was in Dallas and would like to know if she could come out to talk to Mrs. Ruth Paine about the assassination of President John F. Kennedy. Mrs. Paine told her to come on out.

A short time later, Mrs. Martin arrived at Mrs. Paine's residence in Irving with her (Mrs. Martin's) four children, ages 9 through 18, and dog. She spent about two hours at Mrs. Paine's home questioning her about Lee Harvey Oswald and about the assassination of President Kennedy in general. Mrs. Paine told her what she knew about Oswald. Mrs. Martin indicated she was conducting her own investigation of the assassination and had come to Dallas from Hominy, Oklahoma, for this purpose. Mrs. Martin stated that while her husband did not approve of her venture she was not convinced that Lee Harvey Oswald had shot President Kennedy although at the same time she was not convinced he had not killed him.

Mrs. Martin stated she felt the evidence was not fully incriminating as far as Lee Harvey Oswald was concerned and she wanted to satisfy herself as to the facts. She indicated she had spent most of her time in Dallas retracing the route of Oswald following the shooting of President Kennedy and had timed the alleged escape route of Oswald following the shooting.

Mrs. Martin stated she did not believe the gun photographed at the police department was the same gun which was being held by Oswald in a picture released to the press later. She referred to a photograph taken sometime prior to the assassination showing Oswald holding a rifle.

Since the date of her contact with Mrs. Paine, Mrs. Martin has called on the telephone from her home in Hominy, Oklahoma, many times and has written almost daily letters to Mrs. Paine all along the same line, looking for inconsistencies in the case and seeking to find out why Oswald shot President Kennedy if such was the case.

Mrs. Paine characterized Mrs. Martin as a "bright nut," explaining that Mrs. Martin has an excellent mind up to a certain point but in her opinion reaches certain conclusions, which may be foregone conclusions, in spite of the evidence.

RE ESUR OF MARINA OSWALD.

[redacted] ADVISED THAT ON THE NIGHT OF MAR TWO LAST MARINA TOLD KATHERINE FORD THAT MC KENZIE WANTS TO TAKE MARINA'S CASE TO COURT. MARTIN TOLD MC KENZIE THAT MRS. MARTIN HAD BEEN LIKE A SERVANT TO MARINA (WHEN MARINA LIVED WITH MARTINS). MRS. FORD WAS OF OPINION THAT MRS. MARTIN MUST HAVE NOTICED "SOMETHING WAS GOING ON" BUT BECAUSE OF THE MONEY INVOLVED THOUGHT SHE "WOULD LET HIM PLAY." MARINA AGREED, TELLING MRS. FORD "ONE HAS TO BE A FOOL NOT TO NOTICE SOMETHING." MARINA WANTS TO TAKE THE CASE TO COURT. MARINA SAID MCKENZIE TOLD HER MARTIN WANTED TO TELL THE COMMISSION WHAT HAPPENED IN WASHINGTON, BUT WARREN DID NOT EVEN WANT TO HEAR ABOUT IT AND DOES NOT WANT IT TO BE IN THE REPORT. WARREN TOLD MARTIN, ACCORDING, TO MARINA, THAT THIS DOES NOT PERTAIN TO THE CASE AND FOR HIM TO BE SILENT ABOUT IT. MRS. FORD THINKS THORNE AND MARTIN MAY HOLD THIS OVER MARINA'S HEAD AS A THREAT. MARINA SAID IF MARTIN SPEAKS IN COURT EVERYONE WILL FIND OUT WHAT KIND OF A MAN HE IS. MRS. FORD IS OF THE OPINION THORNE RATHER THAN MARTIN MAY DISCLOSE WHAT HAPPENED IN WASHINGTON

LATER ON NIGHT OF MARCH TWO LAST MARINA CONTACTED KATHERINE FORD STATING SHE MIGHT LIKE TO CONTACT GEORGE BOUHE (RETIRED ACCOUNTANT PREVIOUSLY INTERVIEWED IN THIS INVESTIGATION). MARINA SEEMED CONCERNED, AND ASKED MRS. FORD NOT TO RESENT THIS AND NOT TO THINK SHE WILL BE ASKING BOUHE FOR ADVICE BUT INDICATED SHE IS LONELY. SHE STATED BOUHE MIGHT VISIT HER.

INFORMANT ADVISED MARINA CONTACTED BOUHE AND INVITED HIM OUT FOR A CUP OF TEA. BOUHE DECLINED, STATING IT WAS TOO LATE AND THIS WAS NO TIME FOR MEN TO COME TO SEE MARINA. BOUHE INDICATED MRS. FORD IS VERY ANGRY WITH HIM. MARINA TOLD BOUHE SHE THINKS THERE WILL BE A COURT SUIT, AND MENTIONED THAT THORNE AND LEECH ARE ASKING FORTY THOUSAND DOLLARS AND MARTIN IS ASKING TWENTY THOURSAND DOLLARS. BOUHE ASKED IF DECLAN FORD IS HER MANAGER, AND MARINA ADVISED SHE HAS NO OFFICIAL MANAGER BUT MAY USE FORD AS ONE. MARINA SAID SHE TOLD MCKENZIE HE IS EXPENSIVE, AND MCKENZIE TOLD HER THE ONLY REASON HE SITS IN DURING FBI INTERVIEWS IS TO LEARN MORE DETAILS WHICH MAY BE OF HELP TO HIM IN THE FIGHT WITH MARTIN. MARINA THINKS THORNE WOULD PREFER A SETTLEMENT. SHE THINKS MARTIN USED HER MONEY TO FEED HIS FAMILY DURING HIS UNEMPLOYMENT PERIOD. BOUHE MENTIONED HE IS NOT WORKING NOW AND IS RETIRED BUT HAS TWELVE CLIENTS COMPRISED OF BANKERS, LAWYERS,

AND GEOLOGISTS. HE IS SIXTY YEARS OF AGE AND DOES HIS WORK AT HOME. MARINA INDICATED THAT ANNA RAY WOULD BE OVER ON THE MORNING OF MAR THREE SIXTYFOUR, FOR A VISIT. MARINA THINKS DECLAN FORD IS HONEST AND A GOOD BUSINESSMAN. BOUHE INDICATED IT IS STRANGE THAT THE FORDS APPEAR TO BE ANGRY WITH HIM. INFORMANT SAID MARINA WOULD NOT GIVE BOUHE HER PHONE NUMBER, AND BOUHE TOLD HER HE DID NOT WANT TO MEET WITH HER IN THE PRESENCE OF THE FORDS. BOUHE THEN MENTIONED LEVINE, WHO WRITES FOR MEREDITH PRESS, AND SAID HE WOULD TRY TO VISIT MARINA MARCH THREE.

INFORMANT SAID HE LEARNED LATER MRS. FORD CONTACTED MARINA AGAIN MARCH TWO, AND WAS APPARENTLY UPSET WITH MARINA BECAUSE OF MARINA'S CONTACT WITH BOUHE. MARINA ASSURED MRS. FORD SHE DOES NOT INTEND TO TO TAKE BOUHE'S ADVICE. MRS. FORD APPEARED VERY INTERESTED IN MARINA'S DISCUSSION WITH BOUHE. MARINA WAS TROUBLED THAT MRS. FORD WAS UPSET BECAUSE OF BOUHE. MRS. FORD REMINDED MARINA THAT SHE HAD PROMISED NOT TO TALK WITH BOUHE WITHOUT A THIRD PARTY PRESENT. MRS. FORD SAID DECLAN FEELS HE CANNOT GIVE MARINA ADVICE SINCE A BIT LATER SOMEONE ELSE GIVES HER OTHER ADVICE. MARINA SAID SHE WILL LISTEN TO NO ONE EXCEPT DECLAN, AND SHE WANTS DECLAN TO BE HER MANAGER. SHE POINTED OUT TO MRS. FORD THAT THE FACT DECLAN WILL BE HER MANAGER DOES NOT MEAN SHE CANNOT SPEAK TO ANYONE ELSE. MRS. FORD SAID THAT LEVINE GIVES IMPRESSIONS THAT THEY HAVE SOME SORT OF ORAL UNDERSTANDING FOR MARINA'S WRITING. MARINA BELIEVES SHE DOES NOT WANT LEVINE

TO HANDLE HER WORK. MARINA GAVE MRS. FORD HER WORD SHE WILL NOT SIGN ANY CONTRACTS WITHOUT DECLAN FORD. SHE ADDED SHE DOES NOT INTEND TO HAVE ANY DISCUSSIONS WITH LEVINE ANY MORE. MARINA TOLD MRS. FORD SHE ASSURED MC KENZIE SHE TRUSTS HIM AND WANTS TO RETAIN HIM AS HER ATTORNEY.

INFORMANT SAID THAT LATER ON MAR TWO MARINA AGAIN CONTACTED GEORGE BOUHE AND TOLD BOUHE NOT TO GIVE LEVINE HER ADDRESS, THAT SHE DOES NOT WANT LEVINE BOTHERING HER.

INFORMANT ADVISED THAT LATER ON THE NIGHT OF MAR TWO DECLAN FORD VISITED MARINA AT HER RESIDENCE.

INFORMANT STATED DECLAN FORD CONTACTED ILYA MAMANCOV IN RICHARDSON, TEXAS, (MAMANCOV PREVIOUSLY INTERVIEWED). FORD ASKED IF ILYA WAS CALLED AS A TRANSLATOR FOR MARINA DURING THE EARLY DAYS OF THE INVESTIGATION. ILYA SAID HE WAS THERE THE FIRST DAY, FRIDAY NIGHT AFTER THE ASSASSINATION. FORD WAS INTERESTED IF ILYA HAD EVER TRANSLATED CONTRACTS BETWEEN MARTIN AND MARINA. ILYA SAID MARTIN TOLD HIM SHE UNDERSTANDS ENGLISH PRETTY WELL AND UNDERSTANDS SHE DOES NOT NEED A TRANSLATOR. ILYA SAID HE DOES NOT BELIEVE MARINA KNOWS ENGLISH THAT WELL. INFORMANT STATED FORD APPEARED TO BE PREPARING A DEFENSE FOR MARINA IN THAT ILYA HAD OFFERED HIS SERVICES AS A TRANSLATOR FOR MARINA BUT MARTIN HAD TURNED THIS SERVICE DOWN.

DL 100-10461

INFORMANT ADVISED MARINA SPEAKS VERY LITTLE ENGLISH BUT APPARENTLY IS ABLE TO UNDERSTAND AND COMMUNICATE WELL ENOUGH TO GET ALONG WITH ENGLISH CONVERSATIONS. HE POINTED OUT THAT ALL CONVERSATIONS BETWEEN MRS. FORD, BOUHE, AND MARINA ARE IN THE RUSSIAN LANGUAGE.

ON MORNING OF MAR THREE LAST, AGENTS OBSERVED WHITE MALE, WHITE FEMALE, AND SMALL CHILD, DRIVING CAR REGISTERED TO POLLOCK RAY, VISITING MARINA AT HER RESIDENCE.

ROBERT OSWALD WITH WHITE FEMALE AND CHILD OBSERVED BY AGENTS VISITING MARINA AT HER RESIDENCE FROM SIX THIRTYNINE PM TO EIGHT THIRTYTHREE PM ON MARCH THREE LAST.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated February 18, 1964, relating to Mrs. Shirley Martin of Hominy, Oklahoma, and our reply to your letter dated February 26, 1964. In our letter of February 26, 1964, you were advised we were making efforts to obtain the original of a photograph appearing on page 25 of the December 14, 1963, issue of "The Saturday Evening Post." In addition, it was pointed out the results of an interview with Mrs. Ruth Paine of Irving, Texas, concerning her knowledge of Mrs. Martin would be furnished.

Enclosed for your assistance are two copies of a self-explanatory communication from our Dallas, Texas, Office dated February 29, 1964, relating to the interview with Mrs. Paine.

On February 27, 1964, Mr. Don A. Schanche, Managing Editor of "The Saturday Evening Post," 666 Fifth Avenue, New York, New York, advised he had been contacted by you approximately two weeks previously and at that time furnished you with several various size photographic prints reproduced from the original negative of the photograph in question. In view of the above and in the absence of a specific request from you, no further effort will be made to obtain the original negative from Mr. Schanche.

This concludes our inquiry into the above matters.

Sincerely yours,

NOTE: See Rosen to Belmont memo captioned, "Assassination of President John F. Kennedy, 11/22/63, Dallas, Texas," dated 2/25/64, RDR:vhm, for full details.

Briefly, Commission by letter 2/18/64 advised it had received several communications from Mrs. Martin with whom we have had prior unsatisfactory dealings. Mrs. Martin apparently displayed an interest in Mrs. Paine. The Commission requested background on Mrs. Martin. In addition, we furnished the Commission a photographic copy of page 25 of the Post wherein a figure had been identified by Mrs. Martin as the "assassin." By letter 2/26/64 to the Commission, we advised Mrs. Paine was to be interviewed and that we were endeavoring to obtain the original of the photograph.

Dear Mr. Hoover:

Thank you for your letter of February 26, 1964, enclosing various items requested in my letter of February 21, 1964.

In your letter you refer to the translation of Item B-6 furnished to the Commission under letter of February 1, 1964. Item B-6 consists of a secretarial notebook containing columns of simple Russian vocabulary words and their Spanish equivalents. The translation to which you refer simply reported this fact, and did not translate the actual words. We would appreciate it if you could furnish us with a full translation of Item B-6.

Sincerely,

Dear Mr. Hoover:

As you know, one of the pieces of evidence inventoried by your Bureau and submitted to the Commission is the enclosed address book found at the residence of Lee Harvey Oswald after his apprehension.

An examination of the booklet shows that the many different entries in the booklet were made with different inks and pens. A particular example, and one which relates to Oswald's Mexican trip shortly before the assassination of our late President, appears on one of the pages reserved for entries under the Russian equivalent for our letter "K".

In connection with this page, it appears to the layman's eye that the great majority of the words written thereon were written with the same ink pen and not in Oswald's handwriting. However, the entry "Sylvia Duran" seems to have been inserted later, apparently by Oswald, with a dark blue ball point pen. Another entry apparently was added - perhaps by Oswald - with a lighter blue ball point pen. This appears to be an alternate telephone number of the Soviet Embassy in Mexico City. On this page there is also the matter of an overwriting - again probably by Oswald with a ball point pen - of four numerals which appear to have been originally written with the ink pen previously referred to.

The Commission believes that some possibly valuable information might be obtained from an analysis resulting in a determination as to which entries in the address book were made with the same inks.

In this way, relationships between different entries and connections between names, addresses and telephone numbers which are not otherwise apparent, might be brought to light by such an analysis. So too, this pen and ink analysis might profitably be extended to other documents such as Oswald's registration at the Hotel Del Comercio in Mexico City. Profit would be realized, for example, if it could be determined that Oswald used the same ball point pen to write the "Sylvia Duran" entry which he used to write his hotel registration. Such a development might tend to demonstrate that he met Duran before he registered at the hotel.

We, of course, will be guided by your advice as to the practicalities involved and solicit your suggestions in the matter.

DATE: March 5, 1964

FROM : C. F. Downing

SUBJECT: LEE HARVEY OSWALD, aka.
IS - R - CUBA

By letter dated 3/2/64, J. Lee Rankin, General Counsel, The President's Commission, referred three foreign language letters for translation, which had previously been received by the Commission.

One letter in Spanish was written by Juan Perez, Piedras 676, Buenos Aires, Argentina, who expresses the general love for President Kennedy and the feeling that Oswald was, indeed, the assassin and that "many of us are potential assassins of Oswald."

Another letter in Swedish was written by Malcolm C. Karlsson, Hedemora, Sweden and enclosed newspaper clippings on how the case (sic) is felt in Europe. The clippings possibly from a Stockholm newspaper, issue of 2/15/64, are entitled "Sensational Facts About the Murder in Dallas" and pertain to a "private investigation in Dallas" by Attorney Mark Lanne, whose story allegedly appeared in the "National Guardian" and dealt with the "legend of the Dallas police."

A third letter, actually consisting of two letters in German, one addressed to Mr. Earls Warrens and the other to Rubinstein ("Jack Ruby") was anonymously written. Both are highly incoherent, completely confused, and evidence anti-Semitic feelings.

Dear Mr. Rankin:

Reference is made to your letter of February 25, 1964, with which you enclosed a small address book covered in gray plastic, Item B-29 (Commission Exhibit 18), with a request for certain specified analyses of entries appearing therein.

In general, inks are not susceptible to identification one with another. Scientific analysis will disclose differences or that dye composition is similar; however, similarity of composition would not establish that the same pen or the same ink was used in preparing two questioned writings. Since ink identifications are not scientifically possible, no effort has been made to compare the various inks in the address book Item B-29. While no ink identifications are possible, we have made certain other examinations in response to your inquiry regarding the specific writings in the address book which you cited as examples.

MAR 4 1964
COMM-FBI

The figures, "(15 60 55)," and the overwritten figures, "35 56," in ball-point pen ink were not written with the ball-point pen cartridge used to write the name, "SYLVIA DURAN," on the page to which your letter made reference.

It has not been possible to determine whether the figures, "(15 60 55)," and the overwritten figures, "35 56," were or were not written with the same ball-point pen cartridge. A further determination would require removal of small samples of these inks from the page. This may prove the two to be different or that their dye composition is similar. However, as previously stated, similarity of composition would not be sufficient to establish that the same pen or ink was used.

Memorandum Griffith to Conrad dated 3/3/64

Honorable J. Lee Rankin

Under microscopic examination, there were observed some indications that the name, "SYLVIA DURAN," in blue ball-point pen ink was added after the drawn horizontal line in black which it touches.

It was concluded that the hand printed name, "SYLVIA DURAN," in ball-point pen ink on this page was hand printed by Lee Harvey Oswald.

It was concluded also that the hand printing in black ink reading, "MEXICO CITY; CONSULADO de CUBA ZAMORA Y F MARQUEZ 11-20-47..." and ending at the bottom of the page "...1 Peso = .08¢, coins 1-5 Pesos," was hand printed by Oswald.

The original of the hotel registration in Mexico City, Item D-36, has not been submitted to the Laboratory. It is part of a bound volume of such registrations in which the guest enters his signature, et cetera, on a line. However, a photograph of this is available in the Laboratory. For your information, the FBI Laboratory has compared the "Lee Harvey Oswald" signature on a photocopy of this page of registrations and determined from a handwriting analysis that this signature was written by Lee Harvey Oswald. In view of the scientific limitation with respect to ink identification, it would appear an examination of the original registration book would not be productive. However, if you so desire, we will explore the possibility of obtaining possession of the original registration book for any scientific examination you would like for us to undertake.

The booklet, Item B-29 (Commission Exhibit 18), is attached. Photographs of the cover of this booklet and of the page referred to above have been made.

Sincerely yours,

J. Edgar Hoover

ADDENDUM FOR DALLAS: Item B-29 (Commission Exhibit 18), is designated in the Laboratory as Q495. Item D-36, the Mexico City hotel registration, is designated in the Laboratory as Qc333.

Four photographic copies of Item B-29, as described, are attached. These should be handled by Dallas in accordance with existing instructions. For details of these instructions, see Laboratory Transmittal Forms dated 2/18/64, 2/19/64, and others.

Dear Mr. Hoover,

It has puzzled me for some time why the Federal Bureau of Investigation was not the instrument used in the study of President Kennedy's assasination. Why was a separate, unrelated investigating committee set up? Why was Chief Justice Warren put in charge? The FBI, in my judgement, is the one, really dependable government agency for this particular job. I don't like to see power that should belong to the FBI delegated elsewhere. Why doesn't the FBI have a greater voice in our press - what can we do to help?

Dear Mr. Rankin:

At the request of representatives of the Commission, the FBI Laboratory has examined the camera used by Mrs. Marie Muchmore in filming a portion of the assassination. This camera is an eight millimeter Keystone movie camera, serial number 20648.

The camera was examined to determine the film speed and was checked at ten second intervals throughout the full running time of a fully wound camera. It was found that the film speed of the camera, when fully wound, runs at an average of 19.05 frames per second for the first ten seconds, 18.8 frames per second for the second ten seconds, 17.6 frames per second for the third ten seconds and 16.2 frames per second for the last five seconds before running down. Eliminating the last five seconds when the camera is almost run down, the average running speed of the camera was found to be approximately 18.8 frames per second.

MEMORANDUM FOR MR. TOLSON
MR. BELMONT
MR. ROSEN
MR. SULLIVAN
MR. EVANS
MR. DE LOACH

Honorable J. Lee Rankin, General Counsel of the President's Commission on the assassination of President Kennedy, called and stated these matters in regard to Mrs. Marina Oswald and James Herbert Martin, et cetera, are developing very rapidly and the Bureau has been very good about getting reports to the Commission. He stated the thing he wanted to ask me about seemed to be something he felt he ought to take up with me directly. He stated the problem is that Marina Oswald is now living at the Ford's and presumably the Commission is going to want her back one of those days and he, Rankin, presumed I knew about the Nixon matter, too, because I had written them about it. Mr. Rankin stated he would hate to have her just run out on us, which is always a possibility, particularly down in Dallas, and he was wondering about a stake out on her which would watch her and see who is visiting her for a while. Mr. Rankin stated he hated to recommend it or urge it in view of the expense involved. I asked him how long he would anticipate it remaining on, and Mr. Rankin stated he thought it would be according to my judgment.

I told Mr. Rankin that we plan to interview her today, that we had wanted to do so last week but the lawyer for Robert Oswald was up here in Washington and asked us before he left Dallas if we would postpone any interview with Mrs. Marina Oswald until he got back from the hearing up here in Washington as she was exhausted. I stated I would surmise that he would be back there this morning as I thought Robert Oswald finished up with the Commission last Friday. I stated we will want to interview Robert, too, as we are interested in the Nixon angle that developed and also the affair she had with Martin; that we planned to conduct the interview of her today if she is available and also of Robert Oswald if he is available. Mr. Rankin stated they asked Robert Oswald why he did not tell them about it and he said he felt the Commission would probably know about that, but in all his answers were generally very good.

Memorandum for Messrs. Tolson, Belmont, Rosen, Sullivan, Evans, DeLoach

I stated the thing in the Nixon matter which does not exactly ring sound with me is knowing the background of Lee Harvey Oswald and his makeup temperamentally, et cetera, how the wife would be able to lock him in a bathroom all day without his kicking the door down because he gave evidence of having a violent temper. Mr. Rankin commented also that he had beat her up on occasion. I stated that is the only angle of that story which did not seem to hold water. I stated she never mentioned it to us at any time nor did Robert Oswald mention it to us and that is why we wanted to question her again because we have not talked to her since she appeared before the Commission and, of course, Robert Oswald was here in Washington. I stated it is a fact that Richard Nixon was in Dallas sometime in 1963, and Mr. Rankin stated it was November 21st, the day before the assassination. I stated Nixon was invited to receive some award and had to cancel out and he got down to Dallas just the day before the assassination and the question is, was it at that particular time, as Mrs. Oswald's story purports, that she locked Lee Oswald in the bathroom. I stated that did not make sense to me.

I stated we can, of course, stake out the place where Marina Oswald is now living and find out who is going in and out to see her at this new place, but my question is, approximately how long does Mr. Rankin anticipate waiting. Mr. Rankin stated he would leave that to my judgment. I stated I would think if we can interview her today, if the new lawyer allows us to do so and we have no objection if he wants to be present even, and also Robert Oswald, that as soon as we finish those two interviews and get the facts and unless there are some other angles, that particular angle will then be pretty well bottled up and we could get the information to the Commission certainly by the middle of this week. Mr. Rankin stated that would be very helpful as they have Martin coming voluntarily before the Commission on Thursday so if he could get that information before that, it would be helpful. I stated we can do that and in the meantime we can put the surveillance on Marina Oswald.

Mr. Rankin stated that one thing the new lawyer, McKenzie (phonetic), did was to bring the contracts with both Robert and Marina and while they have the usual provisions, he also has the right to disclose anything in regard to this matter he should learn irrespective of the client-lawyer relationship, and McKenzie assured Mr. Rankin and the Commission he would make full and complete disclosure of anything he discovered, so Mr. Rankin thinks we will get full cooperation from McKenzie. I stated this fellow John M. Thorne is contending he is her lawyer.

ATION

February 24, 1964

Memorandum for Messers. Tolson, Belmont, Rosen, Sullivan, Evans, DeLoach

Mr. Rankin stated he has copies of letters from Thorne to Martin and in one he is terminating Martin's relationship and there is another one to Mrs. Marina Oswald from Thorne in which he protests the termination of his employment and one from Martin to both Thorne and Mrs. Oswald saying he can't be fired. I stated I thought he had issued a statement this morning that he is still her "contractural lawyer," that while she has a right to hire as many advisors as she sees fit, he is still her "contractural lawyer."

Mr. Rankin continued that in Martin's letter he says he has sold various interests such as TV rights to Tex-Italia Film (phonetic) and her memoirs to a magazine of Hamburg, Germany, and he has sold the picture rights, et cetera. Mr. Rankin stated Thorne's letter says they have entered into contracts involving an excess of $150,000, so it can be seen what is involved. I commented this is just a nasty shakedown, notwithstanding her character; that these two individuals are doing everything in their power to make as much money as they can out of her and this applies to the other fellow in New York connected with Lee Oswald's mother.

Mr. Rankin stated that while working on this, he would like me to keep an eye on this thing to see whether it looks at all like this [redacted] was possibly with any idea of trying to get rid of Martin and Thorne. I stated that was within the realm of possibility. Mr. Rankin stated it looks like Marina Oswald was pretty quick to do that, but on the other hand, Robert Oswald, from the reports, is pretty straight laced and Mr. Rankin thought if she did not want to get rid of them, he would not have tolerated this. Mr. Rankin stated he thought maybe she got in with Oswald over in Russia that way and maybe other things have happened over here, as Mr. Rankin stated it looks like from our reports it is possible something went on before they came up to Washington although the Secret Service did not think there was any opportunity, but he was certainly looking at her any chance he had. I stated there was plenty of opportunity here in Washington, as according to the Secret Service, Martin and she stayed up to view television until the early hours in the morning and the Secret Service man was in the corridor, so what went on in the room nobody knows. I stated it is those angles we hope to explore with her today. Mr. Rankin stated with Martin chasing her and doing all those things with his wife around, he can imagine what he did when he was free from his wife. I stated he had no compunction so far as his wife was concerned as they were open and above board with the wife in the house. I stated it is an unfortunate thing, but what worries me is the possibility of a leak getting out on this as to the background of the Oswald woman and Martin, et cetera, because those people are talking around down there in Dallas, but it would be unfortunate to have it get out before the Commission

Memorandum for Messrs. Tolson, Belmont, Rosen, Sullivan, Evans,

tlen it down here as to these activities and anybody else who may have knowledge of it.

Mr. Rankin asked if I didn't think that business about her being willing to be Martin's mistress was a strange thing, and I stated I did; that it shows certainly the complete lack of any character and the thing that also impressed me was, if you look at the picture of Mrs. Marina Oswald when this happened and the picture of her afterwards, it is almost like two different people, as in the second picture of her she is not unattractive, but the first picture in Dallas, when this occurred, shows her as sloppy and unattractive; but somebody got hold of her and got her fixed up and that probably put ideas into her head also. I stated there is no question this fellow Martin was making love to her, and the thing about buying a house and divorcing his wife, although I did not know if he was serious, was a proposition and, of course, he was probably counting upon her money to buy the house. I stated there was no force, but complete willingness upon her and his part, and this just makes her out as a pretty questionable character. I stated that kind of thing if it gets out before it is nailed down and the Commission reaches a conclusion as to what and what not to believe, would be bad. I stated why she did not tell us about this Nixon matter, I did not know as she told us about the General Walker matter. I stated my reaction to this business about locking Lee Oswald in the bathroom is that there is something fishy here because she just would not be able to do this because he had beat her up on occasion, was nasty to her, had a bad disposition, and could have gotten out by breaking the window or kicking the door down and she would have been perfectly helpless and, further, she left out what he did then, as I don't think he would have taken it calmly. I stated it is a fact Nixon was there the day before the assassination and it will be a sensational story because he is a former Vice President and very anti-communist and General Walker is anticommunist and then the President of the United States was there. I stated it is such a thing that you could enlarge on it and have some sensational stories, just like the story of Dorothy Kilgallen about the FBI furnishing assistance to Ruby, that upon reading the article, you could see it does not support the headline, but you have down there in Dallas these "bleeding hearts" and "subsisters" like Kilgallen, who will blow everything up as much as they can. I commented I had also wondered where Life Magazine got that photograph of Lee Oswald with the guns, but I understand they got it from the Dallas Police Department. I stated my first knowledge of it was when my attention was called to it by the Hearst people who had an

advance copy as one of them called me and wanted to know who was giving it out and how it could be copyrighted. If Mrs. Oswald sold it, that is one thing, but if the Dallas Police gave it to Life, it was public property, and I advised the Hearst people they ought not to stir anything up on it, as we did not know whether the Dallas Police gave it out or if Mrs. Oswald sold it and if she sold it, it would be subject to copyright, but if given out by a law enforcement agency, it would not be subject to copyright.

Mr. Rankin stated he understood from my letter that the Nixon affair really seemed to originate from Martin who had been told that by Marina Oswald. I stated also Marina told it to Robert when he went to the grave with her, so it came from those two sources. I stated I did not think we got it from Martin but from Robert. Mr. Rankin stated that Martin the same day told Robert, but did not say how long he had known it. I stated the original information as I recall, was from Robert who was told it by Marina and also by Martin as she told Martin about it. I commented that why they did not tell the Commission, I did not know. I asked if Robert Oswald was questioned as to that aspect, and Mr. Rankin stated he was and he said he thought the Commission knew it. I stated they are going too much on assumption all the way through. I stated that is what worries me as it spreads out and gets to be a web almost. I stated we have been checking carefully in Mexico City and have additional agents down there and every one we run out fizzles out, but the average Mexican in my opinion is a psychological liar as they have visions probably of getting money or being brought up for testimony, but so far there is no confirmation of the various angles, but we have added men in Mexico to try to get that cleaned up within the next week or ten days, but something more comes up every day.

Mr. Rankin stated in connection with the stake out, to use my own judgment, but before terminating it, to let him know. He stated again he did not want to run up too much expense. I stated if we can get the interview today we will get that and we may want to talk to this lawyer that she now has and as soon as we get that we will have the facts which will be sent in by wire. I stated we will then get it to him, Mr. Rankin, and I thought the Commission may then want to consider getting her back quickly and getting it on record, because in the meantime she is going to be writing articles and books and she is bound to include this Nixon thing in it and if the Commission does not have it nailed down, it will become known. I stated Lee Oswald was not an individual who appeared to discuss things with his wife other than the Walker situation. I stated that did occur and while we are not able definitely to swear that the same gun was used

February 24, 1964

Memorandum for Messrs. Tolson, Belmont, Rosen, Sullivan, Evans, DeLoach

in the Walker case as in the assassination, because of the mutilation of the bullet, there are many similar marks and you certainly could draw the conclusion it was the same gun, but it is one of those instances where you can't say you are 100% sure.

Mr. Rankin stated there was one other thing - McKenzie told him that they had made a suggestion to the Fords that Doris Ford be her new manager. I stated everybody is going to move in on her and there will probably be some others move in from other parts of the country, and being the character she is they need only to invite her out and entertain her a little and she would probably go because she is her own free agent now.

Mr. Rankin stated he thought it well to check from a stake out what kind of people are visiting her when she does not know she is under surveillance. I stated we can also consider getting a telephone tap in there because there can't be any trial so any information would not be excluded in a trial, but if somebody were going to be tried it would be a different thing. I stated we will get on it right away.

12:15 PM

I called Mr. Joseph Sizoo in the Domestic Intelligence Division and advised him of Mr. Rankin's call and his desire to have, if possible, a stake out of the place where Mrs. Marina Oswald is now living and he is very anxious to know who may be going in and coming out of that place seeing her in view of the turmoil [redacted] and also I think we ought to consider placing a technical on the phone where she is now living. I also stated that Dallas should be advised that we want to get Mrs. Oswald interviewed today, that we had held off because of the request of her new lawyer and I understand from Rankin he seems to be a pretty decent fellow, that we ought to see her today and get the details of the Nixon thing.

I stated the Commission wants to bring her back here before them and they will just as soon as we get this information from our interview with her. I stated I thought we ought to interview Robert Oswald also as to the Nixon thing because she told him about it when he went out to the grave with her. I stated the first person she told was Martin who was her business manager and who had relations with her. I stated Martin is under subpoena to be back here before the Commission so I doubt if we can interview him or if we did whether he would say anything, but I think we should interview her and Robert and have

February 24, 1964

Memorandum for Messrs. Tolson, Belmont, Rosen, Sullivan, Evans, DeLoach

Dallas wire that in at once as we ought to get this material to the Commission not later than Wednesday so our manpower will not be tied down with surveilling her and to also try to get a technical in. I told Mr. Sizoo it will run until they subpoena her back before the Commission as I suggested to Rankin it ought to last only as long as it takes us to get the information to the Commission. I stated she did not tell the Commission anything about it, that Robert did, but she did not and they want to nail it down and this so-called [redacted] that took place at the hotel, but we ought to get details of that from her today and get any other details we can from Robert and then we ought to get that by letter to the Commission not later than Wednesday. Mr. Sizoo stated it would be a discreet surveillance unknown to her to see who comes and goes to see her. I stated also if she comes out, where she goes, that it required discretion. I told Sizoo to also see that Dallas has sufficient manpower for the physical surveillance of her and the people coming to the house ought to be followed to see who they are. I stated her new lawyer, McKenzie, has suggested this man she is living with now become her business agent. I stated what the Commission is concerned about is this sudden development as to her seduction and Nixon, as it may leak out. I told Sizoo to get hold of Dallas and to get started on it right away. Mr. Sizoo stated he would.

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA

While discussing other matters with Mr. Howard Willens of the President's Commission on February 20, 1964, Mr. Willens advised the Commission had received from the State Department an FBI report captioned, "Funds transmitted to residents of Russia, Internal Security - Russia," this report having been prepared by SA John W. Fain dated May 12, 1960, Dallas, Texas. Mr. Willens advised this report contains the results of an interview with Marguerite Oswald, the mother of Lee Harvey Oswald, and relates that Mrs. Oswald had transmitted a check in the amount of $25 to her son while he was in Russia. Mr. Willens stated that this report was not made available by the FBI; however, some of the information set forth in the May 12, 1960, report is set forth in a subsequent FBI report of SA Fain at Dallas dated July 3, 1961, under the caption, "Lee Harvey Oswald". (The two reports referred to above were reviewed by the Domestic Intelligence Division and Inspector Moore advised the July 3, 1961, report contains a summary of all pertinent information that was set forth in the May 12, 1960, report. This procedure was followed so that all pertinent information concerning Oswald would be set forth in the Case File relating to subject Oswald.)

Mr. Willens advised that the Commission had received from the State Department an FBI report captioned, "Fair Play For Cuba, Internal Security - Cuba" prepared under date of October 25, 1963, by SA Warren C. DeBrueys at New Orleans. Willens states all pertinent information in this report relative to Oswald is set forth in a subsequent FBI report under the caption of "Lee Harvey Oswald."

Willens inquired whether there was any special reason the foregoing reports had not been made available to the Commission or whether the Bureau had summarized the information so that all of the data would be available under the case captioned, "Lee Harvey Oswald." Mr. Willens was advised that the Bureau would be very happy to make available the two reports he had referred to. He was told that all pertinent information had been included in reports under the caption, "Lee Harvey Oswald" and therefore there was no necessity for the Bureau to make the two reports mentioned available to the Commission as they did not contain any new information. He was also advised that based on a check of the Bureau files all

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated February 18, 1964, requesting this Bureau to undertake appropriate investigation in an effort to develop full circumstances surrounding the incident involving Marina Oswald and James Herbert Martin.

For your information, we interviewed Mr. Robert L. Oswald, brother of Lee Harvey Oswald, on February 18-19, 1964, at which time he stated he first met James Herbert Martin approximately November 26 or 27, 1963, at the Inn of the Six Flags, Arlington, Texas. He met Mr. Martin through United States Secret Service agent, Mike Howard, at which time Martin was assistant manager of the Inn of the Six Flags. At that time Martin indicated a willingness to take Marina Oswald and her two children into his home at Dallas and consider them part of his family. Marina Oswald moved into Martin's home at 11611 Farrar, Dallas, Texas, on November 29 or 30, 1963, with the understanding she was not to pay anything for room and board.

According to Robert Oswald, on Saturday, December 7, 1963, Martin mentioned some business contracts he desired Marina to sign. On Sunday, December 8, 1963, Robert Oswald met John H. Thorne, an attorney, at Martin's home at which time a typed contract was reviewed by him which he discussed with Marina Oswald. Robert Oswald did not advise Marina to sign this contract on December 8, 1963, but on Monday, December 9, 1963, he consulted an attorney and later, on that same date at the home of Martin, Marina, on his advice signed a contract in the presence of Martin and Thorne.

Robert Oswald continued that at the same time a contract was drawn between Marina and Robert Oswald, designating him as her assistant business manager and providing for his receipt of ten per cent of all funds received by Marina Oswald from personal engagements, books, pictures, movie rights and the like, and ten per cent of all increases in the trust funds

received by Marina Oswald as donations.

Robert Oswald stated that during the period after December 9, 1963, Martin and Thorne did not come up with any positive results in the way of contracts and earnings for Marina Oswald and for this reason, he was dissatisfied with their handling of Marina's business.

On Wednesday night, February 5, 1964, James Wakefield Burke, an author, and Carl B. Schafer, business agent for Burke, visited Robert Oswald's home at Denton, Texas. Burke and Schafer had met with Martin and Thorne on two occasions to the best of Robert Oswald's recollection, negotiating with respect to writing a book on Marina Oswald's story. Robert Oswald stated Burke and Schafer were critical of the manner in which Martin and Thorne were handling Marina Oswald. Mr. Burke allegedly commented that Martin and Thorne were referring to Marina to the effect that they had the wife of the killer of the President of the United States in the palm of their hand. Robert Oswald stated he was upset by this conversation and after Burke and Schafer departed, Robert Oswald's wife, Vada Oswald, told him about a conversation she had with Marina Oswald Sunday, December 29, 1963, at which time Marina had told Vada that Martin was in love with Marina but that Marina was not in love with Martin.

Robert Oswald advised he was in telephonic contact with Martin at approximately 12:30 A.M. on the morning of February 6, 1964, at Washington, D. C., where Marina, Thorne, and Martin had gone so that Marina could appear before the President's Commission. Martin told Robert Oswald that Marina was in her room "three floors down" and Robert told Martin to have Marina call him at 6:00 P.M., February 6, 1964. According to Robert Oswald, he did not receive the call at the appointed time.

He stated he again telephonically contacted Martin at approximately 12:30 P.M. February 7, 1964, at Washington, D. C., at which time Marina was there and she came to the phone. Robert told Marina he wanted her to return home and she replied that they were planning a news conference and some sight-seeing and that she would return home on Saturday, February 8, 1964. Robert Oswald stated he called the Martin home at Dallas, Texas, at approximately 9:00 P.M., February 8, 1964, and talked to Marina Oswald telling her that he was coming to see her the next day.

On Sunday, February 9, 1964, Robert Oswald and his wife visited Marina Oswald at the Martin home. Robert spoke with Marina privately and immediately Marina said, "You want to talk to me about Jim." Robert stated he told Marina that he did not think it was right for there to be any personal relationship between Marina and Martin and that he wanted her to come to Denton, Texas, with him and his wife to which Marina immediately agreed. Martin interposed several reasons, mostly business, as to why Marina should remain at his home, but Marina left at the request of Robert Oswald at approximately 6:30 P.M., Sunday, February 9, 1964. Robert Oswald stated he told Martin on that date that he wanted Marina Oswald to move out of the Martin home because there was something personal between him and Marina to which statement Martin did not answer. On Monday, February 10, 1964, Robert Oswald stated that after consulting with a Denton attorney, he was advised he should meet with Thorne and Martin and tell them he wanted them to terminate their connections with Marina.

Robert Oswald continued that on Monday afternoon, February 10, 1964, his wife called him at work and told him that Marina had told her that Marina had [redacted] with Martin in Washington, D. C., on Thursday night, February 6, 1964. Robert stated he did not understand that there was any [redacted] involved but that Marina had consented. He also stated he understood the [redacted] occurred after the United States Secret Service had discontinued its protective custody of Marina Oswald.

After Robert Oswald received the call from his wife, he called Thorne and told him he wanted to meet with Thorne and Martin because of the personal involvement of Marina with Martin. According to Robert Oswald, Thorne seemed shocked and indicated it was the first he had heard of it and suggested that he meet with Robert Oswald without Martin present. That same night, Thorne and his wife came to the Robert Oswald home in Denton, Texas, at which time Thorne indicated Martin should be dismissed. Robert Oswald told Thorne on this occasion that he knew Martin [redacted] Marina in Washington, D. C. Subsequently, at approximately 11:30 P.M., February 10, 1964, after Thorne had returned to Grand Prairie, Texas, Thorne telephoned Robert Oswald and stated that the best thing to do was to buy out Jim Martin's contract but Thorne did not mention a figure.

Robert Oswald further stated that on Tuesday, February 11, 1964, Marina Oswald met Mrs. Martin at Mrs. Martin's home as Marina was getting some of her belongings from the Martin home. Mrs. Martin questioned Marina about the relationship between Marina and Mr. Martin. According to Robert Oswald, he learned of this through his wife, Vada, as he was not present at the time. On Tuesday night, February 11, 1964, when Robert Oswald arrived home from work, Marina was on the telephone and he understood that she had both Martin and his wife on the other end of the line. Marina proceeded to tell Mrs. Martin everything while Martin was listening. Robert Oswald heard very little of this conversation as it was almost over when he came in. Marina was crying after she hung up the telephone. Robert's wife, Vada, told him what the conversation was about and about an hour later Marina stopped crying and told Robert she hoped he understood. Robert told Marina he did not hold her completely blameless but that Martin was more at fault.

Robert Oswald further advised that that same evening Carl Schafer recommended William A. McKenzie of Dallas as an attorney with whom Robert Oswald might discuss the contract between Marina and Martin.

According to Robert Oswald, on Wednesday, February 12, 1964, Kathy Ford, a friend of Marina's, and John Thorne came to Robert Oswald's residence at which time Thorne said Martin wanted $5000 to terminate his contract. Robert Oswald added that Marina returned to Dallas with Kathy Ford to spend the night at Kathy Ford's home. Thorne furnished the transportation.

On February 13, 1964, in accordance with Mr. McKenzie's suggestion to Robert Oswald, Marina decided to discharge Martin and Thorne. On February 14, 1964, Robert Oswald and his wife learned that Kathy Ford's husband had prepared two letters, one to Martin and one to Thorne, both of which Marina had signed, and that they had been mailed Registered Mail, Return Receipt Requested, to Martin and Thorne notifying each that his services to Marina Oswald were terminated immediately.

Robert Oswald further advised that on Sunday, February 16, 1964, Marina told him that she had been faithful to Lee Harvey Oswald while he was alive and that what had happened to her and Martin was after Lee had gone. Marina did not directly mention any intimacy between her and Martin and neither at this time nor any other time did Robert Oswald understand from talking to her or anyone else that there was [redacted] Marina Oswald by Martin.

(Robert Oswald's wife had told him that Marina had said Martin loved her and that he was going to divorce his wife for Marina. Martin made such statement to obtain Marina's consent to their [redacted] in Washington, D. C. Robert Oswald added that Marina Oswald also told his wife, Vada, that Martin stayed in her room at the Willard Hotel on Thursday and Friday, February 6 and 7, 1964, after the United States Secret Service had ceased its protective custody of Marina. Vada Oswald also told Robert Oswald that Marina said Martin moved into Marina's room but added Thorne kept Martin's clothes in Thorne's room, which was adjoining Marina's room, after the Secret Service had moved out.)

Robert Oswald further stated he had seen a picture of Marina Oswald and Martin sitting on the sofa in Marina's hotel room in Washington, D. C. He understood such picture was made by Thorne. Robert Oswald stated it was his belief that Marina moved from his home to the residence of Kathy Ford because she did not want to be a burden to him in his small home and because she feels at ease talking to someone who also has Russian for her native language.

For your added information, during our interview with Robert Oswald, he advised that on January 13, 1964, James Herbert Martin told him that Marina had told Martin that when Richard Nixon visited Dallas, date not indicated, Marina learned that Lee Harvey Oswald intended to shoot Nixon. Marina reportedly locked Lee Harvey Oswald in the bathroom all day to prevent him from doing so. Robert Oswald added that Marina related the same story to him on January 13, 1964, when they made a trip to the cemetery to visit the grave of Lee Harvey Oswald. Robert Oswald stated he does not know where Lee Harvey Oswald and Marina were living at the time of the alleged intention of Lee Harvey Oswald to shoot Nixon and he does not know the date of such incident but vaguely recalled that Nixon reportedly planned to visit Dallas during the summer or early fall of 1963. Robert Oswald also does not recall Marina stating how she knew Lee Harvey Oswald planned to shoot Nixon.

Mr. Maurice Carlson, President, Reliance Life and Accident Insurance Company, Dallas, Texas, who is a close friend of Richard Nixon, informed this Bureau February 19, 1964, that Richard Nixon was invited to Dallas in April, 1963, to the Southeast Dallas Chamber of Commerce to receive the Good American Award. Mr. Carlson stated that at the last minute Nixon was unable to attend. Mr. Carlson also stated he does not know if press coverage of this contemplated visit by Nixon was given

in Dallas newspapers. Mr. Carlson also stated that Mr. Nixon did come to Dallas on November 21, 1963, arriving by private plane with the President of the Pepsi Cola Company.

We plan to continue our interviews with Marina Oswald on Friday, February 21, 1964. During our next interview with Marina, we will question her in detail concerning the allegation that Lee Harvey Oswald planned to shoot Richard Nixon. Results of such interview will immediately be furnished to the Commission.

We have obtained a signed statement from Robert Oswald in connection with the interview of him described above. This signed statement will be immediately furnished to the Commission upon receipt from our Dallas Office.

Sincerely yours,

ASSASSINATION OF PRESIDENT KENNEDY

Memorandum from W. D. Griffith to Mr. Conrad, 2/18/64, recommended that Mr. J. Lee Rankin, President's Commission, be advised that we now have a 16 mm copy of the Marie Muchmore-UPI film and that it is available for showing. Memorandum also recommended that upon receipt of the additional 8 mm copy of the same film, the Laboratory would review the film to determine whether it reveals anything not previously discernible in the 16 mm copy previously furnished by UPI.

In the absence of Mr. Rankin, Mr. Howard Willens was advised concerning the availability of the two above-mentioned films and he stated it would be appreciated if both of these films would be available on Tuesday, 2/25/64, at 10:00 a. m. when the Commission plans to hold another meeting relative to the various films which are now in existence. Mr. Willens was assured these films would be available.

Mr. Willens was also advised that the FBI Laboratory has completed its examination of the Muchmore and Nix cameras and that we had a specific request from each of the owners that their cameras be returned to them. Mr. Willens was advised that it would be necessary to return these cameras in the near future. Mr. Willens was requested to determine if for any reason the Commission desired that they be retained. He advised he would take this up with other members of the Commission and an early decision would be made and the Bureau advised.

ACTION:

The matter of the Muchmore and Nix cameras will be followed with the President's Commission in order that these cameras may be returned to their owners in the near future.

All of the films in the Bureau's possession will be available at 10:00 a. m. Tuesday, 2/25/64, for showing to members of the President's Commission staff.

Dear Mr. Hoover:

We have read with interest your Bureau memorandum dated January 29, 1964, entitled "Lee Harvey Oswald" and the related report of Special Agent James J. O'Connor dated January 23, 1964, both of which deal with the allegation that Oswald met a Cuban official in a restaurant and later in an automobile in Mexico City on October 2, 1963.

The Commission is of the opinion that Salvador Diaz Verson probably passed the allegation on to Angel Hernandez Varela who in turn transmitted it to Jose Ignacio Lasaga. One forward step in determining the validity of the allegation's content would seem to lie in the determination of whether the allegation originated with Verson or Edvardo Navarro.

Inasmuch as Verson is a Cuban exile, now residing at Miami, Florida, we wonder whether you would be agreeable to attempting to obtain a polygraph examination of Verson on the issue as to whether Navarro in fact passed the information to him. If, after the examination of Verson, indications develop that the allegations did not begin with the latter, but in fact were received by him from Navarro then further investigation can be centered upon Navarro.

At your convenience I would appreciate your advising me whether you share the same evaluation of the matter and the feasibility of further development by polygraph examination of Verson.

Thank you for your continuing cooperation in the work of this Commission.

Sincerely,

Sutel results of approach to Verson and if he is agreeable as to when examination will be completed.

NOTE:

Dr. Jose Lasaga, an exiled Cuban psychologist, wrote treatise on possible psychological motivations of the assassination and furnished to White House, alleging he had reliable info that Oswald met in a restaurant on outskirts of Mexico City with Cuban Ambassador and they left together in a car for a private conversation. Lasaga said received story from Varela who obtained it from Verson who at the time of the assassination was doing investigative work in Mexico City. Verson was in Mexico City in late November attending newspaper congress and not on investigative assignment. He said he was told by Dr. Navarro, a writer for Mexican paper "Excelsior," that Oswald met with Cuban official (not the Ambassador) at the restaurant. He said Navarro made no mention of Oswald leaving in car with Cuban official. Dr. Navarro has denied furnishing any such story to Verson and Verson insists he did not tell Varela that the official was, in fact, the Ambassador. It is clear that at least from Verson to Varela to Lasaga there has been at least great embellishment and in view of the denial of Navarro that he instigated the story, it appears to us certain that it was a fabrication. However, Commission would like to polygraph Verson if he is willing to undergo same.

Mr. J. Lee Rankin, General Counsel for the President's Commission, called at 12:15 P.M., February 21, 1964, and advised he had received information through William Wilcox, the newly selected attorney for Marina Oswald to the effect that James Martin, the individual who had previously represented Marina Oswald as her business manager, had a [redacted] sometime within the last two or three years. Mr. Rankin indicated that the Commission would be very much interested in knowing if this were true inasmuch as such an operation on the part of Martin could influence the relationship between Martin and Marina Oswald. Mr. Rankin advised that he did not want an open investigation made concerning this matter but would appreciate the Bureau bearing in mind in connection with other interviews and subsequently mentioned that during the next interview with Marina Oswald questions should be asked of her as to whether she had knowledge of Martin undergoing this operation. Mr. Rankin was advised that he would be furnished with the results of information that would be available concerning this matter.

At 5:30 P. M., February 21, 1964, Mr. Rankin advised that the President's Commission was endeavoring to have James Martin voluntarily appear before the Commission on Thursday, February 27, 1964. He stated that it appeared Martin and his attorney Thorne were attempting to avoid his request for them to contact him. Rankin stated that if Martin refused to appear voluntarily a subpoena would be issued for his appearance.

Rankin requested the Bureau make available all information that it could obtain concerning James Martin for the Commission's use in interviewing Martin. He stated he did not desire open investigation but requested that all information be made available

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
11-22-63
DALLAS, TEXAS

PURPOSE

To advise you of action initiated by the Bureau based on request of the President's Commission to interview Reverend John Taylor Holman of Port Clyde, Maine, who apparently has communicated with the Commission and alleged possible knowledge of the assassination or other related matters.

DETAILS

Mr. J. Lee Rankin, General Counsel, the President's Commission, by letter dated 2-13-64 advised the Commission early in the investigation of President Kennedy's assassination had received a letter from Holman who claimed he had information "vital" to the Commission's inquiry. Rankin stated Holman was requested to submit his information by letter; however, Rankin stated Holman wrote another letter dated 1-31-64, which was enclosed with the Commission's request, wherein Holman again asserts his claim.

Holman, in his letter, appears to be upset over the Commission's handling of his initial communication, and he feels the Commission doubts his veracity. Holman lists some twelve apparently prominent business individuals who he claims know that he has "documented evidence." Holman concludes by stating he intends to release this information to the press and that this information is highly unusual and that people who know about it are "shocked beyond measure."

The Commission now feels that the most expeditious way of resolving Holman's information is by interview, which they request the Bureau to conduct.

Memorandum to Mr. Belmont
RE: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

BACKGROUND

Bureau files disclose that Reverend Holman has written to the Director on three previous occasions. Two of the letters, 2-12-36 and 2-8-61, referred matters to our attention which were not within our investigative jurisdiction and Holman was so advised. His most recent letter, 8-2-61, protested our reply of not having investigative jurisdiction. This was acknowledged by reasserting our position (94-4-1572).

OBSERVATION

It would appear the Reverend Holman is sincere in his desire to be of assistance, but based on our past experience with him, it is very possible he has greatly exaggerated the information in his possession. It is pointed out there is no specific indication that Holman has knowledge concerning the assassination, but this is implied by Holman's indicating he has information "vital" to the inquiry being made by the President's Commission. However, in view of the Commission's request, it is felt we have no alternative but to interview Holman.

ACTION

(1) The field has been furnished full particulars on Rankin's request and has been instructed to immediately handle and furnish the Bureau the results without delay.

(2) The Bureau will follow developments and insure Rankin is promptly advised of the results of this inquiry.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. W. C. Sullivan

DATE: 2/20/64

FROM : D. J. Brennan, Jr.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

At his request, J. Lee Rankin of the President's Commission was furnished a duplicate set of the vouchers and receipts of former Special Agent Henry M. Wade with the Director's letter of 2/10/64. This recommends that a letter be sent to Rankin reminding him that any public disclosure of this material, even after more than 20 years, could be harmful to the informants handled by Wade and could be damaging to the relations between this country and Ecuador.

Vouchers and receipts forwarded by Wade in Ecuador disclosed the identities of the informants assisting him and the exact amounts paid to each. In memorandum, under this caption, W. C. Sullivan to A. H. Belmont, 2/4/64, it was pointed out that this data may become public information if furnished to the President's Commission. The possibility was also considered that the informants involved might be questioned by their government in Ecuador. We also believe that government might take strong exceptions to publicity on intelligence operations of United States representatives in Ecuador during World War II and could, at least for the record, register some type of protest.

Now that the Commission has had the opportunity to fully evaluate the statements of Wade after receiving the Director's affidavit, copies of Wade's vouchers and receipts, and results of our interview with him on 2/8/64, the entire question of his manner of operating in the Special Intelligence Service has undoubtedly been clarified and placed in proper perspective for the Commission.

We deem it advisable, however, to specifically point out to the Commission that public disclosure of data from our records regarding Wade's confidential assignment in Ecuador would be most undesirable. This is because the informants named could be placed

Dear Mr. Rankin:

Reference is made to your letter dated February 18, 1964, requesting appropriate investigation to develop full circumstances surrounding the incident involving Marina Oswald and James Herbert Martin. Reference is also made to our letter dated February 19, 1964, concerning interviews of Marina Oswald on February 17 and 18, 1964.

There is enclosed a memorandum dated February 20, 1964, setting forth the results of our interrogation of Marina Oswald on February 19, 1964, concerning the Martin incident. There is also enclosed a copy of a February 19, 1964, memorandum setting forth the results of inquiries conducted at Washington, D. C., concerning the residence at the Willard Hotel of Marina Oswald, Martin and John M. Thorne. Copies of the enclosed memoranda are being furnished to the U. S. Secret Service.

Our interview of Marina Oswald is continuing and further details will be furnished to you as received. In this connection, Mr. William A. McKenzie, Mrs. Oswald's attorney, has requested that Mrs. Oswald not be reinterviewed until his return to Dallas, probably on Friday, February 21, 1964. Accordingly, we will attempt to continue our interrogation of Mrs. Oswald when Mr. McKenzie returns to Dallas.

LEE HARVEY OSWALD

Marina Oswald was interviewed on February 19, 1964, concerning her relationship with her former manager James Herbert Martin. She stated that while residing at the Inn of Six Flags near Dallas under the surveillance of the Secret Service immediately following the assassination she was informed by a Secret Service agent that Martin invited her and her children to reside at his home. She accepted an invitation to visit the Martin residence on Thanksgiving Day and while at the Martin home on that occasion she accepted an invitation from Mr. and Mrs. Martin to reside with them.

She moved to the Martin residence about November 29 or 30, 1963, and left the residence on Sunday, February 9, 1964. Mrs. Oswald said that during her residence at the Martin home she was under the surveillance of the Secret Service.

She advised that shortly after taking up residence at the Martin home her intuition told her that Martin had feelings of love toward her. On New Year's Eve, after refusing to be kissed by Martin when he asked permission to give her a New Year's kiss in the presence of his wife, Martin subsequently caught her in the hallway and told her he loved her and then kissed her. She stated she believed him to be sincere. Following this event, according to Mrs. Oswald, Martin almost daily professed his love for her and frequently surreptitiously hugged and kissed her. In addition, he propositioned her to have sexual relations which she refused. She said she told Martin that she was willing to be his mistress and they made plans when she would have a place of her own at which he would visit her clandestinely. Martin also gave her several gifts.

About January 4, 1964, Martin took her alone to the La Tunisia restaurant in Dallas. Two Secret Service Agents occupied a table nearby. On this occasion Martin professed his love to her and she replied to the effect that everything would be

fine if it were not for Martin's family. She maintained that she did not have sexual relations with Martin at the Martin home.]

Following her testimony in Washington, D. C., on Friday, February 7, 1964, she requested the Secret Service to withdraw its surveillance on her and, accordingly, the surveillance was withdrawn about noon that day. [She said she had two rooms at the Willard Hotel in Washington, D. C., on the third floor and that on Friday, February 7, 1964, John M. Thorne, her attorney, and Martin moved into the room adjoining hers which the Secret Service occupied until its withdrawal. On February 7, 1964, she, Martin and her daughter, June, ate together and, thereafter, took a walk in Washington. They returned to the hotel about 7 or 8 p.m. and that evening slept together and engaged in sexual intercourse. They slept together the entire night. This was done with Mrs. Oswald's consent and there was no force whatsoever on the part of Martin.]

[While in Washington, Secret Service Agent Leon Gopadze told her that there were rumors Martin loved her and these rumors might be so detrimental as to lead to her deportation from this country. She said that Martin told her he had friends who could fix up a fictitious marriage which would forestall deportation.]

On Sunday, February 9, 1964, Robert Oswald came to the Martin home in Dallas and took Marina and her daughter, June, to the cemetery to visit the Oswald grave. Robert Oswald suggested she leave the Martin home and after agreeing to do so, she accompanied Robert Oswald to his home in Denton, Texas. On February 11, 1964, she telephoned Martin at his home from Robert Oswald's home and while Mrs. Martin listened on an extension, they engaged in a three-way conversation. She, at that time, told Martin she was dispensing with him as a manager and as a lover and suggested that Mrs. Martin be told the whole truth. Mrs. Martin told her that her husband had told her the whole truth.

On February 14, 1964, she sent registered letters to both Martin and Thorne dismissing them as her manager and lawyer, respectively. The letters were sent on the advice of Mr. and Mrs. Declan Ford, friends of Mrs. Oswald, with whom she now resides. On the advice of Ford and Robert Oswald, she has retained Mr. William A. McKenzie of Dallas as her attorney.

MARY I

LEE HARVEY OSWALD

After taking up temporary residence with Robert Oswald she decided to return to Dallas and contacted Mrs. Ford. Mrs. Ford came to Denton, Texas, and Mrs. Oswald asked her if she could stay in the Ford home temporarily. Mrs. Ford agreed to this and on Thursday, February 13, 1964, Mrs. Oswald took up residence with the Fords where she now resides.

MEMORANDUM FOR MR. TOLSON
MR. BELMONT
MR. ROSEN
MR. EVANS
MR. DE LOACH

I returned an earlier call from Honorable J. Lee Rankin, General Counsel of the President's Commission on the Assassination of President John F. Kennedy. Mr. Rankin stated he wanted to thank me for sending the message about Mrs. Marina Oswald up by courier and for getting it to them so promptly. I stated I thought he ought to know about it.

Mr. Rankin commented that it does not make their problems any easier, nor ours either, but the Commission felt that the Secret Service had a special problem here or right to make inquiry in the first instance because of the fact it was not clear whether this could have happened while they were supposed to have her under surveillance, and, furthermore, they asked if before referring it back, they could not check it out to see if it happened while their people were on duty. Mr. Rankin stated Secret Service did do this and they talked to her and she said it was not a forceful act, that she consented to it. They also learned a curious thing in that she said she called Mrs. Martin and told her about it. She also said it happened after the surveillance was over and that the Secret Service people, which I may not have known, were in that room and then they moved out and John M. Thorne moved in and James Herbert Martin moved in later, and it was during that period that it occurred and she also told Secret Service that Robert Oswald found out about it and he was complaining about her staying here in Washington that long so he practically ordered her to get back to Dallas. Then she went back to Dallas and was staying at Martin's and Robert Oswald was asking her how everything went and he got her away from there, but apparently she did not tell him, and he got her to his house and then got this other counsel and fired Thorne and Martin. Mr. Rankin said they are asking us to check the whole thing out and get affidavits, et cetera, on the thing and a letter is being sent to us. Mr. Rankin said this is what she has told the Secret Service and it presents all kinds of problems as to what she is up to and what Martin was up to.

Memorandum for Messrs. Tolson, Belmont, Rosen, Evans, DeLoach

I stated that Thorne in the conversation we had with him on the 16th claimed he received a registered letter from her dismissing him as her attorney and Martin also received a similar letter from her dismissing him as her business manager. [I continued that Thorne volunteered that the dismissal of him and Martin probably was as a result of some interplay between Martin and her.]

Mr. Rankin asked if there was any indication that had gone on before, and I stated there was not, but we have not at any time had her in our custody or under surveillance, so we did not know. I stated she is living now, according to Thorne, with some people named Ford in Dallas.

Mr. Rankin stated that Mr. Sorrels (phonetic) of Secret Service is down in Dallas and was the one who went out to see Mrs. Oswald and our people may want to talk to him. Mr. Rankin also stated that he had told Mr. Kelly of Secret Service and our people may want to talk to him. Mr. Rankin further stated that he is sending us a letter, but he wanted to tell me of their appreciation for the message. I told Mr. Rankin we would get on it as soon as his letter is received.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Belmont

DATE: February 19, 1964

FROM : A. Rosen

SUBJECT: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

PURPOSE:

To recommend the attached letter be sent to the President's Commission and airtel sent to the field relating to the receipt by this Bureau of an anonymous letter in the Serbo-Croatian language alleging one Charles Watkins is connected in some way with captioned matter.

BACKGROUND:

On Friday, 2/14/64, the Administrative Division furnished a communication addressed to "Mr. Earl Woren, FBI, Washington USA," which was postmarked at Paris, France, on 2/3/64. This communication was opened in view of the FBI designation on the envelope and the inability to locate any SA Woren in Washington, D. C. This envelope contained a letter in the Serbo-Croatian language as well as a photograph purported to be that of one Charles Watkins.

This anonymous letter was translated at the Bureau. It bears the date 2/1/64 and alleges that Charles Watkins of both Jacksonville, Florida, and New York, New York, is connected in some manner with the death of President Kennedy. The writer furnishes one address in Jacksonville and two addresses in New York where Watkins allegedly has stayed in the past; however, knowledge of his current whereabouts is denied. The writer states that Watkins during 1962-1963 apparently stayed at the New York residence of one Reverend L. Robert Foutz. The writer concludes the letter by stating Watkins is connected with Cuban Communists and is signed "a Friend."

The photograph enclosed with the above letter is approximately 1 inch by 1 inch in size and on the reverse indicated Watkins was 37 years of age as of 2/1/64. Suitable enlargements have been made. Check of Anonymous Letter File negative.

No information identifiable to Charles Watkins or Reverend L. Robert Foutz could be located in Bureau files.

Memorandum to Mr. Belmont
RE: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

OBSERVATIONS

Inasmuch as translation of the letter now indicates this letter was intended for Chief Justice Earl Warren, who is Chairman of the President's Commission, investigating the assassination of President Kennedy, it is felt that the President's Commission should be advised of our receipt of this letter and translation thereof. Further, since an allegation is made regarding the assassination, it is felt we have the responsibility to logically check it out.

RECOMMENDATIONS

1. That the attached letter to Mr. J. Lee Rankin, General Counsel, President's Commission, be sent advising of the receipt of this letter furnishing him with a translation thereof and indicating we intend to resolve this matter, at which time he will be appropriately notified.

OK -

2. That the attached airtel be sent to Jacksonville and New York requesting suitable investigation to resolve this matter and instructing them to handle this immediately so that the President's Commission can be promptly notified.

OK

3. This matter will be closely followed at the Bureau.

SUBJECT: PRESIDENT'S COMMISSION

Mr. Melvin Eisenberg, attorney with the President's Commission, telephonically advised today that the Commission was desirous of re-examining the available films in connection with the assassination of President Kennedy. Eisenberg states that arrangements have now been worked out by the President's Commission so that the original film taken by Abraham ZaPruder, which was sold to Life, Time, Inc., will be available, and he desired Mr. Shaneyfelt of the Laboratory, as well as a representative of the Exhibits Section to be present.

After checking with Mr. Shaneyfelt concerning his availability, as well as Inspector Gauthier, appropriate arrangements were made for the group to get together at 10:00 a.m., Tuesday morning, 2-25-64, at the offices of the President's Commission where the scale models would be available for discussion, if they were necessary.

You will be advised of any items of interest that develop from the showing of these films.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Conrad

DATE: 2/26/64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
REQUEST OF THE PRESIDENT'S COMMISSION

At the request of The President's Commission Inspector James Malley, Inspector Leo Gauthier and Special Agent Lyndal L. Shaneyfelt met with representatives of The Commission on 2/25/64 to further review the films of the assassination made by Zapruder, Nix and Muchmore. The Muchmore film was obtained from the United Press International (UPI) and had not been seen by The Commission. In addition, Mr. Herbert G. Orth, Assistant Chief of Life Magazine Photographic Laboratory, was present to show the original of the Zapruder film that had not previously been available.

These films were reviewed in an effort to pinpoint as nearly as possible the exact location of the President's car at the time of each of the three shots and to establish, if possible, the time intervals between the shots. It is not clear what purpose this will serve in the Commission's investigation of the assassination but since The Commission has requested Bureau assistance in this film review we are cooperating.

Although the original Zapruder film contains better detail than the copies previously examined, no new evidence was developed as a result of this film review. The original film did give an opportunity to better observe the body position of Governor Connally and there is a possibility that a frame by frame study of this portion of the film in conjunction with the medical report showing the path of the bullets may help to establish the approximate point in the film at which Governor Connally was shot. Because of the possibility of damage to the original film a frame by frame study could not be made. Mr. Orth of Life Magazine offered to make and provide 35 mm color slides of all pertinent frames for this study and furnish them to an Agent of the New York Office of the FBI for transmittal to the Laboratory. When these films are received they will be examined in the Laboratory and then made available to The Commission.

Re: Assassination of President Kennedy
Request of The President's Commission

We previously have asked the Commission about returning the Nix and Muchmore cameras that were furnished for Laboratory examination since their return has been requested by the owners. Mr. Norman Redlich, The Commission Attorney, advised that he wants the cameras held until the film studies have been completed.

RECOMMENDATIONS: 1. That Laboratory examination be made of the 35 mm color slides made from the original Zapruder film and that thereafter results of this study be furnished to The Commission.

2. That we advise Dallas that The Commission does not wish to release the Nix and Muchmore cameras at this time.

UNITED STATES GOVERNMENT

Memorandum

TO : Mr. Conrad

DATE: 2/18/64

FROM : W. D. Griffith

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY;
REQUEST OF THE PRESIDENT'S COMMISSION

In memorandum from Mr. Gauthier to Mr. Callahan dated 2/6/64, reference is made to an illustrated book entitled "Four Days," compiled by United Press International (UPI) which contains three color pictures from an 8 mm film, the existence of which had not previously been brought to our attention. Mr. DeLoach's memorandum to Mr. Mohr dated 2/11/64 sets forth details of Inspector Wick's negotiations with UPI to obtain access to this original 8 mm film. The film is actually shot by a Mrs. Marie Muchmore of Dallas, Texas. Dallas was requested to borrow Mrs. Muchmore's camera so we could make a comparison between the camera and the film as a part of our continuing effort to precisely pinpoint where the shots were fired.

UPI has now made available a 16 mm copy of the "Muchmore" film but so far has declined to make the original 8 mm film available to us. Our New York Office has advised, however, that UPI is forwarding an exact copy of the original 8 mm film in lieu of the original. From an examination of the 16 mm film it is apparent that Mrs. Muchmore photographed only the last of the three shots. The filming of the shooting sequence is extremely erratic and bears out Mrs. Muchmore's statement that she "panicked" when the shooting commenced and aside from assisting in pinpointing the third shot the film is of little additional value.

Mr. Rankin has expressed a desire that the FBI make any appropriate examination of this film and furnish the results to The Commission.

At the request of The Commission we have examined Mrs. Muchmore's camera and have determined that the camera operates at an average speed of 18.5

The Laboratory at this time has possession of Mrs. Muchmore's camera and also the camera of Orville O. Nix who also obtained home movie film of the shooting sequence. Both Mr. Nix and Mrs. Muchmore have requested the return of their cameras and we propose to send the cameras back to Dallas for return to the owners after Mr. Rankin has been advised that we are returning them.

RECOMMENDATIONS: 1. That Inspector Malley advise Mr. Rankin that we now have a 16 mm copy of the Marie Muchmore - UPI film which is available for showing, if The Commission desires.

Dear Mr. Rankin:

Reference is made to our discussion of February 24, 1964, at which time you requested this Bureau conduct appropriate investigation to determine the contacts and activities of Mrs. Marina Oswald.

We have determined that Marina Oswald has rented a home at 629 Beltline Road, Richardson, Texas, which is located approximately eighteen miles from Dallas, Texas. We have learned Marina Oswald probably will not move into this rented house until sometime during the weekend of February 29 to March 1, 1964, inasmuch as she has not yet purchased sufficient furniture. She had an appointment with her attorney, Mr. William A. McKenzie, to go to Fort Worth, Texas, February 26, 1964, for the purpose of picking up some money donated to her in that city.

Our coverage of Marina Oswald on February 24, 1964, disclosed her only contacts, with the exception of our Agents who interviewed her on that day, were with her attorneys, Mr. William A. McKenzie and Mr. Henry Baer, who is Mr. McKenzie's law partner.

Marina Oswald on February 25, 1964, from 2 p.m. to 5:30 p.m. Her attorney, Henry Baer, appeared at the Ford residence at 2:09 p.m. and departed the residence at approximately 5:45 p.m.

At approximately 8:47 p.m. a man and woman driving an automobile registered to Mr. Isaac Don Levine, R.F.D. 1, Waldorf, Maryland, visited the Ford residence. This couple remained at the Ford residence until approximately 11:10 p.m., February 25, 1964. We have previously been in contact with Mr. Levine at which time he told us that he planned to interview Marina Oswald concerning a possible contract to write a book concerning her. Page 1846 of "Who's Who in America," Volume 32, 1962 - 1963, contains a biographic sketch of Isaac Don Levine.

Our coverage of Marina Oswald on February 26, 1964, revealed she left the residence of Declan Ford approximately 12:50 p.m. accompanied by her small child and Mrs. Ford. The party then proceeded to the office of Marina's attorney, William A. McKenzie, Fidelity Union Life Building, Dallas, Texas. Thereafter, Marina, her child, Mrs. Ford and an unknown individual who is believed to be Mr. McKenzie entered an automobile registered to Mr. McKenzie and proceeded to Fort Worth, Texas. After parking their car, the group proceeded to Room 707, Medical Arts Building, Fort Worth, Texas, which is occupied by Dr. Louis A. Saunders, Executive Secretary for the Fort Worth Area Council of Churches.

At approximately 4:45 p.m., February 26, 1964, Marina Oswald and her party entered the automobile registered to Mr. McKenzie and proceeded to Grand Prairie, Texas. The individual believed to be Mr. McKenzie then proceeded to the office of attorney John M. Thorne in Grand Prairie, Texas, where he remained until approximately 6:35 p.m. Thereafter, the group returned to Dallas, Texas. Marina Oswald, her child and Mrs. Ford then left the individual believed to be Mr. McKenzie and returned to the Ford residence.

The above is being furnished for your information.

Sincerely yours,

J. Edgar Hoover

NOTE:

Rankin spoke with the Director 2/24/64 and requested Bureau step up our coverage of Marina Oswald. He stated the Commission contemplates bringing Marina back to Washington for further testimony before the Commission as soon as this Bureau completed its interviews with her concerning the [redacted] and Nixon matter. We have furnished the Commission results of our inquiries concerning both of the latter matters.

Honorable J. Lee Rankin

The President's Commission

Washington, D. C.

Dear Mr. Rankin:

The following is in reply to your letter dated February 18, 1964, relating to Mrs. Shirley Martin of Hominy, Oklahoma.

This Bureau has received several communications from a Mrs. Shirley Martin of Box 566, Hominy, Oklahoma, who appears to be identical with the subject of your inquiry. Mrs. Martin has directed letters to the United States Department of Justice, which have been referred to us, as well as sending letters directly to this Bureau. One communication from Mrs. Martin inquired as to why we had shown a photograph of Jack L. Ruby to Lee Harvey Oswald's mother before Oswald was murdered. This letter was acknowledged and Mrs. Martin was advised no such photograph had been shown. She immediately wrote back and inquired if any other photographs had been shown.

This latter communication from Mrs. Martin was received at the same time we were handling a referral from the United States Department of Justice in which Mrs. Martin claimed to have seen a photograph in the December 14, 1964, issue of "The Saturday Evening Post," of an individual on a rooftop with a rifle near the assassination site. Inasmuch as Mrs. Martin did not fully identify the photograph, she was interviewed for this purpose by our Oklahoma City Office. At the time of interview Mrs. Martin was also advised that all evidence developed by this Bureau was being forwarded to the President's Commission and that we were making none of the information public.

Honorable J. Lee Rankin

During the interview Mrs. Martin identified the photograph appearing on the lower half of page 25 of the aforementioned magazine as the one she had referred to. Two photographic copies of page 25 are enclosed. Mrs. Martin stated she was referring to the small figure located just over the stars in the United States flag on the Presidential limousine. We are endeavoring to obtain the original of the above photograph for your use. You will be advised of the results of our efforts to obtain it.

At this time Mrs. Martin appeared antagonistic and somewhat eccentric. She claimed our Agent's presence in her home was primarily to question her and when advised our Agent was there only in response to communications she had sent to the United States Department of Justice and the Federal Bureau of Investigation and not to questinn her, she said, "You asked me my name didn't you?" During the conversation she made other statements considered offensive and insulting and it appeared Mrs. Martin was deliberately attempting to provoke an argument.

Mrs. Martin's most recent letter to this Bureau is dated February 10, 1964. In this letter she states she was discouraged to read in the newspaper that the United States Secret Service had suggested it would be safer and easier for Marina Oswald if she returned to the Soviet Union. Mrs. Martin states since Mrs. Oswald had publicly stated she does not want to return to the Soviet Union she questioned the spontaneity of Mrs. Oswald's testimony before the President's Commission.

This letter was not acknowledged, but because of her referance to the United States Secret Service, a copy of her letter was directed to that agency. In view of our prior experience with Mrs. Martin and in the absence of a specific request from you, no contact with her will be made.

Honorable J. Lee Rankin

We have developed no information which would indicate any connection between Mrs. Martin and Mrs. Ruth Paine of Irving, Texas, however, Mrs. Paine is being interviewed for any information she may have concerning Mrs. Martin inasmuch as your letter states Mrs. Martin has returned from a visit with Mrs. Paine. When the results of this interview are received you will be promptly notified. As you are aware, we have furnished the President's Commission numerous reports relating to the Paines.

Sincerely yours,

Dear Mr. Rankin:

Reference is made to my letter dated February 19, 1964, which reported that Marina Oswald had expressed the belief that she took the photograph of Lee Harvey Oswald with the rifle and pistol using her husband's American camera. She described the camera as grayish in color, something like aluminum.

On February 24, 1964, Mr. Robert Lee Oswald, brother of Lee, furnished to a Special Agent of the Dallas Office of this Bureau a Duo-lens Imperial reflex camera which he stated was the property of Lee. This camera is aluminum colored, uses roll film, number 620, has a matching gray plastic carrying strap and is equipped for use with a flash attachment. Robert advised that he obtained this camera from the residence of Mrs. Ruth Paine, Irving, Texas, in December, 1963. At that time it did not contain film. He advised that this camera was purchased by Lee in about 1957 and Lee subsequently left it with Robert in about 1959 when Lee went to Russia. After Lee returned from Russia, he regained possession of this camera and, as far as Robert is aware, retained possession of it until his death. Robert stated that, although this camera is equipped for use with a flash attachment, he had no knowledge that Lee had such an attachment.

62 109090 -

On February 25, 1964, this camera was displayed to Marina Oswald and she immediately identified it as the American camera which belonged to her husband and the one which she used to take the photograph of him with the rifle and the pistol.

On February 24, 1964, Robert also made available to a Special Agent of this Bureau an Eastman Baby Brownie box camera which is currently in an inoperable condition. According to Robert, this camera also belonged to Lee and Robert first saw it in about 1953 in New York City when Robert visited his mother at her home in New York City. Robert last saw this camera in about 1953 when Lee gave it to Robert's daughter Cathy. To the best of Robert's knowledge, Lee did not have this latter camera in his possession subsequent to 1953.

Both of the above-mentioned cameras will be retained by this Bureau along with the other items of evidence in this case.

SEC'Y-READING ROOM

Dear Mr. Rankin:

Reference is made to our letter of February 20, 1964, setting forth results of our interview with Mr. Robert L. Oswald, brother of Lee Harvey Oswald, on February 18-19, 1964. Your particular attention is directed to page five of our letter reporting information from Robert Oswald to the effect that Lee Harvey Oswald had intended to shoot Mr. Richard Nixon.

For your information, we reinterviewed Mr. Robert Oswald, regarding the Richard Nixon incident, February 24, 1964. Robert Oswald stated the information that Lee Harvey Oswald planned to shoot Mr. Nixon was first relayed to him by James Herbert Martin approximately 2:00 P.M., Sunday, January 12, 1964. He added that he has determined now that his entry in his diary showing the date he received such information from Martin as January 13, 1964, is incorrect.

According to Robert Oswald, Martin told him that Marina had told Martin that Lee Harvey Oswald was going to shoot Nixon one day and when Lee Harvey Oswald went to the bathroom, she locked the door and kept him there all day. Martin furnished no additional details regarding such incident to Robert Oswald and the date of the incident was not mentioned.

On the same day, January 12, 1964, approximately 3:00 P.M., Marina Oswald told Robert Oswald, while they were en route to the cemetery to visit the grave of Lee Harvey Oswald, that Lee was on his way to kill Nixon one day and that he went in the bathroom, at which time Marina locked the door and kept him there all day. Robert Oswald stated he told

Marina that James Martin had already told him about the incident and he asked Marina if Lee was very mad. Marina replied that at first Lee was mad but when she let him out of the bathroom, he had calmed down. Robert indicated he asked if Lee had beaten Marina and Marina replied, "No, he didn't spank me." Robert Oswald further advised that he does not know where Marina and Lee were living, does not know how she prevented Lee Harvey Oswald from breaking out of the bathroom and does not know what date this incident occurred. He indicated that at the time he learned this information, he recalled having read in the papers about Nixon being in Dallas and believes he read such article sometime during the fall of 1963.

In conclusion, Robert Oswald stated he had not furnished this information to the FBI or any other Governmental agency until February 19, 1964, when he furnished the information to Special Agents of our Dallas office.

The above is furnished for the information of the Commission. Results of our interview with Marina Oswald concerning the Richard Nixon incident were furnished to the Commission in our letter of February 26, 1964.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Hoover:

As you are no doubt aware many publications during the past week have carried pictures of Lee Harvey Oswald shown with a rifle and revolver.

I have reason to believe that this picture was made available to Life Magazine and various newspapers by Mr. Thorne or Mr. Martin on behalf of Marina Oswald. Congressman Ford has requested that I ascertain the circumstances under which these pictures were released to the press. I would appreciate your conducting an appropriate investigation.

Thank you for your assistance.

Dear Mr. Hoover:

Early in our investigation Reverend John Taylor Holman, of Port Clyde, Maine, corresponded with the Commission and made a claim that he was in possession of information vital to our inquiry. In answer to his first letter we asked him to submit the information by mail. However, on January 31, 1964, he wrote a letter which is enclosed and in which he again asserts his claim.

The Commission now feels that the most expeditious way of bringing the correspondence with Reverend Holman to a conclusion and at the same time determining the validity of his assertions is by Bureau interview. If you agree, we would appreciate your Bureau handling the matter and advising of developments.

Thank you for your continued cooperation in the work of this Commission.

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY
NOVEMBER 22, 1963, DALLAS, TEXAS

Enclosed for Boston and Dallas is a copy of a letter received from the President's Commission dated 2-18-64, as well as a copy of a letter from Reverend John Taylor Holman of Port Clyde, Maine. These communications are self explanatory.

For your information, Bureau files disclose that Reverend Holman has communicated with the Director on three occasions, the earliest being 2-12-33, and the most recent being 3-2-61. On two occasions, Holman referred matters to the FBI not within the Bureau's jurisdiction. His letters were so acknowledged. His most recent letter protested our acknowledgement that a matter was not within our investigative jurisdiction. This letter was again acknowledged reiterating our position. No other information of pertinence could be located.

Boston is instructed to immediately locate and interview Reverend Holman in line with the request of the President's Commission. Any additional investigation necessary to resolve this matter must be immediately handled by teletype.

Results of investigation must be furnished the Bureau in letterhead memorandum form suitable for immediate dissemination without further editing or correction. In addition to the letterhead memorandum, Boston is instructed to incorporate the results of investigation in insert form and submit 25 copies to Dallas. Your letterhead memorandum and inserts should contain appropriate excerpts from the Commission's request and Reverend Holman's letter so that it is readily understandable to any reviewing official.

No delays in ahandling this matter will be tolerated.

REV. JOHN TAYLOR HOLMAN
PORT CLYDE, MAINE

Mr. J. Lee Rankin, General Counsel, President's Commission on the Assassination of President Kennedy, Washington, D. C., by letter dated February 18, 1964 to Mr. J. Edgar Hoover, Director, FBI, Washington, D. C. advised that early in the Commission's investigation, Reverend John Taylor Holman of Port Clyde, Maine, corresponded with the Commission and made a claim that he was in possession of information vital to the Commission's inquiry. The Commission requested Rev. Holman to submit the information by mail; however, on January 31, 1964, Rev. Holman wrote the Commission and indicated he had documentary evidence to substantiate his assertions and listed the names of twelve individuals in the Port Clyde, Maine, area who could corroborate his statements. He further advised that the evidence was in his attorney's possession and that he was going to publish it in a newspaper. He concluded by stating that these people, meaning his references, knew the truth in this matter and were shocked beyond measure that such a thing could happen in the United States of America.

In his letter of February 18, 1964, Mr. Rankin suggested that the most expeditious way of bringing the correspondence with Reverend Holman to a conclusion and at the same time determining the validity of his assertions, was by interview by an FBI representative.

On February 21, 1964, Reverend John Taylor Holman, Port Clyde, Maine, advised that he could explain the "why" or reason for President Kennedy's assassination but not the how. He explained the "why" by saying, "I turned President Kennedy over to God because of his failure to be just and fair". He said he did not want or wish for President Kennedy's death but that God punished the President because he did not take action

in righting the wrong done to him, Rev. Holman, by the United States Government.

Rev. Holman said his trouble began in 1960 when he filed his 1959 income tax forms with the Internal Revenue Service at Augusta, Maine, wherein he claimed as a deduction the sum of $611.28 under "Loss in Ministry". This claim was disallowed by the Internal Revenue Service as officials of that organization indicated that Reverend Holman gave up the ministry some years ago and that his name was dropped from the rolls of the Maine Conference of the Advent Christian Church.

Reverend Holman stated he is a duly ordained minister and is so listed in The Advent Christian Manual which is published by the Advent Christian General Conference of America. It is this documentary evidence which he has in his possession and a copy of which he sent to the late President Kennedy to show that the Government was not only lying but also defaming his character. This matter, according to Rev. Holman, was ignored by President Kennedy and he had no alternative but to turn the President over to God when "I conversed with Him".

Reverend Holman indicated that President Kennedy's death was the third such matter "I have turned over to God". He explained that when his garage burned down and the insurance adjustor would not make a fair adjustment, "I turned him over to God". He then wrote the adjustor a letter complaining of his mistreatment. According to Reverend Holman, on the day the adjustor received this letter, he dropped dead.

Mr. John Richardson, the publisher of the local newspaper in Rockland, Maine, published a story about Reverend Holman which was, according to Holman, erroneous and untrue. Reverend Holman gave the publisher a thirty-day ultimatum in which to print a retraction and spoke to God and told Him that if the retraction was not printed in the allotted time, "I am turning John Richardson over to You". At the end of thirty days, "Mr. Richardson, who had not printed a retraction, dropped dead".

REV. JOHN TAYLOR HOLMAN
PORT CLYDE, MAINE

Reverend Holman stated that he has written to President Johnson concerning his difficulty with the Internal Revenue Service "but as yet, I haven't turned him over to God".

The following individuals were contacted on February 21, 1964:

Mr. Robert Gregory, J. F. Gregory Sons, Inc., Rockland, Maine, listed as a reference by Reverend Holman, described Holman as "a nut", who is considered to be "a character" in the Rockland, Maine area.

Mr. Francis Hedrich, 102 Gay Street, Rockland, Maine, who is Vice-President of the First National Bank of Portland in Rockland, Maine, and listed as a reference by Reverend Holman, described him as "an erratic, with a wild imagination". He said Holman is an honest individual but "different", meaning he likes to be a non-conformist.

Mr. Joseph Robinson, Rockland, Maine, former President of the First National Bank of Portland in Rockland, Maine, advised he has known Reverend Holman for over fifteen years and "I would take anything he says with a grain of salt". He stated that Holman is strong-willed, highly opinionated and has "an over-active imagination".

Chief of Police Maurice Benner, Police Department, Rockland, Maine, advised that Reverend Holman is "an unusual type of individual". He explained that Holman likes to take the opposite view of things and seems to be "at war with authority". He said Holman's son came up in the roll call from the Local Draft Board but Holman did everything he could to keep his son from being drafted. At the time, his son was a member of the Rockland Police Department and became so aggravated with his father's tactics that he voluntarily enlisted in the Armed Forces.

A description of Reverend John Taylor Holman as obtained from interview and observation is as follows:

Dear Mr. Rankin:

Reference is made to your letter dated February 18, 1964, relating to Reverend John Taylor Holman of Port Clyde, Maine.

Enclosed are two copies of a communication prepared by our Boston, Massachusetts, Office dated February 22, 1964, containing the results of our investigation, including an interview with Reverend Holman.

In view of the reference to President Lyndon B. Johnson on page three, copies of this communication have been furnished to the United States Secret Service.

This concludes our inquiry into this particular matter.

Sincerely yours,

NOTE:

This item previously on Director's "Special List". The President's Commission forwarded a letter from Reverend Holman. Holman reportedly communicated with Commission in past indicating he had important information but Commission asked him to mail it. Holman in current letter apparently was upset over Commission's lack of interest and reiterated he has "vital" information possibly relating to President's assassination. Interview of Holman by Boston Office discloses Holman is possibly "a nut" and is at least described as "different," "an erratic with a wild imagination" and "a character." Submission of letterhead memorandum to Commission ends our inquiry. Holman furnished no information of value. His "vital" information related to income tax difficulties with the Government wherein he claimed he had proof the Government had not treated him fair.

Dear Mr. Hoover:

Your Bureau's memorandum report dated December 3, 1963, entitled "Lee Harvey Oswald" sets forth information furnished by Mexican attorney Arturo Alcocer Ruiz and his wife, Dolores Ahedo De Alcocer, and their friend, Maria Luisa Leon, that they saw a woman believed by them to be a sister of Jack Ruby in the vicinity of the Presidential caravan in San Antonio, Texas, on November 21, 1963, and again on television at the time a man apparently connected with Oswald's Beckley Street address was being interviewed.

If you have not already done so, it would be appreciated if your Bureau would conduct an appropriate investigation including a review of tapes of television interviews broadcast in the San Antonio area on November 22, 1963 at 6 p.m. to determine the possibility of the Ruiz and Leon claim.

Thank you for your continued cooperation in the work of this Commission.

General Counsel
The President's Commission

Dear Mr. Rankin:

Reference is made to your letter of February 18, 1964, requesting this Bureau to conduct appropriate investigation to resolve the allegation of Mr. Arturo Alcocer Ruiz, his wife, Dolores Ahedo De Alcocer, and their friend, Maria Luisa Leon, that they saw a woman believed by them to be a sister of Jack Ruby in the vicinity of the Presidential caravan in San Antonio, Texas, on November 21, 1963, and again on television at the time a man apparently connected with Oswald's Beckley Street address was being interviewed.

For your information, we have determined that Jack L. Ruby has four sisters: Mrs. Eva L. Grant, 3929 Rawlins Street, Apartment 1, Dallas, Texas; Mrs. Marian Carroll and Mrs. Ann Volpert, both of whom reside at 1044 West Loyola Avenue, Chicago, Illinois; and Mrs. Harold Kaminsky, 6724 North Talman, Chicago, Illinois.

We interviewed Mrs. Marian Carroll, Mrs. Ann Volpert and Mrs. Harold Kaminsky in Chicago immediately following the arrest of Jack L. Ruby on the charge that he shot Lee Harvey Oswald. They advised that they had not been to Texas during the period immediately before or after the assassination of the President. We also interviewed Mrs. Eva L. Grant at her residence in Dallas on November 25, 1963. Mrs. Grant was at that time recuperating from an operation. She indicated she was in her apartment in Dallas during the immediate period prior to and following the assassination of the President and had been

visited at her apartment by her brother, Jack L. Ruby, after the assassination of the President and before Ruby was arrested for shooting Lee Harvey Oswald.

We interviewed Mrs. Rex B. Goodman, manager of the apartment house at 3929 Rawlins Street, Dallas, Texas, on December 21, 1963, at which time she furnished information concerning Mrs. Eva Grant. Mrs. Goodman also told us that Mrs. Grant was recovering from an operation at the time of the assassination of President Kennedy, and that it would have been impossible for her to have been in San Antonio, Texas, on November 21, 1963.

In connection with your request that this Bureau review the tapes of television interviews broadcast in the San Antonio, Texas, area on November 22, 1963, at 6:00 P.M., we determined from James M. Gaines, President, WOAI TV; Bob Roth, President, KONO TV; and Wayne Koarl, Manager, KENS TV that their stations were carrying live television network programs from 6:00 P.M. to 6:30 P.M. on November 22, 1963, and that tapes were not made of the programs.

No additional inquiries concerning this allegation are contemplated by this Bureau in the absence of a specific request from the Commission.

Sincerely yours,

J. Edgar Hoover

Honorable J. Lee Rankin

BUREAU NOTE:

We received an allegation through the Legat, Mexico from Mr. Ruiz and his party that they had been in San Antonio on November 21, 1963, and saw a very fat woman approximately fifty years of age who acted peculiar inasmuch as she stood in front of a certain store for several hours. They added that the following day on November 22, 1963, they saw what appeared to be the same fat woman on a television program which showed interview of an individual at Oswald's rooming house on Beckley Street. They further stated they subsequently saw a television program on 11-24 where Jack Ruby's sister was being interviewed and they felt she was the same fat woman seen in San Antonio and at the Beckley address on television. Obviously, the allegation has no basis in fact. This is another of the many false reports we have run down in this investigation.

LEE HARVEY OSWALD

IS - C

Marina Oswald was interviewed on February 24, 1964. She stated that approximately two weeks after the General Walker incident and while they resided on Neely Street in Dallas, Oswald, some time between 11 a.m. and 1 p.m., dressed himself in a suit and tie and put a pistol underneath his jacket. (The General Walker incident occurred on April 10, 1963.) She said Oswald was unemployed at this time. She said she inquired where he was going, to which Oswald replied approximately, "Nixon is coming and I'm going to take a look."

Mrs. Oswald said that at the time she realized she had to act fast, whereupon she walked into the bathroom and told Oswald to come into the bathroom with her, which he did. She said she then quickly jumped outside the door, closing it as she left the bathroom. She said she forcibly held the bathroom door shut holding on to the knob and bracing her feet against the wall. She said Oswald attempted to get out of the bathroom and was yelling, "Open the door." She said she forcibly held the door shut for about three minutes. In this respect she said that she cannot at this time accurately recall the length of time she forcibly held the bathroom door closed. She said she told Oswald it was difficult for her to hold the door and commented to him that something might happen to the baby. She said that she was pregnant at this time.

She said she told Oswald he was not going to shoot at anyone else and that if he wanted to come out of the bathroom, he would have to walk across her body. She said she reminded Oswald of his promise to her after the Walker incident that he would not try to do anything else like that. She recalled she said something like, "How can you deceive me after you gave me your word." She said she told Oswald she would open the door if he would give his word to remain in the bathroom and not go anywhere and if he would undress and give her his clothing and pistol. Mrs. Oswald said that her husband agreed to this and she opened the bathroom door after holding it, as stated, for approximately three minutes.

Oswald then took off his outer garments, including his shoes, and gave them and his pistol to her. She said that she put the pistol under the mattress and that she does not know whether or not the pistol was loaded. Later that day Oswald took the pistol from under the mattress and put it on the shelf where he usually kept it.

Mrs. Oswald said that the bathroom door at their Neeley Street residence opened toward the inside and there was no lock on the outside of the door, although she believes there was a lock on the inside. She said that she feels that she kept Oswald in the house on the occasion in question by persuasion and that this was one of the times he did something that she wanted him to do.

Mrs. Oswald commented that Oswald remained in the bathroom approximately three hours. She said he asked her for a book and that he spent the time in the bathroom reading with the door shut. She recalled that at about 4 p.m. she told Oswald he could come out of the bathroom if he desired, and he did so. He thereafter sat in the living room in his shorts reading. She said that he did not leave the house that day.

Mrs. Oswald said that at the time she did not know who Richard M. Nixon was and she did not recall Oswald ever mentioning Mr. Nixon's name prior to the occasion in question. She said she knows at this time that Mr. Nixon once ran for the presidency, but she said she still knows very little about him. She maintained that she and Oswald did not talk about this incident or about Mr. Nixon after the incident and, in fact, did not discuss the matter during the time Oswald was sitting in the bathroom or after he came out of the bathroom.

Mrs. Oswald said that she told Mr. and Mrs. James R. Martin about the Nixon incident approximately three to four weeks after she moved into the Martin residence and, thereafter, she repeated it to Robert Oswald. She stated she cannot recall whether she told Robert Oswald about the Nixon incident in the presence of the Martins or whether she spoke to him about it alone.

Mrs. Oswald was again asked if she could remember anything which might have indicated to her that Oswald was to do anything unusual on November 22, 1963. She said that she could not remember anything which would indicate this and that the news of her husband's arrest had come as a "thunderclap" to her.

Mrs. Oswald stated that while she and her husband resided in New Orleans on Magazine Street toward the end of August or early in September, 1963, for a period of about two weeks, Oswald was making plans to hijack an airplane and force the pilot to take him to Cuba. She said he subsequently revised his plans to the extent that he included her as part of his planning. She said he told her that he was to sit at the front of the airplane with a pistol and that she was to sit at the back of the plane with a pistol. They were to be accompanied by their daughter June and were to attempt to force the crew to fly the plane to Cuba. Mrs. Oswald stated that she refused to have anything to do with the plan and told Oswald, "Only a crazy man would think this up." She said Oswald told her he would buy a lightweight pistol for her and that he wanted her to at least learn how to hold it. She said she refused to do this. She said her husband told her that he had seen some lightweight pistols, but that she told him not to purchase one as she would not participate in the scheme.

She said she recalled that Oswald, during the period of time when he was planning to hijack the airplane, studied a world map and figured out distances to various places. She said he told her it would be necessary to hijack a plane with sufficient gas to get them to Cuba. She recalled that Oswald wrote out timetables of airlines on a piece of paper. She does not know what happened to the map or to the paper on which he wrote the timetables. During this period she stated that Oswald began to take physical exercise to increase his physical strength.

She said that when she refused to take part in the scheme to hijack an airplane, she counseled Oswald to attempt to enter Cuba legally. Thereafter, her husband began planning to go to Mexico alone for the purpose of obtaining permission to enter Cuba.

Concerning James H. Martin, Mrs. Oswald stated that Martin told her while she was in residence at his home that he had undergone an operation and could not father children.

By letter 2-17-64 we furnished the Commission information received from a source that Marina Oswald was [redacted] her business manager, James Herbert Martin, during her recent stay in Washington, D. C., when she testified before the Commission. By letter 2-18-64 Mr. Rankin requested this Bureau conduct certain investigation in this matter.

In accordance with the request of the Commission, we expeditiously conducted interviews February 18-19, 1964, with Robert Oswald and Marina Oswald. We have taken signed statements from both. John Thorne refused to furnish any information regarding this matter and claims he considers himself Martin's attorney and respects the attorney - client relationship. Thorne added he would advise Martin not to submit to interview and, in presence of Dallas Agents, telephonically contacted Martin and recommended Martin refuse to be interviewed by FBI in this matter. Martin then informed Thorne to tell Bureau Agents he did not desire to be interviewed in this matter.

Inasmuch as Robert Oswald is to appear before the Commission at 10:00 a.m., 2-20-64, we have incorporated details in Robert Oswald's signed statement in a letter to the Commission, which is attached. Other data developed will be immediately furnished to the Commission upon receipt.*

In connection with the incident that occurred between Marina Oswald and her business manager, James Herbert Martin, during Marina's recent stay in Washington, D. C. when she testified before the Commission, the Commission has requested this Bureau to conduct appropriate investigation to develop full circumstances surrounding the incident. One of the things the Commission desired us to obtain was whether the [redacted] between Martin and Marina Oswald occurred at a time when she was under protective surveillance of the Secret Service.

We contacted the Secret Service in this matter February 19, 1964, and have obtained from them the memorandum setting forth details of its protective detail for Mrs. Marina Oswald. In its memorandum, Secret Service sets forth circumstances which placed Marina Oswald in contact with James Martin on November 24, 1963. Secret Service also sets out data concerning its protective custody of Marina in Dallas during the period following the assassination.

Secret Service also sets out in detail its coverage of Marina Oswald during the period February 2 - February 7, 1964, when Marina testified before the President's Commission. Secret Service reports that it afforded Mrs. Oswald protective attention until 2/7/64 at approximately 2:30 P.M. when Secret Service discontinued its protection at the request of Mrs. Oswald.

The Secret Service memorandum reports that Agent Gopadze notified his superior February 3, 1964, that Mr. Norman Redlich of the Commission's staff reported to him a rumor which had been received by the Commission that Martin and Mrs. Oswald were in love with each other. Special Agent Gopadze was instructed to interview Marina about this rumor and Marina indicated that she felt Martin was falling in love with her and that Martin had told her she should buy a small house in Dallas and perhaps some day they could be married. Special Agent Gopadze indicated he told Marina she was playing a very dangerous game; and that if she got messed up in a divorce suit, she might find herself in trouble with immigration authorities.

The Secret Service memorandum reveals that Secret Service Inspector Thomas J. Kelley informed Mr. Rankin of the Commission on February 6, 1964, that Marina desired to be relieved as soon as possible of the Secret Service protective detail and that Mr. Rankin indicated the Commission did not insist on any further surveillance of Marina but would leave the decision as to the withdrawal of the security to Secret Service.

The Secret Service memorandum also reports that one Secret Service agent who had the midnight shift 12:00 to 8:00 A.M. stated that Mr. Martin would not leave Marina's suite until 1:30 or 2:00 A.M. each morning during the period Secret Service maintained its coverage. This agent stated he assumed they stayed up late looking at television since he heard the television on very late and he did not consider the incident as being significant in view of their past relationship.

In connection with the above, it is noted that in our interview with Marina Oswald February 19, 1964, at which time she admitted engaging in [redacted] with Martin, she stated such act took place on the night of February 7, 1964, and after Secret Service had withdrawn its protective detail.

The Director has requested further analysis of the operations of SA Henry M. Wade while Wade was serving in the Bureau's Special Intelligence Service (SIS) in Ecuador. The requested information is set forth herein.

SA Wade entered on duty on December 4, 1939, and resigned September 1, 1943, to enter the Armed Forces. On June 1, 1942, he was placed on leave without pay after completing five weeks of SIS training. He left New Orleans, Louisiana, on August 3, 1942, and arrived in Quito, Ecuador, on August 16, 1942. He was in an undercover capacity as an employee of Transradio Press Service Incorporated, 521 Fifth Avenue, New York City. He was assigned SIS Number 345 and used the code name "James" in signing communications. Within Ecuador, he was referred to as Confidential Informant Number 6. He left Ecuador 5/2/43.

As an undercover man, Wade was not directly associated with the Legal Attache's Office in Quito but did submit his vouchers and reports through that office. He was also given a post office box in New York City through which he could communicate directly with the Bureau. While in training he received Spanish lessons, a course in coding and secret inks, and definite instructions regarding preparation of his expense vouchers.

Wade submitted vouchers twice monthly through the Legal Attache who reviewed and forwarded them to Bureau. They were then checked and approved and a check was transmitted to the SIS Office in New York City for Wade's account. The monetary unit in Ecuador is a sucre which was, during Wade's tenure, 7.3 cents or $7.30 per hundred.

NOT RECORDED

File review shows Wade operated under a system of controls requiring him to furnish complete data identifying informants used and payments made. It was policy to insist that receipts be obtained whenever possible. In the few instances where informants refused to sign receipts, Bureau was furnished all other data and record was still made of payment and informant who received same.

Memorandum Mr. W. C. Sullivan
to Mr. A. H. Belmont
RE: LEE HARVEY OSWALD

Wade handled a total of 11 informants. One was never paid. Two others accepted no money and one of these was taken to dinner on four occasions at total cost of $27.08 with each expenditure identified and fully described in Wade's vouchers. The other was given a radio which cost $43.80 and this item was clearly described in Wade's voucher and supported by the radio dealer's receipt.

Wade's vouchers clearly identified each expenditure as to informant paid and amount. Wade paid a total of $1438.21 to his other eight informants and furnished full data on each payment in his vouchers. He separately provided summary data on all informants he was using, amounts being paid, and evaluation of services.

Regarding receipts, five of the eight paid informants were the most productive and these five received a total of $1284.94 in 52 separate payments. Each of these payments was supported by a receipt from the informant and we have these in file.

Of the three remaining informants, two were paid only once by Wade and each received 100 sucres ($7.30) but gave no receipts. The third received four payments from Wade, totaling $182.50, and gave no receipts. However, the payments to all three of these informants were fully identified in vouchers submitted by Wade. There is attached a listing of Bureau funds spent by Wade on informants.

Wade, on July 6, 1942, received an advance from the Bureau of $1075.00. This was for subsistence and travel in connection with his assignment and also provided him some money for operations. His passage from New Orleans to Guayaquil, Ecuador, cost over $500. Wade was required to make full restitution of this advance and repaid $402.47 immediately after arriving in Ecuador. The balance was repaid in three installments during June, 1943, after his return to this country. Wade also received per diem at $7.00 per day until February 1, 1943, when this was discontinued.

Copies of Wade's vouchers and receipts received from informants have been prepared and are available for delivery to the Commission if such action is desired.

OBSERVATIONS: Our records show that Wade was operating under a control system and adhered to it by advising the Bureau of payments made and informants being paid, supported by receipts in nearly

every instance. Nevertheless, the emergency wartime conditions prevalent at the time did not permit the tight supervision of SIS informant operations which we now have. SIS men were necessarily developing and paying informants on the spot without prior Bureau approval, reporting such payments after they were made. We can say from records that if Wade did use and pay any other informants, contrary to instructions given him, they were not paid from Bureau funds and the transactions were never reported to the Bureau.

ACTION:

For information. There is, of course, no further proof available that payments were actually made to the informants listed by Wade in his vouchers, particularly those from whom receipts were not obtained. It is conceivable that even the receipts could have been forged and represent fictitious payments. However, we have absolutely no basis for questioning the honesty of Wade in his handling of these SIS informants.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

Our attached memorandum, 2/3/64, details the Special Intelligence Service (SIS) operations of former SA Henry M. Wade, particularly his handling of informants. With regard to the $1,075 advance received by Wade before going to Ecuador, the Director has asked whether there was an accounting for this money. The Director also asked to see the copies of Wade's vouchers and of receipts received from informants by Wade. This is to provide the requested information.

With regard to the $1,075 advance to Wade on 7/6/42 before he left for Ecuador, this money was completely accounted for by Wade and was paid back to the Bureau in four installments. Wade's voucher for July, 1942, listed his expenditure for passage from New Orleans to Ecuador. Accordingly, when this voucher was paid, on 9/4/42, $402.47 was withheld to be deducted from his advance account. The balance of $672.53 was paid back to the Bureau by Wade in three installments during June, 1943, after his return to this country. Two installments, totaling $587.48, represented money which would have been paid to Wade for vouchers submitted by him covering his legitimate expenditures during the last month he was in Ecuador and included $307.55 for his air travel from Quito to Washington. Instead, this money was credited to the advance fund of Wade. The remaining $85.05 was repaid to the Bureau on June 4, 1943, by deducting this amount from money due Wade on an expense voucher for the period 5/15-31/43 after he was back in the United States. Therefore, the total amount advanced to Wade was completely accounted for and repaid to the Bureau in the form of deductions by the Bureau from money due him on his vouchers which itemized expenditures in detail. A copy of the Bureau's ledger sheet on Wade's advance account is attached.

Copies of the vouchers submitted by Wade while in Ecuador and the receipts he received from informants there are attached. In a few instances, we even have receipts from sub-informants who assisted Wade's informants but were not paid directly by Wade. As mentioned earlier, Wade had SIS #345 and, within Ecuador, was referred to as Confidential Informant #6. He also used the code name "James."

Due to the bulk of this material, other receipts received from Wade for office supplies, Spanish lessons, typewriter repairs, et cetera, are not included.

If this data is furnished to the President's Commission, it may become public information. In such an event, the informants who signed the receipts may be questioned by their government in Ecuador, as Wade was in Ecuador on a clandestine basis. It is also possible, although we have not checked, that some of these informants were turned over to CIA when the FBI left Ecuador.

INTERNAL SECURITY - RUSSIA - CUBA

SAC Shanklin, Dallas, called at 2:15 p.m. today to advise of the results of his interview with Dallas District Attorney Henry Wade regarding his statements before the President's Commission.

Shanklin advised that Wade claimed that the discussion with the Commission was quite informal and that as far as he knew no notes were taken. He recalled that during the meeting someone, he believed from the Commission, made mention of a voucher number 179 and connected it with Oswald. Wade said he told the Commission the FBI didn't have an informant without a number and that the identity of every informant was known at FBI headquarters but that in getting money from headquarters only the symbol number would be submitted in a voucher. Wade stated that in referring to a voucher, he had in mind an Agent's expense voucher and he said that the informant's name would never be submitted with such a voucher.

He also said that he had never heard of putting an informant on the payroll by name. He thinks he was asked about retaining receipts from informants and stated that he couldn't recall whether he had to retain receipts from informants or not. He said he tried to convey to the Commission that an informant could not be developed by an Agent without the knowledge of FBI headquarters.

Wade reviewed the expense accounts submitted while he was on SIS and he said that all funds expended by him were entirely and accurately accounted for and that he now realizes that he did get receipts and that the expenditures were reported to the Bureau in detail. He said he didn't handle any informants without the full knowledge of the Bureau.

Wade volunteered that he would be talking to Mr. Rankin in the next few days and that he was going to clarify the fact that he did obtain receipts from informants.

According to Wade, there was very limited talk about the possibility of Oswald having been an FBI informant and Wade told those present that he didn't think Oswald was, but then there was general

speculation about the possibility of Oswald having been a CIA informant. Wade recalled that Dean Storey (former President of the American Bar Association and Southern Methodist University), who is a close personal friend of Chief Justice Warren, told the Commission that he was aware that CIA had informants that were not known except to the individual CIA agents who were handling the informants. Wade pointed out the informality of the discussion and said it was more or less a general conversation with all present asking and answering questions and interjecting comments. Dallas is sending in a teletype of the interview with Wade.

Concerning the interview of reporter Lonnies Hudkins, it has been ascertained that Hudkins left Houston late yesterday with his family en route to Dallas. He has a residence in Dallas which he is attempting to sell. As yet he has not been located but Dallas is making every effort to locate him and expects to interview him later today. The results will be submitted to the Bureau immediately by teletype.

ACTION:

For information. When the complete results of the interviews of Wade and Hudkins are received, an appropriate letter will be prepared to Mr. Rankin.

[illegible] J. Lee Rankin
[illegible]
[illegible]s Commission
[illegible]ac, N. W.
[illegible]ington, D. C.

Dear Mr. Rankin:

Reference is made to our conversation of January 28, 1964, concerning information furnished to the Commission by Mr. Henry M. Wade, the District Attorney of Dallas County, Texas. You advised that Mr. Wade indicated he had heard that Lee Harvey Oswald had been an informant of the FBI, had been assigned symbol Number "179," and had been paid $200 monthly in this capacity. You further advised that Mr. Wade also indicated that FBI Headquarters was not in a position to know in all instances whether an individual was an informant of this Bureau.

For your information, Mr. Henry M. Wade was interviewed by Special Agent in Charge J. Gordon Shanklin and Assistant Special Agent in Charge Kyle G. Clark of our Dallas, Texas, Office on February 8, 1964, in this matter.

Mr. Wade claimed that during his discussion with the Commission in Washington, D. C., on January 24, 1964, which he referred to as a very informal discussion with no notes taken to his knowledge, there were present Chief Justice Earl Warren and yourself. Wade stated that William Alexander, his assistant; Waggoner Carr, District Attorney for the State of Texas; Robert Storey, former Dean of Southern Methodist University; and Leon Jaworski, Houston attorney, accompanied him during his discussion with the Commission.

According to Mr. Wade, during his discussion with the Commission on January 24, 1964, mention was made of voucher number 179 and the name Lee Harvey Oswald. Mr. Wade stated that no such voucher was produced or exhibited. Mr. Wade claimed that he told the Commission that the FBI did not have any

informant without a number and that an informant's identity was always known in FBI Headquarters. Mr. Wade added that he told the Commission that an individual Special Agent, in getting money for an informant from FBI Headquarters, submitted the informant's number on a voucher without a name. Mr. Wade also claimed he told the Commission that he had never heard of having an informant on the payroll by name.

Mr. Wade further stated that during his discussion with the Commission he thinks he was asked about retaining receipts from informants but he could not recall whether he had to obtain such receipts when he was handling informants on Special Intelligence Service assignment as an FBI Agent. Mr. Wade claimed he tried to convey to the Commission that an informant could not be developed by an FBI Agent without knowledge of FBI Headquarters.

During our interview with Mr. Wade, he reviewed the expense accounts submitted by him while he was on Special Intelligence Service assignment and he stated that all funds expended by him were entirely and accurately accounted for and that he now realizes he did get receipts and that the expenditures by him were reported to FBI Headquarters in detail. Mr. Wade also stated he did not handle any informants without the full knowledge of FBI Headquarters.

Mr. Wade volunteered that he would be talking to you within the next few days and he was going to clarify the fact that he did obtain receipts from informants.

Mr. Wade further stated that during his discussion with the Commission on January 24, 1964, he recalls there was a limited conversation about the possibility that Lee Harvey Oswald might have been an FBI informant and that there was more speculation that Oswald might have been an informant of the Central Intelligence Agency. He recalled that Mr. Robert Storey stated he was with the War Crimes Commission in Germany after World War II and either worked for or with the Central Intelligence Agency in Europe. Mr. Wade added that Mr. Storey indicated that the Central Intelligence Agency had informants that no one knew about except the Central Intelligence Agency Agent and that the informant might have an informant.

Honorable J. Lee Rankin

In conclusion, Mr. Wade reiterated that he told the Commission that he had no information to the effect that Lee Harvey Oswald was an informant of the FBI or any Governmental agency.

Sincerely yours,

NOTE: On 1-28 Mr. Rankin of the Commission met with the Director. At that time Mr. Rankin informed that Mr. Wade in appearing before the Commission stated that Lee Harvey Oswald bore the designation of "17" as an informant of the FBI and was paid $200 per month. Mr. Rankin also informed the Director of other comments made by Wade re the latter's assignment with the SIS during 1942 and 1943 wherein Wade alleged there was no record of how FBI funds were spent nor for what purposes they were used by employees of SIS.

SUBJECT: LEE HARVEY OSWALD, AKA
IS - R - CUBA

On the morning of 2-8-64 Mr. Lee J. Rankin, General Counsel, telephonically contacted extra duty supervisor, Paul J. Moore, and furnished the following information.

On the night of 2-7-64, one Rosalind Ladler, 292 Garfield Street, Brooklyn, New York, called Mr. Rankin and said she had seen Lee Harvey Oswald, time not mentioned, on Fulton Street, Brooklyn, New York, at which time Oswald was distributing "Fair Play for Cuba" leaflets. Oswald, according to Ladler, was talking to a friend as she passed by and she overheard Oswald speak about the late President Kennedy. Oswald said he hated Kennedy and his friend replied, "Why don't you do something about it?" Oswald allegedly said he might shoot him. Oswald further spoke about some impending trouble in Panama and said he hated Dean Rusk. No one else was present when Ladler overheard this conversation.

Mr. Rankin requested that Ladler be interviewed and any appropriate action taken concerning her story. He also indicated that he desired to know if Ladler's story were a fabrication, and he would like to know what was back of it. On the morning of 2-8-64, Mr. John F. Maybe, Supervisor, New York City, furnished the above information and instructed to locate and interview Ladler on 2-8-64 and furnish the Bureau a teletype summary of information obtained and follow with a letterhead memorandum suitable for dissemination.

Dear Mr. Rankin:

Reference is made to your telephonic request of this Bureau on February 8, 1964, concerning a telephone call received by you from one "Rosalind Ladler" (phonetic), of Brooklyn, New York.

On February 8, 1964, Miss Rosalynd Laidler was contacted at her home, 982 Garfield Place, Brooklyn, New York, at which time she stated she had seen Lee Harvey Oswald on Fulton and Jay Streets, Brooklyn, New York, when he was giving out pamphlets for The Fair Play for Cuba Committee one year ago. She stated she overheard him talking to an unknown male. Oswald stated that he was unhappy with President Kennedy and had bought a rifle from a mail-order house in Chicago, Illinois, and was going to kill the President. Miss Laidler then became very incoherent and irrational at which time the interview was brought to a conclusion as it was evident she was very upset.

Mrs. Agnes Laidler, mother of Rosalynd, advised that she tried to stop her daughter from making a telephone call to you and advised that there was no truth to her statements. Mrs. Laidler advised that her daughter is thirty years of age, and is mentally unbalanced. She stated that her daughter has been receiving psychiatric treatment for the past ten years and is always imagining things.

FROM : A. Rosen

SUBJECT: JACK L. RUBY, aka;
LEE HARVEY OSWALD, aka - Victim
CIVIL RIGHTS

Mr. J. Lee Rankin, General Counsel of the President's Commission, called today and requested Malley to come to his office in connection with several items he desired to discuss. Upon arrival Mr. Rankin introduced Mr. Leon Hubert, former professor of the Tulane Law School and now working with the President's Commission.

Mr. Hubert advised that the reports submitted by the Bureau in the Ruby case consistently mention many times Ruby's home address as 4727 Homer Street, Dallas, Texas. He noted that the report of SA Robert P. Gemberling dated 11/30/63, on page 618, shows Ruby's address as 4749 Homer Street. Mr. Hubert stated that this raised the possibility that Ruby may have been maintaining two residences and that if this were so the President's Commission would very definitely be interested in additional investigation concerning the circumstances of the second residence, who might have been residing with him, and all facts concerning the second residence. Mr. Hubert and Mr. Rankin were immediately advised that the area where Ruby resided was an apartment area and the possibility existed that a typographical error had been made. They both stated they realized this possibility but were extremely interested in the remote possibility that Ruby had two residences rather than whether a typographical error had been made. Mr. Rankin was advised this matter would be checked and he would be advised in the immediate future.

Mr. Hubert mentioned that Jack Ruby had sent a telegram on the morning of 11/24/63, the day he shot Oswald, to one of the performers of the Carousel Club who resided in the Fort Worth area and had wired this girl $25. He discussed the fact that the girl performed under the name of Little Lynn (real name Karen Bennett, who also uses the name of the man she is living with - one Bruce Karlin). She stated her landlady was pressing her for money and that she had to have the money by a certain time in order to pacify her landlady. Mr. Hubert inquired as to whether or not the Bureau had or had not interviewed her landlady. Mr. Rankin was advised this matter would be checked on and he would be advised immediately. Upon ascertaining whether the landlady was or was not interviewed, Mr. Rankin will be advised.

Memo to Mr. Belmont from Rosen
re: Jack L. Ruby

Mr. Hubert mentioned the fact that the Bureau had checked out the identities of a large number of individuals whose telephone numbers had been called by someone using Ruby's telephone. In this connection Hubert desired to know whether or not it would be possible to obtain further information from the telephone company to show the exact time the telephone call was made and what time it was terminated. He stated that if this type of information was available, the Commission was considering making a time study of all the telephone calls made by Ruby. He advised the significance of this was due to the fact that on 11/22/63, a call was made by Earl Ruby to Eva Grant in Dallas (Earl Ruby resides in Detroit), and that this call lasted for 49 minutes, the call being sometime during the morning of November 22, prior to the assassination of the President.

Concerning the availability of additional data at the telephone company Dallas will check this out and Mr. Rankin will be advised.

With reference to the foregoing requests of Mr. Rankin, a serious question is raised concerning any requests for investigation on the Ruby matter at this time. The hearing relative to a change in venue is in progress now and Judge Brown has indicated an effort will be made to select the jury commencing Monday, February 17, 1964. In view of this, any active investigation by the Bureau could result in publicity that might have an effect on the trial.

ACTION:

Dallas has been requested to obtain the necessary information to answer Mr. Rankin's questions.

Upon receipt of the information from Dallas, results will be made available to Mr. Rankin.

In the event Mr. Rankin requests any immediate investigation concerning matters relating to this case, it will be pointed out to him that the trial is in progr and that any investigation at this time could affect the results of the trial. He will also be advised that if he desires the investigation regardless of the fact that the trial is in progress, this will be handled at the specific request of the President's Commission.

Memorandum

TO : Mr. Belmont

DATE: 2/18/64

FROM : A. Rosen

SUBJECT: JACK L. RUBY, AKA.
LEE HARVEY OSWALD, AKA. - VICTIM
CIVIL RIGHTS

Mr. Leon Hubert, former professor of the Tulane Law School now working with the President's Commission, in a discussion with Mr. Malley 2/14/64 noted that the report of SA Manning C. Clements dated 11/30/63 reported Ruby's address as 4727 Homer Street, Dallas, Texas, but pointed out that on page 618 Ruby's address was shown as 4749 Homer Street and said this raised the possibility that Ruby may have been maintaining two addresses. The addresses 4727 Homer Street and 4749 Homer Street were accurately used in our report of 11/30/63. The variation in these two addresses is due to inaccurate information furnished to the Bureau by James M. Cooner of the Internal Revenue Service (IRS) who advised on 11/25/63 that Ruby's 1959 tax return showed his residence as 4749 Homer Street. There was no Bureau error involved in the use of this address as furnished by IRS.

ACTION

Mr. Malley will contact Mr. Hubert and advise him of the true facts regarding the variance in addresses of Ruby. He will specifically point out that there was no Bureau error involved in the use of the address 4749 Homer Street on page 618 of the Bureau's report.

DETAILS

The report of SA Clements on page 618 sets forth an interview with one George Bouhe, 4740 Homer Street. This interview was conducted on the basis of a report to the Dallas Office from James M. Cooner, IRS who on 11/25/63 furnished certain information from the tax files of Ruby and Oswald. Cooner noted that Bouhe, 4740 Homer Street, was listed as a reference for Oswald on an application for employment at a Dallas company in their file and stated that Ruby's 1959 tax return showed his residence as 4749 Homer Street which is approximately across the street from Bouhe's residence.

Bouhe, who was acquainted with Oswald, was interviewed because of the proximity of his address to that of Ruby's as furnished by IRS to determine if he was possibly acquainted with Ruby or knew of any connection between Ruby and Oswald. In the interview, the Agent advised Bouhe that Ruby had been reported to reside at 4749 Homer Street. In recording the interview, the address 4749 was properly set forth to show the basis of the interview and was not intended to designate the actual address of Ruby. When the 1959 tax return of Ruby was subsequently obtained, Ruby's address was clearly shown as 4727 Homer Street. Accordingly, Cooner's original information was incorrect.

In all other instances in the report where Ruby's addresses are reported as obtained from official records, it is accurately recorded as 4727 Homer Street. Numerous documents examined and persons interviewed have confirmed this as Ruby's correct address and investigation has not indicated that Ruby has ever resided at 4749 Homer Street.

SHE HAD PREVIOUSLY PLANNED TO RETURN TO DALLAS AND HE HAD ORIGINALLY PLANNED TO REUTRN WITH HER. HOWEVER, HE SUBSEQUENTLY DECIDED TO GO TO MEXICO FOR PURPOSE OF ENTERING CUBA. MARINA DID NOT WANT TO GO TO CUBA, BUT WOULD HAVE JOINED OSWALD THERE LATER IF HE HAD SENT FOR HER. OSWALD WENT TO MEXICO CITY FROM NEW ORLEANS VIA BUS AND RETURNED FROM MEXICO CITY TO DALLAS BY BUS. SHE DOES NOT KNOW HIS ROUTES. HE WENT ALONE AND SUBSEQUENTLY DID NOT MENTION ANY ACQUAINTANCES MADE ON THE TRIP. HE TOOK BETWEEN ONE HUNDRED SIXTY AND ONE HUNDRED EIGHTY DOLLARS WITH HIM AND WHEN RETURNED TO DALLAS HAD APPROXIMATELY SEVENTY DOLLARS. HE VISITED BOTH SOVIET AND CUBAN EMBASSIES IN MEXICO BUT FAILED TO OBTAIN

ENTRY PERMIT TO CUBA AS DESIRED. HE RETURNED TO DALLAS CONVINCED HE WOULD BE UNABLE TO ENTER CUBA.

MARINA SAID SHE WAS AWARE OF OUR INTEREST IN OSWALD-S TRIP TO MEXICO BECAUSE OF CLOSE QUESTIONING THIS POINT. SHE SAID SHE HAD NOT TOLD INTERVIEWING AGENTS OF THIS TRIP BECAUSE SHE DOES NOT LIKE THE FBI AND BECAUSE SHE WANTED TO SAVE SOMETHING TO TELL THE COMMISSION.

SHE ADVISED OSWALD HAD TOLD HER AFTER THE WALKER INCIDENT HE HAD PRACTICED WITH RIFLE IN A FIELD. ONE NIGHT IN JANUARY OF SIXTYTHREE WHEN THEY RESIDED AT THE NEELEY ADDRESS HE WAS CLEANING HIS RIFLE AND WHEN QUESTIONED CONCERNING THIS TOLD HER HE HAD BEEN PRACTICING THAT DAY. SHE RECALLS ONE EVENING IN MARCH SIXTYTHREE OSWALD WALKED WITH HER FROM HOUSE WITH RIFLE WRAPPED IN RAINCOAT FOR ABOUT FOUR BLOCKS AND THEN BOARDED A QUOTE LOVE FIELD BUS END QUOTE. SHE WENT ON TO A STORE NEARBY. HE RETURNED ABOUT NINE P M AND TOLD HER HE HAD PRACTICED FIRING RIFLE. SHE TOLD HIM HE WOULD BE ARRESTED AND HE HAD REPLIED THAT NOONE HAD HEARD HIM FIRE THE RIFLE. SHE DID NOT TELL THE COMMISSION OF THIS FIRING PRACTICE INCIDENT IN MARCH DURING HER INTERROGATION IN WASHINGTON.

END PAGE THREE

EVEN TODAY MARINA WAS DEVIOUS CONCERNING THE FIRING PRACTICE UNTIL SHE WAS CAUTIONED TO TELL THE WHOLE TRUTH CONCERNING ALL INCIDENTS, EVENTS AND PERSONS CONCERNING WHICH SHE IS QUESTIONED. QUESTIONING WILL CONTINUE TOMORROW PARTICULARLY ON THIS POINT OF THE FIRING PRACTICE.

SHE DID NOT DISCUSS THE WALKER INCIDENT WITH ANYONE AND DOES NOT BELIEVE OSWALD DID. SHE DENIES PRIOR KNOWLEDGE OF OSWALD'S INTENTIONS TO ASSASSINATE WALKER.

THE RIFLE WAS WRAPPED IN NEW ORLEANS BY OSWALD AND EVIDENTLY TRANSPORTED TO DALLAS IN THE PAINE STATION WAGON ALTHOUGH THIS IS SUPPOSITION ON HER PART. SHE FIRST SW THE RIFLE APPROXIMATELY ONE WEEK AFTER RETURN TO DALLAS IN SEPT. LAST. RIFLE WAS WRAPPED IN THE BLANKET. SHE DID NOT SEE IT AGAIN UNTIL SHOWN IT BY THE COMMISSION DURING HER INTERROGATION IN WASHINGTON.

AS FAR AS SHE KNOWS NEITHER OF THE PAINES KNEW OSWALD HAD A RIFLE OR KNEW THE RIFLE WAS IN THE PAINE GARAGE.

MARINA DESCRIBES MRS. PAINE AS TALKATIVE AND A PERSON YOU COULD NOT TELL A SECRET FOR SHE COULD NOT KEEP IT. MARINA KNOWS NOTHING OF THE QUOTE OCT. TWENTYTHIRD END QUOTE ENTRY IN MRS. PAINE'S DIARY.

END PAGE THREE

TWO OR THREE DAYS AFTER THE WALKER SHOOTING MARINA SMELLED SMOKE IN THEIR RESIDENCE ON NEELEY. SHE FOUND OSWALD IN THE BATHROOM BURNING PAGES FROM A LOOSE LEAF NOTEBOOK WHICH HE SAID CONTAINED HIS PLAN TO ASSASSINATE WALKER. SHE SAW A BUS SCHEDULE IN THE NOTEBOOK. OSWALD HAD TWO PHOTOGRAPHS IN HIS HAND. SHE ASKED TO SEE THEM. THE PHOTOS WERE OF A HOUSE.

OSWALD IDENTIFIED THEM AS OF WALKER'S HOUSE. SHE DOES NOT KNOW WITH WHICH CAMERA OSWALD TOOK THE PHOTOS. ALTHOUGH , SHE BELIEVES IT WAS THE U. S. MADE CAMERA. SHE BELIEVES HE DEVELOPED AND PRINTED THE PHOTOS HIMSELF AT HIS EMPLOYMENT. OSWALD HAD TWO CAMERAS AS PREVIOUSLY RELATED. ONE A RUSSIAN MADE THE PHOTO OF WHICH SHE IDENTIFIED. THE OTHER WAS A U.S. MADE BOX TYPE CAMERA BUT NOT THE STEREO REALIST A PHOTO OF WHICH WAS SHOWN HRER ALSO. SHE STATED HAD NEVER SEEN THE STEREO DASH REALIST. SHE COULD NOT IDENTIFY THE MINOX LIGHT METER. SHE STATED SHE CANNOT FIND ANY NEGATIVES AMONG HER EFFECTS.

MARINA VOLUNTEERED THAT SHE HAD BROKEN WITH MARTIN HER MANAGER AND THORNE HER ATTORNEY BECAUSE SHE BELIEVES THEM

DISHONEST WITH HER MONEY. MARTIN TOLD HER SHORTLY AFTER CHRISTMAS SHE HAD RECEIVED ABOUT SIXTY THOUSAND DOLLARS IN DONATIONS. SHE SAID SHE WAS PRESENTED A CONTRACT FOR SIGNING IN EARLY DECEMBER WHICH CONTRACT CALLED FOR MARTIN TO RECEIVE FIFTEEN PER CENT AND THORNE TO RECEIVE TEN PER CENT OF ALL DONATIONS AND FUTURE EARNINGS. LEON GOPADZE, SECRET SERVICE AGENT THEN ON SPECIAL AT DALLAS, TRANSLATED IT FOR HER AND ADVISED HER NOT TO SIGN IT. LATER AND STILL IN EARLY DECEMBER SHE SIGNED A CONTRACT TO GIVE MARTIN FIFTEEN PERCENT AND THORNE TEN PER CENT OF FUTURE EARNINGS ONLY.

MARINA COMPLAINS MARTIN IS DELAYING GIVING HER THE MONEY DEPOSITED FOR HER. SHE BELIEVES HIM DISHONEST. STATED MARTIN PROFESSED HIS LOVE FOR HER DILY WHEN SHE RESIDED HIS HOME. MARINA STATED SHE DESIRES TO GET HER MONEY AND RENT A HOUSE AND THEN LATER BUILD A HOUSE IN DALLAS.

INTERVIEW TO CONTINUE TOMORROW.

Dear Mr. Rankin:

Reference is made to my letters (two) dated February 17, 1964, dealing with entries in a 1963 calendar maintained by Mrs. Ruth Paine and with the revelations of a confidential source concerning the relationship in Washington, D. C., between James Herbert Martin and Marina Oswald.

Marina Oswald was reinterviewed on February 17 and 18, 1964, in Dallas, Texas. She stated that she first knew about Lee Harvey Oswald's trip to Mexico about one week prior to her departure from New Orleans for Dallas in September, 1963. She previously planned to return to Dallas and Oswald planned to return with her; however, he subsequently decided to go to Mexico for the purpose of entering Cuba.

Marina Oswald stated she did not want to go to Cuba but that she would have joined her husband there later if he had sent for her. She said her husband went to Mexico City from New Orleans by bus and returned from Mexico City to Dallas by the same means. She maintained she did not know the routes he traveled.

She said Oswald traveled alone and subsequent to the trip did not refer to any acquaintances made during his trip to Mexico. She said Oswald took between $160 and $180 with him and on his return, had approximately $70. She said Oswald visited both the Soviet and Cuban Embassies in Mexico City but failed to obtain an entry permit to Cuba. She reported that Oswald, on his return to Dallas, was convinced he would be unable to enter Cuba.

Mrs. Oswald admitted being aware of our interest in her husband's trip to Mexico because of previous close questioning on this point. She said she had not told the interviewing Agents about this trip because she did not like the FBI and as she wanted to save something to tell the Commission.

Mrs. Oswald said further that her husband told her after the General Walker incident that he practiced with a rifle in a field. On a night in January, 1963, when they resided at the Neeley Street address, Oswald was cleaning his rifle and when she questioned him concerning this, he told her he had been practicing that day. She recalled an evening in March, 1963, when Oswald walked with her from their residence with the rifle in a raincoat. After a walk of about four blocks, Oswald boarded a Love Field bus and she went on to a nearby store. When Oswald returned about 9 p.m. he told her he had practiced firing the rifle. At that time Mrs. Oswald said she told her husband he would be arrested and he replied to the effect that no one heard him fire the rifle. Mrs. Oswald said that she did not relate to the Commission the facts concerning her husband's rifle practice in March, 1963.

When pressed concerning her statement regarding Oswald's cleaning his rifle in January, 1963, Mrs. Oswald said that to her knowledge Oswald owned but one rifle which he received by mail sometime during their residence on Neeley Street in Dallas. She stated she was confused when she advised that Oswald was cleaning his rifle at the Neeley Street address in January, 1963. She said she first saw the rifle on a shelf in Oswald's room on Neeley Street and she would estimate the time she first saw it to be near the end of March, 1963. About seven to ten days after first seeing the rifle, she took the picture of Oswald with the rifle, the pistol and the newspapers. Mrs. Oswald said she recalled taking the picture on a Sunday. Following this, she recalled seeing Oswald clean this rifle four or five times before the General Walker incident and on about one occasion after the incident and prior to their move to New Orleans. On one of these occasions while cleaning his rifle before the Walker incident Oswald told her he had practiced firing with the rifle. Oswald did not say when this practice occurred. Mrs. Oswald concluded that her husband may have practiced firing the rifle on the other occasions when she saw him cleaning it. She said she could not recall any specific incident connected with the other occasions that he was cleaning the rifle which would have indicated to her that he had practiced firing it. She said it was possible that Oswald may have practiced with the rifle on these occasions as this was the period during which he attended night school and she would not have known if he practiced firing the rifle instead of attending school.

Honorable J. Lee Rankin

In connection with the specific incident in March, 1963, when she and Oswald walked from the Neeley Street address at which time Oswald had the rifle wrapped in a raincoat, she recalled Oswald telling her that it was his intention to practice with the rifle. She stated that on that occasion she saw him take a bus from the bus stop about three blocks from the Neeley Street address. She believed this bus stop to be on Beckley Avenue. She said she did not know exactly which bus Oswald boarded but that she associated the name "Love Field" with the trip because she knows that a bus marked "Love Field" stops at the bus stop in question and she recalled that Oswald told her he practiced firing the rifle in a "field." She stated further that she can read the English word "field."

Mrs. Oswald said that she had never discussed with anyone the General Walker incident and she expressed the belief that her husband never discussed the incident with anyone other than herself. She denied prior knowledge of Oswald's intention to assassinate General Walker.

Concerning the presence of Oswald's rifle in the garage of the Paine residence, Mrs. Oswald said the rifle was wrapped in New Orleans by her husband and was evidently transported to Dallas in Mrs. Paine's station wagon. She emphasized that this is supposition on her part. She claims to have first seen the rifle at the Paine residence approximately a week after returning to the Dallas area in September, 1963. She said the rifle was wrapped in the blanket and that she had not seen it again until it was displayed to her by the Commission during her interrogation in Washington. She maintains that as far as she knows neither Michael Paine nor his wife knew that her husband had a rifle or knew the rifle was in the Paine garage. Mrs. Oswald described Mrs. Ruth Paine as talkative and as a person who could not maintain a confidence. She said that she knew nothing of the notation at the top of the page of Mrs. Paine's calendar for the month of March, 1963.

She said further that two or three days after the General Walker incident she smelled smoke in their residence on Neeley Street whereupon she determined Oswald was in the bathroom burning pages from a loose-leaf notebook which he said contained his plan to assassinate General Walker. She saw a bus schedule in the notebook and said that Oswald had two photographs in his hand. Upon asking to see them, she determined they were pictures of a house, at which time Oswald

identified them as photographs of General Walker's home. She said she does not know which camera Oswald utilized to take these pictures, although she believes it was the American-made camera. She expressed the belief that Oswald developed and printed the photographs himself at his place of employment.

She maintained that Oswald had two cameras, one of Russian manufacture, a photograph of which she identified. She said the other was an American-made box-type camera but not the Stereo Realist, a photograph of which was displayed to her. She maintained she had never seen the Stereo Realist. She said that she could not identify the Minox light meter and that she cannot find any photographic negatives among her effects.

Mrs. Oswald said that she believed she took the photograph of Oswald with the rifle and pistol with her husband's American camera. She said that this camera was grayish in color, something like aluminum and she described it as a box-type camera although she was not completely sure as to whether there was an extended bellows. She recalled that she sighted the camera by looking into a viewer at the top. She maintained that she does not know where this camera is presently located.

Concerning the presence of the license number of the Government automobile utilized by Special Agent James P. Hosty, Jr., which number appeared in Oswald's address book, Mrs. Oswald admitted jotting down the license number of Agent Hosty's automobile on an occasion when he called at the Paine residence. She said she did this because Oswald told her to jot down the license number of any car used by any FBI Agent who came to the house in order that he would know it was an FBI car. She said she gave to Oswald the piece of paper on which she wrote the license number.

During the interview Mrs. Oswald volunteered that she had broken with her manager, James H. Martin, and with her attorney, John M. Thorne, because she believes them to be dishonest with her money. She said that Martin told her shortly after Christmas she had received about $60,000 in donations. She said that early in December, 1963, she was presented a contract for signing which called for Martin to receive fifteen per cent and Thorne ten per cent of all donations and future earnings. She said that Leon Gopadze, Secret Service Agent then on special assignment in Dallas, translated the contract for her and advised her not to sign it. Later, and still in early December, 1963, she said she signed the contract to give Martin fifteen per cent and Thorne ten per cent of future earnings only.

She complained that Martin is delaying giving her the money deposited for her and she believes him dishonest. She said further that Martin professed his love for her daily when she resided in his home. She said that it is her desire to obtain her money, rent a house and then later build a house in Dallas.

Our interview of Marina Oswald is continuing and further details will be furnished to you as received.

Sincerely yours,

This morning Mr. Dulles sat beside me at an annual Boy Scout breakfast held at the Statler Hotel, to which I was invited by Dr. Ray Miller. While this wasn't an appropriate place to discuss in detail the work of the President's Commission on the Oswald case, Mr. Dulles did make one or two statements which may be of interest.

He indicated that they were not having any major problems and that from the standpoint of the FBI there were no worries. He further indicated that the Commission did not plan to call many witnesses. In fact, he thought that the number might be quite small. Mr. Dulles said he was taking a couple of days off to rest in Florida.

Mr. Dulles said to me that they plan to have Mrs. Marguerite Oswald before the Commission but he didn't think that she would help matters much or have anything of value to contribute. Later in the morning Mr. Sam Papich of Liaison was talking to Mr. Dulles, who advised Mr. Papich on this very point, adding that Mrs. Oswald may demand a public hearing and if she did it might be difficult not to grant it to her, although at this time the final outcome of such action is not definite. He said to Mr. Papich about the same that he did to me; expressly, that they had to go through the exercise of calling her before the Commission to get rid of her.

Dear Mr. Rankin:

In connection with the inquiry of the Commission, we thought that you might be interested in the attached summaries, which deal with two other United States citizens who went to Russia and returned to the United States.

Both of these individuals, Libero Ricciardelli and Robert Edward Webster, have advised that at no time did the Soviets attempt to obtain classified information from them or to recruit them for intelligence work in the United States.

LIBERO RICCIARDELLI

Libero Ricciardelli lived in Russia from February, 1959, until June, 1963, along with his wife and three children. On his return to the United States, he was interviewed by Agents of this Bureau and furnished information concerning himself and his life in Russia. A summary of these interviews is set forth as follows.

Ricciardelli was born in Needham, Massachusetts, June 18, 1917, and was educated through the tenth grade. After serving in the United States Army Air Corps from 1942 to 1947, he was demobilized and became a plasterer. He married in 1944 and has three children born in 1946, 1948, and 1950.

In 1953 Ricciardelli was having domestic problems and when his wife refused to visit a psychiatrist, he began unsupervised reading in the fields of psychology and philosophy. As a result, he decided to take his wife and three children on a visit to Russia, a socialistic state. They traveled to Russia February, 1959, on round-trip tickets.

After arriving in Moscow, Ricciardelli ran out of money in a short time and then became hospitalized for a period of 21 days. When he returned from the hospital arrangements were made with the International Red Cross for financial assistance. Ricciardelli stated that during the next few months his family problems, mental worries, and poor health caused him to become mentally disturbed. Finally, his wife stated that she was going to return with the children to the United States and at this time Ricciardelli decided to stay in Russia. By this act he felt that he was cutting away from the past and was also making certain that his children would be given an education. He requested that he be sent to a climate more beneficial to his health and he was sent to Kiev. His wife and children refused to accept Soviet passports.

ENCLOSURE

Libero Ricciardelli

In the Summer of 1960 Ricciardelli was on vacation in a Russian Government vacation resort. One night he stayed out of the hotel after midnight and found himself locked out. When he attempted to climb the wall and enter the hotel by the balcony, he was stopped by a policeman who demanded an explanation. This act made Ricciardelli feel that he was actually in prison rather than on a vacation.

As a result of his general disappointment with life in Russia and the above incident, he and his wife began to plan to leave the Soviet Union. They decided to go to Czechoslovakia which they considered to be more Westernized than any of the other satellites. He visited the Czechoslovakian Embassy in Moscow and applied for visas to enter that country. After a period of complete confusion for the next two years, Ricciardelli was finally informed that visas would be granted for travel to Czechoslovakia. However, they were then informed by the Soviet Government that they would not be permitted to leave the Soviet Union.

In August, 1962, Mrs. Ricciardelli decided she would return to the home of her parents in Illinois and Ricciardelli would return to the home of his parents in Massachusetts. Since Mrs. Ricciardelli still had her American passport, she was able to leave Russia on March 27, 1963.

When Ricciardelli applied for his passport at the American Embassy in Moscow, he was told that he was no longer an American citizen. He then filed an application for a visa to return as an alien to the United States. The visa was issued on June 14, 1963, but he was required to remain in Moscow for fourteen days because of confusion over the status of his oldest daughter's citizenship. His problem was finally resolved and he left Russia June 28, 1963.

At no time did anyone ever ask Ricciardelli anything about his service in the United States Air Force. In addition, no attempt was made to have him join the Communist Party. He was requested on several occasions to make a speech to groups of workers at the plant where he was employed but he refused to do so. He was urged to vote in Soviet elections but he never did so. Before his departure from Russia he was not interviewed by any official of the Russian Government nor by any members of the Soviet press. At no time did anyone ever attempt to recruit him to act on behalf of the Soviet Government after his return to the United States.

ROBERT EDWARD WEBSTER

Robert Webster lived in Russia from August, 1959, until May, 1962, when he returned to the United States. He has been interviewed by this Bureau and the following is a summary of the information he furnished.

Webster was born October 23, 1928, at Tiffin, Ohio. He served in the United States Navy from August, 1947, until May, 1950. In November, 1957, he began employment with the Rand Development Company, Cleveland, Ohio.

In 1959 Webster made three trips to Russia to represent his employer at the American National Exhibition in Moscow. In March, 1959, he was in Moscow for one week, in May, 1959, and June, 1959, he was there for seven weeks and his third visit began in July, 1959. At this time he was married and the father of two children. During his third trip to Russia, he requested permission to remain there.

The thought of remaining in Russia came to Webster during his second trip in 1959; however, at that time he made no effort to remain there. Shortly after his arrival in Moscow in July, 1959, he discussed this with Alexander Shiskin, an English-speaking Russian official at the exhibition, and Shiskin arranged for an interview with one Popof. At this meeting Webster filled out a questionnaire furnishing his background and expressing his wish to remain in Russia to better himself in the plastics industry. Popof did not accept this reason and Webster then changed it to state that he wanted to stay in Russia since all business in the United States was controlled by the Government.

XEROX
FEB 14 1964

Webster was interviewed on four occasions by Popof and other persons. The interviews were aimed at determining if Webster was certain that he wanted to stay in Russia and to determine his technical qualifications and experience. Three days before he was scheduled to leave Russia, he received permission to remain there. In company with a male Intourist guide, he traveled to Leningrad, Russia.

62-109090-12 ENCLOSURE

Robert Edward Webster

Webster has stated that his decision to remain in Russia was based on several things. First, he desired to escape his family responsibilities in the United States. Secondly, his wife had objected to the travel necessitated by his job and, finally, he was seriously in debt.

In addition to the above reasons, when Webster was in Moscow on his second trip, he had met one Vera Platonova, who was separated from her husband. Their friendship was surreptitious, as Soviet nationals were not supposed to mingle with foreigners. After Webster had received permission to remain in Russia and had been in Leningrad for two weeks, he was permitted to telephone Platonova and she was permitted to visit him in Leningrad. Webster then traveled to Moscow where he officially renounced his American citizenship to American officials and then went on a one-month vacation with Platonova.

After this vacation Webster and Platonova returned to Leningrad and he became employed at the Plastics Institute, with Platonova as his interpreter. His job was to establish a Fiberglas Department since there was none in the institute. During this time he and Platonova resided in a common-law relationship which resulted in a daughter being born on August 18, 1960. He also attempted to design a Fiberglas rosin depositor, but due to the lack of parts and equipment, the machine did not work.

About December of 1959 Webster received a letter from his father informing him that his mother had suffered a mental breakdown and that he was needed at home. This letter disturbed Webster and in May, 1960, he traveled to Moscow accompanied by Platonova on official business. While in Moscow he contacted the American Embassy to determine the necessary procedure to return to the United States. When he returned to Leningrad, he began steps to obtain the required Soviet documents and in August, 1960, made his first application for a Soviet exit visa. About two months later he was told the request had been denied and that he would have to wait one year before reapplying. One year later he again made an application and the exit visa was granted in February, 1962. On March 12, 1962, the American Embassy advised him that his Soviet exit visa was approved and he was given instructions regarding the obtaining of an American visa.

Regarding his efforts to leave Russia, Webster stated that Vera Platonova made no effort to persuade him to remain in the Soviet Union, but she assisted him in preparing forms and obtaining various documents which he needed. When it became known that Webster wanted to leave Russia, two men from Moscow interviewed him for about fifteen minutes and asked him to reconsider his decision. He told these men he wanted to return to his wife and children and to see his sick mother. No pressure was exerted on him and no political matters were discussed.

Webster has stated that he was not aware of any participation of Soviet intelligence personnel in his interviews or otherwise either before or after his defection. He was not aware if Vera Platonova was ever contacted by Soviet intelligence. Further, to the best of his knowledge Soviet intelligence exhibited no interest in him before his departure to the United States. No requests were made of him and no agreements were made in return for his exit visa. The only question concerning American defense matters occurred when some engineers from Moscow asked him what Government work was handled in the Rand Company and Webster denied any knowledge of this, which he said was true.

Webster arrived back in the United States on May 20, 1962, as an alien admitted under the Russian quota.

Mr. Malley received a call from Lee Rankin a few minutes ago, requesting his presence, as representative of the FBI, at a meeting at 4:15 p.m. today, of representatives of CIA, State Department, and FBI, at which Chief Justice Warren will be present.

The purpose of the meeting is to deal with the possibility of utilizing CIA for investigation outside the U.S. regarding Oswald's activities. During such investigation some of our information, as well as information of other agencies, would need to be turned over to CIA for use in the inquiries, and CIA may have to furnish this information to their contacts abroad.

If the Director agrees, our position will be that we want to cooperate with the Commission in every way possible and consequently our information can be used. We would like to know, in advance, what information of ours is to be used, so that we can determine if the furnishing of such information to CIA's contacts abroad will raise problems, possibly regarding compromise of our sources.

Rankin did not mention his appointment with Hoover for 3 pm today.

At 5:10 p.m., 2-11-64, Julius Frandsen, who is head of the United Press International Bureau here in Washington and is a very good friend of the FBI, advised Wick that he had written a letter to Chief Justice Warren. Background of the matter is that Mr. Frandsen was appointed to serve this year as Chairman of the National Committee on Freedom of Information of Sigma Delta Chi, national professional journalism fraternity. Wick is a member of Sigma Delta Chi, which holds monthly meetings attended by top news, radio and television men in the Washington area at the National Press Club.

Frandsen told Wick that in his capacity as Chairman of the Freedom of Information Committee he had written a letter to Warren. He wondered if he had done the right thing. He said that about 10 days ago he became increasingly concerned about the Warren Commission's stifling of information and the seemingly incongruous action of Warren little by little giving snide hints of what the Commission would find, and yet at no time indicating when findings of the FBI and other investigating agencies would be made available to the American public. Frandsen therefore wrote a letter about 10 days ago asking the Chief Justice for an expression of his reasons for keeping the public in the dark and asking at what time he intended to make available to the public what newsmen are inclined to believe the American public should have based on a completed FBI investigation. He told the Chief Justice that in his position as Chairman of the Sigma Delta Chi National Committee on Freedom of Information he would expect a reply.

Frandsen says that to date the Chief Justice has not seen fit to answer his letter and in the words of Frandsen, "I guess he didn't like it too much."

At 2:55 p.m., 2-13-64, Wallace Terry of "Time" magazine telephoned and asked Wick if we could be of any help to him on the reason for Marguerite Oswald, mother of the assassin, being in town to testify before the Warren Commission. Terry said it seems strange to "Time" people that the Commission would waste its time listening to "evidence" she purportedly had in her possession. It is all the more difficult to understand why, said Terry, the Chief Justice would make a statement that her appearance had not changed things in the least.

Terry asked Wick for the connection which Lane has with "National Guardian," the left-wing New York City weekly. Wick told him he may wish to check with the House Committee on Un-American Activities (HCUA) for the background of this publication. He said he would do this. As to his other questions, Wick told him we could not help him.

Sirs:

In your 3 February editorial on the Birch Society adv., you contend that "It is presumptuous of the Birchers to conclude that Lee Harvey Oswald shot the President 'under orders' from the Communists or anyone else while the episode is still under investigation by the Warren Commission."

Is it any less presumptuous for the head of that Commission to join with the official U. S. Communist voice, The Worker, in blaming this Marxist assassination on right-wing extremists?

The alacrity with which President Johnson accepted The Worker's suggestion that Chief Justice Earl Warren head such a Commission, the unadulterated joy expressed by the C.P.U.S.A. at the speedy compliance with that suggestion, the secrecy surrounding the full F.B.I. report, and many additional political "angles", lead me to doubt that either the F.B.I. report or the Warren Commission findings will be released to the public - in full and unedited - until after the elections next November. And I don't mean released so close to the elections that they cannot be properly weighed.

May the Warren Commission (which controls both reports) prove me wrong.

Sincerely yours,

Kenneth D. Robertson, Jr.

Mr. Warren on Secrecy

Chief Justice Earl Warren, chairman of the commission investigating President Kennedy's assassination, has said some rather astounding things in the last few days.

First—after having listened to the opening testimony of Mrs. Marina Oswald, Russian-born widow of the accused assassin—Mr. Warren has declared that "security" considerations may make it necessary to suppress some of the commission's findings during the lifetime of most of us.

Second, as an after-thought, the Chief Justice has sought to clarify and tone down this startling and highly disturbing statement by describing it as a comment made a bit facetiously but also factually—a comment based on certain amorphous possibilities involved in Oswald's trips to Russia and Mexico. Hence, in Mr. Warren's words, it may be necessary to withhold some items of information, although the inquiry thus far has disclosed no such items.

We think the Chief Justice has made a great mistake in giving voice to these confusing and self-contradictory remarks. They are remarks that serve only to sow seeds of doubt and suspicion in support of the brooding and mischievous people, at home and abroad, who still believe that the Kennedy tragedy was not the work of one obscure little man with a warped brain, a gun and a senseless desire to kill the President of the United States.

These people—and perhaps there are many more of them overseas than in the United States—may have been conditioned by mystery stories and novels of diplomatic intrigue. But they hold to the theory that the Kennedy assassination can be explained only in terms of some kind of national or international plot involving sinister characters in very high places. This is nonsense, of course, but it still grips a lot of minds.

It is because of this background that Mr. Warren's remarks seem especially unfortunate. What conceivable kind of "security" would require his commission to play the role of censor? And how could any such action be squared with President Johnson's directive instructing the commission "to satisfy itself that the truth is known as far as can be discovered, and to report its findings and conclusions to him, to the American people and to the world?"

This is a question of the highest importance. No veil should be drawn over any aspect of it unless the whole commission, in concert with Congress and the White House, agree that there are facts here and there that need to be kept covered.

Meanwhile, or so it seems to us, the chairman of the commission would do well not to issue statements that he himself has been obliged to describe, on second thought, as a mixture of facetiousness and fact.

all too true!

On this date Assistant to the Director J. P. Mohr advised Mr. Malley that information had come to his attention that the captioned individual, a neighbor of Mr. Mohr's, was to be assigned to the President's Commission on the Assassination of President Kennedy. Mr. Mohr advised that Goldberg is a Historian with the Air Force and teaches part time at the University of Maryland.

Bureau files have been reviewed and revealed that Goldberg was investigated in 1954 under the Security of Government Employees Program, at which time he was a Historian with the Air Force.

The attached memorandum from Mr. Mohr to Mr. Tolson, dated 11-23-55, summarizes information in Bureau files concerning Goldberg. Bureau files contain no additional information re Goldberg. (140-2449)-30

SUBJECT: CONGRESSMAN HALE BOGGS (D. - Louisiana)

While discussing other matters with Mr. J. Lee Rankin of the President's Commission today, Mr. Rankin made available an envelope addressed to Congressman Hale Boggs, New House Office Bldg., Washington, D. C. In the upper left-hand corner of the envelope, the return address had been blacked out. Mr. Rankin advised that the envelope had contained a rather nasty hate-type letter to the Congressman and the Congressman had mentioned to Mr. Rankin that he would appreciate the Bureau making an attempt to ascertain the writing in the blacked-out area. Mr. Rankin stated that inasmuch as the Congressman is a member of the President's Commission he was passing on the request.

Mr. Rankin advised he did not care to know the actual results of the Laboratory's work in this matter other than to satisfy his curiousity of whether we would be able to come up with the answer. He stated he would appreciate it if the Bureau would furnish the actual information developed directly to Congressman Boggs.

Mr. Rankin was advised this matter would be handled promptly and the Congressman and he would both be advised if we were successful in developing the blacked-out information.

ACTION:

(1) The Laboratory is requested to immediately attempt to develope the writing in the blacked-out portion of the attached envelope.

Handle promptly sent to Laboratory

(2) The results of the Laboratory examination should be furnished to Congressman Boggs by DeLoach's office.

(3) Malley will advise Mr. Rankin in the event the Laboratory is successful in developing the writing in the blacked-out portion.

SUBJECT: Congressman Hale Boggs (D-Louisiana)

An envelope addressed to Congressman Hale Boggs, New House Office Bldg., Washington, D. C., with the return address blacked out was referred to the Laboratory with memorandum dated 2/14/64 to Mr. Belmont from A. Rosen. Purpose of referral to Laboratory was that an attempt be made to determine blacked-out return address. Congressman Boggs, a member of The President's Commission, had asked Mr. J. Lee Rankin of The Commission to turn the envelope over to the Bureau for examination.

The return address has been determined to be as follows:

SUITE 604 DE MONTLUZ BLDG.
234 LOYOLA AVENUE
NEW ORLEANS 12, LOUISIANA

The underlined letters are those which could not be definitely determined from the examination. However, the December, 1963, issue of the New Orleans, Louisiana, Telephone Directory, lists a "DE MONTLUZIN BUILDING" at 234 Loyola Avenue, New Orleans, Louisiana.

ACTION: (1) The return address as set out above was furnished orally 2/14/64 to Mr. DeLoach in order that he could furnish it to Congressman Boggs and to Mr. Malley in order that he could furnish it to Mr. Rankin.

(2) The original envelope is attached to Mr. Rosen's copy of this memorandum in order that it may be returned to Congressman Boggs.

FROM : MR. BRANIGAN

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

On 2-25-64 Mr. J. Lee Rankin of the President's Commission advised Inspector Malley that he would like to have the Bureau make arrangements to have any talks or meetings at which Mark Lane appears recorded by any means. Mr. Rankin indicated that he was interested in having the whole meeting recorded as distinguished from Lane's participation. The purpose is that the Commission wants a record so that they can check it and make a determination as to whether they will answer Lane's comments or charges.

Mark Lane has been publicly announced as having been retained by Marguerite Oswald as attorney for her son, Lee Harvey Oswald. He is an unsavory character and is on the Bureau's Reserve Index. He has been making public appearances sponsored by various left-wing organizations. On 2-26-64 Inspector Malley received a request from Howard Willens of the President's Commission for coverage of appearances by Marguerite Oswald. Mr. Willens noted that on the night of the 24th (or 23rd) of February, Marguerite Oswald appeared on a two-hour radio program over radio station KYW, Cleveland, Ohio. The program was called "Contact" and Marguerite Oswald answered questions. Mr. Willens requested that the Bureau check with the radio station to secure a recording of the program if such is available. Willens also noted that allegedly Marguerite Oswald is to appear on a radio program in Boston either on the night of 2-26 or the night of 3-2-64. Willens requested that the Bureau endeavor to arrange to get a recording of this appearance and he asked that the Bureau establish coverage of the future appearances of Marguerite Oswald.

OBSERVATIONS:

It will be noted that the requests of the Commission are extremely broad and if literally interpreted could pose a serious investigative burden on us which would also be of great potential embarrassment. We do not maintain a physical surveillance on either Mark Lane or Marguerite Oswald. We have

SOVIET SECTION

MEMORANDUM FOR MR. SULLIVAN
RE: LEE HARVEY OSWALD

no assurance that either or both would not appear at a closed Communist Party (CP) meeting. The only way that we could assure that we covered any appearances at any meetings by these people would be to place them under close physical surveillance and it might be anticipated that they would soon discover this and raise resultant protest.

At the same time, the Commission's request for a recording raises the question as to the desirability of having Agents in attendance at meetings with recording devices on their persons. These meetings could be held in public halls where the management would be sympathetic to communist causes and thus the reliability and cooperation of such individuals would be extremely doubtful.

ACTION:

In view of the above, it is believed that we should limit our coverage to publicly announced meetings and appearances where Lane and/or Marguerite Oswald are to participate. We should limit our coverage to obtaining recordings of these public appearances through contacts and sources and the field should be advised that in any instance where it will be necessary for Bureau personnel to attend a meeting with a recording device, specific Bureau approval will be necessary.

If you approve, there is attached a letter to the Commission defining the coverage that we will attempt to perfect for the future public appearances of Lane and Marguerite Oswald. We are also advising the Commission that as to past public appearances, we will endeavor to obtain a recording or transcript if such are available through contact with reliable individuals only. Our New York Office had previously furnished a letterhead memorandum and a transcript of the meeting which was held at Town Hall, New York City, on the evening of 2-18-64 and these are being furnished to the Commission as enclosures to this letter in addition to a letterhead memorandum from the Milwaukee Office re a meeting before students at the University of Wisconsin, Madison, Wisconsin, 2-16-64. Instructions to Dallas, New York and Boston are being separately handled by teletype.

REC-38 [illegible]-75

February 26, 1964

FEB 26 11 09 AM '64
RECD-READING ROOM
FBI

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to your discussion with Inspector J. H. Malley of this Bureau on February 21, 1964, at which time you requested that we make available to the Commission information we could obtain concerning James Norbert Martin. You indicated you did not desire we conduct upon investigation in this matter but requested that all information be made available through confidential sources of our Dallas Office.

On February 24, 1964, [redacted] Statler-Hilton Hotel, Dallas, Texas, made available to this Bureau the personnel record for Martin maintained by [redacted] office. This record revealed that Martin was born October 6, [illegible], at St. Louis, Missouri. He was employed by the Statler-Hilton Hotel, St. Louis, Missouri, on October 3, 1960, and was transferred to the Dallas Statler-Hilton Hotel on February 21, 1962, as Assistant Manager. He was later made Credit Manager of the Hotel. On July 20, 1963, Martin left the Statler-Hilton Hotel in Dallas and was employed as a salesman for the Carte Blanche Credit Card Company, which is a part of the Statler-Hilton Hotel chain. Martin was subsequently employed as Manager of the Gay Nineties, which is a private club located on Maple Avenue, Dallas, Texas. After the Gay Nineties Club closed, Martin was employed by the Jack Murphy Insurance Company, Corrigan Towers, Dallas, Texas.

NI CITA 1963

[redacted] further advised that approximately one day before Martin left Dallas on route Washington, D. C., "to testify before the Committee," Martin indicated that after "his testimony was taken" he was planning to return to Dallas where a person, unidentified, with plenty of money was to open motels in Dallas and Silver City, New Mexico. The motels were to be known as "Hospitality Inn" and Martin was to be part owner.

On February 24, 1964, [redacted], Statler-Hilton Hotel, Dallas, Texas, advised this Bureau that he was transferred from the Boston office of the Statler-Hilton February 1, 1956, and not Martin who was transferred from the St. Louis office about the same time. According to [redacted] both he and Martin worked in the same office, [redacted] working as Assistant Reservation Manager and Martin as Credit Manager. [redacted] stated that Martin always had a scheme to get rich quick during the time he knew him and he recalled Martin working as a Manager at the Gay Nineties Club in Dallas, Texas. He added that this club was in the name of Clay Martin, no relation to James Herbert Martin, and the club was owned by Mike Abraham, an oil man out of New York, New York.

[redacted] advised this Bureau that the Merchants Retail Credit Association records, Dallas, Texas, contain the name of James Herbert Martin, wife Wanda, residing at 11011 Farrar Street, Dallas, Texas. Martin was listed as the owner of this property and it was indicated he had four dependents. Martin's name first appeared in credit records March 9, 1953, and was last checked February 13, 1959. His credit rating was satisfactory with an indication there was one slow account of $132 owed to the Carte Blanche Credit Card Company.

These credit records also disclosed that Martin was employed by the Statler-Hilton from 1956 to 1958 and was later employed by the Six Flags Inn with no date indicated. Martin was first listed as being in credit records in St. Louis in 1957 and when transferred to Dallas he resided at 920 Shady Side Street, Dallas, Texas. Martin's birth was listed as October 6, 1926, St. Louis, Missouri. His father was listed as Herbert J. Martin, 1010 Pine Street, St. Louis, Missouri.

Honorable J. Lee Rankin

Records of the Merchants Retail Credit Association, Dallas, Texas, also reveal that Martin served in the U. S. Navy from 1943 to 1945.

On February 24, 1964, [redacted] Six Flags Inn, Arlington, Texas, advised this Bureau that Martin was employed May 3, 1962, as Club Manager for the private club at the motel and on May 23, 1962, Martin was promoted to Resident Manager of the Inn. According to [redacted] Martin resigned as Resident Manager of the Six Flags Inn December 15, 1963.

For your additional information, your attention is directed to the report of Special Agent Robert P. Gemberling dated January 22, 1964, at Dallas, Texas, entitled "Lee Harvey Oswald, aka; IS - R - Cuba." Pages 220 through 222 of Special Agent Gemberling's report set forth additional data concerning Martin developed by this Bureau. Pages 223 and 224 of Special Agent Gemberling's report set forth results of our interview with James Herbert Martin on January 15, 1964.

Sincerely yours,

J. Edgar Hoover

NOTE: Memo Rosen to Belmont 2-22-64 set forth results of contact of Inspector Malley of the Bureau by Mr. Rankin of the President's Commission. Mr. Rankin indicated that the Commission was endeavoring to have James Martin voluntarily appear before the Commission on Thursday, 2-27-64. Mr. Rankin requested Bureau make available all info it could obtain concerning Martin for the Commission's use in interviewing him. Data herein sets forth the desired background data available thru our Dallas sources.

SUBJECT: WALTER EARLY CRAIG
(PRESIDENT AMERICAN BAR ASSOCIATION (ABA))
PRESIDENT'S COMMISSION

This memorandum is to advise of the receipt of a name check request from General Services Administration (GSA) on behalf of the President's Commission concerning the captioned individual. GSA is being furnished copies of the Departmental applicant reports prepared in 1963, which developed no derogatory data.

As you were advised in my memorandum of 1-24-64, GSA, at the request of the President's Commission, is handling security investigations concerning staff employees of the Commission.

This morning Ralph Given of GSA telephonically advised (as has appeared in the press this date) that the President's Commission had appointed Craig to represent the interests of Lee Harvey Oswald in the investigation into the assassination of President Kennedy. Given stated that he had received a request from J. Lee Rankin, General Counsel of the Commission, indicating that in this capacity Craig will have access to classified data. Rankin requested GSA to initiate necessary action to obtain a security clearance for Craig.

Craig was the subject of a Departmental applicant investigation in 1963, when under consideration as a U.S. District Judge, which developed no derogatory data. Our relations with him have been very cordial and he is on the Special Correspondents' list. (77-93346)

As a matter of interest, Craig has been confirmed as U. S. District Judge for Arizona, but plans to complete his term as President of ABA before assuming the Judge's duties.

ACTION:

Copies of the investigative reports are being furnished GSA in response to its request.

ENCLOSURE

Dear Fellow American:

This letter presents to you an urgent appeal for personal financial assistance.

The necessity for such an appeal arises from the fact that during the time which elapsed between October 13, 1961 and November 15, 1963 I voluntarily assumed financial obligations the cumulative total of which exceeds fifty thousand dollars ($ 50,000.00.) This money is either due now or in the immediate future; therefore as the situation now stands fifty thousand dollars is the price which I personally must pay for accepting the responsibility of operating the National Indignation Convention and for assuming the responsibility of traveling the length and breadth of our Republic in an attempt to establish at the precinct level political coordinating committees manned by politically astute American patriots regardless of their political party affiliation.

In all of this work I have never asked anyone for personal assistance. I have been generous to a fault with everything I have because I love our people, our Way of Life, and our Republic. Now I need your help. Won't you please be generous with me? If you give, let us say, ten dollars ($ 10.00), then raising the amount of money needed will be individually painless.

If your contribution is by check please make it payable to the Frank Mc Gehee Fund, 3737 Van Ness Lane, Dallas 20, Texas. All who contribute will be notified of the success of the drive which will close when the money is raised or when it becomes apparent that it cannot be raised.

Please assume the responsibility for showing this letter to all interested persons.

Yours for God and Country,

Frank P. Mc Gehee

P. S. The outcome of the greatest struggle ever engaged in by free men for the preservation of individual liberty and in defense of the dignity of the human person is not yet determined. Since a dedicated Marxist-Communist has now assassinated the Chief Executive of our Republic we must realize that the battle for survival is not only being waged in every corner of the free world but now is being fought WITHIN the borders of the United States as well. Obviously it is not a "Cold War." That is a phony expression. It is World War III, the hottest war in which we ever have engaged! It is my sincere prayer that our Lord Jesus Christ will protect and sustain you and yours now and always as the battle rages around us.

NOTE:

Bureau files reflect that Frank B. McGehee is the originator of the National Indignation Convention, Dallas, Texas, which convention was established to protest training of Yugoslav pilots at Perrin Air Force Base, Texas, and the sale of American jet planes to Yugoslavia. In 1961 McGehee attempted to get in telephonic contact with the Director. He also attempted at that time to obtain a personal appointment with the Director. He was advised that the Director was unavailable but that he could speak to an assistant if he came to Washington or visit the Dallas Office. He was interviewed by two Agents on 10/30/61 but refused to furnish them any information. In 1961 McGehee was part-owner of an auto garage in Dallas and attended night law school at Southern Methodist University. He is reportedly an ardent member of the John Birch Society. The American Eagle Publishing Company is a Dallas company which has been known in the past to put out "Right Wing" pamphlets.

Dear Mr. Hoover:

1. On page 163 of the Report prepared by SA Gemberling dated November 30, 1963, it is stated that the FBI Laboratory has determined that "the rifle, K1, is a 6.5 mm Mannlicher-Carcano Italian military rifle, Model 91/38." On page 39 of the Report prepared by SA Gemberling dated January 22, 1964, it is stated that the Bureau's Confidential Informant DL T-1 has reported that the K1 rifle is "a Model 91 Rifle, 7.35 caliber, 1938 Modification" and that "the description of a 'Mannlicher-Carcano' Rifle is in error." Could you please inform us of the proper designation of the rifle, including its name and caliber, and of the actual caliber, as measured by micrometer.

2. Could you please obtain and send to us originals or (if necessary) photographic copies of all documents relating to the K1 rifle, including the related purchase orders, invoices, shipping documents, bills of lading, shipping records, receipts, sales records, inventory records, etc. of Crescent Firearms, Inc., Fred W. Rupp, North Penn Transfer, Inc., Lifschultz Fast Freight Company, Klein's Sporting Goods, Inc. and United States Post Office. In this connection, we note that photographs of two of these items have been previously furnished to us at pages 15 and 18 of Volume I of your Book of Exhibits. We wonder whether you could furnish us with sharper reproductions, since much of the text on pages 15 and 18 cannot be easily read.

3. On page 206 of the Report prepared by SA Gemberling on December 10, 1963, it is stated that on July 5, 1962, Century Arms, Incorporated of St. Albans, Vermont, sent to Aldens of Chicago a shipment of 6.5 mm. Italian carbine rifles, including a rifle bearing the serial number 2776, which had been received by Century Arms from Empire Sporting Goods of Montreal, Quebec, Canada. Could you please obtain and send to us originals or (if necessary) photographic copies of all documents relating to this rifle, including the related purchase orders, invoices, shipping documents, bills of lading, shipping records, receipts, sales records, inventory records, etc. of Empire Sporting Goods, Century Arms, Inc., Aldens, and any other person or firm which owned or handled this rifle.

4. Could you please furnish us with the following data relating to the Kl rifle: (a) weight; (b) length; (c) length of largest component when disassembled; (d) length of time required to (i) disassemble and (ii) reassemble; (e) what tools, if any, are needed to perform these operations; (f) if any tools are needed, whether such tools have been found or were generally available at the Beckley Street rooming house, the Paine garage or the Texas School Book Depository; and (g) how far, in what direction, and at what angle to the Kl rifle an ejected cartridge travels.

5. On page 395 of the Report prepared by SA Gemberling dated November 30, 1963, it is stated that on November 25, 1963, Dial P. Ryder, the service manager of the Irving Sport Shop, located repair tag number 18374, undated, bearing the name "Oswald" as the owner of a gun being repaired and reflecting the work as "drill and tap $4.50" and "bore sight $1.50" which work said Mr. Ryder was done between November 1 and November 14, 1963. On page 65 of the Report prepared by SA Gemberling on December 23, 1963, it is stated that according to Mrs. Edith Whitworth, Oswald came into the Irving Furniture Mart, on November 6, 7, or 8, 1963, in the belief that it was a gun repair shop, and was directed to a gun repair shop approximately a block and a half away. Could you please furnish us with repair tag 18374. Also, could you please furnish us with information relating to the following questions: (a) was the sight on the Kl rifle definitely mounted when Oswald received it, as indicated at page 3 of the Report of SA Shanahan dated December 10, 1963; (b) if it was, is there any evidence that it was subsequently

remounted; (c) did any persons with the name "Oswald" other than Lee and Marina Oswald live within the general area served by the Irving Sport Shop at the time in question; (d) if so, have these persons been interviewed to determine if any of them brought a gun into the Irving Sport shop to have a scope mounted; (e) is the Irving Sport Shop within one block and a half of the Irving Furniture Mart; (f) if it is not, how far away is it, and is there any gun repair shop within the immediate area of the Irving Furniture Mart.

FROM : A. Rosen

SUBJECT: LEE HARVEY OSWALD
ST INTERNAL SECURITY - RUSSIA

While discussing other matters with Mr. Howard Willens of the President's Commission on February 20, 1964, Mr. Willens advised the Commission had received from the State Department an FBI report captioned, "Funds transmitted to residents of Russia, Internal Security - Russia," this report having been prepared by SA John W. Fain dated May 12, 1960, Dallas, Texas. Mr. Willens advised this report contains the results of an interview with Marguerite Oswald, the mother of Lee Harvey Oswald, and relates that Mrs. Oswald had transmitted a check in the amount of $25 to her son while he was in Russia. Mr. Willens stated that this report was not made available by the FBI; however, some of the information set forth in the May 12, 1960, report is set forth in a subsequent FBI report of SA Fain at Dallas dated July 3, 1961, under the caption, "Lee Harvey Oswald". (The two reports referred to above were reviewed by the Domestic Intelligence Division and Inspector Moore advised the July 3, 1961, report contains a summary of all pertinent information that was set forth in the May 12, 1960, report. This procedure was followed so that all pertinent information concerning Oswald would be set forth in the Case File relating to subject Oswald.)

Mr. Willens advised that the Commission had received from the State Department an FBI report captioned, "Fair Play For Cuba, Internal Security - Cuba" prepared under date of October 25, 1963, by SA Warren C. DeBrueys at New Orleans. Willens states all pertinent information in this report relative to Oswald is set forth in a subsequent FBI report under the caption of "Lee Harvey Oswald."

62-109090

Willens inquired whether there was any special reason the foregoing reports had not been made available to the Commission or whether the Bureau had summarized the information so that all of the data would be available under the case captioned, "Lee Harvey Oswald." Mr. Willens was advised that the Bureau would be very happy to make available the two reports he had referred to. He was told that all pertinent information had been included in reports under the caption, "Lee Harvey Oswald" and therefore there was no necessity for the Bureau to make the two reports mentioned available to the Commission as they did not contain any new information. He was also advised that based on a check of the Bureau files all

ASSASSINATION OF PRESIDENT

DALLAS, TEXAS

President's Commission

PURPOSE:

To recommend the attached letter be sent to the President's Commission in answer to its inquiry concerning Mrs. Shirley Martin of Hominy, Oklahoma, with whom we have had prior unsatisfactory dealings.

DETAILS:

Mr. J. Lee Rankin, General Counsel, President's Commission, by letter dated 2/18/64 advised the Commission had received several communications from Mrs. Martin. In the communications she reportedly showed an interest in Mrs. Ruth Paine of Irving, Texas (Mrs. Oswald resided with Mrs. Paine from 9/24/63 to 11/22/63), and in one of her letters states she had just returned from a visit with Mrs. Paine. Mr. Rankin stated it would be helpful if we could furnish the Commission with any information in our files concerning Mrs. Martin and that in the absence of any such information he desired we interview her so that the Commission could evaluate her interest in the Paines.

BACKGROUND:

We have handled several communications from Mrs. Martin, the latest dated 2/10/64. Some of her letters were directed to the Department of Justice and referred to us, and others were addressed to the Director. One communication asked why we had shown Oswald's mother photographs of Ruby before her son was murdered. This letter was acknowledged and she was told no such photographs had been shown. She

immediately wrote back and asked if any photographs had been shown. This communication was received at the same time we were handling a referral from the Department in which Mrs. Martin claimed to have seen a photograph of an individual on a roof top with a rifle. Since she did not identify the photograph, she was interviewed for this purpose. The Oklahoma City Office also advised Mrs. Martin that all evidence developed by the FBI was being forwarded to the President's Commission and we were making none of the information public as this would be the responsibility of the Commission.

By airtel dated 1/31/64, Oklahoma City advised Mrs. Martin had been contacted on 1/10/64, by SA Jack H. Bales. The photograph was identified as one in the 12/14/63 issue of "The Saturday Evening Post." In view of the Commission's request, two copies of the photograph will be enclosed for Mr. Rankin. Further, we are making efforts to locate the original of the photograph through "The Saturday Evening Post" for the use of the Commission.

Oklahoma City advised during the contact Mrs. Martin took SA Bales' name and credential number and was extremely antagonistic. Her attitude was such that SA Bales believed her to be mentally disturbed. She claimed SA Bales had come to question her and when he had told her he had come in response to communications she had sent to the Department and the FBI, and not to question her, she interrupted and said "you asked me my name, didn't you?" During the course of the conversation she demanded to know Mr. Hoover's age, why he had never married and asked if Agents still had to have their hands "swabbed" before they shook hands with the Director. It was obvious to SA Bales that Mrs. Martin was deliberately attempting to provoke an argument. When told the information developed by the FBI would be furnished to the President's Commission, she interjected, "all," "all of it?"

Memorandum to Mr. Belmont
RE: ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY

Her most recent letter to the Director is dated 2/10/64 and she stated she was discouraged to read in the 12/8/63 issue of the "New York Times" that the Secret Service had suggested Marina Oswald would be safer and it would be easier for her if she returned to the Soviet Union rather than to try to live in the United States. She states since Mrs. Oswald has made it clear she does not want to return to the Soviet Union, this forces one to question whether or not her testimony before the Warren Commission was spontaneous. She asks, "What is the law regarding undue pressure?" This letter was not acknowledged, however because she mentioned the Secret Service, a copy of her communication was forwarded to the Secret Service.

Bureau files also indicate Mrs. Martin has written to other prominent individuals such as Senator Robert S. Kerr (D-Okla.), deceased, and has gone as far as to write to Premier Walter Ulbricht of East Germany indicating she had read about the death of a young East German Boy and desired to know their side of the story.

The Oswald's met Ruth Paine through Russian emigre groups as early as April, 1963. This association continued and on 9/24/63 Marina Oswald went to reside with Mrs. Paine who was separated from her husband at that time.

To date we have disseminated to the President's Commission 38 reports on Ruth Paine and her husband.

RECOMMENDATIONS:

1. That the attached letter be sent to Mr. Rankin, General Counsel of the President's Commission, outlining our prior experience with Mrs. Martin. In this letter we will point out that the Commission has already received reports relating to the Paines and that we will not interview Mrs. Martin in this matter unless specifically requested to do so by the Commission at this time.

2. Dallas being instructed to interview Mrs. Ruth Paine of Irving, Texas, concerning Mrs. Martin's contact with her and the results will be furnished to the President's Commission. It is pointed out we have interviewed Mrs. Paine on numerous occasions in the past and she has always displayed a cooperative attitude.

3. Will follow efforts of field to locate original of photograph appearing in "The Saturday Evening Post" and will furnish same to the President's Commission as soon as it is located.

Memorandum

TO : Mr. Mohr

DATE: February 25, 1964

FROM : C. D. DeLoach

SUBJECT: ALLEGATION THAT OSWALD WAS AN FBI INFORMANT

Reference my memorandum 2/10/64 to you indicating that we had traced down the above-captioned rumor to one Colonel Philip Corso, who is currently employed by Senator Strom Thurmond, Dem.-S.C. Referenced memorandum reported the results of the interview with Colonel Corso on February 10th, 1964. At that time, Colonel Corso indicated that his "sources in CIA had merely presumed that Oswald was an informant for the FBI." I specifically asked Colonel Corso in Senator Thurmond's presence to identify these sources. He promised that he would contact the sources and then contact me again on 2/11/64 to indicate whether the sources would be willing to be interviewed or not.

When Colonel Corso failed to recontact me by 5:00 p.m., 2-11-64, I called him. He stated he had not yet had an opportunity to recontact his sources. He stressed that his sources had no facts but that their belief that Oswald was an informant for the FBI merely stemmed from idle deduction during a conversation. He stated that he was responsible for leading the discussion in this regard inasmuch as, based upon his extensive experiences with military intelligence, he felt that any American citizen who was given a job in the Soviet Union, allowed to marry a Soviet citizen, and allowed to bring his wife back to the United States, could only be an FBI or CIA informant. Colonel Corso indicated that he had no facts whatsoever to base his deductions upon, and neither did his CIA friends. I told him that nevertheless we would like to confront his CIA friends and tell them too that these so-called "deductions" were absolutely false and that this was a scurrilous rumor to be spreading around. Colonel Corso promised to contact me within the next 3 days.

When Colonel Corso did not contact me by the afternoon of 2-25-64, I called him again. He first would not accept the call, but upon the occasion of my second call to him the same afternoon, he came on the phone and apologized by stating that he had been traveling for Senator Thurmond and had not had a chance to call me. We went over the same facts once again whereupon he indicated that inasmuch as his "CIA friends" had no facts whatsoever he did not want to reveal their identity. He emphasized the fact that his allegations had been strictly deductions and had no basis in fact. I told him this was a pretty poor way of doing business, particularly for a man who supposedly had been trained in intelligence operations. I let him know in no uncertain facts of the work he had caused us as well as the fact that I intended advising Senator Thurmond of the outcome

of this incident. He asked if I would come up and have lunch with him sometime in the future, and I told him this did not appear to be necessary under the circumstances.

ACTION:

As indicated by memorandum of 2-10-64, Colonel Corso is a "dreamer" who uses no logic in conversation and who is extremely difficult to pin down to specifics. I doubt very seriously that he has any "CIA friends" who have discussed these allegations or made these "deductions" with him. For this reason, I see no basis upon which we could approach CIA and protest this matter.

For record purposes.

SUBJECT: ASSASSINATION OF THE PRESIDENT
PHOTOGRAPH OF LEE HARVEY OSWALD
WITH RIFLE AND REVOLVER
"LIFE" MAGAZINE 2-21-64

J. Lee Rankin, General Counsel of the President's Commission, by letter dated 2-21-64 to Mr. Hoover stated that Congressman Ford requested that the Commission ascertain the circumstances under which a photograph of Lee Harvey Oswald, shown with a rifle and a revolver, was released to the press. Mr. Rankin stated he believed this particular picture was made available to "Life" magazine and various newspapers by Mr. Thorne or Mr. Martin on behalf of Marina Oswald.

ACTION TAKEN:

I had Wick contact Mrs. Martha Bucknell, Office Manager of Life Inc. Bureau in Washington who is very friendly. Mrs. Bucknell told Wick today that "Life" magazine purchased the photograph of Lee Harvey Oswald shown with a rifle and a revolver (which appears on "Life" cover of 2-21-64) from Mrs. Marina Oswald through her, then, agent James Martin. Mrs. Bucknell said she understood the photograph came from a family scrapbook maintained by Marina Oswald. Mrs. Bucknell further said that her New York Headquarters cautioned her in connection with this matter by stating that "Life" is concerned by the publication of the photograph, carried on "Life" cover, by other publications and is contemplating suit against those papers which published it. However, "Life" desires that this development be kept confidential. It will, however, be proper to so inform the Commission but it is hoped, said Mrs. Bucknell, that the matter not be widely publicized at this time prior to the actual filing of the suits by "Life."

ORIGINAL FILED IN

Mrs. Bucknell said she did not know how any of the other papers obtained a similar photograph. She said she thinks that perhaps the Detroit News reporter in Dallas at the time of the assassination obtained a copy but she is not certain. She stated it would seem likely that Associated Press, which distributed the photograph, obtained a copy from the Dallas Police Department or through its contractual relationship with the Detroit News distributed it to AP clients.

Re: Assassination of the President, Photo of Oswald with Rifle & Revolver

Jerry O'Leary, Jr., of the Washington Evening Star, who arrived in Dallas the night of 11-22-63, advises as follows: Deputy Sheriffs and Dallas Police Department detectives, he believes, arrived at the Payne home in Irving around 2:30 p.m. or 3:00 p.m., Friday, 11-22-63. O'Leary understands that the officers started searching, Mrs. Payne objected, whereupon they told her they would get a search warrant. O'Leary thinks these officers took photographs back to the police department or the Sheriff's Office which they obtained in the Payne residence from Marina Oswald. O'Leary says he believes the photograph carried by "Life" on its 2-21-64 issue was among those taken by the police. O'Leary says that either late the night of 11-22-63 or the morning of 11-23-63, he saw a copy of the photograph in the hands of a police officer.

O'Leary said further that he learned confidentially from George Hunt, who is Managing Editor of "Life" in New York, and a good friend of O'Leary's, that "Life" paid Marina Oswald (through James Martin her agent) $5,000 for the photo in question and others. O'Leary said he understood the Detroit News got the photo the same way, by purchase from Martin. At any rate, on 11-23-63, copies of this photograph were available in Dallas through the police. It is believed that the copy brought back to FBI Headquarters by Special Agent Vincent Drain was a copy obtained from the police.

Jerry ter Horst, Washington Bureau Manager of the Detroit News, today advised Wick that his paper, as well as others, obtained the photo utilized by "Life" on its 2-21-64 issue, from the Associated Press. He said the issue seems somewhat clouded because of the fact that so far as he knows, not a single publication printed the photo until "Life" magazine published it. He said he thought this had something to do with the fact that "Life" magazine claims the photo was purchased, and the other publications, including AP clients, were afraid to publish it before hand because they feared being sued.

RECOMMENDATION:

That this memorandum be referred to the General Investigative Division so that consideration may be given to having our Dallas Office contact the Dallas Police Department and the Sheriff's Office to determine who first obtained the photograph in question, whether copies were made therefrom, what happened to the copies. It may be necessary to interview Mrs. Marina Oswald and Martin to determine their role in this matter and thus clarify how various newspapers came to possess the photograph of Oswald holding the rifle and revolver.

Dear Mr. Rankin:

The report of Special Agent Manning C. Clements of November 30, 1963, which was furnished to you, sets forth on page 210 an address for Jack L. Ruby of 4740 Homer Street, Dallas, Texas, in connection with the interview of George Senna, 4740 Homer Street.

For your information, the address of 4740 Homer Street was furnished to this Bureau by the Internal Revenue Service on November 25, 1963, in connection with certain information from the tax files of Ruby and Lee Harvey Oswald. It was stated that Ruby's address was taken from his 1959 tax return. In view of its close proximity to the address of Senna, who was an acquaintance of Oswald's, Senna was interviewed to determine if he also knew Ruby and if there was a possible connection between Ruby and Oswald.

As a basis for the interview Senna was advised that Ruby had formerly resided at 4740 Homer Street which was consistent with the information furnished by the Internal Revenue Service. Senna stated that he did not know Ruby and knew of no possible connection between Ruby and Oswald. Ruby actually has never resided at 4740 Homer Street, Dallas, Texas, which is verified by the fact that his correct address of 4727 Homer Street is clearly set forth in Ruby's 1959 tax return, a copy of which has been furnished to the President's Commission.

Honorable J. Lee Rankin

With regard to your request as to data available from the records of telephone calls made from telephones available to Ruby, the Southwestern Bell Telephone Company, Dallas, Texas, has advised that they normally record the date of a long-distance call, time of initiation, duration, and number called. If the call is person-to-person, the name of the person called is also recorded.

In an effort to identify associates of Ruby, we obtained available toll records showing date, duration, and number called of phones available to Ruby for as far back as they were still in existence. Specific times on calls made from these phones were obtained where available for the period November 22, 1963, through November 24, 1963, for the purpose of pinpointing Ruby's movements during this period. The results of these checks have been furnished to you.

In view of the telephone company's advice that the time of initiation of toll calls is possibly available on all of Ruby's toll calls, an effort will be made to obtain this information if specifically requested by the Commission to do so.

Investigation with regard to Ruby's having wired $25 by Western Union to Karen Bennett on the morning of November 24, 1963, indicated that Bennett told Ruby she needed money to pay her rent. There was no indication that a landlord or any one was pressing her for the money. Ruby's club where she performed was closed over that weekend and he had not paid his employees. Ruby stated he wired her the money because he did not want her to come by his apartment to pick it up.

Western Union records were thoroughly checked at Dallas where the money was sent from and at Fort Worth where the money was received thus verifying the fact the money had been actually sent. Karen Bennett resided at that time in a garage apartment in Fort Worth, Texas, at the rear of property reportedly occupied by Weldon L. Thomas who is not known to have been connected with Ruby in any way. Her landlord was not interviewed.

Honorable J. Lee Rankin

As you are aware, the trial of Ruby for the murder of Lee Harvey Oswald is currently in progress in Dallas and any investigation conducted by the Government regarding Ruby at this time could possibly become the subject of unfavorable speculations or publicity. If investigation regarding above matters is desired, it will be handled at the specific request of the President's Commission.

Sincerely yours,

J. Edgar Hoover

NOTE:

The Commission requested written confirmation of above information which was furnished to Mr. Willens of the Commission in the absence of Mr. Rankin by Mr. Malley on 2-20-64.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

Mr. Wesley James Liebeler of the President's Commission Staff telephonically called late in the evening of March 19, 1964, stating that he was en route the following day to Dallas, Texas, and he desired photographs of Lee Harvey Oswald and Jack Ruby to have in his possession while in Dallas. Mr. Liebeler was advised that there were no photographs immediately available and that in view of the short notice, it would be impossible to furnish same to him prior to his departure for Dallas. He was told that I would contact the Dallas Office on March 20, 1964, and make arrangements for him to be furnished photographs at the Office of United States Attorney H. Barefoot Sanders in Dallas.

Dear Mr. Rankin:

On March 8, 1964, a confidential source who has furnished reliable information in the past advised that on that date Marina Oswald had furnished him the following information.

Marina stated she had been told by Robert Oswald that new information had just been developed to the effect that Lee Harvey Oswald had been seen drinking Coca-Cola ten minutes after the President had been assassinated and Marina expressed doubt that Lee could have been "that calm." She also mentioned that someone had observed a man running across the yard of the building. Although Marina did not further elaborate to our source, she presumably was referring to the Texas School Book Depository building immediately following the assassination. Marina further commented that it is hard for her to believe that it was not Lee who committed the crime and she will not attempt to exonerate him. She also expressed doubt that Lee had an accomplice, commenting that she feels Lee shot President Kennedy, that he took a shot at General Edwin Walker and further shooting on his part could have been expected. She stated she feels these to be the facts, although she did not see Lee take the rifle during his visit with Marina on the Thursday prior to the assassination.

Immediately following these comments, according to our source, Marina stated that although she felt sure Lee did the shooting, she wondered if someone else was shooting also. She also said she thinks Lee wanted to do it, but perhaps there was someone else in addition to Lee. Marina agreed that the United States Government is trying to develop the true facts concerning the President's assassination but added that "only God knows." She further commented that if Ruby had not shot Lee, perhaps Lee would have told the story.

Marina also advised our source that under no circumstances will she meet with Lee's mother, Marguerite Oswald, and stated that Robert Oswald claims his mother is crazy.

The above is furnished for your information.

Sincerely yours,

J. Edgar Hoover

NOTE:

This information was taken from Dallas teletype 3064 as obtained by [redacted] during conversation between Marina Oswald and Mrs. Declan Ford. The so-called new information, page 27 of Dallas report 11/30/63, which has been furnished to the Commission, reported information from a Texas School Book Depository (TSBD) employee to the effect that she had seen Oswald with a Coca-Cola in the TSBD shortly after the assassination.

Classified "Secret" as we do not want the Commission to publish this information due to the nature of the source.

Reference is made to your letter dated February 24, 1964, requesting this Bureau to reinterview Mrs. Ruth Paine and to conduct any additional investigation deemed appropriate to determine the exactness of Mrs. Paine's memory regarding her stay with Marina Oswald at a motel in Texas just across the Louisiana line on the night of September 23, 1963.

Our letter of March 2, 1964, furnished the Commission results of our interview with Mrs. Paine and other inquiries by this Bureau in this matter. We also indicated that a copy of the registration card of the Rambler Motel, Waskom, Texas, regarding Mrs. Paine, would be furnished to the Commission.

Enclosed are two copies of the registration card of the Rambler Motel regarding Mrs. Paine. The enclosures have been assigned evidence number D-147 and the original of the enclosures is being maintained by the FBI Laboratory along with other evidence in this case. You will note that in our letter of March 2, 1964, we advised that Mrs. Paine stated this registration card is in her handwriting.

Dear Mr. Rankin:

Reference is made to your letter dated March 6, 1964, requesting certain information concerning the type of cartridges recovered in connection with the assassination of President John F. Kennedy and the ballistic characteristics of these cartridges.

The cartridges represented by the C6, C7 and C38 cartridge cases and the cartridge C8 are properly referred to as 6.5 mm. Mannlicher-Carcano cartridges. The bullets loaded into these cartridges are "ball" type bullets, which is a term applied to full-metal jacket bullets. The bullet weighs 161 grains. Chronograph tests were run on similar cartridges, using the C14 rifle, and the muzzle velocity was found to vary between 2085 and 2260 feet per second. The average velocity was 2165 feet per second. These muzzle velocity variations are well within the normal standards set for commercial ammunition. The muzzle energy for a 161-grain bullet having a velocity of 2165 feet per second is 1,676 foot pounds.

In reference to your question concerning the number of cartridges which the clip of the rifle, C14, will hold, it is to be noted that the clip will hold six cartridges. For your information, it is not necessary that the clip be fully loaded when inserted into the rifle.

Sincerely yours,

J. Edgar Hoover

Enclosed herewith are the original and five copies of a letterhead memorandum of information overheard by SA WILLIAM S. MEEHAN on 3/9/64.

Professor HELEN STEINBINDER, Professor of Law, Georgetown University Law Center, was talking to another faculty member, Professor JOHN BULMAN, in the faculty lounge at the Law School. In view of its possible value, it is being submitted. The nature of its being obtained has been withheld from the letterhead memorandum to preclude any jeopardy to the existent excellent relations that the agent has with the Law School and its faculty.

JACK L. RUBY;
LEE HARVEY OSWALD--VICTIM

It came to the attention of the Federal Bureau of Investigation, Washington, D. C., on March 9, 1964, that Paul D. Cantor, M. D., LL.D, an Adjunct Professor of Law and Professorial Lecturer in Medicine, Georgetown University, Washington, D. C., has previously been engaged by Attorney Belli, of the Jack Ruby case in Dallas, to handle legal matters with related medical aspects in the past. It was learned that Cantor has withdrawn from the Ruby case for the reason of his disliking the epileptic indication as an aspect of Ruby's defense. It was also stated the lack of knowledge by Cantor as to the source of funds for Ruby's defense had prompted him to withdraw from the case.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Dear Mr. Rankin:

It has come to the attention of this Bureau that Paul D. Cantor, M. D., LL.B, Adjunct Professor of Law and Professorial Lecturer in Medicine, Georgetown University, Washington, D. C., has in the past been engaged by Melvin M. Belli to handle legal matters with related medical aspects. It was learned on March 9, 1964, that Dr. Cantor has withdrawn from the Ruby case for the reason that he disliked the epileptic indication as an aspect of Ruby's defense. Also it was reported that Dr. Cantor's lack of knowledge as to the source of funds for Ruby's defense was a factor in prompting him to withdraw from the case.

The above is being furnished for the information of the President's Commission in view of Dr. Cantor's reported association with Mr. Belli, who is one of the defense attorneys for Jack L. Ruby.

Sincerely yours,

J. Edgar Hoover

ASAC Fields, Boston, called this afternoon with regard to Bureau teletype requesting that arrangements be made to obtain a recording for the President's Commission of Attorney Mark Lane's talk at Amherst College.

ASAC Fields advised that preliminary inquiry had determined that Lane had been requested to appear by a small group of students and the University had not been consulted prior to the invitation. He said that the talk was going to be held in a small room on the University campus and while the president is a very good contact, the chairman of the board of Amherst is John J. McCloy who is on the President's Commission. Fields said in view of this, Boston thought that it would be necessary to inform their source that the request to obtain a recording was from the President's Commission.

I told Fields that we were doing this at the specific request of the Commission and that further he could confidentially advise their contact of this fact. He said that this would be done and the Bureau would be advised if it was possible to obtain the recording and in the event further difficulties were encountered and it would be necessary to have Agents obtain recordings that specific Bureau authority would be requested.

ASSASSINATION OF PRESIDENT KENNEDY
11/22/63, DALLAS, TEXAS

Mr. Howard Willens of the Presidents Commission called today and referred to the Commission's letter of March 6, 1964 (received in this Division on 3/10/64) requesting an interview with Mr. Ken Murray of the Detroit Free Press. Mr. Willens requested that in addition to the interview with Mr. Murray, the Commission desired appropriate officials of the Detroit Free Press, Life Publishing Company, and the "New York Times" be contacted and requested to make available the photograph which each of these publishers had received from whatever source the photograph had been obtained.

Mr. Willens advised that in view of the allegation that there had been a leak at the President's Commission, they desired to obtain these originals to see if the photographs in question could possibly be identified as having come from the President's Commission. Mr. Willens stated he would confirm this request by letter and indicated that in the event the above-named publishers did not make the photographs available based on an oral request, the Commission would consider other action. Mr. Willens was advised this request would be complied with as quickly as possible.

In addition to the above, during the conversation Mr. Willens stated that Chief Justice Warren had indicated to members of the staff that the interviews with various witnesses before the President's Commission must be stepped up. He advised that the Commission was endeavoring to set up a schedule for witnesses to be heard on a daily basis during the entire day in order to speed up the Commission's work.

ACTION:

The Detroit and New York Officeswere instructed to try and obtain the requested photographs from the above-named publishing companies. Upon receipt of the requested information the results will be furnished to the President's Commission.

Dear Mr. Rankin:

Enclosed herewith for your information is a letterhead memorandum dated March 3, 1964, setting forth a letter to the Attorney General dated February 17, 1964, from one August Hoyer wherein he alleges he saw a person resembling Jack L. Ruby at the bus station in Lincoln, Nebraska, on November 16, 1963. Also included in the enclosed letterhead memorandum is available information from the files of our Omaha Office relating to Hoyer and this same allegation.

A copy of the letterhead memorandum has also been furnished to the Criminal Division of the Department of Justice. No additional investigation will be conducted concerning this matter unless specifically requested by the President's Commission.

NOTE:

Department furnished a letter dated 2/17/64 to the Attorney General from August Meyer which had no return address and the envelope was not furnished. In addition to the above Meyer relates that during week of 11/26/63 he saw a person in a bar in Cedar Rapids, Iowa, whom he was told was in a state of shock because his brother was in deep trouble in Dallas, Texas. Ruby's three brothers, Earl, who resides in Detroit, Sam, who resides in Dallas, Texas, and Hyman, who resides in Chicago, Illinois, were each interviewed during the week of 11/26/63 at their residences and no indication was given that they had been to or were connected with the Cedar Rapids, Iowa, area in any way. Omaha advised that Meyer contacted the Lincoln, Nebraska, RA on 12/3/63 and furnished the identical story about a foreign student at the bus station in Lincoln with a rifle who was en route to Dallas, Texas. He furnished a description of the student which bore no resemblance to Ruby's description and did not at that time state that he resembled Ruby which is contrary to his allegation in the letter to the Attorney General. The bus station was checked but no tickets were sold to Dallas between 11/15 and 18/63.

FROM : MR. W. D. GRIFFITH

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF PRESIDENT KENNEDY

My memorandum to you dated 2/26/64, set forth information that Life Magazine, purchasers of the original Zapruder assassination film, did not desire to permit "frame by frame" projection of the assassination film before the Commission for fear of possible damage to the film; that, however, Life Magazine had offered to make available slides of each picture represented on the assassination film, and the Commission had asked the Life Magazine representative to prepare such slides. My memorandum further set forth that arrangements were being made for the Laboratory to look at these slides following preparation by Life Magazine.

The New York Office has now advised that the initial test slides were made available to that office and are being forwarded by New York to the Laboratory. Mr. Eisenberg of the Commission staff on 3/6/64, telephonically requested that the FBI Laboratory review these test slides upon receipt in order to determine whether a full set of these slides would be of value in further examination of the Zapruder film. He requested that if the FBI Laboratory found the slides to be of value, that Life Magazine be advised to go ahead with the preparation of the complete set that Life Magazine had initially volunteered to produce.

ACTION:

The slides will be examined promptly upon receipt in the Laboratory and the Commission will be appropriately advised.

Dear Mr. Hoover:

Thank you for your letter of February 18, 1964, in which you forwarded to us a complete set of medical records of Fannie Rubenstein obtained from Elgin State Hospital, Elgin, Illinois.

A report incorporated therein from the Psychopathic Hospital of Cook County, Illinois, (a duplicate of which is attached hereto), indicates that other reports on members of the Ruby family may be available through other agencies in Illinois. The Psychopathic Hospital makes particular reference to the following reports: JFE 11-25-32, JSSB C.3-32, Rest Haven 8-11-30, JFE 7-13-29, WL.6-30-27, JHFS 2-15-26, MTS Racine 3-25-24, IJR 43-76 7-6-22.

The Commission would appreciate your obtaining and forwarding to it copies of those reports. In all probability, the report designated IJR 43-76 7-6-22 is identical to a report which has already been subpoenaed by the Commission from the Institute of Juvenile Research in Illinois. If that is true, it will be sufficient for your agency to indicate that we have already subpoenaed that document.

NOTE:

For full details see Rosen to Belmont memo, dated 2/19/64, captioned, "Assassination of President John F. Kennedy, 11/22/63, Dallas, Texas," RDR:mlt.

Briefly, this matter concerns the receipt of an anonymous letter at the Bureau, postmarked in Paris, France, in the above language which, when translated, apparently was intended for Chief Justice Warren. The translated letter implicated one Charles Watkins in the assassination and also accused him of being associated with Cuban communists. This material was furnished to the Commission and it was indicated because of the allegations we were checking it out. Based on investigation by our Jacksonville and New York Offices it was ascertained that the subject of the anonymous letter was Charles Leggett Watkins of New York City. It appears Watkins' wife, Margaret, has a brother, Stephen Relic, who resides in Paris, France, and whom she had been supporting. When this support stopped approximately two years ago he sent many threatening letters to them. According to Mrs. Watkins, her brother never works, has been in and out of jail in Europe on six occasions, and she has no doubt it was he who sent the anonymous letter. This concludes our inquiries and results being furnished the Commission as promised.

In connection with your letter of March 2, 1964, requesting that this Bureau obtain toll call records of Lewis J. McWillie, Las Vegas, Nevada, and others named for the period September 20, 1963, through November 22, 1963, please be advised that Mr. Vern L. Mr. Begoneh stated that the telephone company, he believes, still has toll records going back to September, 1963; however, they are only required to retain these records for six months and he expects that the September, 1963, records will be destroyed in the near future.

In view of the Central Telephone Company's refusal to furnish toll records in the absence of a subpoena duces tecum or a court order, no further effort will be made by this Bureau to obtain the requested toll records relating to Lewis J. McWillie.
